June, 2001

Dear Reader,  
The story "Local Charity Combats African AIDS... One Village at a Time" in this issue really pushes buttons. We seem to go blithely through our daily lives, concerned with relatively minor problems. Then you read about African AIDS, a situation so horrible one has trouble imagining it. This year, Hands for Hope is reaching out to a poor area, Ruhengeri in Rwanda with 800,000 inhabitants. Genocide and AIDS have the people in this area in dark despair. Hands for Hope will provide funds for AIDS resources to help educate people about the cause and effect of the disease. They will also fund loans for village women to start businesses. And help them feed their families. There are angels out there, and some of them are Hands for Hope. Plan to attend "Country Garden Faire" on June 22 and 23 to help raise funds for this great service.

Highlighting summer events in the area is BYDE's production of *Coppelia*. Fun for the entire family, *Coppelia* is a funny, romantic story of a doll maker and his creations... performed by professional artists and many area children. That's June 15 and 16. Don't miss it!

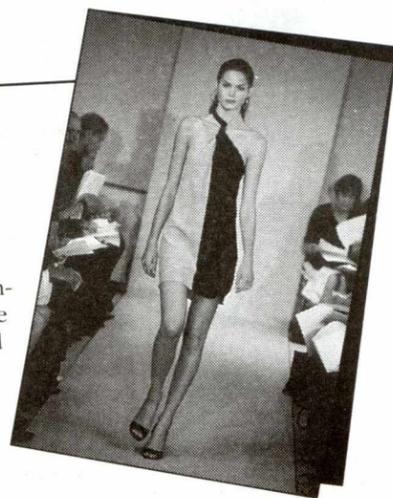

Until next time, may all your thoughts be sunny. Happy Father's Day, dads!

With warm regards,  
Glenn McMonigal  
Editor, *Lifestyles Magazines*

**Electrolysis is the Answer**

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

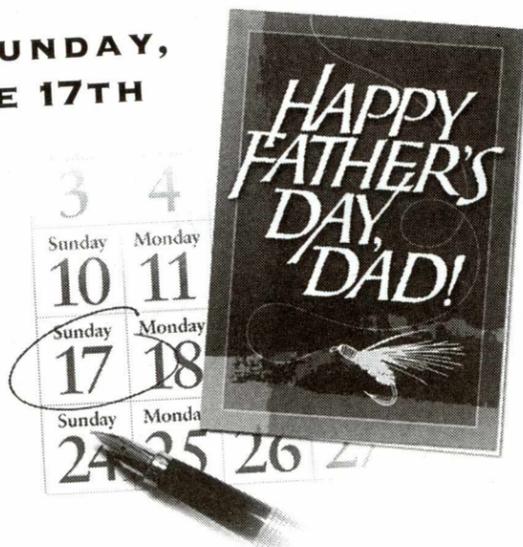

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 25 years of service at the same location.

## Local Charity Combats African AIDS... One Village at a Time

Hands of Hope announces plans to raise funds for the African village of Ruhengeri in Rwanda. The charity is a community of women in the Northwest Suburbs of Chicago who work to help women and children worldwide. Its volunteers research life-threatening issues, select a project, raise public awareness and host fundraisers to provide financial support. Recently, Hands of Hope representatives returned from a two-week tour of Malawi, Rwanda and Kenya where they witnessed the devastating impact of AIDS.

To date, AIDS has claimed the lives of over 17 million Africans and leaving over 12 million orphans. And many of those orphans are also afflicted with AIDS. An estimated 26 million people on the continent are infected with HIV. But numbers do not tell the human story. "Millions of African adults are dying, leaving behind children who are grieving and struggling to survive without a parent's care," says Wauterlek, founder of Hands of Hope. "Many of those dying have infected partners who need care themselves."

During her trip, Wauterlek visited women left widowed by AIDS who struggled to provide for their children. She met women raising orphans, like the grandmother who had lost seven adult children to AIDS. She is now left in poverty and caring for 18 grandchildren.

What can be done to confront AIDS, one of the greatest socioeconomic and health crises in history? "Hands of Hope decided to break down the problem to a manageable size, so we chose to focus on Ruhengeri, a poor area in Rwanda with 800,000 people," explains Wauterlek. Rwanda's distress is compounded by the 1994 genocide that claimed the lives of nearly one million people. This destroyed the economy and plunged the people—especially women—into even deeper poverty. The group hopes that this model of one community reaching out across the globe to another will encourage other communities to do the same.

Specifically, Hands of Hope will provide funds for AIDS resources to help educate people about the cause and effect of the disease. "This is a critical step for positive long-term change," says Wauterlek. "We'll also fund loans for village women to start or expand small businesses." These micro-enterprise development banks are a proven approach, empowering impoverished people to become self-sufficient and regain their hope and dignity. "During our trip, we met women whose loans enabled them to start selling goods like secondhand clothes, vegetables and sugar. They could take care of their families and put nutritious food on the table. Some even earned enough to have a home of their own."

Hands of Hope will host the second annual Country Garden Faire in Barrington

on June 22 and 23 to raise funds for the village of Ruhengeri. Guests are invited to stroll through the grounds of an enchanting estate and meander down the country lanes of a charming prairie property. At the estate, guests will enjoy formal gardens and shopping in the French market for fine items from antiques to architectural artifacts. They can also browse the Avant Garden, filled with delightful, gently-used items. Live entertainment, lunch and refreshments at the faire's own special restaurant as well as art, sculpture and flower arranging demonstrations will further add to the attractions of this garden site. At the prairie estate, visitors will view an abundance of blooms from English rose gardens, extensive perennial beds, butterfly gardens and cutting gardens. Horticultural experts will also be on hand to answer garden related questions.

Last year, the Country Garden Faire raised money for Nigerian women afflicted with a gynecological condition resulting from early childhood marriages and subsequent pregnancies. Funds were donated to the ECWA Evangel Hospital in Jos, Nigeria, where a 50-bed surgical rehabilitation center was constructed.

Ticket price is \$15 per person in advance or \$18 at the door for the Country Garden Faire. In Barrington, tickets may be purchased at The Gilded Nest, Ambrosia Euro-American Patisserie, Entourage Hair Fashioners and Coachhouse Dry Goods. Parking is available at GE Capital, located at 540 W. Northwest Highway. Shuttle service will be provided to and from the event. Hours are Friday, June 22, and Saturday, June 23, 9 AM to 4 PM. For more information or tickets, please call 847-622-3856. Or write to P.O. Box 1626, Barrington, IL, 60011.

## "Run for the Arts"

Independence Day celebrants of all ages enjoyed the "Run for the Arts" last year. For many area families and race enthusiasts, the event, now in its sixth year, has become a July 4th tradition. Participants choose between a sanctioned and certified

5K or 10K run or a 2K or 5K walk. The event kicks off at 8 AM on July 4 from 207 Park Avenue in Barrington. Runners and 5K walkers pay \$17 through June 23 or \$20 thereafter. The fee for the 2K walk is \$10 or \$40 for families of five or more.

## Young Musicians Plan Pretour Concerts

**Barrington Suzuki Strings Tour Group**

The public is invited to three, free pretour concerts given by students of the Barrington Suzuki School who will be traveling and performing throughout Spain and Portugal in June.

The tour group consists of 36 cellists, guitarists and violinists ranging in ages from 11 to 20. All have studied and performed music in the Suzuki method of instruction for many years. They will present

an open-air concert in the Deer Park Mall on June 1 from 6:30 to 7:30 PM. A more formal pretour concert will be given at the Village Church of Barrington on June 10 at 3:00 PM. Finally, an informal outdoor concert will be performed in Paulus Park, Lake Zurich, on June 12 at 4:00 PM. The public is encouraged to come see and hear these talented neighborhood children.

Proceeds benefit the Barrington Area Arts Council. Call 847-382-5626 for details and entry forms.

## A More Beautiful Face and Body for Summer

Spring and summer... what a beautiful time. The flowers and trees are so luscious and the sun is so bright—it is truly a happy time.

We must think about our faces and body a lot now. Remember spring cleaning, we all look at our windows, drapes, blinds and carpets. They all look drab now, so we clean them. Faces are the same. The winter causes the skin to become sallow. Dead cells build up on the epidermal layer. Now is the time to make an appointment with your licensed skin care specialist at **Syd Simons**. Let them reevaluate the condition of your skin. And they can advise you on exactly what to do to restore the beauty to your skin.

We are having great results with our Pure Vitamin C Mask from Murad. What a great treatment! And we have our New Enzyme Treatment too. The new Murad treatment is designed for these skin types:

- Oily, clogged skin with blackheads and acne breakouts
- Dehydrated skin with non-inflamed acne and milia under the skin
- Combination skin types that experience clogged pores in the T-zone area; we recommend them with a facial or a separate series

Our microdermabrasion treatments are going extremely well also. They're wonderful treatments! I am going to list some of the problems these treatments correct:

- Sun damaged skin
- Uneven and granular skin
- Fine lines and wrinkles
- Enlarged pores
- Blackheads and comedones
- Superficial scars
- Some stretch marks

• And they improve skin tone  
Micro-peel offers a gentle alternative to more traumatic resurfacing treatments. Micro-peel gently removes epidermal cells to treat a vast range of skin imperfections. It is especially effective for skin aging. The powerful action triggers the skin's repair mechanisms to produce healthy epidermal growth, improving skin tone and elasticity.

Now on to the nail rooms for a wonderful Spa Pedicure to remove dead skin and calluses and have a pretty polish put on your nails to wear with your new sandals.

Make-up for the summer is much different than for the winter. Make an appointment with one of our great make-up artists to change your look for the summer. It is always so rejuvenating to have a new look! We apply make-up for all occasions; wedding parties are very popular in our studio.

I will be leaving the 8th of June to attend the International Skin Care Convention in Las Vegas. I will be learning the latest technologies in make-up and skin care. I have been in the skin care and make-up business for 30 years. And every year it changes. It's a full time job just keeping up with it.

Remember your dad this Father's Day. He would love a facial, massage and manicure. Stop in and pick up a gift certificate for Dad.

Have a happy, healthy summer and most of all have fun. We do our best to make it the best for you.

Sincerely,  
Cathy Ramstadt, owner

## BACOA's 4th Annual "Village Garden Walk"

Volunteers relax with a little "garden talk" after last year's garden walk. Pictured in the foreground are (l to r) BACOA executive director Joyce Palmquist; volunteers Lydia Kolrep, Noreen Lavine and Rosemary Benson; and event co-chair Pam Weinert.

Eight beautiful gardens will be showcased in the 4th Annual "Bloom Where You're Planted" Village Garden Walk and Boutique on Saturday, June 23, from 10 AM to 3 PM. All proceeds from ticket and boutique sales will go to support the Barrington Area Council on Aging, Inc.

For those interested in viewing some of the beautiful gardens of the Village of Barrington, tickets will be \$13 if purchased prior to the day of event or \$15 on the day of event. To purchase tickets in advance, call BACOA at 381-5030 or stop by the office at 200 South Hough Street, Suite 001. Maps of participating gardens will be provided on the day of the walk.

## Jose Cuervo Consumer Education Dinner

Most people who drank tequila when they were in college had bad experiences with bad tequilas. Many bars and restaurants are working to reeducate drinkers about the blue agave drink. **Julio's Latin Café** has cultivated its tequila selections carefully and is a wooing lover of fine spirits back to the tequila-drinking fold. Customers are now enjoying fine-aged, triple distilled tequilas.

Stuart Kirby, the national spokesman for Cuervo and Cuervo 1800 tequilas, said a major reason for tequila becoming the fastest growing spirit on the market is the increase in fine Mexican and Nuevo Latino restaurants in the Chicago area. "Tequila is leading the charge behind the Latin beat," Kirby said. "It's not just a south-of-the-border shot, and not just a north-of-the-border margarita. Consumers don't

really know how to drink tequila," he continued. "People find themselves in a whole new world once they learn how to drink it."

Only six top Nuevo Latino restaurants have been asked to host "Authentically Mexican" dinners for just 60 to 70 consumers. On Tuesday evening, June 19, **Julio's Latin Café** will be one of the locations for this honored event. The dinner will combine fine Mexican food, paired with the different brands of Cuervo. The educational session will consist of a brief overview of the agave shortage as well as Cuervo's leadership as the high-quality authentic Tequila with excellent history and tradition. We are all looking forward to this event, and seating is limited. Please plan to reserve a table as soon as possible.

## BAAC 15th Annual Art Fair

The Barrington Area Arts Council is thrilled to announce The 15th Annual Summer Art Fair on Sunday, June 17 (Father's Day), sponsored by Northwest Community Healthcare, Northern Trust Bank and the *Barrington Courier-Review*. Take a stroll down Cook and Station Streets in downtown Barrington from 10 AM to 5 PM and visit over 90 juried artists. The BAAC invites everyone to enjoy the day, but requests that the family pets are left at home.

Included in the type of fine artwork that will be offered for sale are watercolors, oils, pastels, colored pencils, acrylics,

ceramics, sculptures, glass, mixed media, photographs, printmaking, fine crafts and jewelry. BAAC has worked hard to bring this fine selection to the members of our community who appreciate and support the arts.

Throughout the day, there will also be entertainment and a wide variety of food. Musical sounds will fill the air from Prairie Smoke (folk, pop, rock) and Fool's Paradise (a funky bluegrass, jazz, folk rock band). There will also be an appearance by Mickey the Clown.

There is no charge to attend this family affair. For information, call 847-382-5626.

## Lasting Gifts for Fathers

*Wells Burt* by Eric Forsberg,  
9" x 12" oil.

*The Suitor* by Karl Lansing,  
19" x 7" x 18" bronze.

Dunton Gallery is delighted to assist mothers, daughters, sons, in-laws, "steps," "grands," and even "great grands" in acquiring fitting gifts for Father's Day. What a perfect way to celebrate that significant man in our lives by giving him a piece of original fine art!

For the outdoors-man, the gallery has a selection of very limited bronze sculptures of wildlife that are best seen to be believed. They are astounding in both detail and texture as they depict the animals' natural habitats. Additionally, there are numerous original paintings of wild scenery such as the *Great Falls on the Potomac* painted by local artist Konrad Hack, featured in our ad.

For the fisherman, there are bronze trout captured in glass sculptures that can set the perfect cast in mind.

For the globetrotter-at-home, we literally have paintings from around the world that capture lively street scenes, well-known landmarks, back roads and all the

seasons in one-of-a-kind landscapes in the media of oil, watercolor or pastel.

For the sailor, there are beautiful marine paintings such as the one displayed in this article by a local artist, Eric Forsberg, which captures the majesty of the sailing ships of old.

For the horseman, there are large and small bronzes and paintings of our equine friends.

For that man in your life, there are all sorts of options available from **Dunton Gallery**, 18 S. Evergreen Ave., Arlington Heights. We are on the Dunton Avenue end of the Evergreen Center, which puts us two blocks south of Northwest Highway and two blocks west of Arlington Heights Road. The gallery is primarily open Tuesdays through Saturdays, 11 AM to 5 PM, but we gladly accommodate appointments at all other times. We can be reached by phone at 847-818-0694 or through our website at—www.duntongallery.com.

## Claude Thomas' Exclusive Services—

Along with hair, nail and spa services, **Claude Thomas** is introducing exclusive and exciting new services. One is **Microdermabrasion**. Compared to a chemical peel, this exfoliation treatment offers higher precision. Other benefits of this treatment are many:

- Works on all skin types
- Elimination of fine lines and wrinkles
- Lightens and can even eliminate age spots and hyperpigmentation from sun damage
- Reduction of open pores
- Reduction and/or elimination of broken capillaries, scars, stretch marks, whiteheads and blackheads
- Restores sun damaged skin

**Claude Thomas** also has the **Stimulating Lift Treatment**. This program will help take years off the appearance of aging skin without surgery. The most important function of the **Stimulating Lift** is to tone up and contract the underlying muscles of the face and neck.

Another exclusive service is **Hair Extensions**. Not all hair extensions are alike. We only carry the most innovative methods in our industry—the ones that celebrities and models use. Our system does not damage your own hair like so many systems in other salons. The **Polymer Attachment System** attachments are polymers equal to the human hair structure, not glue, wax or twisting and braiding that damages your own hair. We use the

best 100% human hair—not synthetic—with the cuticles all going the same direction. This hair is easy to perm or color. After a consultation, we would determine what would be right for you.

**Permanent Make-up** is now at **Claude Thomas**. This service will be done by Claudia and Jennifer. Who benefits from Intradermal cosmetics?—Busy people with little time to apply make-up; people with allergies to make-up; people who seek corrections of asymmetrical facial features; people who wish to look their best all the time; athletic people; entertainers; actresses and models; and those who are physically incapable of applying make-up. Call and find out more about this service.

We have added to our services expert **eyelash tinting, eyelash perming and eyelash extensions**.

**Claude Thomas** specializes in **wedding and special occasions! Gift certificates available.**

## What's Happening at Starr Couture

I would like to share some personal thoughts.

As a business owner, there are always challenges. The best part, aside from my love and passion about the buying and selling, is our happy customers. It warms my heart every time we get a phone call or when a customer stops by to tell us about all the compliments she received when she wore something purchased at our store. All of this positive feedback motivates me even more to bring outstanding collections every time I'm on a buying trip, especially Europe.

I take a lot of pride having chosen Barrington for our store location, and it gives me great pleasure to tell you that we have customers coming from the North Shore, Oak Brook and Chicago areas. Thank you again for all of your support and referrals. And to those of you who have not visited us yet, I am personally extending an invitation to you. Stop by and say "hello."

I look forward to seeing you soon...

## Chers Amis...

Just a quick note to remind you, my supporters, of all the different foods you are about to discover when you come to **D & J Bistro** for either lunch or dinner, along with activities that have made our bistro the place "where things are happening!"

Of course, June is an exciting month from an Epicurean standpoint. You may come on a day when we serve morels, Michigan asparagus, soft shell crabs, fiddlehead ferns, etc. Maybe you'll stop by the *Le Bar* and grab a plate of Lake Superior fresh smelts. Who knows what we'll be featuring on that day? But there

are always some exciting foods at **D & J**, I guarantee!

As for activities, on Sunday, June 10, we will be hosting our **8th Annual Wheels & Meal**, a gathering of cars from another era whose proud owners also appreciate a fine meal, genuine camaraderie and fun. This is what our bistro is about! Call for details.

A last note of importance—*Ris de Veau* (sweetbreads) will be our true bistro dish for the month of June. Come and enjoy the real food, the happy food!

## Sweet William's Tea Room

Step through the gate at **Sweet William's Tea Room** and leave the pace of the 21st century behind. Relax and enjoy a perfect cup of cream tea, an imported loose leaf blend; a warm, flaky, home-baked scone; specialty creams made from the finest farm fresh dairy; and mouth-watering strawberry jam. Linger a while longer and indulge in a tray of delicate finger sandwiches, followed by an artful array of shortbreads, sweetbreads or a tantalizing **Sweet William's** specialty pastry.

**Sweet William's Tea Room**, located on the picturesque Woodstock Square, not only features a wide assortment of premium quality loose tea, but offers a simple yet elegant lunch menu as well. Located in the Sheriff's House in the historic Old Courthouse Complex, the menu at **Sweet William's** reflects the mood and the heritage of the establishment. Named after the owner's English grandfather, whose family of shipbuilders emigrated to the shores of Virginia in the 1800s, **Sweet William's Tea Room** is where English culture converges with local and colonial

history. The building, which was constructed in 1888, was also the site of Madeleine's Tea Room in the late 70s.

While the English country decor and the historic structure itself invoke a sense of a casual elegance and days gone by, the simple menu and daily specials run the gamut from the traditional to the somewhat unusual and even whimsical. Open Tuesdays through Saturdays, **Sweet William's** is more than a choice for good food and excellent service. It is a welcome haven in which to reflect and to dream... and to enjoy the perfect cup of tea.

## Hospice Duck Race Chairman Named

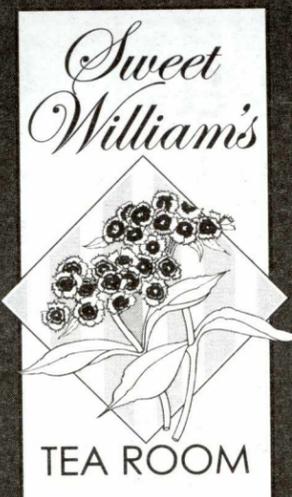

The popular Duck Race to benefit Hospice of Northeastern Illinois is off to a giant splash with the naming of Bob Dymond of Barrington Hills as the Chairman of the 2001 Duck Race.

"This is the eighth year that hospice has held the popular Duck Race, and there will be many new and exciting changes," said Dymond, a hospice volunteer. "I am very happy to be associated with the Hospice Duck Race. It is a wonderful, fun

event that benefits a great organization, and we're hoping to have many families participate this year."

The 2001 Duck Race will be held Saturday, August 11, at Langendorf Park in Barrington. For the first time, the Duck Race will be an evening event that will run from 5:30 to 9:30 PM. In addition, the Barrington Park District will be a partner in this year's event.

Along with the change of time, the

Duck Race will also have many fun activities including children's games, a "Little Quacker Duck Race" for children, a live band and DJ and a chance to cheer on The Duck as he paddles around the pool and scoops up prize-winning plastic ducks. The official "quack-off adoption" of ducks will begin in late May.

Dymond is no stranger to the Hospice Duck Race. He served in past years as the "chauffeur" for the yellow convertible that held the popular "Duck" in the July 4th parades in Barrington and Crystal Lake. A now-retired CEO of a specialty chemical company, Dymond said that the Duck Race is a new direction in his life.

"As a patient care volunteer at hospice for the past year, I've learned to realize how important quality hospice care is. The Duck Race is the major fundraiser

for this fine organization, and I'm happy to be a part of it," Dymond said. "The race has always been popular, and we are hoping to exceed what we raised last year."

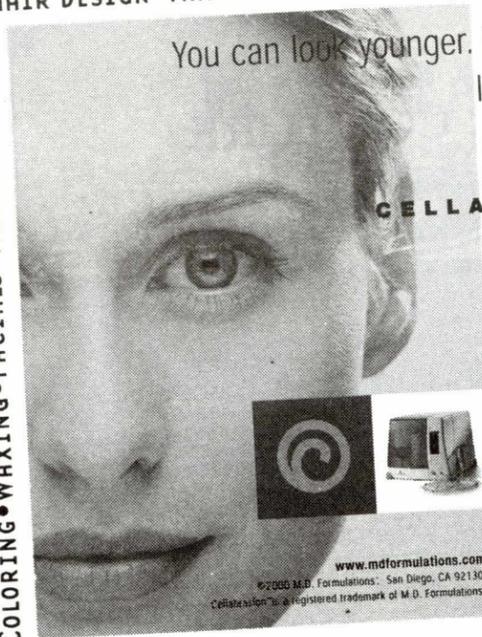

For almost 20 years, Hospice of Northeastern Illinois has served thousands of individuals with a life-limiting illness and their families throughout the six Northern Illinois counties. The Hospice Duck Race 2001 provides funding for these services which include: direct patient care both at home and in long term care facilities; bereavement and grief support services; and additional hospice care that is provided to anyone who needs support, regardless of their ability to pay.

### Exploring Kenya

Jim and I had the opportunity to experience Kenya this winter. We have been extremely fortunate to have had the chance to travel a great deal over the past few years. But I must admit, Africa was certainly my highlight. The camps, the African people and the animal viewing were an experience I don't think will ever be equaled.

We would sit in the tented camps, having had breakfast delivered, and the animals would be within touching distance. As we were drinking our coffee, we could see zebras, giraffes, elephants and other animals so close to us, it felt as if they were walking in our backyard.

As we did our afternoon drives into the game parks, I acted like a kid in a candy store. I was so excited as we saw lions and their cubs, large herds of elephants, hippos and leopards stalking their prey. The animals are so used to seeing humans in their surroundings, they would come right up to our vans and stand directly in front of us, which made for the most incredible photo opportunities.

We went into the Kenyan schools to watch the children perform their lessons and visited their villages and their huts. The women showed us how they prepared their meals. They were so warm and friendly even if we weren't speaking the same language.

As you can guess, I can talk about Africa forever. I am so excited about Africa, I can't wait to go back. Africa is a special place that everyone should put on their list of places to visit. It is incredible and affordable. Stop into **Travel House** and see my pictures, and let's talk about making that dream trip come true for you.

## Unique Combination of Oil Paintings and the Antique Pictured in the Paintings

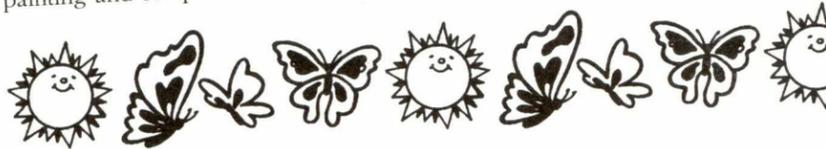

We are not just another antique store. Discover why we're referred to as the "quality antique store."

When have you ever been able to buy a piece of art and the antiques that were painted in the artwork? Well, you can now. We are featuring the artwork of William Pribble, a local artist, who is renown for his still-life oil paintings. But what is most interesting about this exhibit is that we have his 30-year collection of antiques that were used as the "models" for these works of art. Wow! What a conversation piece! The exhibit of 22 oil paintings and their objects are on display now. Own something very unique that no one else can offer.

Choose from vintage textiles, vintage and estate jewelry, vanity items, fine porcelain china, silver and glass. We carry the finest imported European, Asian and American antiques. We also carry art, both painting and sculpture from shabby chic

to exquisite oil paintings and lithographs. Lighting is always brightening the Antique Gallery, and we keep a constant assortment of decorative items for a rooms in your home. Our professional staff will guide you as you shop for the quality antique or the current look alike and you will always know the difference. Visit on Saturday and meet our resident Japanese Collector, specializing in Japanese ancestral and WWII samurai sword and artifacts. We are expanding our military collections to include European and Civil War items as well.

At Antique Gallery, we provide appraisals and estate liquidation. We sell, buy, and we are always looking for consignments of the finest quality antique and current production items. We make house calls too. Phone our offices for information and details at 815-455-4177. Ask for Stephanie. We at Antique Gallery look forward to meeting you.

Thank you all so very much.

Due to the fantastic participation of the women who attend our event, one of the thrills of being involved in the Women's Club of Inverness is being able to approve

11 scholarships for deserving young people in the area. We are proud to provide \$1,000 to the following students so they may continue their pursuit of higher education: Landric Bose, Trisha K. D. Kimberly Hongoltz, Karlin Kou Steven Krutsch, Lauren Lucas, M Pasillas, Vrajish Patel, Katheryn Adriane Regalato and Leena Prasad will be attending many different college and career paths, but we feel confident that each will succeed beautifully. Congratulations everyone and much luck in the future.

## Romancing the Stone—Hearts On Fire The World's Most Perfectly Cut Diamond Exclusively at M.J. Miller & Company

On Saturday, June 16, **M.J. Miller & Company** will be celebrating their first anniversary in their new location at 123 West Main Street in Barrington. This very special day will include a host of exceptional events, including demonstrations of diamond cutting by Master Diamond Cutter Brian McHardy from **Hearts On Fire** diamonds, the world's most perfectly cut diamonds. **At the end of the day, M.J. Miller & Co. will be giving away a Hearts On Fire diamond.** No purchase necessary.

The **Hearts On Fire** company was founded in 1996 by Glenn Rothman who wanted to give the consumer a difference they could see and a brand name they could trust.

"Until the creation of **Hearts On Fire**, there was no easy way, beyond a course in gemology, to prove to customers that one diamond was better than another. I wanted **Hearts On Fire** to provide the benchmark for excellence," says Rothman, a veteran of the diamond business. Both *Fortune* and *The Wall Street Journal* suggest he has. Both recognize Rothman for vastly simplifying the selling of fine diamonds by letting buyers see with their own eyes the superiority of the stone. With a **Hearts On Fire** diamond, the quality is assured and certifiable.

Each **Hearts On Fire** diamond is perfectly cut to precise proportions and polished to such an exquisite finish that it burns with a brilliance you simply will not see in any other diamond. When viewed under a low-magnification lens, a **Hearts On Fire** diamond exhibits a visual pattern of eight perfectly symmetrical hearts when viewed from the bottom. When viewed from the top, it exhibits a perfectly symmetrical fireburst, resulting in a diamond that looks larger, sparkles more brilliantly and has more fire. The complete process of cutting a **Hearts On Fire** diamond can

take up to four times longer than an ordinary diamond, resulting in a gem that's classified by the American Gem Society as "beyond ideal." This means that a **Hearts On Fire** diamond is the world's most perfectly cut. Every diamond. Every time.

"Beyond ideal" is not a certification that is given lightly. Using a 0 to 10 scale, with zero indicating the highest rating, AGS grades diamonds for each of the three essential elements of cut: proportion, polish and symmetry. Diamonds that receive top marks for all three factors earn "Triple Zero" grades, a rating that **Hearts On Fire** diamonds receive time after time.

Gemological Institute of America inscribes every **Hearts On Fire** diamond with a microscopic brand name and logo, along with the AGS grading report number, insuring the customer that they have purchased a **Hearts On Fire** diamond. Retail price for the diamonds range from \$1,200 to \$1 million, a small price to pay for perfection. Says Rothman, "Other diamonds cost less because they're worth less."

As for the name, Rothman wanted something that put the emphasis on emotion rather than gemology. Says Rothman, "A diamond is not merely a rock pulled from a cave. It's an enduring symbol of love and commitment. And when you're choosing something that will last for a lifetime, you want to be sure that you're getting the best. With a **Hearts On Fire** diamond, it's a promise that we keep."

What does it take to bring a diamond from the mine to the most perfectly cut gemstone? First, a large piece of rough diamond, which has been buried deep within the earth for thousands of years, needs to be uncovered and discovered. Approximately 250 tons of earth are moved to find every 1 carat diamond.

Earth, rock and diamond are placed on a conveyor belt covered with grease, with

the debris falling off and the diamonds sticking to the grease. Next, the diamonds are sorted for size and quality.

At this point, the rough diamonds are sold in parcels or mixed packages, with the purchaser of these parcels having no bargaining abilities on its contents. You take the parcel or leave it.

Again the diamonds are sorted and the diamond house now will begin the process of bringing the dull and lifeless rough diamond to its own brilliant future.

A diamond cutter is an apprentice for approximately 10 years. It is a profession that requires a great deal of concentration, scientific knowledge and artistry. The diamond goes through several processes of diamond cutting. The first step is cleaving. Cleaving is the initial "splitting" of the rough diamond if it is determined the shape is not sufficient. Tracing on the stone with ink, indicating where the stone will be split, a small "v" shaped nick is made in the rough. Finally, a blunt blade is put in the nick and a sharp blow with a mallet or steel hammer is given, thus dividing the stone. This operation is usually followed by many hours of study, often days, before continuing with the process.

After the cleaving, the diamond is now put through the process of bruting. Bruting is the fundamental process of shaping the diamond. Next, the grinding begins, which is the sequence for establishing the facets. When the faceting is complete, the original rough diamond has lost a significant amount of carat weight. Many diamonds are cut to retain a maximum amount of weight. A **Hearts On Fire** diamond is cut for maximum brilliancy. This

means on average, 8% more of the diamond is lost in the cutting process. But the end result is a superior quality that you can easily see.

The art and science of diamond cutting will be demonstrated by Brian McHardy at **M.J. Miller & Company** in our showroom at 123 West Main Street on Saturday, June 16, from 9:00 AM to 6:30 PM.

Mr. McHardy has served as the Master Diamond Cutter at **Hearts On Fire** since 1999. His craft has been passed down through three generations, dating back to the 1800s. Born in South Africa, he now proudly carries on this family tradition at **Hearts On Fire**.

Before joining **Hearts On Fire**, he spent nearly a decade and a half honing his craft as owner of American Premier Diamond Cutting Works, which he founded in 1985. Says McHardy, "I worked for years, as have many in my family, to hone the skills of diamond cutting. I can think of no better place to apply those skills than to cutting the world's most perfectly cut diamond. Every **Hearts On Fire** diamond presents a creative and artistic challenge. It's tremendously gratifying to achieve perfection time after time."

The first 100 people who attend the celebration will receive a "goody" bag filled with wonderful gifts. Special sale prices on jewelry by designer Mark Patterson and selected watches will be offered during this extraordinary occasion.

For more information regarding the diamond-cutting event, please contact either Mr. Michael Miller or Lynnette Solomon at **847-381-7900**.

## Writers' Retreat

"A Day for the Writer" will be held at scenic Camp Algonquin on Saturday, June 16, for beginning and established writers. Sponsored by the College of Lake County Continuing Education, the workshops focus on learning to write your story, revise it and get it published.

Participants can choose from three concurrent morning workshops that run from 9 AM to noon and three afternoon workshops that run from 1 to 4 PM. The specialized workshops concentrate on improving your fiction writing skills, revising and editing manuscripts and the steps to getting published.

In the morning, author Kathie Georgio will discuss the steps to getting short stories published. In the afternoon, she will offer tips on getting books published. Mystery novelist Eleanor Taylor Bland will teach a workshop on how to originate captivating characters and one on how to plot a story. Short story writer Mary Dalton will explain how to troubleshoot flaws in a story and how to make scenes work together to develop the plot.

Cost for the writer's retreat is \$79, which includes a sack lunch. It is a not-for-credit program offering a great opportunity to network with novice and published writers. A map with directions to the camp will be mailed to students who enroll at least a week before the event. For more information, call 847-543-2726.

## Art Associates to Enjoy Chicago Parks and Boulevards

The summer excursion of the Barrington Community Associates of the Art Institute of Chicago on Thursday, July 12, features Chicago parks and boulevards.

The trip was designed by Jeanette Muench, Landscape Design Consultant for The Garden Club of Illinois, Inc. In May, she chaired The Landscape Design Tour for the national convention in Chicago of the National Council of State Garden Clubs, Inc.

A boulevard is a very wide—sometimes 250 feet wide—roadway with a median strip generally lined with large shade trees. First conceived in the late 1860s but built over the next 30 to 40 years, the boulevard system forms a three-sided rectangle around the central area of the city. Originally, boulevards were designed for pleasure drives and recreation. In 1917, they became thoroughfares, with higher speed limits than other roads.

The 27 miles of boulevards that encircle the inner city like a green necklace of open space sparkle with trees, monuments, fountains, squares and parks. Early Chicagoans regarded living along a boulevard as a status symbol, and this attitude gave rise to a great architectural tradition.

Since taking office, Mayor Daley has allotted millions of dollars toward an impressive facelift of Chicago's parks and boulevards. Distinctive red aluminum

Humboldt Park, Chicago, West Park Commissioners, 1881.

signs have been attached to lampposts throughout the boulevard system. Attractive information kiosks were installed at entrances to major parks and squares. Their style suggests 19th century Paris. In 1997, 55,000 trees were planted.

Traveling the boulevards, the tour will visit Columbus, Humboldt, Garfield and Lincoln Parks. The tour will also visit the Cancer Survivor Waterfall Garden in Grant Park.

The bus will depart at 9 AM from the north parking lot of the Richard Honquer Furniture Store on Barrington Road, north of Dundee Road, in Barrington. The fee is \$60 for members or \$70 for guests, includes lunch. To register, contact Evelyn Richer at 847-381-5349.

### Renowned Pueblo Sculptor Showcased Exclusively at River Trading Post

**Cliff Fragua, Jemez Pueblo**

*"The stone speaks to me by its color and sound. I look at the color and the characteristics of the stone, then I tap it to listen for a ringing sound. If it rings, then the stone is solid. I interpret the ringing as singing, hence the name of my studio."*

From his Singing Stone Studio in ancient Jemez Pueblo, Cliff Fragua creates the magnificent works that are found in the permanent collections, public and private, throughout the country.

Recently awarded one of the most prestigious commissions for sculptors in the United States, his monumental rendition of Popé will be dedicated in 2002 and housed permanently in the National Statuary Hall in Washington D.C. Popé was the Pueblo leader that organized the success-

ful overthrow of the Spanish tyranny in 1680, today called the "Pueblo Revolt."

"My connection with the stone involves spirituality and reverence for the spirit that dwells within. It has been on this earth much longer than man and for this reason the stone becomes the teacher. It is simply what my ancestors believe. I am the mediator between the stone and the tools; the stone and the viewer. I visualize what the stone wants to become and I strive to help it blossom."

In the Chicagoland area, Fragua's work is displayed and offered exclusively at **River Trading Post**, in East Dundee. Gallery hours are 11 AM to 5 PM, Tuesday through Saturday; and Sunday noon to 5 PM.

Attendees dined on field green salad, stuffed chicken breast and profiteroles.

Professional models showed the latest in feminine fashions as they took to the catwalk.

Proceeds from the luncheon will go toward The Infant Welfare Society of Chicago. The society helps to provide preventive health care to disadvantaged children and women in Chicago at the Infant Welfare Clinic on North Halsted.

Current President of the Barrington Chapter (2001-2003) is Jerilyn Ugaste. Outgoing President is Penny Knopik (1999-2001).

## Eat Like a Gladiator... Now What's Up, Lydia?

Gladiators had to be fed good, nutritious food so they could be healthy for those fights in the arena. Well, I have it on good authority that my great to the 10th power grandma Lydia happened to be around catering to those gladiators. Yeah, she fed the likes of Maximus the Spaniard. What do you mean you don't believe me?!

I can sure feel for those guys. Can't you sometimes? Life throwing you daggers from all directions. I have been in that arena, and I don't much care for it. I hate it when the lions always win. I would rather be the spectator for a change. But then, that would mean I would be happy to see someone in pain. That doesn't work for me.

Well, as that great grandma of mine fed those gladiators that really good food, I and my little company, Lydia's Catering, 431-9605, are here to offer some really good food to you. You know that there are quite a few caterers out there, and I promise you that there is a place for each of us in this arena. From the simple to the elegant, there is a caterer just waiting to prepare your feast. I think what sets Lydia's Catering, 431-9605, apart are a couple of things. First, we are very flexible and can give of ourselves more than

a larger company. We work with you and attempt to accommodate all your needs. We make everything from scratch, using all fresh ingredients. We buy the best cuts of meat so that you and your meal don't have to battle each other while cutting and chewing. Our prices are affordable. Don't forget, when you cater an event, it isn't just the meal you are paying for, but all the buying, prepping, cooking and cleaning that goes with it!

We cater from intimate dinners for two to weddings for 300 and anything in between. We have a full staff including a wedding planner, a bakery and a florist we work with. Do you need to rent something? No problem. We do that also! We have several weddings planned for this month, and I can't wait. I walk around with a grin on my face for days after because of the happiness that is shared at these special occasions. So give us a call at 431-9605. Or better yet, give us a try! See our ad next to this article.

We are each gladiators in our own world as we put on our armor to start the new day in the arena of life. To all of us who struggle just to get through the day... gladiators, I salute you, men and women, and strength and honor to us all!

## BJWC Thanks Community for Record-Breaking "Affair to Remember"

More than 350 people enjoyed a Hollywood-style evening of fine dining and entertainment at Barrington junior Women's Club spring charity gala, "An Affair to Remember," which was held Saturday, April 21, at the new Stonegate Conference and Banquet Centre in Hoffman Estates. The event, which was co-chaired by Karen Daboll of Barrington and Terry O'Brien of South Barrington, raised over \$70,000, a record for the club's fundraising efforts.

Upon entering the magnificent Stonegate, guests strolled the red carpet past Oscar statues and BJWC's own "Walk of Fame." Upon receiving their sparkling star auction paddles and program books, guests were free to peruse the many

unique auction items available during cocktail hour while they listened to the sensational sounds of Barrington High School's own "Rhythm Machine."

The Hollywood dazzle continued throughout the auction rooms and ballroom, where guests were treated to a mouth-watering six-course gourmet meal as they energetically bid on auction items. The evening ended with dancing to the interactive band The Afro-Disiacs, who packed the dance floor from the first song and never let it empty until it was time to go home.

"The energy in the room that evening was so positive. The community really came out for a good cause and a good

## Work Place Protection for Injury and Illness

As many of you know, if you are injured on the job, you are entitled to protection in this state under the Illinois Worker's Compensation Act. While the Worker's Compensation Act does not apply to off the job injury or illness, a now well-known federal statute may provide you with protection. Particularly, the Family Medical Leave Act (FMLA) requires covered employers to provide up to 12 weeks of unpaid leave in a 12-month period to "eligible" employees who need the time off as a result of a "serious health condition" which prevents the employee from performing the essential functions of the job, or for the serious condition of a parent, spouse or child of the employee when the employee is needed to care for the family member.

Basically, to be eligible for FMLA leave, the employee must have worked for the employer for at least 12 months, have been employed for at least 1,250 hours during the 12-month period immediately prior to the leave and have been employed at a work site where 50 or more employees are employed by the company within 75 miles of the work site. Under the FMLA, a "serious health condition" is defined as "an illness, injury, impairment or physical or mental condition that involves inpatient care in a hospital, hospice or residential medical care facility, or continuing treatment by a healthcare provider."

In the situation of a foreseeable leave of absence, the act requires the employee to provide at least 30 days notice to the employer. If the leave is not foreseeable, the FMLA requires the employee to provide notice "as soon as practicable" under the facts of the particular case. Under the regulations which help to define the FMLA, a request for leave should be, at a

minimum, verbal notice within one to two business days after the employee learns of the need for the leave. In addition, under the FMLA, someone other than the employee may provide notice to the employer if the employee is unable

to do so. It is unlawful for an employer to discriminate against an employee who uses the FMLA, and such leave may not be used as a negative factor in employment actions, such as promotions or disciplinary actions. An employee whose rights have been violated under the FMLA may be entitled to certain legal remedies which include, but are not limited to, reinstatement and monetary damages. If, such, if you believe your legal rights have been violated, I encourage you not to delay in seeking legal guidance regarding your particular situation. ## Boost Your Body Image and Your Outlook on Life

Just one month after her procedure, one of our recent patients said, "I would do it again without a second thought. It has been an ego booster and has improved my self-esteem." Tumescent Liposuction may be able to help you too. Areas of unwanted fat, which are often genetic and cannot be improved with weight loss or exercise, can be removed permanently. Of course, inner beauty is most important, but you'll love the way you look and feel. It can change your outlook on life.

### What is Tumescent Liposuction?

Tumescent Liposuction is the safest and most effective technique to permanently remove excess fat in areas that are resistant to diet and exercise. Tumescent Liposuction was developed by dermatologic surgeons in the 1980s, and it completely revolutionized the permanent removal of unwanted fat from nearly all body areas, including the face, neck, chin, breast, abdomen, hips, flanks (love handles), inner and outer thighs, buttocks, knees and ankles.

### Am I a Good Candidate?

An ideal candidate for liposuction is in good health, maintains good eating habits, exercises regularly and is within 25 pounds of his or her optimal weight. A simple "pinch test" can help determine if Tumescent Liposuction is right for you. Pinch your skin and fat between the thumb and index finger, if you can grasp more than one inch of tissue, liposuction may be useful in creating a more beautiful you. The neck is an exception to the "pinch test" rule and can be improved even if less than an inch can be pinched.

**Christophe** is located at 111 North Main Street between Highway 14 and Route 176 in Crystal Lake. Reservations are recommended. Call **815-444-0374** or fax 815-444-0377.

### Where is the Procedure Performed?

Tumescent Liposuction is performed in our office completely under local anesthesia. No narcotics, intravenous drugs or inhalation anesthetics are needed. It is the safest and most comfortable way to achieve the shape you've always wanted.

### What is the Recovery Period?

The local anesthesia keeps the treated areas numb for 18 to 24 hours following the procedure, greatly minimizing any post-operative discomfort. With the Tumescent technique, there is minimal bruising and no stitches are required; postoperative pain medication is almost never needed. Recovery is fast with Tumescent Liposuction. Most people return to work it just two or three days and resume physical exercise in three to seven days after the procedure.

### How do I Make a Consultation for Tumescent Liposuction?

If you try the "pinch test" and think you might be a good candidate for Tumescent Liposuction, call **Dr. David P. Van Dam** at **Dermatology Physicians & Surgeons** for a free, private consultation. **Dr. Van Dam** has years of experience performing this procedure. ## Barrington Relay for Life 2001

We enjoy keeping you abreast of current treatment options and concepts in orthodontics. However, this month, our team would like to address a different issue.

Just about everyone knows someone who has had an experience with cancer, whether personally, a family member or friend. For the third year, our team participated in the Barrington Relay for Life. Many of you joined us last month at Arlington Park Race Track to walk and raise funds for the American Cancer Society. Beginning with the opening ceremony, where one of our patients told of her own battle with cancer, to the lighting of the luminaries, community spirit was very evident. It was obvious that there were many dedicated volunteers involved this year. Even bringing the entire event indoors didn't slow things down. Barrington is very committed to this event and proudly raised over \$600,000 for the American Cancer Society this year.

Over the next several weeks, surrounding communities will also hold their own relays. We encourage you to join area towns in raising cancer awareness through participating in other Relays for Life. Thank you to all that participated and supported our team. We look forward to next year.

## Improving Your Skin

It is inevitable. We will all age. And as we do, we will all experience certain signs of aging such as fine lines and uneven discoloration of the skin. Almost everyone has some degree of damage on their skin, whether it is from the sun or some skin condition such as acne. The good news is that usually even problem skin that hasn't responded to the common treatments can be improved through the modern products and techniques employed by our esthetician.

The first step in improving your skin is to design a custom particular program that addresses your particular needs and desires. This is done in consultation with our licensed esthetician. You may want to start with a simple home skin care regimen for which there are many new and effective products available. If you would like to go further, our esthetician can offer a number of different techniques that would enhance the results of your home care. We would like to highlight one of these new treatments—The Micropeel.

### The Micropeel

The Micropeel treatment is a 30-minute, non-abrasive treatment that will leave your skin free of dead, flaky skin and bring it back to a smoother texture.

Step One—The Micropeel treatment begins by cleansing the face with a mild medical cleanser and a toner. The first process is called dermaplaning and consists of exfoliating the outer epidermis. The esthetician accomplishes this by using manual exfoliation, or slough off, dead skin on the surface of the face.

Step Two—During this step, the esthetician will decide what chemical solution would be best for your particular treatment. Everyone's skin type and concerns are different. The most common skin types treated are hypersensitive, environmentally damaged, hyperpigmented, acne prone or active acne. The solution will be applied and left on the face anywhere from 30 seconds to two minutes followed by a cold water rinse. Most patients claim they feel a light tingle or a light burning sensation which subsides once the cold water rinse is applied.

## Continuing Education—The Key to Quality

by James T. Gavrilos, DDS

New concepts, new techniques and new materials constantly challenge the dental profession. Sorting the best is an annual endeavor for dentists who maintain high standards.

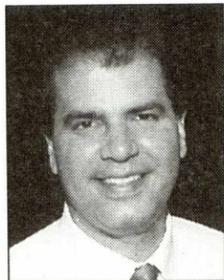

Most of you are aware that dentists hold "conventions" with product booths where new materials and equipment may be examined. What you may not be aware of is the meetings is educational. At our Chicago Midwinter Meeting (held here in February), it is possible to attend shorter lectures and sample what the speakers have to offer. Then, we often need to travel to the lecturer's hometown to attend an in-depth course on their subject.

In April, our entire staff, along with all of our specialists, attended a course on quality esthetic and restorative dentistry. Having a team of specialists who understand the vision of the dentist is paramount. Communication through continu-

ing education makes for higher quality and more predictable results for the patient.

To help judge your dentist or evaluate a prospective new dentist, don't be shy. Ask them about their continuing education. It is an essential step in providing the highest standard of oral health care for our patients.

For an evaluation, call **Dr. James T. Gavrilos** in Barrington at **847-381-4040**.

Step Three—The final step consists of extracting any blackheads or whiteheads. At this point are easier because the pores are free of any skin that blocks their way out. Once the extractions are completed, a smoothing moisturizer along with a sunblock is applied.

Following Micropeel treatment, the skin feels refreshed and appears to have a healthy, pink glow.

### Microdermabrasion Treatment

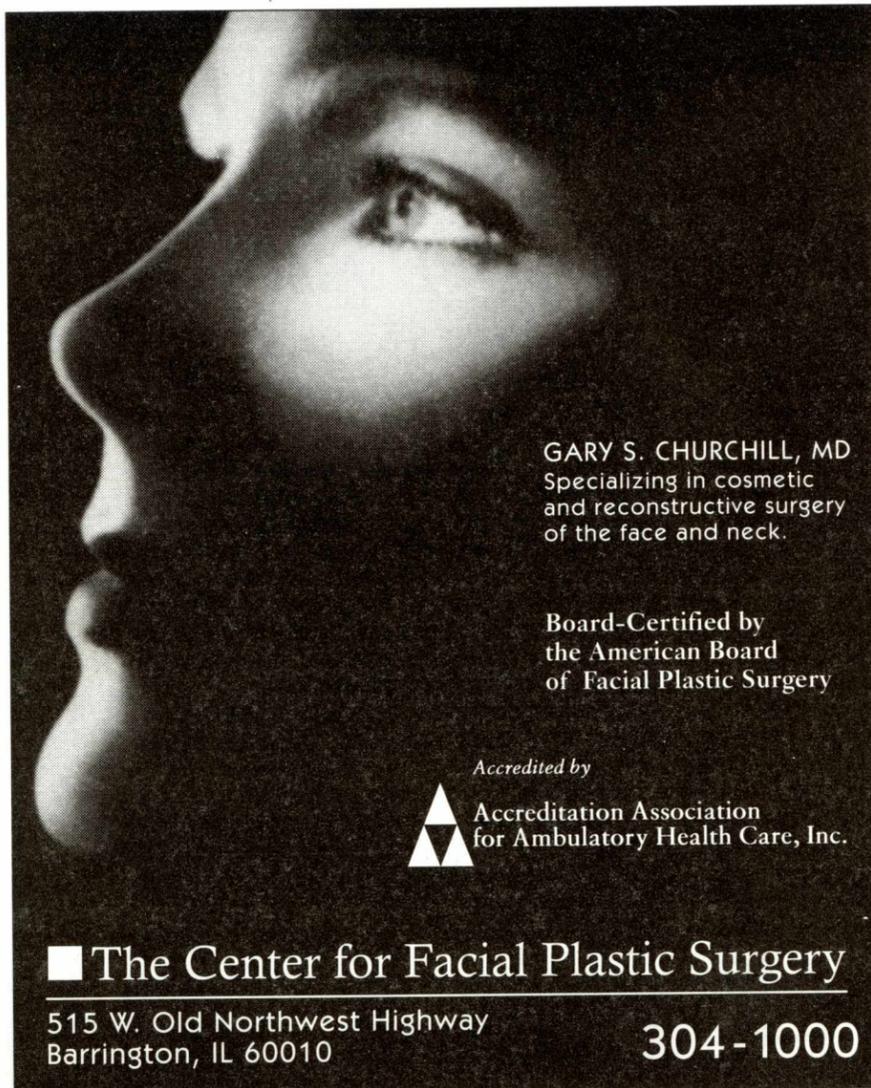

Step One—The skin will be cleansed using a medical cleanser and toner. Once the skin is completely dry, step two will begin.

Step Two—This step is the most beneficial part of the treatment. During this step, aluminum oxide crystals are circulated through a plastic handpiece and are projected through a small opening in the handpiece allowing the crystal particles to come in contact with the skin. There is a suction-like sensation as the handpiece glides over the area being treated. Once this process is completed, the crystals are either brushed off or vacuumed.

Step Three—The final step consists of extractions of any blackheads or whiteheads. Once completed, a soothing moisturizer is applied with a sunblock.

Once the moisturizer has been absorbed, make-up can be applied and the patient can resume normal daily activity. There is virtually no downtime with either procedure. Monthly treatments are recommended to accomplish desired skin rejuvenation results.

For the month of June we will take **\$35 off a Micropeel** or **\$50 off a Microdermabrasion** treatment. This special is valid only for new patients.

LOSE THE WEIGHT...AND KEEP IT OFF!

## New Weight Loss Program Shows Dramatic Results

Dr. Barry Berger, a Board Certified Internist practicing in Lake Zurich for the past 12 years, introduces a new weight loss program. This program is based on the 40/30/30 nutrition plan which consists of 40% carbohydrates, 30% protein and 30% fat. By increasing protein while decreasing fat and carbohydrates, weight loss success increases. University studies using this diet method along with the latest advances in prescription medication have shown safe and effective weight loss results.

Unlike other programs for which you need to buy food or count calories, this method offers the most freedom and achieves the best long lasting results available today. Fat comes off and stays off! Dr. Berger custom designs a program for each patient and discusses proper exercise, nutrition and overall weight status while considering your current lifestyle, exercise and diet habits.

Dr. Berger has hundreds of satisfied patients. Insurance usually pays for some or most charges, (sorry, no HMOs).

## Ela Fine Arts Show

The inaugural Ela Fine Arts Show on June 9 at Deer Park Town Center will feature an unusual array of oil and watercolor paintings, fiber art, woodworking, jewelry and metal and glass sculpture from artists around the Midwest.

A number of artists will be demonstrating their work throughout the show and sale from 10:00 AM to 5:30 PM. The show/sale will be under the tents in the parking lot of the new, upscale shopping center at the intersection of U.S. 12 (Rand Road) and Long Grove Road in Deer Park. There will be painters working in oil, watercolor and pencil as well as a glass sculptor using a propane/oxygen torch to shape a number of fanciful creatures.

Michelle Thompson of Lindenhurst will heat crystal pyrex glass rods and then turn and twist them into dragons, unicorns, puppies and glass roses. She will shape some by freehand while the detail on other pieces requires the use of special tools. Most of her sculptures are mounted on wood or mirrors after the glass has been fired in a kiln to prevent cracking and fired again after being painted or stained.

Dennis Boehm of Antioch is another glass sculptor who has perfected a technically difficult process of combining metal and glass to produce pieces in the Art Deco and Frank Lloyd Wright styles. After wrapping metal around shaped glass and then soldering metal designs onto that framework, he fires oxides onto the glass to give it an opalescent appearance. And for those who plan to spend as much time as possible outside over the summer, he makes a collection of glass

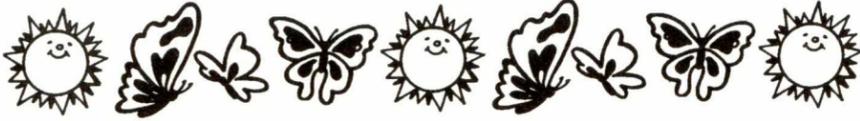

Work of Dennis Boehm of Antioch

garden sculptures which include bees, hummingbirds and snails on stakes.

The artists for the Ela Fine Arts Show were selected by a jury of their peers for the quality and creativity of their work. This first-ever show at Deer Park is being organized by Cultural Arts Connection, a nonprofit organization that sponsors the annual Ela Festival of Arts in Paulus Park, Lake Zurich. That show, set for September 8, features music, dance and theatre as well as fine arts.

Cultural Arts Connection is committed to promoting the arts as a means of building connections between people and places. For more information on either show, call 540-1919.

## Barrington Chamber Honors Area Businesses

In April, the Staff Appreciation Luncheon sponsored by the Barrington Area Chamber of Commerce was held at the Barn of Barrington. At the luncheon, the Chamber saluted the 18,000 working men and women in the community and the more than 1,200 business firms! After the luncheon, representatives of Barrington businesses modeled fashions from the Barrington area's fine stores.

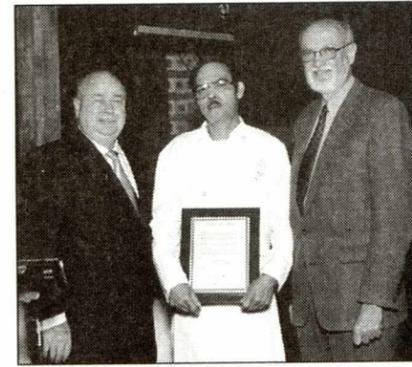

The commentator for the fashion show was Rosemary Doherty of Savvy Spirit. Providing background music on piano was Sheryl Saunders of Sheryl Saunders, EA.

Welcoming the capacity crowd at the 26th Annual Staff Luncheon were Larry Irwin, Chairman of the chamber, and Janet Mayer, President of the chamber. They also announced winners of the Staff Members of the Year.

One of the winners of the Staff Members of the Year Award was Joe Connelly, Vice President Small Business Development Harris Bank Barrington (center). ## Exercise Before and After Surgery

Surgery of any kind is a physical and emotional stress on your body. Exercise can help prepare your body for surgery and facilitate a quicker recovery. A physical therapist can design a safe and effective program for you.

To prepare for abdominal surgery, strengthening the abdominal muscles is the key. Partial sit-ups strengthen abdominals. However, many people have back or neck pain when doing this exercise. A physical therapist can show you alternative ways to strengthen the abdominals. Exercises can also be done to decrease gas pains immediately following surgery. After surgery, abdominal strengthening will improve posture and prevent back pain. Breathing exercises help patients recover quicker from general anesthetic. These exercises improve relaxation, which assists in pain reduction.

Exercising before orthopedic surgery

prepares the muscles and ensures a quick start to post-surgery rehabilitation. Some exercises are not appropriate before surgery. A physical therapist can evaluate your exercise program to ensure the program is beneficial to your surgical procedure.

**Women's Physical Therapy Institute (WPTI)** is a unique facility dedicated to serving the rehabilitation needs of women of all ages. They design surgery specific exercise programs for all conditions. They also specialize in treating incontinence, fibromyalgia, osteoporosis, orthopedic conditions, lymphedema, pelvic pain and pre- and post-childbearing conditions. **WPTI** also offers acupuncture, exercise groups and yoga with small class sizes. It is located at 715 Ela Road, Suite 2A, in Lake Zurich. They can be reached at **847-550-9784**, by email at [wpti@earth-link.com](mailto:wpti@earth-link.com) or by fax at 847-550-9780.

## Feel Good and Look Great

The doctors at **Total Health Concepts, Ltd. Aesthetic & Laser Surgery Center** are proud to introduce Foto Facial, Wrinkle Light & Laser Laxity Vector Treatment and Skin Rejuvenation—the outstanding new procedure for an aging skin treatment.

W. Mark Iwanicki, MD, the founder of the corporation, is one of the only few physicians in Illinois who are fully trained and licensed to perform this procedure.

**Photorejuvenation** is a new and very unique procedure that visibly improves the appearance of the skin and reduces signs of aging, rosacea, enlarged pores, irregular pigmentation, spider veins, fine wrinkles and flashing of the face. We are very excited about this procedure which has gained tremendous acceptance because it appears to be a non-invasive alternative to laser facial skin resurfacing and has an excellent safety record and no down time. A patient can return to work right after treatment. There is practically no pain. More sensitive patients can use local anesthetic cream. Treatment of the face is most common but other parts of the body, such as the neck, chest and arms, can also be successfully treated. This procedure is suitable for both women and men.

The treatment usually consists of few sessions lasting about 30 minutes.

**Advanced Vein Treatment Center** at **Total Health Concepts, Ltd.**, provides the patient with the most advanced and contemporary varicose vein diagnosis and treatment: laser treatment of spider veins, sclerotherapy, advanced ultrasound guided sclerotherapy, non-invasive evaluation of venous flow and insufficiency, etc.

## St. Mark's Spring Brunch Auction Benefits Local Missions

More than 90 adults and 30 children attended St. Mark's Episcopal Church's first "Spring Brunch Auction" on Sunday, April 29, at the Barrington Hills Church.

The event was the annual fundraising effort of the church's Outreach Commission and raised approximately \$6,000 to provide financial support for various missions, including: Barrington Area Council on Aging, Barrington Career Center, Carpentersville FISH, Meals with Wheels and Wellness Place. In addition to the many community and church members who donated items and services for the silent

and brunch event, several local businesses supported the church's outreach efforts with food and equipment donations, particularly Dominick's of Fox River Grove, Jewel of Barrington and Barrington Hills Country Club.

A special "Kid's Brunch" was available for children who attended the event. There was also a "Kid's Marketplace" where children of all ages could purchase novelty items, play games for prizes, listen to a professional storyteller and take part in crafts and other activities.

**"What If I Do Not Want a Face Lift?"**

by Rasheed Soofi, M.D.

We are often asked this question by many of you who are, for a variety of reasons, reluctant to subject themselves to a major surgical procedure. Although not an alternative in some cases, fillers and facial implants offer a minimally invasive alternative to cosmetic surgery. An increasing interest in the use of fillers and facial implants has increased the availability of a number of products for soft tissue augmentation in recent years. At **Cosmetic Surgery and Laser Center**, we recommend the use of these products for those of you who are eligible and seeking non-surgical alternative remedies for fine and deeper facial lines and folds. The following are products that are available or are going to be available soon:

• **Bovine Collagen**, with a 20-year history worldwide, remains the gold standard of fillers. An allergic skin testing is needed three to six weeks prior to using this material.

• **Cymetra** is derived from processing human cadaver skin. It is donor screened and undergoes viral inactivations. Cymetra can be used without allergy testing.

• **Dermalogen** is derived from tissue bank material that is decellularized and processed to ensure safety.

• **Fascian** is also derived from tissue bank material and can be used without skin testing.

• **CosmoDerm** is derived from human tissue culture and does not require skin testing. It is expected to be available soon.

**Reiki and Hypnotherapy Complement One Another**

Pamela Arwine offers professional certification courses in two enormously effective alternative therapies, **Reiki** and **Hypnotherapy**. Deepen your connection to spirit as you become more aware of the purpose of your existence.

Your core beliefs, most of which were already in place when you were born, create certain actions and thoughts which then create certain frequencies in your body/mind/spirit. Although you may be quite unaware of these core beliefs, they have a tremendous impact on your life. Their frequencies attract "matching" experiences which prove your core beliefs correct. This is reinforcing and cements you into a cycle of patterned experience which painfully proves out your beliefs over and over again. If you don't move beyond the pain, you are destined to repeat it until you get the message!

Through **Hypnotherapy**, you can connect with the original root cause of the core belief which seems to be dooming you to a lifetime of pain. It is a wonderful modality for those of you who wish to use your mind to access these hidden blocks to achieving your full potential mentally, physically, emotionally and spiritually. It is an effective tool for exploring and releasing negative emotional and physical patterns stemming from your current life or past lives that inhibit you from expressing your true nature. It so thoroughly relaxes the mind and body, your brain waves are altered, granting

greater access to deeply rooted issues. After being led back through time, the event which most needs to be healed or explained may surface.

Through awareness, you can make a conscious choice to change your beliefs and therefore your behaviors and thoughts. You can quite literally erase the cause, core and records of these beliefs. This affords you the opportunity to make a new choice. Given the appropriate amount of time, these changes create a higher level of frequencies. Given the appropriate amount of time, the higher level of frequencies create new experiences. This reinforces your capacity to create the life you want.

**Reiki**, the ancient Tibetan healing of spiritually guided universal life force energy, feels like a wonderful flow of love radiating throughout your body as it clears and balances energy pathways, moving you to a new level of health and awareness. It is deeply nurturing and healing as it moves through you, releasing blocks to manifesting the loving and powerful essence which you are. The **Reiki** student learns a natural way of healing which balances energy, reestablishing spiritual equilibrium and mental and physical well-being.

Whether you choose to learn **Hypnotherapy**, **Reiki** or both, you will be pleased at the effectiveness and complementary nature of these methods. T

## Redefine Your Shape

Redefine your shape, the quick and natural way, as seen on "The View." Star Jones and Meridith (hosts for "The View" on Channel 7) did the body wrap on May 11, 2001, with very satisfactory results. Both ladies said they lost inches and felt great.

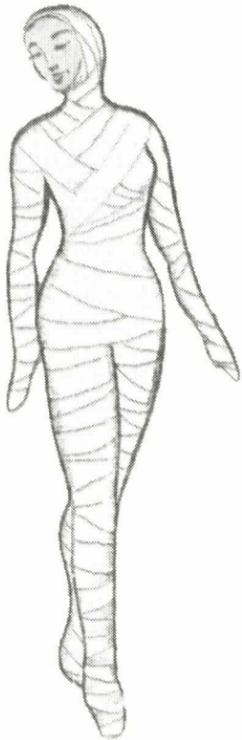

At **Barrington Body Wrap**, we are your solution to a new figure. Come in for a rejuvenating body wrap that will...

1. Tighten Skin
2. Tone Your Body

We will help you get rid of the so-called "saddle bags" at the top of your legs, reduce your hip area and take inches off your waist.

Give yourself a "lift" with our nonsurgical face tightening. You will be amazed at the results... a fresher, younger look. We carry the new line of Suddenly Slender anti-aging products. Our no diet-diet carb stopper and fat stoppers are also available. Have that dessert and also stop the carbs and fat from being absorbed into your system.

## Local Renaissance Madrigal Group to Perform at Chicago Botanic Garden on Father's Day

Come enjoy an outdoor concert on Father's Day, June 17, at the Chicago Botanic Garden in Glencoe. The Marian Singers, a singing ensemble from the northwest suburbs, will be performing at 2 and 3 PM amid the beautiful surroundings of a late spring day.

Under the direction of Bill Misik, The Marian Singers focus on the music of the Renaissance period and provide year-round entertainment. Considered the Golden Age of vocal music, Renaissance works, whether sacred or secular, have beautiful polyphonic structures that create a magical sound.

The rich tones and powerful harmonies are translated well by the talented Marian Singers, whose glorious music delights

audiences throughout the state.

A delight for both the eyes and the ears, this versatile ensemble will perform while dressed in full-Elizabethan attire. Join us as we bring the majesty and merriment of an earlier age to the Chicago Botanic Garden on June 17.

The tradition of Madrigal music started centuries ago when members of the nobility would sing together on feast days to entertain one another. As a singer's reputation grew, the number of invitations that they received would increase. So, to be an accomplished singer was a social coup.

The Marian Singers is a not-for-profit singing organization located in the northwest suburbs of Chicago. The ensemble has a versatile repertoire of music to fit

## Ultra Skin

Ultrasonic skin rejuvenation is one of the latest physician directed treatments to address rejuvenation and repair of the skin. In fact, the American Society for Aesthetic Plastic Surgery states, "New skin care formulations, used in conjunction with ultrasound, will allow for deeper penetration of topically applied rejuvenating agents to the skin, resulting in significantly improved aesthetic results."

Ultrasound combines a high-touch treatment with the high technology of the 21st century. When conventional facial massage is given, the hands provide an average of three vibrations per second. Ultrasound provides three million per second, resulting in the softening of scars, improved skin tones and increased skin elasticity.

Ultrasound also creates friction and increased heat, which in turn increases cellular activity. By doing this, production of collagen and elastin increases, bringing with it more oxygen and nutrients for healing. Another benefit is increased lymph flow removing toxins and waste products.

The combined stimulatory effects of ultrasound will aid in firming the skin and counteract the factors that underline the signs of premature aging.

Ultrasound treatments on the face help put the brakes on aging. One of the important culprits of premature aging is free radical damage. Cosmeceuticals such as

vitamins A, C and E, glutathione, alpha lipoic acid along with other free radical scavenging antioxidants are added to your treatment. The benefit is a delivery system that will reach the cells. A healthy renewal of your skin will begin. This is the best of anti-aging treatments.

Ultrasound is safe, gentle and provides rapid results. This treatment has been performed at **Suburban Plastic Surgery, Frank C. Madda, MD**, for over two years. It can be done as a singular treatment or in a series. With an effective homecare regimen, this will become an integral part of any skin rejuvenation program.

## New Skin Technology Debuts at Northwest Dermatology

**Northwest Dermatology** is pleased to announce the addition of the Diamond Peel™ microdermabrasion system to their practice. Microdermabrasion, the most progressive new therapy in skin care, is being widely recognized by professionals throughout the U.S. for its effective, gentle skin peeling capabilities. It's been featured in all the major magazines including *Vogue*, *New Woman*, *Allure*, *Elle* and others and continues to be the most talked about new treatment for people in search of a more youthful appearance and healthy looking skin.

The Diamond Peel™ uses micro diamond-shaped crystals to remove dead skin cells and rejuvenate the health of the skin. Treatments are fast and pain-free, leaving little or no redness. They last less than an hour and do not interrupt your busy schedule.

The Diamond Peel™ can treat aging and sun-damaged skin, some types of acne and acne scarring, altered pigmentation, fine lines, melasma and enlarged and clogged pores.

According to the American Society for Dermatologic Surgery, microdermabrasion is "skin care for the new millennium. It greatly enhances poor, dull skin texture by gently resurfacing the superficial skin layers; softens and modifies fine 'expression' lines typically seen on the forehead and around the mouth; and it polishes and reduces fine lines on the cheeks generally caused by aging and sun damage."

The Diamond Peel™ treatment erases epidermal layers at varying depths in a safe, controlled manner, minimizing skin trauma. This approach respects the integrity of the skin and promotes even healing. Maintaining level cellular growth on the surface aids in the freshness of the skin's appearance. Regular treatments support a healthy, balanced skin surface.

The Diamond Peel™ complements other treatments offered at **Northwest Dermatology**, such as EpiLight hair removal, Botox, Collagen, Beta-Lift peels as well as general and surgical dermatology. Please call our office in Hoffman Estates at **847-884-8096** for more information.

## Is Your Skin Aging Faster Than You Are?

One of the questions we often hear at **Estetica Advanced Clinical Skin Care** is, “Does the skin on the face age faster than the skin on the rest of the body?” The truth is... no! The aging process does not cause the skin on our face to age more rapidly than the rest of our body. The way we treat our skin impacts the speed at which we age.

One of our greatest enemies in accelerating the aging process is the sun. We may think a beautiful tan looks healthy, but, for our skin, it is very unhealthy. Unprotected exposure to the sun is unhealthy because it causes two types of damage. First, on the surface, it creates uneven pigmentation also known as hyperpigmentation. Second, it permanently damages cells. Some of these damaged cells are also known as freckles. Below the surface, the sun's damage accelerates the breakdown of elastin and collagen. This breakdown results in lines, wrinkles and sagging skin.

In order to repair this damaged skin, it is important to first know the extent of the damage. This can be accomplished with a special tool called a Woods Lamp. The Woods Lamp allows us to see sun damage below the surface. This provides valuable information when determining the type of skin care treatment one might need to improve their skin.

In addition to having the proper skin

care treatment plan for your own unique situation, it is also important to constantly protect your skin. The best way to do this is to apply sunscreen every day, all year long. The most important factor in selecting a sunscreen is that it provides you with protection from both UVA and UVB light. All sunscreens have an SPF rating. This means “Sun Protection Factor.” It is designed to give you some idea of how long you can stay in the sun without burning. For example, if you normally burn in 10 minutes without sunscreen and you've applied a liberal dose of sunscreen with an SPF 15, you should be protected from sunburn for 150 minutes. For optimal protection, we recommend applying sunscreen every hour when in direct sunlight. In addition to wearing sunscreen everyday, all year long, we suggest the following guidelines to protect your skin:

- Avoid the direct sun between 10 AM and 4 PM.
- Use SPF 15 or greater every day, all year long, and apply every hour when in direct sunlight.
- Protect yourself when near reflective surfaces like water, snow and glass.
- Seek shade whenever possible.
- Wear protective clothing and eyewear.

For more information about protecting your skin and treating the sun damage you may already have, please call us at **Estetica at 847-438-2100**.

### Everything's Coming Up Roses for Infant Welfare Society; 47th Annual Derby Bash Raises \$15,000 for Kids' Health Care

JoEllen Zacks, Frank Uvena, Auxiliary President Rosalind Hodgkins and Sylvia Kinney.

"Monarchos" may have been first across the finish line in Churchill Downs. But in Chicago, the Derby Day winner was the Infant Welfare Society, which will benefit from more than \$15,000 raised at the 47th annual "Run for the Roses" luncheon on Saturday, May 5.

More than 125 horse-racing fans were on hand for the festive celebration of the Kentucky Derby spirit. Held in the Regal Knickerbocker Hotel's Crystal Ballroom, the venue was decorated in a charming Churchill Downs theme, replete with extensive lattice columns, fences, gates and

three-foot-high roses. Decor and props were generously sponsored by Williams-Gerard Productions.

The derby bash got out of the gate with a spirited mint julep reception featuring the lively Dixieland jazz of the Spats Stuebaker Band. While enjoying juleps and hors d'oeuvres, guests perused a tempting silent auction featuring exciting getaways to New York, San Diego, Washington, D.C., the Mission Hills Tennis & Golf Resort and other locales, unique gift baskets and an abundance of gift certificates from leading Chicago retail estab-

lishments and restaurants.

A "Salon de Chapeaux," showcasing the creations of award-winning milliners Eia and Veronica Chin, enabled bonnet-less ladies to purchase a unique hat to enjoy at the benefit and beyond.

After a delicious luncheon, winners of the "Millinery Madness" hat contest, a traditional highlight of "Run for the Roses," were announced. Judging of the "heady" competition were *Today's Chicago Woman* style editor Sandy Kagan-Angell and Adams-Wells.net social columnist Jonathon Wells.

Saluted for their millinery moxie were:

- *Most Colorful Hat*—Melinda Liller, for her gorgeous rose-festooned pink topper

covered with fetching black lace;

### Japanese Maples are Incredibly Varied

Many gardeners are familiar with the elegant Japanese Maple. In fact, at **Geimer Greenhouses** in Long Grove, it is one of the most requested species among tree aficionados. But aside from some of the more common varieties of Japanese Maple like the Bloodgood, not everyone is aware of the amazing range of cultivars available in this species.

Many Japanese Maples are readily identifiable by their delicate, lacy leaves.

The Japanese Maple has been valued as a collector tree for more than 200 years, and there are now more than 1,000 cultivars of which about 300 are available commercially.

Many homeowners appreciate the Japanese Maple for its "human scale," because it won't overwhelm a landscape and is relatively slow growing.

It's a tree that will add a wonderful, multi-seasonal focal point to any landscape, especially near a front door or flanking a patio. Many weeping and dissected leaf varieties are especially popular as accent trees for koi ponds and water gardens.

**Geimer Greenhouses** in Long Grove boasts more than 50 varieties of Japanese Maples this year that are hardy for Zone 5, ranging from the Sharp's Pygmy variety, which grows to a maximum height of

about three feet, to the Fireglow, which will top out at 30 feet or more. Fall colors for Japanese Maples can vary from yellow to deep purple to variegated multicolored leaves—virtually any fall color you can imagine.

Japanese Maples are ideally sited where they can be protected from winter winds and harsh afternoon sunshine, preferably on the east side of a house. They also make excellent understory trees.

For the best selection of Japanese Maples in the midwest, visit **Geimer Greenhouses, Inc.** in Long Grove, located 1/2-mile north of Lake-Cook Road on Old Illinois Route 53. Call **847-358-6363** for more information.

## CASA Charity Golf Outing

The second annual Charity Golf Invitation sponsored by Court Appointed Special Advocates will be held on June 26 at Thunderhawk Golf Club in Beach Park.

Funds from the event will be used to help CASA volunteers become the voice for even more of the 750 children who annually find themselves, through no fault of their own, in the Lake County court system because of child abuse or neglect.

The event will feature well-known people such as Art Norman, WMAQ-TV anchor newsman. The many prizes include an airplane ticket for two anywhere in the continental United States, a weekend at the Four Seasons Hotel in Chicago and a Palm Pilot. A Mercedes car from Loeber Motors will be given to a successful hole-in-one contestant. The invitational also will feature a live and silent auction.

The golf course was designed by Robert Trent Jones, Jr. Co-chairs of the event, Larry Moller of Lexington Capital, Deer-

field, and Brian Jessen of Harris Lake Forest, said their goal is to exceed the \$50,000 raised last year at the tournament. A substantial contribution already been made by Discover Card.

The event will begin at 11:00 AM, June 26, with registration and a box lunch served at noon with a shotgun start. Dinner will be at 5:30 PM and awards to male and female golfers, auction and prizes will follow an hour later.

The chairmen said donations are being accepted for the auction. The golf committee also seeks hole, lunch and dinner sponsors in addition to sponsorship already presented by Chicago Title & Co.

Golf, lunch and dinner will cost \$100 per person and \$75 for dinner only. For more information may be obtained from Moller at 847-374-1040 (Lexington Capital). Registrations may be sent to CASA Lake County at 1020 N. Milwaukee Avenue, Suite 100, Deerfield, IL, 60015.

The program at the meeting was titled "Circle of Life." It symbolized BACOA's belief that, to be successful, BACOA must provide positive support for all generations as, together, we experience the natural transitions of life. Kevin Niwa, Barrington High School Adopt-a-Grand-

parent club member; Claire Leining, family caregiver to her elderly mother; Mabel Pearson, an area senior citizen, provided an intergenerational perspective on how BACOA touches the lives of people of all ages.

## Exotic Inspirations

There's no reason to limit your exotic getaways to a couple of weeks a year anymore. Today's vast assortment of furnishings allows you to create the look of your favorite retreat, right under your own roof!

### Island Pleasures

Close your eyes and imagine soft Caribbean breezes blowing through your bedroom, your living room, even the den. Then, open your mind to the idea of creating an island-inspired refuge within those same four walls. All it takes is one or more of these elements:

- **A Splash of Pattern**—Fabrics, whether applied to a sofa or wrapping a pillow, can quickly establish an island ambiance. Filmy linens adorned with tropical birds and coarse cottons bedecked with bamboo shoots are but a small sampling of the materials that can lend the desired look.

- **Back-to-Nature Materials**—Furniture made of rattan, wicker, bamboo and water hyacinth is more prevalent than ever before. Plus, there are plenty of area rugs made of similar materials such as sisal.

- **Window Dressings**—To create the feeling that gentle island breezes really could blow through your windows, it's important to generate the right illusion. Plantation shutters and see-through, gauzy curtains are both native to island locales...and can work just as well in your own home.

- **Details, Details**—It's true. Details do make the difference. To fashion an island look, consider using finishing touches

such as a ceiling fan (perhaps with palm-frond paddles), decorative art with tropical motifs, even a gauzy tent-like canopy over the bed.

### Global Inspiration

As the world seems to get smaller and smaller, exotic inspiration need not be limited to island bliss. Turkish rugs and Moroccan treasures are finding their way into more eclectic schemes. As for fabrics and throws, many are taking on the look of stunning Indian saris.

There's little doubt, though, that today's most prevalent global effect comes from the Far East. The ancient Chinese art of Feng Shui (arranging furniture in a way that allows a good flow of energy, or chi,) continues to rise in popularity around the world. But Far Eastern influence goes beyond the placement of furniture. There are a vast number of furnishings—reproductions as well as adaptations—which reflect that certain style. Rich silk fabrics and Oriental motifs can take the look a step further. Plus, some of today's most popular colors come straight from that distinct palette, most notably a bright Chinese red.

In short, it takes nothing more than a scrutinizing eye to create interiors indicative of a seasoned traveler who's combed the globe for treasures, bringing them together to create a unique design statement. And the best part is that those treasures are as close as **Decorating Den Interiors** of Barrington, Professional Marya Taylor, **847-934-9215**.

## Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Residential films are now backed by a manufacturer's lifetime warranty. Solar Gard, Sun Gard and 3M films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, pictures, etc.

Solar Gard, Sun Gard and 3M also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

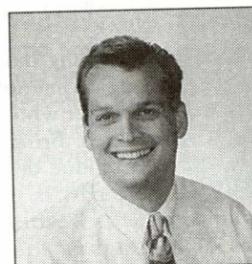

Window film also increases safety with

pressure sensitive adhesive. The adhesive bonds the film to the glass helping hold fragments in place if glass breaks were to occur by a golf ball, baseball, burglar, making glass shatter resistant.

**Glare-Not Inc.** has provided savings and security for 10 years in Barrington Long Grove and the north shore area. Member all Solar Gard, Sun Gard and 3M films are backed by a manufacturer's lifetime residential warranty. ## Outdoor Living—Without the Fuss!

Bill Schafer—President

Joe Schafer—Vice President

Summer. That other season sandwiched between a Chicagoland winter. Time for beaches, baseball games and barbecues. For putting in the flower garden and playing catch with the kids. For building a new deck or re-staining the old one.

Wait a minute. With all that you have planned for this summer, do you really have time to put in a new deck? Or is the maintenance on your current deck too much for you to handle?

Here at **Schafer Builders, Inc.** when we say "full service" we mean it! If you say you want a new deck, we'll build it. When you say you want your old deck fixed, power-washed and re-stained, we'll do it. Which leaves you with plenty of time to see your kid's softball games.

You don't have to accept the cookie cutter deck designs available at the home improvement stores. We can build a deck any size or shape you want. It can rise over different levels, have built-in seating, or lead to a screened-in gazebo. With our design/build technology, you dream it and we build it.

Another option would be to build a screen room. That way you can enjoy the outdoors without the mosquitoes and other bugs enjoying you. Think of summer nights with candles glowing, soft music playing and a beautiful sunset in the west, all enjoyed from the comfort of your new screen room. And it's not too late to get one built this summer, if you call us now!

You'll probably enjoy the screen room so much, that it might be a better idea to build a three-season room that can be enjoyed for most of the year.

We have an extensive photo library of the many deck and screen-room projects that we've completed over the years. As always, our work is backed by a 100% guarantee. We're licensed, bonded and insured and trained craftsmen work on your project.

For a free consultation, call us at **815-459-1333** or **800-564-1339**. Or stop our award-winning office in downtown Crystal Lake at 43 E. Crystal Lake Avenue.

## Does Your Landscaping Need "Renovating"?

Are you tired of living with overgrown shrubs and trees? Has your once-designed landscaping outgrown its initial purpose? "With many people in the Barrington area owning older homes, we are finding a large part of our work has been in the 'remodeling' of existing landscaping," says John C. Cazzetta, Landscape Architect and owner of **BonnerCodd Associates, Inc.**, a Barrington landscape construction firm. "Many species planted in the 1960s and 1970s were not installed in a manner that allowed for their extensive growth habits. And, in many cases, only a few uneventful species were used. The result is an overgrown and unaesthetic landscape," adds Cazzetta.

If your property has grown out of control or just fails in adding the proper value to your home, call John C. Cazzetta for a

free consultation. He will be happy to sign a way to use some existing plants while adding new species to revitalize your garden design, or suggest a complete makeover. Either way, as a Landscape Architect and Contractor, he will be able to solve even the most difficult areas. Call **BonnerCodd Associates, Inc.** at 847-382-4838.

donor to Rich and Ann's nonprofit organization, Free The Children Trust.

### Tragedy Turned to Hope

Rich left the business world in 1980 and applied his skills first to housing needs of urban residents through a church-related organization in Washington, DC. Following a tragedy in the low-income housing complex there, he turned his attention to "transforming young lives through higher education."

In 1988, a father under the influence of crack cocaine returned to his family living in one of the apartments and murdered his two children, both of whom were active volunteers in a church ministry that served youngsters. In the weeks that followed, Rich met with neighborhood organizations in Washington to found a scholarship fund as a living memorial to the lost children. Today, that work has become Free The Children Trust. It has active chapters in Washington, DC and Chicago, and plans are underway for opening Free The Children chapters in all six states of the federally designated Midwest Education Region.

Since its founding, Free The Children has awarded \$1.4 million in scholarships (\$8,000 per scholar). This initiative is based at 325 East Main Street, Barrington, IL 60010.

"With this year's awards, we now have 126 children who are able to pursue their life's dream of a college education," says Rich. "Our children are those at-risk, meaning they are mainly raised in single-parent homes where drugs or alcohol are an issue and where the family income is at poverty levels. It may come as a surprise to learn that millions of children outside of major urban areas live in just

these circumstances. In some of the wealthiest suburbs of the U.S., hunger is an issue; working families are at the poverty line; and many children dream what seem impossible dreams. But we have 126 scholars in our program now being prepared for their life goals; 60 scholars who are in a college or university and 23 graduates with associate or baccalaureate degrees."

Ann Schuurman adds, "Our scholars are pursuing careers in education, medicine, law, science, technology and public policy. They may attend Brown, Illinois Wesleyan, George Mason, University of Illinois and other leading institutions. We find our scholars in community-based organizations that are already mentoring children's educational and developmental needs. These organizations identify our scholars as having the motivation and capability that can lead to success, and the children must already have the spirit of volunteerism. One of our requirements is that just as we tutor and mentor our scholars, they must in turn tutor and mentor others if asked."

### Volunteers Wanted

"Now we are looking for volunteers to help us carry our vision beyond these two highly successful demonstration chapters. We are focusing on the six-state Midwest region. Then, we plan an outreach coast-to-coast," says Rich.

"We need experienced compassionate people who understand that wasting our children is wasting our best resource for the future. We plan new chapters, new fundraisers, new information campaigns, improved use of new technologies to carry our message. We are so grateful

## Can't Find The Room? Let Us Help!

"BEFORE"

"AFTER"

"As architects, it's our job to solve your spatial needs," says John C. Cazzetta, President of **Kemper Cazzetta Architects** in Barrington. "A large majority of our work is in remodeling, and because our clients need everything from small additions to complete estate makeovers, we tend to 'see it all.' Our philosophy is to listen to our clients, study their existing conditions, calculate their budget and endeavor to aesthetically resolve their space needs."

Many homeowners struggle with the thought of "taking apart their house," especially while they continue to live there. "This dilemma is the biggest hurdle in some projects," adds Cazzetta. "The design solution takes this into account so as

to ensure a comfortable process. We have designed some projects to allow the owner to move into the new addition before renovating the existing space. The quality of life during the process is as important as the design itself. "The homeowner is amazed at how their 'old' home has come back to life," concludes Cazzetta.

If your home needs updating, additional space or reconfiguration, call Cheryl Ferguson or John C. Cazzetta, at **Kemper Cazzetta Architects, 382-8322**, for a no-obligation consultation today. "We feel you will be pleasantly surprised at the potential of your existing home."

## Security and Beauty with Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees,

artwork, building features and so forth, using a wide variety of techniques including uplighting, crosslighting, moonlighting and pathlighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

Call **CFC Nite Lites** at **847-658-5469** for your free estimate.

## Would Your Family Enjoy This?

## REMODELING 2001...STORY #6

"Our kitchen isn't that old but it's just not working for us. The island counter is too small and I absolutely hate seeing the side of our big refrigerator from the front hall." These were the thoughts Kathy Civik expressed to **Barrington Kitchen & Bath Studio's** designer Kaye Hathaway at their first meeting. Kathy and her husband Ken built their house overlooking Bangs Lake in Wauconda about 15 years ago. "Pickled" finishes and Southwestern colors were the rage then and that's what they put into their house. But, Kathy's taste had changed over the years, and she now wanted a more traditional feeling.

Kaye, who's both a certified kitchen designer and a certified interior designer worked with the Civik's to create the kitchen that Kathy had been dreaming of. Ken and Kathy's original idea was to build an arched opening to enclose their new commercial range. Kaye drew them a sketch of the kitchen with the arch and the couple realized that it ate up a lot of storage space. So instead the range was enclosed by bringing cabinets, one with a pull-out spice rack and another with dividers for baking pans, down to the counter top and building a beaded-board range hood between them. That really set the focal point for the kitchen! The new built-in refrigerator was moved away from the kitchen entry and replaced with glass fronted cabinets. These lighted cabinets provide display space for special china and give visitors an inviting first view of the new kitchen.

The desk area in the original kitchen was much larger than the family needed. Kaye suggested building a walk-in pantry with a curtained glass door to provide storage for bulky items. That left enough room for a smaller desk which was given a furniture look with a carved onlay and special moldings. The island, which had housed the cooktop and a raised seating area, has now become a baking and food prep center. Three specially designed carved posts support the eating bar, which was kept at counter height to provide maximum counter space.

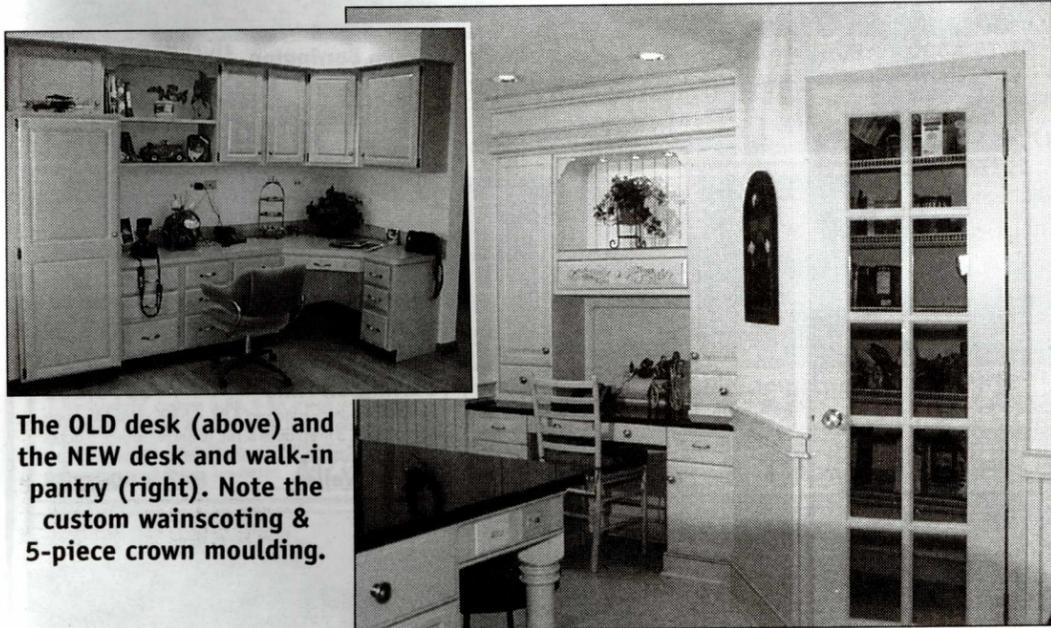

The Civik's chose Crystal cabinets in Antique White with a brown highlight to provide the sophisticated look that Kathy craved. Dark green granite countertops provided contrast. Ken Civik, who is a tile contractor, installed a random-sized ceramic floor with a stone look and a tumbled

marble backsplash. Being in the trades, Ken knew that a professional installation would be critical to the final appearance of their kitchen. He contracted with **Barrington Kitchen & Bath Studio's** sister company **Delta Renovations** to do the installation.

Are the Civik's happy with their new kitchen? We recently received a note from them that said "Kaye Hathaway and **Delta Renovations** did a beautiful job creating our new kitchen. They are truly a group of professionals." All eyes were then focused on the 127th Running of the Roses in Churchill Downs. Excitement rose to a fevered pitch as Monarchos, bred by former *Chicago Tribune* editor Jim Squires, surged through the 17-horse field and past heavy favorite Point Given to run the fastest time in Derby history second only to the legendary Secretariat in 1973.

RESIDENTIAL BROKERAGE

June is the time for new beginnings and celebrations. Most marriages are performed in June. Graduations are taking place at every level of education, and each graduate (no matter what age) is exuberantly alive with personal dreams filled with hope, optimism and confidence.

June is also the halfway mark of the year. It's the time to reflect on whether we are heading in the right direction. Are we achieving all we desire in 2001, or are we stalled or merely parked in neutral? Is this time to get a move on?

As the thermometer goes up and winter weather is but a dim memory, our buying activity heats up. May's activity was at an all-time high for our **Coldwell Banker Realtors**. With interest rates low, the market is alive with much buying and selling. First-time buyers are the most active.

Some of today's buyers are June graduates and brides and grooms. They are receiving financial help from Mom and Dad, especially for the initial down payment. Some of the "gifts" given to the graduate or happily married couples are being set aside for their first real estate

purchase. This is an outstanding way to begin life as an adult. Can you imagine how they feel when their Realtors say, "Congratulations! You now are the proud owner!" Wow! I'm sure some of us wonder what we "shoulda, woulda, coulda" done. However, it's never too late.

Today is the perfect time to recharge and get going. What have you put on the back burner? Is a vacationland home, a mountain lake house, a six-unit investment property or a piece of land for the time when...? Another "can you imagine"—eating a meal from the catch of the day pulled from waters near or on your land? There are all kinds of dreams and possibilities.

Our **Coldwell Banker Realtors** are tuned into the market and take pride in being prepared to properly advise buyers and sellers. Our Realtors are committed to giving truly remarkable service. Give us a call at the Dream House Headquarters.

P.S. And most importantly, congratulations to the June graduates and the June brides and grooms from all of us at **Coldwell Banker Residential Brokerage**.

## From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

I'm one of those people who fall asleep easily when I go to bed. Then sometime during the night, I wake up with my brain racing about nothing terribly important and can't get back to sleep. Tim does the same thing. So, whoever wakes up goes to another room to read or watch television so the other one can sleep.

A few weeks ago on one of those restless nights, I ended up watching a Senate Committee meeting. Senator Peter Fitzgerald was chairing the Commerce Committee hearing on booster seats for children from 4 to 8 years of age. The death and injury rate for children under 4 and over 8 has declined, but the rate for 4- to 8-year-olds has risen. Over 500 4- to 8-year-olds are killed each year, and almost 100,000 are injured in automobile accidents.

A group of pediatricians were among the groups spearheading a request for a Federal law that would require booster seats for 4- to 8-year-olds or 80 pounds. (One of the members of the panel that morning was a gentleman from Ford Motor Company.) A three point seat belt hits a small child too high on the abdomen and can cause serious internal and spinal

injuries in a crash. The rate of unrestrained children quoted was frightening. Only 7% of the children are in booster seats.

Ford has launched a program nationwide called 'Boost America.' Ford Motor Company, through its dealers, including **Wickstrom Ford**, will be giving away two million booster seats. Stop by at **Wickstrom Ford** and pick up your coupon to redeem your free booster seat. Let's keep our children safe.

## Barrington Sparrow Celebrates 15th Anniversary

Barrington Sparrow honored volunteers and celebrated the 15th Anniversary of Home of the Sparrow with a festive luncheon on May 3 at Barrington Hills Country Club, Barrington Hills.

After opening the annual meeting, President Sue Guernsey presented speaker Andrea Gonder, who six years ago as a Sparrow client and single parent entered the program with "no emotional spirit or direction." She has since earned both her BA and Masters degrees in addition to being employed full-time. Now a member of the Home of the Sparrow board and recent recipient of a doctorate grant, she thanked all who have helped to support Sparrow efforts and emphasized the importance of its availability to women in the community.

She expressed her personal gratitude. "It is a tough, rigid, structured program... but it gave me direction and confidence to set and attain goals I never thought possible. It gave me the means and methods to not be 'stuck' in life."

Thanks to Home of the Sparrow Executive Director Reverend Karen Stunkel for providing an update on HOS progress. She reminded the group that "we take

tiny, significant steps... In 1986, Sparrow opened with one shelter able to house 13. There are now three shelters as well as 13 apartments able to accommodate 100!" An overview of recent and planned changes to Sparrow counseling/educational programs was outlined.

Enthusiastic applause greeted Barrington

Barrington Friends has no regular general meetings, but members are engaged in a wide variety of projects throughout the year, including preparations for the next dinner/dance "gala" which is scheduled for November 3. The theme is "Arabian Nights: The Ali Baba Ball" with all proceeds to benefit Home of the Sparrow.

Home of the Sparrow is committed to aiding homeless women and their children in efforts to avoid and/or overcome homelessness through a structured program of transitional housing, counseling and educational services, enabling independent living. It is headquartered in McHenry with additional locations in Crystal Lake and Palatine.
