MINUTES OF MEETING OF PRESIDENT & BOARD OF TRUSTEES
JULY 25, 1966, 8.00 P.M.

MEETING CALLED TO ORDER by President John H. D. Blanke. Trustees present at roll call: David R. Capulli; Paul J. Shultz; J. Frank Wyatt; Frederick J. Voss; James F. Hollister; Also present: May L. Pinkerman, Village Clerk; Patrick J. Gaffigan, Manager; B.J. Zeisdorf, Treasurer; Donald J. Kreger, Attorney.

MINUTES of 7-11-66: approved on MOTION by Trustee Wyatt; 2nd Trustee Hollister. Ayes. Trustee Capulli not voting due to absence that meeting.

STATEWIDE INDUSTRIAL DEVELOPMENT CONF. President distributed copies of transcript of proceedings of 5-12-66.

JOBS'S DAUGHTERS requested permission to hold an ice cream social 8-20-66 in Jewel Shopping Center which is private property. Village Clerk asked to notify them the Village Board did not object.

INQUIRIES INVITED FROM AUDIENCE: Dick Leibach of 734 Grove Ave. asked for permission to close his block of Grove Ave. 8-28-66 from 1 to 6 P.M. for a block picnic, having received approval from majority of residents. Chief of Police stated similar affairs have been held in past. President suggested perhaps school grounds available. MOTION Trustee Capulli that permission be granted; 2nd Trustee Hollister. Ayes.

JUNIOR COLLEGE: Joseph H. Mueller, R2, Box 409, Barrington P.O., presented matter of petition on behalf of Barrington High School Board in connection with the Lake County project; they would appreciate a Resolution from Village Board opposing same. He explained in great detail pros and cons on subject stating that an Advisory Committee appointed to study both proposed junior college districts feels district should be kept together as a whole and best prospects would be to join by annexation to Dist. 512 Palatine-Arlington Heights, which proposes to build on site at Roselle Rd. & Algonquin Rds. Lake County would build in center of county at about Rtes. 120 & 45. Trustee Voss read a proposed Resolution; one change made in line 2 of Par. 3 on Page 1 - from 'district' to 'Board'. Trustees felt this a worthwhile matter and that school board should be supported. MOTION Trustee Wyatt to adopt Resolution; 2nd Trustee Voss. Roll call-Ayes: Capulli, Shultz, Wyatt, Voss, Hollister. MOTION Trustee Voss that Village Clerk be authorized to certify copy of Resolution and forward same to Mr. Mueller for presentation to correct authorities; 2nd Trustee Hollister. Ayes. Mr. James Dow, President Barrington High School Board thanked the Trustees for their cooperation. Mr. Mueller stated it would be of further help if Village could be represented 8-17-66 at 7.30 PM, Mundelein High School.

MR. SAM SHERMAN - WALTON ST. (220 Bradwell Rd.) presented problem of plan previously approved for construction of multiple dwelling on his property with architect sketch showing if building placed as approved it would be at center of Walton St. since it was planned for 138' and lot is 125'; he has additional R10 property adjacent and has drawn new plan for 2-10 unit buildings. Trustee Capulli suggested this matter be referred to Plan Commission for complete study and clarification for all. Mr. Sherman stated he has already granted easement for storm sewer now under contract and this would not be disturbed; his plan would improve entire area. Discussion had. MOTION Trustee Wyatt that this matter be forwarded to the Plan Commission in accordance with the law, subject to receipt of proper documents and fee of \$50.; 2nd Trustee Hollister. Ayes.

TREASURER'S REPORT for June received and passed to files.

AMERICAN RED CROSS: MOTION Trustee Capulli that President be authorized to sign a MUTUAL AGREEMENT with the American Red Cross (Understanding Between Disaster Service of the mid-America Chapter American Red Cross & the Village of Barrington); 2nd Trustee Voss. Trustee Shultz suggested copy go to Mr. A.O. Belz, Civil Defense Dir. Roll call-Ayes: Capulli, Shultz, Wyatt, Voss, Hollister.

BARRINGTON REST HOME PETITION: Report from Zoning Board of Appeals read: "...it was unanimously voted to recommend that you grant the petition." Discussion had on ordinance to cover variation for occupancy by nurses. MOTION Trustee Capulli to concur with recommendation of the Zoning Board of Appeals for variation in the use of 142 W. Station Street.; 2nd Trustee Hollister. Roll call-Ayes: Capulli, Shultz, Wyatt, Voss, Hollister.

M. J. GRAFT PETITION: Report from Zoning Board of Appeals on petition heard requesting redivision of 2 lots at Exmoor & Roslyn Rd. read: "...it was the unanimous vote that we recommend you grant the petition." MOTION Trustee Wyatt to concur in recommendation of the Zoning Board of Appeals; 2nd Trustee Voss. Roll call-Ayes: Capulli, Shultz, Wyatt, Voss, Hollister. Village Manager Gaffigan asked that it be clarified that the Building Dept. should not act until above required ordinance has been passed by the Village Board. Agreed.

ILL. LIQUOR COMMISSION HEARING (Ten Pin): President stated he had testified; no report on decision yet received.

STATE SALES TAX FOR APRIL 1965 reported as gross to Village: \$9716.77.

FIRST NATIONAL BANK & TRUST CO. OF BARRINGTON June Statement received & filed.

NORSTROM-HILGERS PETITION FOR REZONING: received in triplicate with plat & fee; request rezoning of lots 5, 6 & 7 in Block 11 in Arthur T. McIntosh & Co. Northwest Highway Addition to Barrington, from R-7 single family to B-1 for purpose of constructing & maintaining a 1-story professional office building. MOTION Trustee Capulli that this be referred to Plan Commission for hearing, if all papers in order; 2nd Trustee Shultz. Ayes.

SPRUCE RD. (Jewel Park): State San. Water Board approval received for sanitary sewer extension #1966-HB-365. SWB Log #582-66. Mr. Schlachter stated he had presented 2 changes for his documents already filed & asked what became of his objections. President advised that Attorney, at last meeting, had stated Mr. Schlachter had not filed ~~formal~~ objections. Trustee Wyatt stated copies were distributed to Trustees and he did not know of any action the Board could take. President stated Board has approved plats on street and subdivision but linens have not yet been received for signatures. Mr. Schlachter stated if he has to go to court he will, following which statement he left meeting. Attorney Kreger read letter received by Attorneys from LaSalle National Bank re Mr. Schlachter's status as their agent, copy of which was requested for Village.

LOAD LIMIT ORDINANCE reported still under study.

CHICAGO AERIAL IND. INC.: Manager reviewed receipt of document which they felt was to satisfy ordinance for a plat of right of way; this was referred to Attorney who replied document did not show it to be a dedication plat. Manager will advise Chicago Aerial Ind. Inc. of this and send copy of Attorney's opinion. President stated he had been advised today of a planting program they desire to proceed with which he felt when received by Board should be referred to our Forestry Advisory Committee.

MUSCULAR DYSTROPHY ASSOC. OF AMERICA, INC.: Request permission to have 85 cannisters placed around Village by Police Dept. Manager felt this should have attention of Board &/or B.A.U.F D. Committee. MOTION Trustee Shultz that this matter be referred to Barrington Area United Fund Drive Committee for review and recommendation to Village Board; 2nd Trustee Wyatt. Ayes.

GASOLINE PURCHASE: Manager stated this program working well & requested approval to advertise for bids for purchase for coming year, this time to include motor oil. Discussion had on gas for motorcycles. MOTION Trustee Wyatt to authorize advertising for bids in accordance with specifications and notice to bidders; bids to be taken Aug. 3, 1966, per recommendation from Village Manager of 7-19-66; 2nd Trustee Capulli. Ayes: Capulli, Shultz, Wyatt, Voss, Hollister.

MUNICIPAL CAR #3 (Police Dept.) Manager Gaffigan requested approval of proposal to advertise by letters to car dealers in Village for purchase of a used car for the Police Dept - civilian use as an additional car; covered in budget; may need an alternator later. Discussion on whether or not this would be for exclusive use of Police Dept. - primarily so, since radio now in Chief's personal car will be installed therein. MOTION Trustee Voss that Village Manager be authorized to advertise for bids for a used car for Police Dept. in accordance with recommendation of 7-21-66; 2nd Trustee Wyatt. Roll call-Ayes: Capulli, Shultz, Wyatt, Voss, Hollister.

DEPT. OF REVENUE - Leasing Tax: Letter received duplicated for Trustees; discussion. UTILITY TAX: Possibilities discussed between Trustee Shultz & Manager who will check further into matter.

BARRINGTON MIDDLE SCHOOL SAN. SEWER PAYMENT: Copy of letter from Mr. Lundahl to each Trustee; Manager briefed on several phases and will check with Mr. Lundahl on waivers-recommended acceptance of payment. MOTION Trustee Wyatt to accept payment of \$4550. payment for connection charge to S/A#70 sewer from Barrington Middle School in accordance with ordinance #883 and report submitted by Manager today; 2nd Trustee Hollister. Roll call-Ayes: Capulli, Shultz, Wyatt, Voss, Hollister.

PATROLMAN: Chief Muscarello requested a patrolman to cover desk from midnite - 8 AM which is being vacated by Officer Moebius who is entering military service voluntarily. Manager recommended approval of advertising for a patrolman, increasing force from 7 to 8. MOTION Trustee Shultz that Chief of Police be authorized to recruit additional patrolman under Fire & Police Commission, bringing strength of department to 8 patrolmen as requested by Chief of Police 7-21-66; 2nd Trustee Capulli. Roll call-Ayes: Capulli, Shultz, Wyatt, Voss, Hollister.

LIBRARY REPORT FOR JUNE 1966 received and passed to files.

TREES: Manager explained bill from Roth Landscape Service at. \$2477.90. 18 trees lost to DED so far this year & several others under study. President suggested trees planted in Parkway have followup trimming - felt they should be checked by Forester. Trustee Voss felt people should be encouraged to plant trees and this should be worked on now. Manager stated there is an appropriation; he and Mr. Parrish suggested Sept. & Oct. good planting time.

BILLS: MOTION Trustee Capulli that Treasurer be authorized to pay bills from funds indicated; 2nd Trustee Hollister. Roll call-Ayes:Capulli, Shultz, Wyatt, Voss, Hollister.

TREE TRIM: Trustee Hollister suggested the 'centennial tree' on W. Main St. be checked for trimming.

FLINT

CREEK: Analysis and checks now being made of contents, in certain areas.

NAMEPLATES: Mr. Henry Schneider, signmaker, has supplied nameplates which will be installed in Council Chambers.

MEETING ADJOURNED at 9.25 P.M. on MOTION Trustee Voss; 2nd Trustee Capulli. Ayes.

Respectfully submitted,

May L. Pinkerman
Village Clerk

Re: Pollution of Flint Creek

Gentlemen:

After a great deal of time and effort, by Supt. Johanesen, Chief Muscarello as well as Park Supt. Miller, a major source of pollution of Flint Creek has been found as verified in two days of investigation by Lake County Health Department engineers. Photographs have been taken and samples of the creek in selected locations have been drawn and are being analyzed to determine the nature of the pollutants so that the offender can be told in definite terms that not only that such pollution must stop immediately, but what remedial action will be needed to eradicate the conditions existing in the creek now. The source as verified is Jewel Tea Company and they were told on July 20th, the first day of the investigation, by Mr. Johanesen accompanied by Mr. Miller that certain drainage pipes were the source of the pollution and changes in their plumbing and sewers would have to be made. On Friday morning, July 20th, detergents dumped via this same route caused deposits of foam on the creek, and Mr. Johanesen called in the Lake County Health Department at once; subsequent investigations by our Police Department and that department were completed this date. The Lake County Health Department will now confront Jewel Tea with the evidence from which remedial action by Jewel will take place, no doubt.

I did not want to inform the Village Board until incontrovertible evidence was at hand; now that we know the situation, we have no choice but to back the Health Department people to the nth degree--such pollution of fresh water streams cannot be tolerated. I have no idea how long this condition has existed; I

-2-

understand the Village has received complaints intermittently over the years.
Suffice to say, we should all be grateful that the source has been finally
determined and bend every effort to eradicate it.

Respectfully submitted,

Patrick J. Gaffigan
Village Manager

Dr. H. J. -

STENOGRAPHIC REPORT of a Public Hearing held before the Zoning Board of Appeals of the Village of Barrington, in the Village Council Chambers on July 27, 1966, at 8:00 PM, on the petition of Mrs. and Mr. John E. Krueger. Meeting having been duly published.

MEMBERS PRESENT:

J. C. Cadwallader, Chairman
Arnett C. Lines, Secretary
F. H. Beinhoff
Edw. J. Dugan
Henry Lipofsky
Clyde Church

MR. CADWALLADER: This meeting will come to order. This is a meeting of the Zoning Board of Appeals of Barrington to hear the petition of Mr. & Mrs. John E. Krueger asking for a variation in lot size of property on East Russell Street.

Dayton Nance, representing Mr. Krueger and Mr. Krueger were sworn in.

MR. NANCE: Mr. Krueger has a large lot on East Russell Street, which is a triangular piece of property. Inasmuch as he is retiring now and this is too much to take care of, he would like to sell land to the west of his house, which is 520 East Russell Street. Under the new zoning ordinance lots must be 75 ft. wide. We have 66 ft. width. Houses to the west have 66 ft. widths and to the south on Division, Summit and Prairie Streets they are 60 ft. wide. I can see no reason why the 75 ft. should apply in this particular case. It is not a new sub-division. It would not affect any of the surrounding area. The total square feet would be over the limit.

Mr. Keating's house is to the west, then Bruce Dockery's, then the Scout Cabin, all on 66 ft. lots. This lot in question will actually be bigger than most lots within three blocks. The new ordinance penalizes all in this neighborhood. (Survey shown to the members of the Board.)

MR. CADWALLADER: Any questions by any Board Members?

MR. BLANKE: Is the Ordinance you refer to the one adopted in 1959?

Answer: Yes.

MR. BLANKE: Is it not true that all lots on Russell west of Summit are 50 ft?

MR. NANCE: Yes, and some are 60 ft. Mr. Krueger's lot is larger than 95% of the lots in the neighborhood. I feel when the Ordinance was written it should have been a lesser figure to be in keeping with the neighborhood.

MR. CADWALLADER: Any questions? Do you wish to make any statement, Mr. Krueger? (He answered no.) We will try to have our recommendation before the Village Board on August 8. This meeting stands adjourned.

Mr. Patrick J. Gaffigan,
Village Manager,
Village Hall,
206 S. Hough St.,
Barrington, Illinois

My dear Mr. Gaffigan:

SBOC

I am enclosing an ordinance to adopt the provisions of the BOCA housing code, as requested.

As I mentioned to you, many of these provisions merely repeat provisions already found in the general code, particularly in the building sections; and the provisions that purport to give the building inspector discretionary authority are, of course, illegal. That is why in our adopting ordinance we specifically provide that he shall have no discretionary authority but merely the power to determine the facts and enforce the ordinance.

The board's attention should be called specifically to the provision on inspections in Section H-121.0. It is quite doubtful that any building officer, or any other officer of the village, can be given the power to enter premises unless he has reasonable ground to believe that some violation of an ordinance or law is occurring. The constitutional provision against unreasonable search would apply excepting where the officer has reasonable ground to believe that some violation exists.

Since this code is printed in pamphlet form, no newspaper publication is necessary.

Cordially yours,

Thomas A. Matthews

Re.: Ten Pin Inc. Liquor License

Dear Mr. Muscarello:

This notice is submitted to advise you that the State of Illinois Liquor Control Commission, subsequent to hearing held July 12, 1966, and its deliberations following, has ordered that the State Retail Liquor License No. R-13430 issued to Ten Pin Inc., at 555 Exmoor Avenue in Barrington, Illinois, be suspended for a period of three days, namely from midnight, Sunday, August 21, 1966, until midnight, Wednesday, August 24, 1966.

Said order from the Illinois Liquor Control Commission was mailed to parties concerned on July 26, 1966 and Xerox copy of said order is attached herewith for your office information.

As Liquor Commissioner of the Village of Barrington it has become my obligation and duty to direct that full compliance to the order of the State of Illinois Liquor Control Commission must be supported due to the fact that Ten Pin Inc. operates under a Village of Barrington Liquor License which provides for the sale and dispensing of alcoholic beverages in the building identified as 555 Exmoor Avenue, which houses a tavern, a liquor store, bowling alleys and pool tables.

Copy of this notice is being supplied to all interested parties including the Board of Trustees, Village Clerk, Village Attorney and the Ten Pin Inc. establishment plus the Illinois Liquor Control Commission.

Respectfully Submitted

Gentlemen:

At a meeting of the Board of Trustees of the Village of Barrington, held Monday evening, July 11, 1966, a document, a copy of which is enclosed herewith, was presented to the board for consideration. Action on this document was postponed until I could ascertain from you whether or not the subject matter of this document is authorized by you, and whether or not the person signed on the document is authorized by you as your agent to represent the Trustee in this matter.

Your early reply will be greatly appreciated.

INFORMATIONAL

The Village Board of Barrington, at my recommendation, is considering the use of a utility tax in the Village to meet with the necessary rising expenditures of our growing village. This tax, as you know, was enacted by the State Legislature some time ago on a permissive basis to provide Illinois municipalities with a source of revenue, if needed. Our general fund is, and has been, showing a deficit which keeps ascending year after year and we must now consider using this utility tax as a possible solution to our problem.

The purpose of this letter is to acquaint you with our intentions and request your understanding cooperation in developing correct financial estimates of what such a tax would realize in revenue for the Village of Barrington. The letter is directed to you since our normal operating contacts have been with you--we assume that you will forward this letter to the appropriate person in your organization who is requested to contact the undersigned. We can then determine what data we need to accurately inform the Village Board of the pros and cons in this matter.

Your prompt attention and reply is appreciated. Thank you.

Sincerely yours,

Patrick J. Gaffigan
Village Manager

Dear Pat:

Permission is hereby granted to the Village of Barrington to dump clean fill along the eastern one hundred and fifty feet of Lot 42 of Pickwick Place. This permission is for a period not to exceed ninety days from this date; however, extensions of time may be granted by me if circumstances warrant, in my judgment, such extensions.

I wish you the best of luck in this problem-laden undertaking.

Yours truly,

STENOGRAPHIC REPORT of a Public Hearing held before the Zoning Board of Appeals of the Village of Barrington, in the Village Council Chambers on July 13, 1966, at 8:30 PM, on the petition of Michael Graft. Meeting having been duly published.

MEMBERS PRESENT:

Arnett C. Lines, Secretary
F. H. Beinhoff
Edw. J. Dugan
Henry Lipofsky
Clyde Church

On motion of Mr. Dugan, seconded by Mr. Beinhoff, Mr. Lines was elected Chairman pro-ten for the evening. All ayes.

MR. LINES: (Read the petition) Everyone shall be heard that wants to speak, pro or con. The petitioner shall be heard first. Each one wishing to be heard, please be sworn in and give your name and address.

Michael J. Graft, 913 South Northwest Highway, Barrington, was sworn in. He was represented by Attorney William J. Braithwaite, 540 S. Hough St., Barrington.

Mr. Braithwaite explained that Mr. Graft desired to rearrange two lots at the southeast corner of Exmoor Avenue and Roslyn Road. The two lots are 50 feet by 175 feet deep, facing Exmoor, and they desire to face them on Roslyn making them 100 feet deep and 87.5 feet wide.

MR. BRAITHWAITE: This does not represent a zoning matter in the usual sense. The two lots are zoned R-6 and will remain so. We simply ask permission to turn these two lots around.

Mr. Braithwaite asked several questions of Mr. Graft for the purpose of record. He advised the lots were not purchased upon this request being granted, homes will be built on them, but other houses now face Roslyn Road and if these two lots could be turned around and homes built on them, it would allow greater flexibility of design and a generally more attractive arrangement of housing.

Mr. Graft further remarked that he had tried to get a building permit and was advised by Mr. Mollenkamp that he could not issue one without the permission of the Village Board. Advice from the Village attorney was that he could see no objection if it complied with the zoning. However, a technicality caused the necessity of getting Village Board permission, which would be made through the decision of the Zoning Board of Appeals.

Mr. Graft also stated that these lots were laid out before 1949 and tax bills, special assessment bills and original title policies, latter dated August 31, 1949, all showed these as two separate lots. One Village map shows them as they are laid out now and one as we desire to lay them out. There are two sewer stubs and one water stub for the property in question.

MR. LINES: Anything further.

MR. BRAITHWAITE: We rest our case.

Meeting adjourned.

Village Clerk: Please make Xerox copy of attached WIND editorial for your file, six trustees, and manager and mail out with June 25 minutes as Information.-----John H.D.Blanke, Village President

BROADCAST IN THE PUBLIC INTEREST

Broadcast: Friday, July 22, 1966
By: Mayor Herbert Behrel, Mayor of
Des Plaines

REBUTTAL EDITORIAL - "ILLINOIS REVENUE ARTICLE"

WIND has frequently editorialized in favor of the new Illinois Revenue Proposal. Presenting an opposite viewpoint today is the President of the Illinois Municipal League of Mayors, Mayor Herbert Behrel, Mayor of Des Plaines.

The Illinois Municipal League has voted to oppose the proposed amendment to the Revenue Article of the Illinois Constitution to be voted upon November 8, 1966.

The League adopted this position after a thorough study and the consensus reached by its Board of Directors as to the requirements of a sound Revenue Article for the State of Illinois and its local governments.

The Municipal League believes that the present Revenue Article is too restrictive and should be revised but finds that the proposed Article is even more restrictive than the present Article and does not meet the standards expected of a modern Revenue Article for our State.

A Revenue Article should be able to adapt to our changing Social and Economic conditions. It should be broad, flexible, and general and give to the Legislature, subject to realistic restrictions, the power to tax and develop for the State and its

- local governments, a taxing system suitable to meet the needs of our times.

The proposed Article is lengthy, poorly drawn, full of ambiguities, and most difficult to interpret. Its adoption can only lead to years of extensive and costly litigation. It takes away the taxing powers and sources of revenue presently available to the State and local governments and it makes one tax the alternative for another.

If our States are going to fulfill their historic role as partners in our dual State and Federal System, we must enact laws to strengthen our State governments, not weaken them. The proposed amendment moves in the wrong direction. Its adoption can only extend and hasten the intrusion and takeover by the Federal government of our State and local affairs.

This was a rebuttal editorial presented by Mayor Herbert Behrel of Des Plaines and President of the Illinois Municipal League, expressing the views of the League regarding the Illinois Revenue Proposal.

INFORMATIONAL

Dear _____:

It has come to my attention that your property, described as _____, is one of approximately seventy-eight (78) parcels in violation of Village Ordinance #729, adopted on April 25, 1960, as follows:

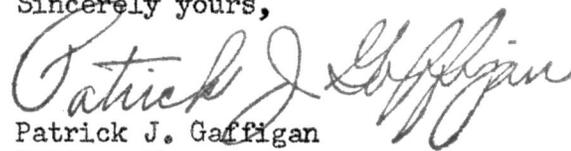

"SECTION 28.204 - REMOVAL - NOTICE. It shall be the duty of the Superintendent of Public Works to serve or cause to be served a notice upon the owner or occupant of any such premises on which weeds or plants are permitted to grow in violation of the provisions of this article, and to demand the abatement of the nuisance within ten days. Provided that such notice may be given by a notice published in a newspaper published in the village to the effect that the village will cut all weeds and grass in excess of two feet in height on any premises in the village, commencing on a designated date which shall be not less than ten days after publication and charge the cost to the owner or occupant of the premises. Such publication shall be deemed notice to each such owner and occupant."

Village records indicate that publication in the newspaper has not resulted in property owners cutting their noxious weeds, plus the fact that village public works personnel have been cutting such weeds on property complained about by neighboring property owners, without charge to the property violating the ordinance. This expenditure of village funds cannot be justified, plus the fact that the Village has neither the personnel or equipment to be cutting weeds on private property.

Again this year we are in receipt of many complaints about weeds and by this personal letter to you, I urge you to take steps immediately to cut these weeds, and keep your property in a condition that will not necessitate future complaints by your neighbors. If you do not recognize your responsibility and cut these weeds, the Village will have to take action which will result in a premium charge for our personnel to take the time to cut the weeds.

I sincerely hope that you will receive this letter in the civic spirit in which it is written. Thank you.

Sincerely yours,

Patrick J. Gaffigan
Village Manager

THE ATTACHED RESOLUTION IS TO BE PRESENTED TO THE BOARD OF TRUSTEES
AT MEETING TO BE HELD 7-25-66.

F.J.VOSS.

RESOLUTION OF THE BOARD OF TRUSTEES OF
THE VILLAGE OF BARRINGTON, ILLINOIS

WHEREAS, a petition has been filed with the Illinois Junior College Board for approval of a Lake County Junior College District which includes that portion of Barrington Consolidated High School District No. 224 and the Village of Barrington lying within Lake County, Illinois; and

WHEREAS, the approval of said petition would result in a division of Barrington Consolidated High School District No. 224 and the Village of Barrington into two separate areas in so far as the inclusion thereof in a junior college district is concerned, and would thereby prevent the annexation of the entire high school district and the Village of Barrington to a single junior college district; and

WHEREAS, a petition has been filed with the Illinois Junior College ^{Board} ~~District~~ for annexation of all of Barrington Consolidated High School District No. 224, including the Village of Barrington, to Junior College District No. 512 of Cook County, Illinois, which petition has been signed by more than one-fifth of the resident voters in the foregoing district, as required by law; and

WHEREAS, said petition for annexation has been approved by resolution duly adopted by the respective Boards of Education of Barrington Consolidated High School District No. 224 and Junior College District No. 512; and

WHEREAS, said petition for annexation has been signed by a large number of resident voters of the Village of Barrington and is deemed to be in the best interests of this community;

NOW, THEREFORE, Be it resolved by the Board of Trustees of the Village of Barrington, Illinois, that the petition for annexation of all of Barrington Consolidated High School District No. 224, including the Village of Barrington, to Junior College District No. 512 of Cook County, Illinois, be and the same is hereby approved.

Be it further resolved, that this Board of Trustees is opposed to the inclusion of the Lake County portion of Barrington Consolidated High School District No. 224 and the Village of Barrington in the proposed Lake County Junior College District.

Dear Mr. Gaffigan:

With regard to the Chicago Aerial Industries plat mentioned in your letter of July 7:

An annexation plat is not the same as a dedication plat. Streets shown on an annexation plat as already in existence, of course go with the annexation. But unless the street has actually been dedicated by usage or by plat, merely showing the area as a proposed street on the plat of annexation, would not be the same as a dedication.

We shall return the Chicago Aerial plat under separate cover.

Cordially yours,

Thomas A. Matthews

Barrington President and Board
Mr. Gassian, Village Manager
206 S. Hough Street
Barrington, Illinois 60010

Dear Mr. Gassian:

I am writing to you and your President and Board, in the hope that you will give favorable consideration to the distribution of canisters in Barrington for Muscular Dystrophy Associations of America, Inc. Police Chief Muscrallo has graciously consented to distribute 85 canisters for us, provided he has your full approval.

Muscular Dystrophy and its allied diseases afflict over a million Americans. Many of these victims are children between the ages of 3 and 13, most of whom will not reach maturity.

The money received from these canisters will help in the fight against this dread disease. It provides the means for research and for the necessary orthopedic appliances, such as wheelchairs, braces, etc. It also makes possible recreational activities for the patients of the Greater Chicago area, such as 10 days at Lake of the Woods and Greenwood Camps in Decatur, Michigan.

Upon receipt of the canisters, we would appreciate having them distributed in all places of business in your area. Six weeks after distribution, during the week of September 12th, the canisters should be picked up. If convenient, it would be a help if the canisters were opened, the money counted and a check sent to us for the total. If this is not feasible, then please call this office, 427-8994, and arrangements will be made to have the canisters picked up from you by September 17th. Enclosed you will find a form which is provided to cover the proper number of canisters, to list the names and addresses of the places of business where the canisters have been left. This is for the convenience and records of the men placing them.

I hope I can count on your kind cooperation. If you have any questions, and we can assist in any way, please do not hesitate to call on us.

Sincerely,

Bob Lewandowski

Re: Advertisement for Village Fuel
Requirements

Gentlemen:

It has been almost a year since the first annual gasoline requirement was bid by the Village of Barrington and this is now the time to seek bids on our second annual requirement.

RECOMMENDATION: that the Village Board authorize advertisement for bids in accordance with the attached specifications and notice to bidders; bids to be taken on Wednesday, August 3, 1966 for report and recommendation of award at the board meeting of August 8, 1966.

It will be noted that we are also asking bids for motor oil requirements in bulk quantities in the interests of economy.

Respectfully submitted,

Patrick J. Gaffigan
Patrick J. Gaffigan
Village Manager

cc: Mr. B. J. Zelsdorf

VILLAGE OF BARRINGTON

206 S. HOUGH ST.

BARRINGTON, ILL. 60010

VILLAGE OF BARRINGTON, ILLINOIS
COOK AND LAKE COUNTIES

Notice is hereby given that sealed proposals will be received by the Village Clerk, 206 So. Hough Street, Barrington, Illinois until 11:00 A.M. August 3, 1966 at which time Bids will be publicly opened for the following:

ANNUAL REQUIREMENTS for fuel estimated as follows:

- (1) Regular Gasoline - 19,300 gallons.
(2) Motor Oil - Four/55 gallon drums (pumps included)

All deliveries to be made at Municipal Garage, 300 Raymond Avenue, Barrington, Illinois. Gasoline deliveries to be approximately 1,500 gallons at a time.

REGULAR GASOLINE SPECIFICATIONS:

1. The gasoline must be free of suspended material and any trace of water.
2. The gasoline must not contain more than .10% sulphur in any form.
3. The gasoline must not contain more than 2 milligrams of existent gum per 100 c.c. when taken by ASTM-D-381-61T.
4. The gasoline must not contain more than 25 milligrams per 100 c.c. of potential gum, nor must it show any loss of pressure within 4 hours, when subjected to the accelerated gum test. (ASTM-D-873-57T)
5. The gasoline should give a negative reaction to the sodium plumbite test.
6. The distillation range shall consist of a smooth, gently rising chain of boiling points, whose salient points shall be as follows:

(a) Initial boiling point not less than	95°F	85°F
(b) 10% Fraction shall fall between	130/155°F	120/140°F
(c) 50% Fraction shall fall between	225/250°F	215/240°F
(d) 90% Fraction shall fall between	340/360°F	330/350°F
(e) The end Point shall fall between	390/400°F	380/400°F
(f) Recovery shall be not less than	96.5%	96.5%
(g) Residue shall be not more than	1.5%	1.5%
(h) Distillation loss shall be not more than	2.0%	2.0%

The residue of the gasoline must be absolutely neutral, nor shall this residue be of a coke-like nature to the minutest degree.

7. The vapor pressure of the gasoline in summer shall not exceed 8 pounds at 100°F when subjected to the Reid bomb test (ASTM-D-323-58) in winter it shall not exceed 12 pounds.
8. The gasoline shall have an octane rating of not less than 94 by (ASTM-D-908-61) Research Method and not less than 86 by (ASTM-D-357-61) Motor Method. The spread between motor and research octane ratings should not be more than 8 octane numbers and not less than 4 octane numbers.

Sheet 2

9. The gasoline must not show a loss of knock rating when subjected to 30 days air-tight storage.
10. The gasoline must be free from unpleasant odors when judged by a refinery man.
11. The material should be negative to the corrosion test when tested in accordance with ASTM-D-130-56.

All bidders shall submit bid prices under the two methods described and the Village will select the one that it feels will be most advantageous.

1. A firm price per gallon to be in effect for the entire term of the contract.
2. A fluctuating price per gallon based upon a deviation or discount from the tank wagon price in effect at the time of delivery. The bid is to show the new tank wagon price in effect as of _____.

QUOTATION:

Regular Gasoline:

- | | |
|---|----------|
| 1. Firm price per gallon for term of contract | \$ _____ |
| 2. Net tank wagon price effective _____ | \$ _____ |
| Less discount per gallon | \$ _____ |
| Net bid price | \$ _____ |

Motor Oil:

- | | |
|--|----------|
| 1. Two (2) drums - 10W-30 (ML-MM-MS-DG-DM) | \$ _____ |
| 2. One (1) drum - SAE30 | \$ _____ |
| 3. One (1) drum - SAE20 | \$ _____ |

Prices shall be quoted exclusive of the Federal Excise Tax and Illinois Sales Tax.

Bids shall be accompanied by specifications of product quoted and should indicate the brand and trade name under which it is sold.

The Board of Trustees reserves the right to accept or reject any and all bids and to make award it deems most advantageous to the Village.

NOTE: Bid accepted on this form only, prices to remain firm 30 days. Mark outside of envelope "Gasoline and Oil Bids".

VILLAGE CAR PROPOSAL

Sealed envelopes marked "Village Car Proposal" in accordance with the following standards dated July 25, 1966 for a used 1964 passenger vehicle will be accepted at the office of the Village Manager, 206 So. Hough Street between July 26th and September 6th, 1966:

1. 1964 model (or later), original owner, 6 cylinder, automatic transmission, 4 door passenger car.
2. Solid color (white preferred).
3. Winterized, complete motor tune-up (new plugs and distributor parts), new battery, oil change and new filter.
4. Purchase price to be judged on merits of the individual car.
5. Maximum of 20,000 actual miles (Owner's Manual and/or Service Record, if available).
6. 90 Day Guarantee.

Proposals will be opened and the vehicle will be subject to immediate inspection by the Village Manager or Chief of Police as to potential purchase by the Village of Barrington.

The Village Board reserves the right to accept or reject any or all proposals and/or to accept the proposal which is in the best interest of the Village of Barrington, as recommended by the Village Manager.

SAM KEYS
ASSISTANT DIRECTOR

July 18, 1966

Mr. Patrick J. Gaffigan
Village Manager
Village of Barrington
206 South Hough Street
Barrington, Illinois 60010

Dear Sir:

We have your letter of June 30, 1966, with reference to the Municipal Leasing Tax adopted by your Village and asking if we could advise you as to what present or projected revenue amounts might be for your Village under this particular tax.

According to the records in this office the amount of \$77.31 has been collected for the Village of Barrington under the Municipal Leasing Occupation Tax. All of this amount has been paid into the Protest Fund as is required by the Injunction filed and pending final court decision must continue to be paid into the Protest Fund. There was a Supreme Court decision in June to the effect that the Leasing Occupation Tax was legal and we are merely waiting for the next Session of the Courts to find out whether or not an appeal is to be considered.

If the final decision is in favor of the State (municipalities and counties) the amount of money held in the Protest Fund at that time will be certified to each municipality or county.

We are not allowed by Law to advise an amount of tax paid by a particular taxpayer and inasmuch as the amount due the Village of Barrington is so small it could very well represent only one or two taxpayers, therefore, we are not listing the names of the businesses represented by the \$77.31.

In this connection we might advise that it is our custom to notify the Village Clerk each month of the amount of Municipal Tax collected and in the form letter we identify the amount paid under the Leasing Act and show that it is being paid under Protest. This way the village or city is kept informed as to their anticipated revenue.

Very truly yours,

MARSHALL KORSHAK
Director of Revenue

Board Meeting of July 25, 1966

President and
Board of Trustees

Re: Payment of Sanitary Sewer
Assessment for Barrington Middle School

Gentlemen:

Attached please find a copy of Mr. Lundahl's letter, dated July 7th on this subject, as well as a copy of Ordinance #883 passed by the Village Board on the subject.

The contractor's bill has been reviewed by Mr. Johanesen and me and the costs found to be in line with the market of today. We question why the contractor should be paid added money for bringing the amvit pipe to the job and replacing the slip-seal, but the School Board has paid it as recommended by their architect, so we would be penalizing the school which is pointless as I see it.

RECOMMENDATION: that the payment of \$4550.00 as the connection charge to Special Assessment #70 for Barrington Middle School be approved by the Village Board in accordance with Ordinance #883 as outlined in Mr. Rolland Lundahl's letter, dated July 7, 1966.

Respectfully submitted,

Re: Middle School
Sanitary Sewer

Dear Mr. Zelsdorf:

Your letter enclosing a bill for sanitary sewer connection at Glendale Avenue for the Barrington Middle School has been received.

In accordance with Ordinance No. 883 approved on May 10, 1966, I am forwarding herewith a copy of a letter from Bruno Francis Plumbing and Heating Company in which a breakdown of costs for installing the sanitary sewer along Warwick Avenue is set forth.

In negotiating a final contract with the above referred to plumbing contractor, there was no specific amount stipulated for extending the sewer from Eastern Avenue to Glendale Avenue. When this matter was discussed with the Village Board, an estimated cost of \$4,500.00 was given. This figure was not based on a detailed take-off by the architect. Construction costs increased sharply between the time this estimate was made and the work actually performed.

I am enclosing copies of two change orders which were approved for additional costs for constructing the sewer. These amount to \$1,278.59. This amount is included in the \$7,294.00.

Please advise if a payment of \$4,550.00 will be approved. If so, I will forward a check in this amount as payment in full for the connection charges.

Very truly yours,

Rolland H. Lundahl
Business Manager

ORDINANCE NO. 883

AMENDMENT TO ORDINANCE NO. 0-777

BE IT ORDAINED by the President and Board of Trustees of the Village of Barrington, Cook and Lake Counties, Illinois, that:

Ordinance No. 0-777, pertaining to sewer connection charges for property annexed to the Village to be served by the sewer system known as Special Assessment No. 70, is hereby amended by adding the following paragraph:

Provided that upon annexation of the property described below, the amount of the connection charge provided in this ordinance shall be reduced by the cost of extending the sewer main to serve the school on said property, from Eastern Avenue along Warwick Avenue to Glendale Avenue. The cost will be determined by final construction figures to be furnished to the Village by the School Board of School District No. 4. The territory referred to herein is: The West 982.6 feet of the North West quarter of the North West quarter (except the North 50 feet and except the west 30 feet) in Section 6, Township 42 North, Range 10, East of the Third Principal Meridian, in Cook County, Illinois. Except that part described as follows:

That part of the Northwest quarter of Section 6, Township 42 North, Range 10, East of the 3rd Principal Meridian, in Cook County, Illinois, described as follows: Beginning at the Northwest corner of said Section 6 and running thence East along the North line of said Section 6 559.00 feet; thence South parallel with the West line of said Section 6 160.00 feet; thence on a 11 52' 19" angle to the left of the last described course 232.50 feet; thence on a 101 38' 04" angle to the right of the last described course 597.89 feet to a point on the West line of said Section 6, which point is 390.0 feet South of the Northwest corner of said Section 6; thence North along the West line of said Section 6, 390.00 feet to the place of beginning.

Passed this 10 day of May, 1965.

Dear Sir:

Due to the resignation of Officer Moebius, Desk Operator on the Midnight to Eight Shift, effective July 30, 1966, I would like to recommend that we hire a Patrolman under the Fire and Police Commission.

This would enable me to rotate the Midnight shift on the desk, so that all the patrolmen would take their turn working this shift, giving them a working knowledge of all the responsibility of the desk.

I feel that the desk operator working this shift would then know what the patrolmens responsibilities are and would be able to dispatch cars and emergency equipment more efficiently.

Yours truly,

Joseph L. Muscarello
Chief of Police

JLM/ks

RECOMMENDATION TO PRESIDENT AND BOARD OF TRUSTEES: that the Police Dept.

be authorized to recruit a patrolman bringing the strength of the department to eight patrolmen, as requested by the Police Chief in his letter of July 21, 1966.

BARRINGTON, ILL. 60010

MAILED INFORMATIONAL

President and
Board of Trustees

July 13, 1966

Gentlemen:

In the rush through a short board meeting and adjournment at 9:30 P.M., the following important items should have been verbally reported:

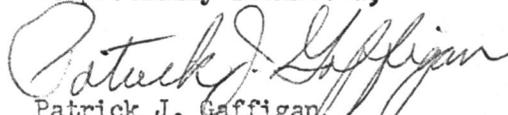

1. Eastern Avenue is complete and open to traffic as of July 9th--the school is installing driveway aprons and must take steps to stop soil from washing from their parking lot over the sidewalk and into the street near Warwick Avenue.
2. Main Street sidewalk is complete as of July 9th with only clean up left to be done.
3. Fill material is continuing to be placed for our proposed roadway between the railroad and present Hillside Avenue. The railroad has agreed upon my request to dump directly from their rail tilt cars onto the site, with our Public Works personnel moving the material into the proper locations. A culvert has been temporarily installed to drain the Younghusband property to the Hillside culvert and then to the lake, and since the northside of the railroad ditch drains directly into Baker's Lake, as verified in the field, there will be no drainage problems.
4. The Fox Point trunk sewer is now completely connected and remedial work on and the construction route joints/plus TV inspection of the line is now in process.
5. Copies attached of Mr. Townsend's letter to me, dated July 8, 1966, concerning representation of private developers in the Village while functioning as Village Engineers is self-explanatory. As you know, we have discussed this matter informally particularly in terms of Eppers' Glendale Addition and Seeger-Anderson Resubdivision. Unless I hear from any of you before July 18th, the following letter will be sent to Mr. Townsend:

"Receipt of your letter of July 8th is acknowledged and a copy of which has been duplicated for each member of the Village Board. I know I speak for them when I say that we most assuredly desire that your firm continue as Village Consulting Engineers; and so that such representation be above reproach, your firm should not represent private developers seeking village approval of plans and specifications for improvements in the Village of Barrington. In my personal opinion, it is just not possible for one to review one's own work, no matter how well qualified or well-intentioned it may be.

As usual, your very astute letter perceives our concern in this matter and this letter written, on behalf of the Village Board, lays that concern to rest now that we understand one another."

6. I plan to take time to drive to Detroit and pick up my family on Friday the 15th, returning either Saturday the 16th or Sunday the 17th, depending on the condition of my father-in-law who is hospitalized with three different maladies; two of which require major surgery, when his condition can stand it.

Respectfully submitted,

Patrick J. Gaffigan
Village Manager

P.S. - By phone call this date in response to my requests, Consoer, Townsend advises that the contractor for S.A. #74 (Walbaum Storm Sewer) will have pipe on the job on July 21st and start work July 22nd or 25th at the latest.

RECEIVED

JUL 11 1966

VILLAGE OF BARRINGTON

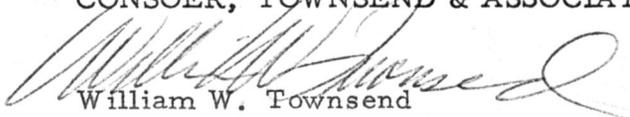

Dear Mr. Gaffigan:

At a meeting of the Village Board held on May 9, 1966, which was attended by our Mr. Hennessy, one of the Trustees questioned the propriety of our performing engineering services for private builders and land developers on projects within the Village of Barrington while at the same time serving as Village Engineers.

The procedure of performing all engineering services in a municipality has in many instances been followed by us at the specific request of the Village officials, on the assumption that engineering responsibilities within a particular municipality could be definitely fixed. In situations such as this, our primary responsibility has, and always will be, the municipality and it has always been our intent to pursue strict compliance with local subdivision regulations. On the other hand, in some instances we have been requested to refrain from the performance of engineering services for private developers while serving as Engineers for the municipality. We do not believe it is necessary to discuss the advantages or disadvantages of functioning in a dual role. Suffice it to say that we have always made it clear to existing and prospective municipal clients that we would be governed by their desires in pursuing and accepting engineering engagements in areas under their jurisdiction. The writer recalls specifically discussing this matter with you shortly after your arrival in Barrington. Our policy in this matter is very clear and because of the circumstances that have developed we feel it is worthy of repetition at this time. If it is the desire of the Village officials of Barrington that we, functioning as Village Engineers, refrain from the performance of engineering for any private interests in the fields of land development or home building, please so advise us and we will be governed accordingly in our future engineering activities in the Village.

We do not feel that this matter is of sufficient importance to require formal action by the Board of Trustees and we will comply with whatever informal action the Board sees fit to take.

Very truly yours,
CONSOER, TOWNSEND & ASSOCIATES

William W. Townsend

RECEIVED

JUL 22 1966

VILLAGE OF BARRINGTON

BARRINGTON - Sewage Treatment

President and Board of Trustees
 Village of Barrington
 Barrington, Illinois

Gentlemen:

In your reply letter of May 4, 1966 to our engineering report letter concerning the operation of the sewage treatment works serving the Village of Barrington, you indicated that the Village engineers had been directed to undertake a sampling and laboratory program to ascertain the efficiency of the existing facilities. To date, we have received no results of this program.

The Illinois Sanitary Water Board has recently placed increased emphasis on the elimination of the bypass of untreated or partially treated sewage to waters of the State. It is to this end that we are now requiring that the treatment plants in Lake County install additional facilities to provide tertiary treatment of the plant effluent. These facilities are required to insure the removal of all floating and settleable solids from the plant effluent. We, therefore, again request that the Village of Barrington proceed with plans to install these required facilities.

Our records indicate that the facilities for the Village of Barrington are designed to treat an average daily flow of 1.0 million gallons and are presently receiving average flows of 0.9 mgd exclusive of the flows bypassed after the primary clarifier.

Since the Sanitary Water Board is charged with the responsibility of preventing the pollution of waters of the State caused, in part, by overloaded treatment facilities, the Village of Barrington should consider this letter as official notification that all requests for permits for sanitary sewer extensions to the municipal system will be critically reviewed, and possibly denied, until the question of plant capacity is resolved.

We request an acknowledgment of receipt of this letter, together with a statement of the intent of the Village of Barrington to comply with the above requirements.

Very truly yours,

ILLINOIS SANITARY WATER BOARD

Ordinance No. _____

An Ordinance granting a zoning amendment

WHEREAS, the First National Bank and Trust Company of Barrington is the owner of property in the Village of Barrington, legally described as follows:

Lots 5, 6, 7 and 8 in Block 6 of Arthur T. McIntosh and Company's Main Street Addition to Barrington, being a Subdivision of the Northeast Quarter of Section 1, Township 42 North, Range 9, East of the Third Principal Meridian, in Cook County, Illinois,

and

WHEREAS, the question of granting the amendment described in Section 2 of this ordinance was referred to the Plan Commission of the village; and

WHEREAS, the said Plan Commission held a public hearing on May 18, 1966, on the question as required by law.

NOW, THEREFORE, BE IT ORDAINED by the President and Board of Trustees of the Village of Barrington, Cook and Lake Counties, Illinois, that:

Section 1. The President and Board of Trustees hereby find that the facts stated in the preamble to this ordinance are correct.

That the above described
Section 2. ~~The recommendation and report of the Plan Commission~~ be adopted, and that the premises described above be re-zoned from their existing classification in R-6 single family district, to R-9A multiple family district.

Re: Proposed Zoning Ordinance

Gentlemen:

As directed at the board meeting of May 23, 1966 Attorney Thomas Matthews has drawn changes in the proposed zoning ordinance that were suggested by Mr. Mollenkamp and the undersigned. The retyped pages have been inserted in the copies in the Village offices, and have been sent to Chairman Hartlaub of the Plan Commission for insertion in his copy.

Administratively, the ordinance is now ready for adoption unless there is a change of any Board member has further changes to suggest.

Respectfully submitted,

Re: Sanitary Sewer House
Connection Repairs

President and Board of Trustees

Gentlemen:

Attached herewith are two proposals for repair of damaged house sanitary sewer stub connections to sewers on Applebee Street and on west Station Street. The situation on west Station Street has been a continuing maintenance problem for about a year, and the Applebee Street location is some three months in age.

Both locations are approximately 17 feet in depth, which is too deep for village equipment and personnel to repair, so contract work is necessary. Due to the age of both these problems, plus the fact that the Applebee Street location was excavated to be repaired and the operating engineers strike ensued which prevented it, I feel prompt action is warranted and ask board confirmation of my action at the June 27th meeting.

RECOMMENDATION: That the village board confirm my action of June 20, 1966 authorizing the firm of Louis Frappier Trenching and Excavating in writing to proceed with the sanitary sewer connection repair on Applebee Street and west Station Street in accordance with their proposal dated June 16, 1966 not to exceed \$1,900.00 on a time and material basis. Charges for this work will be paid from the sewer and water depreciation fund.

Confirm note for Act.

Respectfully submitted,

Patrick J. Gaffigan

PROPOSAL

June 16, 1966

Village of Barrington

19

Barrington, Illinois

Dear Sir:

The undersigned proposes to furnish all materials and perform all labor necessary to complete the following:

Job: Sewer stub risers replaced:

Locations: Applebee Street & Station Street

Both locations about 17' deep.

Concrete breaking and removal, dirt removal, sand fill for backfilling and pavement replacement where necessary, to be furnished by Village.

Both jobs to be done on time and material basis. Both sewer risers to be replaced now, from existing sanitary sewer to existing sewer line into home.

Both jobs not to exceed \$1,900.00.

parts of pulling:

All of the above work to be completed in a substantial and workmanlike manner for the sum of _____

(\$ _____) Dollars.

Payments to be made each _____ as the work progresses to the value of _____ (%)

per cent of all work completed. The entire amount of contract to be paid within _____ days after completion.

Any alteration or deviation from the above specifications involving extra cost of material or labor will only be executed upon written orders for same, and will become an extra charge over the sum mentioned in this contract. All agreements must be made in writing.

The Contractor agrees to carry Workmen's Compensation and Public Liability Insurance, also to pay all Sales Taxes, Old Age Benefit and Unemployment Compensation Taxes upon the material and labor furnished under this contract, as required by the United States Government and the State in which this work is performed.

Respectfully submitted,

Louis Shapiro

Contractor

ACCEPTANCE

You are hereby authorized to furnish all materials and labor required to complete the work mentioned in the above proposal, for which the undersigned agrees to pay the amount mentioned in said proposal, and according to the terms thereof.

Re: Radios for Public Works Dept.

Gentlemen:

As authorized in the 1966-67 budget appropriation, the Public Works Superintendent has solicited two proposals for five mobile units and a base station, all of which are transistorized. Prices of the units have been checked against other suppliers of these units and found to be lower. I have discussed this matter with Superintendent Johanesen, and it is felt that there is no immediate need for the new base station and that the money for that item would be better spent having the contractor salvage as many of the existing five mobile units as possible in view of the fact that they will be needed for the meter truck, the new dump truck, and the need for a unit in the rear of the garage for the mechanic, for a total of eight units in all.

A copy of the two proposals are attached for your information, and based upon them, it is recommended that the method of obtaining these radios be on an installed basis, in accordance with the proposal of Richard B. Etters, dated March 28, 1966, not to exceed \$1000.00 including reconditioning of existing units, which replaces the new base station as shown in the proposal.

Board meeting 6/27/66
Re: Proposed N.W. Area
Storm Sewer

President and Board of Trustees

Gentlemen:

By letter of June 17, 1966 two copies of plans and specifications for the northwest area storm sewer were transmitted to me from Mr. Hodel of Consoer-Townsend. By letter of June 20th, (copy attached) I personally raised thirteen questions about the design and its cost to Mr. Townsend, plus requesting two more copies of plans and specifications. With a project of this cost and magnitude, it is important that as many village officials as possible review these plans--if desired, I will request that every member of the Board of Local Improvements have copies to look at before holding a public hearing thereon.

By letter of June 21, 1966 Attorney Kreger transmitted the original and two copies of the first resolution and the ordinance to be adopted for this project by the Board of Local Improvements. I raised the question to Mr. Kreger by phone that the public benefit portion of \$36,000 of the special assessment to be paid out of MFT funds was not clearly delineated in the ordinance on page 8, nor in the engineer's estimate on page 12.

After checking the language, he agreed with me and will have revised page 12 of the engineer's estimate and revised page 8 of the ordinance sent to me as soon as practicable.

No one wants this project under construction better than me, but I want the President and Board to act in an informed manner when the public hearing is held on this storm sewer project; hence my questions of the engineers and attorneys at this point.

Respectfully submitted,

Re: N. W. Area Storm Sewer
MFT Section 27-SS-CS

Dear Sir:

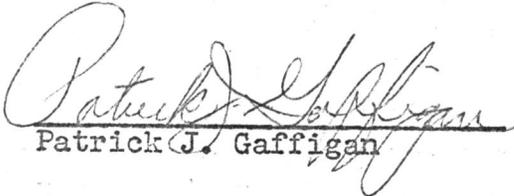

Receipt of two copies of plans and specifications from Mr. Hodel for the proposed northwest area storm sewer on June 17, 1966 is acknowledged. I have the following questions before I recommend that the Board of Local Improvements proceed with a public hearing on this matter.

1. What is the total benefit area, and why is it fractionalized on sheet two, and what do the numbers and letters refer to?
- ✓ 2. If there are going to be cross connections of existing culverts from the south side of Northwest Highway between Exmoor and Cunnor Avenues to the proposed storm sewer on the north side, why isn't some area on the south side shown in the area to benefit? (I understand that this area south of the highway was the subject of benefit versus non-benefit when the sanitary sewer was installed under Special Assessment #71).
3. Why is there a change from your feasibility study showing 36 and 42 inch sizes of the trunk line sewer to 42 and 48 inch in this report?
4. Why is there a design of 312 feet of 42 inch "lowhead pressure" sewer at 45.00/ lin. feet next to the village water reservoir?
5. Why does alignment follow the north line of property west of the reservoir instead of its south line?

6. Is it absolutely necessary to adjust 133 feet of the 8" sanitary sewer on Exmoor Avenue?
7. Why is alignment of the sewer on Bryant Avenue on its east side with cross connections of 8 and 10 inches near the reservoir property, rather than its west side?
8. Why the triangular arrangement of drainage structures in the Bryant and Waverly intersection?
9. Why additional short lengths of pipe and inlets at Exmoor Avenue and Northwest Highway and at the railroad culvert?
10. Why is it necessary to seed .4 acres of parkland near the railroad culvert?
11. Couldn't the route through the park be open ditch instead of enclosed in a 48" drainage pipe in the interests of lower construction costs?
12. Why is the alignment of the pipe on the north side of Roslyn Road with cross connections from the south side, rather than the south side?
13. Why does the village get only two copies of this material and four are sent to the village attorney? Please send two more sets of plans and specifications at your earliest opportunity.

I personally feel that with a project of this cost and magnitude, every possible question should be raised and answered sufficiently by your firm before the village authorizes things to proceed any further, hence this is my contribution to those questions--I am sure other village officials will have some as well.

Sincerely yours,

Patrick J. Gaffigan

BARRINGTON, ILL. 60010

June 27, 1966

Board Meeting of June 27, 1966

President and
Board of Trustees

Re: Seegers-Anderson Resub-
division of Spruce Road

Gentlemen:

Reference is made to the letter, dated June 17, 1966, received on June 21, 1966 from Mr. Hodel of Consoer, Townsend and Associates. The two sets of plans and specifications have been reviewed by Mr. Johanesen and me and the following comments are made:

1. In regard to the letter's request to waive sidewalks, I believe this is in order and so recommend the Village Board to do.
2. To the request to reduce the pavement width from the required 28 feet to the back to back of curb width of Spruce Road intersection return of 24 feet is in line with the procedure followed on Oak Road and Walnut Road when they were extended in Jewel Park, and so recommend that the pavement of Spruce Road be 24 feet wide back to back of curb.
3. The watermain and sewer extensions are according to village code requirements and it is recommended that the Village Manager be authorized to sign the State Sanitary Water Board sewer permit and the watermain extension acknowledgment for return to Consoer, Townsend and Associates.
4. SECTION VII - AGREEMENTS of the Subdivision Ordinance requires the submission of an agreement executed by the owner and the subdivider agreeing to make and install the improvements provided in Section VIII in accordance with the plans and specifications accompanying the final plat. No such agreement is on file with the Village at this time.
5. The plans call for a 10' easement for a drainage swale northerly from between Lots 3 and 4 with no indication of the disposition of this run-off. It is felt that

storm water - Not OK
OK
24

this drainage should be enclosed in a pipe and connect easterly to Magnolia Road,
where there exists a 12" storm sewer.

Respectfully submitted,

Patrick J. Gaffigan

Re: Improvement Plans for
Seegers-Anderson Resubdivision
Barrington
C.T.&A. No. 66-153

Dear Mr. Gaffigan:

We are transmitting herewith, for the Village Board's inspection and approval, two (2) copies each of plans, specifications and estimate of cost for proposed public improvements to serve the four lots of the Seegers-Anderson Subdivision along Spruce Road off Linden Avenue. You will note that we have prepared the plans in strict conformance with the requirements of the Barrington Subdivision Control Ordinance and have shown, among other things, sidewalks to be provided for this resubdivision. As you know, there are no sidewalks in the Jewel Park Subdivision and it is our recommendation that the Village Board waive this particular requirement of the Control Ordinance. OK

We have been asked by our client, Mr. Anderson, to have you consider also the reduction of the proposed pavement widths from the 28-foot width, as required by the Control Ordinance, to the width of the existing paving return at the intersection of Spruce Road and Linden Avenue. OK
24 feet

We are also enclosing, for execution by the proper Village officials, an application form for a permit from the State Sanitary Water Board and an acknowledgment form for water main extensions. Kindly return both forms, upon execution, to our office for further processing.

Very truly yours,
CONSOER, TOWNSEND & ASSOCIATES

Herbert R. Stoffels
In Chambers

Park Ridge, Illinois

June 21, 1966

Mr. Patrick J. Gaffigan, Manager
Village of Barrington
206 South Hough Street
Barrington, Illinois 60010

Dear Mr. Gaffigan:

Thank you for your letter of June 14th. I am pleased that you are satisfied with the scheduling of our Courts in Barrington. I have been in the process of trying to locate some furniture to equip at least the first-floor Courtroom. I believe that it was Mr. Shea of Judge Boyle's office who indicated that some furniture was available. I have been unable to reach him and as soon as he lets me know I will again get in touch with you.

As I informed your Chief Muscarello in our recent, personal conference, it would seem to me that the smaller, first-floor Courtroom will be ample for the time being at least, to take care of local cases originating in Barrington and Barrington Hills. In setting up the Court system in our Third District I have been mindful of the assurances given to the municipalities that their local traffic or ordinance Court would receive due consideration and, if at all possible, would remain in session within the village. On the other hand, misdemeanor cases (which must be prosecuted by a State's Attorney) must be consolidated in a more central location due to the limited number of Assistant State's Attorneys available. The same logic applies to the placement of Jury Courts.

I make these comments in view of the fact that I have heard suggestions that we establish a Jury Branch in Barrington. In my humble opinion, such a proposal is geographically unsound -- and quite unnecessary. Of course, if a Jury Branch were to be established, the first-floor room would be completely inadequate due to the size of a jury box. I have confidence that using the first-floor Courtroom and limiting the cases to traffic and ordinance cases prosecuted by your local village prosecutors will prove to be most workable.

Mr. Patrick J. Gaffigan

June 21, 1966

Page 2

As soon as I hear from Mr. Shea as to the possibility of locating a judge's bench, a clerk's bench and a witness box, I will get in touch with you again.

Thank you for your kind comments.

Very truly yours,

Herbert R. Stoffels

BEN W. HEINEMAN
CHAIRMAN AND PRESIDENT

June 21, 1966

Mr. Patrick J. Gaffigan
Village Manager
Village of Barrington
206 South Hough Street
Barrington, Illinois 60010

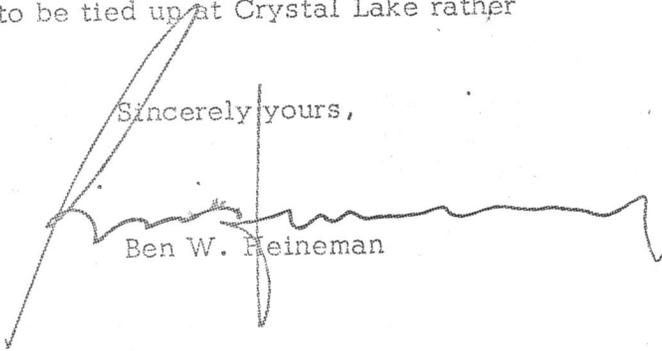

Dear Mr. Gaffigan:

I have your letter of June 16th and I am sorry that some of our equipment has caused a noise problem in your community. I realize that this can be most annoying.

Now that the temperatures are warmer and the diesel locomotives can be shut down without harm to them, this problem seems to be solved for the time being at least. As you are aware, it is impossible for us to shut them down completely in the winter time without serious damage.

The locomotive and caboose of which you complain is a work train, and orders have been issued for this equipment to be tied up at Crystal Lake rather than Barrington.

Sincerely yours,

Ben W. Heineman
