## Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 19 years of service at the same location.

## Editor's Ink

October, 1995

Dear Reader,

Fall came fast, didn't it? Last week it was hot and humid, this week you seek out the latest in fall fashion... and in Barrington that's easy and fun!

Fall events abound. Friends of the Sparrow are in the final planning stages of their fundraiser. This year the theme is "Blame It On The Bosa Nova." A Latin theme, there promises to be South American food, music and entertainment. Decor is that of a fiesta cantina. Sounds like fun! All proceeds benefit homeless women and their children. A great cause.

It's time for the 1995 Barrington Crop Walk, slated for Sunday, October 15. Grand Marshall will be Konrad Bald, a leader in this effort. If you can't participate how about sponsoring one who is walking? Last year the walkers and their sponsors raised more than \$37,000, providing nearly \$10,000 to Barrington agencies.

Support the arts. On Saturday, October 7th, Lyric Opera of Chicago's Operathon 95 will have an 18 hour radio marathon over WFMT (98.7 FM). Call (312) 335-0400 with your pledge.

Until next time, may all your thoughts be sunny.

With warm regards,

*Glenn McMonigal*

## Dining, Dancing And Dramatic Honors For Artist And Scientist From Brain Research Foundation

Left to right, Julia Pernet (Abbott Laboratories), William Fay Jr. (Wilmette), Gwill Newman (Lake Forest), André Pernet (Abbott Laboratories), Patricia and Art Neilson (Winnetka), and Mary and Brad Smart (Wadsworth).

Left to right, Dr. Barry Arnason (Chicago), Chairman, Department of Neurology, U of C, 1995 Creativity Award Recipient; Gwill Newman (Lake Forest), Chairman Brain Research Foundation; Mr. Richard Hunt (Chicago), 1995 Creativity Award Recipient; and William E. Fay, Jr. (Wilmette), Honorary Chairman, Brain Research Foundation.

Summer roses felt the rhythm of romantic strains played at Chicago Botanical Garden on behalf of research going on at the University of Chicago earlier this month. At a black-tie event attended by several hundred guests who braved this summer's humidity, Richard Hunt and Barry Arnason, MD, were honored in the arts and medicine respectively.

The occasion was a fundraiser to benefit the Fay/Frank Seed Fund that supports the ideas of brilliant young scientists working to unlock the secrets of the human brain. Seventy-six scientists from around the world are collaborating under the leadership of Dr. Bryce Weir, director of the Brain Research Institute at the University of Chicago. Work ranges from research on Alzheimer's disease and Multiple Sclerosis to epilepsy and brain tumors; from studying the effects of alcohol and Prozac on the brain to understanding schizophrenia and learning disorders; among some projects.

The Creativity Award is presented by the Brain Research Foundation, a funding arm of the Institute, to recognize extraordinary human creativity as the product of the healthy human brain. "We need always to consider the tremendous hope and potential the healthy human brain offers the world," says Gwill Newman, chairman of the Foundation. "The brain is not merely the site of depression and anger, of tumor and aneurysm. It is also our joy in today and our hope of the future. Both the artist and the physician honored are tremendously representative of the power of the brain to bridge the world and ease the suffering."

Barry G. W. Arnason, M.D., professor and chairman, department of neurology at the University of Chicago, received the 1995 Creativity Award for "his many years of creative research in developing the first drug (Interferon) to show significant results against the crippling disease of multiple sclerosis. Pictured, from left, Nicoline Shields, Lyric Opera of Chicago Chapters' Executive Board President; Barrington Lyric's Operation Chairwoman Judy Allen, Barrington; Barrington Lyric Board Member Jim Steed, Schaumburg; and Cabrina Moran, Operation 95 Chairwoman.

Let's talk! Ring up the "Ring Cycle" stars Eva Marton, James Morris and Siegfried Jerusalem to support Lyric Opera of Chicago's Operathon 95, live from The Hancock Observatory on Saturday, October 7. This 18-hour radio marathon from 7:00 am to midnight over WFMT (98.7 FM), is hosted by Lyric Opera's Chapters' Executive Board and its 20 Chapters located throughout the Chicagoland area. American Airlines is the official Operathon sponsor for the eighth consecutive year.

Operathon 95 will offer a potpourri of musical entertainment, taped highlights of past Lyric Opera performances, live interviews with many of the 1995/96 Lyric season's artists and anecdotes and reminiscences from Lyric's rich 40-year history.

More than 300 enthusiastic Chapter volunteers will take pledges and offer surprise bonuses and premiums to entice listeners to phone in their pledges (312) 335-0400. Profits from Operathon 95 will help sustain Lyric Opera of Chicago, which consistently offers opera in the grand style to appreciative Chicago audiences. Recognized for holding the national record for one-day ra-

dio fundraising by an arts organization, Operathon has raised over 3.5 million dollars in its 15-year history.

Special premiums include a baseball bat signed by retired Chicago Cubs second baseman Ryne Sandberg, an Hermes scarf tying party, luxurious trips to San Francisco, Seattle and New York and tickets to fabulous musical events throughout Chicago. In addition, a number of Chicago's world class restaurants and hotels have donated meals and weekend accommodations.

Other premiums include recitals by members of the Lyric Opera Orchestra and Chorus; gift certificates to more than 100 restaurants, exclusive boutiques, beauty treatment salons and fitness centers; museum memberships; plus much, much more! A special Operathon catalog, distributed in late August, provides specific details and descriptions of all the premiums and merchandise available.

Chairman of Operathon 95 is Mrs. John (Cabrina) Moran of Hinsdale, Illinois. This is the 16th Annual Operathon for the Lyric Opera Chapters.

## Welcome Wagon Of Barrington Coffee

On Thursday, October 26, 1995, the Welcome Wagon Club of Barrington meets at 9:30 a.m. at Nordstrom, Woodfield, for coffee. Starr Kondos, Nordstrom consultant for Personal Touch, will present a program on

color as a cornerstone, accessorizing for excitement, and having a ball with fun weekend wear. There is a \$2.00 charge. Please call Deborah for details and reservations at 382-4263.

recognized metal sculptor, was honored for "creatively bridging America, Africa and the Middle East with powerful sculptural expressions of intuition and being." Arnason sought especially to have the audience understand *how long it takes* for solid research, such as led to the development of Interferon, to move from the laboratory bench to the bedside. He said that, "the Fay/Frank Seed Grants are the single most important work of the Brain Research Foundation. Keep it up." Hunt expressed... "rare pleasure in receiving the award as an artist, and being recognized as having and using the brain, not only emotion," in creating monumental and powerful sculpture. Hunt and Arnason discovered they had crisscrossed paths at Harvard and the Uni-

versity of Chicago, among other distinguished professorships each has held in highly successful careers.

Mary Smart (Mrs. Bradford) announced benefit results: "Our 1995 Creativity Awards intimate event raised \$30,000 for the seed grants, and saw powerful personal photography of roses donated by Bill Kurtis, WBBM-TV anchor and independent producer, and rare Bulgarian rose fragrance designed by Marilyn Miglin for both men and women as individual gifts. Abbott Laboratories and Swissair were also significant patrons of the event. We are deeply grateful to our friends in Chicago's leadership community, who understand that the human brain holds the keys to our future quality of life."

## Artist Focuses On Yellowstone's Wolf Restoration

A trip to a seaside Victorian cottage overrun with wild bittersweet or a glimpse of a proud moment in nature. These are just a few of the places **Woodland Art Gallery** takes you this month.

The restoration efforts to reintroduce wolves into the wilds of the Lamar Valley in Yellowstone National Park became a reality last winter with the release of a bonded pair identified as Number 9, a black female wolf, and Number 10, a gray male wolf. Soon after, eight pups were born but the untimely death of Number 10, shot outside of the park, led officials to their decision to move Number 9 and her pups to a caged area in a remote site. In recognition of this important reintroduction, wildlife artist Daniel Smith has captured the memory of Number 10 with his beloved Number 9 in the soon-to-be-released work *High Ridge*. This powerful limited edition print, available at **Woodland Art Gallery**, offers collectors a unique opportunity to take part in this Yellowstone homecoming, as a special Conservation Edition, which includes a debossed paw print of Number 10 and limited to just 280 prints worldwide, will benefit the wolf reintroduction efforts. Pre-release orders are now being accepted by **Woodland Art Gallery**.

And from watercolorist Nita Engle comes a spectacular study in light with her newest release that has just arrived at the gallery. *Bittersweet Cottage* captures the shimmering water against a delightful Victorian cottage abounding with the red and yellow berries of wild bittersweet. Now on display at the gallery, the limited edition

*"High Ridge" by Daniel Smith*

print is a cozy reminder of a seaside memory.

**Woodland Art Gallery and Frame Shoppe** features the largest collection of limited edition prints from all of today's important artists including Robert Bateman, Don Hatfield, Carl Brenders, Dean Morrissey, Jim Daly, Terry Isaac, John Seerey-Lester, Michael Young, Bradley J. Parrish, Bev Doolittle, Arleta Pech, and Peter Ellenshaw.

Gallery owner Scott Teasdale is also the area's most respected and knowledgeable source on the secondary market for locating sold-out works. And of course, custom matting and framing by **Woodland Art Gallery** assures the integrity of your art for years to come. For your convenience, holiday layaways are now being accepted at the gallery, located at 71-B East Woodstock Street in downtown Crystal Lake. Open Monday-Friday, 9-5, and Saturday, 9-3. Phone (815) 459-0460. Visa and MasterCard are accepted and shipping is available anywhere.

**Focus On Botox . . . An Alternative To Surgery**

Dr. Churchill specializes in plastic and reconstructive surgery of the face and neck. He has an office and private surgical suite in Barrington, and is one of a handful of physicians in the country to complete extensive subspecialty training through a fellowship with the prestigious American Academy of Facial Plastic and Reconstructive Surgery. Dr. Churchill is board certified and on staff at a number of local hospitals and surgery centers. The following is an excerpt from an upcoming newsletter.

Many people have very active frown lines between their brows and would love to have a simple way to reduce them. These lines are the result of corrugator muscles. These muscles lie horizontally under the central eyebrows. When they contract these muscles wrinkle the central brow into a configuration similar to corrugated cardboard, hence the name corrugators for the muscles. A number of options are available to treat these lines. Collagen has been used to fill the resulting depressions and more invasive surgeries have been devised to interrupt the muscles and weaken them. Now a simple injection is available that can weaken these muscles and significantly reduce the frown lines. The injection is done with Botox, a protein derived from *Clostridium botulinum*, the bacteria responsible for botulism.

**What is Botox and How Does it Work?**

Botox is a highly purified form of the protein botulinum toxin. When it is injected into a muscle it blocks the nerve signals coming into that muscle resulting in complete or partial paralysis lasting from 3 to 6 months. Al-

though it sounds scary, Botox is very safe and has been used effectively for years to treat spasms of the eye and face. Over the last few years many studies have been conducted and many patients treated with good results in reducing the frown lines and crows feet at the outer corners of the eyes.

**How is a Treatment Done?**

The Botox is mixed from its freeze dried state and diluted to the strength desired. Usually two injections are done on each side of the eyebrows to reduce frowning or on the sides of the eyes to reduce the crows feet. The effects are not seen immediately but take place over two to three days. Over that time the muscles will gradually become weaker until there is almost no ability to frown. If the crows feet area is injected the crinkling of the skin in that area will be reduced as well. If further weakening is desired, a second injection can be done after one week. This is rarely necessary.

**Who Is a Candidate for Botox?**

There are no absolute contraindications for using Botox. Allergic reactions are vir-

## The 1995 Barrington Area Crop Walk

The 1995 Barrington Area Crop Walk will honor Konrad Bald as the Grand Marshal of the walk. Mr. Bald, who is a member of the Lutheran Church of the Atonement, has played a leadership role in the organization of these walks and has been consistently one of the highest fund raisers. He is pictured here preparing food to be given away at the Bethlehem Food Center, one of the recipients of the money raised through the Barrington walk.

1995 will be the 13th year that the people from the Barrington area have joined together from all churches and all ages to help fight hunger. The walk will be held on Sunday, October 15, with registration at 12:30 p.m. at St. Paul United Church of Christ, 401 E. Main St., Barrington. The ten kilometer walk will follow a route through Barrington with rest stops at various churches. A "Golden Mile" is available to anyone who wants to walk but feels the ten kilometers might be too far. Walkers will return to St. Paul for a chili supper and fellowship. Twenty-five percent of the proceeds are used to fill the shelves at the Barrington Food Pantry, The Bethlehem Center, The FISH Food Pantry in Carpentersville and to help fund the needs of the Salvation Army and Meals With Wheels. Seventy-five percent will be used by Church World Service and other international agencies for disaster relief throughout the world.

The walk involves approximately 400 walkers who have been sponsored by an average of ten other people bringing par-

ticipation to over 4,000. Last year the Barrington walkers and their sponsors raised more than \$37,000, providing close to \$10,000 for our local agencies.

This year promises to be one of the most fun-filled walks since we began in 1983.

For information, contact your local church, or call Glen Esche of the Presbyterian Church of Barrington, chairperson, at 854-2509 from 8:00 to 5:00 or at 658-7206 from 7:00 to 9:00.

## AT THE BARRINGTON ICE HOUSE

### The Excitement Of The Holidays Begins

The excitement of holiday dressing is beginning at **Tommy Terri**. With thoughts of holiday pictures, parties and family gatherings, we can help to create your children's own special look this season.

The popularity of fall's plaids are moving into holiday. Blackwatch to tartan plaids, alone or with velvet, are a classic tradition.

Plush velvets are here in rich reds, green, black, navy and burgandy.

Sweaters in holiday colors and patterns, replete with snowmen or Santa, can bring this season's picture into focus.

Jan Briggs offers, through us, her first Winter Holiday Season. Her designs this spring were favorites of our customers.

Seen in our ad are fashions from Ma-N-Me, a traditional styling with unique patterned fabrics.

This season we are carrying our Good Lad line with a few selections from their

speciality group "Small Treasures." Sylvia Whyte, Jayne Copeland, Plum and Imp are here as well.

For your convenience gift wrapping and UPS shipping are available.

Remember our famous playhouse and new video are always available to keep little ones happy while shopping!

### The Very Finest In Art Glass

**Chesterfield Galleries** at the Barrington Ice House represents some of the most well-known and highly-respected artists in the United States. The gallery features lamps, vases, sculpture, perfume bottles and paperweights in a wide array of styles, sizes and colors. All pieces are signed by the artist and come with a certificate of authenticity.

The gallery recently acquired a new selection of veiled glass by Pennsylvania glass artist Ed Nesteruk (pictured). Also, stop in and see the new exhibition of art glass by Orient & Flume of California, including several limited edition paperweights and eggs.

**Chesterfield Galleries** specializes in Lotton Glass and also carries creations by Peter Patterson and Eric Bladholm. In ad-

dition, the gallery features Raku by American artist Peter Olszak and Vancouver artist Heather Chapman as well as Shona Stone Sculptures from Zimbabwe.

### Don't Miss Kaleidoscope's First Annual "Chair-ity"

Mark your calendars for October 22 from 10am-3pm for Kaleidoscope School of Art's first annual "Chair-ity" and gallery sale. This unique event will feature "fine art" chairs created by the faculty for display and silent auction. In addition, there will be demonstrations by Kaleidoscope's talented instructors: cartooning—Lin Peszat, watercolors—Joan Hasselman, calligraphy—Dena Bellows, pottery on the wheel—Ed Dvorscak, cartooning—Doug Jennings, and more!

For these fall festivities, Kaleidoscope will overflow onto the driveway where there will be a tent displaying a colorful array of paintings, pottery, sculpture, calligraphy, watercolors and more! This will be the day and the place to appreciate imagination, style, taste and creativity! Think about making room in your house for one of the special "Chair-ity" chairs or even getting a head start on the holidays by purchasing that one-of-a-

kind gift that is bound to be at 205 S. Cook Street in Barrington. And we know you'll fall into Kaleidoscope on October 22nd when you hear that the proceeds from our "Chair-ity" will benefit the Kaleidoscope Scholarship Fund. Any questions? Call (708) 381-4840.

## At Burdeen's Jewelry, It's A Visual Feast

It's hard to believe another Holiday season is approaching. Here at **Burdeen's** we've been working furiously creating new designs and finding unique pieces. We've expanded to 3000 sq ft and now have 30 showcases packed with fine jewelry of all kinds, from handmade platinum rings and neck pieces to 18k handmade chain, bracelets, etc. We have a vast selection of diamond bracelets, neckpieces and earrings. It is always worth the trip, and we appreciate that some of you travel to see us.

Our son Matthew has finished his Fine and Applied Arts program at The University of Illinois and is working on his GG (Graduate Gemological degree). This entails a 2 year program dedicated to studying diamonds and color. In addition to this he will study to be a Jeweler and diamond setter.

Dennis acquired his GG 11 years ago as well as becoming a jeweler and diamond setter. When we started this business I was run-

ning it out of our home and taking care of 2 little boys, 3 dogs and a house. Dennis would come home from his day job and study for his Gemological degree and we'd spend the wee hours of the evening filling orders I took during the day for custom work. I would then, learn by proxy (partly because we didn't have the funds for both of us to go to school.) This left me with common knowledge, and no degrees on the wall, so this year I acquired my certificate in diamonds which involved studying over 1500 pages of material and taking an exam. Yea! I finished and will go on to obtain 8 additional degrees before acquiring my GG. Acquiring knowledge is what separates businesses today, and we are dedicated to being our best and sharing that knowledge with you to ensure that when you buy a diamond or colored stone from us we know what the quality is and we know that we didn't overpay so you also pay a fair market price.

Please stop in and take advantage of our vast selection, great values, and exquisite merchandise. If I'm exaggerating take it up with me personally!

We remain, large enough to serve you and small enough to know you.

Dennis, Sandy, and Matthew Burdeen

## Portara—Fall/Winter 1995

For the woman who knows the trends, but isn't a slave to them, **Mondi Fashion Group** presents Portara, a collection of sophisticated, polished separates which offer an endless variety of combinations in pure, uncomplicated fashion.

### Shapes

For all the different moods of women, Portara offers a variety of shapes, from tight and fitted to loose and flowing. Layering is a key concept, with effects that are sleek or casually cool. Looks for day are fitted and chic—pant suits are slim and lean, narrow jackets are paired with short streamlined skirts. A tailored vest completes these outfits for work. More casual silhouettes come from swingy A-line skirts, long patterned skirts, and loose textured sweaters. For evening, flowing long dresses and skirts in beautiful, subdued prints are pure elegance and ease.

### Fabrics

From the softest silks to reversible leather to fluffy angora, Portara offers a wide range of fabrics to suit any occasion that life throws your way. Classic sleeveless shift dresses and leggings are given a more modern edge when they're constructed from pearlized blue pvc. Silk goes rugged when it's fashioned into an Asian-patterned quilted jacket. Angora sweaters shot with satin threads shine, while nubby knits are paired with their sleek wool counterparts.

### Colors

Portara believes that a woman's wardrobe should work from year to year. For this reason, chocolate brown, black and navy are key colors, designed to work with her existing wardrobe. For accent colors these basics are sparked by scarlet, pale pinks and antiqued hues of copper, steely taupes and pale olives.

The Portara Woman may be youthful, but she knows what she wants. She's open-minded, a modern woman who needs a wardrobe that will work from morning until night. Portara offers the finest quality and workmanship in modern, individual style.

In the Spring of 1994, for the first time in 50 years, the Art Institute displayed its collection of ancient Egyptian, Greek, Roman, and Etruscan art. In this collection are Greek amphoras (jars for wine or oil), Roman sculptures, coins, glass objects, and the beautifully preserved mummy case of Paankhenamun from the Dynasty 22.

George Schneider, popular lecturer and Associate Director of Museum Education, will present a slide program on these ancient artifacts.

Lunch will include saganaki, dolmades, and kotopoulo souvlaki at Papagus Greek Taverna at the Embassy Suites, Chicago.

A stop at the Pan-Hellenic Pastry Shop in Greek Town will complete the day.

Fees, which include lunch, are \$30 for members and \$35 for non-members. Reservations are due by November 2. Buses will leave from the Langendorf Park parking lot at 9:15 A.M. For reservations or

## The Most Wonderful Season

With the long, hot summer now gone and kids finally back at school, we know the long cold winter can't be far behind. Fortunately, though we know one of the most wonderful seasons is just arriving... autumn? No! Caramel apple season!

Every year at this time **Morkes Chocolates and Caramel Apples** works 'round the clock supplying freshly picked, freshly topped caramel apples to area farm markets, schools, companies and homes. They're the best and they shouldn't be missed!

Jonathon apples, Red Delicious apples, Granny Smith apples—there are so many to pick from. Granulated peanuts, plain thick caramel, Halloween orange and chocolate sprinkles, Brazil nut, deluxe nut mix, and even chocolate—there are just as many toppings to pick from! They're a hit with clients, employees, kids away at school, Halloween parties, or just for a healthy snack at

home. Special pricing is available for cases (15 to 24 apples depending on size). Call ahead because the caramel apples are made to order, and remember, your time is limited; caramel apple season extends only through Halloween. After that, you'll need to get out your winter coat.

## The Haeger Potteries— Craftsmen For Over A Century

Now in our 124th year, we are proud that the **Haeger** name is synonymous with quality and excellence in fine art pottery. Our history is as rich and enduring as the clay along the banks of the Fox River where it all began.

In 1871, founder David Haeger's Brickyard helped rebuild Chicago after its devastating Great Fire. Those early bricks were the solid foundation for what is now **Haeger Potteries**, the world's largest art pottery.

Today, under the direction of the fourth generation of the Haeger family, we still transform clay into art at our original location along the banks of the scenic and historic Fox River in Dundee, Illinois. The years have seen steady growth, creativity and innovation. With the introduction of the first line of **Haeger** artware in 1914 to the present, **Haeger** quality has been accepted worldwide as the standard by which other pottery is judged.

Although thousands of Haeger pottery products are created each day, every single piece is handled with individual care by our dedicated and skilled craftsmen. We feel that is what makes **Haeger Pottery** so special, the unduplicated formula of an age-old

process by talented, attentive hands.

**Haeger** invites you to be their guest on a free tour of the factory and salesroom in historic Dundee, Illinois. You will enjoy the old world method of creating art work by wheel. Our **Haeger** tour guide will lead you on a 40 minute walking tour. Tours are conducted Monday through Friday. Children must be 4 years or older to tour the factory. Please call **426-3441** to arrange for a tour.

A tour through the factory shows the skills required in forming raw clay into beautiful decorative ceramics. You will appreciate the care the hand finishers give each piece of pottery as it comes from the mold, and also see the alternative methods used by skilled craftsmen in applying the beautiful glazes to **Haeger Pottery**. Walk into the great kiln room and see the block long kiln and round kiln.

In the **Haeger Pottery Factory Outlet Showroom** you can select your favorite art pottery pieces, as well as lamps and shades. Watch our talented floral designers create beautiful silk and dried arrangements. **The Haeger Potteries Factory Outlet Showroom** is located on Maiden Lane in West Dundee.

Thursday, October 26, 9:30 a.m. until 6:30 p.m. is the date; the quaint and rustic Knights of Columbus Barn, on Kelsey Road and Rt. 14, across from the Kelsey Road House, is the place. Three massive rooms on two floors provides the perfect atmosphere to get in the mood for Holidays coming up all too quickly.

Cafe Cornucopia, located on the lower level, provides the perfect resting place to meet for gourmet coffee and homemade dessert bars. The Nicholas A. Papanicholas & Sons Coffee Company has donated some wonderful flavors, and this is your chance to try something unusual. Some of the decorations are thanks to Glenn Egelund of Barrington Flower Shop, adding to the cafe's charm. Lunch and dinner, catered by Gary D's, will also be served in this intimate nook.

The show also incorporates craft items prizes and a bake sale that has visitors stocking up for the holidays. Each item is creatively decorated and packaged—they're almost too pretty to eat!

Klaus Peters, General Manager, Arlington Park Hilton; Chef Luna, Executive Chef, Arlington Park Hilton; Patti Riggs, Fashion Director, Saks Fifth Avenue, Oakbrook; Margery Thomas, Chairman, Auxiliary Fashion Show 1995; and Joyce Campbell, Chairman elect, Fashion Show 1996.*

Plans for Northwest Community Hospital's Auxiliary Luncheon and Fashion Show are underway. This marks the 37th year that this group of community members have used this event to raise funds to benefit programs and services at Northwest Community.

efit from an intra-aortic balloon pump are heart attack patients, or patients recovering from or waiting for open heart surgery. In addition to the intra-aortic balloon pump, Northwest Community Healthcare's Cardiovascular Services Program provides a comprehensive range of cardiovascular care including full diagnostic, acute care treatment, and ongoing management of cardiovascular conditions. ## Kumon Grand Re-Opening & Math-A-Thon

October 28th will not just be a Saturday for playing. This year, students in the Palatine and Barrington areas will be raising money for less fortunate students who cannot afford their own school supplies. How will they raise the money? By doing math, of course!

The Palatine Kumon Math & Reading Center, formerly located at the St. Paul's United Church of Christ, has moved to a new, larger space at the Whitehall Plaza, 473 W. Northwest Highway, two blocks east of Quentin Road. To celebrate this grand re-opening, Kumon Instructor Patt Heise will host a Halloween Math-A-Thon for all of her students at her Kumon Center. In addition, Patt will offer free registration for all new students who enroll at her center prior to October 15—a \$30 value. The money raised from the event will be donated to the Palatine Township Apple Tree Fund, which purchases school supplies for students who cannot afford them.

When asked why she recently moved to her new space, Heise replied that her class is growing so rapidly due to the excellent programs Kumon offers. She added that she has worked very hard to get the Kumon name recognized via advertising and word-of-mouth. Recent changes in school curriculum have also helped her enrollment grow as the demand for more skill-mastery based programs has risen. Other Kumon Centers which have recently expanded include three Schaumburg locations, the Hoffman Estates

Mrs. Patt Heise and Mr. Hiroshi Kumon, Senior Vice-President of the Kumon Educational Institute, following her presentation to 200 Kumon Instructors at the Kumon Anniversary Conference.

Center and the Cary Center.

Open House Meetings will be held at Patt Heise's Center on Wednesday, October 4, from 7 p.m. to 8 p.m., and Saturday, October 7, from 10 a.m. to 1 p.m. For further information, call Patt at (708) 934-7754 or call 1-800-YES-MATH for the Kumon Center nearest you.

## Traveling . . . with Carlson Wagonlit Travel

### Hawaii Outdoors

Hawaii's Big Island (the one called simply Hawaii) is ideal for active people (this is where Kevin Costner filmed "Waterworld," after all). Options include guided horseback riding with Na'alapa Trail Rides (808 775-0330) through the island's lush up-country ranches. Or try a different type of saddle by mounting a mountain bike available from Red Sail Sports (800 255-6425). One guided tour zooms from an elevation of 3300 feet down to sea level, along peaceful pastures and fields. Or hike through the island's rain forest with an incredibly informative naturalist named Bob Pacheco of Hawaiian Forest & Trail (808 329-1933). These are just a sampling of the outdoor possibilities on the Big Island. Or, you might also just want to lie back on a beach. That's allowed, too.

### Easy Upgrades

It's long been known that you can upgrade from a full-fare coach ticket to the comfort of first class by paying a fee based on the number of miles flown. What's interesting is that at least one airline, Continental, now lets you purchase upgrades even on free or greatly discounted tickets. On flights up to 500 miles, each one-way upgrade costs \$50; flights up to 1,250 miles in length cost \$100, up to a maximum of \$350 for flights over 3,500 miles. The same rules apply to Continental's partner America West. Although flights can be upgraded only within two hours of departure, the ability to upgrade even a free ticket is certainly worthwhile, especially when one considers the rather large price difference between free and first class.

### Travel Gizmos

The Magellan's Catalog (800 962-4943) continues to be this country's premier source for travel gadgets and gifts. Among the unique offerings: water purifiers and fil-

ters, adapters to help your computer and modem work around the world, portable security and smoke alarms, hidden security pouches, and much more. If it's not in here, you probably don't need it.

### Panama Canal Cruise for Less

According to a recent report in The Wall Street Journal, the cruise industry is experiencing excess capacity of late, and discount opportunities. Perhaps as a result, Radisson Seven Seas Cruises and American Airlines have teamed up to offer significant savings on an exciting Panama Canal Cruise, plus up to 10,000 frequent flyer miles per couple. A nine night cruise, including a week on the remarkably smooth-sailing Radisson Diamond (I can attest to this smooth sail which I experienced last February) and two nights at a deluxe hotel in Costa Rica, starts at \$3,595 per person. But with this deal, the second person sails for half-price. Airfare is free or greatly discounted, depending on where you live. And if a reservations is made by Oct 31, 1995, you'll get the 10,000 bonus miles. The twin-hulled Diamond is one of the most luxurious ships afloat. It carries just 350 guests and many staterooms offer balconies. One-sitting dining and complimentary in-stateroom bar set-up are other nice amenities. Call **Carlson Wagonlit Travel** in Barrington to book, **381-6400**.

### Bag Meals

Airlines continue to experiment with meal service. By the end of this year, American Airlines will offer "Bistro" service on select flights lasting between two and two-and-a-half hours long. Coach passengers will pick up their breakfast, lunch or dinner meal in a bistro bag from a refrigerated display case near the jetway entrance. Juice or water is included. You may have already experienced this service in Atlanta, Baltimore, Dallas, Miami, Tampa, and Washington.

## Welcome Wagon/Newcomers Luncheon

The Welcome Wagon and Newcomers Clubs of Barrington invite you to attend a jointly sponsored luncheon on Tuesday, October 10, 1995, at Biltmore Country Club. A delicious luncheon with choice of entrees will be served. The program features Elvira Sellars, the Iowa Hat Lady, with

her historical hats for every occasion and season. She will regale you with her stories. You will leave feeling as though a breath of fresh air passed through the room. Social hour is at 11 a.m., luncheon at 12:00. Cost is \$23.00. Please call Sharon at 304-8291 for reservations.

## AAUW Announces 1995-1996 Programs

The Barrington Area Branch of the American Association of University Women (AAUW) recently announced its programs for 1995-1996. On October 16, 1995, at 7:30 p.m., several speakers will address the issue of "Hour of Departure: Forces that Create Refugees and Migrants" at the Barrington Area Library. A member of the Chicago Stock Exchange will speak on November 18, 1995, at 7:30 p.m. at the Barrington Area Library regarding investments. In December, the Branch will host its annual soup supper for its members, and on January 17, 1996, the networking luncheon will be held.

On February 17, 1996, the Branch will hold its winter luncheon at the Biltmore Country Club with a dramatization of Eleanor Roosevelt by Marilyn Damell. The first week of March 1996 is Women's History Week at Harper College and will include several events and speakers focused on women's issues. The April 15, 1996, meeting is set aside for the election of of-

ficers and a program by anthropologist Doriann Thompson on "What it Means to Be Human." On May 20, 1996, speaker Shirley Moore, Dealer Principal of Barrington Dodge, Inc., will address female entrepreneurship as well as diversity issues. On June 15, 1996, the Branch will hold its annual Membership Luncheon.

AAUW is a national organization committed to educational equity for women and girls. The AAUW's mission is to promote equity for all women and girls, life-long education, and positive societal change. The Barrington Area Branch sponsors monthly programs, hosts social activities, and is active in the Barrington community. The Branch's study groups include Investment Club, Book Discussion, Computer Club, and Great Decisions. Membership is open to anyone with a baccalaureate or higher degree from an accredited college or university. For more information, call Arlene Martin, President of the Barrington Area Branch, at 708-381-2590.

## Capture Those Memories Of Happy Kids In Great Costumes

You know how many hours you'll spend on that costume, and how hard it will be to keep that little one from sleeping in it for the next two weeks. And then the call from the grandparents and all you can say is "you should have seen them..." A familiar problem, but we can help: **CLIX Photography & Savables** has teamed up with the Northwest Area Arts Council to offer you a unique opportunity to capture the memories and help your school's Art Volunteer Program. We call it the **CLIX BLITZ Halloween Special** and here's how it works.

For \$7.50 you can capture that big day in your children's life, and help benefit the Art Volunteer (Picture Lady) program at your school, and CLIX will donate \$1.00 from each photo to your school's program. Blitz days will run Friday, October 27, 10:00 am-7:00 pm, Saturday, October 28, 11:00 am-3:00 pm, and Monday, October 30, 10:00 am-5:00 pm. All you have to do to participate is call or come by the store to register. **CLIX** is pleased to be helping your school and preserving that Oct. 31st moment.

**CLIX Photography & Savables**, a unique combination of natural portraiture and a wide variety of photo storage systems, opened this October in the Brink Street Market in Downtown Crystal Lake. **CLIX** offers a retail environment for the photo lover to find solutions to displaying and storing their precious memories and

family photos. "Our philosophy is... that photos preserve an important family story about a favorite vacation, great nephew, pet or wedding day," says owner/photographer Ann Nevills. "**CLIX** has ideas for showing your photos as the pieces of your history they are, and the art they can become when displayed with a flare."

Visiting the store is an adventure itself, for **CLIX** is professionally designed by Ethel Nemetz of EN Design Associates, Chicago and Crystal Lake, in an eclectic mix of vintage mantels and other "finds" from long-gone area homes and hotels, blended with high-tech materials and fabrics. Walls and decorative painting details for the shop were done by Ann Waring of Specialty Finishes, Crystal Lake.

Inside the store you will find some clever and unusual solutions for showing off your favorite photos. From attractive individual folio cards that hold little school photos, to archival albums for weddings, to photo storage boxes that keep memories safe and sorted, **CLIX** has an answer to your photo clutter.

Plus! **CLIX** will be holding our **Grand Opening Week** October 16th through the 21st. Come in for refreshments while you're downtown, browse through our one-of-a-kind finds, handmade papers and unique photo keepers, and get a tour of **CLIX... a store for memories.**

## Can't Find That Special Gift?

Are you one of many people who have accumulated stacks of photos that never seem to make it into the photo album? Are you distributing your child's annual photo to family and friends, yet never see them on display? Perhaps your gift of a photo has landed in their stack of memories. We have a way to bring those special memories out into the open.

C & E Publishing will turn your special photos into usable and functional Notepads, Calendars, Stationery, Invitations, Daily Planners and Screen Saver/Electronic Wallpapers. We don't want our customers to pick from pre-selected designs. This is truly a personal gift that reflects the character of its owner. We encourage creativity and wel-

come all of your design ideas.

Calendars are our hot item at this time of the year. We have two styles to choose from. Our most popular being a one page overlay, your photo being the backdrop for the calendar. We are able to choose from a wide array of colors for the calendar overlay that will stand out, yet not distract from the photo itself. Our two page calendar has your photo selections positioned above the blank calendar.

Most print shops won't handle an order under 500 pieces: C & E Publishing believes that no job is too small. For more information on our wide variety of services and for ordering information please call (708) 842-0631.

## Cooking With Herbs, Dried And Fresh

With the advent of fall and the return of a definite briskness in the air, culinary thoughts return to the preparation of heartier meals for families. With that thought in mind, members of the Garden Club of Inverness will focus on the subject of cooking with herbs to enhance meal preparation when they meet on Thursday, October 19, 1995, at 9:30 a.m., at Holy Family Church, 2515 West Palatine Road, Inverness. Ruth Ohlsen, a foods and cooking expert, will discuss a wide variety of foods which benefit from herb seasoning, including vinegars, breads, salad dressings, marinades, pestos, and desserts. She will share recipes and bring food for tasting! With harvest time upon us, find new culinary uses for the fruits of your herb gardens. Learn how basil, oregano, thyme, tarragon, rosemary, chives, sage, and parsley can work magic in your recipes.

Ruth Ohlsen operates a specialty gourmet shop called the Flavor Connection in Glen-

wood, Illinois, where hundreds of food items, unique gifts, and holiday ideas are on display. A garden of herbs, flowers, and vegetables is located in back of her store. She also teaches cooking at park districts, hospitals, and women's clubs.

The Garden Club of Inverness is a member of The Chicago Horticultural Society, District IX of the Garden Clubs of Illinois, Inc., and the National Council of State Garden Clubs, Inc. As such, members work to encourage, advance and stimulate an interest in horticulture through education, as well as supporting an organization that annually awards 40 scholarships of \$4,000 each to students in related horticultural fields. Garden Club of Inverness meets on the third Thursday of the month and membership is not necessary to attend the meetings. Guests are always welcome. For more information, please contact Joan Stearns, Membership Chair, at 934-6522.

## Know Your Diamond Before You Buy

Buying a diamond can be confusing with all the different grading systems out there. In fact it is probably one of the most blind items you will ever buy. When you buy a house, you can have an inspector report its condition. When you buy a car or some other product, you can check with consumer reports. But when it comes to buying a diamond, not many customers walk around with a gemologist in their back pocket.

So when buying a diamond, you need to know more than just the four C's: *Carat, Color, Clarity, and Cut*—you need to know what these words mean. *I've always said that there is a fifth "C" and that is CONFIDENCE!* If you don't have confidence in the jeweler, then the other four C's don't mean a thing.

When you visit **Mitchell's Jewelers** we take the time to show you under a microscope, what to look for in a quality diamond.

Douglas A. Mitchell, Co-owner  
Recipient: GIA Diamond Grading Certificate

## We'd Love To Create A Portrait For You... But We Need A Favor

Dear Readers:

I really don't know what else to say, but "thank you." You have made us the premiere photographic studio of choice in the Barrington area by honoring us with your business. Since our move here only six years ago, our business has enjoyed incredible growth. We are thrilled with your warm reception, and that tells us you like what we are doing. Last year I projected our business would reach a growth plateau in 1995 but that hasn't happened!

With our success however, we find there is a downside. Based on past experience we realize we will not be able to handle all the requests we'll receive for gift portraits in our busiest two months before Christmas. So, we're asking you a favor. *Please reserve your portrait session dates ASAP* if you want portraits ready for the Holidays. Also, if you are interested in family photography for the Thanksgiving and Christmas holi-

day season when families are together, reserve those times now! We are currently building up our in-house staff to better help expedite the processing and completing of orders. I am ready and excited about making your 1995 holiday portraits among the best work I've ever done!

No matter what you are interested in as to location etc., we can help you plan and design that special portrait you've only dreamed of. Our framing gallery has over 1800 mouldings and framing accessories to stunningly compliment not only your portraits but your other varieties of art work as well. For those of you not yet familiar with our studio, please call just to chat or stop by to see the many different things we offer here. To our clients, we say "Thanks a million. You're the best. *We love you!*" **382-8484.**

Sincerely,  
Al Buschauer

## Are You Getting What You Need From Your CPA?

Most individuals turn to their CPAs for help with tax return preparation and personal financial planning. Business owners and managers have typically depended on accounting firms for auditing services, assistance in developing accounting systems, and advice on maximizing operating results.

CPAs can also offer assistance in many areas outside the traditional realms of tax and accounting. For instance, **Detterbeck & Associates** has helped numerous corporate clients re-engineer their company, select computer hardware and software, and develop pricing strategies. In addition, we have worked with many of our individual clients to build college funds, plan for retirement and create estate plans.

Although they meet the same education, training, and licensing requirements, all CPAs do not provide the same services nor share the same commitment to providing value to their clients. How can you tell if your accounting firm is dedicated to you and your needs? Look for these character-

istics.

Value-driven accounting firms:

- Listen carefully to what you say you want, rather than substituting their own ideas for what needs to be done.
  - Tell you, in advance, what they are going to do before work begins.
  - Show an interest in you and your company by offering ideas and suggestions beyond the project at hand.
  - Are accessible and available when you need them.
  - Make you feel like a valued client by keeping in touch, even if they currently are not working on a project for you.
- The above criteria also apply to other professional service providers such as attorneys, doctors and consultants. Despite the service being rendered, your provider's main objective should be satisfying your needs as a client, not just supplying a tax return or conducting an exam.

ism," states Shirley Magner, Program Coordinator. The Club urges other organizations to get involved and support local anti-litter efforts by adopting a highway. By working together, we can make a difference.

## Garden Club Adopts A Highway

The Little Garden Club of Barrington is the first organization to participate in the Adopt-A-Highway program in Barrington.

In 1992 Governor Jim Edgar signed legislation making Illinois the 44th state with an Adopt-A-Highway program.

There are four sections of adoptable highway within Barrington's jurisdiction. The Little Garden Club of Barrington has assumed responsibility for Barrington Road between Route 59 (Hough Street) and Route 68 (Dundee Road).

The Department of Public Works has assisted the Club with application processing, placed signs at each end of the adopted section and provided safety vests, garbage bags and caution signs. Also the Department staff

removes filled garbage bags as soon as possible after litter pick-up takes place.

A very important factor in beginning an Adopt-A-Highway program is the safety training which must be conducted before a group can go out to pick up litter. Training includes a safety video that reviews a common-sense approach to litter pick-up, proper apparel and a review of the rules. Group members are required to wear gloves, hard soled shoes and long pants when picking up litter. The rules must be followed as closely as possible in order to provide the safest program for all involved.

"As the Little Garden Club of Barrington begins its two-year commitment, all members greet each litter pick-up with enthusi-

## Why Replace Missing Teeth?

by Dr. Raymond Kotz

It is important to replace missing teeth for multiple reasons. The obvious is to maintain that great smile, but there are other factors as well. When a tooth is lost, the opposite tooth may move into the newly vacated space.

Teeth on each side may drift, opening contacts between adjacent teeth. Both of these changes allow food to pack between the teeth, irritating your gums. If the shifting continues, teeth will end up at angles which poorly resist the forces of chewing and swallowing.

Food impaction and improperly aligned teeth promote gum disease, eventually leading to additional tooth loss.

Another consequence of tooth loss is facial distortion due to sinking of the cheeks. The chin may jut forward and up, and bags or pouches appear at the sides of the jaw. These are problems of advanced tooth loss, but the progression may be avoided if lost teeth are replaced

early in the process.

We will explore the means of replacing lost teeth in next month's article.

For evaluation of the damage due to missing teeth in your mouth contact **Dr. Raymond P. Kotz** at 708-381-4040, Barrington.

## Estate Taxes

by Sharon L. Keller, J.D.

The beautiful, crisp, cool days of October are upon us. It is a beautiful time of year to enjoy the smell of burning leaves and fresh baked apple pie. It is not a pleasant time to be thinking of taxes, especially estate taxes. But then, no time ever is.

If you are an adult, U.S. citizen, then you are familiar with the federal income tax. In addition to income tax, there are three federal wealth transfer taxes: gift tax, estate tax and the generation skipping tax. The gift tax applies to transfers made during the life of the transferor. The estate tax applies to property owned or controlled by a descendant at his death. Finally, the generation skipping tax ("GST") applies to transfers of ownership or enjoyment of income to someone more than one generation younger than that of the transferor.

How do estate taxes work? To compute your estate taxes, simply add up the value of what you own—including life insurance, retirement benefits, and any businesses—and then subtract your debts. This yields your "net estate." From your net estate, you subtract anything that you leave to charity.

In addition, anything you leave to your spouse will also be excluded from estate taxes, no matter how much. These assets will be taxed when your spouse dies, not upon your death. Often, spouses will leave all of their assets to one another so that no estate tax is due when the first person dies. However, this can be the wrong thing to do.

After subtracting the above stated deductions, you are left with your taxable estate. If this amount is \$600,000.00 or less, there is no federal estate tax when you die. However, if the amount is greater than \$600,000.00, your estate may be subject to

a tax rate that starts at 37%. The tax-free value of your estate at \$600,000 is available for both spouses in a marriage, so if the estate is planned properly, a married couple worth up to \$1.2 million may suffer no estate taxes. A rule of thumb is that estate planning is essential for estates over \$600,000 in value.

Most people are surprised to find out that they are worth far more than they previously thought. When you know what you are worth, be sure to organize your estate documents and let others know where to find them when necessary.

Next month I will discuss the role of Life Insurance, the Power of Attorney and Living Wills in estate planning. In December, the focus will be on Charitable giving. Until then, have a prosperous October and Happy Halloween.

## 1995 Award Winning Children's Books

Each year awards are given for the best children's books in various categories. The Caldecott and Newbery awards are the most prestigious. Caldecott was a children's book illustrator in the 1800's. He is credited with perfecting the blend of illustrations and story line to achieve a high level of literary creativity and stimulation for young children.

The Art Institute of Chicago has a wonderful Caldecott exhibit featuring the artist's original art works and the award winning books. Those of you who go to see the Monet exhibit should walk through the

basement level to see the Caldecott exhibit. "I was very proud to see how many illustrators and authors came from the Midwest," says Elizabeth Jordan Temple, owner of **Jordan Temple Book Center** in Crystal Lake.

In October **Jordan Temple Book Center** features children's books. Stop in to see the 1995 winners. Pick up a list of the winners of years past.

"We have a catalog of new children's books for the holiday season. Call to have it mailed to you, or pick up a copy at the store."

## Build Study Skills For School Success

For many students, back-to-school means new friends, extracurricular activities or sports, and what may seem like an overwhelming amount of homework after months of summer vacation. Homework does not have to be a nightly battle if students can make the best use of their time.

Good study habits and time-management skills are two of the most important abilities a student can have for school success. According to Lisa Nolde, director of the **Huntington Learning Center** in Barrington, one of the biggest problems that students have is learning to study efficiently. "By using an organized, active approach," she says, "students can make the most effective use of their study time." Ms. Nolde suggests the following study tips for busy students:

First, establish a quiet, comfortable, neat study area in your home. Eliminate distractions—one hour of concentrated studying can be the same as three hours of studying amidst noise or interruptions. Schedule a regular study time each night and stick to it—it's important to make studying a priority above other activities.

Being organized is also vital in order to work efficiently. Make sure you're prepared

to study with all the supplies and books that you may need. Write down assignments in a notebook to avoid forgetting due dates or putting off long-term projects until the last minute. Learn how to preview the material, read for details and take good notes. Finally, keep on top of reading—if you allocate one hour for studying and complete your homework in 45 minutes, use the extra 15 minutes to read ahead.

Parents can use these tips to work with younger children on making schoolwork a priority, establishing a time and a place for studying, and teaching them to work independently. For older students, building strong study habits can help them to do their best in school and will carry through for academic success in college as well.

If, as the semester progresses, a student is having difficulty with exams and getting poor grades, it may be more than just a study skills problem. The **Huntington Learning Center** offers individualized testing and tutoring in reading, writing, math, and SAT/ACT prep.

For more information, or to discuss a specific problem, contact the **Huntington Learning Center** in Barrington at 382-3655 or in Buffalo Grove at 459-5939.

## What Is A Certified Kitchen Designer?

While there are many designers who "do" kitchens, only a limited number hold credentials as Certified Kitchen Designers (CKD). Jim Walker, a partner at Barrington Homeworks Kitchen Center, and himself a Certified Kitchen Designer, says, "CKDs work very hard to help you determine what you really want. The plans they show you, the options they describe, the products they recommend, reflect your individual needs. They remember always—this is *your* kitchen."

From the beginning, the back-and-forth exchange of information with a CKD will reassure you. In your initial meetings, the CKD interviews you at great length to discover how you cook and live in a kitchen space. This is the time to share all your ideas—notes and pictures, too.

In a short time, you will review preliminary designs. Together, you and your CKD will perfect the plan and make product decisions.

The CKD will have final plans prepared for your review—including interpretive drawings so you will see what your new kitchen will look like.

Some CKDs offer a design service only. But Walker is affiliated with Barrington Homeworks Kitchen Center and can offer a complete showroom. Both types of specialists submit a clear and complete proposal encompassing all of the work planned. The specifications describe in de-

tail all construction work, cabinetry, countertops, fixtures, wiring, plumbing, lighting. There should be no surprises when you work with a CKD.

CKDs make sure you understand all of your choices during the planning process. They keep up-to-date on new equipment and new construction materials, as well as building codes, safety rules and environmental regulations. They will make sure that your new kitchen meets all standards for safe use by you and your helpers.

CKDs understand budgets and can explain the pros and cons of products as they relate to the required investment. The CKD's sound advice will help you make the right decisions for your new kitchen.

It takes years of training and expertise to earn those coveted CKD initials. It requires the ability to write specifications and draw plans that plumbers, electricians and cabinet installers can interpret. Walker notes that before CKDs can sit for their final exam, they must file affidavits from fellow professionals, letters of reference from past clients, and submit samples of their design work for review by the Societies, the accreditation agency of the National Kitchen & Bath Association.

"The kitchen and bath industry is dynamic," said Walker, "with new products and new technologies constantly being introduced. Keeping up with all this is a responsibility CKDs take seriously."

## "I told them I wanted to remodel my kitchen..."

"So they listened to my ideas; what I needed, what I liked, what I wanted to spend. And I listened to their ideas about design, accessories and budget. Together, we planned my beautiful new kitchen. They did a complete set of blueprints so I could visualize everything and so our contractor knew just what to do. When you want to talk about your new kitchen, I would definitely say to stop at Barrington Homeworks."

## The Art & Spirit Of Native America

**Tribal Expressions** opened in 1992, the year of the American Indian. With a vision of becoming *the* premier North American Indian art gallery in Greater Chicago, owners Rob & Jeri Brooke have dedicated the past three years to compiling an incredible collection of Indian made art and jewelry. With each year the gallery has become more diverse. Unusual items, such as ivory from Alaska, masks from the pacific Northwest and Inuit carvings from Canada all combine to round out their classic native offerings of jewelry, pottery, basketry, and rugs.

In celebration of its third anniversary, **Tribal Expressions** will present the recent work of several outstanding artists and writers. On Friday October 6th, Santa Clara Potter, **Jody Naranjo**, will be in the gallery for a reception from 6 to 9 p.m. Pottery etching demonstrations will continue Saturday and Sunday from 12:00 noon to 5:00. A special appearance by Navajo painter, **Clifford Brycelea** will coincide with Naranjo's visit. Clifford will be showing new watercolor paintings and he will be signing copies of the just released children's book, "Moon, Otter and Frog," which he illustrated. On each of the three days **Tribal Expressions** will be giving away a prize of selected inventory, and every

buyer will receive a complementary buffalo lapel pin.

The following weekend, October 13th, 14th and 15th, **Tribal Expressions** will host Northwest coast artist, speaker, dancer, **George David**. George David will be accompanied by a Canadian dancer **Teyeka**, for a week end of dance and carving demonstrations. On Saturday the 14th, Authors **Karen Hartman** and **Jake Ilko** will be in the store from noon to 5:00 p.m. for story telling and book signing. All events are free to the public. For additional information or directions to the gallery, please call **708-590-5390**.

**Tribal Expressions** is clearly succeeding in its mission of presenting nationally significant contemporary Indian art, and is becoming known as an educator to diverse audiences. Artists are selected with great care and much attention is given to quality and price. Classic work, by nationally acclaimed artists, often rests next to dramatic new designs of up and coming craftsmen. Local buyers visit frequently to learn the provenance of newly arrived work, and many collectors, some from distant states, make special trips to the galleries to meet visiting artists. This Arlington Heights gallery has truly become a reliable source for "The Art and Spirit of Native America."

## Refugees Are Topic Of AAUW October Program

"Hour of Departure: Forces that Create Refugees and Migrants" is the topic for the Barrington Area Branch of the American Association of University Women (AAUW) program on October 16, 1995, at 7:30 p.m. in the Program Room of the Barrington Area Library, 505 N. ## Expertise In Renovations

Now that the hot days of summer are just a memory, thoughts of home improvements may be uppermost in your mind. You love living where you're at and don't want to leave your neighborhood. Your needs and wants in your home have changed through the years and remodeling is the best solution. Your home improvement goals may be focusing on an exterior facelift, room addition or a new kitchen. The next question you ask yourself is "Where do I start?"

The first thing you should do is write down what you like about your home and what you would like to change in it. Get the whole family involved. Ask each person what he or she likes and dislikes about it. Then sit down and decide just what you

would like to do. Look around your neighborhood for ideas and take photos of the things you would like to see done to improve your home. Also, browse through magazines and cut out pictures of things you like. Then contact **Delta Renovations, Inc.** They can help you design your project and let you know if an architect is needed, depending on the size of your home improvement.

**Delta Renovations, Inc.'s** expertise in renovations and their quality workmanship help make your project, large or small, go as smoothly as possible. Stop by or call them to set up an appointment. They will be happy to talk to you about your proposed project.

# Christmas Is Coming Last Call For Holiday Projects

by Ed and Lisa McCauley  
of R. K. Tech

Christmas is a season ripe with opportunities for entertaining and family gathering, and it's not too late to remodel your kitchen or family room for Christmas. We love remodeling for the holidays because it feels like we're giving our clients Christmas presents of wonderful new rooms.

Last month we talked about today's re-birth of kitchen design. The sterile "Euro" look of the eighties has given way to a "sociable" approach to design that emphasizes human values and better unifies the living spaces of the home. At **R. K. Tech** we've worked from the beginning to bring the kitchen into the center of the home, which is where it belongs. We're constantly refining and redefining the newest kitchen design ideas so that they work for our clients.

### Adapting New Ideas

For example, English designers originated

the use of wicker baskets instead of drawers for food storage. The baskets are visually pleasing, easily removable, and allow air circulation so that items like potatoes, onions and garlic could be stored conveniently and out of the way. That idea works great in a lot of places, including the British Isles, where temperatures move in a relatively narrow range; but in a climate like ours wicker baskets are not the whole answer.

In our climate the summer heat and humidity can be strong enough to turn vegetables in short order. Baskets and drawers are still great for onions, potatoes, and other vegetables that survive well without refrigeration, but you also need a place for greens and other fruits and vegetables that wilt in the summer heat. To supplement plenty of dry storage, we often specify Sub-Zero's new series of refrigerated drawers. The cold drawers fit under the counter and keep vegetables close to the cutting area. They also make more space in the main refrigerator.

### Who Does the Dusting?

We love to use open shelves and plate racks, which are visually striking because they provide depth and reveal the dimensions of the room. Ergonomically, open shelves are more convenient because everything the

cook needs is in plain sight and available without the need to open a cabinet or drawer.

There's only one problem: Who does the dusting? When a room is dominated by open shelves, it becomes a maintenance problem; and the way it looks every day often bears little resemblance to the way it is dressed for a photo shoot.

We use open shelves for the things people use frequently. If our client cooks gourmet meals every day, then lots of open spaces may be the best answer. If our client cooks less often, we may specify plate racks just big enough for the every day dishes. Then we open up the room visually with selected glass cabinets and cabinet lighting. Maintenance becomes self-executing, and you retain most of the ergonomic benefit.

### Combining Function and Style

If you want to make your home more sociable, it is important to create a sense of unity within the home itself. Remember, no matter how much function you build into your kitchen, the visual elements are what you will experience the most. Every time you walk into the room, something about the design, the lighting or the appointments has to make you smile. That's where Lisa's architectural background sets

We are pleased to remind you that we are now providing cabinets by Rutt Custom Cabinetry, one of America's premier cabinet makers. *Forbes* magazine has called Rutt America's foremost producer of high end custom kitchens, and we are very excited about the possibilities that Rutt brings to our projects. ## How To Survive A Kitchen Remodeling Project

Are you planning a home remodeling project? While remodeling can be exciting, people often procrastinate remodeling a kitchen because of the mess and inconvenience.

Star Norini, CKD, owner of **Distinctive Kitchen Designs** in Wauconda says, "We try to make the remodeling as painless as possible. As soon as we have finalized the design and cabinets have been ordered for our clients, we begin to work out a realistic plan and schedule for remodeling. We can usually keep the "mess" confined to the

area being remodeled, but what our clients find most inconvenient is being without the use of their kitchens.

Certainly going out to eat is an option. This option can be expensive and even the worst "Junk-food Junkie" will tire of eating fast food for three or four weeks. Instead, we will often suggest an area for a "temporary kitchen". We will move a refrigerator, microwave, and/or electric cooking appliance to an adjacent room. This enables the clients to prepare meals while the new kitchen is being installed. We also suggest that the client prepare meals weeks in advance and freeze individual servings in plastic bags that can be reheated in the microwave and served on disposable plates and cups. Clean up (which can be challenging without a sink) is, therefore, kept to a minimum.

Your friends and family can be a great help during the remodeling. Most clients find that once they announce plans for a kitchen project, dinner invitations follow quickly.

Lastly, Norini adds, I try to describe the remodeling process as realistically as possible. I let them know that it will probably be a difficult time for a few weeks. In that way, they have time to plan, prepare and look forward to their new kitchen.

## Save The Date For Barrington Lyric's Opera Alfresco

*Pictured at the Cuneo Museum and Gardens are Barrington Lyric's "Opera Alfresco" chairwoman Linda Ruder (left), Barrington Hills, and co-chair Kaye Verner, Lake Barrington.*

As the calendar leads us into autumn, the Barrington Chapter of Lyric Opera of Chicago has its sights on springtime and their upcoming benefit, *Opera Alfresco*, an Italian Renaissance Affair, to be held the evening of Saturday, June 15, 1996, at the Cuneo Museum and Gardens in Vernon Hills, Illinois.

Chairing this lyrical evening at an elegant country estate is Linda Ruder, Barrington Hills. Co-chairing is Kaye Verner, Lake Barrington.

## Space—The Final Frontier

"Space"—the final frontier. That's how the popular T.V. program begins. Today "space" is being brought under control by **Closet Masters**. They have brought the concept of custom closets to the Northwest Suburbs. Locally owned and operated, **Closet Masters** will come to your home to help you identify your needs and give you a free estimate as to cost.

Have you ever heard this warm comment from your mate? "Don't you dare buy another thing until you get rid of something in this closet!"

"When people take control of their "stuff" instead of their "stuff" controlling them, it brings into their lives a whole new sense of comfort" says Jerry Klosinski, of **Closet Masters**.

"We have toured a number of new home developments. Finding that while the build-

ing industry has tried to keep up with the new ideas in closets, it is not profitable for them to customize each home. That's where we come in. We spend time measuring and talking with families to create a space especially for their use."

Moms especially like the adjustability for children's rooms. The closet rods can be changed as the child grows.

Men like the double hanging for their suits, shelves for shoes and the special belt and tie racks.

Kids love the many size baskets to store treasures, and shelves that are at their level.

Women find the new "Shoe Cubbies" for their shoes a way to keep 30 pairs of shoes in a 24 x 25 inch "space."

Drawers are available in different depths, Jewelry inserts are also available in lucite or felt.

## Seminary, Cardinal, Honor Lamb

*Joseph Cardinal Bernardin presented the Couple of the Year Tribute to Rose and Matt Lamb, in recognition of their community leadership, on behalf of Mundelein Seminary and the University of St. Mary of the Lake.*

At an Evening of Tribute in the Gold Coast Room of Chicago's Drake Hotel, hundreds gathered to honor a bishop and funeral home executive. They also honored their beloved shepherd, Joseph Cardinal Bernardin, who spoke about the need for vocations and the tremendous responsibilities of a public life of spiritual leadership.

Bishop Gerald F. Kicanas was ordained a priest in 1967 and after a distinguished career in parish work and religious teaching, became Rector of Quigley Preparatory Seminary. He was then named Rector of St. Mary of the Lake Seminary in Mundelein until his appointment this year as Auxiliary Bishop of Chicago by Pope John Paul II, earlier this year. His area of service now includes Lake County and the northwest suburbs of Cook County.

Matt and Rose Lamb have lived their entire married lives for more than 40 years in service to grieving families, and in volunteer work to strengthen the communities that surround Blake-Lamp Funeral Homes.

As devoted Christians, they worked especially with educational and health care institutions to further the message of family strength. In the second half of Matt's life, critical acclaim and international recognition have followed his self taught art career. Many private and public collections retain his work. Since part of his artistic message is tolerance and understanding, and increased communication between Christian, Muslim and Jewish faiths, paintings by Lamb are in the Vatican Museums of Modern Art in Rome, the Spertus Museum of Judaica in Chicago, and the collection of Bishop Michel Sabbah of Jerusalem.

In recognizing the Lambs, Joseph Cardinal Bernardin did some lighthearted teasing of his own. After acknowledging that the couple had been twice knighted by the Pope, the Cardinal asked the audience if they had seen the paintings—and whether they could believe such vivid color and bold composition could actually be attached to a man with such a somber background...

## Guide To Spot And Stain Removal For Carpets & Upholstery

**Duraclean by Zazula** has the reputation and credentials of extraordinary carpet, upholstery and drapery cleaners. Owner, Bill Zazula credits this high regard to training, professionalism and a dedication to quality workmanship.

Integral to his services are spot and stain removal. Most of the more difficult stains he is employed to remedy could have been removed, or at least not made worse, by proper first aid by the home or business owner. Mistreated spots and stains can become permanent due to color change, damaged fabrics, water marks, etc.

Bill Zazula does not profess to have all the answers, but following are some tips that usually work:

1. Act quickly when something is dropped or spilled.
2. Blot up liquids with clean, white absorbent cloth or paper towel.
3. Scoop up semi-solids with a table spoon.
4. Shatter solids with a sharp blow of a table knife handle and vacuum up all loose material.
5. Pretest spotting solutions in an inconspicuous area to make certain they will not damage the carpet, upholstery or the dyes in these.
6. Apply spotting solutions in small

- amounts in the order listed and blot thoroughly after each application. Take care to avoid over-wetting.
7. Do not rub or scrub! Start at the edge of stains and work solution in gently using a Q-tip, old toothbrush or folded soft cloth. Blot between applications and repeat until stain is removed or no further change occurs.
  8. Towel dry, sprinkle with talcum powder, let dry overnight, brush and vacuum. Another technique is to cover the area with a one-half inch layer of white tissue and weigh down with a book. Change the wet tissue after an hour and allow to dry overnight with book on top of tissues. Remove with a brush of moderate stiffness.
  9. When in doubt, call us for professional help.

On request, **Duraclean by Zazula** will send you an elongated guide to spot and stain removal. Using readily-available solutions, i.e. Dry Cleaning Fluid, Nail Polish Remover, Detergent Solution, Water, Ammonia Solution and Vinegar Solution, this guide suggests procedures for 45 common stains and spots.

This guide will be mailed to you at no charge or obligation by telephoning **Duraclean by Zazula** at 708-438-3993.

## Increase Your Garage Space

There are many ways to increase garage spaces. However, there are also a number of important factors to consider. Available space, aesthetics of the surrounding area including your home, construction permits, construction dirt and dust, and total cost of the project. And if all of the above goes well you may end up with a garage that transformed your beautiful home into an institutional looking facility. **Circle Affiliated Systems, Inc.** can help you to eliminate all of the above problems with the CAR-LIFT parking system. With more than 20,000 installations world wide the CAR-LIFT design has proven itself in the industry as the safest and most adaptable to fit existing garages. The CAR-LIFT can be installed in 5 hours without any structural changes in the existing garage, except

in some cases adjusting the garage door.

**Circle Affiliated Systems** uses computer aided design (CAD) to insure that all CAR-LIFT installations will fit the specific requirements. Let CAS help you with storage and parking problems.

## Pick A Shade That's Perfect For Your Lamp

"Few people realize the difference a shade makes," says Jeff Woodale, owner of **L & W Lamps**, as we walked through his Barrington Store. "The fabric, the pleating, the shape and size all play a key role in how your lamp shows off to its best advantage. And how it matches the mood of your decor... not to mention how much and what kind of light it will give the room... and of course, you have to consider safety—some shades are only safe with certain bulbs..." Clearly, I needed the help of a professional.

"First of all, bring in your lamp. This way we can balance the proportions... show you how different fabrics dress the lamp up for a more formal look, or make it more casual to fit a more relaxed setting. Fabric—and colors, too—influence the light level a great deal, so we would recommend different shades for a lamp used for reading, than one used to give a cozy corner a soft, warm feel. Plus, certain shades accept only bulbs up to a particular wattage... again, you have to balance the use you have for the lamp..."

## Key Ingredients Are Function and Aesthetic Beauty

With function and aesthetic beauty being key ingredients, **Griggs** can custom design that unique look for your special needs. Since drapes can "make or break" your room each treatment needs consideration. Every room has a definite function and every home has special features. So let Pat and Barb help you with their 20 plus years of experience in the field.

Railroaded poor boy swags can be ideal above the hard-to-design patio door giving a casual yet complete look. Swags can be accented with corded tabs, multi-colored knots or rosettes. Accent colors can be repeated in sofa throws and pillows using buttons, bows and shirred jumbo cording.

The toss over swag treatment is especially effective when used with a brass, mauve, (Please continue on page 42)

## An Exciting Home Addition

In addition to providing custom room additions with bathrooms, kitchens and fireplaces, **Armcor Design and Build** is your local store for **Four Seasons**, the nation's largest manufacturer of greenhouse/solarium-type room additions for residential and commercial applications.

Each **Four Seasons** product is meticulously designed and crafted to be a practical, beautiful, and exciting home addition that will bring a new dimension of space, light and warmth to what might otherwise be an ordinary room, whatever the season or location of your home.

## Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Solar Gard residential films are now backed by a lifetime warranty. Solar Gard films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, displays, etc.

Solar Gard also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning

less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with pressure sensitive adhesive. The adhesive bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, burglar, etc.

**Glare-Not Inc.** has provided savings and security for 8 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard films are backed by a lifetime residential warranty. References are available upon request.

## Save Now On Painting Your Home

Bill Schafer—President

Let's face it, nobody enjoys sifting through the mounds of bills you get during the Christmas Season. Gifts, entertaining and more gifts... it all adds up. Tack on your heating bills and it can really put a crunch on your monthly budget!

**Schafer Builders, Inc.** can help relieve some of the budget pressure this winter season by installing energy efficient, beautifully decorative windows for your home. Keep in mind that if you're considering new windows for your home—whether replacements or new units for an addition—**Schafer Builders, Inc.** will help you select the best windows for your home. Window technology is progressing rapidly. A new generation of windows is available that prevents fabric fading, obstructs vandals, and reduces heat loss almost as much as a wall. Keep in mind that almost one quarter of your home's annual energy use is just to make up for wintertime heat loss (and summertime heat gain) through windows. By replacing inefficient windows, you can save money on your heating and cooling bills.

Deciding which type of window to buy has become more difficult. It's no longer just a matter of deciding between different styles and prices—you now need to decide which type of glass to use. And it increas-

Joe Schafer—Vice President

ingly makes sense to order a different type of glass for one side of your house than another.

On the south side of the house, if you want to benefit from passive solar heating, it makes sense to choose windows with high total solar transmission or high shading and relatively low R value.

On east and west windows, where overheating can be more of a problem, look for windows with lower total solar transmission or lower shading. For south-, east-, or west-facing skylights, look for the lowest shading windows if overheating may be a problem. Tinted-glass or sun-control glass may even be advisable in southern climates.

For the north side of the house, buy windows with the highest insulation value available. One of the new super windows would work well. If security or sound control is an important issue, look into laminated safety glass as the outer layer of insulated glass units.

Your home is about to take a beating this winter. Protect yourself from the bitter winds while saving valuable heating dollars in the process. Contact **Schafer Builders, Inc.** at 815-459-1333 for complete information on how you can save money this holiday season.

## Quality Cabinetry And Solid Surface Countertop Specialists

Lamico Designers was born in the early 1970's with sights firmly set on the future and with a vision of supplying high quality cabinets at affordable prices. We have three modern showrooms which are located in Arlington Heights, Deerfield and now in Barrington.

Jim Kill, award winning designer, wanted to show what is available with regard to kitchen products and what can be done with these products. To do that, Jim formed a team consisting of the firm's designers and fabricators to help guide the overall space planning, product selection, accessorizing and color choices on the displays in Lamico's new Barrington location.

Nothing can date a kitchen like harvest gold formica, drab cabinets and dark, old linoleum floors. Now is the time to update your kitchen with new cabinets and countertops. Lamico, specialists in Corian, Fountainhead, Avonite and Surell countertops, has invested in special equipment to be able to custom build your solid surface countertops.

Lamico Designers uses specialized computer software so their customers can see exactly how their new dream kitchen will look before it is installed.

If you are considering a new kitchen pur-

chase, please remember this: Over your lifetime you will spend almost twelve years in your kitchen—make the best of it.

Broker/Manager  
Barrington Office

The Prudential   
Preferred Properties

Walking your own acreage on a soft summer day, admiring the rainbow of colors in the flower beds, and breathing in the fragrance of roses and lilies is certainly one of life's great joys. And so is orchestrating all that beauty. Coaxing the shrubs. Nurturing the lawn. And for some people, it will always be a joy.

But for many others, it eventually becomes a burden. Especially if the house is large and—however charming—old enough to require a lot of attention. There is a breaking point. Have you reached it? If the answer is "Yes!", it's time for a lifestyle review.

Do you want to stay in a single family home—only smaller and newer? Would you like the exterior maintenance to be the responsibility of a homeowners association?

Do you golf? Play tennis? Swim for fun

or fitness? Perhaps a townhome in a golf community with a clubhouse and a whole menu of amenities would make your life a delight again.

Are you a "water person?" Would a body of water sparkling in the sun and lapping at the shore be the location of your dreams? Does a lakeside (or oceanside) condo sound idyllic? Here? In California? Florida? Mexico? Or beyond?

In our Barrington office of **The Prudential Preferred Properties** we have information in all these categories that we will happily share—and we have experienced Realtors who are able to discuss the pros and cons of the alternatives and help you arrive at the right decision for you.

Call us at **382-3600** to make an appointment—or just drop by. You owe it to yourself to explore your options now. With us. At Dream House Headquarters.

## Avoid The Fall Rush!

As the summer activities come to a close many folks are considering remodeling their home or building a new one this Fall. "Now is the perfect time to call an architect to discuss your building plans," says John C. Cazzetta, President of **Kemper Cazzetta Architects** in Barrington. The design process can take several weeks, and when complete, the permit and bidding process can add an additional two weeks. This all means that construction probably will not start until at least two months after your initial consultation with your architect.

"We urge our clients who are considering construction this Fall to begin to discuss their design thoughts with us as soon as possible. The 'Fall Rush' occurs in late September through October, which means construction may be forced to start after the Holidays! We try to get our foundations in before the frost sets in January." Once this occurs, then construction is not a problem throughout the winter months. Cazzetta adds, "It is actually desirable to build in the Winter. One reason is the increased availability of quality contractors and the de-

creased costs of building materials in the off season. Another reason is that your project will be completed in the late spring, so that you may enjoy the new structure during the warm seasons."

If you are thinking of creating or revising your home this year, then please call John C. Cazzetta, at **Kemper Cazzetta Architects**, at **382-8322** for a free consultation. "We specialize in residential architecture, and would enjoy showing you our portfolio."

## Now Is The Time To Be Purchasing A Snowblower

Snowblowers, tractors, riders, walk behinds, all the latest in lawn care equipment and accessories in name brands can be found at **Reed Lawn & Leisure** on Rand Road. These lawn care experts suggest you stop in, browse around, ask questions, and purchase your favorite Simplicity, Snapper, Toro, Honda, Echo, or John Deere. And at **Reed Lawn & Leisure**, they not only sell the equipment but they also service it.

Remember last winter when there were no snowblowers available. The supply is

limited again this year, so it would be wise to purchase a snowblower now before they are gone. All are now on sale at pre-season discount prices.

It is also a great time to have **Reed Lawn & Leisure** service your snowblower with a tune-up to make it ready for winter. Also, winterize your mowing machines now for winter storage. Call for pick-up and delivery of your machine.

Stop by **Reed Lawn & Leisure** located on Route 12, Rand Road, or call 438-5220.

with the setting it will be displayed in... and then find the one that works with the lamp's design and suits your taste..."

My head was starting to spin a little. But as it turned out, as long as you have an expert guiding you through the choices, the process isn't all that confusing—and quite a bit of fun to boot. And speaking of choices: the aisles at **L & W Lamps** are stocked floor to ceiling with some of the most beautiful shades available today. To top it all off, **L & W Lamps** also carries a collection of beau-

tiful and quite unusual finials, adding a special touch to the final creation.

And through the month of October, you can get a special price break, too: buy one shade—get the second one at half price (of equal or lower price)! (So go and get those new shades soon...) **L & W Lamps** is located at 710 S. Northwest Highway in Barrington. Open 9 a.m.-5 p.m. Monday, Tuesday, Wednesday, Friday and Saturday; 9 a.m.-7 p.m. Thursdays; closed Sundays. Telephone 708-382-3195.

## From A Woman's Point Of View

by Gail Wickstrom, Wickstrom Ford

Sandy Hawkins, one of our receptionists, was just talking about how crazy it was around here Saturday. Normally I would say we have one of the nicest group of customers you could ask for, but Saturday it was like everyone had gotten up on the wrong side of the bed. But there is an explanation for this phenomenon; we call it the full moon syndrome, and there was a big, gorgeous full moon on Saturday night.

The key to dealing with the "full moon syndrome" is to have a keen sense of humor. Of course, a keen sense of humor is necessary quite a bit of the time anyway.

Saturday was Andrea Larson Jones' last day. I wrote about Andrea a number of years ago. Andrea started working here when she was 17. After nine years she's leaving because she got married and her husband, Sonny, has a new job out of state.

We'll all miss Andrea, but I'm sure Andrea won't miss "full moon Saturdays."

## Scotty's—Groceries On Wheels

Just don't have time to get to the grocery store? Hate those long, frustrating lines? Difficult taking the kids? **Scotty's Home Delivery** can help. We have been in business for over four years now, servicing the grocery needs of people just like you. We service 45 north and northwest suburban communities, with a customer base nearing 2,000 clients. Best of all, you pay grocery store prices, with only a nominal delivery fee to have them brought to your front door! Our average delivery fee is only around \$3.00!

All of our customers receive a price book with the nearly 5,000 items that we carry. It includes all of your favorite name brand suppliers, and an assortment of specialty items that you won't find at the grocery store, such as fresh butcher meat and seafood, whole grain breads from the Bread Barn, fresh baked goods from a local bakery, and the finest of fresh produce we receive in daily.

Ordering is very simple. You can either call in or fax in your order, just indicating the item numbers you would like to have delivered. We will give you a total due for your delivery, and you can pay by check

or credit card. The great thing is that you don't even have to be home to accept delivery (around 50% of our customers are not). We can do this because we deliver all of our refrigerated and frozen items in Igloo coolers with ice packs, so even ice cream stays frozen while your groceries await you. The dry products are delivered in waterproof boxes with lids on them. We will work out a convenient place with you to leave your groceries if you are not going to be home, and they will be waiting there fresh when you arrive. If you are going to be home we will unload them on your counter for you. It's that simple!

This is not a club of any kind, we are simply a grocery store that only delivers. You order when you want (Monday through Friday) and however much you want. We guarantee 100% the quality of all our products. To receive an information pack describing the service, including a complete price book, just give us a call at (708) 726-8897, and we would be happy to send one out to you. Isn't it about time you enjoy your free time and spend your discretionary time the way you want to spend it? Let us help! We look forward to hearing from you.
