## Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 21 years of service at the same location.

## Editor's Ink

October, 1997

Dear Reader,

The season is, indeed, filling with autumn events. There are holiday craft shows everywhere, the Chicago Art Institute exhibit "Renoir Portraits: Impressions of an Age" will be opening, the friends of BAAC are planning "October Festival of Arts," the Arden Shore's "Le Carrousel de l'espoir" promises to be spectacular, *The Nutcracker Gala '97* will be as charming as ever... etc.! The events all sound like great fun, so mark your calendar and make your reservations now.

The 32nd annual "Dices & Pisces" gala will be on October 18 at the venerable Casino on Delaware Place, Chicago. The "Evening of Elegance" will begin with a lavish reception, very impressive live and silent auctions and a sumptuous dinner. Proceeds, of course, benefit the Infant Welfare Clinic.

I will begin October by traveling to Rhode Island, hoping to view the beautiful estates of Newport and enjoy the charm of Cape Cod and Nantucket. I plan to take lots of pictures to share with my readers, so you can enjoy the experience too. If you've been there, well, maybe we can reminisce together.

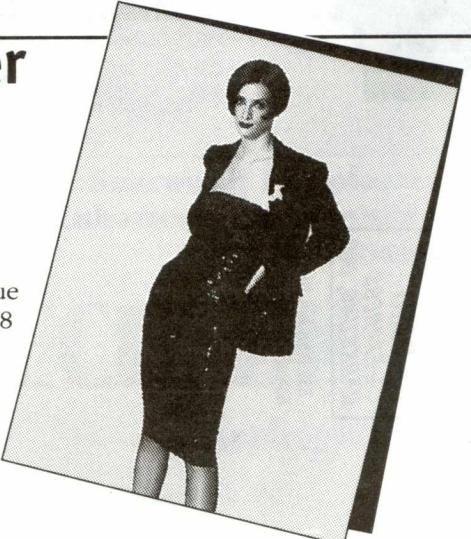

Until next time, may all your thoughts be sunny.

With warm regards,  
Glenne McMonigal  
Editor, *Lifestyles Magazines*

The evening begins with cocktails at 5:00 p.m. on Saturday October 18 at a Barrington Hills Estate.

In addition to live entertainment and viewing of the estate, the evening promises to be the most spectacular of all previous years with the live and silent auctions to be held in a "carnival"-type atmosphere.

## Friends of BAAC Plan "October Festival of Arts"

You don't have to travel to Germany this year to take part in an Octoberfest!

"October Festival of Arts" is being planned by Barrington Area Arts Council's newly established auxiliary, Friends of BAAC, for Saturday, October 25. The evening will center around a live auction of quality art donated by popular local and nationally acclaimed artists, further highlighted by an Octoberfest buffet catered by Peppercorns Catering Ltd.

The event, which is a perfect candidate for an annual occasion dedicated to Barrington's art lovers, will be held at Knights of Columbus Hall, 125 Kelsey Road, Barrington, beginning with an art preview and open bar from 6:30-7:30 p.m. This fun-filled, casual evening (no black tie needed this time!)

will include the live art auction, a silent auction and surprises. Keith Jones will have the auctioneer honors, and Barrington's own WGN Radio personality, Larry Schreiner, will be emcee for the event.

The auction will include watercolors by Michael Barkman, Dena Bellows, and Sherry Lee, a colored pencil drawing by Gail Collier, a sculpture by Philip Soosloff and prints by Ed Herbeck and Blake

Mueller. Among the prizes are two round-trip tickets to Europe or Hawaii donated by American Airlines, a \$100 gift certificate from Chuck Hines in Barrington and dinner for four at The Market House, also in Barrington. There will be a special prize for three or five nights at Disneyworld.

Sandy Cox and Joan Quinn are co-chairing "October Festival of Arts" and other Friends of BAAC assisting them in-

## The Shepherds Gala Premiere... Look Mom and Dad, We Can Get All Dressed Up Too!

On Saturday November 15, 1997 our moms and dads will be calling the sitter because they are going to attend The Shepherds Gala Premiere, *Silks and Stars... A Sparkling Evening*.

The event will be held at Arlington International Racecourse at The Grand Staircase. Wow! The entertainment and dancing will be provided by the highly acclaimed Orchestra of the Americas, which had played several White House functions! Wow Wee! Not only will it be an exciting event but all proceeds benefit the new Women's Diagnostic Center at Good Shepherd Hospital. The Women's Diagnostic Center will provide coordinated comprehensive outpatient diagnostic services for women—especially for those at high risk for breast cancer and osteoporosis. This new Center will provide a central and private location sensitive to the unique needs of women. That's Good! The Shepherd Gala Committee, made up of 20 women from throughout the community, with Ms. Gail Wickstrom as the Chairperson, have been hard at work planning this special evening. Good job! So all you grown-ups out there save the date because you're all invited to join our mommies and daddies for *Silks and Stars.. A Sparkling Evening!* For further information and to receive your invitation call Advocate Charitable Foundation at 847-723-6500.

## Test Your "Etiquette Expertise"

Test your "Etiquette Expertise" by taking the following true/false quiz:

1. At a properly set table, your bread and butter plate is **ALWAYS** on the right side of the plate above the knife.

2. At the end of a meal, the napkin should be refolded and neatly placed on the plate to signal to the waiter that the meal is finished.

3. A lady may place her purse on the table during dinner if it is a small purse such as a Judith Lieber.

4. When eating American Style, it is proper to cut several pieces of food at a time because this will cut down on the number of times you have to switch hands.

5. You are served a plate with a doily and a bowl of water on it. You drink the water to clear your palate before dessert.

### Answers:

1. False. Your bread and butter plate is **ALWAYS** on the left side of the plate either above the fork(s) or to the left of the fork(s).

2. False. The napkin is **NEVER** refolded, but rather picked up in the center and neatly placed to the **LEFT** of the plate, **NEVER ON IT!**

3. False. Even a small purse must **NEVER** be placed on the table but rather on the lady's lap. If you are fortunate enough to be carrying a Lieber, hopefully by the time dinner is served your friends will have noticed your purse and will already have complimented you on it! A large purse should be placed on the floor near the lady's feet.

4. False. Even with American Style,

only one or at the most two pieces of food should be cut before switching hands. For a more efficient way of eating, learn European Style.

5. False. The bowl of water is your fingerbowl! It will be brought to you before the dessert course and you will use the water to delicately clean your fingers after your dessert. After the fingerbowl which will be on your dessert plate has been placed in front of you, pick up the fingerbowl, doily and all and place it to the upper left area above your plate. If your dessert spoon and fork are on your plate, put the spoon to the right of the plate and the fork to the left and eagerly await dessert to be served! After your dessert plate has been taken away, pick up the fingerbowl and doily and place in front of you. Dip your fingers in your bowl one hand at a time and dry them on your napkin while keeping it on your lap. No splashing!

If your "Etiquette Expertise" is not what it should be and you want to polish up your dining skills, you may send for Ruth Kern's booklet, *183 Tips on Modern American Dining Etiquette* by sending a check for \$7 in a self-addressed and stamped envelope to: Dine Don't Eat, P.O. Box 3021, Barrington, IL 60011-3021.

Ruth is also available to give corporate seminars on proper dining etiquette and/or to arrange multi-course tutorial dinners where you can learn etiquette while dining luxuriously. ## The Art of an Inspiration

Inspiration can come from just about any situation. Artist Carl Brenders' latest inspiration was marsh violets and two tiny bunnies. The result is *Violet Trails and Cottontails*, a limited edition print just released that presents wild violets and playful baby rabbits in such detail that you can see the whiskers on their

tiny noses. It's a delightful work that will bring countless hours of pleasure to your home. See it now on display at **Woodland Art Gallery and Frame Shoppe**.

Collectors of works by Robert Bateman also need to stop by and see his newest release, *Excursion—Cougar and Kits*. In usual Bateman style, the story unfolds in this limited edition print. It's late afternoon and the sun is glowing through the tops of the Douglas firs. The cougar family has a good vantage to begin an evening hunt.

Both new releases are now on display, masterfully matted and framed, at the gallery that knows art, **Woodland Art Gallery**.

The gallery features wall-to-wall pleasures in art from today's most incredible and sought-after artists including Don

Hatfield, Terry Issac, Daniel Smith, John Seerey-Lester, David Armstrong, Dean Morrissey, Bradley J. Parrish and many others. And there's no one more trusted than master framer and owner Scott Teasdale when it comes to fine framing. Specializing in museum mounting to protect the value of your art, the gallery takes pride in their remarkable talent for matting and framing. The gallery is also able to ship your art anywhere.

Visit **Woodland Art Gallery** soon and discover all the enjoyment art can bring to your life. The gallery is located at 71-B East Woodstock Street, across from the Crystal Lake train depot. Open Monday-Friday 9 a.m.-5 p.m., Saturday 9 a.m.-3 p.m. Phone **(815) 459-0460**. Visa and MasterCard accepted.

## Art Associates to Attend "Renoir Portraits: Impressions of an Age"

The Barrington Community Associates of the Art Institute of Chicago have scheduled a record four busses for the trip to view "Renoir Portraits: Impressions of an Age" at the Art Institute on Wednesday, October 29.

This is the first exhibition ever to focus on Renoir's picture of people: family, friends, and a wide variety of personalities who played special roles in the artist's 50-year career. The exhibit documents the evolution of Renoir's career from struggling Bohemian artist in Montmartre to foremost Impressionist of the 1870's to successful portraitist of the 1880's and 1890's.

Portraits from around the world have been gathered for this event.

Chicago is fortunate in that the masterwork, *Luncheon of the Boating Party*, is traveling only to the Art Institute before returning to its home in Washington, D.C.

The beloved *Two Sisters (On the Terrace)*, which has long been a part of the Art Institute's collection, is included in the exhibit.

Participants will attend a lecture by David Stark in the morning and receive a pass to view the exhibit in the afternoon. Stark will share highlights of the 65 works of art.

## Book Portraits Now for Christmas Gift Giving

The flurry of the Christmas season is already gaining momentum in the wings. Indeed now is the time to plan for holiday gift giving opportunities. A professional portrait, certainly a most revered and personal gift to present, is not the easiest gift to procure. It really does take planning and effort to pull together. But the rewards are promised. Avoid the harriedness of procrastination. You make the first step. We'll help you with the rest.

### Regardless of Gift Giving...

fall is still an incredible time  
to work outdoors.

## Visions & Vessels II + I

The Barrington Area Arts Council (BAAC) announces the opening of the BAAC Gallery October Exhibit, "Visions & Vessels II + I" featuring the etchings and drawings of Ed Herbeck and Barbara Pihos and the pottery of Alex Mandli.

Edward Herbeck, a resident of Downers Grove, IL, creates in a variety of mediums—hand-pulled copperplate etchings, stone and plate lithographs and graphite drawings on paper. The subject of his artwork is usually landscapes and he has developed a comprehensive approach using traditional mediums to create contemporary yet traditional art images.

Hampshire, IL resident, Barbara Pihos begins her work with a search in the field for a natural location that strikes an emotional response. Returning to her studio she begins the etching process of working with eight stages of aquatint on a single plate. The completed work is a scene so realistic that the viewer is drawn into the etching.

Alex Mandli resides in Racine, WI, where he creates beautifully formed clay

vessels adorned with surface decorations. His current work involves the very basics

of making pots, namely the use of clay, water and fire. For years he has studied and enjoyed the pots and the firing techniques of many ancient cultures. Through this interest he became attracted to the random action of fire on clay called "the gift of fire."

The Barrington Area Arts Council invites the public to attend a Preview Opening and Artists Reception on Friday evening, October 3 from 7 to 9 p.m. at the BAAC Gallery, 207 Park Avenue, Barrington, IL.

The exhibit will be on view from October 3 through November 1. BAAC Gallery hours are Tuesday through Friday, 10 a.m. to 4 p.m. and Saturday, 10 a.m. to 2 p.m. The Gallery is closed Mondays. For more information call (847) 382-5626.

The exhibit is partially funded by Cindy and Mitch Waters and a grant from the Illinois Arts Council, a state agency. The Barrington Area Arts Council is a not-for-profit arts organization that supports, promotes and sustains programs in the visual, literary and performing arts.

A simple, tastefully organized **COMPLETE** album marked "1996" on your bookshelf, right next to others marked "1995," "1994," "1993," and so on.

And finally...

Q: What's colorful and full of good intentions that's stacked in the corner of the family room, on your bedroom nightstand and on your teeny little desk in the kitchen? A: Your vacation memorabilia which you really, REALLY intended to get into a scrapbook right away... last August.

Oh, we've seen it all at **CLIX photographs and savables, inc.** Actually, we've pretty much done it all too, that's why we know what you need to get all of your photos and keepsakes organized.

## Laurel Masse—In Concert

From the moment of her debut as a founding member of The Manhattan Transfer, Laurel Masse has enjoyed the affection of audiences and the respect of critics worldwide. On Friday, October 18 at 8:00 p.m., the Barrington Area Arts Council opens its 1997 Music at the Gallery series with "Laurel Masse—In Concert"—an evening of a capella music.

Ms. Masse began a solo career in 1979 and headlined internationally at major jazz clubs, concert halls and festivals. "She has a marvelous sense of style, a purity of tone that is evident in everything that she does" writes John S. Wilson, *The New York Times*. Dubbed "the perfect jazz singer" by critic Neal Tesser, she has continually explored and refined her art.

Now, after a period of transition, Laurel Masse has emerged as a powerful mythic storyteller, weaving together song and legend, poetry and myth, she creates a magical atmosphere that calls to mind the work of Clarrissa Pionkola Estes and Joseph Campbell. With her unaccompanied singing of ancient music and contemporary compositions Laurel extends the tradition of bard into modern times.

Laurel Masse is no stranger to the Arts Council's music programs. In 1991 she performed for a BAAC jazz concert at the Barn of Barrington and sang to a sold out house.

Returning to the Barrington area also

gives Laurel an opportunity to visit with her father, Lawrence Masse and step-mother, Pam who reside in the Barrington Village.

The concert will be performed at the BAAC Gallery, 207 Park Avenue, Barrington, IL. Tickets are \$12 Students/Seniors, \$15 BAAC members and \$18 Non-members and may be purchased at the BAAC Gallery. Gallery hours are Tuesday through Friday, 10 a.m. to 4 p.m. and Saturdays, 10 a.m. to 2 p.m. For more information call 847-382-5626. Seating is limited and it is strongly recommended that tickets be purchased ahead.

## Traveling... with Carlson Wagonlit Travel

The following is a continuation from the previous issue of Lifestyles regarding useful and important information about passports.

### All You Need to Know About Passports

For the first passport, you'll need a certified copy of your birth certificate. A certified copy will have a raised, embossed or multicolored seal and the date the certificate was filed with the registrar's office of the city or county where you were born.

If you were born abroad, bring along a "Certificate of Naturalization," "Certificate of Citizenship," "Report of Birth Abroad of a U.S. Citizen" or a "Certificate of Birth." If you do not have these documents and cannot get them, call the passport office to see what other forms of identification will be accepted.

If you were born in the U.S. and a certified birth certificate is not available, bring along a notice from the registrar of the state in which you were born that says no birth record exists.

Also bring as many as possible of the following: Baptismal certificate, hospital birth record, school record or family Bible record. Be sure to bring along a notarized affidavit completed by an older blood relative who has personal knowledge of your birth.

Along with your passport application and a check for the fees, you will need two, two-by-two inch color photos taken within the last six months. The photos

must be in a front view in plain lighting. You can take them yourself or have a professional do them. The key thing is the size.

If you're in a hurry, go to a professional. Look under "Passport Photos" in your Yellow Pages. You can get them while you wait. Prices are about \$5 to \$10 for a set of photos, depending on where you live.

As soon as you get your passport, make several photo copies of it. Keep one at home, one at the office and carry one with you while traveling. If your passport gets lost, the first thing you'll need to know is the number. If your passport is lost or damaged while traveling, the photocopy will help you get a temporary passport faster. If you have lost your passport while traveling, contact the nearest U.S. Embassy.

Passports were blue until recently; now they are green. This helps immigration officials distinguish old passports from new ones. New passports also have scanable code numbers to expedite some transactions. The new passports also have several features to help officials spot phony passports. Going forward, passports will be redesigned every 10 years.

For additional information about obtaining passports, visit the Department of State web site or send 50 cents to the Federal Consumer Information Center, Pueblo, Colo., 81009. Ask for "Passports: Applying for Them the Easy Way."

## Barrington Area 15th Annual CROP WALK—October 19

### A Celebration of the 50th Anniversary of CROP

The Barrington Area will celebrate its fifteenth annual CROP WALK on Sunday, October 19. The walk will begin and end at Lutheran Church of the Atonement, 909 East Lake Cook Rd. Registration is at 12:30 pm and the walk will begin at 1:00 pm. Walkers may select to walk ten kilometers or the "golden mile" and return for an ecumenical chili supper, refreshments and entertainment.

Fifty years ago farmers donated their crops and loaded a "friendship train" that crisscrossed the United States collecting food to be sent to starving Europeans. Today walkers in partnership with their sponsors raise money to fill our local food pantries, provide disaster relief to flood, hurricane, and war victims nationally and internationally. Funds continue to furnish the basic necessities of food and provisions for clean water globally. Education in good farming techniques and new skills have helped overcome starvation for people of all faiths and nationalities. The 1997 CROP WALK is a celebration of fifty years of this kind of help and hope.

We join the celebration here in Barrington as we prepare for our 15th annual walk. Last year there were 482 walkers with hundreds more sponsoring or helping in the organization. \$43,407 were raised with \$10,851.66 coming back to support Bethlehem Center Food Bank, Carpentersville FISH program, CWU Barrington Food Pantry, Salvation Army and Meals with Wheels. Barrington ranked 29th in the country and third in the Chicago/Northern Ill. Region in dollars raised. We're keeping that friendship train running.

Barbara Meyer, a member of St. Mark's Episcopal Church, and an administrator at the Chicago Junior School in Elgin, will be the 1997 Grand Marshal. Barbara is being honored this year for her work in originating the Barrington CROP WALK and for her fifteen years of dedicated leadership. She has not missed a year! Barbara and the Barrington High School Sophomore Football team will break the ribbon and start the walk at 1:00 pm.

We're "makin' tracks and fightin' hun-

ger" but we need everyone's help to keep this friendship train moving. Contact your church or civic organization for further information. You may also call Mary Anderson, 381-9213, or Konrad Bald, 382-6523, coordinators from Atonement. Everyone is invited to participate. People of all ages will join the walk. Some will do the "golden mile" in their wheel chairs. Others will sponsor the walkers, make chili or bake birthday cupcakes. It's a day filled with fun but it's the kind of joy that doesn't end with the day. The exuberance lasts all year, as participants know their efforts help in the battle against hunger and the lack of safe drinking water that affects one in every five people and causes the death of thirty-four thousand children under the age of five every day.

Pumpkins, Gourds, Indian Corn, Corn Stalks, Dried Florals and Fall Mums are just a few of the autumn harvest items arriving daily! Make sure you come in and check out all the great fall decorations!

## Know Your Diamond Before You Buy

Buying a diamond can be confusing with all the different grading systems out there. In fact it is probably one of the most blind items you will ever buy. When you buy a house, you can have an inspector report its condition. When you buy a car or some other product, you can check with consumer reports. But when it comes to buying a diamond, not many customers walk around with a gemologist in their back pocket.

So when buying a diamond, you need to know more than just the four C's: *Carat, Color, Clarity, and Cut*—you need to know what these words mean. *I've always said that there is a fifth "C" and that is CONFIDENCE!* If you don't have confidence in the jeweler, then the other four C's don't mean a thing.

## Gardens of Wildflowers

Wildflowers of every variety can be seen growing almost everywhere—in woods, fields, deserts, meadows, and swamps; on mountains, prairies, and roadsides; and along streams and seashores. Their beauty captivates us on sight. The topic of *gardens of wildflowers* will be the subject of the next meeting of the Garden Club of Inverness on Thursday, October 16, 1997.

Mary Walker, a nationally accredited flower show judge, whose gardens in Woodstock comprise some twenty acres, will present a slide program on wildflowers, both prairie and shade, as they grow in her own gardens. She is a dirt gardener with over forty years of experience who maintains her gardens without outside

help. Mary will share her knowledge of our native plants and show how their use can be exciting and stimulating in our gardens. Her professional memberships include the American Horticultural Society, Chicago Botanic Garden, Northern Illinois Botanical Society, North American Lily Society, and North American Rock Garden Society.

The new club year of Garden Club of Inverness has just begun and we extend a cordial invitation to all, especially any prospective new members. Our Membership Chair, Charlotte Dilillo, will be happy to answer any questions you may have. She can be reached at 304-9856. Meetings are held at Holy Family Church, 2515

West Palatine Road, Inverness, at 9:30 a.m. on the third Thursday of the month.

There is a short business meeting, followed by refreshments, and the program follows. Hope to see you there on Thurs-

day, October 16.

My thanks to the benefit committee for putting together a fantastic evening," said Harry Sexton, Executive Director of Family Service. ing, an exciting auction and the production of *Kismet*.

Other contributors included Biltmore Bank, Good Shepherd Hospital, Hollister, Manpower and Midwest Bancorp.

In addition, over 70 area businesses and services contributed prizes to the silent auction. Items included round trip airfare

## Capital Gains and the Taxpayer Relief Act of 1997

by Sharon L. Keller, J.D., LLM

For the next few months, I will discuss the new tax bill entitled "Taxpayer Relief Act of 1997" in detail. This month the discussion concerns the reduction in the capital gains tax rate. As with most tax bills, the reduction is not simple nor straight forward. This article will discuss the rates and when they come into effect.

Capital Gains occurs when you sell capital assets and you experience a gain. These assets can be in the form of securities such as stocks. For sales of capital assets after May 6, 1997, the rates on capital gain have been lowered to 20% and 10% for persons in the 15% tax bracket. However, because there are many exceptions to these rates based on the date the asset was sold, the length of time the asset was owned and the type of assets held, the computation of the tax is extremely complex. I have included a schedule for the capital gains tax rates:

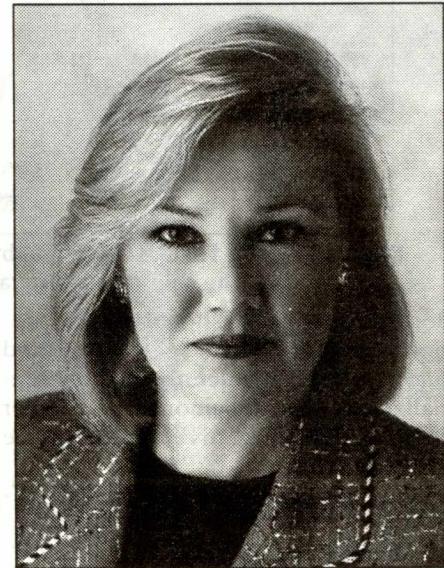

1. For capital gains taken into account after July 28, 1997, the lower capital gains rates do not apply to the sale or exchange of assets held for 18 months or less.

2. The current 28% maximum rate continues to apply to the sale or exchange of capital assets held more than one year but not more than 18 months.

3. Beginning after the year 2000, the maximum capital gains rates for assets that are held more than five years are 8% for taxpayers in the lowest tax bracket and 18% for all other taxpayers. The 18% rate only applies to assets first acquired by a taxpayer after December 31, 2000. If you hold a capital asset used in your trade or business on January 1, 2001, you may elect to treat the asset as having been sold on that date for an amount equal to its fair market value and as having been reacquired for the same amount. If such an election is made, any gain is recognized, but no loss is allowed.

4. If you receive capital gains from a mutual fund, S corporation or partnership, or as a beneficiary of an estate or trust, whether the gains are subject to the old or new rates is determined by the date the entity realized the gains.

5. If you made an installment sale of a

capital asset before May 7, 1997, your gain on installments received after May 6, 1997, generally is eligible for the new rates, not the rates in effect when the sale was made.

6. Capital gains on collectible items such as art, antiques, jewelry, stamps and coins are generally eligible for the 28% maximum tax rate.

7. If you sell business or investment real estate on which you took accelerated depreciation, the portion of your capital gain representing the accelerated depreciation is generally taxed at the regular, not the capital gains rates. However, after May 6, 1997 this type of gain may be eligible for a new maximum rate of 25%.

8. The new law does not change the rules for deducting capital losses. Therefore, if after netting your transactions you have a capital loss for 1997, you can generally offset up to \$3,000 of the loss against your other income. Any excess is carried forward to future years.

There are many nuances concerning the capital gains tax reduction and it may be advisable to consult a tax specialist to assure that any capital gains that you have are taxed at the most favorable rate. I would like to thank CCH for making the Tax Relief Act of 1997 available in a timely fashion. *Have a wonderful and prosperous October.*

## The Michael Joseph Foundation Says 'Thanks'

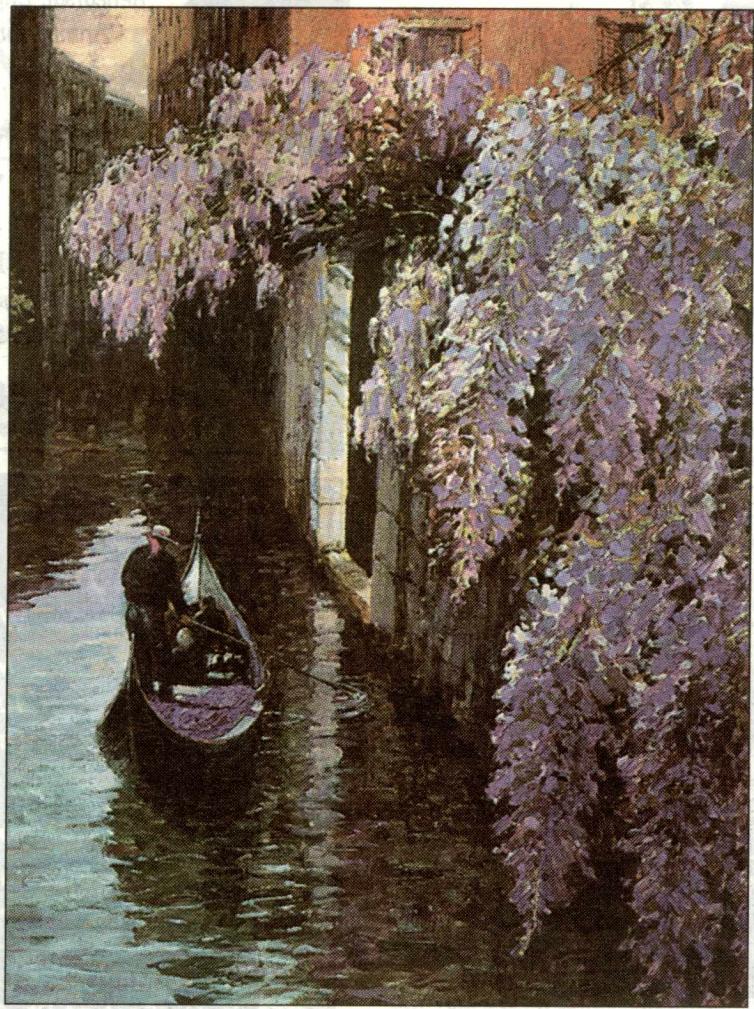

A most Big Thank You for our gracious hosts, well wishers, and donors of our Roaring Twenties Gala, April 26, 1997. The Michael Joseph Foundation's fund raiser was another huge success, and you guessed it, the wheels are fast in motion for our next April 25, 1998 "Carnival Time Gala."

The Michael Joseph Foundation began five years ago when a few concerned citizens saw the need to help homeless and those in serious crises. This small group extended themselves in seeking shelter, building materials, counseling, jobs, and

providing stressed people in so many ways.

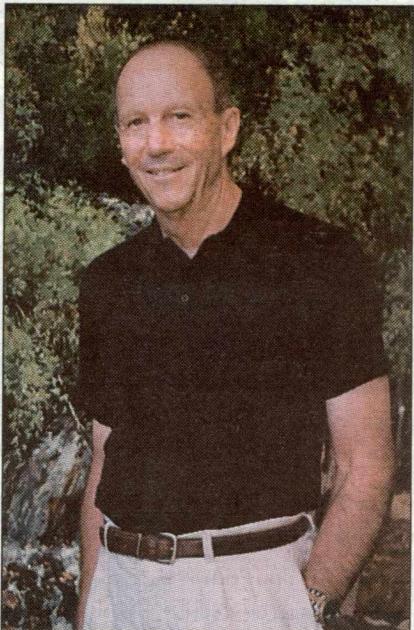

For those friends who wish to help assure the continuation and growth of the Michael Joseph Foundation by means of mentioning in your will or should you wish to donate seldom used or unwanted property please call Hildegard Zimmermann at 847-382-3375. With this kind of help we can continue to expand and help folks in distress, live with dignity, keep these families united, and help them become self sufficient and keep them off of welfare. This is an all volunteer organization.

## Impressionist Painter Alan Wolton Returns to The Studio of Long Grove

Art lovers who attended **The Studio's** first show for Alan Wolton last October had an opportunity to meet not only an extraordinary artistic talent, but an utterly charming man. Born in England and raised in South Africa, Wolton came to the U.S. 15 years ago to paint the magnificence of our mountains and coastal regions. A resident of Arizona, Alan has become well-established through the Southwest art market as an internationally-known impressionist painter.

This year Alan and his wife, Marie Louise, spent the month of April in Italy. Once home in his studio, the artist began a series of landscapes and florals inspired by that trip. All the richness and depth of color of the Italian countryside is expressed beautifully in Alan's handling of light in these paintings. He has truly captured both the charm and the grandeur that is Italy.

An outdoorsman and an individualist from a young age, Wolton became discontented early on with formal artistic training. At age 20, a self-guided study of the style and techniques of Britain's nineteenth century landscape artists, proved to be the path to developing the powerful, impressionistic style that has become characteristic of his work. Relocating to the U.S., Wolton felt he was "finally coming home"—the rugged scenery of the Southwest with its heat, dryness and brilliant light provides inspiring subject matter, and he has found the artistic freedom to concentrate on a pure expression of nature's beauty. "I am a man of the outdoors," he

says. Through countless hours spent in the mountains and at the seashore, Wolton has "stalked his landscapes, hunting for the most picturesque or dramatic views." His paintings, which are created indoors in his studio, evolve from the mood evoked while in the wild—from a certain sparkle in a mountain stream, ruffled leaves in the wind, or the crash of ocean waves on jagged cliffs. The memories of the initial emotional response he finds in nature typically take time to develop in his mind into a vision of the finished painting. Only when he knows what the final appearance of the painting will be, does he begin to paint—often feverishly and to the point of exhaustion. "I'm remembering the mood," he says, "the power and the purpose, not the actual linear design." And although Wolton has become known for monumental-sized works, even his smaller paintings express this power.

A highly-respected representative of the prestigious Santa Fe school of American artists, Wolton ranks high among living Impressionist artists. **The Studio of Long Grove** is honored to be working in conjunction with **HIVCO** to present "The Romance of Italy: New Paintings by Alan Wolton." A gala fund-raising event, "A Picture of Hope for AIDS," will be held on Friday evening, October 17, at **The Studio of Long Grove** with a portion of the proceeds benefitting HIVCO. The artist will also be present at the gallery on Saturday, October 18, and Sunday, October 19, from 1:00-4:00 p.m. Please call (847) 634-4244 for further information.

## Plein-Air Artist Show Oct. 31-Nov. 2

Dunton Gallery, downtown Arlington Heights, cordially invites you to an exclusive showing of several new paintings by the incomparable *plein-air* painter, Susanne Nyberg.

In pursuit of her craft, Susanne can most often be found out on location at either sunrise or sunset. By her own admission, she "paints with incredible speed using palette knives and oils to capture the light and the mood of the moment."

Because so much of Susanne's painting is done outdoors, she often uses smaller canvases, e.g. 11" x 14" or 12" x 16"; yet for works on a grander scale, her husband assists her by building special easels and, if necessary, shipping containers.

Although much of Susanne's focus has been in capturing the mysterious beauty of the desert surrounding her home in Cave Creek, Arizona, she has also turned her discerning eye to the majesty of the Grand Tetons, especially in and

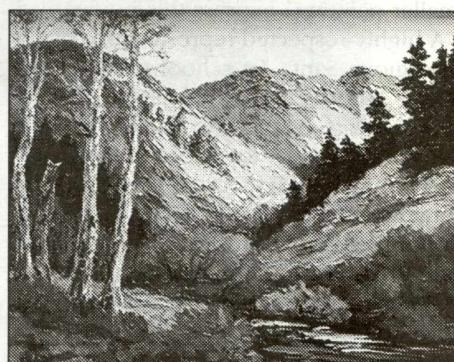

Monsoon Sunset, My Yard  
\$800 14" x 18"

around Jackson Hole. Susanne has most recently ventured to Tahiti and will be displaying these new works while at Dunton Gallery.

Because of her palette knife work, there is a depth, a texture and a dimension to her work which truly must be seen to fully appreciate.

Avidly sought after in the U.S. and in over a dozen countries around the world, Susanne's collectors universally comment on how she "so beautifully captures her subjects." So why not treat yourself to the opportunity to see this fabulous art and meet this uniquely talented artist? There will be an artist's reception open to the public Saturday, November 1, from 10 a.m. to 4 p.m. and on Sunday, November 2, from 12 to 4 p.m.

For additional details feel free to visit the gallery at 18 So. Evergreen Ave., Arlington Heights or call them at (847) 818-0694.

## Make a Difference! Wear Purple.

In October, make a difference by wearing a purple ribbon in protest of domestic violence.

During the entire month, purple ribbons will be worn nationwide in recognition of domestic violence. Every fifteen seconds a woman is battered. Every minute a woman is raped. Ten women die each day as a result of domestic violence. An alarming percentage of women and children who are homeless have been sexually victimized.

Domestic violence takes many forms including physical and sexual assault as well as psychological, financial and emo-

tional abuse. Not all violence leaves visible bruises, scars or broken bones, but all forms of violence leave invisible, hurtful and damaging bruises on the heart.

Coordinating the volunteer Purple Ribbon Campaign in the northwest suburbs are Amy and Ken Kauth from Palatine.

The Northwest Suburban Regional office of Catholic Charities of the Archdiocese of Chicago has collaborated with United Way, G. D. Searle and Co., T & T Resource Center, community agencies, synagogues, churches, police departments, hospital and local organizations to organize the National Purple Ribbon Campaign for

Domestic Violence Awareness in Lake and Cook counties. Special funding from the Catholic Knights Insurance Company has supported Spanish language materials. Be a part of the Purple Ribbon Campaign. Wear a Purple ribbon, and wear it proudly. A Purple Ribbon Campaign can be created for your community by using the *Purple Ribbon Campaign Handbook* as a guide to make ribboned cards, to learn the facts about domestic violence, resources for speakers, videos and book, prevention

suggestions support group listings, and local organizations to contact for assistance and referrals.

To order the *Campaign Handbook*, please send a check for \$13 (includes shipping and handling) payable to Catholic Charities, Suite E, 1911 Rohlwing Road, Rolling Meadows, IL 60008. Cards may be ordered in bulk. Single purple ribboned cards may be ordered for \$1.00 each. For more information or to order cards, contact Linda (847) 870-0560.

## Meeting the Homework Challenge

When a child is struggling with homework, it's easy for parents to want to step in and help. However, there is a fine line between helping and taking over. "Helping" does not include drafting a research paper or relearning the first three chapters of Algebra I.

Parents sometimes forget that children are learning discipline as well as content. If you do your child's homework, it may create feelings that he or she is not really a capable person.

"The primary purpose of education is to outfit children for self-sufficiency," says Dr. Raymond Huntington, founder and president of the Huntington Learning Center. "Children need to make mistakes in order to learn. You can help your children accept the fact that the amount of effort they exert determines whether they succeed or fail in school. If you want your child to develop a successful attitude towards the challenges of life, you must not be afraid to let him or her get frustrated."

According to Huntington, there are many things parents can do to help children with homework hassles, without taking over their assignments:

- Show your child how to find important information in a chapter by using introductions, headings, bolded phrases and summaries.

- For term papers, help your child break down a large assignment into

smaller, more manageable tasks. Students can budget their time by creating a "project calendar." Creating an outline, planning research time, taking notes and writing the paper should be scheduled activities. This will help your child learn to structure what needs to be done and learn organizational skills to use in future assignments.

- Remind your child to ask questions in class when the material is being presented. Teachers can provide guidance and will emphasize the most important information.

- Set aside a block of time and a quiet, comfortable place for studying. Make sure your child completes homework assignments during this study time.

Homework is an educational tool, intended to teach children to organize their time and work efficiently without an adult's supervision. You can help your child to handle this responsibility and develop the skills he or she will need for future academic challenges.

If your child is struggling with independent work, it may be more than just poor study skills. Your child may lack the basic reading or math skills needed to handle more advanced work. For more information, or to discuss a specific problem, contact the Huntington Learning Center in Barrington at 382-3655 or in Buffalo Grove at 459-5939.

## Pumpkin Smash to Raise Funds to Defeat Spinal Muscular Atrophy

Andrew's Buddies of Illinois is hosting "Pumpkin SMAsh," Friday, October 31, 1997 in order to raise money to help fund research to find a cure for Spinal Muscular Atrophy (SMA), the number-one genetic killer of children under the age of two in the United States. The family event will be held on Halloween night at Goebbert's Pumpkin Farm in South Barrington, beginning at 5:30 p.m. Tickets for Pumpkin SMAsh are available by calling Andrew's Buddies of Illinois at (847) 277-1809. Tickets are \$25 for adults (17 years of age and up) and \$5 for children (3-16 years of age).

Andrew's Buddies of Illinois was

formed by the Griffin family of Inverness and is patterned after a similar group in Richmond, Virginia that has raised over \$500,000 in six years and helped to fund research that led to the discovery of the gene that causes SMA. Andrew's Buddies of Illinois is a 501(c)(3) charity and hopes to raise \$25,000 from Pumpkin SMAsh to help fund drug testing on the defective gene that causes SMA. ## Come Home to Country at Harper College

"Come home to country," invites the magazine cover. Why do so many of us find the need to bring a little country into our lives?

We hurry through our days in a one-wrong-keystroke-makes-an-error-message world; barely knowing our neighbors, prodded into herky-jerky action by the chirp of a cell phone or the rattle of a beeper. But nestled carefully, protectively, in our memories are the rhythms of a more pleasant time.

"Country" can help bring back some of these memories. A doll clothed in a dress of old linens reminds us of a time when clothes hung on the line in the summer sun, swayed to the rhythms of the breeze and smelled of the sun that warmed our faces.

A pine cupboard, perhaps a little askew, with worn edges, and faded paint reminds us that everything need not be punch-press accurate or plastic laminate finished. This country pine treasure was not built on some anonymous assembly line and stacked on a loading dock with thousands of others until a semi trailer hauls them all away. This new found treasure of yours was built by a man who's hand you can shake, and who's smile you can remember. It was probably painted by his wife or daughter, and working together, they carefully loaded it into their trailer along with the rest of their summer work to bring it to you.

Whether we were raised in an urban three-flat or a postwar suburban bungalow, locked away for safe keeping deep

in our spirits is the memory of neighbor who grew a truck farm garden in the empty lot between houses, and made his deliveries in a horse drawn cart; or an aunt who fled the city to the farmland of Michigan, and fashioned a playhouse for a lonely visiting niece from a corn crib, cast off furniture and lace curtains.

We long to live lives that move to the rhythms of nature and the past, where hard work is honorable and time spent creating a quilt or basket or piece of pottery is time well spent, purposeful time. We find comfort surrounded by things made with joy and satisfaction; by people whom we've met and maybe shared a story, or a laugh; things that reflect their unique personalities and perspectives, these memory stirring treasures are what make a house a home.

Come home to country at Harper College in Palatine, when **Country Collections** presents its *Traditional Craft and Folk Art Faire* November 7, 8 and 9. Showtimes are Friday 3-9 p.m., Saturday 10 a.m.-5 p.m. and Sunday 11 a.m.-4 p.m. Admission is \$4 and children 12 and under are admitted free.

of death of children under the age of two. Type II is chronic, but usually not life threatening. Children with Type II never walk and are wheelchair bound. Type III is the least severe form, but still involves impairment and will often lead to wheelchair use.

## Mars and Venus Relationships: Can They Work?

by Judy Kaplan, MS

There has been no other time in history that the discussion about relationships has been more intense. The media, the publishing companies, support groups, therapy sessions, educational institutions and even the medical community have capitalized and focused on male/female relationships; how they work, how they don't work and how they should work. Anybody that you talk to can discuss at length issues within their relationship that are problematic. Interestingly, many of these issues turn out to be, in one way or another, universal problems that most couples experience throughout the course of their involvement.

Often couples come to see me for counseling when the distress in the relationship becomes too painful or when one or the other is ready to leave and therapy is a last ditch effort to save the relationship. Certainly it is positive that they take a step toward working things out by seeking help, yet I wonder why most people wait so long to address the

issues. As your car needs a tune up every 2500 miles, why would a lifelong investment in time, energy, money, and offspring never require a tune up? The notion of coming in to work on the issues is becoming increasingly popular, with women leading the walk toward therapy and men, for the most part, reluctantly following along. As a tax problem may require advisement from a tax specialist, a relationship issue from time to time may require similar advisement from a relationship specialist. With problem solving approaches, like John Gray's "Men are from Mars/Women are from Venus," couples can take a pro-active role in improving the quality of their relationship, their lives and their family situations. Unlike the "Freudian analysis," of the early 1900's, today's therapy can be a solution focused, collaborative, conversation styled effort that is reported to be enriching, growth producing, interesting and non-threatening. Practical help is a phone call away **847-842-9365**.

## Art Volunteers Seminar "Art and Myth"

"Art and Myth" is the theme of the annual Art Volunteers in the Classroom Seminar sponsored by the Barrington Community Associates of the Art Institute of Chicago. The seminar takes place on Thursday, October 9, at 9:00 A.M. at the Presbyterian Church of Barrington.

## Tumescent Liposuction, Part One— Safety First

Liposuction is the most commonly performed cosmetic procedure in the United States. First developed in the early 1970's by Italian and then French surgeons, the procedure was introduced into the U.S. in 1982. Early liposuction procedures were severely hampered by the risks associated with general anesthesia and excessive blood loss.

In 1987, American dermatologist Jeffrey Klein, M.D., described a new "tumescent" technique for performing liposuction totally by local anesthetic. His revolutionary system not only removed the risks of general anesthesia, but virtually eliminated blood loss. Today, Dr. Klein's methods are used by dermatologists and plastic surgeons around the world in a procedure that can be safely performed in a properly-equipped medical office.

The tumescent technique of local anesthesia involves placing large volumes of specially-prepared local anesthetic into the area being treated. The anesthetic is formulated so that it does not sting while being administered and produces numbness that lasts nearly 24 hours, eliminating the need for pain medication. In addition, the anesthetic permits the removal of large amounts of unwanted fat with such small instruments that no stitches are required—the incisions are merely puncture wounds in the skin.

While the tumescent technique of liposuction is extraordinarily safe, not all physicians perform liposuctions using the Klein technique. A small number of serious complications, including some deaths

have been reported when doctors have departed from the safe parameters established by Dr. Klein and other medical researchers. Problems may arise when there are deviations from the standardized anesthetic formula and from proven safe limits of fat removed. The tumescent technique is inherently safe when properly performed. In fact, the American Society for Dermatologic Surgery reported in 1995 that there were no deaths, no blood transfusions and no admissions to the hospital for complications in over 15,000 patients surveyed after liposuction surgery performed with the tumescent technique.

Tumescent liposuction is performed in the offices of **Dermatology Associates** by David P. Van Dam, M.D. Dr. Van Dam is board-certified in dermatology and is a member of the American Academy of Dermatology and the American Society for Dermatologic Surgery. Among the numerous courses of study he has undertaken, Dr. Van Dam values most highly the intensive workshop he participated in with Dr. Klein at his Tumescent Liposuction Center in San Juan Capistrano, California. Look for more information about tumescent liposuction in the next issue of *Lifestyles*.

Boot camp with lipstick on is how Iolanda Goodfellow, Mrs. Illinois International, describes her experience at the National Pageant in Tyler, Texas. She recently returned from a grueling nine days of rehearsals, outings, dinners and competition, where six hours of sleep was the norm and several changes of clothing during the day was part of the routine.

## 7 Ways to be Your Own Therapist

by Laurie Grand, M.S.  
Licensed Marriage & Family Therapist

When you are ready to make some changes in your life, what can you do to manage your own therapeutic process? Here are a few ways to get started on the road to less stress and a greater sense of control over your life.

1. Ask yourself "The Miracle Question:" "If a miracle occurred tonight while you slept, and you woke up tomorrow morning and your problem was solved, what would you be doing differently?"

2. Explore your feelings and wishes in a journal.

3. Talk into a tape recorder. (Be sure to keep journals and tapes in a private place.)

4. Write letters to those whom you respect or from whom you seek forgiveness. Letters do not need to be sent to have therapeutic value.

5. Rehearse conversations you need to have in order to finish some "old business." Ask a trusted friend or use a mirror or tape recorder.

6. Volunteer to help someone who is worse off than you are.

7. Attend a meeting of AA, Al-Anon or another 12-step group.

For a list of many more ideas, please visit my web site at <http://members.aol.com/LCGrand/> or call **Laurie Grand, M.S.** at (847) 304-8385.

## Materials Matter

by Drs. Raymond Kotz & Stephanie Skopek

Dr. Raymond  
Kotz

Dr. Stephanie  
Skopek

Did you ever wonder why one dentist is more expensive than another, or why your dentist's fees are more than the "usual and customary" pronounced by your employer's insurance company? A major factor is the amount of time allowed for careful execution of dental procedures. A second factor is the amount of time allowed for consultation and patient education. A third large cost in progressive offices is the cost of continuing education. A reason less obvious to the patient is the quality and cost of the materials the dentist uses.

Selecting materials from the myriad of products advertised and promoted by dental suppliers is a difficult endeavor. Not being a chemist, physicist or engineer, we asked for help from the faculty of Northwestern and McGill University Dental Schools materials departments. They helped us select the most accurate and the most durable materials available and these are usually very expensive.

For example, there is a 450% difference in the cost of impression materials used to make crowns. The top priced material has one of the top quality ratings by the

American Dental Association. The least expensive material is not nearly as accurate, but is often used in price driven, insurance oriented practices, PPO's and HMO's. The same is true of the amalgam used to make "silver fillings" where a 420% difference exists. The difference in the quality of materials makes a big difference in the accuracy of the fit of a dental restoration and also in the longevity of that restoration.

Materials matter, and the best are usually very expensive. To ensure use of quality materials, call **Dr. Kotz** and **Dr. Skopek** in Barrington at (847) 381-4040.

## Feel Different!

"There's something about massage that makes all the difference."

Therese Maria Pol, nationally certified massage therapist and owner of **Massage Movement**, located at 202 S. Cook St. in downtown Barrington, hears this again and again from those who have discovered the wonderful and healthful benefits of massage therapy and bodywork.

Certainly the widely acknowledged short-term benefits of massage, such as the temporary stimulation of circulation

and lowering of blood pressure, contribute to the fact that massage therapy is one of the most sought-after forms of alternative health care.

There's another vital reason: massage therapy and bodywork coaxes the body into new feeling states. With repeated massage sessions, inhibiting muscular tensions give way to increased sensation and freer movement.

Ms. Pol invites you to experience her unique style of massage therapy at **Massage Movement**. Feel Different!

## Exclusive Weight Loss Breakthrough

Finally! A natural weight loss product that is safe to use. If you haven't heard of pyruvate, you will. Pyruvate is a by-product of metabolism. It is also found in certain foods in very small amounts (primarily in fruits and vegetables).

In the 25 years that pyruvate has been researched, well-controlled human studies were conducted at the Clinical Research Center at the University of Pittsburgh School of Medicine. The results indicated that pyruvate had a "significant impact not only on weight loss, but more important on fat loss." Pyruvate burns fat, builds lean body

mass and increases athletic endurance. Pyruvate has been awarded a U.S. Patent for fat loss. It is a natural, effective, safe, clinically proven product with no side effects.

Pyruvate naturally increases endurance without artificial stimulants. Olympic gold-medal gymnast Shannon Miller used pyruvate as she trained and competed in the 1996 Olympics.

**New Vision International**, a company which distributes natural, state-of-the art nutritional products has been granted rights to market Pyruvate+™. For more information call **1-630-879-8310**.

## Two Ways to Change Your Life

by Martin Nathan, M.A., C.P.C., Licensed Clinical Counselor

*Short term counseling* and *hypnosis* are two separate ways you can change your life. They can be used independently of each other or in conjunction with each other.

Most people don't have the time, don't wish to spend the money, and don't have the desire to enter into long term counseling programs. They have a concern about going to therapy sessions week after week for years. And worse... they fear not really getting anything out of it.

Today, *short term counseling* techniques are being used to identify the real issues, and quickly resolve them. These methods are especially useful for marriage and family issues which seem so awful when you're in the middle of them.

This more efficient process is also effective for emotional disorders, such as depression, anxiety, panic attacks and uncontrolled anger.

And for those people who want no counseling but want to make some changes, *hypnosis* offers a safe, reliable, fast and low cost alternative. Most of the emotional issues are successfully treated with hypnosis in days rather than weeks

or months.

Smoking can be treated in as little as three days. Eating habits can be altered in as few as ten to twelve brief hypnosis sessions. Most drug abuse including alcohol and marijuana, can be treated successfully.

*Hypnosis* is for people who want to change, but lack the will power or, for some other reason, find it difficult to do what they want to do, or to stop doing what they want to stop doing. Many of the blocks preventing you from accomplishing your goals are in the unconscious part of your mind. So, while you're telling yourself that you don't want to eat the candy bar, your unconscious mind is saying, "eat it. Go ahead, you deserve it." When you tell yourself that you're going to exercise today, your unconscious says, "you're too tired. You can start next week."

*Hypnosis* allows changes to be made at the unconscious level as long as the changes are what you really want. Hypnosis cannot make you do something that you don't want to do.

# BEAUTIFUL HOMES & GARDENS

## Special Seasonal Section

### Security and Beauty with Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees,

artwork, building features and so forth, using a wide variety of techniques including uplighting, crosslighting, moonlighting and pathlighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

Call **CFC Nite Lites** at **847/658-5469** for your free estimate.

## New Appleby's Treats "The Sparrow"

On Sunday, Aug. 17 the new Palatine Appleby's Restaurant gave over \$1,000 to the Home of the Sparrow. This was money from the sale of drinks and tips taken on special practice day for the waitstaff of the new restaurant, which is located at 741 E Dundee Road in the Deer Grove Center. The guests were "Very Important Neighbors" from nearby stores and houses who received invitations to the free limited-menu meal.

Manager Chris Galazka estimated that about 350 people were at the benefit. Galazka said that "Appleby's is one of the first casual dining restaurants in the area and provides a chance for Palatine area people to experience its good taste and good service." The crowd on Sunday

seemed quite pleased with the food and dining experience.

Men and women from the Palatine Partners, Home of the Sparrow's volunteer wing, were on hand at Appleby's on Sunday to pass out information and answer questions. For more information about volunteer opportunities. Call Laura Langley at the shelter—963-8030.

The Home of the Sparrow provides housing, counseling and other help to homeless women and their children. The average stay of a resident is three to five months. Also new to Palatine, Home of the Sparrow's residence here opened on June 30. Its first shelter, which is in McHenry, was established in 1986 under the guiding hand of Rev. Phyllis Mueller.

The Junior League of Chicago's annual summer gala, "An Evening in the Park," was the most successful summer fundraiser in Junior League history, raising more than \$60,000 for the League's charities.

"Summer Gala was a smash success," said Heather McCann, Event Chair. "We have a loyal following, and look forward to seeing our guests each year, as well as new friends. Importantly, we are very pleased with the increasing success of our

Gala, and the proceeds really make a difference in our community."

Summer Gala was definitely the place to be. More than 1,200 of Chicago's most attractive professionals—both League members and friends—attended the event on Friday, August 1 from 8:30 p.m. until 12:30 a.m. The Gala was held at the Chicago Historical Society and the back lawn under the stars in Lincoln Park.

Guests danced the night away under the stars to the funky '80s sounds of the Only

Sons. The delectable frozen rum runners from the special "Cool Off" bar were a huge success, and the weather was perfect.

The kitschy preppy theme—Madras and Lillie Pulitzer—was present throughout the party, many guests making a grand statement! The more reserved friends of the League turned out in fabulous resort cocktail attire.

The Junior League Summer Gala supports the 19 community projects of the

League, which include programs for abused and neglected children, the homeless, the mentally and physically disabled, pediatric AIDS and adult literacy. The League is a not-for-profit organization of women committed to promoting voluntarism and improving the community through effective action and leadership of trained volunteers. Founded in 1912, its purpose is exclusively educational and charitable.

### Full-Service General Contracting and Painting

Bill Schafer—President

Joe Schafer—Vice President

In addition to home remodeling, **Schafer Builders, Inc.** also undertakes civic projects in the area. We were really happy to be involved in the Woodstock Opera House portico project. The structural work done by our carpenters was an integral part of the design, and the interior ceiling of the portico features beautiful beadboard. **Schafer Builders, Inc.** also painted the Spring House on the Woodstock Square.

In Crystal Lake, **Schafer Builders, Inc.** demolished the front of the Raue Civic Center, once one of the Showplace Theaters. Careful demolition revealed intricate stone columns and windows and a brick facade.

You can be assured that your home receives as much attention to detail and superior craftsmanship as these commercial buildings do. We offer a complete

home repair and maintenance service to take care of every problem that occurs to your home. We have full-time, fully-trained craftsmen, not part-time workers, and each project is assigned a "lead man" who will supervise your job from start to finish.

We are fully licensed, bonded and insured, including workman's compensation insurance, and job sites are cleaned up daily. We have state-of-the-art communications systems which include pagers, mobile phones and radios, so we are always available to you.

We invite you to stop by our new office at 43 E. Crystal Lake Avenue in downtown Crystal Lake and see for yourself the workmanship that goes into every one of our jobs. We're also on the web at <http://www.atn.net/ms/schafer> or you can send e-mail to [schafer@atn.net](mailto:schafer@atn.net). We'd love to hear from you!

## See Classic Woodworks for Your Next Project

A customer recently stopped by the shop to approve some wood selections I had made for them in an upcoming piece of furniture and asked how I come up with such excellent designs year after year for all the varied needs of a very discerning clientele. My response has always been that I first visit the client's home or office and listen to what they have to say about what it is they want made. Once I have a feeling about their own personal tastes and expectations, the picture simply begins to unfold for me. I enjoy designing and building furniture that will be both functional and beautiful, as well. There is no real end to the wonderful things that are still being created out of real solid wood by craftsmen who take deep pride in their art. Whether the project is an unusual no slumped magazine rack for a reading

area or a three piece walnut bar ensemble with beveled glass and lots of hidden lighting and built in goodies, I take the same pride and care to see that the customers' expectations are met and exceeded. For an appointment to discuss your next project please call 847-438-3332.

## Can't Find The Room? Let Us Help!

"As architects, it's our job to solve your space problems," says John C. Cazzetta, President of **Kemper Cazzetta Architects** in Barrington. "A large majority of our work is in remodeling, and because our clients need everything from small additions to complete estate makeovers, we tend to 'see it all.' Our philosophy is to listen to our clients, study their existing conditions, calculate their budget and endeavor to aesthetically solve their space needs."

Many homeowners struggle with the thought of "taking apart their house," especially while they still live there. "This dilemma is the biggest hurdle in some projects," adds Cazzetta. "The design solution has to take this issue into account or the project could be a disaster. We have actually designed some projects to allow the owner to move into the new addition before we renovated the existing space. The quality of life during the process is as important as the design excellence realized upon its completion." The end result

is always the same... "the homeowner is amazed at how their 'old' home has come back to life," concludes Cazzetta.

If your home needs updating, additional space or reconfiguration, call John C. Cazzetta, at **Kemper Cazzetta Architects**, for a no-obligation consultation today. "We feel you will be pleasantly surprised at the potential of your existing home." Phone 382-8322 to schedule an appointment with **Kemper Cazzetta Architects**.

## A Statement About You... Your Kitchen!

by Jerry Johnson

AT LAST you can really sit down and relax for a few minutes. The kids just left for the first day of school. As you enjoy a steaming cup of coffee or a cool, refreshing glass of iced tea, you look around your kitchen. What do you see? A kitchen right out of the 60's or 70's? It probably functioned reasonably well in that era, but it just doesn't work for you today. Everything seems to be in the wrong place. And, look at the color and finish of the cabinetry! You have never really liked it, but it came with the house and you have put up with it all this time.

Finally, you make up your mind that something needs to be done with this kitchen. You realize that the kitchen is the heart of your home and your home is a reflection of you. Your home projects your lifestyle, your attitude, your tastes. It makes a statement about you. What better way is there to make this statement than to do it with a new kitchen?

At **Distinctive Kitchen Designs, Inc.**, we can help you create your *dream kitchen*. It will be functional cabinetry for today's lifestyle with wood species and finishes available to meet the needs and trends of today and tomorrow. # Big capital gains change puts big change in your wallet.

It's even better than you think. When you sell your home, you not only get twice the exclusion in gain (\$500,000 instead of \$250,000 if you're married and file jointly, or \$250,000 instead of \$125,000 if you're single) but you can qualify for this tax break every 2 years instead of only once at age 55! And there are no reinvestment requirements. So you can move up, down or sideways based on your heart's desire instead of the good old IRS. Call your tax man for details. Then call us. And start packing.

## Three Year Old Cancer Victim Gets Her Wish Fulfilled

Three year old cancer patient at Children's Memorial Hospital gets a big boost from her wish grant to enjoy the spectacular show, "Barney's Big Surprise" at the Rosemont Theater. During one of her regular hospital visits (L to R) Kathleen Casey, Bear Necessities Pediatric Cancer Foundation, presented tiny Nicole Tijerina and her mother Elkna with tickets, toys and Barney books.

While wishing to be completely cured of her cancer little Nicole Tijerina was granted something very special to help keep her spirits up and her mind off of the dreadful procedures she bravely endures. Through the efforts of Bear Necessities Pediatric Cancer Foundation, Inc. (Cary) the Tijerina family was given a fun-filled, precious evening at Rosemont Theater and enjoyed "Barney's Big Surprise" spectacular. Three year old Nicole, a pediatric cancer patient at Children's Memorial Hospital, was accompanied by her mother, father and tiny sister Alyra. ## Tips from the Top of The Rock™

Margaret R. Semrad  
Broker/Manager  
Barrington Office

Well... what great news! A historic change took place on August 5, 1997 when President Clinton signed into law the federal bill H.R.2014. It was a day of great joy for the Real Estate community nationwide. There are many benefits included in this federal tax package, but the one that I am extremely gladdened by is the \$500,000/\$250,000 Exclusion on the Sale of the Principal Residence.

For years the real estate community nationally has lobbied for and supported a change in capital gains earned on the sale of a principal residence. Prior to May 7, 1997, a homeowner of any age had been able to defer all or part of a gain by buying a qualifying replacement residence within two years before or after the sale of his home. And secondly, homeowners age 55 or older have had the opportunity to permanently exclude up to \$125,000 of gain from gross income by making a special one-time election.

Now the new law states that most sales made since May 7, 1997 are excluded for a gain of up to \$250,000 for an individual, or \$500,000 for married couples filing a joint return.

There are some caveats to this law with respect to the number of years you have had to live in the home and other specifics but the overall picture is:

1. Couples filing a joint tax return can exclude up to \$500,000 of gain on sale of principal residence. Single return filers can exclude up to \$250,000.
2. Gain in excess of \$500,000/\$250,000 is taxable at capital gains rate.
3. Effective for sales on or after May 7, 1997.
4. Home must be used as a principal residence for two of the preceding five years. Exclusion does not apply to vacation or second home properties. Formula provided to give partial exclusion to those who cannot

satisfy the two year requirement.

5. Provision replaces and improves rollover and \$125,000 exclusion rules.

And this is the really good news:

1. Age 55 requirement eliminated. This provision is available to homeowners of any age.

2. No requirement to roll over proceeds of the homesale and reinvest. Thus, home owners have options to trade up or to trade down on a tax-free basis.

3. If a home is used as a principal residence and as a rental property during the period of ownership, any depreciation taken after May 7, 1997 must be recognized on sale.

4. The exclusion may be claimed only once every two years.

As I mentioned earlier, there are many special rules regarding the new tax exclusion and we will make you aware of them as they become available. However the overall impact of this legislation is extremely positive. This new exclusion will simplify recordkeeping for many taxpayers. The improvement in the amount of gain excluded makes it almost unnecessary to keep pesky home-improvement records.

The fact that most homeowners do not have to reinvest their home-sale proceeds to avoid paying tax will allow them to base their decision about the size and cost of their future purchase on factors other than tax consequences.

The fact that a homeowner can buy and sell a principal residence every two years, make a profit and pay no tax is a bonanza to our American homeowners. We, **Prudential Burnet Realty**, are ecstatic with all the possibilities this offers our sellers and buyers. Why not give us a call to discuss your homeowner agenda in light of this awesome legislation. **Prudential Burnet Realty** is your Dream House Headquarters.

## From a Woman's Point of View by Gail Wickstrom, Wickstrom Ford

It's amazing what creatures of habit we human beings are. The least little thing out of the ordinary throws us into a tizzy.

We decided to re-carpet our showroom and sales offices. That sounds simple but boy, did it create total chaos. First, we had to move some walls that the desks are hung on. We then had to move all the desks and file cabinets and disconnect all the phones and computers.

It ended up being a 2½ day project. We had a few cranky people by the time we finally got everything back together. But it was defiantly worth it, it looks great.

I swear the upkeep on the dealership makes the upkeep at home look like nothing. But since we spend as much of our lives there as we do at home, we like it to look very special not only for our customers, but especially for ourselves.

## Sewing Cabinets Take on a New Flair at Linda Z's

**Linda Z's Sewing Center** in Arlington Heights, has added a vast array of furniture for today's savvy sewer. Gone are the tabletop, heavy portable machines that end up being stored in the closet. If you are one of those closet sewers, then its time to come to **Linda Z's** and see what all the raves are about.

Today's sophisticated sewer has many toys to enhance their fun filled hobby. Starting with the large desk top surface that converts to a cutting surface or large area to hold bulky projects, quilt tops, or home deco, these cabinets make a sewer's life much easier.

Appearing in most sewing rooms today is the timesaving serger. This machine must also have a home. Furniture manufacturers have recognized this ever-growing need and voilà—the serger cabinet, table or add-on space to the right or left of the machine has been added!

For those lucky ladies who must have it all... the embroidery machine and computer hook up to their new top-of-the-line
