## Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 21 years of service at the same location.

## Editor's Ink

February, 1997

Dear Reader,

I can't believe a year has gone by since our last focus on "A Celebration of Love," a special focus on brides and sweethearts!

Spring is in the air—well, almost. BJWC is very busy right now getting ready for their big spring fashion show entitled "Diamonds Are Forever." It is sure to be very special because they are celebrating their 60th year of service to the Barrington community. It will be an evening affair, black tie optional, held at the Woodfield Hyatt.

The "Hearts for the Homeless" party this year will take on a sophisticated theme, "Springtime in Paris." The Cotillion in Palatine will be transformed into a Parisian garden and guests will dine on gourmet chateaubriand or cog au vin. Proceeds will benefit the Catholic Charities' Northwest Suburban Family Shelter Program.

Do plan on attending the "Aid for Aids II" concert in Crystal Lake. The evening promises to be an exciting one. This exclusive one-night engagement of Music and Motion will present arrangements from Verdi to Ellington. The artists donate their time and talent to benefit AIDS awareness programs.

Happy Valentine's Day, everyone.

Until next time, may all your thoughts be sunny.

With warm regards,  
Glenn McMonigal  
Editor, *Lifestyles* Magazines

## "Diamonds Are Forever," BJWC's Spring Fashion Show

A dazzling event is in the making as the Barrington Junior Women's Club presents its tenth annual Spring Fashion Show with a twist! This will be a festive evening affair adorned with shimmering attire, bubbly cocktails, and lively dancing to the enlightening band, "SPEC-TRUM," as we celebrate the club's 60th year of radiant service to the community. Ginny Conners, cochairing the event, is quoted as saying, "The evening promises to be a wonderful combination of great fashions, delicious food, and elegant silent auction and prizes. We are hoping to surpass last year's profits in hopes to make a bigger impact on the charities we support." This glitzy event will take place Saturday, April 5, at the beautiful Woodfield Hyatt in Schaumburg beginning at 6:30 p.m. Tickets are \$40 per person and can be purchased through the BJWC hotline at (847)622-3838. Black tie optional.

The silent auction and prizes will complement the enchanting evening with fabulous items. The Grand Prize is inviting: two coach tickets to Europe donated by United Airlines. The prizes begin with a golden diamond bracelet donated by Michal's Jewelers of Barrington, a Motorola 600E StarTac phone plus 300 minutes per month of free air time donated by Areawide Cellular, a gorgeous fur coat donated by "Furs by Talidas," and a custom armoire donated by R.K. Tech Inc. of Barrington. Just a few silent auction items include Bulls, Bears, and Blackhawk tickets, a Barrington Park District family pool pass to Langendorf Park, a fresh bouquet of flowers each month for one year created by the Barrington Flower Shop, a private condominium in Cozumel for one week, a lovely piece of furniture donated by Richard Honquest Fine Furnishings, spa days, gift certificates from area clothing stores

This dinner extravaganza is not only going to be an exciting, fun-filled evening, it will be benefiting so many worthwhile organizations in our community." Among those in attendance sporting their own sparkling diamonds, and perhaps accompanied by a tux or two, are the following committee facets: Karin Comyn, Ginny Conners, Margaret Aslakson, Phyllis Balestra, Laurie Santiago, Barbara Brinkman, Liz Sincoc, Shannon Gigerich, Julie Culver, Kristin Rappe, Candy Bryan, Nancy Dolan, Mary Merkle, Lisa Morris, Terry Rickel, Jeanie Rogers, Megan Chody, Linda Hanaford, Mary Gerak, Heidi Schmeling of Barrington, Mary Beth Reich of Barrington Hills, Andrea Splett of North Barrington, Becky Monek and Edie O'Brien of Lake Barrington, Doreen Colletti of Lake Barrington Shores, Terri Votaneck of Deer Park, and April Boado and Marty Webb of Lake Zurich.

## Twentieth Annual Classical Music Series

The Woodstock Fine Arts Association announces its 20th season of fine classical music at the Woodstock Opera House. The Series "Music for a Sunday Afternoon" will open February 16, 1997, with violinist Lee-Chin Siow. She is a young prodigy who is one of the most talked about violinists appearing before the public today. She is the Gold Medal winner of the 1994 Henry Szeryng Violin Competition and the First Prize winner of the 1994 Louise D. McMahon International Music Competition for Strings.

The second program in the Series will be the "Ensemble Galilei" which will appear on March 16, 1997. This six-member ensemble melds the elegance of chamber music with the excitement of folk. Theirs is an intricate blend of medieval and modern instruments—fiddle, Celtic harp, penny-whistle, recorders and ancient viols. Medieval and Renaissance dances mix with the folk tradition in this performance that brings energy, humor and imagination to the stage.

The final program in the Series will be the American Brass Quintet. They will appear on Sunday, April 20, 1997. Brass instruments are always very popular with the music-loving public. When it comes to brass quintets, there is only one that *Newsweek* has hailed as the "High Priests of Brass." This group recently made its 35th recording, adding to the largest body of classical brass chamber music ever recorded by one ensemble. The group is ensemble-in-residence with the presti-

gious Juillard School and the Aspen Music Festival.

Music for a Sunday Afternoon programs begin at 2:00 pm. All programs feature the opportunity to meet the performers at a reception in the beautiful Opera House community parlor following the performance. Tickets for the Series of three programs are \$40 and \$12 for students. They are available at the Opera House Box Office by mail or phone order (815) 338-5300.

## The Michael Joseph Foundation Fund-Raiser

So many exciting events have transpired since our 1996 April fund-raiser. Thanks to our gracious hosts, our much appreciated guests, our Board of Directors, Fund Committee members, donations and American Airlines, who sponsored our grand prize, which were tickets to London and two tickets anywhere in the Continental U.S., we raised over \$40,000.

Our initial project three years ago was rehabbing a farm house for a family of 16. Since then, we have helped with welfare recipients becoming independent, the elderly, rental security deposits, many home repairs, and are subsidizing rents for eight apartments for the homeless. They receive counseling and help in finding jobs. We locate reconditioned cars to get them to work. We have had success in this program and see more in the future. There are seven families we have helped on a onetime basis. Things are looking up for them.

In order to continue our work to the needy and homeless, we have a fund-raiser planned for April 26, 1997. For those wonderful supporters who attended our last three fund-raisers, a new and exciting additional attraction will be added. We desperately need more well-wishers and supporters to make this splendid affair a tremendous success, the need is so great!

*Plans are being made by the Michael Joseph Foundation for the April 26, 1997 Gala. Seated are, left to right, Lee Simpson and Lisa Caster. Standing, Ida Cardelli and Margaret Di Lully.*

American Airlines will be donating 2 Business Class tickets to Europe and 2 tickets anywhere in the Continental U.S. that American services. We are so thankful for their generosity.

Please mark your calendars for April 26, 1997. For more information about reservations or to purchase tickets, please call 847-382-3375.

### New European Light Cured Nail System!

We would like to introduce our new European Light Cured Nail System. It is not an acrylic nail or a glued based wrap system. Our new European Light Cured Nail System is designed to preserve your nail without the use of aggressive, unhealthy chemicals that damage the nail plate. You do not have to be subjected to obnoxious odors, vapors or toxic chemicals as the product is odorless. No harsh primers are used and the bonding agent contains no methacrylic acid. No soaking in chemicals for removal. The materials used actually protect healthy nails from infection and is nonporous so fungus,

mold, bacteria and moisture can not penetrate. The light cured nail is a finish that is strong yet durable, noticeably lighter and more flexible than acrylic nails and less prone to lifting or breaking. Our product is perfect for women who prefer the natural look because the light cure nail is non-yellowing so you do not need polish.

**Ooo LaLa Hair Studio of Crystal Lake** is opened Tuesday through Thursday from 9 A.M. to 9 P.M. and Friday and Saturday from 9 A.M. to 5 P.M. For your convenience, Visa and MasterCard are accepted. Call **815-455-7600** for more information.

## Art Associates To Present "A Trilogy Of French Art"

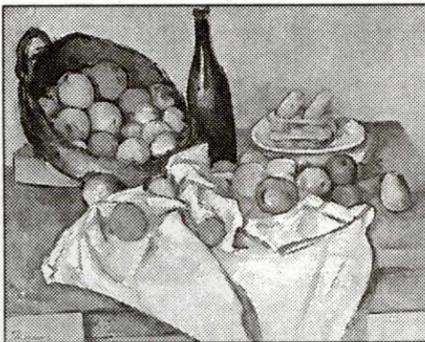

Residents of the northwest suburbs will be given a virtual reality experience in French art with this year's February Seminar Series entitled "A Trilogy of French Art." Sponsored by the Barrington Community Associates of the Art Institute of Chicago, the lectures take place on three Thursday afternoons at the Barrington Library, 505 N. Northwest Highway.

Refreshments and live and taped music will coordinate with the lecture topics to enhance the programs.

On Thursday, February 6, at 1 p.m., the lecture will be "Art and Architecture in the Historic Ile de France." Ile de France is a former province in north central France. The area includes Paris and the surrounding region. It is the birthplace of Gothic architecture and contains many historic royal residences whose styles showcase the history of French architecture. Small villages in the area were home to several generations of artists, including the Impressionists and the Barbizon school of painters.

On Thursday, February 13, at 1:30 p.m., "French Still Life Masters: Chardin to Cezanne" will be presented. In the 18th century Chardin brought a richer palette and the conviction that "One makes use of colors, but one paints with feeling" to the art world. His humblest still life works are tributes to the quiet delights of a simple life. Still life art is traced for almost two centuries to Cezanne whose work interpreted the world and objects around him.

On Thursday, February 20, at 1 p.m., the

Paul Cezanne, "The Basket of Apples," c. 1895. The Art Institute of Chicago.

subject of "Painted Women: Impressionist Images" will be explored. Women were frequently the subjects of Impressionists and Post-Impressionists, particularly Degas, Renoir, and Toulouse-Lautrec. Many works by these artists depict women realistically as laundresses, ballet dancers, night club performers, or bourgeois matrons.

Tish Robinson will present all the slide lectures. She has a B.A. in French Literature from Northwestern University and is owner and travel consultant for the Wonders of France.

Fees for the series are \$22 for members and \$30 for nonmembers. Single program fees are \$8 for members, \$10 for nonmembers. Registration will begin at 12:30 on February 6.

For more information, please call Rose Marie Eckstrom at 847-304-4770.

## For Improving Or Enhancing Your Appearance

If you are one of the millions of consumers evaluating your options for improving or enhancing your appearance, the **Valley Plastic Surgery Center** should be at the top of your list. Much more than a doctor's office, services are provided along with an experience that is unparalleled within the field of aesthetic plastic surgery. Truly a state of the art facility, the seven thousand square foot surgery center provides elegant and professional surroundings while meeting the highest standards of safety. It is one of the few free standing surgical centers approved by the joint Commission for the Accreditation of Hospital Organizations, the same safety organization responsible for overseeing hospitals.

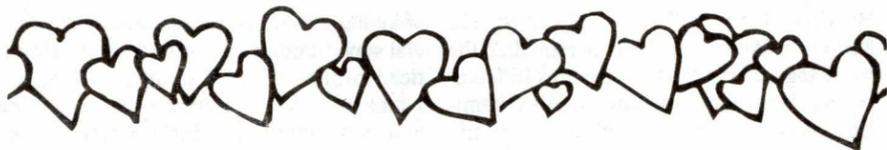

Discretely located in West Dundee just twenty minutes from O'Hare Airport, the center caters to out-of-state as well as local patrons with equal convenience. Many of those considered as Chicago's north shore elite find the short commute from the city well worth the trip, and are welcomed by the Fox Valley's scenic ambiance. The center offers the full range of plastic surgery procedures; from facelift, eyelid, nose, and lip surgery to breast enhancement or refinement, liposuction, and tummy tuck procedures. Four separate lasers, fiberoptic cameras, and cutting edge techniques serve to minimize scars, discomfort, and time off of work, making aesthetic procedures an affordable reality that fits into the lifestyle of today's working women and men. Full esthetician services are also offered for image consultation, skin care treatments and peels, spa style facials, as well as make up application and assistance.

An entire satellite center, the **Valley Body Contouring Salon** is devoted entirely to the non-operative treatment of cellulite, and features the highly publicized "Endermologie" technique from Europe. Here, highly trained technicians provide private consultation, and demonstrations of the suction assisted deep massage procedure that appears to reshape the body contours while

minimizing the appearance of skin dimpling and waviness. Patients also receive complete body fat determinations along with dietary and nutritional counseling. The **Valley Body Contouring Salon** is located at 1425 North McLean Boulevard, Suite 400, Elgin, (847) 608-7506.

In addition to the separate amenities offered at **Valley Plastic Surgery Center**, surgical expertise is the center's most compelling attraction. Doctors Rosenberg, Lambruschi, and Manus are the three plastic surgeons that make up the team of prestigiously trained sub specialists. With more than sixty years of combined experience, they offer expertise in every area of cosmetic and aesthetic surgery. Collectively, they have been heard on numerous radio programs, and have been featured in scores of periodicals, including the popular *People Magazine*. They have been seen on CNN news, and are published in the United States and Europe on various topics in plastic surgery. They all continue to regularly lecture before audiences of lay persons, as well as health care professionals. Patients seeking consultation are sure to get knowledgeable and professional recommendations in a friendly, unimposing atmosphere that caters to each individual's special needs.

Of interest to most, since **Valley Plastic Surgery Center** is a true outpatient surgical facility, most aesthetic procedures can be performed on site, often saving patients thousands of dollars in hospital charges. Indeed, the final expense associated with major procedures is often less than half of that incurred through other local and downtown surgeons. This, combined with surgical expertise and a uniquely complete plastic surgery complex makes it Chicago's best choice to help you meet your personal goals. So if diet and exercise can't get you to where you'd like to be, **Valley Plastic Surgery Center** probably can! To arrange a convenient consultation, call (847) 836-3200 and consider yourself... for a change.

## Behind The Scenes...

Dawn Phillips, Treasured Twice Boutique

Dawn Phillips loves clothes and shopping! And it is these two favorite pastimes that led her into a successful business—**Treasured Twice Boutique**, a ladies' fine apparel and accessories consignment shop.

Dawn began her shopping and clothing education at an early age. She shopped resale shops with her mom. She modeled clothing. It seemed only natural for her to open a resale shop eight years ago in Hoffman Estates. Although she started by taking anything, she soon refined her clothing selection to finer apparel. Four years later Dawn followed her consignors and moved her successful business to Barrington.

Now, 280 consignors share their treasures with Dawn. Famous designer labels and better clothing can be found at **Treasured Twice** for 30 to 40 percent of the original cost. In-season, in-fashion special occasion dressers, furs, sporty outfits and accessories can be found—all in like-new (or some-

times new) condition.

It takes a real flair to orchestrate merchandise in a relatively small space—but Dawn does it by being selective about the apparel and creative in her displays. Her greatest challenge is finding larger sizes. Dawn accepts clothing on consignment for 90 days; the profit from a sold item is shared 60/40. Merchandise not sold is returned to the consignor or donated to Little City or the BHS Fine Arts costume closet.

**Treasured Twice Boutique**, 612 S. Northwest Hwy., Barrington. Open Tuesday through Friday 11am - 5 pm, Saturday 9:30 am - 4 pm. (847) 304-5577.

**Treasured Twice Boutique's** second location is at 64 N. Williams St. in Crystal Lake. Located in the **Downtown Emporium**, **Treasured Twice** has expanded into a mini-mall concept in Crystal Lake. The Downtown Emporium is a unique blend of specialty shops. Phone (815) 477-8068.

## New Local Bank Offers Customized Products And Services For Families, Businesses

Because it is locally controlled and managed, the newly opened **Barrington Bank & Trust** is able to provide products and services custom fit to the banking needs of everyone in the community.

From its Junior Savers Club that teaches children the importance of saving, to special programs for seniors and college students, the new bank provides products and services that will enhance the village's reputation as a positive, family-oriented community with small town charm.

To start, **Barrington Bank & Trust** is providing local residents with a unique opportunity to become Founding Members of the bank. In addition to making local history, Founders get a number of remarkable and cost-saving account benefits that will last a lifetime. For example, the Guaranteed Best Rate CD pays Founders a premium annual percentage yield over other banks published rates in town FOR LIFE.

**Barrington Bank & Trust** also offers products and services that recognize the changing business climate. Today, companies face more competition, lower profit margins, and increasing pressure to cut costs. To help, the bank has developed the Professional Services Account. Any professionals in the area—attorneys, real estate agents, doctors, and others—opening a corporate checking account at the bank can enjoy special banking privileges, such as six months free commercial checking. Also,

employees as well as bosses are entitled to personal checking accounts with no service charges. A similar program is offered to retailers in the area.

As a give-back to the community, **Barrington Bank & Trust** will offer the Charity Master Account. Designed for local charities, schools, and other not-for-profit organizations, this account provides convenient and affordable banking services such as free NOW accounts and low-cost credit card processing. The goal of the Charity Master Account is to help these organizations keep operating costs down and money working towards the established cause.

"Before we started this bank, we looked at what was offered by other banks in town and found many of the products to be pretty standard, which is what you'd expect from banks that are headquartered someplace else," adds Kris Slattery, the bank's vice president. "We will fine-tune our products and services for the people of Barrington. And we will challenge ourselves to be better than the competition."

A wide variety of loan products are provided by **Barrington Bank & Trust**. In fact, its Home Equity Loan offers one of the best rates in town plus added benefits like prompt, friendly service, and no additional fees or closing costs. Customers who become members of the bank's Founders Club can get even better rates, for life.

## "How Women Fared In Election 1996" Is Topic Of AAUW Luncheon

Sharon Alter, a political science and history professor at Harper College, will discuss outcomes of the election of 1996 and specifically how women fared at the Barrington Area Branch of the American Association of Women (AAUW) Annual Winter Luncheon on Saturday, February 15, 1997, at the Biltmore Country Club in North Barrington at 11:30 a.m. The cost of the luncheon is \$25 and is open to the public.

AAUW, founded in 1881, promotes equality for all women and girls, lifelong education, and positive societal change. The Barrington Area Branch, founded in 1972, is celebrating its 25th anniversary. Membership is open to anyone with a baccalaureate or higher degree. For more information or to make reservations for the luncheon, contact Bobbie Svacha at 381-3315 by February 8.

**Barrington Bank & Trust's** dedication to community-oriented banking also means delivering the highest quality products and services as well as the lowest service charges in town. This is a pertinent differentiation since publications such as *TIME* magazine have issued reports on the rising cost of banking for customers. According to *TIME*, "Americans are increasingly feeling the pinch as U.S. banks raise their fees

for everything from bounced checks to automated cash transactions."

"Our decisions are not driven by ratios or policies, but by the needs of the community," explains Slattery. "Banking should be about people as much as it is about numbers. We're going to give people in the area the kind of one-on-one service they simply can't get elsewhere, regardless of the size of their account."

# Open a Founder Account and get a *lifetime* of banking privileges

A group of dedicated individuals have joined together to bring old-fashioned banking back to the community. Controlled and managed by folks from this area, it is our philosophy to treat customers like friends and neighbors. And provide them with the best banking products around.

You can be part of it all by becoming a Founder of your new hometown bank — Barrington Bank & Trust Company, N.A.

Becoming a member of our Founders Club™ allows you to take advantage of a package of banking benefits that last a LIFETIME.

Just take a look at all you'll receive:

- A **FREE checking account FOR LIFE**. No minimum balance will ever be required. There will never be a monthly maintenance fee;\*
  - Your **first 200 checks are FREE**. If you like, you can choose checks from our exclusive "Barrington Collection" depicting familiar scenes of the area. And we'll buy back up to 400 (or \$15 worth) of your old checks from the bank you're using now;
  - The face of your checks will always bear the designation "Founder" distinguishing you as a pioneer in bringing community banking back to Barrington;
  - You will always get a **premium of 105%** of our regularly published Annual Percentage Yield (APY) on **Closed-End Certificates of Deposit FOR LIFE;**

Local physicians at **Valley Plastic Surgery Center** are among the first in the nation to offer a proven technique which reduces the appearance of cellulite. This treatment was developed in France about 15 years ago and has become one of the only successful ways to reduce the appearance of cellulite without surgery.

The non-invasive, non-surgical procedure is called **ENDERMOLOGIE™**. This deep massage technique increases circulation to the superficial layer of fat and skin, which mobilizes the fat just under the skin, minimizing the appearance of cellulite and improving skin tone. The dramatic reshaping that occurs often results in taking years off your figure.

**Valley Body Contouring Salon** has six trained and certified technicians and offers flexible treatment hours **Monday-Friday 10AM-8PM and Saturdays 9AM-2PM.**

## TeleFile Tax Packages Are Coming—Don't Lose Them

If you are eligible to file by telephone through the Internal Revenue Service TeleFile system, you should have received a TeleFile tax package in the mail by early January. It's very important that you save your TeleFile package even if it's too early to think about taxes. If you lose your package, it can't be replaced and you won't be able to TeleFile.

The TeleFile tax package includes a special identification number that allows you to file your taxes by phone. And, as soon as you get your W-2's, you can file your return and get your refund in about three weeks.

Nationwide, over three million people filed their federal tax returns by phone last year—about 15% of those eligible to use TeleFile. TeleFile is free—the call is toll-free and is available 24 hours a day. Filing through TeleFile is fast—you can file your return in about 10 minutes. And, it's easy. The instructions are simple and the computer does all the calculating.

Remember, hold on to your TeleFile package so you can quickly and easily file by phone.

## Smiles For Success

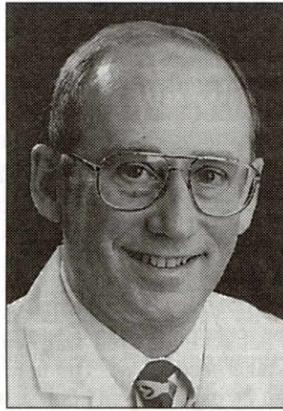

by Dr. Raymond Kotz

Last month I discussed the value of a winning smile in business and social life and how your orthodontist could help by properly aligning your teeth. However, there are other things which can be done to enhance your smile which may be just as important or even more important than orthodontics in specific cases.

The simplest and safest is probably a thorough cleaning followed by bleaching treatments. These are usually doctor-prescribed but patient-applied at home.

Slightly chipped or malpositioned teeth may be modified by reshaping them with a dental drill or by building them up in specific areas with bonding. Bonding usually involves addition of a tooth colored plastic to correct shape or mask color.

More severe irregularities may need something stronger and longer lasting than plastic bonding. In these cases a veneer or a crown is used. Veneers and crowns are made of ceramic material in a dental laboratory from impressions or models of your teeth supplied by your dentist. The veneer or crown is returned to your dentist for placement with a dental cement or bonding technique.

Whichever treatment or combination of treatments is used, in complicated cases your dentist should show you how your teeth should look by using three-dimensional models of your existing teeth which are modified by the addition of wax to achieve the "new look." This will give you a very good idea of the expected results before you start treatment.

For thorough evaluation, contact **Dr. Raymond P. Kotz** by calling 847-381-4040 in Barrington.

### Charge Card Warning

If you don't normally travel abroad, or don't charge large travel purchases to your credit card, it's a good idea to protect yourself by calling your credit card company in advance of a trip during which you'll be charging outside of your usual user "profile." To prevent fraud, some credit card companies will refuse to authorize unusual charges, which can leave you in the lurch, especially if you're traveling abroad.

## Parents And Acting Out Adolescents

by Judy Kaplan, MS

If you have an "acting out" adolescent in your midst, chances are you are stressed, frustrated, at a loss about what to do, fearful for his or her life or your own survival, and having a hard time knowing whether the behavior you are seeing is "normal" teenage behavior or "red flag warning" signs to take heed about. The hardest job in life can be parenting an adolescent, and in particular, an acting out adolescent. If you are feeling stressed by this task—you are not alone.

What is "acting-out" behavior? Acting out behavior are behaviors that put your child "at risk" for survival. They can be demonstrated in a multitude of ways.

1. alcohol or substance abuse
2. falling school performance
3. poor attitude
4. sexual promiscuity
5. defiance toward authority figures
6. conflict with families
7. lack of regard for others
8. continual lying
9. poor peer group situations
10. vandalism

The developmental stage of adolescence carries with it a certain amount of turmoil, turbulence and change—not only for the adolescent but for his or her parents as well. When human beings undergo a process of change that is both physical and mental the transition is not always smooth. The teenage years are characterized by trying out independence, new philosophies about life different than their parents' beliefs, adjusting to new bodies and surging hormones, making new friends, experimentation, stress about fitting in somewhere and defining where that might be. Steps like these are typical and parents are wise to allow and encourage these explorations, although this might be easier said than done. For the parents, the letting go process is challenging

and a delicate balancing process. BUT, although teens might "look" like small adults, they are not fully formed mentally. Their decisions might lack the good judgement that we, as parents, might hope for them. Our job as parents can be compared to walking on a mine field; one step in the wrong spot can cause a family explosion. We don't want to "overparent" when a teen's task in this stage of life is to learn how to make good choices and accept the consequences of those not so wise choices. Likewise, we don't want to "underparent" when we see our children make choices that might be life threatening or damaging to their future.

How do we know where to draw the line? What is acceptable versus non-acceptable behavior? How do we set limits to keep our teen safe while allowing them the ability to grow, mature and become independent? How do we assess if the behavior is due to biological reasons versus psychological reasons? Parenting groups can help you assess your own situation, while learning from others in similar situations. On Tuesday evenings 7-9 pm or Wednesday mornings from 9-11 am, I conduct meetings for Parents of "At-Risk" Adolescents. We discuss ways to better cope with these difficult times, ways to empower ourselves as parents to set the limits and guidelines that are crucial to healthy adolescent development as well as the ways to effectively "let go" for positive family growth. When you have reached your limit and are ready to give up is precisely the time you can benefit from group support. The group setting allows people to learn from others who have faced similar challenges and help those who are struggling today. You, your child and your family are worth saving! Call for further information 847-842-9365.

## Adventure Travel

by Eleanor Nelson & Sally Hayward, Travel House

The words 'adventure travel' conjure up different images to different people. More and more of our clients are asking us to suggest a destination that is "a little bit different" for their next vacation. They're not necessarily talking about trekking in the Himalayas (although a few have), but they are interested in traveling to destinations with travel companies that have special insight and emphasis on the environment, education, and personal enrichment.

This kind of travel isn't about earning a degree in marine biology or doing advanced yoga! It's about interesting travel; travel that is just a little bit more challenging to the mind and heart. There are environmental/ecological "Green Tours" which specialize in protecting and preserving natural habitats through careful routing, limited numbers of tour participants and education by expert guides. There are outdoor adventures such as hiking, biking, floating, and flying itineraries to accommodate a wide range of physical abilities. There are educational tours designed specifically for those seeking to exercise intellect and curiosity, such as the Great Civil-

izations of Egypt, Lifestyles of Greece, the Ancient Silk Road through China, Music Capitals, India Passage and many other exotic destinations.

**Travel House** always seeks to stay current with our client's needs. If you have an adventurous spirit and would like to receive further information, please give us a call. We will be happy to assist you.

### The Care Of Trees, Shrubs And Perennials Next Topic For Garden Club

As winter holds us in its icy grip, and the landscape lies frozen in place, thoughts of spring come to mind and tempt us with its promise. Perhaps new landscaping projects beckon your imagination. Do you yearn to replace woody old shrubs whose time has passed with a new grouping of shrubs or trees? Perhaps you simply desire to learn more about the care of trees, shrubs and perennials which will eventually emerge from their dormant state to restore our spirits. Whatever your spring gardening agenda, the next meeting of the Garden Club of Inverness on Thursday, February 20, 1997, is for you.

Michael Schmechtig, Vice President of Klaus Schmechtig Company, a landscape design, construction and maintenance firm serving the North Shore and Barrington area since 1960, will be the featured speaker on the topic of the care of trees, shrubs and perennials. The company has registered

landscape architects on staff and their experienced construction and maintenance crews are supervised by horticulturists. They operate out of their private 35 acre nursery in the Long Grove area which features acres of plant material acclimated to our region. The company serves residential and commercial clients.

Join members of the Garden Club of Inverness on Thursday, February 20, 1997, at 9:30 a.m., at Holy Family Church, 2515 West Palatine Road, Inverness. We'll be "thinking spring" and hoping to see you there. Guests are welcome to attend. Stop in and join friends or make some new ones. Garden Club of Inverness is a member of District IX of the Garden Clubs of Illinois, Inc., and the National Council of State Garden Clubs, Inc. If you have questions about the club, please contact Membership Chair, Charlotte Dilillo (304-9856).

## Tax Changes

by Sharon L. Keller, J.D.

WE'VE MOVED!! Finally, we have settled into our lovely new office at 18-3 East Dundee Road (just east of Motor Werks). We all are happy to be there and we are enjoying the luxury of space. This month I am continuing the discussion on tax changes that were enacted last year, most of which will take effect after December 1996.

The Small Business Act of 1996 made major revisions to the Internal Revenue Code and will have a significant impact on S corporations, making them a more effective vehicle for many small businesses. Generally, these revisions are effective as of January 1, 1997.

Prior to the passage of the Small Business Act, an S corporation was limited to 35 shareholders. Under the new statute, an S corporation can have up to 75 allowable shareholders. The statute also altered the entities that may be a shareholder. Formerly, S corporation stock could only be held by the following:

1. Individuals who are citizens or resident aliens
2. An individual's estate for up to 2 years from death
3. An individual's revocable trust during life or for up to 2 years after death
4. A special Qualified Sub-Chapter S Trust
5. Grantor Trust where the Grantor was a U.S. citizen or resident during the Grantor's life or for up to 60 days after death.

The new statute expands permissible shareholders by providing the following:

1. A Grantor Trust can own stock in an S corporation for up to 2 years after the death of the Grantor
2. Qualified retirement plan trusts, most charitable organizations, and certain banks, insurance companies and other financial institutions may own S corporation stock
3. An "electing small business trust" is now eligible to be a shareholder of an S corporation

"Electing small business trusts" are certain electing trusts where all the beneficiaries are individuals or estates that are eligible to be S corporation shareholders. A charitable orga-

nization which holds a contingent remainder interest, but not a current income interest, may be an S corporation shareholder. Interests in an electing small business trust may be acquired by gift or inheritance, not by purchase. This amendment will permit charitable remainder trusts to hold S corporation stock, thereby facilitating the use of these trusts in business succession planning.

Under the new statute, S corporations may own more than 80% of the stock of a C corporation. Previously, S corporations could not have other corporations as shareholders without losing their S corporation status. Now an S corporation may also own a wholly owned S corporation as a qualified subsidiary. The provision which allows S corporations to create subsidiaries enables an S corporation to segment its activities into separate subsidiaries for liability purposes.

The revisions to the Internal Revenue Code effecting S corporations enable individuals and small businesses the use of S corporations as a business planning device as well as an asset protection tool. Have a safe and prosperous February. Please call if you have questions and ideas for future topics. Next month I will discuss bankruptcy.

## Iowa Artist To Exhibit In Arlington Heights

Barbara McKinney-Elston received her Indian name—Pahponee, or Snow Woman—from the elders of her Kickapoo tribe when she was 21 years old. "I don't know why they saw the snow in me," she says. Perhaps the elders envisioned the purity and simplicity of her life. She is also proud of her German and Irish ancestors.

Before developing her own pottery style, Pahponee imitated the old designs she saw in museums. She soon realized that creating her own style was more rewarding than replicating the old. "I am a contemporary clay artist," she says with a passion. She uses whatever works for her, including wheel-throwing and commercial clays. Much of her decorative pottery is created by dung firing. The dung is generously donated by her horse and buffalo who share a family farm with her husband and two sons in Leon, Iowa.

In many ways, Pahponee's pottery reflects the lives of modern Native Americans. "Most Indian tribes have thousands of years of tradition, and even though we drive modern cars and live in modern

houses, and watch TV, we still believe that tradition is very important."

An exhibition and sale of Pahponee's work will take place in Arlington Heights, at **Tribal Expressions** beginning Saturday, February 8. Pahponee will appear in person Saturday and Sunday. The exhibit will continue in the gallery through February. For additional information, or directions, please call the gallery at (847) 590-5390. This event is available at no cost to the public.

## St. Anne's A.M. Awakenings 1997 Winter Gathering

How would you describe the glass—is it half empty or half full? Either way you look at it, you're right—or wrong! The truth is, our experiences color the way we look at the world. Most of us have good intentions toward others and reject racism, sexism, etc. But, at one time or another, we've all probably blundered into an "ism" of some sort.

"Otherisms" is a new musical drama from the Merely Players, who treated the Barrington area last winter to their musical "All That I Am." "Otherisms" invites you to search your conscience on the "isms" of our culture: racism, classism, sexism,

ableism, ageism and religious dogmatism. You may not see yourself in the first scene, the second, or the fifth, but you will have plenty to think about on the way home!

St. Anne's A.M. Awakenings is proud to host the return of the Merely Players to the Barrington area. "Otherisms" will debut on February 20, 1997 in St. Anne's lower church from 9:00 a.m. to 11:00 a.m. St. Anne Church is located at 120 N. Ela Street in Barrington. A fee of \$5 is payable at the door. Child care is provided in the Parish Center Nursery. We ask a \$3 donation per child. For more information, please call (847) 382-9231.

## Make-A-Wish® Brings Mardi Gras Madness To Chicago

The Make-A-Wish Foundation® of Northern Illinois is bringing Mardi Gras Madness to Chicago on Thursday, February 13, 1997, at Brother Jimmy's, 2909 N. Sheffield in Chicago.

Guests will be greeted at the door by the true bayou sound of the popular Guy Lawrence and Chideco Zydeco. In between dances you can enjoy a New Orleans' style buffet, and beer, wine and soda. A terrific prize will send two lucky individuals to New Orleans for Mardi Gras '98.

All proceeds will benefit the Make-A-

Wish Foundation of Northern Illinois, a not-for-profit organization. For more information, please call (312) 943-8710 ext. 45.

The Make-A-Wish Foundation® is dedicated to the happiness of children who must bear the burden of illness just when they begin to dream. Make-A-Wish fulfills the favorite wishes of children between the ages of 2½ and 18 who suffer from life-threatening illnesses. Since its inception in 1985, the northern Illinois chapter has fulfilled the special wishes of more than 1,800 children.

cards for yourself and others claimed on your tax return to make sure that all numbers and names match the information that is on the return. If you (or a family member) have a name change due to marriage

or divorce, you need to report the change to the Social Security Administration as soon as possible so that records can be changed prior to the time you file your return.

## Accurate Social Security Information A Must On Your Tax Return

Beginning this year, the Internal Revenue Service will disallow certain credits and deductions where valid Social Security Numbers (SSNs) are not provided on tax returns. These adjustments could cause refunds to be reduced or, possibly, result in a balance due.

Take special care to enter complete and accurate SSNs for yourself, your spouse (if filing jointly), and any dependents born before December 1, 1996, as well as for qualifying children for the Earned Income Tax Credit (EITC) and dependent care credit.

Due to recent tax law changes, the IRS

will deny the dependency deduction and the dependent care credit on returns with missing or incorrect SSNs for dependents or qualifying children. The IRS will also deny the EITC on returns with missing or incorrect SSNs for the taxpayer, spouse (if filing jointly), or qualifying children. This means the returns will be processed immediately and refunds will be adjusted accordingly. The IRS will send a notice to the taxpayer advising them of the changes made, but will not ask for additional information. Corrected information may be provided by the taxpayer at any time.

You should check the Social Security

## Poor Report Cards: What To Do

While January marks the beginning of the new year, it is also the halfway point in your child's school year. The skills developed during the first half of the year will be your child's foundation for the more difficult work ahead. Shortly, schools will be distributing midyear report cards. What should you do if you are unhappy with your child's midyear report card?

According to Dr. Raymond Huntington, founder and president of **Huntington Learning Centers**, "Parents know their own children. If you believe your child could be doing better than his or her grades show, you owe it to your child to remedy the situation.

"More than current grades are at stake," Huntington continues, "If grades are mediocre or poor, it means your child is not gaining valuable skills. This can come back to haunt children later. The skills children learn in school are like building blocks. If a skill is not learned adequately, future skills will suffer. When a child tries to build advanced skills on a shaky foundation of knowledge, there is likely to be trouble ahead."

Mediocre or poor grades can result from a variety of problems. Dr. Huntington offers the following suggestions for what to do when a

child brings home a poor report card:

1. Examine the situation realistically. It is important to remember that every drop in grades indicates that valuable skills are being missed. An effort should be made to learn and reinforce those missing skills. While this is being done, it is also important to identify and remedy the basic problem, so it does not continue to hurt your child's education.

2. What is really the problem? Is there a behavior problem? Sometimes, bright students get bad grades for behavior-related activities. Does your child hand in homework? Is it correct and on time? Is your child bored with schoolwork, and so is not paying enough attention? These are not excuses; they are symptoms of different problems. You must identify the problem before you can remedy it.

3. Talk with your child. Why does your child think he or she got poor grades? Does he or she take the situation seriously? How does he or she plan to do better? It is important that your child knows you take the situation seriously. Work with your child to develop a plan that will help achieve better grades. Let your child know that you are supportive and that you believe in his or her

## Local Businesswoman Promotes Self-Esteem

Not only is February National Self-Esteem Month, but it is also the month in which a thought-provoking book by Barrington resident Sheila Glazov makes its debut. It is by no small accident that *Princess Shayna's Invisible Visible Gift*, a "community parable," focuses on self-esteem, since the story is semi-autobiographical and deals with some of the trials and triumphs Glazov has faced in her own life. This includes the discovery and trauma involved with treating her son's diabetes. Glazov's eldest son, Joshua, diagnosed with Type I diabetes when he was fifteen years old, faced some near death experiences which made the entire family look at life's fragility with a different perspective. A portion of her book's profit will be donated to diabetes research and education.

"My fairy tale speaks to the very heart and soul of the child within us all," Glazov says. "The story confirms that life can present difficulties, but with good self-esteem and a loving and supportive environment, we can develop the courage to meet life's obstacles and turn them into opportunities, just as Princess Shayna does. The story also acknowledges that no one is perfect - not even a princess. My premise is that self-esteem is invisible when you give it to someone

and visible upon them when they receive it, but only if they are willing to share their gift with others."

Glazov's vision is to teach children and adults how to enhance and strengthen their self-esteem, as well as understand and respect themselves and others who are different than they are, develop their creative problem solving skills and build positive and nurturing communities within their

Our goal at **Body Constructors, Inc.** is to provide our clients with safe, effective exercise programs with an emphasis on total wellness. With our one-on-one instruction and ongoing motivational support, we strive to give our clients the tools to take control of their lives through a healthy body.

Through our personal training program clients will not only learn the answers to the most often asked questions of how often, how hard and how long to exercise and what exercises zero-in on "problem" areas, but also provide answers that relate to the individual. As experienced fitness professionals we are accustomed to working with a diverse clientele with different needs and

different goals. We are used to working with clients with challenging schedules.

This year do yourself a favor and focus not only on the aesthetic benefits of exercise (although a rewarding bonus), but of becoming a happier, healthier person with the capacity to do more.

# A VALENTINE RETROSPECTIVE OF THE ART OF ROY FAIRCHILD-WOODARD

**Saturday, February 15**  
**Sunday, February 16**

It has been a real privilege to discover and represent such an outstanding talent as Roy Fairchild-Woodard at The Studio of Long Grove and to have played such a signature role in launching his career by hosting his second and third U.S. shows. The Studio has gathered together a large body of works which is not for sale and many rare sold-out pieces that will be available for purchase, to commemorate his fifth year in our gallery and to give all his collectors an opportunity to witness and appreciate the range of talent of this fine artist.

## ROY FAIRCHILD-WOODARD ...AN INTERNATIONAL SUCCESS STORY... AND A STORY THAT HAD ITS BEGINNINGS AT THE STUDIO OF LONG GROVE

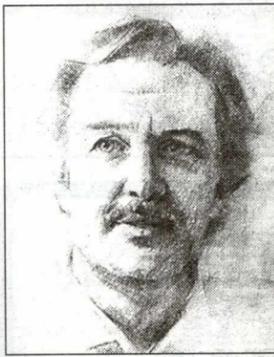

"There was something about his work that impressed me very much when I first saw it in New York six months prior to our opening," remembers Studio owner Tom Hilligoss. "I had several conversations with the publisher and meetings with their representative, but kept hearing that the artist doesn't paint enough works for a show." Persistence paid off, however, and in February 1992, five months after the award-winning gallery opened its doors, the second U.S. show for Roy Fairchild-

Woodard was held at The Studio of Long Grove. "Roy's bad luck was our good luck," continues Hilligoss. "A strained back kept him from traveling from his home in London to attend our first show. The show was a huge success, nonetheless, and we received a promise from the publisher for a second show in October of '92. This show was even more successful and this time the artist attended." And although it was said

that he would not be willing to address an audience, the artist had a great time speaking to a large crowd of fans and collectors. His career has soared since that exciting beginning. The Studio of Long Grove is now assembling a major retrospective showing of works by Roy Fairchild-Woodard including originals oils, aquatints, serigraphs on paper, and a beautiful group of serigraphs on linen which have been enhanced by the artist and which look spectacular—some even challenging the original artwork.

"Carpet Room" 28" x 22"

Roy Fairchild-Woodard was born in 1953 in Surrey, England. He lives and works most of the year in his country home. This peaceful environment is fundamental to his well being and stability as an artist, although he travels throughout Europe to obtain new sources of inspiration. He is particularly influenced by the painters of the Renaissance and he visits Italy in particular to study frescos, tapestries and paintings and to see for himself the techniques with which they were executed.

His vision is coloured by his immersion in this past. His surfaces are rich and sumptuous and he uses varied interwoven elements such as fabrics and flowers in his work. The crumbling plasterwork of ancient frescos are also alluded to in his use of plaster as base for acrylic and oil overpainting.

His admiration for Egon Schiele and Gustav Klimt can be seen in occasional references of line and decoration but he has extended their techniques to produce something altogether bolder and contemporary.

After leaving school at sixteen to train as a technical illustrator, he then took a degree in graphic design. Having completed his education he set up his own studio. He soon found it was difficult to make a living from his own work and supported himself and his family for several years by producing, under the name of Woodard, illustrations for record sleeves,

"Venetian Memories" 30" x 40"

advertisements and books, as well as decorative serigraphs and lithographs. He achieved considerable popularity with his suites of pastel coloured figurative prints. Experimenting with different techniques he developed entirely new methods of achieving effects in serigraphy to obtain qualities of light and colour that are now in general use. His own painting and printmaking is done under his family name, Fairchild.

## Rolexes & Cigars?

It's either a strange combination or a perfect mix! Nate Casement, owner of **Michal's Fine Jewelry** has announced the opening of an elite cigar humidor in the lower level of one of the Northwest Suburbs' finest jewelry stores. This is a store where the finest lines in high-line jewelry and watches can be viewed and purchased at the fairest prices in the heart of downtown Barrington. Our marketing experts and media representatives told us that the mix was strange. We took a bold stance contradicting our would-be consultants because we believe the mix is a natural. Why not come to a place where you can buy the world's finest and most exclusive cigars while you are shopping for your jewelry? Or, just come in and browse and purchase either exclusive product.

This month we are featuring Rolexes at special prices and we are opening twenty-eight private lockers in our humidor for customers who wish to store their favorite cigars as they become available. We have over 10,000 cigars to choose from and Monte Cristos are among our most desired and featured cigars. Some of the most difficult cigars to find can be purchased and seen in our custom-built humidor and upstairs we have over 1000 finished diamond products as well.

Folks always want to know how we come up with so many pre-owned Rolexes and each year we sell between 300 and 400 of these watches. The answer: folks are always upgrading their watches and come to trade in their watches for something more expensive or different. We offer the most generous trade in prices in the market and folks are thrilled to be able to come in and either sell or trade in their used jewelry. In many cases these watches are purchased new and kept for a very short period of time. In any case, each watch receives a one year warranty when we sell it just as if it were a new watch. Our watch makers go over every pre-owned

watch and refurbish it from the inside out. In most cases you can't tell the pre-owned product from the brand new one!

We also are the only Barrington Authorized Dealer for Bertolucci, Swiss Army, Sector, Hamilton, and other watches as well. We are proud not to be an authorized Rolex dealer as it gives us so much more flexibility to buy and sell different products. We have been watch specialists since we opened our doors many years ago and if our customers see a watch that is not in our store, we are equipped to order almost any watch in production. Our newest watch line is the Swiss Gevri which is one of the finest sport watches ever designed. Prices range from \$1,400 to \$5,000 on this rare time piece. Perhaps you have seen our ads in magazines like the *Robb Report*, *Town and Country* and other major publications as well as our television ads featuring the pre-owned Rolexes.

Submariners, Presidents, Daytonas, Air Kings, and Mens' and Ladies' Two Tones are all in our showroom right now and our overstock from the holidays is being made available for a very short time at below normal prices. COME IN AND SEE THE BEAUTIFUL SELECTIONS AND OUR CUSTOM LINES OF DIAMOND PRODUCTS AS WELL. Then just for fun, take a walk downstairs and visit our customer lounge and have a cup of Starbucks Coffee on us. Walk a little farther and visit the CIGAR HUMIDOR and decide for yourself if the mix isn't JUST PERFECT! If your husband smokes cigars he'll appreciate his wife paying us a visit and if your wife is a cigar smoker... well, what can we say?

WE CALL IT  
"THE CIGAR CONNECTION!"

**Michal's Jewelry** is located on Main Street in downtown Barrington.

## Chers Amis...

Over the years we have been asked a number of times for recipes... when they are for fairly easy dishes, we take the time to do it. When a publication like "Bon Appetit" requests a recipe, well of course, who would turn down free publicity? This month my associate, Chef Masato Suzuki would like to share his recipe for one of our trademark dishes... Poitrine De Poulet Dijonnaise, a typical Bistro item, simple, palatable, tasty and affordable!

Ingredients for two servings: two 8 oz. breasts of top quality chicken (such as Evans Farm). Real Dijon mustard. 1 Pint Japanese-style bread crumbs, salt, pepper, olive oil, parsley, minced garlic, 1 lb. fresh

baby leaf spinach and butter.

1. Sauté the chicken breasts in a touch of olive oil until just golden on each side (about 1½ minutes per side). Remove from pan.

2. Add a touch of garlic, chopped parsley, olive oil, salt and pepper to bread crumbs.

3. Spread a thick layer of mustard on one side of breasts—top with seasoned bread crumbs.

4. Bake in preheated oven (450°) for 10 minutes.

5. Serve over spinach briefly sautéed in butter at the last minute.

*Violá—Bon Appetit!*

## G. Whiz Says... Happy Valentine's Day

Many of you are familiar with our store. We've been in Barrington for almost four years! But yet, everyday we have customers who have stopped in for the first time. So, what better time to reintroduce ourselves to all of our customers!

What type of items do we carry? Let's start with what we don't carry. We don't carry collectible figurines or items that you put in a glass case. We do carry gifts that are unusual and serve a purpose. We don't carry items that are found in every store in the mall. We do carry gifts that are unique and different. For many we are the exclusive store in Chicago that carries their line. We don't have a huge store. We do have a huge selection and unbelievable variety. We don't work with a lot of large manufacturers. We do deal with many small artists and cottage in-

dustries, but do carry some of the more popular big lines.

We don't treat our customers like a number. We do love our customers and try our best to provide you with personalized and friendly service. We believe shopping should be fun. Shopping should be an experience. Shopping should be a pleasure and an adventure.

So, this Valentine's Day come wander into our store. We're filled with hearts. We're overflowing with new items for everyone who holds a special place in your life!

And if you're new to our store, please let us know so we can add you to our mailing list and keep you updated on special upcoming events. If you're a regular, we thank you from the bottom of our hearts! *Happy Valentine's Day!*

## Know Your Diamond Before You Buy

Buying a diamond can be confusing with all the different grading systems out there. In fact it is probably one of the most blind items you will ever buy. When you buy a house, you can have an inspector report its condition. When you buy a car or some other product, you can check with consumer reports. But when it comes to buying a diamond, not many customers walk around with a gemologist in their back pocket.

So when buying a diamond, you need to know more than just the four C's: *Carat, Color, Clarity, and Cut*—you need to know what these words mean. *I've always said that there is a fifth "C" and that is CONFIDENCE!* If you don't have confidence in the jeweler, then the other four C's don't mean a thing.

## Syd Simons Cosmetics, Exclusive Products And Professional Services

### Makeup Services

**Three-Lesson Makeup Course:** This is our famous comprehensive makeup course in how to apply makeup for both day and evening.

One of our professional makeup artists will privately instruct you on how to achieve your own individual best look with makeup.

You learn what skin care products you need and when and how to use them; the right foundation and how to blend it; highlighting and shadowing to contour the face; how to get the most out of your cheek colors, eyeshadows and lipsticks to compliment your wardrobe and your lifestyle. Each step is charted and diagrammed for you.

You learn what products to use and not to use so that everything you buy, you use.

After you have completed the makeup course you become a makeup artist on your own face and meet each day with confidence that you look your best.

**Makeup Application:** For that special occasion or for when you want to feel and look your best, let one of our professional makeup artists perform a corrective eyebrow shaping and apply your makeup while coordinating it with the colors of your dress.

**Teen Makeup Lesson:** An excellent beginning for the young lady starting to wear makeup.

You learn *proper* skin care for your individual needs—a fundamental first step to wearing makeup! You also learn how to apply and blend face, eye and lip makeup while coordinating makeup colors with your wardrobe to achieve a soft, natural everyday look.

Your lesson is diagrammed so that you

always have a chart to guide you.

### Skin Care Services

**Deep Pore Cleansing Facials:** Scientifically designed and performed by **Syd Simons'** professionally trained and certified estheticians. Generally, facials cleanse, unclog pores and remove dead cells but at **Syd Simons** we practice perfected European based treatments using advanced equipment and specific techniques to help improve every skin type to stimulate the deepest layers of tissue to refresh and invigorate your skin. Our estheticians analyze each face before they begin. Because every skin is different, each client receives an individual treatment to satisfy their skin's needs.

For dry or aging skins, a facial moisturizes, lubricates and oxygenates. In troubled skins, a facial reduces oiliness, congestion and blemishes.

Facials additionally firm facial muscles, tighten lazy pores, minimize tiny lines, eliminate blackheads, speed up sloughing off of dry, dead cells, refine texture, improve color and soothe sensitive skin... and much, much more.

And we don't stop there! We provide you with a carefully plotted homecare program to meet your specific needs. Amazing results have been achieved within thirty days when regular facials were combined with consistent home care.

Plus, we have the exclusive **Syd Simons'** line of fine cosmetics and treatment products, along with Cellex-C and the wonderful line of Dr. Murad's products and treatments.

Hope to see you soon,

## Interesting Atmosphere Wonderful Food

You can almost smell the salt air as you set foot into **Port Edward Restaurant**. In our indoor harbor floats the 25 foot "Porpoise" sailboat built in 1934 by Bond Boat Builders in Chicago. The Porpoise was Tony Bond's personal boat and was designed by his close friend and associate, naval architect John Deering. The strong and large wooden hull would have made her a fine fishing vessel at the turn of the century. But now our unique Porpoise is to dine one or two couples graciously in her cabin... a true unique dining adventure!

Our indoor harbor is New England inspired. To the south by the Colony House of Newport, Rhode Island North, by the old

Union Oyster House in Boston, and the picturesque Fisherman's Lobster Dock Shacks of old Penobscot Bay, Maine.

The huge timbers, joists and decking were salvaged from an old Milwaukee cheese factory and the old Starck Piano Company warehouse of Chicago. The strong timbers are virgin cutting of long leaf yellow pine, no longer available commercially. Three McHenry County barns were used for planking and hand hewn timbers for the Salem Lounge and Wine cellar. The old 1920's windmill dividing the lobby and the lounge was saved from destruction by Edward and provided an intimate setting for "popping the question" or romantic dining.

Our lounge overlooking the beautiful Fox River was inspired by the House of Seven Gables of Salem, Massachusetts. Salem's obsession with witchcraft in 1692 motivated the building of a secret room and stairs for the safety of the owner's sisters to provide a hideout from the "burning at the stake" witch hunters. We too have a secret room in the lounge. Look and see if you can find it. In the far end of the restaurant is the Navigator's Room with an outstanding collection of hard hat diving helmets, whaling harpoons, lances and an old jaw bone of a Sperm Whale. Hanging from the ceiling are oars from World War II Liberty Ship life boats.

We are celebrating **Port Edward's** 32nd anniversary this year with Edward's continuous hand on the helm. Interestingly, in 30 years of serving Alaskan King Crab Legs, Port Edward's suppliers have calculated that put end to end, the crab legs will have gone around the world during our celebration.

The encrusted cannons by the entry are of Spanish origin, circa 1680, from the Caribbean and the double ship's wheel is from an Alaskan ice breaker. The coral encrusted anchor in front of our indoor harbor was hauled up from the east coast of the Florida Keys and a few steps away, an old diver's two man pump from Montreal, Canada in

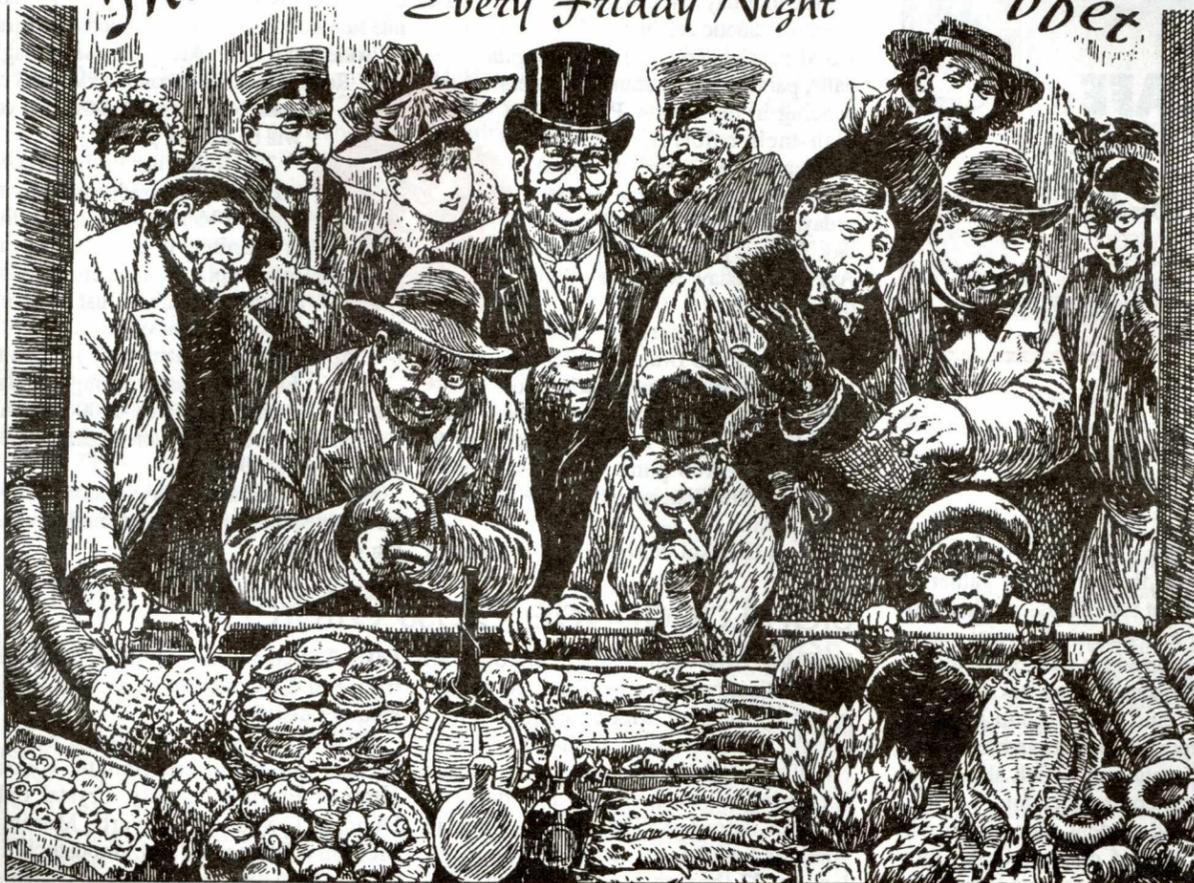

excellent working order. Just up to the side of it is a battered French ship's figure head from the turn of the 17th century. Throughout the restaurant is a collection of English antique nautical signs, rare "lead top" and 18th century binnacles, Edward Wolowiec's original paintings and nautical artifacts too numerous to mention. The collections and selection of Edward's world wide travels are reflected in our "gifts international" shop next to the wine cellar in our lower level. Top Side features an art gallery with more of Edward Wolowiec's paintings as well as nautical prints of other outstanding artists such as Turner, Spurling, Carl Evers and Charles Vickery.

Our long time guests are giving us raves about the new Sunday brunch with sea food accent look! A new brunch feature is the chef's carving station featuring London Broil. Also new is eggs benedict made to order. Of course we still have the omelet station that just about everybody loves and dozens of other items, plus a 20 foot desert table. **And don't forget our scrumptious International Seafood Buffet, served every Friday night.**

Gift certificates are available at the hostess desk, or we will be happy to mail them for you. **Port Edward Restaurant** is located on Route 62 and the Fox River in Algonquin. (847) 658-5441.

## Learn The Techniques Of Parent Networking

Parents of children in public and private schools are invited to learn the techniques of Parent Networking at a workshop on Thursday, February 6, 1997, 7-8:30 p.m. at Barrington Middle School, Station Campus on Eastern Avenue. The workshop is sponsored by the School District 220 Parent Networking Council whose representatives are from Dist. 220 elementary, middle, high and St. Anne schools.

Parent Networking is a communication technique developed by the Alliance of Barrington Communities for Drug Education (ABCDE) which promotes parental responsibility in health and safety issues and for

the prevention of high risk behavior. PN is not communication for the purpose of socializing, but for the purpose of gathering information about specific issues that concern children and the youth social scene. The workshop provides role plays by experienced PN discussion leaders, handouts for home use, and small group practice. Parents also receive support and learn how to avoid confrontations which shut down parent-to-parent communication.

Child care and student supervision will be provided free of charge. Call Libby Johnson at 428-3787 to reserve a space for your child

## Julio's Latin Cafe The Perfect Place To Celebrate Carnival!

Carnival! If you've been to Rio during the world-famous pre-Lenten celebration, you'll never forget the experience! Every year, during the four days preceding Ash Wednesday, the most chaotic celebration in any city in the world gets underway. There are gala balls, parades and costumed revelers dancing in the streets. Participants plan their colorful, exquisite costumes for a year! Carnival activities begin this year on Saturday, February 8 and end Tuesday, February 11, the day before Ash Wednesday, which is a holiday in Brazil.

Sounds exciting, right? There's no need to fly to Brazil to celebrate Carnival. Julio's Latin Cafe is offering their own version of Carnival, "A Night In Rio," on Sunday, February 9, from 4:30 - 8:00 p.m., with lots of good food and Brazilian music by the Paulinho Garcia Band.

Julio's Carnival celebration will feature a

three-course meal with Appetizer, Feijoada Buffet and Dessert. Feijoada is a traditional Brazilian dish which has evolved from a simple pot of black beans with bits of pork into an elaborate stew built around the beans cooked with assorted meats, smoked pork and sausages.

Reservations are recommended and can be made by calling 438-3484. The cost will be \$25 per person.

The following Friday, February 14, is the traditional day for lovers—Valentine's Day! Julio's is definitely one of the most romantic places to celebrate either at lunch or dinner. Just be sure to call for reservations!

Julio's Latin Cafe is open for lunch Tuesdays through Fridays from 11:30 a.m.-2:00 p.m. and

## February Fun At 1776

The fine art of "Grazing" is coming to **1776** in Crystal Lake. **1776** has joined forces with the **Wine Peddler** in Algonquin to bring you a Tapas dinner on the last Thursday of every month. Andy of **1776** and Bob DePalma, owner of the Wine Peddler, will coordinate a meal featuring nine courses and nine compatible wines. Of course, true to Tapas style, the courses are smaller than a normal entree. This is an excellent opportunity to taste several different wines while enjoying the foods of **1776** with your family and friends. The next Tapas dinner will be on Thursday, February 27.

Andy has again won an "Award of Excellence" from the *Wine Spectator* for his wine list. The list now has over 300 different wines, all in keeping with Andy's philosophy of variety and value. If you would

like to learn more about the art of wine, sign up for Andy's wine class through McHenry County College. It is a five week course starting February 15. In addition to learning about wine, you will be able to taste the types being studied at every class.

Finally, Valentine's Day is quickly approaching. **1776** will be offering a 5 course meal for \$34 per person. Some of the entree choices are Filet Mignon with garlic mashed potatoes, Rib Chop with a chipotle béarnaise sauce, Bison Strip Steak with goat cheese basil cream, Longneck Ranch Ostrich Filet with molasses glaze, Indiana Amish Chicken with dried fruit granola, Trio of Grains with baby vegetables, Bluefin Tuna with passion fruit and a Shrimp and Lobster Paella with saffron rice.

## The Florentine Opera Presents "La Traviata"

The Florentine Opera Company is mounting a lavish production of *La Traviata* with Sherrill Milnes, Maria Spacagna, and Johnathan Welch on Friday, February 28, 1997, 8:00 p.m.; Sunday, March 2, 1997, 2:30 p.m.; Tuesday, March 4, 1997, 7:30 p.m. The opera will be sung in Italian with English supertitles at Uihlein Hall/Marcus Center for the Arts in Milwaukee.

The Florentine Opera continues its 1996-97 Season of Grand Italian Opera with *La Traviata*, by Giuseppe Verdi. *La Traviata* is the third and last opera in Verdi's so-called "popular trilogy," that also includes *Rigoletto* and *Il Trovatore*. The psychological complexity of the main character of Violetta makes her an outstanding figure not only in this opera but in the context of Romantic theater as a whole. *Traviata* is the past participle feminine of the verb "traviare," meaning "to go astray." The modernity of the plot is just one of the features that helped Verdi to produce, from the very opening bars of the prelude, an extraordinarily lyrical score, capable of recreating in music the drama, feelings and sorrow of the story.

Giuseppe Verdi seems to have cared deeply for the character of Violetta. Somewhere inside Verdi's gruff exterior, he wept for her, and this feeling comes out in the music that brushes aside typical operatic conventions. *La Traviata* is one of the great operatic love stories; it is more human than *Tristan und Isolde*, and less contrived than *Madama Butterfly*. The opera was written

L to R: Maria Spacagna, Violetta;  
Johnathan Welch, Alfredo;  
and Sherrill Milnes, Germont.

in three acts, each being a day in Violetta's life. The humanity of *La Traviata* comes to it naturally, for Violetta was an historical figure, Marie Duplessis, who died in 1947 in Paris of what was then called consumption and today tuberculosis. She seems to have been an extraordinary person, a mixture of sensuality and disinterestedness, simple yet loving, gay and yet with a strain of sadness.

For those ticket holders that want to know more about opera, Dr. Corliss Phillabaum will present pre-opera talks on the subject of Verdi & *La Traviata* in Magin Lounge one hour prior to each performance. The Italian Community Center will also mount a display of Giuseppe Verdi and Italian opera memorabilia in Magin Lounge for all performances of *La Traviata*.

Single tickets, ranging from \$18 to \$78, are available from the Marcus Center box office, (414) 273-7206 or TTD (414) 273-3080. Tickets are also available through all Ticketmaster outlets and by phone at (414) 276-4545.

## How Do I Work With A Kitchen Designer?

You've decided that the time has finally come to remodel your kitchen. You're facing a multitude of decisions to make your dream kitchen become a reality. What wood, style and finish to I want for my new cabinetry? Should I choose a freestanding range or a built-in model? Would I like solid surface or laminate for the countertop?

You know you should contact a kitchen designer but you're not sure how to work with one. Many potential remodelers have questions about the role of a designer, according to Star Norini-Johnson, CKD, ASID, owner of **Distinctive Kitchen Designs, Inc.** in Wauconda IL. Her answers to some of the most common questions might help you in achieving your dream kitchen.

1) Will a designer try to sell me what I don't really need? "Most good designers won't oversell. They'll try to make you aware of the options available to you," Norini-Johnson says. And there will be more than you may realize: cabinets packed with ingenious storage aids; new labor-saving, high-tech appliances; and a broad range of revolutionary countertop materials, just for openers. "Your designer should present different ideas to help you make the right decisions."

2) Suppose my designer won't do what I want? "When a designer disagrees with what you want, the professional designer will usually discuss the pros and cons of the issue," says Norini-Johnson. "Perhaps the designer is concerned about a safety issue, such as proper clearances. However, it's your money and you have the final decision. If, on the other hand, you feel that the designer is not interpreting your needs or ideas, it may be a good idea to look for another professional to assist you."

3) Why does the designer need to know how much I want to spend? The obvious

answer, according to Norini-Johnson, is so you won't end up with an elaborate commercial-type installation if you're interested in a simple, family kitchen. The designer also has to know your family's special needs. What about a baking center or a snack counter for toddlers? Or an island with a vegetable sink to allow more than one person to participate in food preparation? A good designer is usually very practical and should make recommendations as to which cabinets or finishing materials may best maximize your budget.

4) If I use a designer, how can I be sure what my kitchen will look like? "Only a few clients can visualize what their kitchen will look like from a floor plan. As a rule, I will often draw a perspective rendering of the finished kitchen. If you are not certain, or do not understand any element of the design, be sure to ask the designer to clarify the design concepts before placing the order for cabinets or other materials."

5) Will my kitchen cost more if I use a designer? "Quite often, the very opposite is true," says Norini-Johnson. "As mentioned before, designers can usually maximize the client's budget and avoid costly mistakes. However, don't be surprised if the designer has the policy of asking for a retainer at some point prior to your commitment for a purchase. After all, our time is valuable too, and we all have to make a living. The retainer usually covers the drawing and design time that the designer will invest prior to your ordering the kitchen. The retainer can usually be applied as part of the deposit for the order. It is a good idea to ask the designer about the billing policy during the first interview."

## Giving Communities Boosts Toys To Pediatric Cancer To Over 10,000

New toys for pediatric cancer children are distributed every week, all year long by Bear Necessities Pediatric Cancer Foundation, with its national headquarters in Cary. "The year-round generosity of churches from Cary, Algonquin, Chicago to St. Charles, Cary-Grove High School, New Trier High School (Winnetka), Scout Troops and individuals has skyrocketed the amount of toys distributed by Bear Necessities to a number in excess of 10,000 toys," related Kathleen Casey, Executive Director of Bear Necessities. Casey continued, "Beside our mission to fund pediatric cancer research and other immediate pediatric cancer needs, our toy collections are used at hospitals from New York to Hawaii. We try to keep the hospital toy chests filled not as

rewards, but rather to help distract the children, even slightly, as they are going through chemotherapy, spinal taps or some of the other difficult procedures they endure. The video tapes and paperback books people drop off are also critically important for diversion time for both the children and parents."

"Everyone at Bear Necessities, the hospitals and the courageous children wish we could thank everyone personally, but we can't. We hope everyone understands. Thank you so very, very much," related Casey.

For more information about Bear Necessities, to contribute or volunteer, please call (847) 516-4081. Bear Necessities receives no federal or state funding.

## Start Your Planning Now!

Now that the holidays are over, most people begin to "Think Spring." And if those thoughts are directed towards improving your home or even building a new one, then, these next few months are an ideal time to get started. Most people think that in March or April, they will call an architect to get some ideas on remodeling or building a new home. Unfortunately, most design firms, at this time, are deluged with these types of requests from homeowners and builders. By the time the plans are finalized, permits pulled and contractors scheduled, construction is pushed back to July.

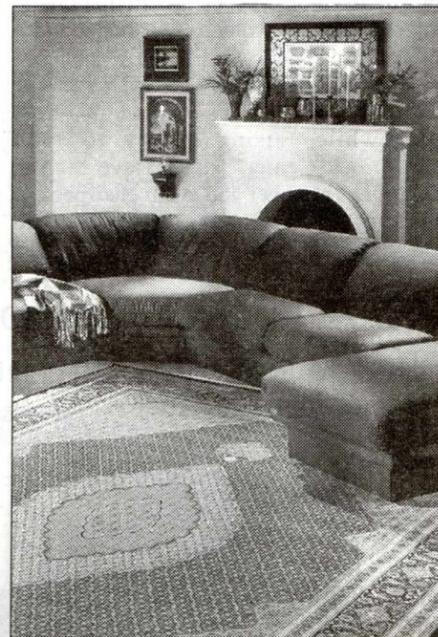

We suggest that you schedule to talk with us about your plans as soon as possible. We would then be able to get your plans done, construction bids in and permits pulled by March or early April. You would then be able to enjoy your new space for the majority of this new year and not have your Summer "under construction."

Our firm is dedicated to the intricacies of residential architecture. We specialize in the designing of spaces that meet our client's desires as well as their budget. There is no obligation to have us meet with you to discuss your projects or to help you

select your building lot. Please feel free to contact John C. Cazzetta at **Kemper Cazzetta Architects**, to arrange an appointment and to preview our extensive residential portfolio.

## A Winning Combination

It may be difficult to believe, but winter will be over before you know it. Now is the perfect time to come in and meet our "winning combination"... **Barrington Kitchen & Bath Studio** and **Delta Renovations**.

We provide a unique "award-winning combination." With the personal touch that is offered by our highly trained professional designers and our installations being handled by our sister company, **Delta Renovations**, we really do have the best of both worlds for you and your family as you go through this exciting time.

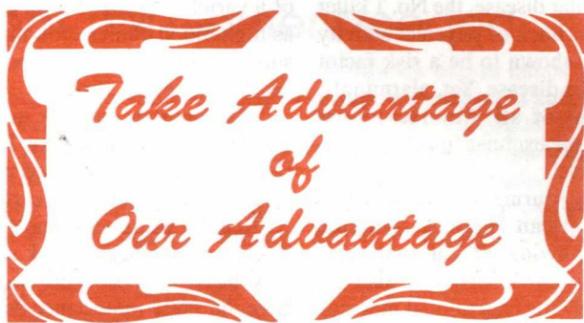

During your planning consultation, our professional team will help design your kitchen or bath and will estimate the project for you. During this estimating process, we are able to work with you to come up with different options in cabinet lines, countertops, whirlpools, plumbing fixtures and other items. This gives you a choice when it comes down to design and price.

The questions that you need to ask your-

self prior to your first visit are, 1. *What do I really want to gain by the remodeling of my kitchen or bathroom?* 2. *What budget do I want to try to stay within?* 3. *Collect pictures from books and magazines on ideas that you've seen that you like.* Then come in and let us do the rest of the planning for you!

Once your new kitchen and baths are completed, you'll be glad that you decided to create a new beginning for your home! And in the future when it comes to selling your home, the kitchen and bathrooms will help you receive top dollar.

We invite you to meet with our design staff at our showroom located at Route 12 and Lake Cook Road (next to Northshore Refrigeration) at 20066 N. Rand Road, Suite C. Showroom hours are Monday through Friday, 10:00 A.M. to 6:00 P.M. and Saturday 10:00 A.M. to 4:00 P.M. or by appointment. Appointments are suggested for design and planning consultations.

## Work With Experts When Planning A New Space For Your Home...

Why do so many homeowners find the process of remodeling or adding on to their homes so intimidating? "Too much information from conflicting sources," says Mark Zurek, president of **Delta Renovations**. "The whole process is by nature an emotional one because it involves entrusting others with not only money, but with the comfort and security of home and family."

**Delta Renovations** has built its business by analyzing the needs of its clients and finding the best way to meet those needs. Every project presents a unique situation and requires services tailored specifically to that situation.

For clients considering major renovations or an addition, they often recommend the "Design-Build" process. Projects of this type call for the involvement of an architect. This is not only because local building departments will require that submitted drawings include an architect seal, but also because the architect has been trained to combine technology and aesthetics. We have all seen homes that have had their character totally destroyed by a less than sensitive addition. "A good architect is able to add the extra space so that the addition itself is undetectable, and the home is even more attractive," says Zurek. "The down-

side of using an architect in the remodeling process is usually budget." Many times, the homeowner will hire an architect and fall in love with his plan only to find the bids coming in astronomically higher than their target budget. Because the architect isn't intimately involved in the bidding process, he is often unable to accurately predict the cost of building what he has drawn. **Delta Renovations** is proud to announce the inclusion of Margaret Nowak, A.I.A. to its staff of industry professionals. We are now able to offer complete in house design services, and the benefits of a design/build association to our clientele. "We have spent years developing our relationship with suppliers and subcontractors who we know provide, at a fair price, the best products and the top-notch service I demand," continues Zurek.

If you would like to see how **Delta's** "Design-Build" process will fit into your plans, please call Mark Zurek at 776-0121. There is no obligation for a consultation. **Delta Renovations** can also help homeowners with less extensive remodeling plans, like redoing existing kitchens and baths, using the in-staff designers with **Delta's** sister company, **Barrington Kitchen & Bath Studio**.

## Get In On The Action! The Cardiovascular Benefits Of Physical Activity

Someone in America dies every 33 seconds from cardiovascular disease, the No. 1 killer in the U.S. today. Lack of physical activity has been clearly shown to be a risk factor for cardiovascular disease. Yet, alarmingly, only 22 percent of all Americans get enough leisure time exercise to achieve cardiovascular fitness!

Each February, during American Heart Month, the American Heart Association launches a nationwide educational campaign relating to cardiovascular disease. For February 1997 the educational message is, "Get in on the Action!", which urges everyone to make physical activity a part of their daily lives. Physical activity offers long-term health benefits and can be incorporated into everyday life. Simple activities like walking, yard work, gardening, housework and dancing—done for at least 30 minutes a day—offer long-term health benefits.

More vigorous aerobic activities, such as brisk walking, bicycling, swimming, jogging or jumping rope, are great for improving the fitness of the heart and lungs. These and other vigorous activities done three to four times a week for 30 to 60 minutes will help the heart, lungs and circulation. Regular exercise will also help keep weight under control while improving blood cholesterol levels and preventing or managing high blood pressure.

Regular exercise also prevents bone loss as a person ages, boosts energy levels, releases tension, improves the ability to sleep, improves self-image, counters anxiety and depression, and increases enthusiasm and optimism.

Scientists have not found a direct link between regular exercise and stroke. But

they do know that exercise reduces the risk of a variety of other health problems, such as high blood cholesterol, high blood pressure and obesity, which can contribute to heart disease and stroke.

"It's important to work in a workout every day. It could save your life," said John Dailey, Ph.D., president of the Illinois Affiliate of the American Heart Association.

"Regular exercise is one significant way to help reduce heart attack risk. No matter how busy you are, your workout should have the same importance as any other appointment of the day," Dailey said.

Physical activity can easily be incorporated into daily life, both at home and at the office. Using the stairs instead of the elevator, walking the dog and bicycling or walking to do errands are some examples. Activities for cardiovascular health, however, should significantly increase the blood flow to the big working muscles for an extended time.

For more information about American Heart Month activities in your area or to learn more about exercise in the prevention of heart attack and stroke, call 1-800-AHA-USA1.

The American Heart Association, with 4.2 million volunteers, is dedicated to reducing disability and death from cardiovascular diseases and stroke. Since 1963, February has been designated as American Heart Month by a Presidential proclamation to recognize the continuing fight against heart disease and stroke and the need for all Americans to take part.

The American Heart Association is the largest voluntary health organization fighting heart disease and stroke, which annually kill more than 950,000 Americans.

fun and common-sense application to all her programs.

The Masters in Marketing Seminar Series also includes sessions on marketing plans, communication skills, hands-on mar-

keting, customer service strategies, marketing for the new millennium, conflict resolution, and sales presentations. For a full schedule of planned seminars, call NSACI at 847-517-7110.

## Just What This Corner Needed...

Got the winter blahs? How about perking up those flagging spirits with some quick and fun redecorating? Yes—quick, fun, and very easy. Just think accent lamps—they are absolutely beautiful... help brighten up your home during these long winter nights... and, they come in so many different and exciting styles, you are sure to find the one (or two or three) that will fit that corner, that dresser, or that study nook perfectly. And they won't break the budget. In fact, accent lamps are one of the most economical ways to add interest and your personal style to most any room in the house. At **L & W Lamps**, right here in the village, you can find wonderful little brass

candlestick accent lamps for a low \$29... gorgeous favrille and authentic Tiffany reproductions starting at \$89... and elegant alabaster with genuine silk shades for \$69. So exactly what makes an accent lamp an accent lamp? "Any lamp less than 20 inches in height qualifies" says Jeffrey Woodall, the owner, "and due to the sharply increasing interest in accent lamps, many of the best names in the industry have added exciting new styles to their lines."

So head on over to **L & W Lamps** and take a look at what's new... **L & W Lamps** is located at 710 S. Northwest Hwy., Barrington. Tel.: 847-382-3195.

## Interior Painting

Bill Schafer—President

Spending a lot of time inside your home lately? Trouble is, now you begin to notice how badly the paint is peeling on that wall, or how the wallpaper in the kitchen is peeling away at the seams, and where did all those scuff marks by the door come from?

Yes, you could go out and buy those flimsy, plastic tarps and cover up the furniture. Elbow your way to the paint counter and wait for the assistant to mix up just the right shade of yellow that you wanted. Hunt through the basement to look for those paintbrushes and rollers, only to find out that they're too hard from old paint and you can't use them.

Another choice is to comb through all those advertisements and try to find a good painter. You could go with the cheapest

Joe Schafer—Vice President

price, but is the work guaranteed? Do they have verifiable references? Do they prepare the surface properly? Do they clean up after themselves? Above all, if they get hurt in your home, will you have to pay for it because they aren't properly insured?

At **Schafer Builders, Inc.** we make the decision easy. We're proud of our work, and our clients keep coming back to us. We're established in the community, and we'll be around to back up our work long after those fly-by-night contractors have hit the road.

Why put up with the hassle of painting your home yourself or hiring a contractor that doesn't offer first class service and reliability? Call **Schafer Builders, Inc.** now at 815-459-1333 and find out why we're one of the top 500 remodelers nationwide.

The Foundation recognized the assistance of Flowerwood Inc. and Verlo Mattress Factory, both in Crystal Lake; Harris Bank and Smith Barney, Barrington; Hydraulics Inc., Brake Parts Inc. and Echlin Midwest Federal Credit Union, McHenry; Reflections Beauty Salon, Marengo; and Hidden Valley Manufacturing, Wheeling.

"We are incredibly pleased with the sup-

port we received," said NISRA Executive Director Brian Shahinian. "More than 75 local businesses and countless community representatives throughout the NISRA service area participated in this fund raiser. Our success is due mainly from such assistance."

The money raised will help defray the cost of Special Olympic uniforms and costs, Summer Day Camp scholarships and to a wheelchair-accessible vehicle replacement fund.

## Shows To Be Presented

### By Northern Illinois University Theatre Arts

The popular new Studio Series opens its spring season with a pair of one-acts on the same bill. Megan Terry's experimental women's piece "Calm Down Mother" and Christopher Durang's hilarious and offbeat "The Actor's Nightmare" will play February 13 through 16.

Next up on the main stage is Shakespeare's popular comedy, "A Midsummer Night's Dream," playing February 20 - 23 and February 27 - March 2 in the O'Connell Theatre. Performances for school groups are scheduled for 10 a.m., February 21 and 27.

The Off-Broadway hit "Extremities" plays Feb. 27 - March 2 as the next Studio offering. Written by William Mastrosimone, the story concerns a rape victim who turns the tables on her attacker.

The Studio Series continues with "A Photograph," a drama by Ntozake Shange, author of "For Colored Girls..." Performances are March 20 - 23.

"Marvin's Room"—the winner of the 1992 Drama Desk Award for Best Play runs April 2- 6 and 9 - 13 in Players The-

## From A Woman's Point Of View

by Gail Wickstrom, Wickstrom Ford

I have mentioned many times that we are very lucky to have so many long-term employees and I would like to tell you about one more of them. His name is Erik Peterson. Erik came to work with us over eleven years ago when he was only 21 years old. Erik is one of our Parts Managers. When he started here, he had long orange hair and a few earrings. As long as Erik was neat and clean, as he always was, it didn't matter to Tim or me.

I can't even remember when Erik changed his hair, I always meant to ask him if he just got tired of it or if he just got tired of all the grief the technicians gave him about it.

Erik has always been one of the most reliable employees that works with us. He's always here, no matter what the weather does. He was only gone a few hours when his house flooded in Cary a few years back. We consider Erik our resident electronics whiz, especially when it comes to music apparatus. He loves any gadgets, computers or electronics. If something breaks and Erik can't fix it, then we call for service. He also has another fascination that we don't al-

ways appreciate, bugs! He even occasionally likes to make a copy of a rather large bug on the copier.

I don't think I've ever heard Erik even raise his voice in the eleven years he's worked here, which is amazing when you consider he works in a parts department. Employees like Erik Peterson are the backbone of Wickstrom Ford and we're very grateful for people like him.

## Scotty's—Groceries On Wheels

Just don't have time to get to the grocery store? Hate those long, frustrating lines? Difficult taking the kids? **Scotty's Home Delivery** can help. We have been in business for over four years now, servicing the grocery needs of people just like you. We service 45 north and northwest suburban communities, with a customer base nearing 2,000 clients. Best of all, you pay grocery store prices, with only a nominal delivery fee to have them brought to your front door! Our average delivery fee is only around \$3.00!

All of our customers receive a price book with the nearly 5,000 items that we carry. It includes all of your favorite name brand suppliers, and an assortment of specialty items that you won't find at the grocery store, such as fresh butcher meat and seafood, whole grain breads from the Barnaby Smythe's Stone Ground Bread Company, fresh baked goods from a local bakery, and the finest of fresh produce we receive in daily.

Ordering is very simple. You can either call in or fax in your order, just indicating the item numbers you would like to have delivered. We will give you a total due for your delivery, and you can pay us by check

or credit card. The great thing is that you don't even have to be home to accept delivery (around 50% of our customers are not). We can do this because we deliver all of our refrigerated and frozen items in Igloo coolers with ice packs, so even ice cream stays frozen while your groceries await you. The dry products are delivered in waterproof boxes with lids on them. We will work out a convenient place with you to leave your groceries if you are not going to be home, and they will be waiting there fresh when you arrive. "The Legacy of Michelangelo and the Italian Renaissance" is the theme of the annual Art Institute of Chicago and Chicago Symphony Orchestra Joint Lecture Program on Wednesday, March 12.

The Barrington Community Associates of the Art Institute is sponsoring a bus trip, members only, to attend this event.

Italy has produced some of the world's most treasured and influential works of art and music, particularly of the Renaissance and Baroque eras. This all-day program will examine the specific nature of that achievement through the unique resources of two of Chicago's legendary cultural institutions.

Morning activities include registration and a lecture at orchestra Hall followed by a concert by the Chicago Symphony Orchestra. Luncheon is at the Art Institute. In the afternoon Suzanne Folds McCullagh, Curator of Earlier Prints and Drawings at the Art Institute, and author of the forthcoming book *Italian Drawings before 1600 in the Art Institute of Chicago*, will give a slide-illustrated lecture.

Busses will leave Langendorf Park parking lot in Barrington at 8 a.m. They will depart from Chicago at 3 p.m.

## More buyers! Less market time!

Now the home-seller's  
impossible dream  
comes true.

It started in Australia. And it's been tested with immense success by Prudential offices across the country. It's a new system that prices properties in a range rather than at a fixed amount. It's buyer attractive, letting prospects know the price at which they may start negotiating and encouraging them to approach properties they might otherwise consider out of reach. And it's a seller's dream, bringing more buyers, cutting market time, and still allowing room to negotiate a good price. We call it Market Value Pricing. MVP. Suddenly pricing isn't the problem. It's the solution. Call us.

We're the real estate professionals with the business expertise.

still need to deliver the completed form via mail or in person. If you have questions about passports, there's a new number you can call: 900-225-5674. Unfortunately, it's not free. (It costs 35 cents per minute for automated information, or \$1.05 per minute to speak to a human being.) Interestingly, the fees don't go to the U.S. government directly; rather, they're paid to AT&T, which subcontracts the services for the State Department.

### Checking E-Mail on the Road

Look for internet-access kiosks at an airport and hotel near you. GTE has installed ten of the pyramid-shaped, seven-foot-high "cyberbooths" in the Dallas/Ft. Worth Airport and has plans to expand the service to

hotel lobbies, hotel rooms, convention centers, and other public spaces nationwide. The kiosks use high-speed IDSN lines instead of slower modems most home users rely on, and the cost is \$3 for seven minutes, \$5 for 15 minutes, or \$20 for an hour of use. Now you can check your e-mail or surf the net while you're waiting for your flight.

### More No-Smoke Flights

British Airways has banned smoking on all of its flights between the United States and Britain, even on the Concorde. Now that Delta Air Lines has banned smoking on all flights worldwide smokers will find it more difficult to fly across the Atlantic while puffing away.

The Prudential  
Preferred Properties

**GOOD NEWS!** The Prudential Preferred Properties has added another dimension to pricing a property for its clients, MVP (Market Value Pricing) is a unique new pricing alternative to attract more buyers to our Prudential properties. This new program is causing excitement within the real estate community.

In fact, my special friend Napoleon called asking what was Prudential doing? He had seen our ads talking about MVP and did not quite understand it. He really thought it was a machination. Napoleon is quite a specific individual and must understand minute detail.

"Napoleon, MVP or Market Value Pricing, quite simply, involves marketing properties in price ranges rather than with traditional fixed prices. While this concept may seem somewhat unusual at face value, it has created tangible results in hundreds of markets across the country. For instance, it has dramatically decreased the average days on market (DOM) in some cases by as much as 75%. That's a real benefit to a seller and the seller's family."

"When any new concept is introduced to an industry there tends to be resistance to change. MVP or Market Value Pricing is no exception. Since no one has ever questioned the traditional method of setting a fixed price, many Realtors' as well as consumers' first reaction to MVP is to question why anyone would want to use it... especially men, Napoleon."

"Ranges have always been used in real estate... when Realtors prepare market analyses they have more tools and data at their disposal than any consumer could ever hope to have. Yet, when they compile this information to come up with an estimation of value, they end up with a range of value rather than a fixed price. Napoleon, have you ever wondered why?"

"Napoleon, put your wife on the phone; I would like to explain this to the two of you. (I always like to educate Napoleon.) Now why is a range of value better than a fixed price? For Realtors—there are many reasons; the market analysis is based on data from comparable homes—not identical homes. Also establishing value is not an exact science, there are many variables to consider and the Realtor needs to present a flexible opinion on price. So the bottom line

is there are many good reasons why today's Realtor estimates a home's value in a range since they are already thinking in ranges." (No Realtor has a crystal ball.)

For sellers—every seller whose home is on the market is thinking in a range also. There are two prices in their minds: 1) the price they're asking—the most they'll ask—the price they feel they have to ask in order to get the price they really want; and 2) the price they'd be willing to accept—the least they'll take (a price they often do not share with their Realtor).

Sellers know that buyers want to pay less than full price. In order for the sellers to get the price they really want, they feel they must ask for more. This allows the seller to come down in a negotiation and meet the buyer at a price that is acceptable to both.

Bottom line... sellers have ranges in mind today, too.

MVP (Market Value Pricing) makes sense. The Realtors, sellers and buyers are thinking in price ranges today—so why not price that way? With MVP you have the ability to set a price that attracts the most significant number of buyers during the most critical period of buyer activity. This leads to increased showings and, in many cases, multiple offers.

Consider the following benefits for the seller:

- MVP decreases average days on market
- MVP eliminates over or underpricing
- MVP maximizes final sale price
- MVP eliminates price reductions
- MVP attracts more buyers
- MVP invites more offers

"So Napoleon, the market determines value—what a buyer is willing to pay that the seller is willing to accept. MVP or Market Value Pricing simply brings buyers and sellers together faster. WOW!! That's happiness. Any questions?" "No" he said, "Not right now, but when we have questions you can be sure that I will call you." And, I know he will.

That's what I would like you to do, too. Please call **The Prudential Preferred Properties** and one of our Realtors will happily explain this new MVP program, the different pricing ranges and the benefits.

## Spring Planning With SanFilippo Landscape

No matter what you do in life, planning is important. It gives you a direction and helps you get where you want to go. Sometimes the planning can be done without help but more often than not a professional is needed.

At **SanFilippo Landscape** we offer the planning help you need when it comes to

the landscaping of your home or office. Through education and experience, our architects must be able to take an existing situation, blend it with a client's needs and still make it look good and feel right. Picture a juggler with three or more balls and you get the idea of what creating a design is all

about. Everything must be considered—building location, drainage, neighbors, existing plantings, budget—and don't forget the most important consideration—what you want! Do you entertain a lot, do you enjoy gardening, have plans for a pool, require low maintenance? Remember, no one can give you what you want until they know what's important to you.

Once you've established what your needs are and have the plan in front of you, how do you know if it's a good design? Many people have a hard time understanding what all those symbols on a plan represent, so we thought we'd share with you some ways to understand what the drawing

is trying to tell you so you'll be better able to judge the quality of your landscape design.

All plans should place your residence and all other structures on the property in their proper location (a survey is required to do this) and drawn to scale. The diameter of each circle represent the tree or shrub's spread. Architects/

designers usually have a style of drawing that helps you differentiate the different types of plants used (i.e. deciduous, evergreen, groundcovers). And always keep in mind "the right plant for the right location." The plant's mature size must always be considered so you don't have a too large or too small a plant for a given area.

### The Plan

### Plant Materials

All plants are not created equal. In your design, try to pay attention to variety in the texture, color and size of your plant materials. A good mix of heights give the landscape dimension while large groupings of the same plant can help create variety in texture and color throughout all the seasons. Also, once the choice of plants is made, ensure that they are adapted to our climate. We recommend materials that have been grown in Northern Illinois/Wisconsin nurseries. Many lawn and garden centers sell bulk plant materials with undersized root systems to accommodate volume shipping. Many of these same plants often come from the South, allowing them to be more prone to disease and unable to

handle our winters. Another consideration is plant size. Professional nursery stock is larger and helps create a more pleasing look during the first season before the plants are established.

### FEBRUARY TIPS

- Prune forsythia on a warm, sunny day. Place the clippings in warm water overnight. After soaking, put the stems in a vase and watch them bloom in 3-5 days.

- Get your lawn equipment repaired and tuned before the spring rush. The average blade lasts one season and it's best to have it professionally sharpened.

- Be careful when pruning evergreen branches. What appears to be dead may not be. Discoloration can be caused by cold temperatures. The needles may be dead but in all likelihood the buds are still "kicking."

- Plan your spring landscape upgrades now and take advantage of the spring digging period. Plants that transplant best in the spring are: birch, oak, red-bud, pear, red maple, alder and beech.

### Questions to Ask a Contractor

So, if you're in the market for a landscape contractor who can handle the whole project for you, make sure you ask lots of questions: "Where do your plants come from?", "Are you primarily in the maintenance business?", "Can you help me with grading and drainage?", "Are your designers licensed Architects?"

Whatever you

do, start with a plan and give Mike SanFilippo a call at (847) 381-1611.
