Palatine Is Ahead of Barrington in Payment of Taxes

Early Total of \$20,000 Estimated Here

Palatine, Ill., has received a larger amount of tax payments than Barrington, according to a report from the Cook county treasurer. The report shows that Palatine has received \$20,000 in tax payments, while Barrington has received \$15,000.

New Set of Steel Safety Deposit Boxes Installed

Five new sections of askaloy rust proof steel safety deposit boxes have been added to the safety vault of the First National bank, raising the total number to 400 including single, double and triple size boxes. These are made from the best type of steel available for this use, Charles Elsner, cashier, said. The improvement has been made in answer to a demand from many people who want a place safe from fire and possibility of theft in which to keep their valuable papers and records. The original set of deposit boxes are all rented out and a number of persons have applied for new ones, indicating that the trend towards removing valuables from insecure hiding places is underway, Mr. Elsner said.

Improvements at Ice Company Will Double Capacity

\$45,000 Program Underway at Jefferson Ice Co.; 25 Men Employed

Crews of mechanics, carpenters, and bricklayers totaling 25 workmen are employed at the Jefferson Ice Co. unit on Applebee street where the plant is being improved and enlarged to double its previous capacity at a cost estimated at \$45,000. The plant has had a capacity of 60 tons. When the improvements are completed it will have a capacity of 120 tons. A new tank, new pumps, two large coolers, motors and other equipment are being installed. The construction work includes building of a large storage room and finishing of other rooms in the Jefferson Ice Co. building—formerly the Bowman Dairy Co. plant.

Progress Reported in Organizing New Bank

Men interested in organizing a new state bank in Barrington have reported an enthusiastic response to the committee in charge of stock sales. Most people who have been approached for purchase of stock in the proposed institution have readily subscribed, the workers stated. Twenty men living in and near Barrington met Wednesday night to check up on the progress of the work. Several additional men were appointed to contact the public.

Surplus in Water Fund, But Nothing for Employee's Pay

A meeting of the finance committee of the village board and the village treasurer will be held this week to determine whether a sum of money from the water fund can be made available for the general fund until such time as the general fund can be replenished by receipt of tax money—for the purpose of paying the village employees part of their back salaries. Because of the Cook county tax muddle, the Barrington general fund has been low. Police, street, and fire department officials have had to miss several pay days and many village bills have gone unpaid. In the meantime there has been a surplus in the water fund which can be used only for one purpose. An Illinois statute law prohibits direct transfer of funds; but some method of using the water funds to purchase anticipation warrants on the general funds might be worked out, one of the trustees suggested. Elden Gieske urged that the officials find a way if possible to use enough of the water fund for one full pay roll for police officers and other employees.

Pay in Warrants

To eliminate the necessity for neglecting bills against the village, the trustees directed the village treasurer to issue warrants in payment of all claims. These warrants will be held by the claimants until such time as there are funds in the treasury to take care of them.

L. T. I. Closes Up; Will Ask for Receivership

An announcement has been made by the Locomotive Terminal Improvement Co. that it will go into voluntary bankruptcy as a step to protect its creditors and conserve its assets. The company of which Spencer Olin is the principal stockholder, has been engaged in the manufacture of metal machine fittings and improvements of different types. During recent times it has specialized in the manufacture of paper mill piping.

Review Has 77 Year Old Wedding Certificate

The Review has on hand a wedding certificate dated January 1, 1855, which came into the possession of the late Miles T. Lamey shortly before his death. It is not known by the heirs of Mr. Lamey who the owner of the certificate was prior to the day it was turned over to him. Presumably the interesting old record was owned by one of the descendants of the couple whose marriage it records.

Suit Against Powers and Thompson May Be Instituted

On the grounds that R. D. Hay, former special attorney for Barrington, was acting as an agent for Powers and Thompson paving contractors when he disposed of their paying bonds, Village Attorney D. B. Maloney has given the village trustees his opinion that the paving contractors are financially responsible for the over-issued amount on the bonds.

LAKE ZURICH REVIEW

Future Farmers Group at Ela Elect Officers

Ela Township School Notes Compiled Weekly by the Pupils

The Lake Zurich Future Farmers organization held election of officers last Tuesday. The following were elected: Harry Ledman, president; Edward Peterson, vice president; Robert Schaefer, reporter; Wheeler Collins, treasurer; Everett Reed, secretary. S. H. Morley is the sponsor. The boys who are taking the course in agriculture are especially interested in this new organization, and they are anxious to commence their active club work.

Several pupils are entering the elementary contest. The date has not yet been decided. The sophomore class is planning the assembly program for next Friday. The cooking class was very much enjoined when they heard that Mrs. Loomis was ill Monday, but on Tuesday those tantalizing odors began to tempt the other classes again, and we knew that the young cooks were happy again.

The party given by the Girls' club for the sophomore girls proved most successful. The evening was spent playing cards after which refreshments were served. Ethel Rudinski was the hostess. Violet Understock, Caroline Schermer, and Marie Grever were present.

The first six weeks of the second semester ended last Friday with examination. Wonder what our grades will be. Inter-class tournaments hold the interest of all classes at Ela. Both the senior girls and boys have come through with victories every time.

On Monday the girls' gym class had calisthenic exercises. The next two days the efforts began to show, and we heard groans from every side. Come on girls, limber up!

The tournament game between the junior and sophomore girls last Wednesday was won by the sophomores by a score of 13-2. On Thursday the junior boys played the freshman boys in a tournament game and the juniors won by a score of 13-1. The lineup was as follows: for the freshman, Norman Neuman, Melvin Potts, and William Buehling as guards; Harvey Schaefer for center and Herbert Sievers and John Welzen as forwards. For the juniors were John Lohmi and James Liska as forwards; Edward Peterson and John Hauri for guards and Richard Beckman as center. No baskets were made until the last part of the first half when John Lohmi made two hook shots. This got the freshmen nervous, and they did not seem to be able to keep the ball in their hands.

Mr. Wesner, the senior class sponsor, invited the seniors to a party at his home Friday, March 18. My! But the pupils who are in the class got the last few hours' work. We wish the weather again could do us a favor and make it a little warmer.

The freshmen are having a party at the home of Lillian Tomp next Friday night. Harold Beckman was absent all last week. Ruth Johnson is back with us again after a three weeks' illness.

Woman's Club Groups to Meet at Highland Park

The Highland Park Woman's club will be hosted by the Lake County Federation clubs Tuesday, March 22 at 2 p. m. at the club house in Highland Park. Mrs. C. Grimm, vice president of the Lake County Federation, had charge of the program of musical numbers and Judge Perry Persons will be the speaker. Most members of the Woman's club of the district will attend.

To Hold Confirmation Services Palm Sunday

The boys and girls in the confirmation class of the Evangelical church were examined at the services Sunday morning and will be confirmed Palm Sunday. Members of the class are Lillian Prehn, Marjory Laerssen, Allen Koffen, Junior Boegain, Elmer Lauffenberger, Elmer Priest and Earl Gottschalk.

Six Attend Meeting of Pure Milk Association

Charles Suettinger, August Baude, August Tupschling, Herman Buschling, and Mr. and Mrs. Joe Kessler attended the Pure Milk association convention in Chicago Tuesday. They were delegates from the local unit.

Lake County News

Lake County Has Largest Road Refund Due in State

Lake county has available \$290,000.80 in road refunds at Springfield according to an announcement made by H. H. Cleasland, director of the department of public works.

The amount due Lake county is greater than any county or township that has money coming from the \$1,440,520.57 in Springfield, according to Cleasland.

From this sum, however, approximately \$150,513.30 will have to be deducted for treasurer's fees on previous payments. Without this deduction Lake county would receive \$303,575.50 as the total amount to \$13,484.70.

But one county in the state has an amount due anywhere near the Lake county refund, and that is Cook county which has \$100,303.30 due and Cook township \$107,089.50.

Frank W. Sherr, chief highway engineer, explained that all counties to which allotments had been made shall by July 1 have passed preliminary resolutions or formulated plans to be approved by the state department of public works and buildings, or have contracts in force on which refund money may be used, so that this allotment will be used.

"The refund allotments will be paid to the counties when contracts have been let and approved by this department," he said.

Three Contracts Prepared for Lake County Highways

Contracts have been prepared in Springfield on three highway projects in Lake county that call for 7.74 miles of paving and an expenditure of \$373,958.51.

In all, the letting covers \$2,583,472 in paving, grading and bridge building.

One project was the letting of the three-fourths of a mile gap on Route 473 in Zion when the crossing of the railway tracks has delayed the completion of the route. This bid was \$39,933.55.

Paving in section 106-N on Route 59, north of Volo, a gap of 1.5 miles was let for \$10,889.71.

The biggest project, 0.94 miles, lies partly in McHenry county and partly in Lake. It covers the paving of Route 60 from Richmond southeast through Spring Grove and into Lake county, at a cost of \$323,143.25.

State Birds

While a few states have adopted certain birds officially, the following birds are identified with particular states: Alabama, flicker; California, California quail; District of Columbia, wood thrush; Florida, mockingbird; Georgia, brown thrasher; Illinois, cardinal; Kansas, Western meadowlark; Kentucky, cardinal; Louisiana, brown pelican; Maine, chickadee; Maryland, Baltimore oriole; Michigan, robin; Missouri, bluebird; Nebraska, Western meadowlark; Texas, mockingbird; Virginia, robin; Wisconsin, robin; and Wyoming, Western meadowlark.

One Useful Mouse

The grasshopper mouse, which is found in western states, makes itself useful by eating grasshoppers, beetles, crickets and scorpions.

Not Infallible Signs

Swallows flying low, according to a theory of the present, are a sign of coming rain. But it is possible to stand on the south shore of Long Island, for instance, and see these birds flying as low as one's head, this occurrence to be followed by a week of sunshine. Oddly enough, the periodic mysterious disappearance of the swallows was responsible for the old-time theory that these birds hibernated in the water in mud.

Heavier than usual on animals such as bears and heavers, is held to forecast a cold winter, but naturalists deride this theory.—New York Times.

Orang-Utan Resembles Man

The orang-utan, the tallest of all apes, abides in Borneo and Sumatra and is extremely rare. Its usual habitation is trees, on the fruit of which it feeds, and where it makes a nest for itself by winding branches together. This remarkable quadrumanous mammal can pass from one tree to another with the facility of a squirrel; possesses astounding strength and its physical structure approaches very near to man.

Historical Interest of Old Boston Navy Yard

The Boston navy yard, the second oldest in the United States, has an historical interest on account of its activities during the War of 1812, and especially during the World War. It has been a very important cog in the United States naval war machine.

Few persons are aware that up to 1881 39 war vessels had been built at this navy yard, the flotilla being the first launched in 1812; the second, the frigate Independence, launched on June 22, 1814. Among other ships constructed here was the sloop of war Cumberland, whose keel was laid in 1818, though it was not completed till 1842. This was one of the vessels moored at the Norfolk navy yard when it was evacuated by the Union forces and set on fire by order of Admiral Paulding on March 8, 1862, so that all the property that might be destroyed by the Confederacy would be destroyed. The Cumberland was saved from destruction by the heroic effort of Lieut. T. O. Selfridge, who with the small steamer Yankee towed her to an anchorage off Fortress Monroe.

But when the Confederate blockade runner came down Chesapeake bay and attacked the Union fleet she rammed the Cumberland, cutting a large hole in her side that caused her to sink in a few minutes. When her acting commander, Lieut. George U. Morris, was commanded to surrender he replied: "Never. We will sink with our colors flying."

Of other ships built at the Boston navy yard the Hartford, launched in 1858, made a memorable record of history as the flagship of Admiral Farragut on April 25, 1862, when he received the surrender of New Orleans; also in the successful engagement in Mobile bay on August 5, 1864.—Boston Herald.

Summing It Up

When wealth is lost, nothing is lost; when health is lost, something is lost; but when character is lost, all is lost.

Importing Plants

The practice of importing valuable plants from foreign countries at least as old as Queen Hatshepsut who ruled Egypt about 1550 B. C. for an expedition which brought foreign trees into Egypt during her reign is historically recorded.

Oyster Growth

The true oyster lives only in salt water, although closely related brackish water oysters are found in the Chesapeake bay and other estuaries.

The oyster is a bivalve mollusk which lives in a shell composed of two valves. The valves are joined together at the hinge by a strong elastic ligament.

The oyster is a filter feeder. It draws in water through its gills and filters out the food particles. The water is then expelled through its siphon.

The oyster is a very hardy animal. It can survive in brackish water and can tolerate a wide range of temperatures.

The oyster is a very important food source for many people. It is also a valuable commodity in the oyster industry.

The oyster is a very interesting animal. It has a long history and a fascinating life cycle.

"61" Quick Drying Varnish

No longer need the housewife dread a disordered household because of redecoration. That living room floor, chair, or table, which has been an eyesore for so many months can now be finished with "61" Quick Drying Varnish in the morning and will be ready for use before evening. Two coats can be applied in one day.

USE IT EVERYWHERE

"61" Quick Drying Varnish, Clear Gloss, will prolong the life of your linoleum many years. It will not only make it easier to clean, but will also bring out the colors. It should be obvious that a varnish as durable as "61" Quick Drying Varnish on floors and linoleum lasts even longer on furniture and woodwork. Right in your own home there are many pieces of furniture that can be refinished like new, with a coat or two of "61" Quick Drying Varnish.

WOODSTAIN COLORS

In addition to the Clear Gloss, "61" Quick Drying Varnish is available in four transparent woodstain colors, Ground Color and Dull Finish. These have all the durable, waterproof properties of "61" Quick Drying Varnish Clear Gloss. The colors are permanent, brilliant, have a beautiful depth of luster and dry in 4 hours.

Barrington Woman's Club

"Men of Art" by Thomas Craven will be reviewed by Mrs. Sumner Mead at the study club next week on Thursday afternoon, Mar. 24. This book is a comprehensive history and a commentary on art from the time of the Renaissance when the first great painters appeared in Florence to our present day with its modern and impressionistic tendencies. Mrs. Mead, herself an artist, will bring to her audience a full appreciation and understanding of this fine book. These meetings are open to the public and are held at the library rooms at 2:30 o'clock.

From time to time announcements are made in this column of guest days of other clubs and of open meetings down town in Chicago. Those of our women who have attended some of these, have been delighted with the programs and charmed with the people whom they have met. Last week one of our members attended a lecture and tea at the Civic Opera building, and reported enthusiastically of the enjoyable afternoon she had spent. The subject of the talk was home lighting, and a small model house perfectly lighted was on display for the inspection of the guests. Later tea was served at small tables on the 38th floor of the building. Another similar meeting on garden lighting will be held at the same place some time in April. Announcement of the date will be made here later. Reservations should be made in advance, but there is no fee for attending. It is hoped that more of our women may avail themselves of this particular opportunity, and of the many other interesting invitations which come to our club.

The Irving Park Woman's club is sponsoring a country fair on March 17, 18, 19, afternoon and evening, at the Fries-Malwitz showroom, 4101 Irving Park Boulevard. There will be games, dancing, fortune-telling, etc., and the proceeds will go to charity. They invite any of our members who are visiting or driving in that neighborhood to participate.

Platform of County Attorney A. V. Smith Is Record in Office

County Attorney A. V. Smith's platform for nomination and re-election is his record in office which, his friends uphold, is a strong platform.

During his time of office, the state's attorney has been responsible for 980 convictions in county and circuit court, 31 convictions for murder and manslaughter, 31 convictions for robbery, 31 for burglary, 14 convictions for rape, 137 for larceny, and 11 convictions for forgery.

During his tenure of office, \$37,000 has been collected in fees, fines and forfeitures, and paid into the county treasury. Of this \$38,000 has been turned into the school fund.

Charles E. Mason Has Had Varied Experience

Charles E. Mason, who is a candidate for the office of county attorney of Lake county, has seen service in almost every type of avocation except that of medicine.

Mr. Mason, who is 42 years of age, was raised in Lake county. As a dependent boy in the county he was placed in the Glenwood school by the county court. He was later taken into a home at Round Lake where he went to school. Since then he has been a barber, has worked on a farm, has played the drums in musical organizations, and has filled the duties of a traveling salesman, and in 1921 was elected justice of the peace in Waukegan.

Mr. Mason finished his high school and college work by attending night school. He was graduated from the Marshall Law school in 1926. He has served as assistant state's attorney and has been judge of police court in Waukegan. His platform is announced in an advertisement on another page of The Review.

IT IS so easy to enter our Skelgas contest. There's nothing to buy. All you have to do is write a letter of 300 words or less on "What Skelgas Would Mean to Me". Writing ability is not necessary. It is what you say that counts. Skelgas has so many advantages that it is very easy to write about.

65 NEW STOVES

There are plenty of prizes, 300 of them, including 65 new stoves with a supply of Skelgas for each stove. See the big list of prizes shown at left. It is so easy for you to win a prize in this contest, because there are so many prizes to be won.

You don't need any help to enter this contest, but we have a four-page Skelgas newspaper which is yours for the asking. It tells about Skelgas and contains the letters of people who are already using it.

WHAT IS SKELGAS?

Skelgas is the very heart of rich, natural gas. Clean and intensely hot burning, sootless and odor-free, it is used for cooking, water heating and lighting. It is real gas for all those who live beyond the gas main.

Contest Closes April 16th. It's easy to write a winning letter. Read the rules, write your letter, and send it to the Contest Editor, Skelgas Company, 2534 Madison Avenue, Kansas City, Mo.

THE RULES:

- Each letter shall be written about "What Skelgas Would Mean to Me."
- Write not more than 300 words. Elaborate presentations will not be counted in your favor, so write your letter in plain, simple language, on one side of paper only. Place your name and address and kind of kitchen fuel now being used, at the end of your letter.
- Anyone is eligible, excepting employees and family of employees of Skelgas Company, Skelly Oil Company, Skelgas dealers, and company's advertising agency.
- Your letter must be postmarked before midnight, Saturday, April 16, and mailed to Contest Editor, Skelgas Company, 2534 Madison Ave., Kansas City, Mo.
- All entries submitted become property of Skelgas Company, and may be used by company for advertising purposes without payment. None will be returned to sender.
- In case of tie, each trying contestant will receive full amount of award.

UNCLE SAM'S GOOD DEAL

When Uncle Sam engages in any business transaction he usually gets skinned good and plenty, but there is one instance on record in which he made a really good deal, and it was in connection with Muscle Shoals at that.
 The story is told by a writer in the Review of Reviews, who relates how the Alabama Power company, which formerly owned the Muscle Shoals site, donated it to the United States government as an act of patriotism when this country entered the World War. To make the transfer legal, the government gave the company a check for one dollar as compensation for the property, at the same time expressing appreciation of the gift. The writer continues:
 "Later the power company reproduced the check in some literature which it was distributing, to inspire Southern citizens to similar gifts, whereupon the government fined the company \$500 for reproducing a public document without official sanction. So the government made \$499 on Muscle Shoals.
 And, he might have added, the government hasn't made any further profit from the project since, because of the persistence of Congress in making Muscle Shoals a political football instead of handling it as a business proposition."

PERSHING PARSING

Ability to parse a sentence better than a fellow contestant for an appointment to West Point gave the United States its greatest living soldier, General John J. Pershing, according to a story recently published.
 Back in 1881, when three Missouri boys appeared before an examining board which was to select an appointee to fill a vacancy at the United States Military Academy, Pershing was one of three. He and another boy named Mallory were so evenly matched that the board was hard put to decide between them.
 As a final test the board proposed for parsing the sentence: "We are as sure of heaven by sea as by land." Pershing did a perfect job of parsing, while Mallory fell down, so Pershing got the appointment, was graduated from West Point, rose to high military rank and eventually became commander of the A. E. F.
 His rival, J. D. Mallory, has had a modest but useful career and is still living as a rural school teacher near Purdin, Mo., having taught all these years. Possibly he could hear Pershing in parsing that same sentence today.

TRADING HEALTH FOR STYLE

Tuberculosis is most prevalent in girls in their teens than in boys of the same age, according to a study of 3,000 University of Illinois students. Dr. J. Howard Board of the University health service points out that this increase is due partly to the starving, staid, and spindly which decrease bodily resistance. He says that disease is the bonus received when vigor and strength are exchanged for fash, fashion, and frolic.

THE time has come to dig up every idle dollar and make it earn its keep. For each dollar that goes back to work releases a full ten dollars worth of credit—and credit is the very life blood of this nation.
 Each dollar bill that you take out of hiding and put back into circulation is transformed immediately into ten dollars worth of business activity—re-open sluggish markets—re-open factories—start the wheels moving again—bring men back to work.
 Here's How to Do It:
 Get out that Cash Nest Egg. Put it into your own bank—where it will provide ten times as much credit for local business. Or buy sound securities at present bargain prices—or pay taxes—or pay debts with it. Or take it to the nearest bank—and ask for the new United States

Government Reconstruction Bonds maturing in one year.
 Both your money and these bonds are backed by all the resources of the United States. The chief difference is that the Bonds pay interest. They bring you a sure return of 2 per cent guaranteed by the Federal Government. But the actual yield is greater. For they are free from any form of taxation. And if you need the cash—for some personal emergency—they are readily transferable or convertible into cash at full par value upon 60 days notice.
 Only Idle Dollars Wanted
 Don't take the money out of your Savings Account to buy these bonds. Don't disturb your present investments in good sound securities. For these Reconstruction Bonds are designed for Idle Dollars. Only dollars that are hidden away—doing no work of any kind.

For those citizens who want a high return on their dollars—USE THEM TO PAY TAXES NOW. The penalty you avoid paying later amounts to more than the return on any other sound investment.

Barring Bronks Make Go Showing Agai Waukegan Quin

1933 Prospects Review Game With Arlington Heights Tuesday

The Barrington Branch, a very successful season by a third place in the state district held at Waukegan, last week Maroons were eliminated from playoffs consideration on Wednesday night when they were defeated by Waukegan 21 to 11. Third Waukegan copied the meet by going from 21 to 26, de Barrington, and then drubbed Plaines in the final 25 to 13. Barrington was far from best classed in the Waukegan game, but the score tied during the quarter but were trailing 15 to 10 at the half. At the opening of a half Waukegan rolled in a pile of baskets and after the other two games ran true to form. Waukegan was leading from Branches 9 to 8 at the half and the local squad put on a nice half attack to win with ease. Grant gave the Fox Lake job a three-point lead in the quarter only to succumb to the superior drive. All the boys good ball, but Wolf excelled floor game with Miller was the point of offense with some play in the three games.

1933 Prospects Review
 With the 1932 season out way Coach Clark is beginning around at his prospects for next year. He started four Juniors, Miller, Grabenker and Roth, Waukegan game, and they good against the veteran W. five. With eight seniors de from the squad however, he to have quite a task in filling vacant places. Arlington Heights after school on Tuesday which both coaches used the year's prospects. If their apt there is any basis for future looks like Barrington should fair team, at least, next season, the two Captains, Paul Pollock, DeMohl, Christmas and Banks were all used and considerable possibilities.

Prizes Valued at \$12,500 Offered in Skelgas Contest

Prizes totaling \$12,500 in value will be given away in a contest announced this week by the makers of Skelgas and Skelgas dealers throughout the middle-west, according to B. A. Schroeder of Schroeder Hardware Co., Skelgas dealer for this locality. Unlike most contests, where but a few persons share in the prizes, the judges in this Skelgas contest will award at least 300 prizes, and they will all be right here in the middle-west, as this is not a national contest. All there is to do, is write a letter—no more than 300 words—on "What Skelgas Would Mean to Me." An advertisement on another page of The Review explains the contest.

Total Sales Are Lower for Four Weeks Period

The Jewel Tea Co., Inc., reports that its sales for the four weeks ending February 27, 1932, were \$802,041.08 as compared with \$1,107,352.53 for parallel weeks in 1931. The average number of sales routes for parallel weeks in 1932 was 1,336 and in 1931, 1,284. Sales for the first eight weeks of 1932 were \$1,792,529.00 as compared with \$2,174,205.58 for the like period in 1931, a decrease of 17.56 per cent. For these weeks the average number of routes in 1932 was 1,335 and in 1931, 1,284.
