## Chapter VI NEW BROOMS

YEARS AGO a truck that looked something like a fire engine may have thundered up to your home. One of the drivers would have run a long hose into the house. There would have been great excitement—but no fire. The truck belonged to a "housecleaning company"—offered pioneer vacuum cleaning service to homes in northern Illinois.

Efficient as this service was, it did not become popular. So twice a year in most homes the carpet beater came off its peg in the attic. Rugs were hung over clotheslines and punished. The whole family took turns pounding, until backs ached and hands blistered. Pictures were stripped from walls, floors and woodwork were scoured, furniture was shrouded with sheets. Hasty meals were snatched from the kitchen table. The ordeal lasted a week—recurred every spring and fall. Between seasons, the broom and the carpet-sweeper stood at attention behind the closet door. And a feather duster was always ready to remove the dust they stirred up from the whatnot with its colored shells and World's Fair souvenirs.

When electric lights first came to northern Illinois, cleaning became more important. It was easier to see into corners and under the sideboard. Homemakers toiled harder than ever.

But soon there was a new development. Around 1910, newspapers and magazines began to picture electric vacuum cleaners for

the home—small editions of the old air-pump engines. They screwed into an electric socket and, although they were noisy and heavy and clumsy, with the motor and dust-catcher trailing behind on a little cart, they were far superior to the broom and the carpet-sweeper.

And improvements were made. The bulkiness was reduced. A motor-driven brush was added to the suction nozzle to make it more efficient. The "trailer" and the nozzle were combined into one unit. Dusting equipment for furniture and draperies became optional attachments.

In this new cleaner, modern women have found a release from their periodic housecleaning panics. The broom now plays second fiddle to an electric motor that purrs over rugs, noses down into overstuffed furniture, cleaning them quickly and thoroughly every week. The national institution known as "spring housecleaning" is becoming obsolete.

The Public Service Company has been an influential factor in making electric cleaners, as well as dozens of other labor-savers, available to homes in northern Illinois. As one of its foremost obligations to customers, it has taken on the responsibility of offering them the best appliances obtainable. It has worked closely with manufacturers, requiring them to eliminate weaknesses in their products. And every gas and electric appliance offered for sale in the Company's stores has passed rigid laboratory tests, is guaranteed to give long service.

## Foreign Beauties Here for Galveston's Annual Show

American girls will have to look to their laurels, judging by the looks of six European beauties who have crossed the Atlantic in an effort to become "Miss Universe." The girls are (left to right) Lucienne Nahmais, France; Inga Norberg, Sweden; Gerd Johansen, Norway; Karen Schantz, Denmark; Daisy Friedberg, Germany; and Netta Duchateau, Belgium.

## Rube Tronson and Cowboys in Person at Catlow Friday

Rube Tronson and his Texas Cowboys from W.S. will be on The Catlow stage in person tonight (Friday) at 8:45 p. m. presenting a 45 minute act of old time music.

The screen program which will precede Rube Tronson and his Cowboys and will also be repeated after their act, has for its feature "The Widow from Chicago." Edward Rol-

inson, who created the role of "Little Caesar," plays the male lead; Allee White plays the role of the widow.

Saturday night brings "Stepping Out" to the Catlow theatre, a comical romance of Hollywood and Agua Caliente, of oil millionaires who turn picture producers, of gold diggers, and jealous wives. Elmer Harris, famous for "So Long Letty," wrote the play, which scored a sensation in New York.

The cast includes Charlotte Greenwood, Leila Hyams, Reginald Denny, Lillian Bond, and Cliff Edwards.

The story starts in a Hollywood bungalow with swimming pool, ter-

race, and all the embellishments of such a residence. The jealous wives flee to Chicago, and one has glimpses of America's Monte Carlo for the first time in pictures.

Hilarious comedy is the background for a central romance between Denny and Miss Hyams, while the brunt of the laugh-making falls upon Cliff Edwards, Miss Greenwood and Harry Stubbs.

Admirers of Gary Cooper's portrayals will find added interest in his latest starring picture, "City Streets," the attraction for Sunday and Monday at The Catlow theatre. The vir-

ile Westerner appears, for the first time in his three years of starring fame, dressed throughout the picture in civilian clothes.

But "City Streets" gives Cooper more than the chance to appear in civilian clothes. It gives him a story of vibrant power, packed with action. It gives him an enthralling leading lady as co-star, little Sylvia Sydney, and a splendid cast of supporting actors which includes Paul Lukas and William Boyd.

"City Streets" is strong melodrama, centering around the romance of Cooper and Miss Sydney. Cooper, operator of a shooting gallery in a street carnival, falls in love with the girl, who is involved with the beer-running racketeers. The girl, dazzled by the easy money earned by her father and friends, urges Cooper to get in on it.

He refuses. But, when the girl is framed and sent to prison for a murder of which she was innocent, he turns racketeer and beats the "big boys" at their own game.

"Svengali," John Barrymore's new picture, will be the screen feature at The Catlow next Tuesday and Wednesday nights. The picture is based on the play, "Tribby," from the novel by George Du Maurier. Barrymore has long been anxious to play Svengali, and in this picture gives one of his greatest characterizations.

The part of Tribby is played by Marian Marsh, who makes her screen debut in "Svengali." The difficult role is done with a sincerity and delicate appeal which has never been excelled. Miss Marsh is but eighteen and pos-

essed of flowerlike beauty of face and form.

The settings of "Kiss Me Again," a musical comedy in technicolor, scheduled for presentation at The Catlow theatre Thursday and Friday nights of next week, are declared by Hollywood experts to be the most

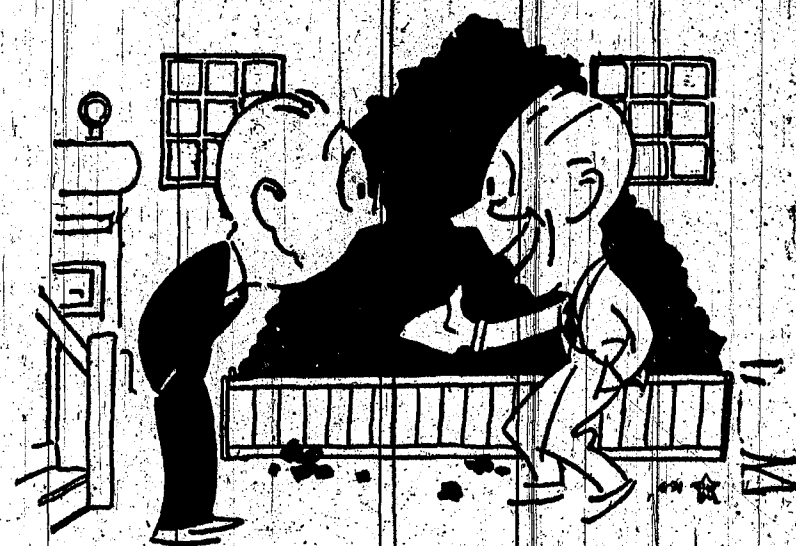

beautiful designed for the screen since "The Thief of Bagdad."

The music for this screen operetta is from the melodies of Victor Herbert. Bernice Claire, Walter Pidgeon, and Edward Everett Horton are cast in the leading roles.

# Start Work on Airplane Factory Here

## Aeronautical Co. Will Be Located on N. Cook Street

The Herren Aeronautical corporation, a company organized to manufacture light, inexpensive airplanes, will open a factory this month in the Stiefenhofer building on North Cook street and start production of three test planes early in July.

This information was given by the review by Wilson Herren, president of the newly formed corporation, along with the statement that the company plans to have the three test planes in the air before the end of August. Workmen are already making permanent jigs and patterns for both plane and motor construction. Those for the necessary motor parts will be shipped to the foundry works where the parts for the motors will be manufactured.

### Make Bodies Here

The work in Barrington will include the complete construction of the ships, assembly of the motors, and installation of the power units, propellers, fuel and oil reservoirs, etc. The Stiefenhofer building, formerly the home of a truck body manufacturing plant, will be converted into a factory for the new factory installation. The Herren Aeronautical corporation proposes to manufacture a flying unit which will answer the present demand in aviation. While aviation has progressed steadily during the years since the war, the private use of airplanes for pleasure vehicles has been retarded by the fact that previously no light, safe, inexpensive planes have been manufactured. Heavy planes are cumbersome so that they require too much ground space for take-off and landing. They are also expensive beyond the ordinary citizen's ability to buy and keep up.

### In Motor

The secret of a light, safe plane is in the motor. Airplane motors to be powerful and smoothly operating have in the past been heavy units. The new Barrington organization believes it has developed a motor which will solve the long-standing problem. The motor to be used will weigh only 110 pounds and will develop 60 horse-power running smoothly, according to plans. Around this motor, a light airplane will be built weighing only 175 pounds, including the motor.

The officers of the new corporation are: Wilson Herren, president; William R. Beckman, vice president and chief engineer; Trent Fry of Chicago, vice president and production manager; H. McVay Steele of Waukegan, secretary and treasurer. Officers not now living here will move to Barrington to make their homes.

### MEETING TO INCREASE SANCTUARY INTEREST

The Barrington Bird club announces that plans are being made for a picnic at 8:30 a. m. Tuesday evening, June 23 at the bird sanctuary, west of Evergreen cemetery. The chief purpose of the outing is to stimulate interest in the sanctuary project and to familiarize the members with the work that is being done there. The picnic will last until sundown or about 8:30.

Each member will be notified more definitely as to the plans for the meeting, but in case any are not notified they will be expected to attend.

The agreement between the village and the attorneys requires the attorneys to handle any special litigation which the village undertakes or is defended in. It also requires that the attorneys assume charge of legal matters in which the village is now involved. The compensation for special assessment work will be a per cent of the total confirmed amount of each such proceeding. This 4 per cent includes 2 per cent for spreading the assessment roll, and 2 per cent for the attorneys. Formerly the attorneys fees and spreading costs were kept as separate items.

The agreement in part states: "That the said attorneys shall act as attorneys for said municipality in connection with all special assessment and/or condemnation proceedings to be instituted by the village of Barrington, including the preparation of all necessary documents, resolutions, ordinances and/or amendments thereof, the preparation of, and making all notices of any such proceeding, the examination of records and titles as required by law, the superintendence and assistance in the spreading of all assessment rolls, the employment of necessary real estate witnesses, the preparation of all estimates from data submitted by engineers, etc."

"That said municipality agrees to pay said attorneys for their services in connection with each special assessment and/or condemnation proceeding instituted by the village of Barrington during the life of this contract, a sum equal to four per cent (4%) of the total confirmed amount of each such proceeding to be paid with vouchers, etc."

"That said attorneys shall consult with and advise any officer or representative of said municipality in connection with problems and matters and shall render other legal services when requested to do so by the board of trustees or any officer or representative of said municipality."

"That said municipality shall not be liable for any compensation for any services rendered by said attorneys in other than special assessment and/or condemnation proceedings, except in other than ordinary and routine matters, but said attorneys shall receive additional compensation for services rendered in connection with other than ordinary and routine matters, such as services rendered in litigation matters, general obligation bond issues, the preparation and drafting of involved ordinances or resolutions, the revising of ordinances or the preparation of a code of ordinances, or other matters, requiring an unusual amount of time or services. For such services said attorneys shall receive reasonable compensation which shall not exceed \$15 dollars per hour for office services and/or \$20 per hour for court work or time necessarily spent outside of the law offices of said attorneys."

"That in the event said attorneys are discharged, said municipality shall pay attorneys in cash an amount equal to two (2%) per cent of the estimated cost of any proceeding in which ordinances have been enacted and in which a judgment of confirmation has not been entered, and an amount equal to four per cent (4%) of the total confirmed amount of any such proceeding in which a judgment of confirmation has been entered, etc."

to bring up the drowning boy but was unsuccessful.

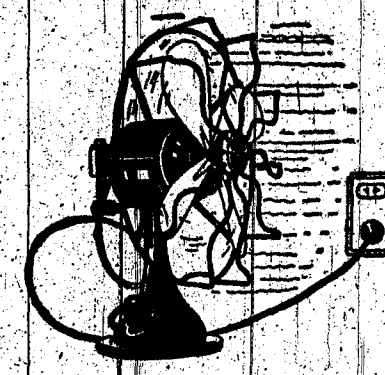

Among the men who answered the call for help was Bob Geissinger who was successful in recovering Fitzgerald's body. The men assembling on the pier attempted to revive the young man with artificial respiration but were unsuccessful.

Charles Fitzgerald was the son of Mrs. Mary Fitzgerald. The two resided with the boy's uncle, James Fitzgerald. Following the inquest Wednesday night, the body was taken back to Chicago where funeral services were to be held Friday or Saturday.

You will like the price★ as well as the quality...

What must you pay for the car you would like to own? Can you get a car well built, fast, easy to drive and good to look at—for the price you want to pay?

Indeed you can—for in Pontiac you get so much for your money. It is an outstanding General Motors value.

For instance, if you owned a small car in the past, you will find you can buy the fine Pontiac today for about what that small car cost you. Yet what extra value Pontiac gives you!

One fine thing you get is a 60 h. p. motor that is smooth and quiet at all times. It is a large motor, and so does all you ask with ease. And you can trust it to work that way as long as you have the car.

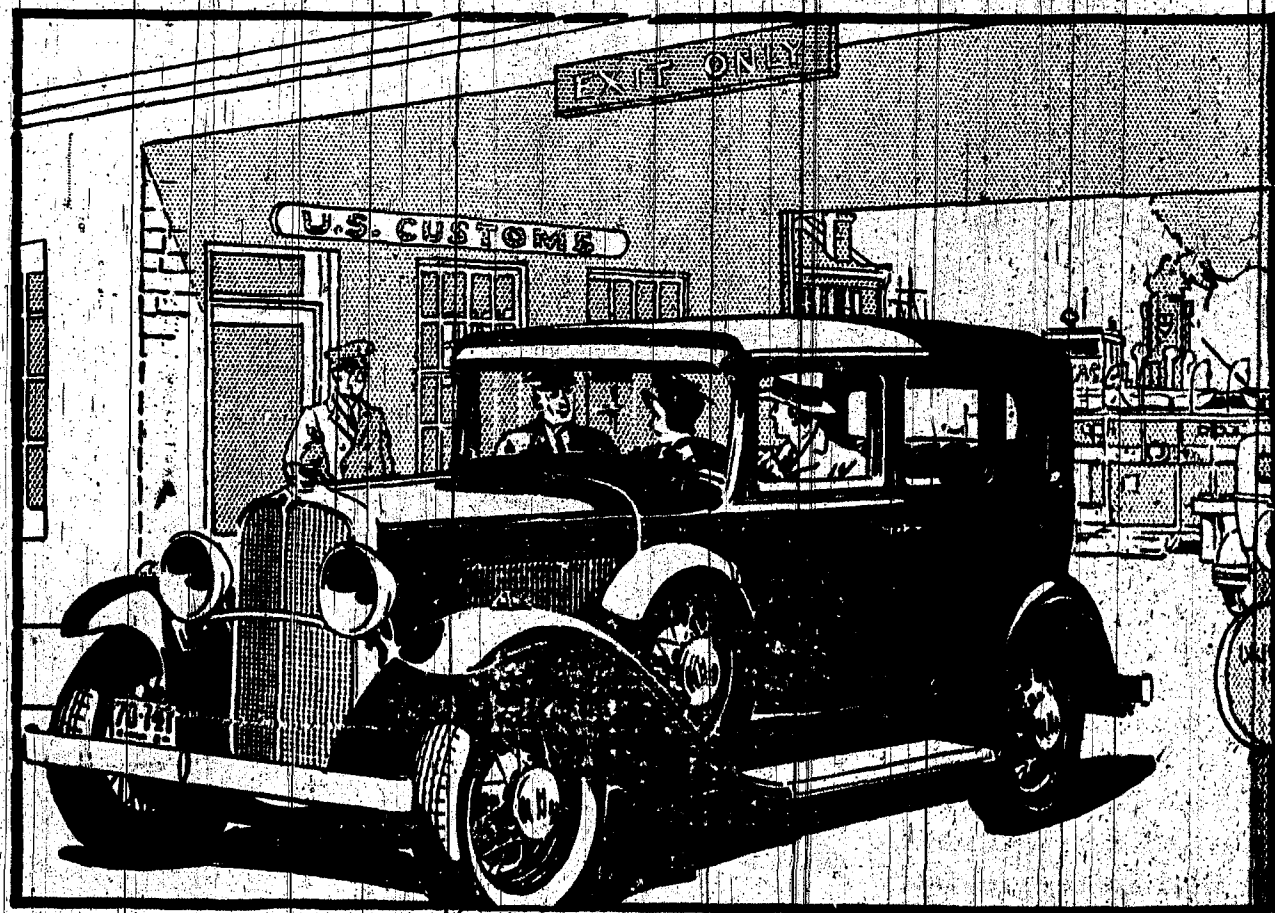

Then you will get a fine new Fisher body which is built to shut out heat, cold, rain and noise. The seat springs are deep

—the cushions soft. Real mohair and whipcord give the style and long wear you want for pride and lasting value.

You will find the Pontiac very comfortable to ride in. There are rubber cushions at 43 points in the chassis—a fine car feature which takes up most of the road shocks. Also there are four hydraulic shock absorbers to add to your comfort.

Your friends will say that Pontiac's lines and color and finish make it a car to be proud of. People will turn to watch it as you drive by. You will feel that you have bought fine-car value at a very low cost.

Of course you may say that we think more of our car than you might! Then why not drive the Pontiac and find out just how well it lives up to what we say about it? Any Oakland-Pontiac dealer will be glad to let you take a Pontiac, whenever you are ready to make the test.

## New Book a Day at Barrington Library

A new book for every day of the year, including Sundays and holidays, and extra for next February 23, would be equivalent to the Barrington library during the fiscal year which ended April 30. According to figures submitted in the annual report of Mrs. P. Peterson, secretary of the library board.

The report was given at the monthly meeting of the board held Monday evening at the home of the librarian, Mrs. John Schwemm, 131 W. Main street.

Several interesting points were brought out in the report, including the exchange of books between the Barrington library and the Jewel Tea Co. library, increasing the service of each. The report showed that the Barrington Public Library ended its fiscal year of 1930-31, April 30. During the year 346 books were added to the library, 242 were taken out. The library now has 5,001 books in the library, 1,501 of which are adult and 1,126 are juvenile. The number of borrowers who registered during the year was 229, making the total number of borrowers at present 1,144. This is an increase of 111 per cent in four years.

The number of books circulated during the year was 10,348, a gain of 2,313 over the previous year and a gain of 8,347 in two years. This gain is proof of the steady growth and usefulness of the library to the community. The books circulated during the year were: Miss Jane Wren, Mr. Schell, Mrs. Harbison, Mrs. Robt. Harbison, Mrs. R. L. Muthen, Mrs. Katherine Kelly, Mrs. J. Sullivan, and Mrs. E. H. Nieland.

"During the year the library purchased a book wagon and a new library van. The latter was designed by George Butler of this village."

"During Book Week, Mrs. W. N. Sears, president of the library, gave several talks to the children on the primary grades at the public school thereby stimulating their interest in the library."

All through the school year loans of books have been made to the teachers of the village school and to the teachers of the rural schools. These books were circulated among the pupils. An exchange of books has been carried on between our library and the Jewel Tea Co. library. Our regular librarian is Mrs. John Schwemm and her assistants are Mrs. Otis Johnson, Miss June Kotel, and Mrs. Phyllis Lines."

placed that the advisory board be  
composed of these three retiring of-  
ficers and two more elected annually  
to advise and meet emergencies. It  
was readily adopted.

**Carl Schweinn, President**  
The new officers elected were: pres-  
ident, Carl Schweinn; vice president,  
Earl Hatz; secretary, Miss Rena  
Schaefer; assistant secretary, Mrs.  
Helen Robertson; treasurer,  
Ray Jans; assistant treasurer, Miss  
Adelle Walbaum; advisory board, Ar-  
nett C. Lines, Edith Riecke, Wm.  
Gottschalk, Faith Soder, and Alfred  
Trosch.

The class of 1931, guests of the  
evening, introduced themselves and  
sang their class song, "William Evans,"  
accompanied by Miss Naomi Tate at  
the piano, delighted the audience with  
his beautiful cornet solo, "By the  
River St. Marie."

**Troubadors**  
The "Four Night Hawks," a male  
quartet of troubadours, were the hit  
of the evening. They were dressed  
in white satin and maroon sashes, ties  
and turbans, and carried their guitars  
and concertina. They sang among the  
tables during the banquet and gave a  
snappy program of fun, harmony and  
rich tones at the close of the business,  
to which young folks and staid busi-  
ness men said they would like to listen  
all night.

The alumni are scattered from New  
York City to China, and it was much  
work for the officers and helpers, but  
they feel amply repaid for their work  
in the success of the evening and the  
fact that, regardless of the times, it  
was the largest gathering the alumni  
has ever had.

**Married in 1887**  
On Oct. 10, 1887 he was married to  
Miss Flora Davis of Barrington and  
they established their home on W.  
Main street where they have lived un-  
til very recently when they moved into  
the new home on Garfield street.

Mr. Meyer was a public spirited  
man, a fact proved by his service. He  
was president of the village board  
for 12 years, a member of the board  
of education of district 4 for 12  
years and a former president of the  
Chamber of Commerce. Mr. Meyer  
was generous to the extreme, kind  
and always pleasant. He spent much  
time in his flower garden; beautiful  
flowers seemed to be his diversion.

**ROBERT ULBRICH IS  
2ND IN STATE MEET**

Scoring second highest among the  
ten leading high school boys contend-  
ing for the Emily Jane Culver schol-  
arship in Illinois, Robert Ulbrich of  
Barrington just missed getting the  
three years of military school award  
and did win a liberal heap of honor  
for himself.

Announcement this week of the  
scholarship award sent the welcome  
news to George R. Koons, 6823 East  
street, Chicago, that he had won first  
place in the examinations taken June  
6 at Urbana.

Nine other boys who had completed  
the list of 10 high school freshmen to  
take the stiff preliminary examina-  
tions, May 4, were disappointed in not

receiving the scholarship but consoled  
in the honor they earned in breaking  
into the final examination.

The Illinois award is one of four  
three year scholarships being made  
this year by the board of trustees of  
Culver Military academy. One boy  
from each of four states receives the  
scholarship this year, one from each  
of four states will receive it in 1932,  
and an equal number in 1933, making  
12 scholarships to one boy from each  
of 12 states.

## BUSINESS AND BASEBALL

We were talking the other day with a friend whose  
main interest in life, outside of his own business, is base-  
ball. We were talking, as most men do when they meet  
these days, about the business situation."The business situation reminds me of the baseball  
situation," said our friend. "You remember that for the  
past few seasons an enormous number of big league  
players were batting home runs. They would stand at  
the plate, holding the bat by the tip and line them out  
over center field fence until home runs got to be almost  
commonplace. People began to get tired of them."Last winter the baseball magnates got together to  
see how they could tighten up the game. They developed  
a new ball, which is being used this season. The leather  
cover is thicker and the seams are rougher, which gives  
the pitcher better control and a sharper break on his  
curves. Players who used to bat the old ball all over the  
lot found they could not even hit the new ball half  
the time. They somebody began to think back, and re-  
called that Ty Cobb, the greatest batter of them all, used  
to hold his bat somewhere in the middle and crouch over  
the plate. He didn't hit many home runs but he got to  
first base oftener than any other batter in his time. So  
the baseball players of this season instead of swinging  
high, wide and handsome, have just shortened up their  
bats and are playing for base hits instead of home runs."Now it seems to me," our friend went on, "that  
there is a lesson in that for business men. Everybody  
in business was batting home runs two or three years  
ago. But we are playing business with a new kind of  
ball, and the fellow that swings a long bat and keeps  
trying for home runs these days does not even get to  
first base. But the wise business men are just shortening  
up their grip, while the ones who have not found out yet  
that the new ball is harder to hit are beating about hard  
times and blaming their troubles on everybody but them-  
selves."It seems to us that there is a good deal in what our  
friend said. There are a lot of business men who had  
things coming their way too easily during the boom, but  
the ones who are holding their own today and getting  
ahead are not the ones who are waiting for the old times  
to come back, but are the ones who are adapting their  
ideas and their business methods to today's conditions.

## THE ROADSIDE LANDSCAPE

At intervals of a few miles along every state highway  
in Tennessee there is an inconspicuous sign which reads  
"No Advertising Is Permitted Within the Right of Way  
of Any State Highway in Tennessee."For adopting this rule the state of Tennessee deserves  
a Pulitzer prize, or a Carnegie medal, or tablet in the  
Hall of Fame. The state, of course, cannot control ad-  
vertising signs not located actually on the highway prop-  
erty, but the mere fact that it has adopted this regula-  
tion, and is calling attention to it, undoubtedly has an  
influence on the whole subject of the defacement of the  
landscape by advertising billboards. These little un-  
obtrusive signs create in the public mind a realization of  
the fact that advertising signs are a defacement and a  
nuisance.Tennessee has some other pretty good highway laws  
and regulations. There is no speed limit in the state  
except such as municipalities set up, where traffic is thick.  
You may drive a hundred miles an hour in Tennessee, if  
your car will go that fast, but you are held strictly re-  
sponsible for reckless driving and violation of the rules  
of the road. One of the things they are particular about  
in Tennessee is passing a car going in the same direction  
when both are going uphill. The state traffic police are  
vigilant, and the usual fine for this offense is \$50. Ten-  
nessee has learned that most automobile accidents are not  
the result of speed but of carelessness.Some other states and communities could learn some-  
thing from Tennessee.

## NEW X-RAY CHICKENS

New breeds of chickens, larger and more productive  
as layers than any now in existence, are believed to be  
possible of development through the agency of X-rays, as  
a result of experiments by Dr. Diffebach of New York.Among the phenomena resulting from exposing Ply-  
mouth Rock eggs to X-rays before hatching it was ob-  
served that nearly every chick was a female. When the  
eggs were exposed to the rays for a longer period many  
surprising freaks were hatched. While all were healthy,  
some had no wings and there were other deviations from  
normal which would have required many generations of  
breeding to produce.A large number of hens hatched from ray-treated eggs  
attained a greater weight than usual and began to lay  
earlier. Dr. Diffebach is continuing his experiments in  
the belief that with the aid of X-rays he will be able to  
produce new species of chickens superior to any now  
known.This is merely another of the possibilities presented  
by the mysterious properties of various light rays, the  
existence of which were hardly dreamed of a few years  
ago.

## WORKMEN ON BOARD

Earning his living as a lathe operator in a Cincin-  
nati plant, Otis Snyder also sits on the board of di-  
rectors of the company and takes a hand in running its af-  
fairs. When board meetings are over he goes back to  
his lathe.This peculiar arrangement is made possible by the  
fact that the Procter & Gamble Company, doing a gross  
yearly business of more than \$100,000,000, has three di-  
rectors representing its employees with voice and vote  
equal with the capitalistic members of the board, of  
whom there are nine.Employees now own 26,000 shares of the company's  
stock, with a total value of more than \$11,000,000.The custom of encouraging employees to own stock  
in the corporations for which they work has spread  
rapidly during the past few years. It not only promotes  
thrift among them, but makes them more interested in  
the success of the enterprise in which they are real  
partners.

## LIBRARY NEWS

NEW RUSSIA'S PRIMER is the Russian Govern-  
ment's own story of the five-year plan put out for the  
information of their own people. It is told in simple  
language and with a vividness that dramatizes the whole  
gigantic undertaking.FATHER is the title but it is really the story of  
his daughter, Jennifer, and her adventures from the day  
that father brings home a lovely young stepmother and  
Jennifer feels free to make a different life, that one de-  
voted entirely to father. The book is written in Eliza-  
beth's best vein.VOLUME TWO is "Mother India" up to date. It  
will be eagerly read by all students of India for it gives  
the findings of the committee who investigated condi-  
tions in that country after the publication of Miss  
Mayo's book, "Mother India."MRS. FISCHER'S WAR is an interesting story of  
how the war affected an English wife married to a Ger-  
man husband with an English-born son. From the  
viewpoint of the wife loving equally her husband and her  
son who are fighting in opposite trenches, the author  
describes the war.AMBROSE HOLT AND FAMILY is a novel of  
human relationship viewed with amusement and penetra-  
tion. It is the story of Blossom who is called that be-  
cause of her flower-like beauty. She marries for love  
Lincoln Holt who is both a poet and a business man.  
From the astounding moment when Lincoln's father, who  
had deserted his family, returns the story moves  
swiftly to a climax.THE ROAD BACK by the author of "All Quiet on  
the Western Front" is a story of peace and the author  
makes it as emotionally exciting as war. One reviewer  
says "once Herr Remarque speaks for a generation of  
men." His new novel is in spirit the story of every ex-  
service man. The readers will follow with interest the  
struggle of Ernst and his comrades to adjust them-  
selves to their new life. Again he has told a story that  
will leave no reader unmoved.China is one of the world's largest markets for scrap  
iron, which is used by native blacksmiths and iron work-  
ers in making farm and household utensils and works

have been in the house when he bought it 10 years ago.It is estimated that the amount of coal still untouched

Washington

Special Correspondent

ALTHOUGH VICE PRESIDENT  
Curtis left Washington for Kansas  
last week still insisting that he had  
not made up his mind whether to  
seek re-election, it has been stated em-  
phatically in political quarters close  
to the White House that Curtis will  
not be President Hoover's running  
mate next year. It has been gen-  
erally understood that Curtis could  
have the nomination if he wanted it.  
The political prognosticators are em-  
phasizing Mr. Curtis' age, and saying  
that a younger man will be selected.  
Among those who have been men-  
tioned prominently for the vice presidency  
are Secretary of War Patrick J. Hur-  
ley, Theodore Roosevelt, Jr., and Sen-  
ator Dwight W. Morrow. Theodore  
Roosevelt, Jr., the young enough to do  
vigorous campaign work, but an ap-  
parently sound rumor says he will be  
appointed Governor of the Philippine  
Islands. Senator Morrow from the  
standpoint of loquaciousness would  
not make an ideal campaigner. Dur-  
ing the time he has been in the Senate  
he has not taken the floor on any  
occasion.THE PHRASE "MAKING the dirt  
fly" literally applies to Washington  
these days. Dirt has been flying in vol-  
umes as old structures have been razed  
to make room for the new housing for  
the federal service units of the admin-  
istration. Several sites have been  
cleared, but only two buildings have  
yet been completed, the commerce de-  
partment and the internal revenue  
bureau. The decision to complete the  
demolition work regardless of the ur-  
gency of the construction program, is  
no doubt prompted by a desire to get  
the unsightly relics of the old Wash-  
ington out of view for the bicenten-  
nial year, when it is expected a great  
throng from all parts of the country  
will visit the capital. It will not be  
possible to complete the entire pro-  
gram by this time, but it is the hope of  
those interested in the bicentennial  
that shams and wrecks will be tucked  
out of sight.RETIREMENT OF CHARLES C.  
Teague, California vice chairman of  
the Farm Board, which became effec-  
tive on the first of the month, served  
as the focus of attention for the many co-  
operatives fostered by the government  
during his tenure of office. The institu-  
tion of the revolving fund during  
Teague's work with the board, en-  
abled producers to weather many  
storms of lowered prices, due to the  
adoption of systems for more orderly  
marketing of farm products.Teague declared in his letter made  
public by the President, that govern-  
ment aid alone had saved many of the  
cooperatives from perishing in their  
operation and that as the benefits of  
the Agricultural Marketing Act be-  
come better known, the growers will  
halt it as one of the most construc-  
tive measures of the present adminis-  
tration. He says he is firmly con-  
vinced that more progress has been  
made in marketing food products in  
the past two years than in any pre-  
vious ten-year period in the country's  
history.A CURIOUS FINDING was un-  
covered by the Department of Agricul-  
ture this month. It is that wheat  
ranks sixth in importance in all crops  
and not first, as many believe. It is  
exceeded by cotton, milk, hogs, cattle  
and calves, and eggs and chickens.  
Cotton accounts for 14.59 per cent of  
the average farmer's income, but be-  
hind it is wheat, which accounts for  
only 7.89 of the total income from  
farm products.GREAT SIGNIFICANCE is being  
attached to the gathering of Pres-  
ident Hoover's official family and ad-  
visors on the threshold of another  
presidential campaign. The informa-  
tion collected by these travelers on  
international affairs will form the  
nucleus for endless debates during the  
next session of Congress. Great dif-  
ferences in political opinion are ex-  
pected, even from those who have  
traveled the same paths. There are  
not enough hours in a day or a ses-  
sion of Congress for all its members  
to air their pet views; and, therefore,  
much of this sacred material will no  
doubt be doomed to be printed on the  
last pages of the Congressional Record  
under "Extension of Remarks."The announcement that Secretary  
of State Stimson will spend the sum-  
mer abroad is considered a piece of  
international political news of the  
first magnitude. Speculation is nat-  
urally running high, both here and in  
Europe as to the real motive and pur-  
pose of Colonel Stimson's travels.  
That he will not confine himself to  
meteorological pleasures in Italy,  
France, Germany and Great Britain  
may be taken for granted. Mr. Stim-  
son is too much immersed in his job,  
too conscious of the peculiarly heavy  
responsibilities it nowadays involves  
to eschew shop talk when he sits at  
the same table with representatives  
of foreign powers.There is no single question now per-  
meating European statesmanship with  
which the United States is not direct-  
ly or indirectly concerned. The mere  
fact that President Hoover is re-  
turning overseas has created American  
economic situation a phase of "world  
depression" makes it almost inevitable  
that the republican party will take a  
categorical stand on that all-predom-  
inating issue in 1932. It may be that  
Colonel Stimson is charged with one  
of those fact-finding missions of which  
the Chief Executive is so fond, with  
a view to ascertaining just what, if  
anything, Uncle Sam can do to grapple  
with the grids now holding the  
world in its grip.Use of a cane on the head of a  
neighbor woman to emphasize that he  
did not want the floor before his  
apartment disturbed, caused Rev. R.  
P. Doe of Atlanta, Ga., to be put un-  
der a \$200 bond.

## SIDELIGHTS

By MARY E. DARNALL

After a blow on the chin, a French  
podiatrist was dumb for four days and  
attending physicians declare that the  
concussion affected a nerve hitherto  
unknown to science. If this is true, we  
may yet find a way to silence talka-  
tive pests without killing them.Rhode Island claims credit for hav-  
ing been the first state to pass an  
anti-speeding law, which provided a fine  
of five shillings for riding "either  
horse, mare or gelding at a gallop" on  
the streets of Newport. This law was  
passed in June, 1878, after an in-  
stance of "very grave horse" done to a  
small child by reason of exceeding  
fast and hard riding of horses in said  
town. So it appears that the mania  
for speed is not altogether due to  
gasoline.The entire village turned out to  
honor the memory and achievements  
of Ottomar Meigenenthaler and place a  
beautiful tablet on the house in  
which he was born in Hatched, Ger-  
many. At a struggling young inven-  
tor, his home town failed to recog-  
nize his mechanical genius, so he emi-  
grated to America and gave to the  
world the linotype, which revolution-ized the printing industry and stands  
as one of the epochal inventions of  
all time.Another of life's little ironies is  
seen in a recent occurrence in Toledo,  
O. A physician called to treat a man  
injured by a fall on a slippery side-  
walk jokingly remarked to his patient  
that he should "watch his step next  
time." Then leaving the house the  
doctor fell on the same sidewalk and  
broke his own leg.A law is proposed in the Alberta  
legislature to conform to the ideas  
of the Indian girls of that province,  
by reducing their marriage age from  
16 to 14 years. Clergymen report that  
the young girls select their mates ac-  
cording to their tribal custom and live  
with them regardless, when unable to  
be married because of being under age.Haircuts should be avoided when  
the moon is full, according to a Lon-  
don seer, who declares that hair, like  
other vegetation, contains more "sap"  
at that time. It should be cut just  
before the new moon, he says. But in  
many cases the sap appears to remain  
permanently in the head.A Polish money lender claims fif-  
teen beautiful Czecho-Slovak women,  
belonging to the harem of Prince Hamid  
of Turkey, under the Turkish law  
which classifies women as "chattel."Merchants Beware of  
Fake Advertising SolicitorsSeveral local merchants have com-  
plained that transient salesmen of ad-  
vertising service have claimed to be  
representatives of the Barrington Re-  
view with authority to set advertising  
rates and plan advertising copy for  
The Review. These schemers are  
equipped with an advertising ser-  
vice, usually an inferior one, which  
they attempt to sell to the merchants  
at exorbitant rates.The Review takes this opportunity to  
advise local business men that it has  
no representatives other than its own  
staff members and that it is equipped  
with high grade advertising cut and  
copy service that is free to all ad-  
vertisers with no charge additional to  
the regular space rates.The management of The Review  
would be grateful to any local per-  
son reporting a transient salesman  
claiming to be authorized to sell ad-  
vertising in The Review.

The picture had been diving in style at the city, but his extravagance led him into the clutches of the money lender, who now wants not only his "pound of flesh," but approximately a ton of the same.

Local boards for recommending moving pictures suitable for various ages are busy cataloging and publishing the lists of offerings as fit for "little kids," "high school age and over," "mature audiences," and so on. Now, don't you know every kid in town will be wild to see the pictures about "mature audiences only?" And most of them will probably find a way to see them, too.

Three billion dollars in cash and securities were safely transferred from one old bank building to a new one in the city of Chicago.

## Bears to Play Old Rivals Next Sunday

Lake Zurich Pirates Are Coming Prepared To Win; Each Team Holds Only One Defeat This Season.

The early summer season will be reached by the strong Lake Zurich Pirates and Bears in a game which promises to be a thriller.

The Bears, who have won 10 games and lost one, are coming from a losing streak of one game.

The Pirates, who have won 9 games and lost one, are coming from a winning streak of 8 games.

The game will be played at 2 p. m. on Sunday at the Crystal Lake grounds.

The Bears' lineup for the game is as follows:

## WOLFHOUNDS WIN 2ND GAME FROM KANGAROOS

The Sags Wolfhounds continued their winning ways with the Miller Kangaroos as victims Wednesday night of last week in a slugging diamond-ball game that ended in a 15 to 14 score.

Fred Plagge took the mound for the Wolfhounds and pitched towards Henry Sags, receiver. Louis Miller and Earl Schwenn divided the heavy workout duty for the Kangaroos and hurried the soft ball in the general direction of Ray Williams, catcher.

The two catchers, however, had little but an anticipatory workout, as a small percentage of the balls thrown got farther than the bats swinging over home plate.

This game marked the second victory of the Wolfhounds. The score indicated that the Kangaroos are improving an abut ready to turn the tables on their opposition team from the Lions' club.

## 12 WOMEN QUALIFY FOR JUNE TROPHY

Twelve women have qualified for the June trophy tournament at Biltmore Country club and will enter the first round Saturday and Sunday, June 20 and 21.

The pairings were: Ruth Faunt and H. Hawes, Ruth Smith and E. Faunt, C. Hoffman and C. House, A. Agold and M. Morrissey, B. Campbell and W. Zinprich, A. Henry and J. P. Higgins.

The Barrington Bears suffered their first defeat of the season Sunday at the hands of Crystal Lake by a score of 1 to 0. Krause pitched an excellent game for Crystal Lake holding the Bears to two hits, both of them being made by C. Berg. Barrington had several excellent scoring opportunities but were unable to get the necessary hit in the pinch.

The Bears had men on second and third with nobody out but were unable to score.

Crystal Lake's lone tally was scored in the last half of the ninth and was unearned. Sees, first man up, fouled out to the catcher. Knipfel went out third to first for the second out. Krause singled; Bohart hit an easy pop-fly, but Sheehan dropped the ball and both runners were safe. Ganske then singled, scoring the winning run.

## Saint Pauls Defeat Baptists 6-0 for 4th Straight Win

The Saint Paul team defeated the Baptist team, 6 to 0, in a game Monday evening in the Young People's Commission softball league, adding the fourth straight win for the Saint Pauls.

The Baptists have lost every game so far, but will try for a comeback Friday evening when they take on the Methodist team. Saint Paul and Salem, the two undefeated teams in the league, will clash for honors in a game that should be a thriller next Monday evening.

The standings of the teams in the league are:

First Round Played in Director's Trophy

The first round in match play in the director's trophy tournament at the Barrington Hills Country club was completed last week. The results of the round are as follows:

H. P. Ralston defeated Robert Hillen by 2 and one hole to play. J. W. Esmond won over E. P. Hetzler 1 up. S. B. White defeated C. J. Whipple, 5 to 4. F. M. Callahan won over G. G. Hott 2 up. T. Belknap won over H. A. Hallberg, 4 to 3. F. R. Miller won over R. B. Rogers by default. D. M. Wood defeated L. M. Hatten by 4 and three holes to play. L. D. Small defeated Robert Clark, 4 and 2.

Interest in the Hillcrest Country club tournaments, which will be conducted in July and August, was shown by 96 golfers who turned in handicap determining scores after play Sunday.

Hillcrest enjoyed the best day of the season to-date when nearly 300 men and women turned out for play. A prize in the form of a season ticket to the course was awarded to Rev. James Stanek of Chicago.

Golfers at Hillcrest will be permitted to enter the tournaments after establishing a handicap by turning in their scores of four 18 hole rounds.

HORSESHOES STILL LEAD JEWEL LEAGUE

The standing in the Jewel diamond ball league remained unchanged after Monday night's game when St. Paul's "Horseshoes" defeated Crystal Lake "Crusaders" 16 to 3 for a firmer hold on first place and Baker's "Runts" defeated Rensch's "Squirrels" 11 to 9, thus improving their standing in second place.

The standing of the Jewel league follows:

**WOMEN: watch your BOWELS**  
What should women do to keep their bowels moving freely? A doctor should know the answer. That is why pure Syrup Pepsin is so good for women. It just suits their delicate organism. It is the prescription of an old family doctor who has treated thousands of women patients, and who made a special study of bowel troubles.

It is fine for children, too. They love its taste. Let them have it every time their tongues are coated or their skin is sallow. Dr. Caldwell's Syrup Pepsin is made from fresh laxative herbs, pure pepsin and other harmless ingredients.

When you've a sick headache, can't eat, are bilious or sluggish, and at the time when you are most apt to be constipated, take a little of this famous prescription (all drug stores keep it ready in big bottles), and you'll know why Dr. Caldwell's Syrup Pepsin is the favorite laxative of over a million women!
