### Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 20 years of service at the same location.

January, 1996

Dear Reader,

Another year gone by! We hope 1996 holds much happiness, good health and more for each one of you as we meet the challenge of a fresh, new year.

The Barrington Youth Dance Ensemble (BYDE) had another great year. By all accounts, their recent production of "The Nutcracker" was a sold-out success. Isn't it wonderful to have so much talent within the community.

Another recent success was the Infant Welfare Harvest Ball held at the Inverness Country Club. Co-chairing this lovely late autumn gala was Maggie Powell and Arlene Breuder. This event marked the 27th Golden Harvest Ball and netted over \$17,000 for the Infant Welfare Clinic in Chicago.

Mark February 3rd down on your social calendar so as to be sure to attend the "Thank Heaven for Little Bears Dinner Dance." This glittering event will take place high atop Sears Tower... cocktails on the 100th floor, a six-course dinner, dancing and more. Last year's honorary chairs were Barrington's own Gary Fencik and his wife and they'll be attending again this year as well. Hosted by Bear Necessities Pediatric Cancer Foundation, the raised funds will go toward pediatric cancer care including research.

Until next time, may all your thoughts be sunny.

With warm regards,  
 Glenn McMonigal  
 Editor, Lifestyles Magazines

## The Nutcracker A Sold-Out Success

Pictured following one of the four sold-out December performances of the Barrington Youth Dance Ensemble's (BYDE) second annual presentation of *The Nutcracker* are, from left, BYDE Artistic Director Mary Brennan, Leslie Meils and Megan Brennan from Barrington. Leslie and Megan interchanged dancing roles of the Snow Queen and the Dew Drop Fairy.

Celebrating after the performance was the Gumowski family from Barrington: David, daughter Jessica and Mary Jo. Jessica danced the role of Coffee in Act II. During the party scene, Mary Jo danced the role of a guest from Arabia.

Shannon Bullenfrom, Rolling Meadows, center, danced as one of Mother Ginger's BonBons. Clockwise from left is stage manager Lee Potter-Murray from Barrington; choreographer Greg Merriman, who danced as the Nutcracker Prince, from Normal; and assistant stage manager Elizabeth Gullum from Lake Barrington. Lee and Elizabeth chaired last summer's beautiful annual Garden Party Benefit. For information on the BYDE, please phone (708) 382-6333.

Please give Nancy a call at 705-5322 and join us on January 24, 1996 at 10:30

A.M. Transportation will be provided if desired.

The Welcome Wagon Club of Palatine is closing out their cookbooks, *A Wagonload of Goodies* for \$5.00. They are perfect for those occasions when you want to take a little something to the hostess. ## Richard Duchossois Saddles Up For Catholic Charities

Catholic Charities is very pleased to announce that Richard L. Duchossois will serve as honorary chairman for their seventh annual "Hearts for the Homeless" (families in transition) benefit on Sunday afternoon, February 11th.

With Mardi Gras as its theme, the Cotillion in Palatine (Routes 53 & 14) will be resplendent in a joyful riot of purples, greens and gold. These are the color symbols for justice, faith and power, representing the true spirit of Mardi Gras where people of different races and religious backgrounds "get along together and feel good to do some good."

In that spirit, "Let's all go to the Mardi Gras." Join in the fun. Dress like a crawfish, unicorn, swamp dragon or just be comfortable in Sunday attire (there'll be party masks). Enjoy a lively silent auction, be trumpeted into a feast from creole crumpets and seafood gumbo to King cakes (not too spicy—vegetarian pleasures available), and

Richard L. Duchossois will be honorary chairman for "Hearts for the Homeless."

spectacular live auction.

In the efforts to increase the crowds for charity (Mardi Gras belongs to everyone), the committee has worked diligently to keep the cost at \$50 per person. In the spirit of Mardi Gras, mock-royalty tables of ten are available: The Captain's at \$2,000, the King's at \$1,000, and the Queen's at \$500.

The Mardi Gras carnival begins on Twelfth Night and lasts until midnight on Mardi Gras (French for Shrove Tuesday), a tradition that dates back to ancient times to ensure the fertility of animals and crops. The Mardi Gras happens exactly 46 days before Easter. Since Easter doesn't fall on the same date each year, the Mardi Gras carnival can last four weeks in some years or as long as eight weeks in others. Unfortunately, the upcoming Catholic Charities' Mardi Gras celebration will last only a few hours. With many financial and volunteer goals to meet, benefit chairwoman Sue Langowski, Palatine, hopes the Mardi Gras magic of this year's "Hearts for the Home-

less" will continue for many months.

"All proceeds from this benefit will be used to support the Family Shelter program by placing homeless families with children in apartments to help stabilize their lives while they seek employment, education, and receive counseling. The Family Shelter is just one of fourteen Catholic Charities' programs in the northwest suburbs which helps with love and care for all people regardless of religious, racial, nationality, and economic backgrounds," reports Stephen O'Brien-Combs, Regional Services Representative, Northwest Suburban Services based in Rolling Meadows.

More information coming... Keep watching for exciting details on *The Bishop*, a *Chicago Bear* and St. John's and Northwestern Military Academics' *Herald Trumpets*.

For information on the Mardi Gras Celebration and The Catholic Charities Northwest Suburban Services and how they may help you or someone who needs help, please phone Sr. Jenny 708/870-0560.

## Art Associates' "Chicago Potpourri" Bus Trip

*Tiffany Dome of Marshall Field's State Street Store*

The Auditorium Theater and Marshall Field's State Street Store are the focus of the "Chicago Potpourri" bus trip sponsored by the Barrington Community Associates on Tuesday, January 18th.

In the morning participants will tour the Auditorium Theater, the national historic treasure designed by the firm of Dankmar Adler and Louis Sullivan. The mosaics, social history, and repetitive motifs will be discussed.

Built in the late 1880's, the Auditorium Building originally housed 136 offices and stores, 400 rooms and other hotel facilities,

a 4200-seat theater, and a 500-seat recital hall.

After the turn of the century the Chicago Auditorium became unprofitable and began a downhill spiral. In 1946 Roosevelt University purchased the badly deteriorated physical plant. In 1967 the theater reopened following years of painstaking rehabilitation.

Lunch will be served in the famous Walnut Room of Marshall Field's, followed by a tour of Field's, a structure listed on the National Register of Historic Places.

## A Visit To Longwood Gardens

Now that the holidays have passed and winter has settled on the land, the members of the Garden Club of Inverness will attempt to shake the January "blahs" with a trip, via slide projection, to Longwood Gardens. Located 30 miles west of Philadelphia, near West Chester, Pennsylvania, Longwood Gardens is America's premier public display garden, a country estate garden of the 1920's, is a celebration of horticulture, architecture, music, and theatre.

Longwood's history dates from 1700 when the property was sold to the Peirce family by fellow Quaker, William Penn. In 1798, brothers Samuel and Joshua Peirce began collecting and planting trees in a small arboretum that became known as Peirce's Park. Pierre du Pont bought the

property in 1906 to save the trees when they were about to be cut for timber.

Pierre S. du Pont (1870-1954), was Longwood's owner and architect. As he developed the property, he continued the Peirce tradition of welcoming the public to share its beauty... and beauty abounds! Longwood will delight anyone who loves exquisite flowers, majestic trees, and opulent architecture. Located on 1,050 outdoor acres and 20 indoor gardens, one can enjoy the 11,000 different kinds of plants, spectacular illuminated fountains, roses and orchids in bloom year round, and, as if that isn't enough, the public can attend 400 performing arts events each year in the Open Air Theatre.

If you are unable to travel to see this

wonderland in person, then come to the next meeting of the Garden Club of Inverness, (a member of Garden Clubs of Illinois, Inc.), on Thursday, January 18, 1996, at Holy Family Church, 2515 West Palatine Road, at 9:30 a.m. After a short business

meeting, refreshments will be served, followed by the program. Membership is *not* necessary to attend and guests are always welcome. For more information about the club, contact Membership Chair, Joan Stearns, at 934-6522.

## Welcome Wagon Luncheon

The Welcome Wagon Club of Barrington will begin the new year on Tuesday, January 16th, at the Barrington Country Bistro located at The Foundry, 700 W. Northwest Highway. The social hour will begin at 11:30 AM with a cash bar. The delicious luncheon will include the soup of the day, a salad of mixed greens with poached chicken and basil vinaigrette, lemon tart with blueberry coulis, coffee and tea.

Following lunch, Judy Tomaras, will dis-

cuss aroma therapy, a form of alternative medicine that has been practiced since ancient times. She will describe how oils enhance your senses, relieve stress, improve memory, and even tell us how to make a natural mosquito repellent. Ms. Tomaras is a certified aroma therapist.

The cost is \$16.50. Please call Maryellen at 381-6168 or Sharon at 304-8291 by Friday, January 12, 1996, for reservations and information.

## January Clearance Sale At Mitchell's Jewelers

During January *Mitchell's Jewelers* is having a store wide **Clearance Sale**, offering **20% to 50% off** on almost all items in the store.

Enjoy fantastic prices and a wide selection of beautiful jewelry including watches, gold chains, earrings, pearls and rings with all the precious stones—diamonds, emeralds, rubies, and sapphires.

*Mitchell's Jewelers* was started in 1969

and has been at its present location in downtown Arlington Heights since 1984. During this time we have become one of the largest jewelers in the area. We do much of our own manufacturing on premises and also do jewelry repair, stone setting and custom hand-wrought jewelry.

*Mitchell's Jewelers*, as always, will take the time to educate you in what to look for in quality merchandise. We stand on our 26 year reputation of serving the community with honesty, integrity and fair pricing.

Buying a diamond can be confusing with all the different grading systems out there. In fact, it is probably one of the most blind items you will ever buy. So, you need to know more than just the *four C's*: *Carat, Color, Clarity, and Cut*—you need to know what these words mean. I've always said that there is a fifth "C" and that is *Confidence!* If you don't have confidence in the jeweler, then the other four C's don't mean a thing. When you stop by *Mitchell's Jewelers* we take the time to show you under a microscope what to look for in a quality diamond.

So I would like to invite you to visit *Mitchell's Jewelers*, where old world craftsmanship and honesty are our only policy. A great time to visit would be during our **January Clearance Sale**.

Tutors needed to volunteer with LVA-Elgin. Two programs are offered: working with adults who are functionally illiterate or who have limited English skills. Orientations explaining programs will be conducted on

first Saturday of month. Next orientation will be January 6, 10:00am-11:00am at Gail Borden Library in Elgin. Call 742-6565 for information.

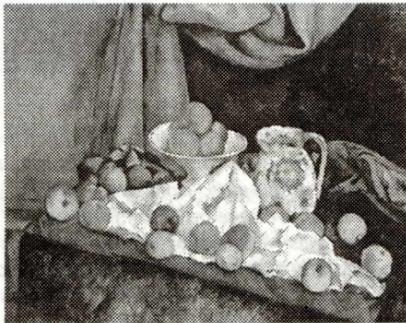

## Art Associates Lecture

Lanny Ori will lecture on "The Barnes Collection" at the Barrington Library on Thursday, January 25, at 1 p.m.

The legendary art collection of the idiosyncratic Dr. Albert C. Barnes includes a number of superb Impressionist masterpieces and has, from the beginning been locked away from public view, accessible only to a very few.

A recent court order resulted in the collection being available for a one time only international tour. "Great French Paintings from the Barnes Foundation" drew record-breaking crowds in Washington, D.C., Tokyo, Paris, Fort Worth and Toronto, and featured many of the most important works of Cezanne, Matisse, Renoir and Van Gogh.

All are welcome to attend this free slide lecture.

## When Any Old Wedding Album Just Won't Do—Get CLIXed

More News From Gal Friday

Pheew, the holidays are over! And thank goodness we're on the other side of winter solstice. Honestly, what kind of way is this to run a world? Maybe I should move someplace on the equator. Does the sun always come up and go down at the same time there? It's really tough to put up with this dark at 4:30 p.m. stuff, isn't it?

But now we have to think spring! You know, tulips and apple blossoms. And weddings. (Notice how I got that in?) Let's talk weddings... and gifts. It's not just that **CLIX Photographs & Savables** has albums, frames, guest books and ideas, but that they are leather albums, elegant frames, handmade guest books and terrific ideas! You can give 'em as gifts or put them on your wish list..

Trust me honey, with this place you're just not gonna go wrong. Unlike my Uncle... whatever made him think we'd like a clock shaped like a golf green for our wedding—with golf balls marking the hours?

Anyway, back to your "big event." Wouldn't you rather have something done

with handmade paper and unique details? Or those special albums that are usually only available as part of a photographers package? **CLIX** has them for you now! And **CLIX** has some great do-it-yourself albums for those people who are creative and want a special look. (Just the thing for those long winter nights.)

One of the gals here put together a series of albums for her sister. There was one for the pre-wedding highlights—the showers and gifts, and one for the "Big Day," then a third for the honeymoon. They're pretty good here with the creative picture ideas. Of course, I've got quite a flair, too, but they haven't asked me to do any of that... go figure. Another idea they had was putting wedding photos of the whole family tree in one album. (But I'm not putting my photo near my grandmother's wedding photo. You should see the tiny waist on that woman!)

You know what I learned since I started working here? Pictures don't have to be boring or ordinary. They can be a real asset to your decor. They give your home a special touch, and **CLIX Photographs & Savables** can give you the ideas for displaying and preserving them.

This month's ad shows some wedding photo "options." I put a few notes on it again. Oh, and thanks to the person who came in and said she liked the ad last month. It really helped smooth things over with the boss!

## Barrington Jr. WC Planning Fashion Show

With cold days ahead, there are still a group of women planning for warmer times. The Barrington Junior Women's Club has set April 20th as the date for its Spring Fashion Show, now in its ninth year. The lunch and extravagant production are always a sellout, and the committee is now in the process of accepting silent auction donations, and underwriters. Revenue generated will provide financial support for scholarships and invaluable nonprofit organizations and projects. This event traditionally supplies over half the funds distributed annually by the Barrington Junior Women's Club.

Erin Kelly, silent auction chairman, noted, "There was an outpouring of sup-

port from the community last year, with the number and variety of items surpassing our expectations. We thank contributors in advance for continued support of this major fund-raiser." A variety of services and items are welcomed from both businesses and individuals. All donations are tax deductible. Businesses or individuals who wish to contribute an item are asked to contact Erin at (708) 304-8868 by March 15th.

For further information, contact Lisa Kaiser at (708) 884-0642. Deadline is February 23rd.

This professionally produced show and luncheon will be held at the Cotillion in Palatine.

## Traveling . . . with Carlson Wagonlit Travel

### High on Switzerland

The Jungfrau region of Switzerland ranks as one of the world's most scenic and a railway trip up the Jungfrauoch, a mountain peak that reaches over 11,000 feet, remains one of the highlights of any trip to Europe. This narrow gauge train actually travels inside the mountain via a tunnel, and no matter what the weather down in the valley, you're likely to experience something quite different—even a blizzard—once you reach what is billed as "The TOP of Europe"—the highest railway station in Europe, probably the world. Combine your visit with skiing in and around Grindelwald, one of Europe's most scenic villages. On your return home, take the train from there to Interlaken and then to Montreux and Geneva. If there is a more scenic rail journey anywhere in the world, we'd like to know about it. Your CWT travel agent can arrange it all, including Eurailpasses or a Swisspass, which allows eight days of first-class rail, bus, ferry, and even a subway travel in Switzerland for one low price.

### Chunnel Train Makes Gains

More than two million passengers have used Eurostar trains through the Chunnel between London-Paris and London-Brussels, according to Rail Europe, the leading distributor of European rail passes in North America. As a result, air traffic is down on the popular London-Paris route (and prices have also fallen since air travel has lost most of its time advantage). The French railroads predict that 25 % of passenger traffic between Paris and London will be by rail in 1997-98.

### Tracking Those Miles

Naturally, there's software for managing your frequent flyer miles. FTM Air Max (\$49.95, 800-386-2476) can be downloaded directly from CompuServe.

Enter airports you're using, cities where you need hotel or rental car, and the frequent flyer programs you belong to, and the software will calculate mileage, including any bonuses. And to track miles outside cyberspace, a recently-arrived newsletter will keep you up-to-date on frequent flyer programs worldwide: Mileage and Points International, (\$23.95, 602-482-1624).

### New Senior Hotel Deals

Seniors will want to check out Hilton International's new "Senior Passport" program which offers rates of \$79 per night at 18 locations in Canada and the U.K. plus several in Asia, the Caribbean, and the Middle East. Rates go as high as \$149 in London, Paris, and Milan, but these are still excellent deals. These rates do not include taxes, and are subject to availability and other restrictions. Call **Carlson Wagonlit Travel**.

### More "Lift" to Hawaii

If you've experienced difficulty using your frequent flyer miles for a flight to Hawaii, join the club. So great is the demand and so few the allocated seats, it is not uncommon to wait up to a year. Some relief may lie ahead, however: United plans to add 9,000 seats to Hawaii beginning in March. If the past is any indication, about 5 to 10 percent of these seats will be set aside for frequent flyers.

### Dining for Miles

If you haven't already joined American Airlines' AAdvantage Dining Program, do it now (800-267-2606). You'll get three frequent flyer miles for every dollar you spend at participating restaurants nationwide. Plus, if you dine three times between Nov 1 and Jan 31, 1996, you'll get 1,000 bonus miles; dine 10 times and earn 5,000 miles. Some of the best restaurants in the country participate. Another way to get miles even if you never fly.

## "Operation Smile" For BARNO

The Barrington Area Registered Nurses Organization (B.A.R.N.O.) will meet Tuesday, January 9th at 7:00 P.M. in the Conference room at Good Shepherd Hospital, 450 W. Highway 22 in Barrington. Social time is 7-7:30, business meeting 7:30 and program at 8 P.M. Topic for the evening is "Operation Smile—Part II." Beth Nielsen, R.N. who is an operating room nurse at Hoffman Medical Center will tell of her experiences in China. She will show a video which was made during this trip entitled "Faces of Hope." Nielsen is part of a team of Operation Smile International, a not for profit organization that provides

plastic and reconstructive surgery to needy children and young adults with facial deformities in third world countries. All Registered Nurses, active or inactive, residing or working in the Barrington area and surrounding towns are invited to attend this meeting.

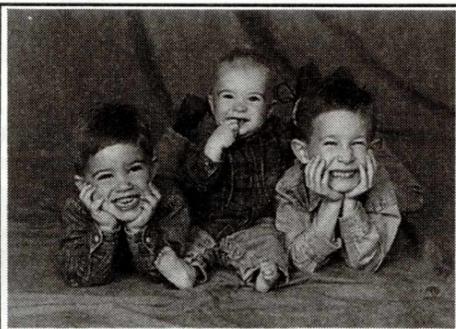

The purpose of the organization is continuing education, community service, philanthropy and the awarding of nursing scholarships each year. Currently B.A.R.N.O. is sponsoring three student nurses with scholarships awarded in May 1995. For more information please call Cheryl Jellovitz at 708-382-7038.

### How To Choose A Dance School For Your Child

Many parents of young children who desire to take dance lessons find themselves unsure as to how to choose a school. Frankly, a recommendation from a neighbor or friend is not enough. You should always visit the school in person. The following are some guidelines as to how to choose a school in order to insure your child's proper instruction and personal safety.

**Facility**—The dancers should have a large room with a special sprung floor. Dancing on concrete covered with tile or other hard surfaces is dangerous. There should be ample mirrors and well-constructed ballet barres for older students.

**Observation of Classes**—Before enrolling in any school, you should make an appointment to observe a class. Even if you are not knowledgeable, you will be able to judge certain critical things.

1) *Is the teacher well organized and pleasant?*

2) *Is he/she knowledgeable?* (Check the school brochure for teachers' backgrounds.)

3) *Are the teacher's corrections made clearly and in a positive way?*

4) *Are the students well behaved and attentive for their age?*

**Performing Opportunities**—As dance is a performing art, it is imperative that the students get the chance to dance for an audience. However, a good school should stress education and not detract from that for the sake of performing. A fancy costume will never cover up poor dancing!

**Tuition**—Do some comparison shopping as to class rates. Classes should be competitively priced but one should not think that the cheapest class means more for your money. As with everything, quality costs more. Schools should have discounted tuition for multiple classes if your child is a serious student. Family discounts may also be available.

Even pre-schoolers taking lessons should have a fun, interesting and beneficial class. A little extra time will result in a decision that you and your child will be happy with for years to come!

## Stop The Stress Eating Syndrome

You know the routine. You eat when you feel stressed. So you are overweight. Then you go on a "diet." But conventional dieting creates its own stress—physical, mental and emotional. You can feel weak, tired, hungry, anxious, even a bit depressed. Now you feel even more stress. To relieve the stress, what do you do? You eat. So the cycle continues... often for a lifetime.

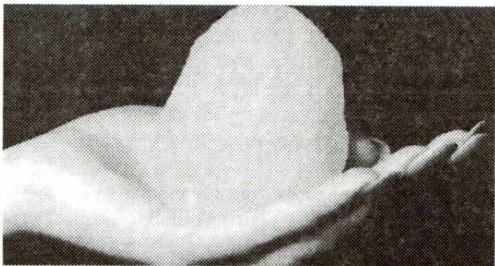

Only by breaking the cycle can you ever hope to control your weight. And only the

**Conquest** system is designed to help you do it. Diet success stems from a positive attitude. The **Conquest** system helps you to create that winning attitude.

My name is Sue Teach, I am an Independent Sales Associate for the **Conquest Weight Management System**, and for the first time *ever* I feel I have a successful tool for a lifetime of weight management! *Let's get started!!* For more information please call **708-202-0536**.

Barrington Youth Services (BYS), a local youth and family services agency, recently announced they have kicked off their 1996 Winter Campaign. The annual fund raising campaign accepts contributions from local individuals, businesses, organizations, churches, clubs and any other interested parties.

According to BYS Board President John Pender, Barrington Youth Services relies on Winter Campaign contributions to provide funding for nearly 30% of their community based prevention programs and clinical counseling services. "The strength of our Agency's fundraising success speaks well of Barrington area residents," said Pender. "We've always relied heavily upon local donations to ensure we can continue to provide high caliber services and programs for Barrington area youth and their families."

BYS, entering their 24th year of serving the Barrington area communities, offers long standing, reputable prevention programs and clinical services developed to meet community concerns regarding, alcohol and substance abuse, suicidal ideation, conflict resolution, peer mediation, peer leadership and more.

"The reputation of our prevention programs speak for themselves," said BYS Executive Director, Rochelle Schulman. "We place a strong emphasis on providing new programs to meet changing community needs. In 1996 the Board and Staff is committed to providing new programs and services to meet needs for Early Childhood Education and we plan to offer a peer group for children who are new to the area, facilitated by BYS therapists."

Schulman said the Agency's recent move to a larger facility allows for program growth and an expansion of clinical services for all residents residing within School Dist. 220. During the next year, BYS will be developing and implementing a strategic plan to identify the community's mental health needs, how BYS can better meet those needs and the role BYS plays within the community to meet all resident's needs.

Residents wishing to contribute to the BYS Winter Campaign, or those interested in receiving literature outlining BYS programs and services, should call the BYS at 381-0345 or send donations to Barrington Youth Services, 110 S. Hager St., Barrington, IL 60010.

## Famous Opera Houses Of Europe

This is the third in a series of articles on famous opera houses of Europe which will be visited in connection with the Barrington Chapter of Lyric Opera's Operafest '96 tour next September 23-October 7, 1996. For further information, please call Robyn Gulstrom, Travel House, Inc., 381-0600, or Wanda Hollensteiner, 381-1976.

### Munich

The people of Munich have always had a love affair with opera. Today, operatic performances are held in three major houses, the Altes Residenztheater (Cuvilliestheater), the Nationaltheater, and the Prinzregenten-theater.

It was in 1773 that the Residenztheater, a beautiful little gem designed by Francois Cuvillies (hence, also known as the Cuilliestheatre) was opened to the people of the court. It has been described as "the world's most exquisite rococo theatre, an architectural capriccio of unsurpassed grace, harmony and musicality." During World War II, the theatre was dismantled and hidden before the building itself was destroyed by bombs. Residenztheatre was reopened in 1963 after extensive reconstruction and restoration, and again in 1990 after additional work.

The Nationaltheater was built in 1818, originally for opera seria and ballet. Six years later it burned down but miraculously rebuilt in its original style in just two years. This building could be known as the theater that the pfennig built, as it was financed by an extra penny added to beer tax. In the mid 1800's Munich became a Wagnerian

President, Jan Semerad, of the Barrington Chapter of Lyric Opera points out the locations of opera houses which are to be visited on "Operafest '96" tour, September 23-October 7, 1996. Looking on are chapter board members, Louise Sullivan, Laurel Gibson, and Lynn Grimshaw. "Operafest '96" is a tour especially designed for opera buffs who would like to attend performances at some of the world's greatest opera houses. Features on the tour include visits backstage, meeting with artists and Guild members. A private bus with accompanying guide will transport the group between Prague, Nurnberg, Munich, Salzberg, Vienna, and Budapest. ## Welcome Wagon Coffee

January is the perfect month for a fun White Elephant Gift Exchange—just the time to get rid of the fabulous Christmas gift you received that has no identifiable purpose, is a color you never wear, or is the ugliest plaid you've ever seen. Bring the craziest item you can find (value between \$5-\$10)

and have fun. If every gift you received was the perfect one, just come to enjoy some coffee and goodies and visit with old and new friends. We will meet at 9:30 AM on Thursday, January 25, 1996, at the home of a member. Call Sheila at 438-0273 for directions.

Bayreuth. In 1943 the Nationaltheater was destroyed during an air raid. The rebuilding of this famous and beloved house took 18 years, and reopened in 1963 (seating 2100).

In 1901, the Prinzregenten Theatre opened with "Die Meistersinger," and was hailed as one of Europe's most advanced theatres because of innovative backstage machinery. The winds of politics changed the purpose of the theatre and it changed hands from Spartacists in 1919, and again in 1934 when the National Socialists took it over (and painted all the lovely and delicate frescoes brown!). In World War II bombs hit the part of the building that originally had been used for promenades and refreshments. Because the auditorium was relatively unharmed, the Bavarian State Opera presented performances there after the war until 1963 when the National-

theater reopened. Then it was used for storage, rehearsals, and scene construction. Located in Bogenhausen, an exclusive area of the city, there were some thoughts of demolishing Prinzregenten and constructing either a hotel or a shopping center in its place. But thanks to August Everding, the chairman of the West German Intendent, it was saved and beautifully restored in the mode of High Renaissance decor with Jugendstil details, the way it was originally intended. Funding from a large bequest and from the Bavarian State did not cover the costs, so Everding had to enlist financial support from private sources which had not been the practice in Central Europe. Not only have major banks and corporations been generous givers, but opera lovers from all over the world have donated to restore the Prinzregenten to its 1901 appearance.

**Absolutely! Electrolysis Salon** provides safe, gentle, and effective permanent hair removal by a Registered Nurse. A nurse for the past 16 years, Debbie received specialized training in electrolysis and has taken the National Board Exam to become a Certified Professional Electrologist (CPE). Advanced computerized equipment assures every client of a most comfortable treatment.

Electrolysis in this office provided by a Registered Nurse, assures the client of a safe and effective treatment. ## Symptoms And Signs Of Gum Disease

by Dr. Raymond Kotz

A symptom is something you feel like discomfort or pain. Gum disease is usually painless in the early stages and is therefore not noticed by the patient.

Signs, however, are things you can see. The American Dental Association lists the following signs of gum or periodontal disease.

- Gums that bleed during tooth brushing
- Red, swollen or tender gums
- Gums that have pulled away from your teeth
- Persistent bad breath
- Pus between the teeth and gums
- Loose or separating teeth
- A change in the way your teeth fit together when you bite
- A change in the fit of partial dentures

Remember that people can't see things they don't know how to look for. That's where a competent dentist and hygienist can help.

They are trained to see the subtle early changes in your gum tissue and to institute early treatment and home care to reverse or retard the process.

During an initial thorough examination of your mouth at least sixteen x-ray pictures must be taken to evaluate your teeth and the supporting bone. Observation of the color,

size, firmness and position of your gums should be followed by carefully measuring and recording the depth of the sulcus around each tooth. This involves a total of one hundred and sixty-eight positions. After evaluating these findings and your radiographs the hygienist and dentist can help you with a home care and therapy plan to reverse or retard the disease process.

The goal is to help you keep your teeth all of your life. With your help, and early diagnosis, the goal is achievable.

For a thorough oral evaluation see **Dr. Raymond P. Kotz**, Barrington, Illinois, 708-381-4040.

## Local Precision Figure Skaters Head For International Competition, Sweden

The Starlets, the number one Junior Division precision figure skating team in the country, is bound for Sweden in January 1996, having earned the right to represent the US and compete in this Invitational Competition—the "Sweden Precision International 96." The 23 Starlets reside in Northwest suburban Chicago and are 12 to 19 years old. They are coached by Beth Sisofo of Cary, Ill. and Assistant Coach Judy Schag, Lake Zurich, Ill.

"Precision figure skating combines the classical, graceful movements of figure skating with the thrill of split-second, synchronized maneuvers of a 12-24 member team," according to Kevin Jumbeck, co-chairman of the upcoming 1996 US Precision Figure Skating Championships scheduled for March 1996 in Chicago.

The Starlets are currently seeking corporate and individual sponsors for their trip to the international competition in Sweden.

In addition, corporate and individual sponsor packages are now available for the National 1996 competition.

## New Year's Resolution Solution

So you are going to resolve to lose weight and get in shape this year? We've got tips to help get your fitness program off to a great start:

1) Write down your activity. Keep a separate calendar for your fitness program and keep it handy. Even if you walk for five minutes, write it down. Not only will this be motivating, but it will keep you honest.

2) Keep your goals simple. Rather than trying to lose weight, shoot for exercising three times a week. The weight loss will follow.

3) Start out slow. If you work out too hard your body will not be able to burn fat. (That's where all the goodies from the holidays are stored now.) A five or ten minute

workout at a comfortable pace is perfect for some people to begin with. So many people get injured or discouraged because they start a workout program that is just too much.

4) Break up your activity. Instead of riding a bike for thirty minutes and getting bored, try ten minutes of three different activities like biking, stepping and walking.

## Travel Tips

by Eleanor Nelson & Sally Hayward, Travel House

I have just returned from the most fantastic trip to Italy, a place we all should visit. Traveling in Europe is different than trips within the states and I thought I would use this column to pass on some travel tips to be used when traveling abroad...

**Luggage.** A good rule of thumb is only take as much luggage as you can handle by yourself. Wheels are essential. One large suitcase or two small ones plus a carry-on work well.

**Clothing.** For most of Europe, be prepared for any temperature and be prepared for rain. A raincoat is usually your best choice for outerwear.

**Money.** Do not expect to use American currency in shops or restaurants in Europe. You will need to change your dollars into local currency and often you will find the best rates in U.S. Banks. Be sure to call ahead to make sure your bank is supplied with your European currency.

Carrying U.S. dollar travelers checks is probably the most popular way of handling cash expenses in Europe. You can change travelers checks at hotel desks, currency exchange shops or banks. Generally hotels give the worst rate and banks the best. Using credit cards, can be very convenient and economical. The charge is based on the rate of exchange on the date the item is billed by the credit card company, not the date of purchase.

Telephones: Many hotels levy astronomical charges on long distance calls. You can

usually avoid these charges by using your long distance credit card.

**Electricity:** You are safer if you can avoid depending on electrical appliances. Europe has two voltages 110 and 220. Adapters are usually sold in sets of three or four different styles which should work in the majority of places. If you are buying a new hair dryer or shaver to take along it is worth while to find one if it will operate on both 110 and 200 voltage.

There are many more tips one could learn about European travel and I would love to share these with you. Please stop in to chat with me or my staff at Travel House at any time or phone me at 708-381-0600 because I really love to talk about Europe.

## Council of Barrington Garden Clubs Presents "Plant-A-Tree" Gifts

The Council of Barrington Garden Clubs is setting April 26, 1996 for the Arbor Day Celebration at elementary schools. Chairman Shirley Magner, Little Garden Club of Barrington and Co-Chairman Joanne Larson, Field and Flower Garden Club, will be in charge of the event.

Each elementary school with the district was presented with a pewter "Plant-A-Tree" ornament as token of appreciation for support and participation in Arbor Day activities. The purchase of the ornament plants a tree which provides a habitat for wild life, prevents soil erosion, and absorbs harmful carbon monoxide.

The Council of Barrington Garden Clubs consists of the following: Country Home and Garden Club, Countryside Garden Class, Field and Flower Garden Club, The Garden Club of Barrington, Green Thumbs, Little Garden Club of Barrington, and the Village Planters.

Carrying on the tradition started in 1970, representatives of each club will participate in a classroom ceremony which will inform our fourth graders about Arbor Day, the value of trees to their everyday living and about the tree seedling they will be given to take home and plant. Also, as part of the Council's Arbor Day Program, a tree is planted every other year on the grounds of each elementary school in the district.

The Council looks forward to making Arbor Day a fun and memorable experience while creating an awareness of the need for planting and caring for trees.

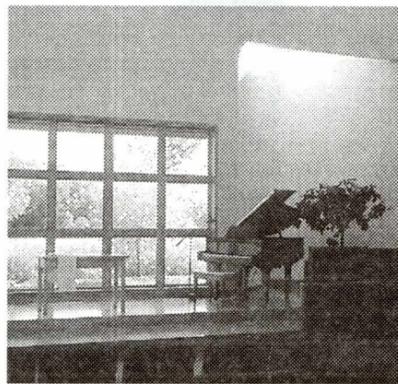

*Hough Street Schools' Student Council receives the "Plant-A-Tree" ornament from the Council of Barrington Garden Clubs as a token of appreciation for support of Arbor Day. L to R: Jessica Gaddis, Treasurer; Stephanie Ferry, Secretary; Michael Dorazil, President; Robert Grom, Vice President; (top row) Joanne Larson, Lorraine Plum, Principal of Hough Street School; Ruth Ryan, President—Council of Barrington Garden Clubs, and Shirley Magner.*

## David F. Schultz Associates Ltd. Receives AIA Award For Church Design

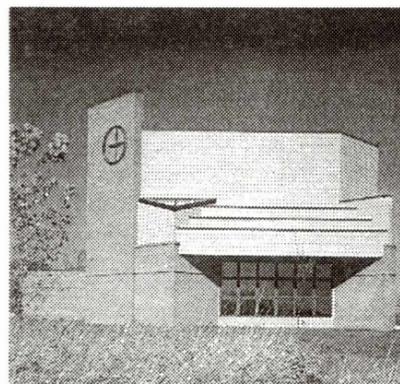

The American Institute of Architects Northeast Illinois Chapter recently honored David F. Schultz Associates of Barrington with an Excellence Award for the design of the Countryside Unitarian Universalists Church of Palatine. Two awards for excellence and six merit awards were given at the biennial Honor Awards Celebration at McDonald's Lodge in Oak Brook.

Schultz, who specializes in church architecture, has designed about 20 churches in the Fox River Valley area. "Our philosophy is a kind of visual theology," Schultz explained. "We try to take everything that is that congregation and wrap a building around it, rather than make the congregation conform to a particular building."

The firm, which has been in business for 10 years in Barrington, also won an AIA merit award in the last Honor Awards competition two years ago for Tailor, Needle and Thread, a retail design which also garnered top awards from Chain Store Age Executives and the Illuminating Engineering Society.

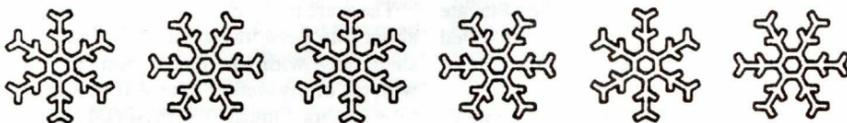

The AIA/NEI Honor Awards drew 35 entries from suburban Cook, Lake, DuPage and Kane Counties. They ranged from quietly distinctive to dramatic and dynamic, including private homes, recreational facilities, schools, churches, municipal buildings, banks, retail buildings, an inn and a casino pavilion.

"The diversity of the entries shows that architects in Northeast Illinois are doing an exemplary job of serving their clients and their communities," said Honor Awards Chairman Dwain Lutzow of Dahlquist & Lutzow of Elgin. "Our members are doing more public sector work these days; it's a sign of the times—as the population shifts toward the suburbs, these communities need more schools and other facilities. It's also a sign of the communities' maturation that they are asking for high quality design to represent them in the built environment."

Form and function were the primary parameters during the award selection process, followed closely by innovation, Lutzow noted. "I was pleased to see that function was equally as important to the jurors as aesthetic appearance," he said. "They were not simply looking for pretty buildings. They wanted to see a strong functional relationship to the final form."

The AIA's Honor Awards were judged by Dirk Danker, design principal of Nagle Hartray Danker Kagan McKay and Associates of Chicago; Gilbert Gorski, principal of Gorski & Associates P.C. of Lincolnwood; Michael J. Andrejasich, AIA, associate professor in the School of Architecture of University of Illinois, Urbana-Champaign, and president of the AIA Central Illinois Chapter.

## Key To Children's Success: Involved Parents

When parents and families get personally involved in education, their children do better in school and grow up to be more successful in life. This may sound like common sense, yet parental involvement is the most overlooked aspect of American education today.

The fact is, many parents don't realize how important it is to get involved in their children's education. As one dad said when he began to read to his daughter every day and discovered that it improved her learning, "I never realized how much it would mean to her to hear me read."

Many parents would like to be involved,

but have trouble finding the time. All parents and family members should try to find the time and make the extra effort to work with their children.

According to Dr. Raymond Huntington, founder and president of **Huntington Learning Centers**, "A child's attitude toward learning begins in the home. Research shows that when families get involved, their children get better grades and test scores, graduate from high school at higher rates, are more likely to go on to higher education, and are better behaved and have more positive attitudes."

## Tax Tips For The New Year

by Sharon L. Keller, J.D.

*Happy New Year!* As of this writing, my family is anxiously awaiting the Rose Bowl and Northwestern's endeavor to complete a successful year on the gridiron. By the time you read this article, we will be back from Pasadena, content with any outcome and looking forward to another wonderful year for the Wildcats. January brings our attention to winding up affairs of the past year to enable us to proceed with a clean slate in the new year. For the next few months I will be discussing various tax tips for your tax planning prior to filing your 1995 tax return on April 15th.

During the Clinton administration, there was much attention placed on the "nanny-tax." The "tax" was for any household employee who was paid more than \$50 per quarter by an employer. As you probably recall, several Clinton appointees had not paid the tax for persons they employed in their household.

As a result, subsequent legislation was enacted. In October 1994, a new exemption was created that relieved household employers who paid a household employee less than \$1,000 in 1995 from the burden of paying or filing returns for Social Security and Medicare taxes. These taxes would not have to be paid for a household employee under the age of 18. In addition, household employers would not have to file income tax W-2s for those employees unless they withheld income tax from their wages.

If the household worker is an indepen-

dent contractor rather than an employee, no filing is required for personal services. However, at times it is difficult to determine whether a worker is an employee or an independent contractor. If the worker uses the homeowner's equipment and is closely supervised or directed by the homeowner, the worker is probably an employee. However, if the worker has his own equipment, is given general directions, such as "clean the house," or the worker hires other workers to help, the worker is probably an independent contractor.

If you determine that you had a house-

## Dinner Dance Atop Sears Tower To Help Children With Cancer

Bear Necessities Pediatric Cancer Foundation will host its third annual city-wide gala: "Thank Heaven for Little Bears Dinner Dance" on Saturday, February 3, 1996. This years glittering event will take place at the breathtaking Sears Tower, overlooking the sprawling, glittering city of Chicago. Last years honorary chairpersons, Mr. and Mrs. Gary Fencik, will again attend with possible special guests.

Though still in its organizational stage, chairperson, Tracy Scurto, of South Barrington says the evenings events promise to be spectacular. Cocktails on the 100th floor of Sears Tower, then returning to the spacious lobby for a six-course dinner, dancing to The Sophisticats jazz band, silent and live auctions are some of the planned activities. Political leaders, corporate and social dignitaries are again expected to attend. Ian Case Punnett, WGN Radio on-air host and Demetria Kalodimos, Nashville's WSMV-TV's anchorwoman will also be part of the evenings fun festivities.

As Bear Necessities' main fund raiser, the event seeks to raise funds to help the overwhelming and growing needs of pediatric cancer, which remains the number one death by disease in our children. Bear Necessities Pediatric Cancer Foundation was founded by Kathleen Casey, of Algonquin, after she witnessed, first hand, the many immediate needs of children with cancer, their families, and the attending medical community. Casey's eight year old son, Barrett "Bear" Krupa, for whom the foundation is dedicated, died of Wilms Tumor, a type of cancer

that affects the kidneys. The foundation financially stimulates research with an immediate agenda to fight against pediatric cancer. The disease remains the most diagnosed disease far beyond any other major conditions. Bear Necessities Pediatric Cancer Foundation also supports the immediate needs of pediatric patients and patient programs within pediatric facilities, as well as "unfulfilled wishes" for pediatric patients. Bear Necessities is currently funding Chicago-land hospitals and research projects spanning the U.S. including Tennessee, New Jersey, Washington, D.C., and California.

Corporate officers and private citizens are invited to call now to receive invitations. At present, corporations supporting this event include: Blue Cross and Blue Shield

## Hospice Annual Campaign Kicks Off

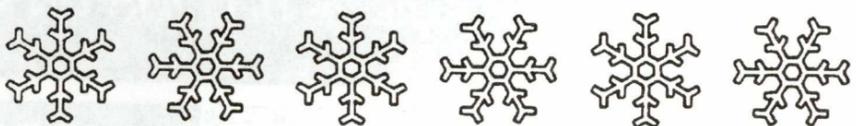

Sam Oliver, President of Hospice of Northeastern Illinois (HNI) and Frederica Smith, President of the Hospice Foundation, recently spent two days signing letters to be sent as part of the Hospice's annual appeal campaign. This past year, HNI cared for 930 patients and over 2,000 families. As Board members, Mrs. Oliver and Mrs. Smith are asking for help to ensure that all patients, regardless of their ability to pay, will continue to receive hospice care.

"The letters we receive from family members demonstrate how great a need there is for our care. Hospice seeks to enhance the quality of life by physically and emotionally supporting the patient and his or her family," said Carole Blazek, Foundation Director. A family member recently wrote, "My sincere gratitude to all of you for the comfort you gave, both to my dad, myself and the rest of my family. You all

truly showed how 'Work is love made visible'. A gift to HNI is truly a gift of compassion," stated Blazek.

Along with underwriting the cost of care, contributions to HNI help: expand bereavement counseling for those grieving the loss of a loved one (including special programs for young adults and Camp Courage for children), fund our unique Surrogate Caregiver Program that provides respite help for the caregiver, and build an endowment to ensure HNI care will continue, regardless of reimbursement.

This year the goal is to raise \$75,000. The funds will be used to pay for a portion of the expenses incurred in providing quality care to patients in McHenry, Boone, Cook, Kane, Du Page and Lake Counties. If you would like to help, please call the Hospice Foundation office at (708) 842-2580.

of Illinois, Hiram Walker and Dean Witter. "We need to move mountains and create more miracles for our kids with cancer" says founder Kathleen Casey. "The most precious day of the week for our kids is tomorrow. We need to increase our support base to continue to make tomorrow happen for them. We invite all, interested in helping fight pediatric cancer, to join us for a

great evening at the Sears Tower and make a difference in the lives of some of our kids."

Seating is limited. Tickets are \$125.00 per person. For more information on the event, or to volunteer, please contact Tracy Scurto at Bear Necessities Pediatric Cancer Foundation 708/516-4081. Call now and make a difference.

### Kitchens Change With Time

Home life today is a far cry from what went on at the Cleaver residence forty years ago. At your house, life may even have changed dramatically in just the last few years, what with children leaving, relatives moving in, children moving back, new babies, etc. Family life has undergone a lot of changes and is always in flux. And no room in your home exemplifies those changes better than your kitchen.

James R. Walker, Certified Kitchen Designer and a Partner at **Barrington Homeworks Kitchen Center**, recently said, "The walls have come down, more appliances have gone in, and today's kitchen has become open to everyone to use."

"The kitchen did not used to be such a large part of the social fabric of a house," said Walker, "Not long ago, kitchens were specially planned as walled-off private spaces intended for the sole use of the full-time homemaker/cook." But Walker added, "We all know that families and guests usually gathered then at some point, so today's kitchen planning should reflect that reality."

According to the National Kitchen and Bath Association, of which **Barrington**

**Homeworks Kitchen Center** is an active member, most families today consist of two working parents. This generally creates the need for shared cooking and cleanup responsibilities and might reduce the amount of time parents are available for children. That old walled-off kitchen space is now opened to include other rooms to better interact with the whole family. Even families with one parent working in the home find this concept beneficial during meal preparation periods.

Today, the arrangement of workspace and appliances often must accommodate more than one cook, which impacts on design. Two sinks, two ovens, side-by-side refrigerators, two dishwashers, and multiple food preparation areas are not uncommon.

Forty years ago, there were about 400 utensils and food items commonly found in kitchens. Today, what with new appliance technology and cabinet accessories, the number of items we put in our kitchens has almost doubled. What does that mean? It means better, more creative use of space is required to make the comfortable setting families want in which to gather, unwind, entertain and even cook.

### "I told them I wanted to remodel my kitchen..."

"So they listened to my ideas; what I needed, what I liked, what I wanted to spend. And I listened to their ideas about design, accessories and budget. Together, we planned my beautiful new kitchen. They did a complete set of blueprints so I could visualize everything and so our contractor knew just what to do. When you want to talk about your new kitchen, I would definitely say to stop at Barrington Homeworks."

## Happy New Year!

Now that the holidays are over, thoughts of home improvements may be uppermost in your mind. You love living where you're at and don't want to leave your neighborhood. Your needs and wants in your home have changed through the years and remodeling is the best solution. Your home improvement goals may be focusing on an exterior facelift, room addition or a new kitchen. The next question you ask yourself is "Where do I start?"

The first thing you should do is write down what you like about your home and what you would like to change in it. Get the whole family involved. Ask each person what he or she likes and dislikes about it. Then sit down and decide just what you

would like to do. Look around your neighborhood for ideas and take photos of the things you would like to see done to improve your home. Also, browse through magazines and cut out pictures of things you like. Then contact Delta Renovations, Inc. They can help you design your project and let you know if an architect is needed, depending on the size of your home improvement.

Delta Renovations, Inc.'s expertise in renovations and their quality workmanship help make your project, large or small, go as smoothly as possible. Stop by or call them to set up an appointment. They will be happy to talk to you about your proposed project.

## We'll Be Highlighting Local Artists

Well! Another New Year is upon us and that means it is time for new beginnings, resolutions and changing things to make our lives better.

In keeping with that spirit, **Fancy Art, N.F.P.** is transitioning from its long running Monet exhibit, to highlighting local artists, whose works are worthy of recognition. To facilitate this, **Fancy Art, N.F.P.** will periodically have private informal receptions featuring the works of these artists as well as designers. To make it even more interesting, there will be piano music, hors d'oeuvres, wine and other beverages will be served. Attendance will be on a first come first served basis and there is no charge for these events, R.S.V.P. **Fancy Art, N.F.P.** believes that by providing a forum for local artisans, it is serving the community interests as well as it's own, in that through this type of interaction, they receive invaluable feedback, so that they can better select art that is in keeping with the local and lifestyle of the community. **Fancy Art, N.F.P.** always has over a hundred framed works of art on display and close to a thousands more prints, oils and limited edition

serigraphs on hand to choose from; so, if you are wondering "what to do" during these cold, blustery winter days for enjoyment, come to **Fancy Art, N.F.P.** for a warm and rewarding experience. Reservations can be made by calling **Fancy Art, N.F.P.** at (708) 304-4045 or 1-800-FANCY ART, or just stop in.

**Fancy Art, N.F.P.** is an art gallery and custom framing shop at 113 E. Main St. in downtown Barrington. They specialize in high quality, limited edition works of art and custom framing. They believe that through volume purchasing and doing the entire framing process in-house, they can provide you with the highest quality workmanship, shortest turnaround time and lowest cost of any source in the Northwest suburbs.

Incidentally, **Fancy Art, N.F.P.** will continue to have one of the largest displays of Monet prints in the area as well as hundreds of works of other renowned artists. Oh! And if you were wondering what **N.F.P.** stands for, it's "Not Fancy Prices." They put it in their name so that you know what to expect from them: *Fancy Art, Not Fancy Prices.*

## Enjoy Storewide Savings At The Lamplighter

**The Lamplighter** has been under new ownership and Shirley Irwin, the owner, has created an atmosphere and changed the inventory so substantially that if you have not been into the shop to browse recently you owe it to yourself to do so. Lamps of all sorts, special Stonehouse furniture, Armani and Boyd figurines, candles, pillows and hundreds of other accessories for the home are on display. There is a reason that designers love the shop.

It should also be pointed out that prices here are significantly lower than other quality furniture stores in the area for the same articles. We recommend that you compare our prices and we know you will be favorably impressed. **During January we've made our inventory even harder to resist by offering a 15% additional store-wide discount** excluding Armani's and other items already on sale. What a great way to start the new year by replacing some of your outdated or worn lamps and household accessories.

## A Bargain Hunter's Dream . . .

As any bargain hunter will tell you—'tis the season to find true treasures at unbelievably low prices. With the Holidays behind us, stores everywhere are trying to quickly move their winter inventory to make room for soon to arrive spring merchandise. And this holds true for everything from apparel to home furnishings.

Take **L & W Lamps** for example—right now you can pick up an absolutely stunning handpainted porcelain table lamp for only \$79.95—that's literally half the original

price! In fact, every single lamp in the store has been reduced—Rembrandts, House of Troys, Frederick Cooper, Hubbardton Forge, Kovacs... all the top names, all on sale. Even at a cursory glance we found a number of exceptionally beautiful pieces that could be considered the proverbial "steal."

So don't wait, hurry on over to **L & W Lamps** and brighten your home for those long winter evenings. Sale ends January 31st.

## Now Is The Time To Plan For That Deck

In addition to a proper design, the actual construction of the deck and the follow through of the builder are very important. Questions you should ask: Who actually will perform the work? What quality of material will be used? What construction practices will be used? And, who will service the deck if needed? Larry's favorite phrase. "You get what you pay for, if you're lucky!"

**Deck-A-Roo Decks** is a full service builder, working with the home owner from the beginning of the design to the final completion of the deck. No subcontractors are used. All employees have been trained to a high level of quality and given the amount of time needed to complete the job properly. Only high quality materials are used by **Deck-A-Roo** as well as new environmentally friendly products. Every deck is serviced promptly as well as courteously.

"It's not just a deck," says Larry Kirchner, chief designer and president of **Deck-A-Roo Decks**. "A deck is a pleasant addition to any home and a necessity."

Decks are great investments. If properly built, a deck will give the owner years and years of wonderful use as well as add more to the value of the home than the initial cost. However, an improperly built deck will soon become an eyesore as well as a financial burden on the owner.

At **Deck-A-Roo Decks** every aspect of the deck design is considered: what style will best fit the house; what are the size and design needs of the client; what materials best suit the location and design of the deck; how the design affects price both now and over the lifetime of the deck; and how maintenance will be affected by the design.

A special note from Larry: "Now is the time to plan having your deck built. It's important to give yourself as much lead time as possible if you are planning a party or event that the deck will be used for. Spring is approaching and we have a tendency to fill our April and May schedules early. So please call now."

For more information or an in-home consultation, please call us at (708) 381-3325. Thank you.

## R. K. Tech Wows Its Clients—Literally

by Ed and Lisa McCauley  
of R. K. Tech

"Wow!" the letter began.

"Every time we walk into the kitchen, it takes our breath away!"

That is how a Sleepy Hollow couple reacted to the completion of one of **R. K. Tech's** kitchen renovations.

"I can't believe I'm living in something this beautiful."

That was a remark made last week when a Barrington Village client stopped by to visit with us in our office.

And that's the way we like it. We aren't after satisfied clients. We want our clients to be thrilled.

At **R. K. Tech** we specialize in designing and realizing rooms that require fine custom cabinets, and we are constantly striving to offer our clients new and better products and services. As the new year begins, we'd like to share with you what we've been doing to improve our service, our expertise, and the products we offer.

### Design Leaders

We offer some of the best cabinets you can buy, but everything starts with a great design. At **R. K. Tech** you won't find cabinet sales people. Lisa McCauley and Matt Foster, our two principal designers, met when they were studying architecture together at I. I. T. Lisa has gone on to deepen her knowledge of interiors and furniture design, while Matt honed his skills in structures and project management before joining us two years ago. No-one in our industry can boast of designers with higher qualifications than the team at **R. K. Tech**.

**R. K. Tech** is a member of the National Kitchen and Bath Association, and Matt sits on the N.K.B.A.'s professional development committee.

### Solving Construction Problems

Everyone has a horror story about construction, and we've certainly spent our share of time bailing our clients out of problems caused by their contractors. Along the way, we've also developed a select list of well qualified independent remodelers who spearhead many of our construction projects. Still, good contractors tend to be busy and are often booked far in advance.

Last year we conducted a six month search for our own on-site craftsmen whose skill and commitment to professionalism would match the quality of the cabinets we provide. In the end we were able to bring in people who possess superior skills, as well as the personal qualities we insist upon. Our craftsmen show up at your home neatly dressed and ready for work. They have families and roots in their communities. They have embarked on a program of constant professional education.

As an **R. K. Tech** client, you'll never have to settle for less than the best installation services.

### The World's Best Cabinets

We work only with those American cabinetmakers who have made the utmost commitment to quality and value. We've said it before and we'll say it again: American cabinets are the best in the world, and **R. K. Tech** offers the best American cabi-

nets.

During the past year we established a relationship with **Rutt Custom Cabinetry**. Rutt is the industry's acknowledged leader in design innovation and engineering integrity. *Forbes* magazine last fall called Rutt America's foremost producer of high end custom kitchens. Rutt cabinets come with a lifetime warranty.

We have long worked with the **Grabill Cabinet Company**, a fifty year old family-owned firm from deep in Indiana's Amish country. Grabill's cabinets are made with a finish that nobody can top, and they have a fearless attitude toward even the most difficult cabinet construction projects. We know because we've stretched the limits more than once.

**Custom Cupboards** is another family-owned firm which has carved out a medium-priced niche for itself while offering a full range of custom options. At **R. K. Tech** the word "custom" means something, even when the price is more affordable.

With our industry relationships we can accommodate budgets from mid-price to unlimited, and we travel the country to make sure that every cabinet we sell is the best value at its price.

### Order from Our Menu

We've organized our business to offer you truly professional design, fine cabinets, great installation, and on-site services under one roof. We've also gone one step further, tailoring our services to our clients' special needs.

- We can offer turnkey services, taking your project from idea to reality with our own people. You will have one person with complete responsibility for your job. Go to Europe. Come home to find your project complete.

- If you prefer, we can work with your architect, builder or contractor to engineer and provide cabinets based on their design.

- We can bring in our own award-winning design team to conceptualize and plan your project, working closely with you to make sure that your new project is everything you dreamed about and more.

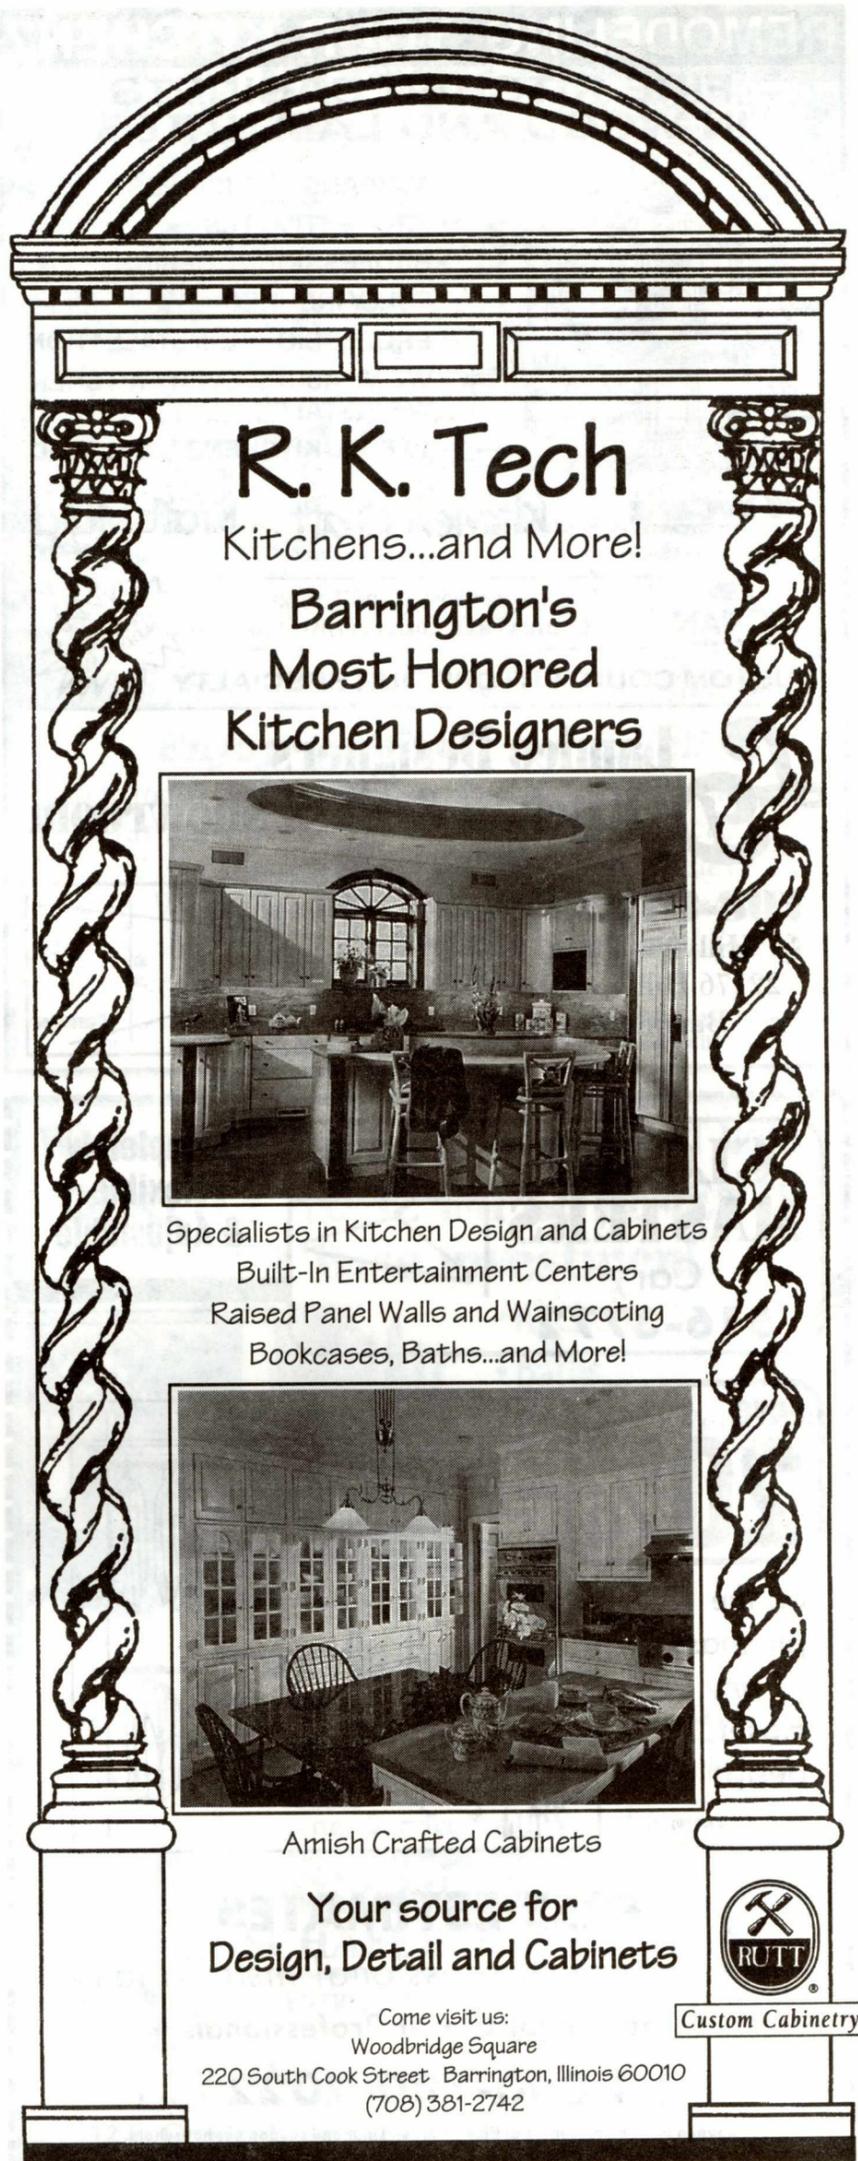

- We can provide installation services with our own experienced craftsmen.

- We can supervise installation by your contractor.

Whether you need a new kitchen, library, home theater, entertainment center, conference room, office or any other room in your house where great design and great cabinets meet, **R. K. Tech** can bring you the services and products you need to get the job done right.

The range of our products and services has become so varied that we've written up our own "Menu" to help you pick and choose which services are right for you. Call us at **381-2742** and we'll send you a copy.

**R. K. Tech** is located at 220 S. Cook Street, Suite 210, in Barrington, one block east of Hough Street (Route 59) and two blocks south of Main Street (Lake Cook Road). Call **381-2742**.

## Quality Cabinetry And Solid Surface Countertop Specialists

Lamico Designers was born in the early 1970's with sights firmly set on the future and with a vision of supplying high quality cabinets at affordable prices. They have three modern showrooms which are located in Arlington Heights, Deerfield and now in Barrington.

Jim Kill, award winning designer, wanted to show what is available with regard to kitchen products and what can be done with these products. To do that, Jim formed a team consisting of the firm's designers and fabricators to help guide the overall space planning, product selection, accessorizing and color choices on the displays in Lamico's new Barrington location.

Nothing can date a kitchen like harvest gold formica, drab cabinets and dark, old linoleum floors. Now is the time to update your kitchen with new cabinets and countertops. Lamico, specialists in Corian, Fountainhead, Avonite and Surell countertops, has invested in special equipment to be able to custom build your solid surface countertops. Because Lamico builds their own countertops, they can offer them at very attractive prices. And they can give your kitchen that custom touch with switch and receptacle plates, cutting boards, knobs and door pulls, and soap trays made from matching Corian material. During January, receive a FREE Corian cutting board when you visit the showroom.

Lamico Designers uses specialized com-

puter software so their customers can see exactly how their new dream kitchen will look before it is installed.

If you are considering a new kitchen purchase, please remember this: Over your lifetime you will spend almost twelve years in your kitchen—make the best of it.

## Planning Closet Space

Specially created spaces by Closet Masters can make a measurable difference in keeping closets free from clutter.

*How much space do you need for clothing?* Most of us close our closet doors quickly—either to avoid looking at the clutter or to stop all of those shoes, boxes, coats and caps in mid-tumble. And even when we take the time to store things where they belong, there's never enough space for everything.

Bringing order to your closet may be easier than you think. Now, with some planning between you and Closet Masters it's possible to have closets (or offices) that fit your belongings, one with a variety of spaces for items of different shapes and sizes. One that doesn't waste space and the

rods don't sag.

Knowing the general dimensions of items in the basic clothing categories can help. These measurements are based on standards established by the American Institute of Architects. For example: six men's shirts on hangers—12" wide by 16" deep by 38" high; five suits on hangers—12" wide by 20+" deep by 38+" high; long dresses or robes—20" deep by 52-68" high; folded shirts—8" wide by 14" deep; folded sweaters—12" wide by 14" deep; shoes men/women—(M) 5" by 7" (W) 4" by 5" cubbies.

Check your own clothing against these measurements: you may have bulkier jackets, longer hemlines, or larger shoes.

Lets get our lives organized!

## How To Survive A Kitchen Remodeling Project

Are you planning a home remodeling project? While remodeling can be exciting, people often procrastinate remodeling a kitchen because of the mess and inconvenience.

Star Norini, CKD, owner of **Distinctive Kitchen Designs** in Wauconda says, "We try to make the remodeling as painless as possible. As soon as we have finalized the design and cabinets have been ordered for our clients, we begin to work out a realistic plan and schedule for remodeling. We can usually keep the "mess" confined to the area being remodeled, but what our clients

find most inconvenient is being without the use of their kitchens.

Certainly going out to eat is an option. This option can be expensive and even the worst "Junk-food Junkie" will tire of eating fast food for three or four weeks. Instead, we will often suggest an area for a "temporary kitchen". We will move a refrigerator, microwave, and/or electric cooking appliance to an adjacent room. This enables the clients to prepare meals while the new kitchen is being installed. We also suggest that the client prepare meals weeks in advance and freeze individual servings in plastic bags that can be reheated in the microwave and served on disposable plates and cups. Clean up (which can be challenging without a sink) is, therefore, kept to a minimum.

Your friends and family can be a great help during the remodeling. Most clients find that once they announce plans for a kitchen project, dinner invitations follow quickly.

Lastly, Norini adds, I try to describe the remodeling process as realistically as possible. I let them know that it will probably be a difficult time for a few weeks. In that way, they have time to plan, prepare and look forward to their new kitchen.

**Distinctive Kitchen Design** is located at 203 South Main Street in Wauconda, (708) 526-7822.

## Can't Find The Room? Let Us Help!

"As architects, it's our job to solve your space problems," says John C. Cazzetta, President of **Kemper Cazzetta Architects** in Barrington. "A large majority of our work is in remodeling, and because our clients need everything from small additions to complete estate makeovers, we tend to 'see it all.' Our philosophy is to listen to our clients, study their existing conditions, calculate their budget and endeavor to aesthetically solve their space needs."

Many homeowners struggle with the thought of "taking apart their house," especially while they still live there. "This dilemma is the biggest hurdle in some projects," adds Cazzetta. "The design solution has to take this issue into account or the project could be a disaster. We have actually designed some projects to allow the owner to move into the new addition before we renovated the existing space. The quality of life during the process is as important as the design excellence realized upon its completion." The end result is al-

ways the same... "the homeowner is amazed at how their 'old' home has come back to life," concludes Cazzetta.

If your home needs updating, additional space or reconfiguration, call John C. Cazzetta, at **Kemper Cazzetta Architects**, for a no-obligation consultation today. "We feel you will be pleasantly surprised at the potential of your existing home." Phone **382-8322** to schedule an appointment with **Kemper Cazzetta Architects**.

## Indian Jewelry Analysis & Seminar

In response to demand for information about Indian jewelry—how it is made, and what it is made of—**Tribal Expressions** is pleased to announce a one day seminar on the subject by James A. Corrigan. Formal studies at the Gemological Institute of America, combined with informal studies among the White Mountain Apaches and the Navajo, and nearly 20 years of his own successful jewelry manufacturing and design work, make Jim exceptionally well qualified for the seminar.

Beginning at noon on Saturday, January 20th, Jim will describe the step-by-step methods of Indian jewelry fabrication. Mini-presentations about silver bending, casting and stamping, lapidary techniques, gemstone identification, and methods of jewelry repair will be included. Discussions relating to silver, gold, and lapidary work will be supplemented with samples of the raw materials. Tips will be given on how to identify forgeries, what to look for in high quality turquoise, and how *not* to be fooled by plastics used to imitate natural

stone. Catalogs will be available for viewing to show imported castings, carvings and other materials that are sometimes passed off as genuine Indian Handmade.

Participants are invited to bring their own American Indian jewelry for a thumbnail analysis and evaluation. Identification of your jewelry's age, condition, and value will be provided insofar as is possible. Recommendations will be provided as to whether broken or damaged jewelry can be repaired, and arrangements can be made to have all repair work completed through the gallery. This seminar will be valuable for all those who wish to know more about the mechanics of Indian Jewelry.

## Happy New Year From The Prudential Preferred Properties

Our Prudential Realtors wish to thank you for the success we have enjoyed in 1995 and envision in 1996. We are proud to be part of the Barrington Area Business Community and we are especially grateful to be selling the American Dream... a home or the site for a home... a new beginning.

The Prudential Preferred Properties is also in a "new beginning." On December 8, 1995, The Prudential Preferred Properties of Illinois merged with Burnet Realty of Minnesota. Wow—we are now the largest real estate entity in the Midwest. This partnership will lead to increased opportunities for all... our Realtors and our customers. The two companies combined sales volume will be almost six billion at year end.

The strength of these two high quality companies will give our Realtors the opportunity to better serve our customers through the combined marketing tools and technology resources, networking think tanks between the two companies and time saving

one-stop shopping for closing real estate transactions. This merger definitely exemplifies the equation that 1+1=3.

Two companies have put their resources together in a new way. However, The Prudential Preferred Properties will continue as the Prudential and Lyle Williamson will continue as President. And The Prudential Preferred Properties will still be a member of The Prudential Real Estate Affiliates, a network of independent real estate firms with over 37,000 sales associates in 1,300 offices in North America in addition to Prudential Referral Service internationally.

So what is in store for you in this new year? What lifestyle change are you thinking or dreaming of? Isn't it time you did something about it? Why not call one of our Realtors today to start you on a "new beginning." Remember, once underway, we become the beneficiaries of the most amazing happenings. Call us now at the Dream House Headquarters (708) 382-3600.

## Key To Children's Success: Involved Parents

(Continued from page 21)

Family involvement is also one of the best investments a family can make. Students who graduate from high school earn, on average, \$200,000 more in their lifetimes than students who drop out. College graduates make almost \$1 million more!

Most important, all parents and families can enjoy these benefits. It doesn't matter how much money you have. It doesn't matter how much formal education you've had yourself or how well you did in school. Family involvement also works for children at all grade levels.

Family involvement in education can mean:

- Reading a bedtime story to your pre-school child
- Checking homework every night
- Getting involved in the school's Parent-Teacher Organization
- Discussing your child's progress with teachers
- Voting in school board elections
- Helping your school to set challenging academic standards

• Limiting your child's TV viewing, especially on school nights

• Set a good example by reading for pleasure and limiting your own TV viewing

• Getting personally involved in governing your school

• Becoming an advocate for better education in your community and state

• Insisting on high standards of behavior for children

Or, family involvement can be as simple as asking your children, "How was school today?" But ask every day—this will send your children the clear message that their schoolwork is important to you and you expect them to learn.

Dr. Huntington concludes, "The informal learning that takes place in the family is not just a prelude to formal education. It's a powerful prerequisite for success from the primary grades onward.

For more information, or to discuss a specific problem, contact the **Huntington Learning Center** in Barrington at 382-3655 or in Buffalo Grove at 459-5939.

## Tax Tips For The New Year (Continued from page 21)

hold employee over 18 who made at least \$1,000 in 1995, you must do the following.

(1) Obtain a "federal employer identification number." A form SS-4 must be filed to obtain an F.E.I.N.

(2) Get a social security number from your employee. This should be done with Form W-9.

(3) Withhold Social Security and Medicare from the employee's wages. The employer pays half and the employee pays the other half. The employer's share is 7.65% of the wages paid. Income taxes do not have to be withheld, but a W-2 will have to be filed on behalf of household employees that you paid \$1,000 or more in 1995.

The IRS has simplified one thing for us. Quarterly payroll taxes and reporting are no longer required of household employers. All employment taxes for household em-

ployees will be reported on your 1995 income tax return using the new Schedule H. In addition, you may owe federal unemployment tax (FUTA). If cash wage payments to all household employees in any calendar quarter total \$1,000 or more, FUTA will be paid using Schedule H. Also, an employer subject to FUTA will also be subject to the Illinois Unemployment Insurance Tax.

While the new requirements are an improvement, anyone who paid as little as \$19-23 a week in 1995 must be concerned with payroll taxes. A definition of a household employee can include persons who clean house, cook, or run errands, it may also include in-home care persons if they are paid by the person receiving the care.

Happy Tax Planning! Have a wonderful and prosperous beginning to 1996 and see you next month.

## From A Woman's Point Of View

by Gail Wickstrom, Wickstrom Ford

I find interesting the little differences about customers' vehicles that tell you a lot about them. When you first get in the vehicle, you can usually tell if it is a woman or a man that has just driven it. If the seat position is in the straight up position it was probably a woman who drove it, no matter how far back the seat position. If you feel like you're driving laying down, then in all probability a man was driving last. I admit I was having this conversation with a friend at a party and he said not to generalize because he drove with the seat in the straight up position, but as he walked away, his wife said he only thinks it's straight up, she feels that he definitely drives in a more prone position than she does.

You also find that if the volume of the music is up very high that your last driver is usually either very young or much older, but then the station that is tuned in usually tells you which end of the spectrum the driver falls into.

If you find Cheerios on the floor it is usually safe to assume that a toddler has been in the car lately, and of course the type of child car seat gives you an idea of the

children's ages, that and the types of toys that are left on the floor.

You can also tell what types of sports the driver or their children like by the paraphernalia in the car or on the vehicle, such as bike racks, ski racks, tennis rackets, bowling balls or hockey equipment. To a lot of us our vehicles are like our second homes that we take with us wherever we go.

## Scotty's—Groceries On Wheels

Just don't have time to get to the grocery store? Hate those long, frustrating lines? Difficult taking the kids? **Scotty's Home Delivery** can help. We have been in business for over four years now, servicing the grocery needs of people just like you. We service 45 north and northwest suburban communities, with a customer base nearing 2,000 clients. Best of all, you pay grocery store prices, with only a nominal delivery fee to have them brought to your front door! Our average delivery fee is only around \$3.00!

All of our customers receive a price book with the nearly 5,000 items that we carry. It includes all of your favorite name brand suppliers, and an assortment of specialty items that you won't find at the grocery store, such as fresh butcher meat and seafood, whole grain breads from the Barnaby Smythe's Stone Ground Bread Company, fresh baked goods from a local bakery, and the finest of fresh produce we receive in

daily.

Ordering is very simple. You can either call in or fax in your order, just indicating the item numbers you would like to have delivered. We will give you a total due for your delivery, and you can pay us by check or credit card. The great thing is that you don't even have to be home to accept delivery (around 50% of our customers are not). We can do this because we deliver all of our refrigerated and frozen items in Igloo coolers with ice packs, so even ice cream stays frozen while your groceries await you. The dry products are delivered in waterproof boxes with lids on them. We will work out a convenient place with you to leave your groceries if you are not going to be home, and they will be waiting there fresh when you arrive. If you are going to be home we will unload them on your counter for you. It's that simple!

This is not a club of any kind, we are simply a grocery store that only delivers.
