PLEASES SCHURMAN

Cornell President Sees Good in Big Philanthropy Scheme.

Believes Congress Should Grant Request for National Charter—Would Change Only One Small Detail.

Ithaca, N. Y. — In an address before the Cornell congress on Friday night President Jacob Gould Schurman of Cornell commended the scheme for the Rockefeller foundation for which congress has been asked for a national charter. President Schurman devoted his entire speech of several thousand words to this subject and in summing up he said:

"I recognize that section No. 2 of the bill, which defines the object of the Rockefeller foundation, authorizes and empowers that foundation to do anything and everything which may promote and advance human civilization, that is to say, morals and religion, art and science, manners and social intercourse, and all that concerns the political, economic, and material well-being of individuals and communities. This is a vast field for the exercise of philanthropy.

"But Mr. Rockefeller has conceived a vast scheme of philanthropy, for the benefit of his fellow citizens and mankind. His character, ability and organizing skill are adequate guarantees that he will carry out his scheme wisely and successfully, with beneficiable benefit and blessing to mankind. It is in the interest of the nation that he be given a free hand in the exercise of his colossal benefiscence. So long as he is active or his influence operative it would be wise and safe to give the foundation the sort of organization he desires. Neither now nor hereafter does it seem necessary to limit the scope of his benefiscence, which is coextensive with the efforts of mankind to attain a higher civilization.

"The only change I would desire to see in the proposed bill is the total or partial elimination of the method of selecting trustees by co-operation. The organization might well be left a close corporation, if Mr. Rockefeller so desires, for a generation. But after that time I am confident that it would inure both to the efficiency of the foundation and to the public welfare—to say nothing of the satisfaction of the sentiment of a democracy—if the majority of the trustees were appointed by the president of the United States, on the advice and consent of the senate, or selected by some other high abiding, governmental agencies that may fairly be regarded as representing the people of the United States, whose welfare is the primary object of the immense and glorious benefaction."

AIRSHIP RUNS AWAY TO DOOM

Zeppelin II., Belonging to German Army Post, is Wrecked in Gale.

Limburg-an-der-Lahn.—The Zeppelin II., one of the three dirigible balloons of the German government's aerial fleet, ran away and was destroyed. The airship, which was forced to descend here, owing to a storm, encountered while attempting a return trip from Homburg to Cologne, broke its moorings and without a crew drifted in a northeasterly direction. A half hour after its escape the dirigible dropped at Wellburg and was smashed to pieces.

Saves Train From Disaster.

Spokane, Wash. — Because the engineer put on brakes after his engine struck a defective switch near North Yakima a Burlington passenger train over the Northern Pacific rail road was saved from disaster. Engineer Gordon of Ellensburg and Fireman Meyers of Pasco were killed.

GIRL IS HELD AS DYNAMITER

Suspected of Wrecking Residence Occupied by Her Former Fiance and His Bride.

Prairie City, Ia. — Suspected of having exploded dynamite which tore almost to atoms the magnificent $12,000 residence of Jesse A. Quick, wealthy farmer, three miles east, Miss Mary Guthrie of Anamosa, Ia., has been arrested.

Occupants of the house escaped injury. In the home were Dr. Alexander Hall of Colfax, a former suitor of Miss Guthrie, and his bride, formerly Miss Myrtle Quick.

At one time Miss Guthrie and Dr. Hall were engaged to be married.

Runs for Ball; Drowns.

New York, April 25.—Louis Rose, a ten-year-old boy of Jersey City, running valiantly to catch a foul tip in a baseball game, fell head foremost into a shallow pond and stuck in the mud bottom. He was dead when pulled out.

AUTOS TO CROSS CASCADES

State of Washington to Complete Link in Highway Through Snoqualmie Pass.

Seattle, Wash.—Orders will be given immediately by the state highway commission for the construction of Snoqualmie pass road across the Cascade mountains, connecting the eastern and western sections of the state and completing a transcontinental automobile road. A gap of 15 miles in all that needs to be covered

FLORIDA'S MOST SUCCESSFUL FARM COLONY.

By Clement Yore.

I have just returned from a tour over the Dixie Highway. I left Chicago the 8th of March and nowhere did I see preparations for spring planting or activity equal to the farms until I arrived at Florida on the morning of the 8th.

I went through Fairfield, and I saw as I looked from the car windows the field of strawberries, and I counted over a dozen women working in those fields in the very lightest of summer apparel.

I was on a mission of inspection to the Burbank-Grain colony, located in Marion county, Florida, and I found this colony is not 30 days old, and I was very much due to suppose that one could see such development, indeed, but this is what I found.

I learned from the officials in charge of the colony that when the land was more than three-quarters sold, that the settlers and prospective settlers, who came to look the land from 20 to 30 a day! I went out to the colony on the line of the new railroad, which has been built especially to penetrate through the heart of this colony, and which connects with the Seaboard Air Line and the Atlantic Coast Line at Ocala.

I was both sides of this railroad as I rode through the colony, I saw fields in cultivation, new houses built and being built, men busily engaged in clearing the land, and I talked with the settlers and talked with people of these settlers and found a universal endorsement, both of the soil and the possibilities of the great colony.

I saw many spots in Florida in the course of my three weeks, but said that the colony I saw today is the spot for me. I saw some of the finest specimens of independent living, with half the toil necessary, with the comfort necessary of life, in all of my travels I am very frank to say I believe I find the Burbank-Grain colony better than any spot I saw in Florida.

The colony colony is building very fast, and it is almost impossible to so much a space to tell you about the progress.

I met Jess in the center of Marion County, which is the banner county of the state. It is touched upon both sides by great railroad systems, and with excellent transportation through the heart of the colony with a railroad which connects with these systems, within the colony itself, and the colony is located at the Ocala border of the county, and affording water transportation with the sea.

The New Home Land & Home Company has prepared a piece of literature which I believe is the most attractive I have seen. This book contains about 100 words, and is filled from cover to cover with actual photographic reproductions and is beyond question of a doubt one of the best pieces of literature ever published upon Florida.

I met a Chicago man or woman who is both an investment in farm lands, especially in Florida, is to read this great book before you make up your mind definitely where to locate. Just send the coupon below.

FREE FLORIDA FARM BOOK COUPON.

NEW SOUTH FARM & HOME COMPANY.
956 Merchants Loan and Trust Bldg., Chicago.

Gentlemen:—Please send me "The Area of Freedom," together with all other information you have, relative to Burbank-Ocala colony farms. It is understood that this is to be sent free. I will read your literature carefully, if you will send it to me.

Civilization and Missions.

There is a question that is larger than government or trade, and that is the moral well-being of the vast millions who have come under the protection of modern governments. The representative of the Christian religion must have his place side by side with the man of government and trade, and for generations that representative must be supplied in the person of the foreign missionary from America and Europe. Civilization can only be permanent and continue a blessing to any people if in addition to promoting their material well-being, it also stands for an orderly individual liberty, for the growth of intelligence and for equal justice in the administration of law. Christianity alone meets these fundamental requirements. The change of sentiment in favor of the foreign missionary as a single generation has been remarkable.

Evidently Not.

They had met at Bluepoint, L. I., two years before and were celebrating it by a little dinner at a cafe.

"I shall never forget how we became acquainted," he was saying. "So romantic, in swimming. That was when I first saw you. You went into three feet of water and got frightened. I rescued you from a watery grave and we were friends at once." He called the wafter. "Bring me the wine list," he said, explaining, "Because we began our acquaintance in a watery way, it needn't always be watery."

POSTUM FOR MOTHERS

The Drink That Nourishes and Supplies Food for Mother and Child.

"My husband had been unable to drink coffee for several years, so we were very glad to give Postum a trial and when we understood that long boiling would bring out the delicious flavour, we have been highly pleased with it.

"It is one of the finest things for nursing mothers that I have ever seen. It keeps up the mother's strength and increases the supply of nourishment for the child if partaken of freely. I drank it between meals instead of water and found it most beneficial.

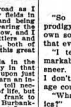
"Our five-year-old boy has been very delicate since birth and has developed slowly. He was white and bloodless. I began to give him Postum freely and you would be surprised at the change. Many any person remarks about the great improvement, we never fail to tell them that we attribute his gain in strength and general health, to the free use of Postum and this has led many friends to use it for themselves and children.

"I have always cautioned friends to whom I have spoken about Postum, to follow directions in making it, for unless it is boiled fifteen or twenty minutes, it is quite tasteless. On the other hand, when properly made, it is very delicious. I want to thank you for the benefits we have derived from the use of your Postum."

Read "The Road to Wellville," found in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

THE GREATER HONOR.



First Kid—My old man's locked up for shooting a dog.

Second Kid—Dat's nothin'. My old man's locked up for shooting a copper.

A Real Prodigy.

"So you think your boy is a prodigy? But every man thinks his own son is the most wonderful being that ever breathed."

"I tell you this youngster is remarkable, no matter how you may sneer. I've seen him do a thing that I don't suppose any other boy of his age could possibly do."

"What's his specialty? Mathematics?"

"Mathematics? I should say not. He hasn't any more of a head for figures than I have, and learning the multiplication table was the hardest work I ever did in my life."

"In what branch of science does he seem to be particularly interested?"

"He is interested in science as all; but the other day a friend of mine who has a big automobile left the machine standing in front of my house for more than half an hour, and, although the boy was playing around outside all the time he did not once climb into the automobile or even toot the horn."

Single Blessedness.

Emerson—There's nothing like single blessedness.

Waters—What! That sounds strange from a happily married man.

Emerson—I know. But I was very much afraid that the doctor was going to say "twins" last night.—The Circle.

Lewis' Single Binder gives a man what he wants, a rich, mellow, fragrant cigar.

Men are more or less afraid of a woman who is flattery proof.
