Electrolysis Is The Answer

Anyone who is interested in good grooming
and an attractive appearance is likely to read
about electrolysis. It is the *only method* which
will remove your unwanted hair permanently,
and it is not a new technique. Successful re-
sults have been reported and discussed favor-
ably in the medical journals since 1875, more
than a century ago.

Nowadays thousands of women make
appointments every week with their
electrologists, but very few openly tell their
friends or relatives about the positive re-
sults. Most people are too embarrassed to
mention facial or body hairs, and so the
facts about permanent removal must often
be learned from responsible beauty editors
or medical columnists.

Fortunately, there is a skilled electrolo-
gist at **Clear Reflections** in the Barrington
Commons who can remove those telltale
hairs quickly and conveniently in the pri-
vacy of a professional office.

Now past its 100th anniversary, electroly-
sis is a boon to mankind which goes on
making converts every day. The reason is
obvious—success and permanence make an
unbeatable combination.

Take away those unwanted hairs and
what you have left is confidence in your
own charm and attractive appearance.
Phone **Clear Reflections** at **381-9020** for
your appointment.

Clear Reflections has provided 20 years
of service at the same location.

October, 1996

Dear Reader,

October, one of the most beautiful months of the year
in my opinion, begins. It is a time filled with wonder-
ful things to do. Everyone seems to be energized, filled
with new enthusiasm for the coming year, '96-'97.

Speaking of 'filled with energy,' Grand Marshall for
the Barrington Area Crop Walk this year is Sister
Lorraine Menheer. Walking that extra mile on behalf
of the poor and hungry is something she happily does.

Her concern for social justice brings her in daily contact with the poor as she tire-
lessly works on their behalf. Our love goes out to this special lady.

BAAC's annual fund-raiser is going to be unique this year. Entitled "Get In Touch
With The Arts," this special occasion will be held at the Motorola Museum of Elec-
tronics on Algonquin Road in Schaumburg. Guests will have an opportunity to marvel
at Motorola's progressive contribution in the field of electronics in addition to danc-
ing, dining and bidding on some fabulous prizes. So mark down Saturday, Novem-
ber 2, on your social calendar and join in the fun!

Until next time, may all your thoughts be sunny.

With warm regards,
Glenn McMonigal
Editor, Lifestyles Magazines

Barrington Area 1996 Crop Walk

Shown: Sister Lorraine Menheer on the left and Sister Margaret Eisele on the right. Sister Lorraine is Pastoral Associate and Director of Pastoral Care, Social Concerns and Project Hope at St. Anne. She is being honored this year as the Grand Marshall of the 14th Barrington Area CROP WALK. Sister Margaret is Coordinator of Ministries of Care and Senior Lifestyle at St. Anne.

Close to 1,000 feet are preparing to pound the pavement on October 20 to fight hunger in the Barrington Area's 14th annual CROP WALK. Sister Lorraine Menheer and Sister Margaret Eisele are pictured here posting a sign to remind walkers and sponsors that registration will be at 12:30 p.m. at St. Anne Parish Center, 120 N. Ela St. The ten kilometer, or if you prefer a golden mile, walk will begin at 1:00 p.m. with rest stops along the way at various churches. The route will return walkers to St. Anne for a chili supper, fellowship and music by Mark Miller.

Sister Lorraine is always taking whatever steps she can on behalf of the poor and hungry. This year she will literally be walking an extra mile to fight hunger as she is honored as the Grand Marshall of the 1996 Barrington Area CROP WALK. Sr. Lorraine is Pastoral Associate and Director of Pastoral Care, Social Concerns and Project Hope at St. Anne and has consistently been one of the top fund-raisers for the CROPWALK. Her concern for social justice brings her in daily contact with the poor as she tirelessly works on their behalf. She has always walked the CROP WALK route, all 13 of them, a couple of days prior with Sister Margaret and others who are busy on the day of the walk. This year she will walk her ten kilometers on Friday and then typical of her willingness to walk that extra mile for the poor, she'll lead the more than 400 walkers expected on Sunday for an additional mile as Grand Marshall.

CROP WALK is sponsored by Church World Service. Everyone is invited to participate and can even designate sponsorship to a relief agency of their choice. It is an ecumenical effort with many denominations working together to fight hunger. Several civic organizations, scouts and high school groups participate bringing the entire community together for this one cause. Twenty-five percent of the funds raised fill the shelves at the Barrington Food Pantry, aid Meals with Wheels, Salvation Army, the Carpentersville FISH program and the Bethlehem Food Center. The remaining seventy five percent goes to national and international agencies for food distribution, education in good agricultural techniques and all forms of disaster relief.

Anyone who feels ten kilometers might be too difficult may select the golden mile. Maps are distributed at registration showing the route and the ten rest stops along the way. The walkers are sponsored by an average of ten people and some walkers join in on the fun by sponsoring themselves. Sister Bernadette, a first grade teacher at St. Anne, reminds us that she will do the walking each year, but it is her first graders who are important because they are her sponsors.

More information about this annual event that celebrates the giving spirit of our united community can be had by contacting your church representative or this year's coordinator, Skippy Baum at 705-0921.

Children's Clothing Drive

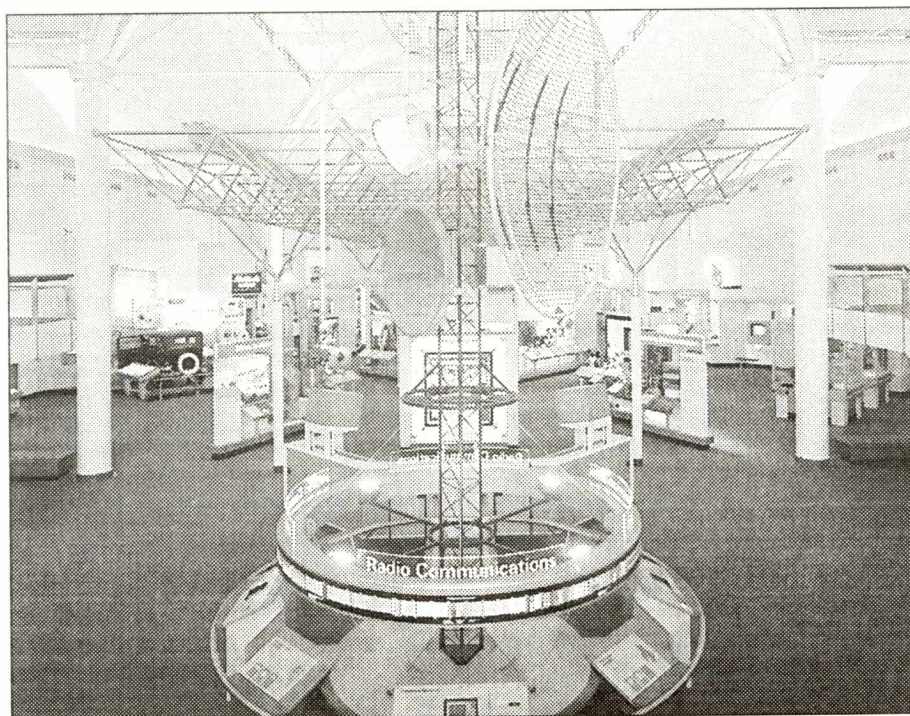

Trish Lynch, Holly Clark (Pres.), Lisa Kendzior, Jill O'Connell, Sandy Pokuta and Nancy Kieffer are some of the members of the NW Suburban Guild.

On Saturday, October 19, 1996 between 9:00 a.m. and 12:00 noon, at the Inverness Field House, 300 N. Highland Road, the Northwest Suburban Guild of Children's Memorial Hospital will be sponsoring a clothing drive. Needed are new/used infant and children's

sleepers, and new/used children's and teenage sweatsuits, sizes infant through age 18 years. This clothing will be distributed "as needed" by the staff for children leaving the hospital on an emergency basis.

"Get In Touch With The Arts" — BAAC's Unique Fund-Raiser Nov. 2 At Motorola Museum

The history of Motorola and many aspects of contemporary electronics technology are explored in 20,000 square feet of exhibits at the Motorola Museum of Electronics in Schaumburg, Illinois.

Through a generous friend of the Barrington Area Arts Council, BAAC is fortunate to have the privilege of debuting its fall fund-raiser, "Get In Touch With the Arts," at the spectacular, educational and wonderfully historical Motorola Museum of Electronics on Algonquin Road in Schaumburg. The date is Saturday evening, November 2, and you will not want to miss this opportunity to be tuned in to the arts in such an entertaining venue.

Picture yourself enjoying cocktails, musical entertainment and a silent auction table overlooking the Museum. Wander through the Museum in search of that radio or TV reminiscent of when you grew up, marvel at Motorola's progressive contribution in the field of electronics, sit down to try your hand at some Museum exhibits, and then go ahead and say: "I had no idea this place was here!"

Dinner, dancing and live auction will follow in the adjoining Center Atrium of the Galvin Center. Among the auction items and prizes are a weekend for four adults at Desert Mountain in Arizona, complete with a round of golf at one of the premier courses in America; a landscape/nook or cranny

painting to be commissioned with watercolorist Pat Mead of Barrington; an original watercolor painting donated by local artist Nancy Rinnert; a 20" x 24" wall portrait and studio portrait session with Portraits by Thomas; and many other items in perfect time for holiday gift giving.

Jan Sheppard, fund-raising director on the Board, and her co-chairman, Donna Hannay, along with benefit committee members Eileen Bennett, Candy Bryan, Sarah Burgett, Nancy Creswell, Jody De La Chapelle, Debbie Fehsenfeld, Francine Fossler, Gretchen Grant, Debbie Hager, Libby Johnson, Teddi Martin, Mary Schmechtig, Mary Smithe and Kathy Tipper, hope you will join them in experiencing the art of technology while supporting BAAC's mission to keep the arts in motion in the Barrington area.

Reservations for this festive prelude to the holiday season are \$125 per person, open bar included. For further information or to secure your invitation/reservation for this unique occasion, call the BAAC office, 382-5626.

Hold the phone! Your attendance is requested to help BAAC ring up a winner!

This season marks Bill Talidis' 29th year as owner of **The Mink Barn** in Union, Illinois. The reason for our success—we don't sell just any mink—we sell the best. Bill Talidis invites you to visit **The Mink**

Barn. You'll enjoy browsing through our hundreds of ready made garments. Of course, mink is our speciality, but we also have the finest quality in long hair and sheared beaver, raccoon, foxes in all shades, lynx, Russian sable and more. There is also a lovely collection of affordable leathers and microfibers. We carry petites to plus sizes and we will also be happy to design a garment uniquely for you.

We guarantee that whatever garment you choose from **The Mink Barn**, it will be the finest quality fur and workmanship at the lowest possible price.

Aubreys Is Your Rochard Limoge Box Resource

In 1969 I visited Limoge, France and realized that Limoge is a city, not a manufacturer. My mother had always said she loved Limoge China and I, like many people, didn't realize the many manufacturers that are located in Limoge, France.

We have carried Rochard Limoge china boxes the longest of any store in the Barrington area. We are actual collectors our-

selves. We are often copied, but never duplicated in our knowledge and service to our customers. Please come to see and learn about Limoge china boxes during our October Truck Show for Rochard of Limoge, France.

Unsurpassed craftsmanship, careful attention to detail... this is Rochard.

The Reuge Music Box Show At Aubreys

When you think of music boxes I'm sure you think of Aubreys. Whenever you find a music box at Aubreys, it has a beautiful tone and resonance. But the lovely boxes you'll see and hear at Aubreys during our

Reuge Trunk Show will surpass anything we've ever had. Please stop by and enjoy our music box concert.

Art Associates To View

"Degas: Beyond Impressionism"

"Degas: Beyond Impressionism" at the Art Institute of Chicago can be conveniently viewed by participating in a bus trip on Thursday, October 24, sponsored by the Barrington Community Associates of the Art Institute.

This exhibition, displayed only at the National Gallery of Art in London and the Art Institute of Chicago, focuses on Edgar Degas's art work from 1886, the year of the last Impressionist exhibition, to 1917, the year of his death.

Following a slide presentation by lecturer Jeff Nigro, passes to the exhibit will be distributed.

This is the first exhibition to concentrate on the powerful and beautiful late works created by Degas in the autumn of his life. Degas is well known for his realistic portrayal of the ballet, circus, and racehorses, and for his association with the Impressionists. But for decades, myths of Degas's failing eyesight and self-imposed isolation kept his later works shrouded in mystery. In this exhibition his focus on bathers and dancers—through the media of paint, pastels, and sculpture—illustrates his connection to and anticipation of 20th century art.

Busses will leave the Langendorf Park parking lot at 9:15 a.m. and depart from Chicago at 2:30 p.m. The fee is \$15 for members, \$20 for non-members, as space permits.

Reservations are due October 10. Please phone Jeanette Muench at (847) 381-2369. Reservations are due October 11 for a bus trip to the Art Institute to learn about contemporary glass artists Joel Philip Myers and

Edgar Degas, "Two Dancers," c. 1890. Art Institute of Chicago.

Dale Chihuly. This is a members-only event with a \$45 fee. The Associates groups join once a year for this special event. Lunch will be served in the Trading Room, Trustees Room, Woman's Board Room, and the Grand Ballroom of the School of the Art Institute. Busses leave Langendorf Park at 9:15 a.m. and depart from Chicago at 3:15 p.m.

Membership in the Barrington Associates is open to all men and women in the northwest suburbs. It includes a family membership to the Art Institute. For information on membership, please phone Mary Lou Iverson at (847) 359-0941.

Meet Amy Governale Krell

Amy has been a designer at **She & "I"** for seven years and her everyday goal at the Salon is to please her clients. Amy likes to consult with her clients to find out what their hair styling needs are before she even recommends the perfect style, soft perm or color for you.

For a "new" look this fall, Amy suggests warm darker colors with highlighted pieces or even chunks of blond around the face. Longer layers with a soft natural perm will also keep your hair looking good through-

out the Holiday Season! For the young girl Amy might suggest using one of her special braiding techniques which include the "Fish Tail," "French," "Outside French" and "Topsy Tail."

Stop by She & "I" Hair and Nail Salon for a complementary consultation with Amy to discuss the look that is right for you and your every day lifestyle! You can find Amy at the Salon Tuesdays through Saturdays, including evening hours on Wednesdays.

Know Your Diamond Before You Buy

Buying a diamond can be confusing with all the different grading systems out there. In fact it is probably one of the most blind items you will ever buy. When you buy a house, you can have an inspector report its condition. When you buy a car or some other product, you can check with consumer reports. But when it comes to buying a diamond, not many customers walk around with a gemologist in their back pocket.

So when buying a diamond, you need to know more than just the four C's: *Carat, Color, Clarity, and Cut*—you need to know what these words mean. *I've always said that there is a fifth "C" and that is CONFIDENCE!* If you don't have confidence in the jeweler, then the other four C's don't mean a thing.

When you visit **Mitchell's Jewelers** we take the time to show you under a microscope, what to look for in a quality diamond.

Face Up For Fall

Now is the time to change your skin care program, to get rid of sun damage and clogged pores from the sun blocks and oils that have been used this summer.

The best way to start is by having a complete skin care analysis and then going into a deep cleansing facial.

At the **Syd Simons Studio** in Barrington, we have many advanced methods of treating the skin in our treatment rooms. We use peels, ampules and masks for different types of skin damage from abuse like sun, poor diet, tanning beds, etc.

One of our fabulous and very popular treatments is Murad's Rapid Exfoliating Peel. This is a treatment that will slow down aging skin by removing all of the dead cells, so the reproductions of new ones can mature. The major cause of aging on the epidermis is the dead cells that are not reproduced.

We have introduced several new treatments this year, I will touch briefly on them in order.

1. Aromatherapy Purifying Facial for oily skin benefits elimination of comedones, deep cleanses the skin, and helps to control shine.

2. Quartz Mask has many benefits, but I will only mention one of them. The Quartz Mask fights free radicals on the skin utilizing the full power of Cellex-C.

3. Hydro-Moisture Mask is anti-aging for dry skin. It is a wonderful mask with the finest of Shea Butter from the bottom of the sea.

Now that we have the skin in good condition, let's talk make-up. Fall is always a very exciting time for make-up with new colors, shedding your summer wardrobe and your summer make-up. Let **Syd Simons** teach you how to understand your own bone structure with our private make-up lessons, so you can start your fall off with new self-confidence.

New make-up, new clothes all in the right colors for you. What an exciting fall! Don't forget, we offer manicures, pedicures, nail designs and sculptured nails so you can have new hands and feet for fall!!

We are celebrating our 26th year in Barrington the first of October, so we hope to see you. Thank you for your patronage.

Sincerely,
 Cathy Ramstadt, Owner
Syd Simons Cosmetics

Shelter, Inc. To Present Seminar

Shelter, Inc. and the Illinois Council On Training present a Lecture/Interactive Seminar, "Creativity: Successful Interventions for Adolescents in Crisis," on Monday, October 7, from 1-4 p.m., with registration at 12:30 p.m. The seminar will be held at the Arlington Heights Memorial Library Community Room, corner of Euclid and Dunton in Arlington Heights.

One hour will be available for each contact hour. Admission is \$10 at the door. To R.S.V.P. by October 4, or for more information, call (847) 255-8060.

The Mascot Of I.K. Design

Suki was born on June 7, 1984 on the old Wynstone property then owned by Cheryl and Rod Keefer. From the first day Isaac owned her, Suki was a jeweler's dog. Everyday she went to work with Isaac, who in the beginning, worked at Milada Jewelers (for his father) in Skokie.

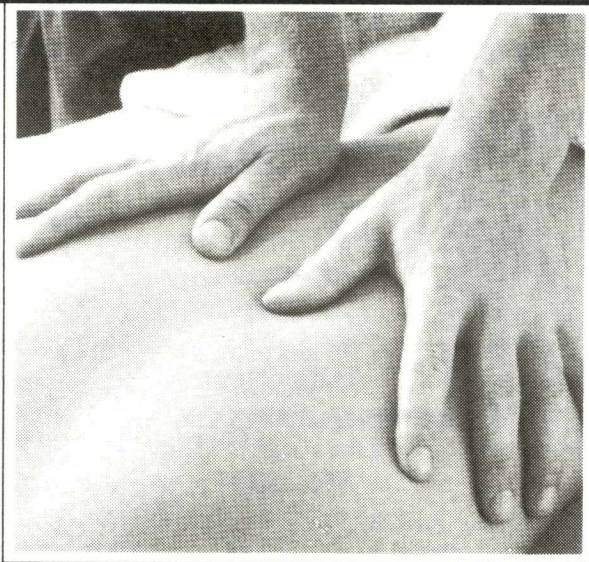

Being inseparable, Isaac and Suki went everywhere together including an east coast 20 year anniversary tour to see the Grateful Dead.

In 1987, Isaac opened **I.K. Design** on Cook Street, and Suki became the official mascot. A quiet dog with a gentle de-

meanor, who if you didn't know she was there, you might trip over her. She enjoyed the attention from the people who knew her and she looked forward to a bone from the UPS and mailman everyday.

In March of 1991 Isaac moved **I.K. Design** to its present location. After a few months Suki was settled in and back to her old lazy ways. She was a dog with a life of leisure and travel. Only once did Suki stay in a kennel over night.

It is with great sadness that we say good bye. Suki passed away on September 5, 1996. She will be truly missed.

The show is featuring everything from bomber jackets to full length coats. Included are: leather only, removable fur liners, Thinsulate liners and the ever popular reversibles. To fill out this collection, a fine selection of shearlings has been assembled.

Shari has also expanded the resale racks to accommodate the terrific response our customers have shown. The selection is fantastic!

You will also see a preview of all the new fur styles in mink, sheared beaver and muskrat for 1997.

Shari's Furs & More does not want to be just a point of purchase. They have climate-controlled storage, make alterations and restyle all types of fur and leather.

Shari's parting statement to her customer is: "Our sales people will treat you with the

same respect they would expect if they were on the other side of the counter."

1997, and a quintet comprised of Chicago Symphony members Richard Graef, assistant principal flute, Alex Klein, principal oboe, Fox Fehling, violin, Roger Cline, bass, and Steven Alitop, harpsichord, April 27, 1997. This final concert outlines the historical development of chamber music beginning with the use of the Baroque instruments and literature to the present.

Tips For A Healthy Partnership With Your Family Physician

- Develop an ongoing partnership for health with your family physician. Consult your family physician promptly when problems arise and continue follow-up until they are resolved.

- Provide your family physician with your complete health history. Be honest and specific about your symptoms. Write them down as they occur including day and time.

- Be sure your family physician knows all of the medications you are taking—particularly those prescribed by other physicians.

- If your family physician prescribes medication, take all of it in the prescribed dosages (unless your doctor tells you otherwise) even if you start to feel better before you finish the medication.

- Take with you a written list of questions and/or symptoms you want to discuss with your family physician. This will help you remember all of your concerns.

- Ask questions when you don't understand a symptom, illness, or treatment. It is your right as a patient to make decisions based on knowledge.

- Ask your family physician for materials that will help you better understand your health needs and any particular conditions you and your family may have.

- Follow your family physician's advice on changes in your daily routine, such as your diet or exercise. If a certain program isn't realistic for you, work with your physician to find one that is.

Dollars And Dentistry—Selecting A Dentist

by Dr. Raymond Kotz

How can you make the correct choices about the cost of your dental care? With the increased cost of everything else, it is only logical to evaluate your investment in dental health.

Evaluating, or reevaluation, starts with selecting a dentist. If you know a dental specialist such as an orthodontist or periodontist, ask them to whom they would send their family for dental care. This should be very reliable.

If you are evaluating a dental office on your own, consider the following things during your initial visits:

- Are employees mature and professional?

- Does the office appear clean and orderly?

- Were you asked to fill out an extensive medical and dental questionnaire?

- Is sufficient time allowed for a careful evaluation of that medical and dental history?

- Does your initial examination include measurements of the crevice or "pocket" around each tooth (approximately 100 measurements)?

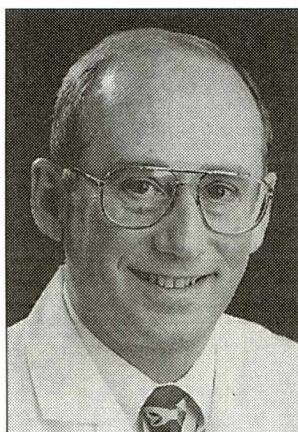

- Do the dentist and hygienist then spend adequate time with you finding out your

dental goals and your level of knowledge about preventive dentistry?

- After this careful evaluation, is a comprehensive treatment plan presented to help you achieve a high standard of oral health?

Dentists who follow the above procedures care about their patients. Their treatment and preventive education helps these patients keep their teeth all of their lives. There are no shortcuts, so choose your dentist carefully.

Dr. Raymond P. Kotz can be reached by calling (847) 381-4040 in Barrington.

"Take Charge Of Your Life, By Taking Charge Of Your Money, A Women's Financial Series"

Critical life events such as marriage, widowhood, remarriage, or divorce can suddenly force women into making unsound decisions on investments, taxes, real estate insurance, and other pressing financial issues. To help women of all ages learn how to cope with the ramifications of their financial affairs, the University of Illinois Cooperative Extension Service (CES) and the American Association of Retired Persons (AARP) are offering a seven-session workshop on consecutive Thursdays from October 10 through November 21 from 7:00-9:00 p.m. The program, entitled "Take Charge of Your Life, By Taking Charge of Your Money," is especially designed to empower women to make informed financial decisions. "What makes this program unique is the fact that there will be no marketing or sales of services," commented Barbara Dahl, CES Consumer and Family Educator. "There are dozens of financial information programs being offered in Lake County but most of them also come with a sales approach. Since 1988, this program has grown to more than 800 sites in 49 states, with an enrollment of 15,000-20,000 participants a year. "Take Charge of Your Life," has a proven track record," said Dahl. The Women's Financial Information Program (WFIP) will

include sessions on getting organized; identifying where you are now and where you want to be; identifying where your money is being spent; making decisions about banking and credit, managing risks; preparing for the unexpected; investing and selecting professional assistance.

"Take Charge of Your Life by Taking Charge of Your Finances" is planned by a coalition of not-for-profit Lake County organizations who participate by identifying and enlisting qualified program presenters, recruiting facilitators and offering support by promoting the educational series. Coalition members include representatives from Wauconda and Cuba Township, League of Women Voters, Barrington Area Council on Aging, Family Service of South Lake County, Barrington Junior Women's Club and Barrington Senior Coalition.

The series cost is \$25 per person that includes a money management workbook and other materials prepared by AARP. Scholarships are available on a limited basis. The fee is nonrefundable, however, it may be transferred.

The seminars will meet at Saint Paul United Church of Christ, 401 East Main in Barrington. The facility is disabled accessible. For additional registration information, telephone (847) 223-8627.

"Two Thumbs Up for OPERATHON 96!" Gene Siskel and Roger Ebert, this year's official spokesmen, both give rave reviews to OPERATHON 96, to be held on Saturday, October 5. This 18-hour radio marathon fund-raiser from 7:00 AM to Midnight over WFMT (98.7 FM), is hosted by Lyric Opera's Chapters' Executive Board and its 20 Chapters located throughout the Chicagoland area. American Airlines is the official OPERATHON sponsor for the ninth consecutive year.

OPERATHON 96 will offer a potpourri of musical entertainment, taped highlights of past Lyric Opera performances, live interviews with many of the 1996/97 Lyric season's artists, and anecdotes and reminiscences from Lyric's rich 41-year history.

More than 300 enthusiastic Chapter volunteers will take pledges and offer surprise bonuses and premiums to entice listeners to phone in their pledges toll free 1-888-726-5700. Proceeds from OPERATHON 96 will help sustain Lyric Opera of Chicago which consistently offers opera in the grand style to appreciative Chicago audiences. Recognized for holding the national record for one-day radio fund-raising by an arts organization, OPERATHON has raised over 3.5 million dollars in its 16-year history.

Special premiums range from auto-

graphed CDs and opera posters to a \$1,000 American Airlines trip for two to anywhere in the continental United States. In addition, a number of Chicago's world class restaurants and hotels have donated meals and weekend accommodations. Other premiums include musical events throughout Chicagoland; exclusive services at boutiques, beauty treatment salons and fitness centers; museum memberships; plus much, much more! A special OPERATHON catalog distributed in late August, provides specific details and descriptions of all premiums and merchandise available.

Chairman of OPERATHON 96 is Mrs. John (Cabrina) Moran of Burr Ridge, Illinois. This is the 17th Annual OPERATHON for the Lyric Opera Chapters.

Siskel and Ebert agree! It's "Two Thumbs Up" for OPERATHON 96. The official spokesmen for Lyric Opera of Chicago's 18-hour radio marathon fund-raiser over WFMT (98.7) FM, rate it four stars. Phone toll free 1-888-726-5700 from 7 AM to Midnight to receive special premiums and surprise bonuses. From A Pro-Fit Customer

I was looking at this ad in this publication six months ago wondering if I should call. I kept the *Lifestyles* magazine by my bed for several weeks. I didn't know if a personal trainer could help me. I am 42 years old and have two children. I had back surgery two years ago and I had chronic neck pain. I was facing some stressful situations in my life which caused me to be depressed. We didn't have any fancy exercise machines, we had a couple of old pieces of exercise equipment that were covered in dust and I really didn't know what I would be able to do. I also hated to sweat. I never was exposed to much physical activity and therefore never felt coordinated or comfortable with it. I didn't really know how to exercise. I spent the last few years horseback riding, but other than that, nothing. I spent \$140 on a health club and used it once. I finally made the call to **Pro-Fit** still not knowing quite what to expect.

I've been working with a trainer for six months now. My trainer spent quite a while during the first session just listening to me and asking me questions about myself and my lifestyle. I felt like she really understood me and was concerned about me so I thought I would give it a try. We work out

in my home with the old exercise equipment as well as with some rubber band things she brings with. We don't have the space for much equipment and it has really surprised me what we are able to do with the space and equipment we do have.

The results have been wonderful. I have lost 10 pounds. My neck and back have not hurt me since we began. I used to be in constant pain. I am most pleased with my legs, however. I used to have thin legs but they were toothpicks. My legs have muscle and shape for the first time. I am not stiff anymore. When I get out of bed, I don't roll out, I can actually sit up. Every morning my body used to ache. Now it doesn't. I have been able to keep the depression under control and really feel the best I have in years.

I enjoy being in my home to exercise. I don't have to worry about leaving the kids or packing up my bags to go somewhere and work out. I look forward to my training sessions.

Sandy

Symbols Of Haeger Potteries' 125th Anniversary

Alexandra Haeger Estes, chairman and president of **Haeger Potteries**, holds a replica of her ceramic company's first glazed piece, a classical vase, which preceded millions of others manufactured and sold over the 125 year history of America's oldest and largest

production artware pottery. The antique bricks (shown on desktop) represent millions of others which the company fired in 1871 to help rebuild a great city in ruins after the Chicago Fire. Estes' great grandfather, David H. Haeger, founded the company that same year.

A Secret Destination

by Eleanor Nelson & Sally Hayward, Travel House

Last winter my husband Jim and a group of men friends left on their annual Winter Golf Outing. They chose a destination that was so overwhelmingly beautiful, where the golf was so fabulous, the water so spectacular, the amenities so outstanding, the group has decided to again return to the same destination in 1997. Where is this destination one asks? The answer is Los Cabos, Mexico.

Los Cabos is a secret spot at the tip of Baja California, a resort community that is quickly becoming a golf mecca. It is a place that has become a popular resort destination, a seaside corridor between San Jose del Cabo and Cabo San Lucas, Mexico. Easily accessible from the U.S., Los Cabos is a place of ultimate beauty where rugged mountains loom over the desolate beauty of the desert, and the waters of the Pacific Ocean meet the Gulf of Mexico.

This vacation resort is a perfect blend of seclusion and amenities. For those who enjoy visiting Mexico and who do not play golf, you will be kept busy enjoying the sun, deep sea fishing, snorkeling, following the whales, horseback

riding and catamaran exploring. The hotels are outstanding, the shops wonderful, and the nightlife is a combination of the best Mexican and International Cuisine Mexico has offer.

My advice to those of you who would like to discover this extraordinary place; discover Los Cabos before everyone else does!

Reiki... A Responsibility, A Gift, A Powerful Ancient System Of Healing

Reiki classes are now being offered in Crystal Lake through **Pamela Arwine, Ct. Rubinfeld Synergist and Reiki Master Teacher.** Class schedules and locations can be obtained by calling her at 815-455-4502.

Reiki (ray-key) means "spiritually guided universal life force energy," (ki). Life force energy animates matter, balances our body, mind and spirit; it keeps us healthy when in balance; it makes us ill when out of balance. Imagine what learning to vitalize, enhance and guide this life force can do for the state of your emotional and physical health!

The practice of **Reiki** was lost for many centuries, but Dr. Mikao Usui, the principal of a Christian seminary in Japan, rediscovered this ancient healing method in the middle of the nineteenth century. Whether your goal is self-healing, providing assistance to loved ones, or becoming a professional **Reiki** Master Teacher or Practitioner Level—all that is required is the desire to learn **Reiki** and use it ethically. It was intense desire which led Dr. Usui to his discovery. **Reiki** is a holistic method which reaches all levels of one's existence and works to bring them into

You Are Going To Love Celebrating With 3Chefs

It was a summer of festive parties and weddings and now it's time to plan for the holidays and '97 receptions. The beautiful summer of '96 found 3Chefs catering under the stars of joyous tent receptions when Shannon Coll and Paul Horne celebrated their vows on the banks of the Fox River. Kathy Windt and Mark Bartlett wed by their family garden pond on the first warm night of May. Their guests ate and partied under a vaulted tent until the early morning. The Fletter/Vanostenbribe wedding dazzled the grounds at the DuPage County Airport. From the airplane hangar reception, guests were fascinated at the sight of planes landing and departing under a sky illuminated by a brilliant moon and millions of twinkling stars. Some of the other memorable events include:

Mr. Block's 80th birthday bash in Bannockburn, an authentic luau with tiki hut and palm trees planted in West Chicago, and the wedding of Kathleen McCarthy and Mark Suda. It was a perfect August summer night as 350 guests feasted and celebrated in a spectacular 8,000 sq. ft. tent.

Grand parties they were and a great joy for 3Chefs to serve. Time suddenly falls into place and October feasts, harvest gatherings and year end galas are now needing to be planned. Call Gery or Dyan at 3Chefs catering services and fashion an enchanted

evening of fun, food and flair. 3Chefs has a long standing reputation for excellence in catered foods and has many menu options to choose from. In addition, they will help you plan every detail of your special occasion by providing tables, chairs, linens, tableware, flowers and a friendly service staff. Reserve your holiday parties early, phone 516-CHEF.

Traveling . . . with Carlson Wagonlit Travel

Australia A Bargain

Australia may seem far away, but package deals and low airfares have kept it accessible for North American travelers. Even better, U.S. dollars buy more Down Under than in most other overseas destinations frequented by U.S. travelers, according to a recent study by Plog Research Inc., which compared costs for items often purchased by U.S. travelers overseas. Plog found that prices in Sydney, Australia's most frequently visited city, were often 50 percent less than similar expenditures in Rome, Paris, London or Tokyo. For example, a dinner for two with wine at a 3-star restaurant averages \$74 in Sydney; \$141 in Rome; \$251 in Tokyo and \$298 in Paris. As an added bonus, tipping is not required and there's no additional value-added tax. Hotel prices are similarly inexpensive: a night at a four-star hotel in Sydney costs \$136; prices jump to \$241 in Rome; \$333 in London; and \$345 in Tokyo. And one thing about Australia is totally free: the Australia Vacation Planning Kit. It's yours by calling 1-800-DOWNUNDER. Stop in to discuss your Australian travel plans with Carlson Wagonlit Travel in Barrington.

A Cell Phone in Every Hotel Room?

Coming soon to a hotel room near you: a cellular phone that acts as an extension of your room phone (when your room phone rings, the cell phone rings simultaneously, no matter where you happen to be). Provided by a company called Inn-Cell, the new system is being offered by a few hotels now but should be available at many more next year. Some hotels will also offer to program your existing cell phone (if you've brought it with you) as a room extension. Each hotel will establish its own

charges for the service, but those currently testing Inn-Cell say that rates will be less than using your own phone, since there will be no "roaming" charges, which are typically quite expensive for cell phone users traveling outside their normal coverage area.

30 Second Rental with Alamo

What can you do in less than 30 seconds? Use an ATM machine? Tie your shoes? Put on a tie? How about renting a car? Yes, according to Alamo Rent A Car, if you use Quicksilver, a new express check-in service. Simply go directly to Alamo's Quicksilver Kiosk, insert a credit card or Quicksilver card, and press the "Print contract" button. A few seconds later, the rental contract pops out and you're on your way. By the end of the year, Quicksilver will be available at over 90 locations in North America, and at Heathrow and Frankfurt airports in Europe. Quicksilver is free for some corporate customers, and is available for leisure travelers for \$50 a year.

Family Travel Trends

When it comes to the family vacation, kids often rule, with 67% of the parents who responded to a new survey saying their children heavily influence their annual vacation choice. The Carlson Wagonlit Travel survey on family travel habits also found that when money was no object, cultural/educational trips won out over less lofty pursuits—26% chose the Great Wall of China, for example, beating out Disney World at 19%. And when asked whom they thought their younger kids would prefer as a seat mate on a plane—36% of parents named themselves, then Mickey Mouse (9%). Barney came in fourth, at 6%. Take that,

Tax On Retirement Plans

by Sharon L. Keller, J.D.

Fall is upon us and the chill in the air reminds us that winter is not far behind. Also, 1996 will soon be a memory and we will be getting even closer to the year 2000. I thought a few rules concerning retirement plans might be useful for year end planning. People participating in qualified retirement plans may be subject to additional excise taxes imposed by the Tax Reform Act of 1986. Qualified retirement plans and IRAs have special tax treatment because they support an important social goal: an adequate income for retired people. Qualified plans permit the deferral of income, generally until retirement. Amounts accumulated under a qualified plan are not included in the employee's gross income until distributed. The IRS has adopted rules that prevent the distribution of benefits from retirement plans to people still in the work force, require the distribution of benefits to people who have attained what has been established as retirement age, require substantial annual distributions once distributions commence and prevent the use of plans to provide excessive annual distributions to plan participants and excessive death benefits for beneficiaries.

In 1986, the Tax Reform Act established a rule for taxing early distributions from qualified retirement plans. Early distributions are those that occur before the plan participant reaches the age of 59½. A 10% excise tax is assessed to these early distributions and the amount received is included in the gross income of the employee.

Thomas, 50 years old, was in the investment business. His business was not doing well, he withdrew \$200,000 from his individual retirement account. Thomas had intended to treat this withdrawal as a loan

from his IRA which he would eventually repay. However, Thomas' business continued to incur losses and he could not repay the funds to his IRA. His case went to the Tax Court and the Tax Court held that Thomas was liable for the 10% additional tax on premature withdrawals from qualified retirement plans before the age of 59½ and the withdrawal must be treated as income and taxed accordingly.

It is very important to closely scrutinize early withdrawals from retirement plans. If distributions are made improperly, the net result might be a taxable distribution coupled with a 10% excise penalty, and an emaciated retirement plan.

Next month we will discuss mandatory distributions and penalties for leaving too much money in your retirement plan when you die. Have a safe and healthy October.

Northern Illinois—Southern Wisconsin Writer's Conference

Cary's Deb DiSandro is one of seven Illinois presenters teaching creative writing workshops at the University of Wisconsin's Writer's Conference in Janesville, WI on Saturday, October 19.

A humorist and syndicated columnist, DiSandro will explain how to transform everyday situations into funny anecdotes and add comic relief to reduce dramatic tension in a story.

The conference offers 12 classes for beginning and experienced writers, and runs from 8:30 a.m. to 4:30 p.m. Workshops include fiction, nonfiction, getting published, novel writing, short stories, humor writing and more.

It features a "Writers on Wheels" workshop for the disabled and for those who work with the disabled. Quadriplegic non-fiction writer Jan Svoboda teaches how to overcome what might be perceived as obstacles and how to write pieces that include disabled characters.

In Black & White, a not-for-profit writing center in Woodstock, is co-sponsoring the event. The writing center is a focal point for a large network of services to assist writers to compose and publish their work. Cost

for the event is \$25 per workshop, or \$80 for four workshops.

Recently appearing on "Oprah," renowned author and keynote speaker Dr. Marshall Cook of UW Madison presents 10 ways to make short stories better, and novelist Barbara Gregorich, Chicago, teaches the elements that go into writing successful fiction, nonfiction and children's books.

A college creative writing instructor and owner of Arctic Wolf Press, Tom Gardner, Marengo, focuses on how to captivate readers through a unique approach to plot and character development. Author, journalist Pat DiPrima of Woodstock shares tips on how to write a story or article with a compelling opening to grab reader interest.

Judy Snyder of Cary, author, columnist and motivational lecturer, tells how to overcome procrastination, develop creativity and write even on bad days. Free-lance writer and editor Alan Stewart, a Cary resident teaching on three continents, offers guidance on how to get your work published.

Janesville is an 80 minute drive from McHenry County. For additional information or a brochure call (815) 338-5096 or to register call (608) 758-6541.

Working Wonders With Weeds

Nature's bounty, as seen through the eyes of a weed collector, is the basis for the program at the next meeting of Garden Club of Inverness on Thursday, October 17, 1996. Now there's a concept! All along we thought weeds were meant to be pulled up and tossed out with other garden debris. However, Colleen Weiler has other ideas on the subject of weeds which she will share with those attending the meeting. Specializing in the use of roadside materials, Colleen shares the knowledge she has gained from searching, picking and preserving these materials, and demonstrates the design techniques used in creating unusual dried arrangements. An arrangement will be given as a door prize.

Colleen Weiler is Past President of the

Milwaukee Judges Council and the Western Acres Garden Club. She serves on the Board of the Wisconsin Garden Club Federation, Milwaukee District Garden Clubs and the National Council of State Garden Clubs, Inc. She teaches floral design at Milwaukee Area Technical College. In addition, she created arrangements for the book "Pods: Wildflowers and Weeds in Their Final Beauty" by Jane Emberson, which is a visual guide to 150 natural roadside materials found in the Great Lakes area.

Join members of the Garden Club of Inverness, a member of District IX of the Garden Clubs of Illinois, Inc. and the National Council of State Garden Clubs, Inc. at their meeting on October 17. Membership is not necessary to attend and guests

ALAN WOLTON... at The Studio of Long Grove Galleries

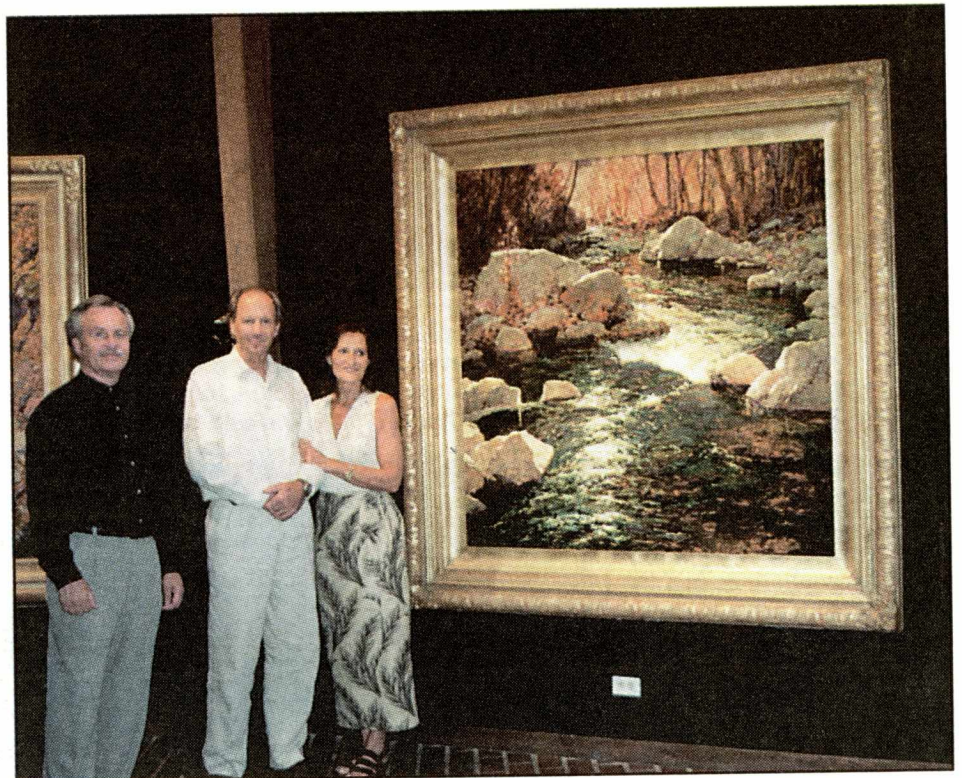

45 original works, the largest U.S. showing to-date of this major artist's impressionist landscapes

"If I have an obsession in my art, it is to bring a feeling of warmth into the heart of the viewer, to produce a painting with such tremendous appeal that it is not judged, it is felt."

Judging by appearance, Alan Wolton could easily be a product of the American Southwest. His keen eyes, set in a ruggedly handsome face, sparkle warmly as he gives a hearty, gripping handshake upon first meeting. Six feet, three inches tall, he has

a robust stature with a presence that would seem comfortably at home in the jagged terrain of the Southwest where he lives. When he speaks, however, his accent tells of an origin far from his present home.

Wolton's birthplace was England and

he was raised in South Africa. An outdoorsman and an individualist from a very young age, Wolton became discontented early on with formal artistic training. Back in England however, at the age of 20, a self-guided study of the style and techniques of Britain's nineteenth century landscape artists proved to be the path to developing the powerful, impressionistic style that has become characteristic of his work.

Painting in South Africa, his art met with success in spite of a political and social climate that he describes as 'artist strangulation.' In 1983, exhausted from years of tempering his natural style to pacify agents and critics in that country, he decided to leave for the U.S. Here Wolton has found a sense of "finally coming home"—the rugged scenery of the Southwest with its heat, dryness and brilliant light provides inspiring subject matter, and he

has found the artistic freedom to concentrate on a pure expression of nature's beauty. "I am a man of the outdoors," he says. Through countless hours spent in the mountains and at the seashore, Wolton has "stalked his landscapes, hunting for the most picturesque or dramatic views." His paintings, which are created indoors in his studio, evolve from the mood evoked while in the wild—from a certain sparkle in a mountain stream, ruffled leaves in the wind, or the crash of ocean waves on jagged cliffs. The memories of the initial emotional response he finds in nature typically take time to develop in his mind into a vision of the finished painting. Only when he knows what the final appearance of the painting will be, does he begin to paint—often feverishly and to the point of exhaustion. "I'm remembering the mood," he says, "the power and the purpose, not the actual linear design." And although Wolton has become known for monumental-sized works, even his smaller paintings express this power.

His impressionist techniques—the use of pure and brilliant splashes of color, and a warm underglow of bright color shining through transparent layers of paint—allow Wolton to powerfully articulate the emotional vibrance and fury of nature. In describing one of his land-

scapes, he points out that "when you get up close, you'll see these tremendous sweeps of brilliant color and, really, you're not quite sure what they represent. But when you step back, there's a vitality and a suggestion of mood or power within the landscape and if that strength was not there, the painting would not carry."

Wolton dislikes being referred to as an artist. To me, that term immediately implies an arty facade. It is not my concern to present the facade of an artist. I let my paintings speak for me—for themselves. If I must have a label, let it be that I am a painterly poet." Nature's beauty painted honestly and powerfully. **The Studio of Long Grove** is honored to present the works of Alan Wolton.

Julio's Celebrates Their 5th Anniversary With Grand Opening

When Cindy and Julio Ramirez opened the doors of their tiny cafe at Lakeview Plaza in Lake Zurich, they wondered if they would be able to fill the seats.

It didn't take long for them to get their answer. Over the past five years, **Julio's Latin Cafe** has become so well known for their outstanding cuisine and friendly atmosphere, that they have outgrown their current location. However, they won't be moving anywhere, they'll simply be expanding.

Julio and Cindy Ramirez enjoy a meal at their Latin Cafe in Lake Zurich.

During the month of September, **Julio's** will be remodeling to expand the dining room. They plan to be closed for approximately one week in late September and will reopen with a **Grand Opening Celebration** in early October. "We will offer a number of different promotions during our Grand Opening, including South American wine tasting and tequila sampling. We want to celebrate with our clientele," said Cindy Ramirez. "The expansion of the dining room opens up lots of new opportunities for business lunches, family gatherings and holiday parties. In the past, there just wasn't room to accommodate a large group."

The menu at **Julio's** includes excellently prepared dishes from countries throughout South America and the Caribbean including Mexico, Cuba, Brazil, Argentina and Chili. (A children's menu is not offered.) If you are in the mood for an appetizer or a

libation, you can enjoy Spanish-style tapas along with a selection of 10 different varieties of margaritas and 16 types of tequila. Or, try **Julio's** specialty, a Caipirinha (Kai-par-eeen-ya), the national drink of Brazil. The drink is a blend of Cachaca rum with lime juice and sugar.

Enjoy live entertainment on the weekends with the Dan McIntyre Jazz Group performing on Friday evenings and Paulo Garcia, Brazilian recording artist, on Saturday evenings.

Now is the perfect time to reserve **Julio's Latin Cafe** for your private parties and corporate holiday gatherings. Call Cindy Ramirez for further information and reservations at (847) 438-3484. Dinner is served every night beginning at 5:00 PM. Lunch is served Tuesday through Friday. Reservations are encouraged on the weekends. Dress is casual.

Julio's Latin Cafe is Expanding

Over the past five years, Julio's Latin Cafe has become well known in the North suburban area for our unique South American cuisine and warm atmosphere. To celebrate our anniversary, we are expanding our current location!

Julio's dining room will remain open during most of the remodeling, but will close for a week in late September to complete the expansion. Then, watch for our Grand Re-Opening during October.

Make your reservations now for your holiday gatherings and corporate parties.

Save A Trip To London And Get The Finest In Barrington

What started as a collection over thirty years ago of fine English nautical artifacts and fine antiques for Port Edward Restaurant in Algonquin, Illinois is featured at Jan's Of London in the Barrington Ice House Mall. "It's either a fine store in a great area or build another addition to the restaurant to display all the great things I have in storage" said Edward Wolowiec of Port Edward.

At the heart of this collection are friends and global travelers that Wolowiec has known and worked with for over twenty five years. Yes, there is a Jan's of London but it's more fair to say it's a husband and wife team, Frank and Jan Van Spaul that started with a few shillings on Porta Bella Road in London and built that to a successful international business with outlets in Europe, Canada and the United States.

When the Van Spaul's sold their factories in England and international outlets to concentrate on Real Estate on three continents, Wolowiec acquired many of the "treasures" to add to his warehouse. When in London, Frank and Edward haunt Christies, Sothby's and other auction houses for one of a kind cased models, sextants, telescopes and other nautical artifacts that are featured in the Barrington shop. The "International Cargo" are affordable accessories for the home or office from other

parts of the world.

Another friend and global businessman is Paul Yih of China West Gems and Gem Explorers. Born of Chinese parents in Brazil and a brilliant designer, Yih selects the best gems from his Brazilian mines (supplies QVC and others with the rest) and supervises top goldsmiths in Asia to produce beautiful jewelry that typically have two gems stones with two precious metals such as silver and gold. Jan's Of London will be featuring Paul Yih's beautiful jewelry and very attractive prices.

Jan's Of London (847/381-5767) is located in the elegant and charming Barrington Ice House Mall along with twenty unique and diverse shops. The Ice House Mall is located at 200 Applebee Street in Barrington, Illinois.

Water Feature Specialist At The Barn

Water gardening is becoming the newest trend in landscaping. With that in mind, **The Barn Nursery and Landscape Center** is enthusiastic about the latest addition to its landscape and design firm based in Cary: **David Duensing**, who will coordinate water garden design, and construct and maintain waterfalls and water gardens.

Previously David operated his own waterscaping firm, **D. B. Duensing & Company**. David has transformed his love of nature, especially ponds and water features, into a rewarding career. His progressive methods create practically carefree, natural looking environments ranging from small, intimate backyard ponds to large cascading waterfalls for the corporate community. A natural, non-chemical purification system keeps the water clarity high, allowing fish and aquatic plants to thrive in an ecologically sound environment and ensuring natural insect control.

Trying to tune out the traffic, airplanes and countless other noises that are wearing you down and adding stress? Create some quiet in your life by adding a backyard water garden—nothing beats the subtle gurgle and rush of cascading water. The experts at

The Barn Nursery and Landscape Center can integrate a water feature into your home landscape naturally, blending it with the contours of your property. Part of the beauty of any water feature is also the technology that keeps it simple to maintain. Your ponds' water level is regulated by an automatic filling system. Algae growth is controlled by the combined effect of the cobblestone and gravel base, a biological filter and nontoxic bacteria. Adding low-voltage lighting fills the area with a warm glow in the evening. Beautiful aquatic plants and fish complete the ecosystem.

It's been said gardening is as much for the spirit as it is for the eyes. Thanks to the sound of bubbling water, a water garden provides an especially good way to soothe a tired spirit!

If you'd like to add water to your landscape as an antidote to fast-paced living call the experts at **The Barn Nursery & Landscape Center**. The staff has been designing professional award winning landscapes for 28 years. In addition to distinctive water features, it specializes in custom stone work, brick pavers, retaining walls, landscape design, renovation and installation. Please call **847-658-3883**.

Purple Is The Color Of A Bruise

During the month of October, purple ribbons will be worn nationwide in recognition of domestic violence. Every fifteen seconds a woman is battered. Every minute a woman is raped. Ten women die each day as a result of domestic violence. An overwhelming percentage of women and children who are homeless have been sexually victimized.

Domestic violence takes many forms including physical and sexual assault as well as psychological, financial and emotional abuse. Not all violence leaves visible bruises, scars or broken bones, but *all* forms of violence leave invisible, hurtful and damaging bruises on the heart.

The Parish Social Ministry, a department of The Catholic Charities Archdiocese of Chicago since 1971, has collaborated with United Way community agencies, synagogues and churches to organize the Purple Ribbon Campaign for October Domestic

Violence Awareness Month.

In October wear a Purple Ribbon to protest violence against women. Create your own Purple Ribbons and contact Linda (information follows) to obtain a Purple Ribbon Campaign Handbook for your group. The Purple Ribbon Campaign Handbook contains directions for making purple ribbons; domestic violence facts; prevention tips; questions and answers; resources for videos, support groups, speakers and local organizations to contact for assistance; plus information and referrals are available. To order the Handbook, please send a check in the amount of \$12.50 (includes shipping and handling) payable to Parish Social Ministry Consultation Services, 1911 Rohlwind Road, Suite E, Rolling Meadows, IL 60008.

For more information, please phone Linda, Parish Social Ministry, Rolling Meadows office of The Catholic Charities (847) 870-0560, extension 225.

Native Art Gallery Celebrates 4th Anniversary

A formal Anniversary Celebration is planned October 11, 12, and 13 at **Tribal Expressions** in downtown Arlington Heights. The three day open house will be attended by Hopi jeweler, Watson Honanie. Participants will enjoy Buffalo barbecue, beverages, and will have a chance to win one of four native treasures.

Since opening in 1992, **Tribal Expressions** has emerged as a leading source for authentic Native art. Dedicated to the sale and distribution of quality jewelry, baskets, pottery, rugs, painting, and other handicrafts, **Tribal Expressions** caters to discriminating individuals who demand value in all purchases.

To promote community understanding of native cultures, **Tribal Expressions** regularly sponsors lectures and demonstrations by leading native artists. To this end, the public is invited to meet Watson Honanie during their 4th Anniversary celebration. Specializing in gold over silver, Watson

Watson Honanie's hallmark, or signature stamp, is a bear paw, symbolic of his clan. The small crescent figures within the outline represent "friendship."

will discuss his techniques and his Hopi cultural heritage. Demonstrations will be held Saturday and Sunday on a continuing basis.

Meeting The Homework Challenge

When a child is struggling with homework, it's easy for parents to want to step in and help. However, there is a fine line between helping and taking over. "Helping" does not include drafting a research paper or relearning the first three chapters of Algebra I.

Parents sometimes forget that children are learning discipline as well as content. If you do your child's homework, it may create feelings that he or she is not really a capable person.

"The primary purpose of education is to outfit children for self-sufficiency," says Dr. Raymond Huntington, founder and president of the **Huntington Learning Center**. "Children need to make mistakes in order to learn. You can help your children accept the fact that the amount of effort they exert determines whether they succeed or fail in school. If you want your child to develop a successful attitude towards the challenges of life, you must not be afraid to let him or her get frustrated."

According to Huntington, there are many things parents can do to help children with homework hassles, without taking over their assignments:

- Show your child how to find important information in a chapter by using introductions, heading, bolded phrases and summaries.
- For term papers, help your child break

down a large assignment into smaller, more manageable tasks. Students can budget their time by creating a "project calendar." Creating an outline, planning research time, taking notes and writing the paper should be scheduled activities. This will help your child learn to structure what needs to be done and learn organizational skills to use in future assignments.

- Remind your child to ask questions in class when the material is being presented. Teachers can provide guidance and will emphasize the most important information.

- Set aside a block of time and a quiet, comfortable place for studying. Make sure your child completes homework assignments during this study time.

Homework is an educational tool, intended to teach children to organize their time and work efficiently without an adult's supervision. You can help your child to handle this responsibility and develop the skills he or she will need for future academic challenges.

If your child is struggling with independent work, it may be more than just poor study skills. Your child may lack the basic reading or math skills needed to handle more advanced work. For more information, or to discuss a specific problem, contact the **Huntington Learning Center** in Barrington at 382-3655 or in Buffalo Grove at 459-5939.

Our children battling against cancer can't take the chance. They have to stand-in-there and try to hit one "out of the park"!

America's consumers always respond with their hearts and their pocketbooks to life threatening causes.

"With our kids... the most precious day of the week is tomorrow."

Our kids need major companies as sponsors, as contributors, as volunteer groups, as champions in this very desperate fight for life.

Visible participation with charitable giving (cause-related marketing) can afford companies a strategic advantage in today's highly competitive business world.

Our kids with cancer have very few todays and tomorrows without the help of private citizens and corporate America.

"Shamefully, there is no research to answer why more children are diagnosed with pediatric cancer than any other major condition or disease."

A corporation or an individual can be a real winner. Please call for a brochure, video or to help.

Art Institute's New Interactive Children's Exhibition Sets The Stage For Stories From Around The World

From the time-honored tale of Rip Van Winkle to the medieval story of St. George and the dragon to the legends of royal ancestors from the Kingdom of Benin in southern Nigeria, children and adults can explore the centuries-old tradition of storytelling at The Art Institute of Chicago. *Telling Images: Stories in Art* is a new major exhibition for young people, which presents six masterworks from the museum's collections, each in its own dynamic setting that helps to tell the story of the art and the artist, along with a hands-on activity room featuring computers, writing tables, a puppet stage, and games to explore these carefully chosen objects from around the world. *Telling Images* opened to the public Sunday, September 22, 1996, in the Art Institute's Kraft Education Center.

The installation for *Telling Images* was designed by award-winning architect Stanley Tigerman. It was created with the help of the Art Team, an advisory group comprised of 12 children, ages 8 to 13, who contributed ideas and feedback for the installation design. Mr. Tigerman and members of the museum staff worked closely with the young people over the past 12 months to create the ideal learning environment for each artwork based on the exhibition's theme. The project director for *Telling Images* is Jean Sousa, associate di-

Ivory Epps—a member of the Art Team and one of 12 children who helped design "Telling Images: Stories in Art"—looks at an installation model with award-winning architect Stanley Tigerman. rector for Exhibitions and Family Programs in the Art Institute's Department of Museum Education.

Telling Images is a place where kids, ages 7-12, can explore their dreams and spark their imagination through folklore, history, mythology, and fantasy, represented in six original works of art, each on

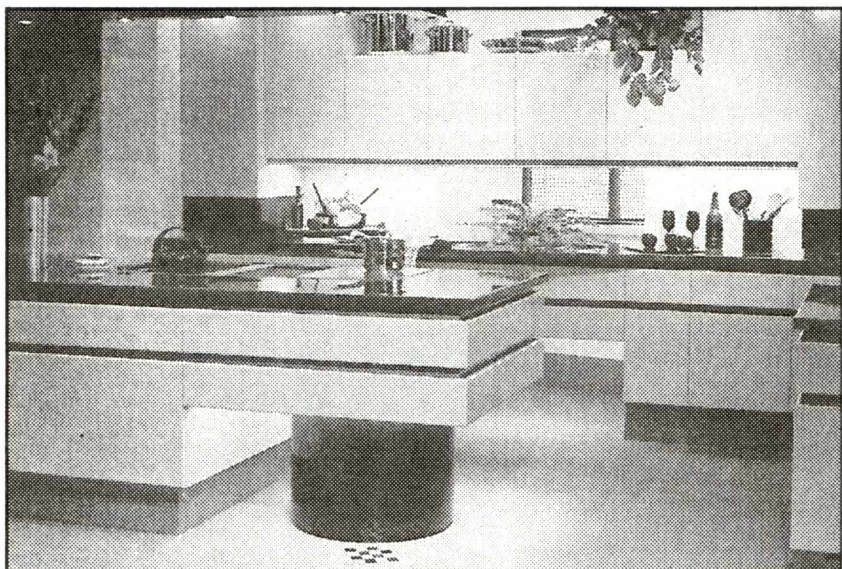

view in a unique space created specifically for the object. In addition, a special hands-on area in the exhibition nurtures creative thinking by offering computer games and activities to explore the story of each artwork in various ways.

Telling Images: Stories in Art will remain on view for approximately three years. A variety of programs, including storytelling sessions with children's book authors and illustrators, theatrical performances, live puppet shows, and dance programs will be offered year-round.

The six original works of art, each in its own environment presented are: Bernardo Martorell's painting *St. George Killing the Dragon* (1430/35), a 16th-century bronze *Statue of a Standing Vishnu*, John Quidor's painting *Rip Van Winkle* (1829), a 19th-century *Nigerian Royal Altar Tusk*, Walter Ellison's painting *Train Station* (1936), and Martina Lopez's digital photograph *Heirs Come to Pass*, (1991). For public information call (312) 443-3600.

In a dramatic tale of the highest order, the story of St. George, the Christian knight who killed a horrific dragon to rescue a princess and save a town, is told in one of the museum's favorite paintings for children. Shown: Bernardo Martorell, Spanish. St. George Killing the Dragon.

Work With Experts When Planning A New Space For Your Home

Why do so many homeowners find the process of remodeling or adding on to their homes so intimidating? "Too much information from conflicting sources," says Mark Zurek, president of **Delta Renovations**. "The whole process is by nature an emotional one because it involves entrusting others with not only money, but with the comfort and security of home and family."

Delta Renovations has built its business by analyzing the needs of its clients and finding the best way to meet those needs. Every project presents a unique situation and requires services tailored specifically to that situation.

For clients considering major renovations or an addition, they often recommend the "Design-Build" process. Projects of this type call for the involvement of an architect. This is not only because local building departments will require that submitted drawings include an architect seal, but also because the architect has been trained to combine technology and aesthetics. We have all seen homes that have had their character totally destroyed by a less than sensitive addition. "A good architect is able to add the extra space so that the addition itself is undetectable, and the home is even more attractive," says Zurek. "The down

side of using an architect in the remodeling process is usually budget." Many times, the homeowner will hire an architect and fall in love with his plan only to find the bids coming in astronomically higher than their target budget. Because the architect isn't intimately involved in the bidding process, he is often unable to accurately predict the cost of building what he has drawn. **Delta Renovations** is proud to announce the inclusion of Margaret Nowak, A.I.A. to its staff of industry professionals. We are now able to offer complete in house design services, and the benefits of a design/build association to our clientele. "We have spent years developing our relationship with suppliers and subcontractors who we know provide, at a fair price, the best products and the top-notch service I demand," continues Zurek.

If you would like to see how **Delta's** "Design-Build" process will fit into your plans, please call Mark Zurek at **776-0121**. There is no obligation for a consultation. **Delta Renovations** can also help homeowners with less extensive remodeling plans, like redoing existing kitchens and baths, using the in-staff designers with **Delta's** sister company, **Barrington Kitchen & Bath Studio**.

What You Should Know Before Buying A Brass Lamp

Before you buy that brass lamp, be sure you know what you are getting, because not all brass is the same. In fact, a lot is only plated—which scratches easily and will eventually wear off. However, these lamps are easy to spot: they're usually quite cheap... and very lightweight. So unless you are looking for only a short term decorating fix, they are best avoided, simply because they don't last.

Finding the best quality and value in true solid brass is a little trickier. Solid brass doesn't come cheap—a good solid brass 26" table lamp will run you from about \$150 on up—unless it is on special sale. And there are vast differences in quality. Many solid brass lamps are made from stampings, a process which is cheaper and of lower quality, subject to easy cracking and denting... ornamental details and embellishments are often poorly defined. Top quality brass lamps on the other hand are made by painstakingly casting each individual lamp part.

It's a process that's undeniably more expensive and time consuming, but it still is the only way to produce a top quality, solid brass lamp... and right now, some of the very best cast solid brass lamps available today are on sale at **L & W Lamps**, right here in Barrington—and you'll even get your choice of shade! But that's not all. For a truly custom look, **L & W Lamps** can even change the finish on your solid brass lamp to match other brass in your house: Antique, Flemish, Old English, Satin... there are many wonderful choices, and **L & W Lamps** is one of the few places in the country that still offers this intriguing service!

So stop by and take advantage of a very special sale. **L & W Lamps** is located at 710 S. Northwest Hwy., Barrington. Hours are Monday, Tuesday, Wednesday, Friday, and Saturday 9 am to 5 pm, Thursday 9 am to 7 pm. **847-382-3195**.

"Summer Swing," Junior League's Annual Fund-Raiser, Raised More Than \$65,000 For Charity

The Junior League of Chicago's annual summer fund-raiser, "Summer Swing," was a great success, attracting more than 1,000 young professionals to the rooftop deck of Navy Pier. More than \$65,000 was raised to support the 19 community projects of the Junior League, which include programs for abused and neglected children, the homeless, the mentally and physically disabled, pediatric AIDS and adult literacy.

The weather was perfect on Friday, August 2, 1996 from 8:30 - 12:30 a.m. as guests danced the night away to the "ultra funk and super soul sounds" of Rhythm City and enjoyed delicious hors d'oeuvres and cocktails overlooking the beautiful Chicago skyline under a star filled sky.

The Junior League of Chicago is a not-for-profit organization of women committed to promoting voluntarism and to improving the community through effective action and leadership of trained volunteers. Founded in 1912, its purpose is exclusively educational and charitable. With a total membership of over 2,500, the Junior League reaches out to women of all races, religions and national origins who demonstrate an interest in and a commitment to volunteerism.

Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Solar Gard residential films are now backed by a lifetime warranty. Solar Gard films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, displays, etc.

Solar Gard also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

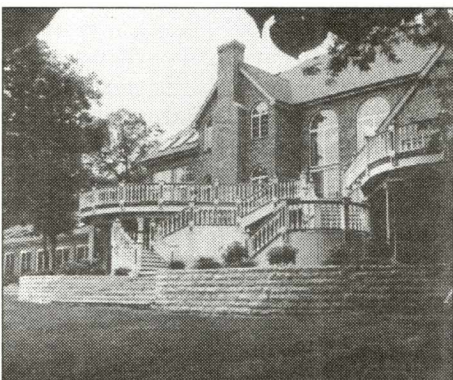

Window film also increases safety with pressure sensitive adhesive. The adhesive bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, burglar, etc.

Glare-Not Inc. has provided savings and security for 9 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard films are backed by a lifetime residential warranty. References are available upon request.

Now Is The Time To Plan For That Deck

"It's not just a deck," says Larry Kirchner, chief designer and president of **Deck-A-Roo Decks**. "A deck is a pleasant addition to any home and a necessity."

Decks are great investments. If properly built, a deck will give the owner years and years of wonderful use as well as add more to the value of the home than the initial cost. However, an improperly built deck will soon become an eyesore as well as a financial burden on the owner.

At **Deck-A-Roo Decks** every aspect of the deck design is considered: what style will best fit the house; what are the size and design needs of the client; what materials best suit the location and design of the deck; how the design affects price both now and over the lifetime of the deck; and how maintenance will be affected by the design.

In addition to a proper design, the actual construction of the deck and the follow through of the builder are very important. Questions you should ask: Who actually will perform the work? What quality of material will be used? What construction practices will be used? And, who will service the deck if needed? Larry's favorite phrase, "You get what you pay for, if you're lucky!"

Deck-A-Roo Decks is a full service builder, working with the home owner from the beginning of the design to the final completion of the deck. No subcontractors are used. All employees have been trained to a high level of quality and given the amount of time needed to complete the job properly. Only high quality materials are used by **Deck-A-Roo** as well as new environmentally friendly products. Every deck is serviced promptly as well as courteously.

A special note from Larry: in the fall many people will put off their deck project till the following year. This can be a mistake since they'll sometimes find us just as busy the following spring. The best time to build a deck is actually in the fall. This will allow you not only to have your deck first thing next spring but gives you the chance to landscape around the deck in the fall or early spring (the best time to plant).

For more information or an in-home consultation, please call us at (847) 381-3325. Thank you.

Tips from the Top of The Rock™

My friend Napoleon called recently to tell me of a conversation overheard by him concerning the state of the world. One person said to the other, "The old earth is in tough shape." The other responded, "Yup I agree, but if you think it's tough now, wait till everybody in the whole world becomes a real estate agent." Napoleon enjoyed relaying the story to me and I laughed. It is humorous, and sad... for the Realtor.

Realtors are take-charge people. They want to step right in and help. They marshal their creative resources, energy, knowledge and competency to produce quick and dramatic solutions to their clients' problems. Realtors take pride in having as many trouble-free and smooth transactions as is possible... win-win situations.

"If only I had asked for professional help, I know the deal could have been saved." Or, "If I had only called you sooner, I would have saved myself this hassle." I hear these statements quite often when customers call exasperated and frustrated about their "do it yourself real estate." Whether it's home buying or home selling, you need to hire a professional to advise you in making the best decisions possible. One who is interested in working with you to attain your goals.

If you are selling your home, you need the latest and most effective marketing techniques to get the job done. You need counseling on how long it will take, what should be done to stage the home for sale (what buyers are looking—and asking—for) and where to price it so it will sell. And if you're planning to sell next spring, it's not a moment too soon for action!

Today, buyers are more price sensitive

than ever. They are not the big spenders they once were. They are more optimistic about the future and are willing to take on additional debt, but they must know that they are getting value for their dollar.

Eighty-one percent of the homebuyers in this country used their real estate agent to help them locate the home they bought. They found the information given them by their Realtor extremely valuable especially information on the neighborhood, community amenities, schools, shopping and the house.

Obviously, the key to successful real estate is to buy low and sell high. But, how do you know when the "low" has been reached? Or, for that matter, how can you judge when your property may be peaking in value?

It's time for you to check real estate trends and cycles. Talk to a **Prudential Preferred Properties** real estate agent. Our agent can provide statistics on how quickly homes have sold, how prices have fluctuated in the past 6 to 12 months, and projections of future home sales. You will be shown how today's market compares to last year's. Are sales headed up? Down? The same? Our Realtors know the economic indicators and nuances of the communities they service.

If you will think about it for a minute, you will realize that progress is the result of positive expectations. Success is what you receive when you use the services of one of our agents at **The Prudential Preferred Properties**. I recommend that you pick up your phone and call our Dream House Headquarters today for positive results.

Or I would like to have you stop by and have a cup of coffee at 330 E. Main Street. We all look forward to meeting you.

Remodeling Your Basement

Bill Schafer—President

Joe Schafer—Vice President

When you're looking for extra space in your house, finishing the basement may be as simple as putting up some drywall and painting, or it can be as complex as building some interior walls for extra bedrooms and installing a bathroom.

In a newer home, the electrical and plumbing systems are usually installed through the joists, which makes putting in drywall a simple project. In older homes, though, updates to these systems often means tearing out old equipment and re-routing pipes and wires which adds to the costs.

With all flooding problems we see and read about, it makes good sense to make sure your investment won't go to waste. You need to evaluate the site and make sure you're not the low point of the neighborhood. A nearby creek may make a good view from your living room window, but may turn into a raging torrent after heavy spring rains. After the rains we've had this year, you should probably know if your basement is safe for remodeling!

Once you've decided that your basement is a good candidate for a makeover, you need to evaluate how you will use the space. If you still need storage space, built-in floor-to-ceiling cabinets are an option. If you're putting in an extra bedroom, it's a good idea to also put in an adjoining bath. A basement bedroom also needs an emergency exit. If you're planning on having large pieces of furniture, or a pool table, or exercise equipment, you need to figure out if you can move these pieces in easily.

There are many home remodeling and decorating magazines available. Choose several different options and clip the ones that you like. Then call in your remodeling specialist for an estimate. They can tell you what will work in your home.

Schafer Builders, Inc. has many "before and after" photos including basements. Stop by their office at 12 E. Crystal Lake Avenue in downtown Crystal Lake. And check out their new office currently under renovation at 43 E. Crystal Lake Avenue. Call **815-459-1333** first for an appointment.

TNOS Fund-Raising Garage Sale

Clowning around while preparing for the annual TNOS (The New Oratorio Singers) Garage Sale are TNOS volunteers Agatha Pope, left, from Barrington and Alice Peraino from Woodstock.

Here's a chance to find unique antiques, unusual collectibles, tools, musical items, recipe and other books, sports equipment, furniture, baby and other-size clothing, games, toys, and much more all while supporting The New Oratorio Singers (TNOS) at their annual garage sale on Friday, October 11 from 8 a.m. until 5 p.m. and on Saturday, October 12 from 9 a.m. until 4 p.m.

The spectacular array of items (all in good shape) will be on display at 755 Bayer Drive in Palatine (about one quarter mile north of Northwest Hwy., four houses East of Quentin Road on Bayer.)

Gain a tax deduction for your donations

which will be accepted from October 4. For information, call (847) 604-1067 or (815) 338-4205.

Under the direction of Chairwoman Alice Peraino, Woodstock, the sale is put together by volunteers from the 120-member TNOS chorus to raise money for its annual concert season. Proceeds will be used to support expenses such as concert and rehearsal space, orchestra musicians, soloists, musical scores, rental and administrative expenses. Like most arts organizations, ticket sales cover only about 35 percent of performances, says Janet Lareau, president of TNOS Board of Directors from Algonquin.

Security And Beauty With Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees, artwork,

building features and so forth, using a wide variety of techniques including uplighting, crosslighting, moonlighting and path-lighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

Ask Mr. Cabinet!

The following are common questions asked of our Cabinet Experts at **Barrington Design Group**.

Mr. Cabinet, there are so many styles and brands of cabinets available, how do I select the quality that is right for my needs?

Cabinets are as diverse as the people who purchase them and there are levels of quality like in many products. Some basic components which indicate better quality are:

- solid wood doors
- plywood or all wood drawers and shelves with dovetailed joints
- drawer slides with 100 lb. strength capability which don't catch or stick
- the durability of the finish and how components fit together
- versatile designs to custom fit your home or office.

All wood construction may cost a little more at the start but will be economical in the long run as it lasts longer and looks bet-

ter. Cabinets with vinyl covered particle board drawers or shelves have limited life span, especially in an active household. Our affordable Prestige line of all wood cabinetry is a great starting price point for a quality cabinet.

Mr. Cabinet, I've been dreaming of the perfect wood cabinet for my home, but finding custom furnishings is a nightmare. What should I do?

Visit **Barrington Design Group**. Our team of cabinetry experts have decades of experience in architectural design, construction and wood furnishings. We will help you make your dream come true.

If you have questions about cabinetry or wish to make your custom cabinetry dreams come true, visit one of our Mr. Cabinet experts at **Barrington Design Group**, 420 W. Northwest Highway, Suite G, Barrington, Illinois. Or, call to arrange for a personal consultation **847/842-9000**.

What Is "Custom" Residential Architecture?

We see this word "custom" on everything lately. Some builders build the same five house plans every year and yet they call themselves "custom" builders! What does "semi-custom" mean? Why do some people think that anything made custom is only for the wealthy? "As residential architects, we are constantly asked to define and dispel the myths associated with this word," says John C. Cazzetta, of **Kemper Cazzetta**, in Barrington.

The definition of the word "custom" as it relates to residential architecture is actually quite simple. A true custom design is something that is solely created by the architect from the specifications and desires of the client. In some cases, a very traditional colonial is actually a custom plan. A custom plan is never repeated or sold to other clients, and the architect and homeowner maintain the only originals.

Anything short of this definition is NOT a custom design. Plans that already exist which are revised by the architect per the owners or builder's program is a "customized plan." "Semi-custom" is

when a builder offers set model plans and the homeowner "a la cartes" upgrades to the plan.

The biggest myth of custom residential architecture is the expense. "We have many clients who want a simple plan and have a limited budget, but do not want to live in 'Plans A through F'." They want their housing dollars to be utilized to the fullest potential.

If you would like to discuss a custom design with us or customize an existing plan that you have, please contact John C. Cazzetta at **Kemper Cazzetta, Ltd.**, in Barrington. "We feel that you will enjoy the home that 'we' design."

Time To Clean Out Your Closet We Mean Really Clean It Out!

Use your imagination for a moment. Imagine the closets in your home. What do you see in your mind's eye? Neatly stored clothes, shoes, hats, purses and other valuable items? Or, do you see clutter and disarray?

If you're like most people, you probably have the traditional shelf-and-rod closet with shoes and boxes on the floor and lots of wasted space. Or, a wire system that looks a bit like the inside of a refrigerator and leaves grid marks on folded clothes.

Closet Masters invites you to look at closets in a new way. To begin with, think of your closets as an investment. When you consider how much each square foot of your house costs, you'll realize your closet space is as valuable as your living space.

Closet Masters believes that you should enhance the investment in your home by making each closet work harder for you.

By tailoring **Closet Masters** custom designed closet and storage components to your home, **Closet Masters** can increase the investment value of your existing closets and storage spaces) while virtually doubling their usable space.

We've spoken about enhancing your home investment. Studies have shown that when you sell your house you can expect to get back 90 to 100 percent of the money you spent on the closet systems and built-in storage. Houses with professionally installed closet and storage systems sell faster than those without them.

Let your imagination be your guide as to where you can best use **Closet Masters'** custom-designed closet and storage systems.

So C'mon... clean out your closets... really clean 'em out!!!

Closet Masters. Your Local Closet Professionals.

Some Interesting Old Jersey Facts

When it comes to weather, Old Jersey has probably the best sunshine record in the British Isles, with the sun coming out some 300 days of the year. The beaches are the cleanest in Europe. Environmental regu-

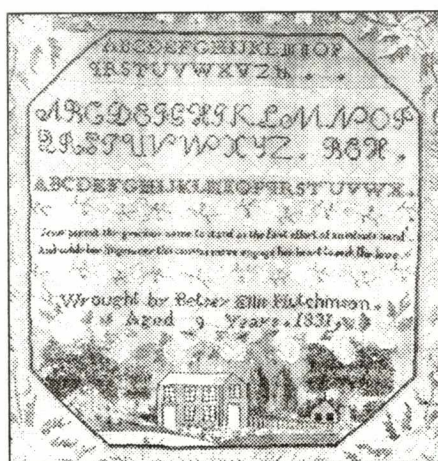

lations on the Island are strict, and allow no untreated sewage to flow into the sea. Seven beaches on the Island are featured in the *1995 Readers Digest Good Beach Guide*. Jersey's diverse natural habitats are great. Interested? Call **Carlson** or British Tourist Office (800) 462-2748.

"Samplers: 17th Century To Present" Lecture Topic

"Samplers: 17th Century to the Present" is the first of four "Members Present Art" lectures sponsored by the Barrington Community Associates of the Art Institute of Chicago for the 1996-1997 year. The lecture will be given on Thursday, October 17, at 1 p.m. at the Barrington Library, 505 N. Northwest Highway.

Elizabeth McGinty will share her expertise and knowledge of samplers and the important roles they played in our ancestors' lives.

Working the sampler was a common exercise for 18th and 19th century schoolgirls. They learned basic stitches, the alphabet, and design patterns through stitching a sampler. A girl who was expected to go into service had to learn to mark her mistress' linens with the family's initials, since linens then were much more precious and valuable than they are today. Girls in higher ranks of society, at finishing schools, were expected to capture husbands by their reputations as excellent and refined needlewoman, as exemplified by their sampler.

In the absence of books, the sampler was also made and kept as a record of stitches and patterns for future reference. Older women as well as younger ones kept "samplers" of their work on hand. Work of this sort was not usually intended for display.

There is no charge for the program. For more information, please phone Evelyn Richer at (847) 381-5349.

Volunteers Meet For Purple Ribbon Campaign

Pictured assembling ribbons and cards are, from left, **Bob Boyle**, Crystal Lake; **Barbara Stankus** (COO, United Way Suburban Chicago), Hinsdale; and **Mary Ann Furuta**, North Barrington.

Volunteers for the Purple Ribbon Campaign (PRC) gathered at Galileo International in Rosemont on August 20 to assemble purple ribbons and information cards for distribution during the month of October. The PRC, brought to the Chicagoland area by The Catholic Charities' department of Parish Social Ministry, is a nationwide activity to educate about

and protest against violence towards women.

With the help of the United Way Crusade of Mercy's Celebration of Caring, these information cards with ribbons attached were designed by Washington National Insurance, Lincolnshire. Fifty thousand will be distributed during October in recognition of domestic violence.

"Designing Women" Enters The Second Generation

Distinctive Kitchen Designs, Inc. in Wauconda, IL, welcomes the newest member of its design team, Penny Dawn.

Penny Dawn is the daughter of owner Star Norini-Johnson, CKD, ASID. Penny received her Bachelors of Arts with studies in Art, History, and English in May 1996. For the past five years she has worked for the firm as a design assistant during semester breaks and summer vacations. "Penny has gained some valuable experience from that part-time job, but I also think she has a natural instinct for interior design," says her mother, Star. "Her first endeavor in the interior design field was a paper she had written in the seventh grade. It was an analysis of interior decoration and furniture design of American Colonial Homes. She has been 'hooked' since that project and has always been interested in the projects on which I was working. She also brings new ideas and a youthful enthusiasm to our firm."

Penny Dawn and Star Norini-Johnson CKD, ASID.

"I feel like I have been in the business my whole life," adds Penny. "My mom returned to school for her degree in interior design after having three children. I am proud of her accomplishments, but I am also grateful to have her as my mentor."

Distinctive Kitchen Designs, Inc. expects to expand and continue as one of the premier kitchen design firms servicing the Barrington area.

Celebrate National Kitchen & Bath Month (Continued from page 35)

rooms are beautiful and enjoyable. For years, these qualities have inspired homeowners to redo kitchens. Now they are being applied to the bathroom as well," he said.

bathhaus is observing National Kitchen and Bath Month, October 1996, an industry-wide event designed to inform consumers of the newest equipment and latest trends in kitchen and bathroom design.

A well-done bathroom represents an improvement in home equity, notes Eiring. The consumer can expect to recover as much as 89 to 120 percent or more of the remodeling cost when it comes time to sell the home. In the meantime, he or she reaps the benefits on a daily basis.

Surveys reveal that the average person spends a cumulative total of two weeks time in the bathroom each year... a good incentive to make sure that time is well spent.

Let our expertise in creating super shower systems make your everyday shower a FANTASTIC EXPERIENCE! Or we can introduce you to the ultra masseuse tub—so unique it will redefine bathing for you. Our faucets are superb in quality and design. We feature innovative bath cabinetry imported from Germany. Of course we also have beautiful vanities that are made in the USA!

At **bathhaus** you can expect the unexpected. With unparalleled service, selection and our guarantee of satisfaction, you will find **bathhaus** to be the shopping experience that you deserve. And you'll enjoy the warm and friendly sales staff that you will find only at an independent retailer!

From A Woman's Point Of View

by Gail Wickstrom, Wickstrom Ford

Our Ford Intro Show was in San Francisco this year. The last couple of years Tim and I have not gone, just our sons Colin and Richard and our General Sales Manager, John Grubbs, have gone.

Both of my sisters live in San Francisco so we all went this year. Besides the additional benefit of seeing my sisters and my nephews, I really did enjoy the Intro Show. It's always interesting to see the direction Ford takes each year besides the new product exposure.

The basic theme this year was that you can't stand still or everyone will pass you by. Communications and computerization are changing so drastically each year that by the time you're comfortable with a system, it's obsolete. And of course, the other main theme was to keep our customer satisfaction level rising. Being the best in class gets harder each year.

San Francisco drew a great many more participants than usual. It's a wonderful city to visit. Not only do my sisters live there, our son Richard was born there while Tim was in the Navy. You could tell which deal-

ers were there for their first visit, they were the ones in shorts and summer clothes. We had typical San Francisco summer weather, about 65° and breezy when the fog was in and about 72° when the sun was out.

We had a wonderful time and I don't want to miss next year's show, it's like going to a giant pep rally.

Sewing Cabinets Take On A New Flair

LINDA Z's Sewing Center in Arlington Heights, has added a vast array of furniture for today's savvy sewer. Gone are the tabletop, heavy portable machines that end up being stored in the closet. If you were, or are still, one of those closet sewers, then it's time to come to **LINDA Z's** and see what all the raves are about.

Many modern seamstresses have a whole room in which to play. Today's sophisticated sewer has many toys to enhance their fun-filled hobby. Starting with the large desktop surface that converts to a cutting surface or large area to hold bulky projects, quilt tops, or home dec, these cabinets make a sewer's life much easier. Then to add to the enjoyment of sewing, the area can be completely closed up, machine easily stored with an effortless air-lift mechanism, and locked up tight to keep curious hands from sharing Mommie's personal goodies.

Since we must have the right tools to perfect our talent... also, appearing in most sewing rooms today is the wonderful, time-saving serger. This machine must also have a home. Furniture manufacturers have recognized this ever-growing need, and voila—the serger cabinet, table, or add-on

Linda Zachman from LINDA Z's in Arlington Heights is showing one of the latest sewing crazes to hit the sewing arena—American Girl Doll clothes.

space to the right or left of the machine has been added.

Move over treadles—or those who think sewing is an archaic thing of the past. Computers have brought us into the 2000—sewing is very much alive.
