EIGHT YEARS OF TORTURE.

No suffering more keen than kidney suffering. Sick kidneys make bad blood; cause weak, stiff and aching backs; cause blind, sick and dizzy headaches, lack of appetite and loss of sleep; keep you all tired out and spoil digestion.

You have perfect health, you must cure the kidneys. Read how one man was cured by Doan's Kidney Pills after eight years of torture.

Henry Soule of Pultney St., Hammondsport, N. Y., says: "For eight years I suffered constant agony from kidney complaint. I endured the worst torture from gravel and the kidney secretions were excessive and contained sediment like brick dust. I had to get out of bed from ten to twenty times a night and the loss of sleep wore me out. Indigestion came on and the distress after eating was terrible. Doan's Kidney Pills effected a complete and lasting cure, and after the symptoms of kidney trouble were gone my stomach began to work as it should. This lasting cure, especially in a person of my age, proves the great value of Doan's Kidney Pills more convincingly than could any words of mine."

Doan's Kidney Pills sold by all druggists; price 50 cents per box, or mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y. Write for free trial.

Japanese Viscountess.

Viscountess Hayashi, wife of the Japanese ambassador to England, is a very charming member of the diplomatic circle, and both she and her husband possess hosts of friends. She owns the quaint and pretty name Miwa. On occasion days during the season the Japanese legation in Grosvenor Gardens see an influx of Japanese visitors, who are encouraged to enter the fashion of the far East with curious cake and native dishes, and Japanese tea. Viscountess Hayashi is an exceedingly cultivated woman, who shares her husband's love of England. The Japanese ambassador was, indeed, educated in England, and is a D. C. L. of Oxford university.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any catarrh that they cannot cure. Send for circulars and testimonials.

GERMAN LAWYER SEEKS JUSTICE FOR HEBREWS

Prussian Officer Tells Emperor Wilhelm That Army Has Barred All of Jewish Race.

Berlin cablegram: Much sensational comment has been caused by the publication of a correspondence between the kaiser and a daring Jewish lawyer, Feige of Breslau. Feige himself is a Prussian officer, and won the iron cross for valor in the Franco-German war. He wrote directly to the kaiser, complaining of the injustice of excluding Jews from commissions of rank in the Prussian army. This practice, he says, has gone unchecked for twenty-five years.

Feige's letter complains bitterly that his oldest son, at the completion of a year's service as a volunteer, was refused the customary promotion, and says "the reports show my son's conduct was absolutely blameless, and his commission was withheld solely because he was a Jew. As a loyal citizen and old soldier, I beg your majesty to undo this offensive, unmerited and humiliating wrong." Through the commander of the Sixth army corps the kaiser replied that commission was not granted because the men did not come up to the requirements for promotion.

Feige, in a second letter to the kaiser, bluntly retorts: "The explanation misrepresents the facts." Feige proceeds to understands the military authorities are bound to give an evasive answer, but he appeals to the kaiser to remove the causes which create in the Jew the bitter feeling that he is dishonored and an outlaw. Feige has not received a reply to this.

CORPORATIONS NEED NOT PAY STATE TAXES

Supreme Court Holds That it Involves Attempt to Tax Business Beyond Commonwealth's Jurisdiction.

Washington, D. C., special: Justice Holmes of the Supreme court of the United States delivered the opinion of the court in the case of James C. Fargo, president of the American Express company, vs. William H. Hart, auditor of the state of Indiana, reversing the decree of the Circuit court for the district of Indiana.

The case came from Indiana law of 1893, providing for the taxation of express companies, telegraph companies, etc., the consideration of which the express company resisted on the ground that the effect of it was to tax the outside property of the company. The Circuit court upheld the state authorities. The opinion of the Supreme court was based on the ground that the system of taxation proposed was an interference with interstate commerce.

"It invoked an attempt," Justice Holmes said, "to tax property beyond the jurisdiction of the state and to throw an unconstitutional burden on commerce among the states."

The chief justice and Justices Brewer and Day dissented.

TWENTY PER CENT TIN MILL CUT

Amalgamated Association Agrees to Submit Employers' Offer.

Pittsburg, Pa., special: A reduction of 20 per cent below the wage scale of 1903-04 is the proposition which will be submitted to the tin and sheet lodges of the Amalgamated Association of Iron, Steel and Tin Workers. The proposition is the outgrowth of a joint meeting of the general executive board of the association and the officials of the American Sheet and Tin Plate company in this city. Theodore T. Shaffer, president of the Amalgamated association, said that the proposed reduction was caused by the commercial stringency, the keen competition and the fact that there are about 20 idle mills of this kind. He said he was not confident that the reduction would result in idle mills starting up at once, but that in the opinion of the employers a few weeks hence the scale was actually assured would be required for the manufacturers to secure orders on the new basis.

TO LOWER TWO ILLINOIS DAMS

Resolution of Mr. Rainey Likely to Pass the House.

Washington dispatch: Representative Henry T. Rainey has secured a promise of recognition from Speaker Cannon on Monday or Tuesday for the purpose of calling up under unanimous consent, his resolution providing for lowering the government dams at Lock and Dam No. 1 at La Grange and Kampsville, at the expense of the Chicago drainage board. Mr. Rainey says he has removed all objection to his measure and that it will be passed without trouble. Once that is done the work of lowering the dams will not be long delayed. Engineer Randolph of the Chicago drainage board has prepared plans for the work, which have been approved by the war department. The dams will be lowered two feet each.

FABULOUS TREASURE IS FOUND

British and American Engineers Locate Treasure in Peru.

New York dispatch: After a search extending through several centuries and totalling the expenditure of many thousands of dollars the fabulous treasure buried in the time of the Incas and valued at $16,000,000 has just been discovered by a group of British and American engineers, according to a message brought to this city by a South American official.

Some Queer Hobbies.

Hobbies have been known to develop into absolute crazes, and it has been argued that, carried to excess, they occasionally invert our moral equilibrium. Yet hobbies reasonably treated have many points in their favor, and they have often been an undoubted boon to young people of both sexes.

We all know the boy or girl who has passed through the various phases of collecting, from white rats, rabbits and guinea pigs to birds' eggs and postage stamps; of the latter many boys possess collections of value. The picture postcard has evidently come to stay, it makes a pleasant souvenir of one's travels, and is indulged in by old and young indiscriminately.

The latest grown-up fad is the collecting of liqueur bottles, which are to be had in many quaint shapes. They are quite a familiar sight now in drawing rooms, on mantlepieces or tables.

Princess Ferdinand of Bulgaria collects perfume bottles, and inherited a collection from a relative which is said to be worth £5,000.

A well-known society women has a magnificent collection of fans, another of shoes of a bygone age, and so on. Hobbies go on in bewildering variety.

For Growing Girls.

West Pembroke, Me., March 21—Mrs. A. L. Smith of this place, says that Dodd's Kidney Pills are the best remedy for growing girls. Mrs. Smith emphasizes her recommendation by the following experience:

"My daughter was thirteen years old last November and it is now two years since she was taken sick with Crazy Spells that would last a week and would then pass off. In a month she would have the spells again. At these times she would eat very little and was very weak, even the whites of her eyes would be yellow.

"The doctors gave us no encouragement, they all said they could not help her. After taking one box of Dodd's Kidney Pills, she has not had a single spell. Her father also could use the treatment until she had used up all about a dozen boxes, and we still give them to her occasionally, when she is not feeling well. Dodd's Kidney Pills are certainly the best medicine for growing girls."

Mothers should heed the advice of Mrs. Smith. If we do so we may save their daughters much pain and sickness and insure a healthy, happy future for them.

A Bird's Foot.

The typical human hand, thumb, variously modified in the arm of a man or the forelimb of a cat or frog or bird, has one bone in the upper arm, which gives support to two in the forearm, which similarly yield to four at the wrist and from these five digits can just comfortably be extended. The bird, however, decided to fly rather than grasp with its hand, so that three and a half fingers are all it has retained of the five which its reptilian ancestors bequeathed to it.

"The World To-Day" has many features that will appeal particularly to the busy man, as it contains monthly the latest information in every department of human progress. THE OLD FOLKS AT HOME

Are Never Without Peruna in the House for Catarrhal Diseseas.

MR. AND MRS. J. O. ATKINSON, INDEPENDENCE, MO.

UNDER date of January 10, 1907, Dr. Hartman received the following letter:

"My wife had been suffering from a complicated disease for the past 25 years.

"Her case had baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing.

"She also was passing through that most critical period in the life of a woman—change of life. In June, 1906, I wrote to you about her case. You advised a course of Peruna and Manalin, which we at once commenced, and have to say it completely cured her. She firmly believes that she would have been dead only for these wonderful remedies.

"About the same time I wrote you about my own case of catarrh, which had been of 20 years' standing. At times I was almost pass going. I commenced to use Peruna according to your instructions and wonderfully improved. I am for about a year, and it has completely cured me.

"Your remedies do all that you claim for them, and even more. Catarrh cannot exist where Peruna is taken according to directions. Success to you and your remedies."

John O. Atkinson.

Jan. 10, 1907.

Dear Sirs:—I am a traveling salesman and have been using your Peruna for the past 25 years. I have a box full in the trunk now. Peruna is their safe-guard. Peruna is the only remedy yet devised that seems those cases exactly.

Such cases cannot be treated locally; nothing but an effective systemic remedy could cure them. This is exactly what Peruna is.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving full statement of your case and he will be pleased to give you his valuable advice gratis.
