MINUTES OF MEETING OF PRESIDENT & BOARD OF TRUSTEES HELD
MAY 23, 1966, 8.00 P.M.

MEETING CALLED TO ORDER by President John H. D. Blanke. Present at roll call: Paul J. Shultz; J. Frank Wyatt; James F. Hollister, Trustees. Also present: May L. Pinkerman, Village Clerk; Patrick J. Gaffigan, Manager; B. J. Zelsdorf, Treasurer; Byron S. Matthews, Attorney.

PRAYER by Rev. Richard L. Heiss, Asst. Pastor Barrington Methodist Church.

MINUTES 5-9-66 approved on MOTION Trustee Wyatt; 2nd Trustee Shultz. Ayes.

LEAGUE OF WOMEN VOTERS observer, Mrs. Don Brandt of Biltmore, to attend Board Mtgs.

HOUSE # CURB PAINTING: This program by High School group has been dropped a/c weather.

ILL. COMM. ON HUMAN RELATIONS: Meeting at Bismark Hotel, Chgo. June 4th.

UNITED MOTOR COACH CO.: Atty. James Hartman, 33 N. LaSalle St. was granted time to present case for this Company in relation to petition to be heard before the I.C.C. on behalf of the Continental Air Transport Co. that proposes a service from Barrington to O'Hare Airport via Palatine, Arlington Hts. & DesPlaines for \$2. fare and time of 50 minutes, pickups at railroad stations in each town. United Motor Coach Co. is presently franchised by Village to operate regular bus service and desire consideration. He stated that if the Village feels additional service of this type is needed they would be willing to sit down and discuss the matter. MOTION Trustee Wyatt that letter be directed to I.C.C. asking that, in its consideration of the application of Continental Air Transport, Inc. the I.C.C. recognize and consider present operations of the United Motor Coach Co. and its service to the Village of Barrington; but it is the concensus of the Village Board that it does desire to have direct service between Barrington & O'Hare Field; 2nd Trustee Shultz. Roll call-Ayes: Shultz, Wyatt, Hollister, Blanke.

FINES: Treasurer Zelsdorf reported money due Village from Stava Estate in amount of \$1285. has been received and Attorney noted the Estate has been closed.

SALES TAX for Feb. 1966 reported gross of \$9291.73; net to be remitted \$8920.06.

BULK PETROLEUM CORP: Zoning Board letter of 5-12-66 read; recommended granting permission to erect only identification sign with a face area of 48 sq.ft. MOTION by Trustee Wyatt to concur in recommendations of Zoning Board of Appeals to grant approval on the sign; 2nd Trustee Hollister. Roll call-Ayes: Shultz, Wyatt, Hollister, Blanke. (President suggested no permit until ordinance passed)

BARRINGTON SWIM CLUB (Park Dist.) Requested permission to sell candy to raise funds for expenses of competitive meets, awards, etc. MOTION Trustee Shultz that permission be granted to the Barrington Swim Club to sell candy May 27 & 28th; 2nd Trustee Wyatt. Ayes.

ECONOMIC DEV. CONF. held in Peoria, May 12th; copies of transcripts to be distributed later.

CHICAGO AERIAL IND. INC.: Declaration of Restrictions read. MOTION Trustee Shultz that the Declaration of Restrictions as applied to parcels A & B, as recited in the document, be approved; 2nd Trustee Wyatt. Roll call-Ayes: Shultz, Wyatt, Hollister, ORDINANCE: MOTION Trustee Shultz that ordinance for Chicago Aerial Ind. (Blanke. Inc. rezoning, as applied to lot 17 he approved as set forth.

2nd Trustee Hollister. Manager referred to Page 2 - 4th item (b) raising question on time for dedication of roads, as did Trustee Wyatt. Attorney stated they could be accepted when Village so requests, (this is not binding as to time and Village is not obligated to accept. Manager desired this be spelled out. After discussion it was decided to add, at the end of (b) near top of Page 3: "The Village is not obligated to accept this dedication at any time." MOTION so amended and seconded. Roll call-Ayes: Shultz, Wyatt, Hollister, Blanke.. Village Manager Gaffigan complimented President, Trustees, Attorney and people of Chicago Aerial for all the work that has gone into this matter. Mrs Hoeck of Chicago Aerial thanked everyone connected with the Village. (Ord. #922).

CONTINENTAL AIR TRANSPORT:(cont'd) copies of President's letter to ICC on behalf of plan offered were distributed; Trustee Wyatt stated his point was that another letter be sent to ICC on behalf of United Motor Coach Co. which will be done.

MAYOR'S CONF. IN TOLEDO: ^{Cleveland} President's report to be available next meeting.

ANNEXATION:(BAKER'S LAKE AREA) President Blanke reported he had met with Mr. Janura. Gen. Supt. Cook Cty. Forest Pres. Dist. and 2 of his aides May 15th, apprising them of the recent McArthur annexation and contemplated annexation of a strip of lake owned by the J. Younghusband family. Of a 100A tract the Forest Preserve Dis. has plans underway to acquire the west 52A. The east 48A will be left as is for future development; there is a problem of access to the 48A.. It was promised that an easement would be given for road purposes, also an easement for utilities and it was indicated they favor Village annexation of piece of lake now being considered. Letter from Mr. Janura of 5-18-66 was duplicated for Trustees. It was stated the District expects 50% Federal aid and area will be developed as a wild life refuge only. Further stated they will cooperate with Barrington Park Dist. Manager agreed it a good idea to leave some property for future development.

EASTERN AVE. REZONING LOTS 5,6,7,8: Adjourned hearing held 5-18-66 on request of 1st National Bank & Trust Co. Plan Comm. letter of 5-21-66 read; recommended granting of request & suggested builder give consideration to reducing center building from 4 to 3 units in order to provide greater mobility within area and minimize snow problems. MOTION Trustee Wyatt to defer action until next meeting. (Trustee Shultz suggested builder be apprised of this recommendation - Atty.Canby present.) 2nd Trustee Hollister. Roll call-Ayes: Shultz, Wyatt, Hollister, Blanke.

SPRUCE RD. PROPOSED RESUB. (Jewel Park): President noted matter was referred to Plan Commission for study; their letter of 5-21-66 read, recommending approval of proposed plat. Jewel Tea Co. letter approving resub of property with vacation of portion of Spruce St. read. President noted Plan Commission found entire layout acceptable but there is question about outlot A - 33' ^{wide} ~~wide~~ Lake Zurich Rd. to Spruce Rd. According to records it seems this never was recorded as a future roadway - President. Portion of this lot A will be included in new resub which would leave a portion of Lot A as a dead lot; Commission is concerned about this. Letter is expected from Jewel Tea Co. on this 33' piece. John White, Atty. 12 N. Stratford, Ar. Hts. explained Lot A in original plat for Jewel Park 1929 and considerable discussion reportedly had by Plan Commission; some streets in N. Jewel Park have been developed with cul-du-sacs - Magnolia still open. MOTION Trustee Wyatt that Village Board concur in recommendation of Plan Commission on proposed plat with respect to resub of certain lots in area of Spruce Rd, Jewel Park, requested on behalf of Paul D. & Joan K. Anderson. 2nd Trustee Shultz. Roll call-Ayes: Shultz, Wyatt, Hollister, Blanke.

BAUER VARIATION: (S.Hough St.) Recently Zoning Board recommended and Village Board concurred in denying request for variation in lot size requirements. Tonight Atty. Harry D. Strouse for Mr. Bauer asked for reconsideration of matter, noting lot now 132 sq.ft. short of complying with requirements. Manipulation of original lot which brought about present problem discussed. Trustee Wyatt favored seeing this matter go all the way thru court if necessary, that it is a well known matter of how lot has been divided. Attorney Matthews stated that past history of this has created a bad taste but Village could have a problem if we go to court due to small amount of footage involved; it was stated that should Village require additional legal aid on this same should be obtained. President stated he also did not approve of method used by Mr. Bauer and reminded Board of outcome of case of Village vs American Oil Co. Trustee Wyatt felt this should be decided by Court if necessary and our Attorney will defend Village to fullest extent - Village has contended with a lot on this matter.

PARK LANE CARPORT ORDINANCE: MOTION Trustee Shultz to table until next meeting; 2nd Trustee Hollister. Roll call-Ayes:Shultz,Wyatt,Hollister,Blanke.

NORTHWEST MUN. CONF. May 25, 8 P.M. Ar. Hts. Mun. Bldg. President stated he has invited this group to meet here at Public Safety Bldg. June 22nd and that Police & Fire Chiefs and Civil Defense Dir. will brief on their new facilities.

BILLS: Several items discussed including bills from Attorney - title searches have been made on property under condemnation and one is in court at present. MOTION Trustee Wyatt that Bills be paid from funds indicated; 2nd Trustee Hollister. Roll call-Ayes: Shultz,Wyatt,Hollister,Blanke.

MANAGER'S REPORTS: Mr. Millin verbally reported on few remaining items to be finished &/or checked out on Public Safety Bldg. Short discussion on same and it was decided that when Manager and he give word the Board will be ready to consider a final acceptance. Since console not to be installed until June 16th it was decided to leave Open House date open until everything installed. Inspection will be made by Board Wednesday, June 1st at 7.30 P.M. PLAQUE: received and reviewed & to be installed by Gen. Contractor Bullerman. Identification sign for building discussed - Mr. Millin to submit suggestions.

PUBLIC LIBRARY ANNUAL REPORT received, also Manager received letter from Mr. Ard.

GROFF ESTATE DEED OF DEDICATION for E. Main St. property expected to be in 4 to 8 wks.

STOP SIGN ORDINANCE - E. Main St. - N. and S. Valley Rd. read & Manager recommended adoption. MOTION Trustee Wyatt to concur in recommendation; 2nd Trustee Shultz. Roll call - Ayes: Shultz, Wyatt, Hollister, Blanke. (#923).

SQUADCAR PURCHASE - 1966: Chief Muscarello recommended purchase from Grant Motors, Inc. of Plymouth Fury for cash difference of \$1318. Discussion had on 2 cars offered by them. MOTION Trustee Wyatt to accept bid from Grant Motors, Inc. for 1 Plymouth Fury in amount of \$1318 cash plus tradein; 2nd Trustee Hollister. Roll call-Ayes: Shultz, Wyatt, Hollister, Blanke.

REVISED ZONING ORDINANCE: Letter of 5-19-66 contained suggestions of Manager and Building Comm. which Manager recommended be considered, feeling perhaps these should be in Village Code. MOTION Trustee Shultz that suggestions outlined in letter of 5-19-66 from Village Manager and Building Comm. as may apply to zoning ordinance or any other particular ordinance on the subject be referred to Village Attorney

for recommendations; 2nd Trustee Wyatt. Ayes.

ILLINOIS DIVISION OF HIGHWAYS: Letter from Fred C. Mason, Elgin office, dated 5-16-66 briefed.

SQUADCARS: Trustee Shultz suggested power steering be considered as a safety feature for car now being purchased and that cost of adding same to car to be kept be obtained. Chief Muscarello stated it would cost \$70. for new Plymouth - \$50. of which could be retrieved on tradein value. Pros and cons of safety feature value discussed & it was suggested this be checked into for next meeting; Manager did not feel he could recommend this at this time. Further discussion deferred until next meeting.

MEETING ADJOURNED on MOTION by Trustee Shultz, 2nd Trustee Hollister. Ayes. 10.20 PM.

Respectfully submitted,

May L. Pinkerman

Mr. Martin H. Schreiber
Mayor of Village of Barrington
Barrington, Illinois

Last Sunday, Martin, I saw a sign on the Harvey Weiss and Associates property north of Jewel advertising its sale. More recently I heard that this land has been sold to the Elm Construction Company.

If the above is true you might be interested in knowing that for the protection of the residents in that area of town, we negotiated an agreement with Mr. Weiss and his associates setting minimum limits on the lot sizes for that area.

Within the 400 feet which is north of Jewel Park the limit is a minimum of 15,000 square feet per lot and north of that line the limitation is 12,000 square feet per lot. In both cases, such averages exclude land set aside for streets, alleys, school, park or other non-residential purposes.

We believe this restriction will help a little bit in making this area an attractive residential section, something for which you have been working for for a long time.

Kindest personal regards.

INFORMATIONAL

June 16, 1966

Mr. C. J. Fitzpatrick, President
Chicago and North Western Railway
1400 West Madison Street
Chicago, Illinois

Dear Sir:

On Sunday and Monday, June 12th and 13th, I received complaints at my home and my office about your diesel equipment running through the nighttime hours on the Wool Street siding. Calls were also received by Village Board members and our Police Department. As I understand it, the regular diesels used for commuter service are shut off as you formerly authorized, but now there is another engine with a caboose using the siding for about the past ten days and it runs nonstop through the night hours. We would urge that if the engine remains there to have it shut off, and if it cannot be done, request that it be stationed elsewhere.

Also, again I have received a complaint from a Village trustee that your 6:32 PM train that terminates here was sitting just east of the platform crosswalk on Friday, June 3rd for an extended time, and the crossing gates at Main and Cooks Streets remained down until the train moved back easterly to the Wool Street siding.

I myself witnessed the aforementioned engine and caboose sitting near the C.&N.W. crossing with the E.J.&E. at 9:00 AM one morning recently; the gates at Hough Street (Rte. 59) were down for what I would estimate to be ten minutes. The traffic backed up north on Rte. 59 to the E.J.&E. tracks and two blocks south of Main Street on Rte. 59, then traffic began going around the crossing gates since drivers could see no trains on the right-of-way. Apparently the engine was conducting switching operations, I don't really know, but why should the crossing gates on Rte. 59 remain down when the engine was that far up the track west from the crossing?

Your usual prompt courteous attention and reply is appreciated. Thank you.

Sincerely yours,

Patrick J. Gaffigan

INFORMATIONAL

June 14, 1966

The Honorable Herbert R. Stoffels
Judge of the Circuit Court
3rd District, Cook County
505 Park Place
Park Ridge, Illinois

Dear Sir:

My Police Chief tells me that the Circuit Court under your jurisdiction will begin, in the July session, to use the new facilities provided therefor on the first floor of the Public Safety Building, 121 West Station Street. I further understand that court will be held on Friday and Saturday which is of mutual convenience to the Circuit Court and to the Village of Barrington, which we appreciate.

In previous discussion with some of your Circuit Court colleagues, we heard rumors that furniture could be made available that had been formerly used in other county courtroom facilities. Could you attest to the veracity of this, or is it just a rumor? If such furniture is available, where can it be seen or whom should we contact?

From Chief Muscarello's comments, it is apparent that his working relationship with you has been one of cooperation and understanding. I speak for the Village Board when I say I trust that it will continue in that vein, and that we will hear from you with your thoughts in this situation. Thank you.

Sincerely yours,

Patrick J. Gaffigan
Village Manager

Board of Trustees

Re: Special Assessment #74
Reduction Order

Gentlemen:

By letter of June 3, 1966 Attorney Byron Matthews enclosed a copy of a reduction order for Special Assessment #74, approved in Cook County Circuit Court, for Lots 11 through 20 inclusive on Harriet Lane. A phone call to Attorney Kreger on June 8th verifies that now all objections are complete and the assessment roll is confirmed. This reduction settlement was felt reasonable by our attorneys and the objectors at \$90.00 per lot and, of course, the bid price for this project was some \$7400.00 below the construction estimate of the engineers which indicates a probable reduction order for the entire district as the end result.

Respectfully submitted,

Patrick J. Gaffigan
Village Manager

Dear Mr. Gaffigan:

I have your inquiry in connection with the Library Tax rate for Barrington.

The annual tax bills are prepared by the County Collector, and it is not his practice to show the Library Tax as a separate rate. There is no way to force the County Officials to show the Library Tax under a separate rate.

As for the question of whether there will be a \$.12 rate or a lower rate, for the Library Tax, the Library Tax, like other Village taxes, is levied in a dollar amount. As you know, an increase in assessed valuation would result in a lower rate to raise the same amount of money. As suggested in your letter, a levy of \$38,200.00, will not result in a \$.12 rate, assuming that the assessed valuation will go up somewhat.

Cordially yours,

Byron

Hart Road

Mr. Joseph P. Welch
19 E. Grandview Drive
Barrington, Illinois

Dear Mr. Welch:

It is my understanding that various citizens in the Town of Cuba are concerned with the survey which is presently being made by this department of Hart Road and its projection northerly from U.S. Route 14. The improvement of Hart Road is on our long range program. We plan to place that portion from the Cook County line to U.S. 14 on the 1967 construction program. A tentative alignment is being surveyed from U.S. Route 14 northerly to a connection with State Route 22 in order to select a point of crossing with both the Chicago and Northwestern Railroad and U.S. 14. The improvement of the extension of Hart Road northerly from U.S. 14 will depend upon the needs as well as the desires of the residents of the Town of Cuba.

A request has been received from Mr. John H. D. Blanke, Mayor of the Village of Barrington, asking that consideration be given by the county to the development of a by-pass to the west of the Village permitting students and residents direct access to the industries and schools on County Line Road. The present congestion through the business area of Barrington on Route 59-63 makes it highly desirable that an additional routing be available for local people.

Our improvement plans will provide for an urban type of pavement for that portion of Hart Road south of U.S. 14 with a bituminous surfacing. When and if Hart Road is improved northerly to Route 22, such improvement will consist of a 24 foot bituminous pavement very similar to that on Kelsey Road or Cuba Road. There will be no numbering on Hart Road and it will therefore serve only local people.

Sincerely yours,

Melvin E. Amstutz

Mr. Joseph Welch, Supervisor
Cuba Township
Northwest Highway
Barrington, Illinois

Dear Joe:

John Cutler and I met several Trustees of the Village of Barrington this morning and discussed the north-south traffic problems in which the Village has a considerable interest for future improvements.

We asked the Village to investigate the Hart Road program outlined in Mr. Amstutz's letter of several weeks ago, since the question of need and alternatives, including the Route 59 by-pass matter, have a close relationship to Barrington development.

Best wishes.

Cordially,

Nelson Forrest

cc: John Cutler

bcc: C. K. Hunter
Paul Shultz

President & Board of Trustees
Dear Mr. Myatt

PERSONAL & CONFIDENTIAL

I have always felt that reducing thoughts to writing indicates a man's firm belief and willingness to state his position, so here goes:

1. I am disappointed in the four member board review letter of my work as read by trustee Voss in february, 1966. The critical comments prepared by trustee Shultz were certainly more appropriate since they applied to my job, not my personal appearance nor where I live. Concerning my residence, I kept you all fully aware of my difficulties in over two months of looking in this village and we discussed the matter in January, 1965 at which time you considerably decided to allow me to locate outside the village limits--now you raise the issue again which give me the feeling of something hanging over my head.
2. I have received phone calls from known associates or friends of Pres. Blanke as late as 1:00AM not only to complain about village services, but to ask why the manager doesn't live in town. Trustees Shultz and Voss also occasionally call me at home on subjects not of an emergency nature, which could be discussed anytime by phone or in person at my office. ✓
3. During the April, 1965 budget review session, I turned down a 8% salary increase, for which I was rewarded a 6% increase in December, 1965 which is not what I would call equitable, would you? *Employer*
4. With the exception of the April, 1965 budget session, Pres. Blanke has yet to attend informal meetings that I request of the board, nor has he seen fit to comment on my work performance since coming here. His non-attendance (as well as that of trustees Capulli & McCaw) at the 1966-67 budget session was particularly galling to me.
5. Communications being opened and read from advisory boards & commissions and acted on immediately by the board of trustees certainly

doesn't give the impression that the village board studies the recommendation before acting thereupon.

5. Speaking of reading, why doesn't the village ^{clerk} clerk read communications to the board, and if ordinances are required to be read, why doesn't the village attorney read them?

6. Trustee Capulli rightfully complained at the April 25th meeting about pres. Blanke bringing many matters to the board that were not on the agenda. The reason given was that the pres. had been out of town thursday to saturday prior to the meeting--in cases like this, apparently the manager or clerk could not be trusted to open his mail to see what may need board meeting consideration. Why should the village president prepare "a list of topics" when there is a full time village clerk or village manager to prepare an agenda in accordance with the village code provisions?

7. Trustee Shultz's publicized interference in the matter of relocating the village hall siren, ^{and} power steering for police cars have made me the subject of ridicule among village employees, who are supposed to be under my supervision, aren't they? *consulted fact.*

8. The Board timidity in the face of the fire dept. actions and comments leaves me with no authority (real or implied) to control that function. The present Chief therefore feels he is directly under board supervision, not the village manager. In just one example, I have told him to have the fire equipment use the village gas pump since August, 1965; to this date it has never been done.

9. Quite often, the village engineers and/or attorney send material in the mail received on the Saturday before, or Monday of, a board meeting. They both know that I send the agenda material to the board Friday afternoon--if I had this material on Friday morning at

Attorney
Resolutive

the latest, distribution could be made for adequate review by the Board, rather than in a hurried manner as you sometimes must do at a board meeting. Also, in the case of Etters Glendale addition, who are the village engineers, since Consoer-Townsend is employed by the developer? I am also not sure who the village attorney is, since many times I get phone calls from Thomas Matthews on subjects that I have discussed or given my board reports on to Byron Matthews.

10. Instead of appropriating \$10,000 for a study by an outside planning firm, why don't you take my suggestion of expanding the membership of the village plan commission to include school authorities, library, park district, etc., who in turn would make a high school district area plan, with a village of Barrington orientation, not that of the countryside.

I think you would agree that these "ten points" show that my outlook and perspective of my job have changed from professional objective action to one of personal subjective criticism. Believe me when I say that these feelings come from the bottom of my heart, and I tell them to you frankly, since that's the way it should be. For this reason, I truly feel, that unless the board gives serious consideration and acts accordingly on them, it is obvious that in our mutual best interests that I should seek employment elsewhere. If ALL OF THE BOARD wishes to informally discuss this letter or any other aspect of my job, I am ready, willing and able to do so. If I do not hear from you privately as to notice of such discussion, I will submit my resignation to take effect at a hoped-for mutually convenient time. This letter is typed by me for your confidential consideration, not to be discussed with any other person.

Rough-drafted May 24, 1966
Typed June 2, 1966

Respectfully submitted,

Patrick J. Gaffigan

Mr. John H. D. Blanke
Box 88
Barrington, Illinois

Dear Mr. Blanke:

I have your inquiry about the contract for Special Assessment
74.

1. Addendum No. 1, merely corrects the title to one section
of the contract. This creates no legal problem.

2. The time for completion runs from the date that the
contractor is officially notified that he has the award. This
can be done after you sign the contract. You could put the date
of signing under your signature, in view of the fact that the date
of signing will not be the same as the date of approval by the
Board of Local Improvements. Before you sign, please take care
of the items mentioned below.

3. The Certificate of Incorporation as you point out,
shows July 20, 1966 on one copy and July 20, 1961 on the other
three. The contractor should correct this and initial the
correction in the margin. Obviously, this could not be a future
date, so the 1961 date must be the correct one.

4. The dates on Page 100-1 and Page 100-2 of Section
4-B, apparently have been corrected, in ink. The corrected
date is the right one.

5. You pointed out that the Power of Attorney and the
Corporate Bond, contained conflicting dates of May 23, 1962,
and May 23, 1966. The 1966 date is correct. The contractor
should take this to the Surety Company to be corrected and
initialed.

We are returning to you under separate cover the four copies of
the contract referred to.

Cordially yours,

Byron S. Matthews

MINUTES OF MEETING OF PRESIDENT & BOARD OF LOCAL IMPROVEMENTS

MAY 23, 1966, 10.25 P.M.

MEETING CALLED TO ORDER by President John H. D. Blanke. Present at roll call: Trustees Paul J. Shultz, J. Frank Wyatt, James F. Hollister. Also present: May L. Pinkerman, Secretary; Patrick J. Gaffigan, Manager; B. J. Zelsdorf, Treasurer; Byron S. Matthews, Attorney.

MINUTES of 5-9-66 approved on MOTION Trustee Wyatt; 2nd Trustee Hollister. Ayes.

SPECIAL ASSESSMENT #74 - CONTRACT AWARD: Village Manager Gaffigan briefed on tabulations of bids received from Village Engineers. Their estimate of cost was \$52,640.75. Engineers recommended awarding bid to Zimmerman & Kahler, Inc. of Huntley, Ill. An amount of \$45,235.30, under S/A #74. Bid checks to all but 3 low bidders were returned.

Attorney stated that since all but 8 parcels have been approved Village can now award bid. Easements are required from George to Walton Sts; Torrens office has one item yet to be covered by property owner involved, which step must be taken. Manager recommended awarding contract to Zimmerman & Kahler, Inc.

MOTION Trustee Wyatt that bid be awarded to Zimmerman & Kahler, Inc. Huntley, Ill. in accordance with recommendation of Village Engineers, dated 5-13-66, in amount of \$45,235.30 under special assessment #74; 2nd Trustee Shultz. Roll call-Ayes: Shultz, Wyatt, Hollister, Blanke.

NORTHWEST AREA STORM SEWER PROJECT: President urged that Engineers send proposed plans to each Board Member and President before any public hearing date is set.

MOTION TO ADJOURN MEETING by Trustee Shultz; 2nd Trustee Wyatt. Ayes.

Respectfully submitted,

May L. Pinkerman

Re.: Case 52302
Continental Air Transport 5/3;/66

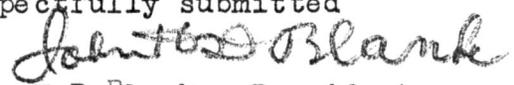

Dear Sirs:

Please be informed of the following action taken by the Board of Trustees of the Village of Barrington in regular meeting May 23, 1966, at which United Motor Coach Co. asked to be heard:

"United Motor Coach Co: Attorney James Hartman, 33 N. LaSalle Street, Chicago, asked the Village Board for consideration such as given the Continental Air Transport Co. recently in their request to the board to be heard before the I.C.C. for permit to run service between Barrington and O'Hare via described route. He explained service being given Barrington presently under franchise stating they would be willing to discuss further service if demand necessary or desirable. After discussion with Trustees, Motion was made by Trustee Wyatt that letter be directed to the I.C.C. that in their consideration of the application of Continental Air Transport, Inc. the I.C.C. be requested to recognize and consider present operations of the United Motor Coach Co. and its service to the Village of Barrington; but it is the consensus of the Village Board that it does desire to have direct service between Barrington and O'Hare. Field. Second of Motion by Trustee Shultz. Ayes by Shultz, Wyatt, Hollister, Blanke."

The Village President desires to emphasize that United Motor Coach Co. presently has three trips to O'Hare, that a transfer from Barrington to Des Plaines bus to Des Plaines to O'Hare bus is necessary at Des Plaines; and he understands too that United Bus discharges at edge of airfield, not at plane departure point. Fast, more frequent, and direct service is desired direct to boarding area at O'Hare from franchise holder.

Respectfully submitted

Dear Mr. Wyatt:

We of Chicago Aerial Industries, Incorporated thank you personally, as a member of the Board of Trustees, for the time and effort expended in making possible the final approval of our controversial rezoning matter.

We appreciate and respect your civic responsibility to the Village of Barrington and the surrounding area. Sincerely, we will do our part to compliment the decisions made by the Zoning Board of Appeals, the Plan Commission and the President and Board of Trustees.

Hopefully, we trust your future rezoning problems will be less burdensome.

Respectfully yours,

CHICAGO AERIAL IND., INC.

INFORMATIONAL

Mr. Peter Vanderveld, President
Barrington Trucking Company
541 North Hough Street
Barrington, Illinois 60010

Dear Sir:

I believe it is safe to say from copies of the attached correspondence that the service rendered by your firm is the source of many and varied complaints. A complaint was registered by one of the Village Board members at the May 9th meeting and another board member felt a meeting with you and/or representatives was indicated, with the Board membership. I advised the Board that I saw no purpose in such a meeting since the Village Manager is charged with responsibility for contracts and agreements. I further advised that I would ask for a conference with appropriate responsible members of your firm and have a report and recommendation for the Village Board at a future meeting.

Before such a conference is held, I want it clearly understood that we would not ask for it unless it was felt urgent and that we expect action on the part of your firm to alleviate the situation. I know of no more emotional issue, on the part of taxpaying citizens, than refuse collection practices, and I know I speak for the Village Board when I say we want this matter solved to the mutual interest of all parties concerned.

Your immediate attention and reply is appreciated. Thank you.

Sincerely yours,

Patrick J. Gaffigan

INTEROFFICE COMMUNICATION

May 9, 1966.

INFORMATIONAL

To:
Patrick J. Gaffigan, Village Manager.

From:
May L. Pinkerman, Village Clerk

SUBJECT: SERVICES TO 1 & 2 FAMILY HOMES by BARRINGTON TRUCKING CO.

Judging by the great and increasing number of complaints being received by the Refuse Dept. Village Hall, the image of the Village with customers, who are billed and pay to Village, would appear to be getting damaged. These complaints come by phone and sometimes in person from customers who are disgruntled at the service.

The contract calls for 2-20 gal. cans with lids at back doors to be picked up twice a week or once a month depending on type of service ordered, plus a container of ashes if placed at the curb. There are other stipulations in the contract but the foregoing was what was used as a generalization of the service. Inasmuch as there seem to now be a minimum of homes having ashes to place at the curb it is questioned why a container of other matter could not be picked up in lieu.

Formerly the drivers always picked up a bundle of newspapers or magazines at the curb and emptied the containers of ??? placed at the curbs. Some months ago the present drivers came into the V. H. office and inquired about the contract specifications stating that their routes are now so long and the amounts for collection at the curbs so large, in all sections of the village, they could not get thru on time.

When the routes and services were organized in 1959 under the contract, as of 9-1-59, we had 1295 customers. As of 5-1-66 we had 1626 customers. We, at the V. Hall, do not know whether the Trucking Co. is attempting to cover the Village with the same number of truck or trucks and personnel as they did in 1959 when they would pick up the extra things at the curb and respectfully raise this question.

The Trucking Co. is paid by the Village (whether we have collected from customers or not) currently at the rate of \$3.16 per month for 2-a-W and \$1.16 per month for 1-a-M service. It is felt that since each service is paid for the drivers should service the property involved without cutting thru neighbors yards, bushes, etc. and on many known occasions spilling the garbage of others in an adjoining yard.

It has become evident from all the complaints received the drivers are not picking up items placed at the curb as they formerly did, generally speaking. However, we have been advised by customers that they have observed pickups being made at the neighbors from time to time and we were further advised that if customers call the Trucking Co. that may be accomplished. We at the V. Hall do not know whether those so serviced are paying for the extra pick up or not and it would be much appreciated if a clarification can be spelled out, to pass along to our perturbed citizens (who have experienced a change in service by the Trucking Co.) that we can state in good faith as correct, just what may be expected to be picked up for fees paid. A written statement or booklet or other form of information on this will be much appreciated. Thank you.

Mrs. Jahnholz has a collection of complaints and the accumulated information on this problem.

Re: Public Library Appropriation
and Tax Levy for 1967-68.

Gentlemen:

As discussed at the board meeting of May 23, 1966 attached is the 1965-66 written annual report of Mr. Harold Ard, Librarian which you can attach to the fiscal report for fiscal 1965-66 already given to you. The budget request for the Public Library was included in my budget to you for the 1966-67 fiscal year appropriation and an amount of \$32,670.00 was recommended for approval since that was the amount approved for fiscal 1966-67 in the tax levy ordinance of September, 1965. The Library requests an increase in their operating budget to \$38,200.00 for fiscal 1967-68 and a 12¢ rate which must be decided by you within the tax levy ordinance of September, 1966. So that you can be informed as to the tax rate effect of this request, I have asked the Village Treasurer to develop the following figures:

Actual 1965 Assessed Valuation	\$34,800,000.00
Estimated 1966 Assessed Valuation	35,872,000.00

1. If the Sept. 1966 levy should remain at \$32,670. the rate produced on \$35,872,000. would be 9.1¢ per hundred.
2. If the Sept. 1966 levy should go to \$38,200. the rate produced on \$35,872,000. would be 10.6¢ per hundred or 1.5¢ more.
3. A 12¢ levy on \$35,872,000. would produce revenue of \$43,046.00.

This matter of the tax levy for library purposes seems to be one of controversy and lack of communication between the two boards as far as I'm concerned. Having the Library Board responsible for administration and the Village Board responsible for the tax levy is an untenable situation at best. By giving

a copy of this report to Attorney Matthews, he is requested to give his written opinion as to the possibility of the library tax rate being shown as a separate item on the annual tax bills received by Barrington residents. Any other advisory comments he may care to make are welcome, of course.

Respectfully submitted,

Patrick J. Gaffigan
Village Manager

cc: Mr. B. J. Zelsdorf
cc: Mr. Byron S. Matthews

5-24-66 Copy to Board (7)

BARRINGTON PUBLIC LIBRARY

INFORMATIONAL

LIBRARIAN'S REPORT

The year 1965-1966 can be characterized as a year of change--in terms of staff, location of materials, weeding of the collection, and additional patron services. The borrowers file has been kept active by promptly withdrawing patrons deceased or who move away. Residents of the village and countryside who do not renew are kept on inactive file for one year following their expiration.

In the realm of circulation the grand total of all items circulated was 73,506, with a net gain of 734 over the previous fiscal year. Every area of circulation has shown a gain over last year with the exception of the juvenile department which is down 2700. Many factors undoubtedly contribute to this loss including the location of new Middle School, adequate libraries in the public schools, and lack of study space in our building. A further breakdown of figures is attached.

During the year there has been a strengthening of the non-fiction collection. New materials have been added to replace the obsolete in science, psychology, history, and mathematics. The reference collection has been strengthened by two new sets of encyclopedias, Comptons and Americana, along with more than twenty other volumes to aid the staff in answering routine reference questions. All 78 rpm records have been discarded and long playing records in the collection have been completely catalogued. The play and short story sections have been re-catalogued with appropriate subjects added to the card catalog.

In the area of public relations we send monthly reports to the village board, communicate with the village manager via telephone, and send weekly newspaper articles to the two local papers. Both newspapers gave the library excellent coverage during the recent National Library Week emphasis. Each LACONI meeting has been attended and three trustees plus the librarian attended the Trustee Dinner at the Elmhurst Country Club. The exhibits in the glass display case have been greatly enjoyed by our patrons. The bulletin boards under the supervision of Mrs. de Ycaza have been interesting and current.

Continuing our philosophy of service, a weekly trip to the Barrington Rest Home has been utilized by the residents there with from 20-30 books being selected each week. There has been an increased use of inter-library loan, not only from the State Library but from Palatine, Arlington Heights, Schaumburg, Roselle, and the University of Kansas as well.

A story hour for pre-schoolers was well attended during the spring session. The largest number in

attendance was 39 with an average of around 25. Mothers used the upstairs library for book selection and reading during the story hour period. The summer reading program is currently receiving widespread attention and comment. It is expected that a record number of youngsters will be participating in the summer program of the library this year.

During the year Marjorie Wiley, Peter Moolenaar, and Harold Ard joined the staff along with pages Nancy Wileman, Jean Ruge, and Diane Wischer. New members of the Board of Trustees are Mr. William Schneider and Mrs. Irwin Smith.

Improvements to the building include exterior painting and repairs to the book elevator. Steel shelving for the Young Adult books and a new sixty drawer card catalog have been purchased. Relocation of the easy book section, the mending table, and Young Adult section have made operation more efficient and further utilization of space possible.

The following sections have been completely inventoried: juvenile fiction, Young Adult fiction, Young Adult non-fiction, reference, westerns, science-fiction, and history. Further inventory is planned for the coming year.

The local Garden Clubs have provided decorations for the building throughout the year with all clubs combining for the elaborate Christmas decorations. Gift books include donations from individuals, the Book Review Club, Barrington Natural History Society, American Legion, Garden Clubs, and the Flood Memorial. A capital improvement fund of \$1,000 has been established as a Schwemm Memorial.

Our library is a participant in the North Suburban Library System. Mrs. Robert Campbell is the vice-president of the twelve member system board which is currently formulating plans for the system and a state proposal for funds. Our library is no longer a member of the Oak Park Book Processing Center.

As we have reflected to look upon the past year with its accomplishments the future presents an even greater challenge and opportunity for library service in the Barrington community. A building expansion program, additional patron services, a renovation of the pamphlet-picture collection, along with a continuous strengthening of the entire library collection will make our library a strong stabilizing storehouse of knowledge for all of the citizens of the community.

Respectfully submitted,

Harold J. Ard
Librarian

Re: Fox Point Subdivision -
Sanitary Trunk Sewer

Gentlemen:

The attached letter from Mr. Townsend, dated May 20, 1966, on this subject is self-explanatory. I would like to comment on this letter by its items, as follows:

1. On May 23, 1966 at 4:15 P.M., the Village Public Works personnel received and installed a 24" cylindrical rubber and canvas bag, with securing rings at each end, in the manhole stipulated. Mr. Johanesen worked out this type of bulkhead with Kennedy Development Co. who are paying for it.

2. At this writing, there is no bulkhead installed in said manhole and it is felt that calling this to the attention of Mr. Sale will result in him directing the contractor to so do at once.

3. The pumping operation called for here was initiated on the morning of May 23, 1966, and is working satisfactorily.

4.-5.-6. These items are self-explanatory and have been worked out between Mr. Sale and Consoer, Townsend and Associates.

In view of last night's heavy rain, it is encouraging to report no complaints of flooded basements nor surcharging manholes came from Jewel Park.

The last paragraph of Mr. Townsend's letter about the strike brings up the matter of whether the Village, by letter from the Manager, should write to the Union in the format shown by a copy of a draft attached--prepared by Mr. Townsend. Please call me as to whether you favor or oppose my writing such a letter. I personally think we should do it, but I want the opinion of the Board of Trustees first.

Respectfully submitted,

Re: Fox Point Subdivision

Dear Mr. Gaffigan:

Confirming the discussions which you had with our Mr. Casey and the writer over the past week, we set forth herein certain measures which we feel should be carried out as such pertain to the uncompleted trunk sewer for the Fox Point Subdivision.

During recent rains it became apparent that the entrance of storm water into the trunk sewer was substantial, and that such entrance may have had a detrimental effect on the Hough Street trunk sewer, which serves the Jewel Park area. As of this writing, it is not possible to determine the location or locations of such entrance. We are reasonably sure, however, based upon tests made some months ago, that the section between Hough Street and Northwest Highway is a "tight" and acceptable job. It is, therefore, our present feeling that storm water is entering the system east of Northwest Highway and that in all probability the deflection in pipe joints, which was the subject of a recent letter which we forwarded to Mr. Sale, is a partial cause.

In order to eliminate a recurrence of storm water entrance into the Barrington sanitary sewer system, we recommend as follows:

1. That a suitable bulkhead be placed in the 24-inch sewer at the easterly line of Northwest Highway. This will divorce any future storm flows from the remainder of the Barrington sanitary sewer system.
2. A temporary masonry bulkhead be installed at the manhole on the 24-inch trunk sewer located at the north end of Beverly Road.
3. That pumping equipment be placed in this manhole and suitable force main be installed from this point southerly to the northern terminus of the Beverly Road sanitary sewer so that sanitary sewage collecting upgrade from this point can be directly transmitted to the existing sanitary sewer system.

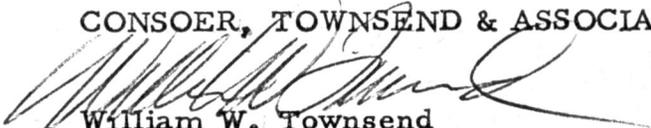

4. In our opinion, the Beverly Road sanitary sewer and the remainder of the Barrington Meadows sanitary sewer system will have sufficient capacity to accept these flows, providing the pumping equipment that is utilized is limited to a maximum capacity of 200 gallons per minute.
5. Upon the installation of the bulkhead referred to in No. 1 above, the temporary masonry bulkhead located in the northwest corner of the Barrington Meadows Subdivision may be removed.
6. Upon completion of the unfinished portion of the 24-inch Fox Point trunk sewer a closed circuit television inspection should be made of the entire line east of Northwest Highway.

It is hoped that the Operating Engineers' strike will be settled in the near future and that the corrective measures previously recommended can be undertaken.

If there are any questions concerning the foregoing, please advise.

Very truly yours,

CONSOER, TOWNSEND & ASSOCIATES

VILLAGE OF BARRINGTON

May 20, 1966

Local 150
Operating Engineers' Union
133 S. Ashland Ave.
Chicago, Illinois

Gentlemen:

Immediately prior to the strike of the Operating Engineers' Union, Local 150, a sanitary trunk sewer was under construction in the Village of Barrington to serve the Fox Point Subdivision being developed by the Kennedy Construction Company. This trunk sewer was being constructed by Peter Ciccone, Inc.

Unfortunately, a section of the sewer was not completed and, as a result, substantial quantities of storm water are entering the Barrington sewer system. In addition, several homes upgrade from this uncompleted section have been occupied and temporary pumping facilities installed so as to provide for the disposal of sanitary sewage from these homes.

The Village of Barrington is desirous of completing the trunk sewer so as to provide permanent sanitary sewage facilities for these new residents. In addition, the Village is greatly concerned because the entrance of storm water into the Barrington sewer system is greatly overloading its sewage treatment facilities.

We respectfully request that consideration be given to your Local to permit the Peter Ciccone Company to complete this work so as to eliminate this health hazard and serious inconvenience to the Village of Barrington.

Very truly yours,

VILLAGE OF BARRINGTON

INFORMATIONAL

The Mayor of Barrington
Barrington, Illinois

Dear Sir:

This morning at the Leland Hotel of our city, I saw a large group of boys, estimated as perhaps seventy-five, said to be from your city, who without an exception, were groomed in excellent taste, and whose manners were impeccable. All acted as if reared in intelligent families, educated in schools of quality, and who lived in a social climate calculated to develop character and citizens with honorable and true ideals.

My whole day has been thrilled by witnessing this fascinating superior group of adolescents. How proud Barrington must be of its rising generation!

I do not know your city, but this magnificent and charming delegation of junior representatives has created in me a fervent desire to see and learn more of the cultural forces responsible for the good manners and superior conduct of its youth element.

May I congratulate you, Mr. Mayor, and your city on the cultural product I witnessed today.

Sincerely,

(Signed) H. T. Morrison, M.D.

BARRINGTON, ILL. 60010

June 6, 1966

INFORMATIONAL

To: Henry M. Johanesen

From: Patrick J. Gaffigan

Now that you are back in the saddle after your conference and vacation, I want your attention directed to the following items:

1. Purchase of the 1957 Metro Van Truck, as a water meter and main repair vehicle, is approved for \$300.00 from the Jewel Tea Co. as of June 6, 1966. I would have preferred waiting until adoption of the appropriation ordinance on June 13, 1966, but since the purchase is on a first come, first served basis, I will take the chance that the Village Board will not hang me from too high a tree-- I feel that we had to move on this extremely good buy.

2. This summer, beginning at once, I want to see the pavement marking program that I know you and your personnel are capable of, now that your painting machine has survived its maiden voyage on Lions Drive. As we discussed, you are to secure a stencil for directional arrows on the pavement, to be initially done on Hough at Main Street. Then, crosswalk painting is to take place there, with your crosswalks expanding from that intersection in all four directions on Hough and on Main.

3. Now that street sign material has been ordered, I want to see them going up as fast as possible on Dundee, Hillside and North Avenues.

4. I have never interfered in the administration of your department, but I do feel that you should designate a man to be in charge of the street signs and marking program, give him a helper, and turn them loose on items 2 and 3 not to be taken off the job unless an emergency such as watermain or sewer repair comes up, until the program is finished.

5. Last and most important, I want to be sure that items 2 and 3 are performed in accordance with the Uniform Code of Traffic Control Devices of the U. S. Bureau of Public Roads so that we will not have to change them when this code is declared in effect throughout the United States, in the next couple of years.

J. WILLIAM BRAITHWAITE
540 SOUTH HOUGH STREET
BARRINGTON, ILLINOIS 60010

June 6, 1966

Mr. Patrick Gaffigan,
Village Manager,
Village of Barrington,
Barrington, Illinois

Dear Pat:

May I call to your attention, and ask you to call to the Board's attention, the extremely hazardous condition of Lions Drive.

When the bicycle lanes were first instituted last year, I felt that they were a step in the right direction to aid safety.

However, after observing the disregard of these lanes by vehicles in the latter part of the summer of 1965 and on several occasions this year, I question whether this attempt at providing a safe place for bicycles is not actually increasing the hazard.

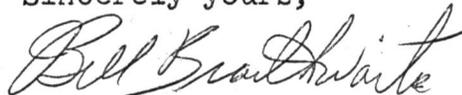

On Sunday afternoon I spent 15 minutes at the west end of Lions Drive observing the cars travelling eastbound. Of the 27 automobiles observed, 14 travelled in the proper lane, 9 travelled all or most of the way in the bicycle lane and 4 used the bicycle lane for part of the distance. Several of the automobiles using the bicycle lanes did so when bikes were present.

Last year my son, relying on the fact that these lanes were for bicycles, was hit by an automobile in the bicycle lane at the east end of the drive. Although he was thrown from his bicycle, he was not injured. Next time, he or some other child may not be as fortunate.

The Chief of Police is deeply concerned with this problem, I know. Is there any support which the Village should be giving to him, financial or otherwise, to satisfactorily meet this urgent safety problem?

With best regards.

Sincerely yours,

J. William Braithwaite

June 1, 1966.

President & Board of Trustees:

Gentlemen:

Again my sincere appreciation of your approval of my attendance at the annual conference held by the International Institute of Municipal Clerks; this year the 20th convened in New York City. As always the time spent at these conferences is most energizing and benefits derived far reaching.

Members attended this year's meeting from 35 States including Hawaii; 21 members came from the Canadian Provinces and one travelled from Tel Aviv, Israel.

A transcript of the proceedings should be received later in the summer.

The site of next year's Conference is Los Angeles, California.

Appreciatively,

May L. Pinkerman
Village Clerk

C to Manager Gaffigan.

President & Board of Trustees

Personal & Confidential

Gentlemen: *Mr. Wyatt:*

Typed June 9, 1966

I wish to thank you individually and collectively for your time on June 6, 1966 to discuss points raised in my letter--which letter was also discussed with Mr. Blanke on this date and I believe the following comments are in order:

1. The matter of agenda preparation was discussed/and certain changes will be made in its format beginning with the June 13th meeting; therefore let's see how it works out, before/directing that the manager prepare it, PLEASE. ^{with Mr. Blanke} ^{the board publicly}
 2. I will instruct the village attorney, engineers (or any other village office/that their reports are to be to me by the Thursday prior to a Monday board meeting for inclusion on the agenda.)
 3. I will instruct the fire chief to have fire equipment use the gas pump.
 4. I will draft a letter for board consideration to the engineers about conflict of interest in their representing developers in the village.
 5. Where I live and how I dress is my own affair.
 6. Unless in an emergency, board members will not call me at home, which I APPRECIATE VERY MUCH.
 7. Mr. Blanke indicated the clerk used to read communications and ordinances and he will see that such a procedure is re-established.
 8. I feel that Mr. Blanke prefers to talk to me individually rather than in a group with the board, so I will handle it that way in the future.
 9. My salary will be reviewed annually in November of each year; not at the time of other employees at appropriation time.
- Last but not least, I do think that it is good to have these informal discussions, since it gives us a mutual feeling of the problems we all face. And, believe me, when I put the salutation GENTLEMEN in writing to you as a board, it isn't just a formality.

Respectfully submitted,

Patrick J. Gaffigan

May 21, 1966.

President and Board of Trustees,
Village of Barrington,
Barrington, Illinois.

Gentlemen:

On Wednesday, May 18, 1966 the Barrington Plan Commission held a deferred public hearing on the petition of the First National Bank and Trust Company of Barrington to rezone the following property from R-6, Single-Family District to R-9A, Multiple Family Dwelling District:

Lots 5, 6, 7 and 8 in Block 6 of Arthur T. McIntoch and Company's Main Street addition to Barrington, being a subdivision of the Northeast Quarter of Section 1, Township 42 North, Range 9, East of the Third Principal Meridian.

After due consideration of all facts presented it is the unanimous recommendation of the Plan Commission that the petition, which requests permission to construct 5 buildings, each containing four dwelling units and each having an enclosed garage, be granted.

The Commission suggests however, that the builder give consideration to reducing the center building from 4 units to 3 units in order to provide greater mobility within the area and minimize snow problems.

Respectfully,

BARRINGTON PLAN COMMISSION

T.C. Kittredge

Re: Appropriation Ordinance
for fiscal 1966-67

Gentlemen:

Under separate cover transmitted herewith is the appropriation ordinance for fiscal 1966-67 which has been reviewed and approved by Village Attorney Thomas A. Matthews as to proper legal form. The content of this appropriation should be highlighted in the following essentials:

In general, this appropriation is based on a more detailed accounting of expenditures as to office or function, i.e., Village Manager, Village Clerk, Village Treasurer, Public Works, Fire Dept., etc. which gives the taxpaying public more knowledge of the costs of village operations.

For the first time, the appropriation provides for the printing of an annual report to the citizens of Barrington, to be based on the fiscal year ending April 30, 1966, which should keep them better informed on the scope of village operations.

This year's appropriation includes the necessary funds to finish equipping the Public Safety Building, and provide for its site development. The need to remodel the Village Hall to provide more record and equipment storage, relocate the offices of the Building Inspector and the Village Manager to the first floor has been recognized in this ordinance.

Under parking lots, money is provided to develop an off-street metered parking lot at the site of the vacated police-fire building on East Station Street and to negotiate a lease arrangement with property adjoining the Village Hall on South Hough Street for an off-street metered parking lot.

An item has also been included in this ordinance which recognizes the need for an area planning study based on the high school district boundaries, under the aegis of the Barrington Area Development Council, Inc.

Respectfully submitted,

Patrick J. Gaffigan
Village Manager

Honorable Mayor and Village Board
Village of Barrington
206 South Hough Street
Barrington, Illinois 60010

Gentlemen:

In accordance with the requirements of Paragraph 4(e) of Ordinance 922, Chicago Aerial Industries has investigated the lighting fixtures located on its parking lot and propose to take the following action:

The lights will be lowered a minimum of nine (9) feet which will bring them down to the same height as the lights at the Uarco plant.

You will recall that in our hearing it was indicated that their lighting was considered quite acceptable.

In addition, we propose to install shields on each of the lights. These are shields which were designed for the lights and have been made available by the manufacturer for purposes of reducing diversion of the light.

Your concurrence in the above procedures will be appreciated as soon as possible so that we can commence the modification within the two month time limitation as stated in the ordinance.

If you have any further questions concerning this matter, please contact either Mr. Hoeck or myself.

Yours very truly,

CHICAGO AERIAL INDUSTRIES, INC.

Review of Cleveland Regional Conference for Municipalities

During April, 1966, an invitation was mailed by Vice President Hubert H. Humphrey of the United States, also the National League of Cities, and the Illinois Municipal League to mayors and presidents of municipalities in the 1,000 to 30,000 population range to participate in a conference scheduled for May 6, 1966, at the Sheraton-Cleveland Hotel in Cleveland, Ohio. This, the second of a series of regional conferences planned to cover the entire nation, embraced the States of Illinois, Wisconsin, Michigan, Indiana and Ohio. Approximately 200 mayors and presidents attended including Barrington's village president, and Mrs. Blanke.

The Cleveland Conference was arranged to determine the planning, construction and financial needs of municipalities within the region. The following program was arranged: briefing session by National League of Cities at 1:00 p.m.; conference with questions and answers under chairmanship of Vice President Hubert Humphrey from 1:30 p.m. to 5:00 p.m.; reception in honor of Vice President Humphrey hosted by Mayor Locher of Cleveland from 6:00 p.m. to closing time; and ladies reception in honor of Mrs. Humphrey hosted by Mrs. Locher at 3:00 p.m. Mrs. Blanke enjoyed an introduction to Mrs. Humphrey, and President Blanke thanked President Johnson's Vice President Humphrey for arranging and conducting an excellent program on the 71st birthday of Barrington's first citizen.

Your Village President submitted an expense statement May 11, 1966, as follows: transportation \$51.35; hotel lodging \$26.78; meals and incidentals \$22.52; a total of \$100.65, which has been paid.

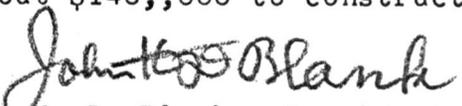

In conducting the four-hour conference, Vice President Humphrey was assisted by representatives from the departments of Commerce; Housing and Urban Development; Health, Education and Welfare; Agriculture; Economic Opportunity; Public Housing Administration; and their sub-departments.

Each mayor or village president was given a packet of literature for future reference use. The list comprises about 40 items, from 10 Federal Departments. The publications show how federal grants or loans may be obtained for various municipal projects. Discussions at the conference disclosed that many municipalities are in need of financial assistance and in need of advice to obtain such assistance. Some of the municipal officials displayed their need for a qualified municipal engineer or attorney.

The most valuable publication brought back from the conference is "Grants-In-Aid", a volume of about 350 pages that describes scores of Federal Assistance programs. It is supplemented by another publication that relates the impact of 1965 federal legislation on grant-in-aid programs.

The assortment of federal publications received at the Cleveland Conference will be held available in the Village President's office for referral to any village official who may be interested in reviewing same.

It was not only a pleasure to attend the Cleveland conference but it was of great value to learn that many other municipalities have serious problems and to learn how they may be helped by Federal aid. It reminds me of the middle thirties when the Village of Barrington received a Federal grant of about \$140,000 to construct sewerage facilities.

John H. D. Blanke, President
Village of Barrington, Illinois

Re: Sewage Disposal Plant Operation

Gentlemen:

The attached letter from Mr. Brask, dated May 12, 1966, was reviewed with Mr. John Townsend and Mr. Gerald Brask of Consoer, Townsend and Associates on May 26, 1966 in my office and at the plant with Supt. Hager. Procedures were explained to Mr. Hager for sampling three times weekly as follows: a) Raw Waste; b) Primary Effluent; c) Final Effluent; d) Aeration Mixed Liquor; e) Return Activated Sludge. The analysis of these samples and reporting them to the State of Illinois monthly was discussed at length. Mr. Hager professes himself incapable of conducting them; to take them to another municipal plant lab for analysis would be time consuming; to have them done by a private laboratory is unreliable and troublesome.

It was the consensus of opinion that a chemist of high school teaching level could be employed by the Village for approximately two hours per day three days per week to make such analysis at the disposal plant laboratory.

RECOMMENDATION: That the 1966-67 fiscal year appropriation include an account of \$500.00 for chemical analysis under the disposal plant personal services. My feeling is that we should have someone definitely during the months of June, July, and August so that we can obtain a clear picture of the efficiency of the plant. The Engineers should review it and then carry on with analysis as recommended by the State of Illinois and Village Engineers. You must realize Supt. Hager is of the opinion that such sampling and analysis is not worthwhile but has expressed his cooperation in collecting the samples and making the lab facilities available. I have no doubt that he will.

Respectfully submitted,

Patrick J. Gaffigan

Re: Village of Barrington
Sewage Treatment Plant

Dear Mr. Gaffigan:

On Friday, April 29, 1966, the writer, and Mr. Carl Wright our Plant Operations Engineer, visited the Barrington Sewage Treatment Plant. The purpose of our visit was to review chlorination procedures with Mr. Hager in accordance with our discussion with you on April 9, 1966.

During our stay at the plant, the chlorine machine and solution water pumping system was started. Operation was satisfactory. Dosage was set at the maximum obtainable from two cylinders, 75 pounds per day. Chlorine residual analyses were made on two samples, and the procedure was explained to Mr. Hager. A chlorine residual of between 0.5 and 1.0 ppm was obtained at the 75 pounds per day dosage.

We suggested that it would be advisable to have at least three chlorine cylinders connected to the system when continuous chlorination was started. It was anticipated that continuous chlorination would be instituted on Monday, May 2.

The hot water boiler was not performing properly on digester gas and arrangements were made for Mr. Wright to return to the plant with a representative of Pacific Flush Tank Co. on Monday, May 2.

During this visit, it was found that the pressure relief valve on the digester was not properly set, and that the cover was in an unstable condition, floating on a gas bubble. The pressure relief valve was properly set to release the excess gas pressure.

In spite of adequate pressure at the digester, the digester gas pressure at the boiler was too low. The line was cleaned, and on adequate pressure was then obtained at the boiler.

Page 2
Mr. Patrick J. Gaffigan

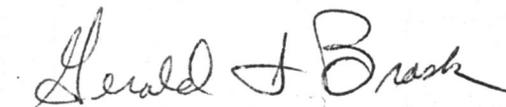

May 12, 1966

The pressure switch of the boiler was reset, and boiler cut-on and cut-off was observed to be satisfactory. However, Mr. Hager indicated that the boiler flame was very low compared to previous operation. We believe that this may be due to a dirty gas burner jet, or to low gas fuel valve during the present digester recovery period.

We are enclosing a list of Proposed Analytical Procedures for the Barrington Sewage Treatment Plant. Please advise us if you have any questions concerning this material, or if we may be of further assistance to you in connection with this matter.

Very truly yours,

CONSOER, TOWNSEND & ASSOCIATES

Gerald I. Brask

Mr. Patrick J. Gaffigan
Village Manager
Village of Barrington
206 South Hough Street
Barrington, Illinois 60010

Dear Mr. Gaffigan:

In answer to your letter of May 26 and our subsequent meeting on June 3, I would like to submit this letter of intent.

After a very satisfactory discussion with you, May Pinkerman and Helen Jahnholz on what to do about the problem of excessive amounts of refuse and grass or brush clippings, Barrington Trucking Company has agreed to make available the following services:

1. We will remove anything that is put into the allowable two 20-gallon cans per pickup with the exception of rocks, mud, etc. as per contract.
2. Any residents requiring additional rubbish service may contract with Barrington Trucking Company for a third can for each pickup. The cost for this service will be \$1.00 per month. The customer must contract for one full year of service payable in advance. Refunds will be made only in the event of moving.
3. Residences with large amounts of grass and brush clippings may subscribe to a service to remove all of these clippings each pickup day at the curb side for \$3.00 per month. This service may be discontinued at any time.

ashes

It is our feeling that these services should help those ~~few~~ people who have a problem with the present service provided.

Barrington Trucking Company will have a leaflet printed informing the Barrington residents of the provisions in our contract and the additional services available to any who may need them. These leaflets will be given to the Village of Barrington for distribution.

With regard to the question on the increase of homes as against the increase in men and equipment, I would like to assure you that the routes have been changed and the men and trucks are presently handling approximately the same amount of homes as they did in 1960.

"Our Business Is Always Picking Up"

Mr. Patrick J. Gaffigan

-2-

June 3, 1966

A recent survey in a town comparable to Barrington indicated that the average amount of refuse generated at each single family residence has increased about 50% during the last five years. Undoubtedly, this has been part of the cause of our present problem; this compounded by an apparent breakdown in communications.

We, at Barrington Trucking Company, would like to take this opportunity to sincerely apologize for any blame that may be ours.

Looking forward to a continued long and pleasant relationship, I remain,

Very truly yours,

BARRINGTON TRUCKING COMPANY

June 4, 1966

Gentlemen:-

In accordance with our agreement, I am submitting my bill for the month of May 1966 for services rendered. Following is a statement of time worked:-

May 7, 1966-----	\$20.00
May 14, 1966-----	\$20.00
May 21, 1966-----	\$20.00
May 26, 1966-----	\$20.00
May 28, 1966---@ \$20.00 per day-----	\$20.00

Total----\$100.00

Thirty two inspections of various kinds were made during the month of May. The Barrington Country Cupboard Inc. on Northwest Hy. opened last Saturday and is now in business. This is a small grocery type store, is in immaculate condition and should be an asset to the Village.

Trusting that the above statement meets with your approval, I remain

Very Truly Yours

Re: Construction Activity Report

Gentlemen:

In response to my phone inquiries, by phone call of June 9, 1966 Mr. William Townsend advises as follows:

1. Albin-Carlson Co., contractors for the Main Street sidewalk (MFT 26CS), states that they will begin work June 23 to 28, 1966 on that project.
2. E. M. Melahn Construction Co., contractor for Eastern Avenue (S.A.D. #73), states that work will resume on June 21 or 22nd and surface course will be finished on or about July 15, 1966.
3. A meeting will be held, with the Fox Point developer and his engineer, the contractor for the Fox Point trunk sewer, our Village Engineers, Messrs. Townsend and Casey, Superintendent Johanesen and me on June 13, 1966, to determine the dates of completion for this sewer; the cleanup and restoration of the construction route and all items relating thereto. You will be kept advised of the outcome of this meeting.

Respectfully submitted,

VILLAGE OF BARRINGTON
206 S. HOUGH ST.
BARRINGTON, ILL. 60010

June 13, 1966

Board Meeting June 13, 1966

President and
Board of Trustees

Gentlemen:

Attached is a copy of a letter, dated May 9, 1966, from Mr. R. C. Sale to Mr. William Townsend asking for Village Engineer approval of the design for concrete collars to be installed where necessary on the Fox Point trunk sewer. Mr. Townsend recommends the Village approve this design, which should be done by motion of the Board of Trustees.

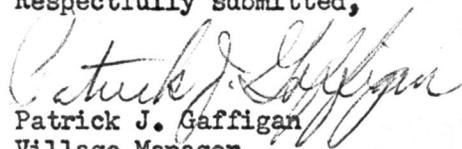

A meeting was held this date with representatives of Consoer, Townsend and Associates, the trunk sewer contractor, Kennedy Development, Messrs. Johanesen and Mollenkamp and me at the Village Hall, and the following items were agreed upon:

1. The disturbed route of the 21" storm sewer at the west line of Barrington Meadows will be replaced by corrugated pipe as recommended by Consoer, Townsend and Associates by letter of May 6, 1966.
2. The contractor will install concrete collars as designed by Mr. Sale and recommended for approval by the Village from Consoer-Townsend.
3. The contractor was impressed with the urgency of getting back on the job and stated they would resume construction activity this week to complete the sewer, so that TV inspection and repair where necessary could be expedited. Simultaneously, the contractor will begin cleanup of the construction route, concentrating first on the section from Hough Street to Northwest Hwy., with particular emphasis on Drury Lane.

4. The canvas cylindrical bag will be used by the contractor by being moved upstream to isolate certain sections of the sewer for TV inspection. The bag will not be moved and/or used except by permission of Mr. Johanesen.
5. Mr. Sale will see that damaged fire hydrants are repaired and missing manholes are replaced as soon as possible, in the subdivision, as requested by Mr. Johanesen.

I impressed upon all present that fifty-six building permits have been issued as well as fifteen occupancy permits to date for Fox Point and that unless this trunk sewer is immediately completed for acceptable use, I will instruct Mr. Mollenkamp to cease issuance of building and occupancy permits. I hope that we will now see diligent construction and repair activity on this project.

Respectfully submitted,

Patrick J. Gaffigan

Dear Sir:

Your attention is called to a matter which is of concern to me and the Village Board to whom I must submit reports for consideration at their meetings. Lately we often notice that ordinances prepared at Board direction by your office, to be submitted for meeting consideration, reach the President, Clerk or Manager on a Saturday before, or Monday of, a board meeting. This results in hurried consideration by the Board and adoption of legislation which may or may not do the job intended by the Board members.

I have, therefore, been directed by the Board to advise you that they require your ordinances (and letters or opinions as well) to be submitted to the Village Manager no later than Thursday before a board meeting for duplication and distribution with the agenda material for the meeting on Friday before a board meeting. In this way, each member will have time to review the contents of your learned legal advice so that informed action can ensue at the board meetings.

I am sure that there will be exceptions necessary to this rule from time to time, but please adhere to it as best you can. Thank you.

Sincerely yours,

Patrick J. Gaffigan
Village Manager

INFORMATIONAL

Mr. William W. Townsend
Consoer, Townsend and Associates
360 East Grand Avenue
Chicago, Illinois

Dear Sir:

The matter of the Village Manager reporting to the Board of Trustees, at their meetings, is enduring a hardship which I think you can alleviate. Lately, material from you or your various competent subalterns reaches me by mail on the Saturday before, or Monday of, a board meeting at which I wish to take up the particular subject with them. This results in hurried consideration of your material, with the result that occasionally no action is taken, or ill-advised action is taken.

Therefore, I have been directed by the Board of Trustees to advise you that report materials, requested by myself or the Board for consideration at a board meeting, be submitted to the Village Manager by the Thursday prior to the board meeting, so that proper duplication and distribution can be made in time to give Board members an opportunity to study your learned engineering advice and act in an informed manner at the board meeting.

I am sure that there will be necessary exceptions to this procedure, from time to time, but please adhere to it as best you can. Thank you.

Sincerely yours,

Patrick J. Gaffigan
