Vol. 12. No. 38.

BARRINGTON, ILL., SATURDAY, NOVEMBER 27, 1897.

\$1.25 A YEAR.

## PALATINE LOCALS.

### A. G. SMITH, LOCAL EDITOR

Bazaar next Thursday and Friday. Pure cider vinegar 15 cents per gallon. L. PECK.

This week has been one of marriages in Palatine.

Geo. Lytle of Barrington ate turkey at home Thursday.

Mrs. Dr. Hulett and sister visited friends here Saturday.

Mrs. A. Ulitch of Barrington visited her parents in this place Sunday.

Dr. E. W. Wood and wife entertained friends over Thanksgiving.

Rev. J. C. Butcher and family went to Fairfield Monday to spend the week with Mrs. Butcher's parents.

Oscar Beutler came home to spend Thanksgiving with his parents and witness the football games.

Walter Lytle and Will Algrim attended the "Peak Sisters" concert in Barrington Thursday evening.

The Republican club will hold its election of officers in Hartlett's hall next Tuesday evening.

George Helm of Arlington Heights has been assisting A. G. Smith in his office this week.

Prof. Sears' recital at the home of Mrs. J. Slade, Saturday, was greatly enjoyed by those present. Prof. Sears' recitals are very pleasant.

FOR SALE—A lot, with good 8-room house and good barn on Plum Grove avenue, opposite the M. E. church. For particulars call on A. G. Smith.

Miss Emma Kraft of this place and Mr. Henry Schmitze of Chicago were married at the German Evangelical church at 2 o'clock Thanksgiving day.

Quite a number from this place saw the Indians defeat the Illinois University at football in the Chicago Coliseum Saturday evening.

Miss Minnie Wienecke and Austin Armstrong were married at the home of the bride's parents, one mile south of Palatine, Wednesday evening at 7 o'clock.

The pupils of the public schools gave an excellent entertainment in the Methodist church Tuesday evening. The program consisted of songs, recitations and dialogues.

FOR SALE, A BARGAIN.—Two-story, eight-room house, almost new, with barn, good well, and a large lot at corner of Wilson and Rose streets. This is an opportunity in a life time to get a nice home cheap, if taken at once. Terms easy. Apply to PALATINE BANK.

The Methodist Sunday school met the other evening to prepare for suitable Christmas exercises. The following committees were appointed: Program committee—W. L. Smyser and E. J. Filbert; Decorating committee, Mrs. M. Richmond and Mrs. W. Taylor; Finance committee, Mrs. Butcher and class; Purchasing committee, Mrs. W. Taylor, Miss Della Smith and Miss Lombert.

Palatine won as usual. The football game Thanksgiving day between the Hibbard Spencer Bartlett & Co. team and the Palatine's resulted in a victory for the latter by a score of 26 to 0. The visiting team did some excellent work, but it was very evident that they were outclassed. This closes the football season and Palatine has made the marvelous record of having won every game played this season. The high school team was victorious in the game played in the afternoon.

The dance given by the Concordia society at Batterman's hall Wednesday evening was a grand success. More than 50 couples were present. Excellent music was furnished by a Chicago orchestra. The ladies served an elaborate supper to which all did ample justice in the rooms adjoining the hall. There were a number from out of town in attendance. Everybody seemed to enjoy themselves hugely. The society is to be congratulated upon its success.

The bazaar which has been planned for so long by the Ladies' Aid society will be held in the Methodist social rooms next Thursday and Friday, afternoon and evening. An oyster supper will be served evenings. Many fancy and useful articles will be for sale, and the ladies invite the people of Palatine and vicinity to attend. All ladies having articles for the bazaar are requested to leave them at the parsonage on Monday or Tuesday next.

Palatine's Athletic club football team won the suburban championship last Saturday by defeating the St. Charles team at St. Charles. A crowd of about sixty people from here accompanied the team and cheered the boys on to victory. John Williams made the only touchdown, piercing the line for an 80-yard run. A. Smith kicked goal. Score 6 to 0. Palatine played an excellent game, and B. Smith's punting at critical stages saved the game for our team. St. Charles put up a strong fight, but Palatine braced up at the right time and saved their goal whenever it was in danger. The victory was celebrated here in the evening by a big fire, and some good speeches were made by Prof. W. J. Smyser, Harry Rea and Peter Knowe.

Dr. Muffat had a bone in his foot broken last Saturday morning by a collision in a runaway. Mr. Henning, who works on the Thomas place west of town, was driving his team home when a chicken coop, which was lying on some bags of feed in the wagon, fell off. Mr. Henning got down to put the coop back on the wagon when the horses became frightened and ran away. Dr. Muffat was driving west, and the first he knew of the runaway was when the top of his buggy was torn off and hurled into the ditch, throwing him into the road. The wagon passed over his foot as the horses passed by, breaking a bone. The doctor is able to get around with the assistance of a cane.

### Thies-Bierman Nuptials.

At 7:30 o'clock Thursday evening Mr. John Thies of Plum Grove was united in marriage to Miss Clara Bierman, the accomplished daughter of Mr. and Mrs. Herman Bierman, at their home in Chicago. Rev. Wagner officiated at the beautiful ceremony and pronounced the words that mean so much to these young people. Invitations had been extended only to the immediate relatives and intimate friends of the contracting parties.

The wedding march was played by a sister of the groom, Mrs. Samuel Landwer, of Barrington. The bridal procession was headed by Rev. Wagner, followed by the groom and Miss Mollie Nelson, the bridesmaid, they in turn being followed by the bride, leaning on the arm of her brother, Frank, who was best man.

The bride was dressed in pearl colored silk, trimmed with white silk and pearl trimmings, and carried chrysanthemums and roses.

After the ceremony a sumptuous banquet was served.

After the repast the guests enjoyed themselves in social chats and games and listening to some excellent selections by an orchestra of which the groom is a member, as well as some fine vocal and instrumental music by other gifted talents, intermingled with refreshments.

Many useful and costly presents were received by the happy couple.

Among those present were: Messrs. and Mesdames Hillmies, sr., Hillmies, jr., Wall, Jennings, Dr. Heidenrich, all of Chicago; Wm. Thies of Plum Grove, and Samuel Landwer of Barrington.

Mrs. Bolz of Elgin. Misses Lillian Bierman and Mollie Nelson of Chicago, Ida Thies of Plum Grove and Elizabeth Reichfeldt of Riverside.

Messrs. Ed Thies, Greenquith, Carroll, Rev. Wagner, Frank Bierman, Wm. Hillmies, Wm. Bierman, Newton Bierman, Emil Bierman and Geo. Bierman, of Chicago; Charles Meyer and Charles Thies of Plum Grove.

Mr. and Mrs. Thies will make their home near Palatine.

THE REVIEW joins with the many friends of this estimable couple in wishing them a long and prosperous life.

### TURNING AND GRINDING.

We have our little fallings out and arguments and such, And then we make it up again. They don't amount to much. But on one subject, anyhow, we're all of the same mind— We all of us don't want to turn, and all do want to grind.

I've heard about a grindstone of a labor saving kind. It only takes one person to turn it and to grind. You work a treadle with your foot, the same as mother sews, And a fellow don't mind turning when he's grinding, I suppose.

But ours is not that kind of one. It ain't that we're asleep, But money's scarce and hard to get, and elbow grease is cheap Where there's half a dozen elbows that are half the time in sight, Though mother puts on patches, I reckon, every night.

"Boys," father said the other day, "one thing you've got to learn— We can't all do the grinding, for somebody must turn. Of course I'd like you all to be as smart as folks are made, But it isn't very likely that you will be, I'm afraid!

"And there's very few so stupid that they really couldn't earn Themselves an honest living if they'd just agree to turn. By all means try for grinding, but own it if you find That you can do the turning, but ain't smart enough to grind."

When father talks, he says it. He likes to think things out. I see him smiling sometimes at the things he thinks about. When he comes in from the plowfield, he don't tell you how he aches. He tells you something queer he's seen, of birds or beasts or snakes.

It's only in the winters we have time to go to school. But we dig at it, I tell you, and I hope I'm not a fool. And the thing we talk the most about, the thing we do, do, In a race that's free to every one, is what I'm coming to.

We'll keep our eyes wide open, if we're only fit to turn. We'll look for the best way these is, and that's the one we'll learn. But think how mother and father'd feel if they should one day find That every single son they had was smart enough to grind! —Margaret Vandergrift in "Youth's Companion."

Policemen in the city of Moscow carry lanterns at night. When an officer rests or enters a house, the lantern is set down on the pavement near where he happens to be.

In England of 1,000 persons 68 are named Mary, 66 William, 62 John, 61 Eliza, 39 Thomas, 36 George, 36 Sarah, 33 Anne, 31 James and 23 Charles.

### Annual Meeting of the Young Peoples' Alliance.

The annual meeting of the Young People's Alliance of the Zion's church Sunday evening was attended by a large audience.

An exceptionally fine program, consisting of declamations, essays, dialogues, vocal and instrumental music, etc., was rendered in an entertaining and instructive manner, a song by the male quartet and a selection by the ladies' trio deserving special mention. Following is the program:

- Opening song by society.
- Scripture reading by Rev. Troyer.
- Song by society.
- Prayer by Rev. Troyer.

- Declamation—Miss Tillie Decker.
- Address by Rev. Troyer.
- Closing song by society.

### In Currency.

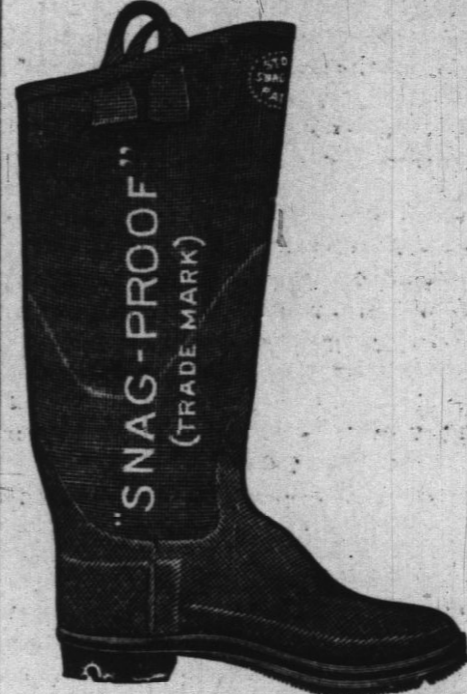

EDITOR REVIEW: Please inform me through your paper if the \$8,000 worth of bonds for water works, issued by the Village of Barrington, is payable in gold or currency.

### A SUBSCRIBER.

The purchasers of the bonds had enough confidence in the stability of Barrington that they were not particular about specifying the particular metal, but accepted the bonds, which provide that they be paid in "currency."

## THOMPSON'S AUNT.

I HAD seated myself comfortably in my section of a parlor car for a ride of nearly 300 miles, and was cutting the pages of two or three of my favorite magazines, when Thompson, who is one of those exasperating creatures who "mean well," came dashing into the car loaded to his chin with boxes and bundles, while a bird cage containing a jackdaw dangled from his fingers. Behind him came a small, thin, ascetic-looking woman, with iron gray curls and glittering black eyes. She had a huge bouquet of red roses, yellow marigolds, crimson Princess' feathers, and purple petunias, combined with striped grass, and "live-for-ever," and that plant of nauseating odor called "old man." The moment Thompson saw me he called out at the top of his voice:

"Ha! Hawkins, that you? Well, if this isn't luck! Been wishing there'd be some one in the car I knew, on Aunt Jane's account! And her section is right next to yours, too! That's great! Aunt Jane, this is Hawkins—Joe Hawkins; you've heard me speak of him!"

"Don't know as I have," said Aunt Jane, without looking toward me. "Look out, Will Thompson! You're banging that bird cage around awful recklessly. That bird will get out first thing, you know!"

She had the most penetrating voice I ever heard.

"Now, Hawkins will look after you, Auntie, and be glad to do it," said Thompson as he began to unload in her section. Going far, Hawkins?"

"Nearly 300 miles."

"Good! Now, Auntie, you will have company all of the way. Hawkins is going as far as you are, Auntie, and he'll see you through all right. He's a regular ladies' man, anyhow. Loves to be attentive to the ladies Ha! ha! Come, sit right in the section with Auntie and get acquainted, Hawkins!"

"I'm afraid I'll be crowding her."

"Oh, no; plenty of room. Come on."

"Hold that, please," said Aunt Jane, in a tone of command, as I sat down beside her and she deposited a large wicker-basket with a cover on my knees and thrust the bouquet with its deadly odor under the handle of the basket. There was a sound of scratching and snarling from within the basket and Aunt Jane explained briefly:

"Got a two-thirds Angora cat in that basket that my niece's sister-in-law gave me."

SPITTING, SNARLING MASS.

The breed of the other third was not made known to me, but I think that it must have been hyena judging from what followed.

"Bye, bye, auntie," said Thompson, knocking off my hat as he sprawled over me to deposit a kiss on Aunt Jane's sharp little nose. "So glad Hawkins is with you. He'll look after you like your own son. Ta, ta, Hawkins! Bye, bye, Auntie."

"Put up the window, please," said Aunt Jane as the train started. I obeyed and clouds of dirt swept into the car.

Presently she brought forth from her handbag a lemon, a folding drinking cup, a paper bag of sugar and a lemon squeezer, and commanded, rather than requested, me to make her a glass of lemonade. I withdrew to the water tank at the rear of the car with feelings it is not best to express, and with the unwilling assistance of the porter, concocted the lemonade, only to have the cup collapse just as I was handing it to Aunt Jane. She gave a scream as the lemonade flooded her lap and jumped up, knocking the cat basket to the floor, and the next moment a spitting, snarling mass of yellow and white fur shot over the back of the car seat and raced madly down the aisle. Then it bounded from one end of the car to the other over the heads of the passengers, while a nervous woman in the car fainted, and a stout, middle-aged lady screamed steadily at the top of her voice: An excitable old gentleman, with a bleeding scratch on his bald head, ran up and down the aisle, breathing the most awful maledictions on the cat and striking at it with an umbrella that flew open at every blow. A man with a gold-head-

ed cane did more effective work, and got in one blow that drove the cat to the roof of the car, where it clung with snarling defiance.

"You ought to be prosecuted for traveling with such a wild beast," said the bald-headed old gentleman, shaking his fist at me.

"Yes, you ought!" said a woman who had crawled down between two seats and was holding her parasol over her head for protection.

"Kitty! Kitty! Kitty!" said Aunt Jane cajolingly, as she started down the aisle with a ham sandwich held up toward the cat, which suddenly gave a bloodcurdling snarl and shot down into the section Aunt Jane had vacated. The jackdaw gave a shrill screech of alarm and with reason, for the next moment its cage was rolling in the aisle empty and the cat had added murder to its other crimes. The window in Aunt Jane's section was still up, and through it the murderer made his escape, to the relief of the passengers and to the grief and indignation of Aunt Jane, who not only insinuated but said openly that if I had tried I could have prevented all that occurred. She requested me to return to my own section in the car and intimated that it would be a favor if I did not speak to her again during the journey, a favor I was entirely willing to and did grant.—Max Merryman.

## ANTS USED TO SEW WOUNDS.

Remarkable Surgical Methods Practised by Native Indians of Brazil.

Science has made vast strides during the last half of the century, and in no branch of knowledge is this progress more marked than in that of surgery, says the New York Herald. Many an operation is now performed with facility and safety which was not dreamed of fifty years ago, and many an operation which we now consider trivial and beneath remark was then considered as next to impossible to perform. The introduction of anaesthetics and the researches of Lord Lister in antiseptic surgery account largely for this state of affairs. Indeed, before the introduction of antiseptic methods in the operating theater as many lives were lost from those bugbears of all surgeons, pyemia and septicemia, as resulted from the operations themselves. The method, therefore, of securing a wound which is still prevalent among the Brazilian Indians can be looked upon as at least strictly antiseptic. The materials required for performing the operation are found handy almost anywhere in a Brazilian forest. These are a species of a very large ant, which has mandibles which can bite through almost any substance. The mouth is furnished with transversely movable jaws and does not possess a sting. A bite from one of these ants is perfectly harmless and is followed by no swelling or other evil results. The lower lip of the ant, instead of being a simple cover to the mouth, is developed into a strange jointed organ, which can be shot out much further than the upper lip, or when at rest can be folded flat over the face and can be rapidly protruded or withdrawn. It is furnished at its extremity with a pair of forceps, and is able to grasp objects with the strength and firmness of a small pair of pincers. Nothing, unless cased in metal, can resist those jaws. What the Brazilian Indian does when he or one of his patients receives a gash is this: He catches some of these ants, and, holding them to the wound, which he has previously closed together, lets them bite. They fix their mandibles on each side of the wound, and then he pinches off the rest of the body, leaving the mandibles and jaws to close up the wound. A row of these ants' heads keep a wound closed quite as effectively as the needle and thread of the surgeon, but the pain given to the victim of this rude style of surgery must be considerable. Rude as this method may seem, however, it has its advantages in being strictly antiseptic and causing no evil after effects. The jaws of the ant are extracted with a pair of forceps after the wound has satisfactorily healed.

## Granting Street Car Franchises.

St. Louis Post-Dispatch: Street car franchises should be granted solely on the basis of public necessity. The city authorities should determine what new lines are needed, and demanded, and should lay out the routes. Then the franchises should be sold to the highest bidder. The full franchise value should be retained by the city. Investors in street railways are entitled to no more than a fair profit on the money invested. Enriching private individuals at the expense of the people through the granting of franchises is robbery.

## Strict Laws for Bicycle Riders.

In Newcastle, England, two weeks ago a bicyclist was fined two shillings six pence for passing a vehicle on the wrong side.

Separation.—There is one doctrine which must be preached in every possible manner, and that is the doctrine of separation. We must be separated from our sins.—Rev. Dr. Chapman, Presbyterian, Philadelphia, Pa.

## HE WANTS MORE SOLDIERS.

Gen. Miles Urges Enlargement of the Army.

## GUNS FOR COAST DEFENSE.

Important Recommendations Made by the Head of Our Army to Secretary of War Alger—Seventy Thousand Men in Arms Should Be the Limit.

General Nelson A. Miles would ask congress for more than \$15,000,000 for coast defense work next year. He also wants two more regiments of artillery properly to man the harbor fortifications already constructed. He urges the addition of at least 20,000 men to the strength of the army, and he would give the president power to increase the standing army to 70,000. He asks for five more regiments of infantry at once, and would then send men to Alaska to occupy three new forts.

These are among the recommendations in the report of General Miles to General Russell A. Alger, secretary of war. The secretary heartily favors the plan to add two regiments to the artillery service and thinks troops ought to be sent to Alaska to maintain law and order.

## IDEAS ON CURRENCY.

Col. Trenholm Gives His Views on the Subject.

Colonel William L. Trenholm, who was comptroller of the currency under President Cleveland's first administration, has submitted his views of currency reform to the monetary commission. Colonel Trenholm recommends the fusion of the greenbacks and Sherman notes into one form of paper redeemable in gold. He thinks that these notes should be issued in denominations of \$1, \$2 and \$5, in order that the people may have confidence in the money in current circulation. He believes that a redemption fund of \$100,000,000 would be sufficient to maintain the parity of the entire volume of about \$450,000,000.

## Schweinfurth May Move.

Well known followers of Schweinfurth and residents of his "heaven" south of Rockford, Ill., have closed a deal for the purchase of 1,700 acres of choice land adjoining and partly in the village of Portage, Wis. It is rumored that Schweinfurth is to remove his "heaven," or at least establish a branch there.

## Fire in an Ohio Village.

Fire did about \$25,000 damage in Lagrange, a small village eight miles south of Elyria, Ohio. The loss amounts to \$21,000.

## PRESIDENT OF THE "TOBY" NATIONAL UNION.

Earl Cadogan, lord lieutenant of Ireland, has been elected president of the National Union of Conservative Associations, in succession to the Earl of Derby. There was a large attendance of delegates from the different associations of conservatives at the convention, which was held in St. James' hall, London. The meeting unanimously adopted a resolution in favor of the establishment of a royal residence in Ireland and its occasional occupation of the queen or a member of the royal family, "as this would tend to increase the sentiments of loyalty to the crown and attachment to constitutional government."

## MINERS' FATALLY HURT.

Twenty-Three Injured in an Accident in Indiana.

Twenty-three men were hurt in an accident on the Chicago & Indiana Coal railroad the evening of Nov. 19, nine miles north of Brazil, Ind., near Coal Bluff. It is believed three of them will die. The miners' train on its homeward journey, bearing about 500 miners, was wrecked on the Glass stone switch and two ears left the track, rolling down the embankment. The accident was caused by running over a horse.

## Indiana Whiteappers Indicted.

The grand jury has returned indictments against nine well-known citizens, brutally whipping Milton Southers, his mother and a young woman on the night of Aug. 11. The men under indictment are William Sexton, Eli Eads, George Hartsock, Oscar Mitchell, John Mitchell, Everett Chambers, Charles Bookins, Maurice Lucas, Geo. Palmer. All belong in the vicinity of Fairfax, about ten miles southeast of Bloomington, Ind.

## Warrant for Willett's Arrest.

A warrant has been issued for the arrest of R. W. Willett, the fugitive cashier of the three broken banks at English, Marengo and Leavenworth, Ind. It is now thought that Willett must have taken a large sum of money with him. President Weathers says the deposits at the time of the failure aggregated \$170,000. Less than \$8,000 in cash was found in the three banks after the departure of the cashier.

## Damages for Being Blacklisted.

Fred R. Ketcham, a conductor who was discharged during the A. R. U. strike by the Chicago & Northwestern railway, and who alleged that he was prevented from securing another position by reason of a blacklisting agreement between the defendant and other railroads, was awarded damages in the sum of \$21,666.33 by a Chicago jury.

## Postal Fire at Baltimore, Md.

The five-story building, 317 and 319 North Howard street, Baltimore, Md., was destroyed by fire Nov. 22, and Mrs. Susan E. Mason of 1536 Williams street, lost her life. The total damage to the building and contents is estimated at about \$135,000; insurance, \$100,000.

## Some Interesting Statistics.

Oxford university has a freshman class of 725 this year. Of these only 300 come from the great public schools, Eton sending 48, Winchester 30, Rugby, Charterhouse, Harrow and Marlborough over 20 each, and eleven other schools over 10 each. The rest come from small grammar schools, only twenty having been educated by private tutors. There are only twenty students from the British colonies and a few from American and German universities.

**ABOUT THE KLONDIKE KING.**

Joseph Ladue at His Office, His Appearance, and a Short Interview with Him.

When Joseph Ladue, the Klondike king and founder of Dawson City, returned to his Chicago office in the Chamber of Commerce building last week from the East, he found an immense accumulation of mail awaiting him. From all parts of the country came thousands of inquiries of every sort and nature. The crank who is going to walk to Alaska would like to know if the walking is good; the man with the all-but-finished airship wants but a few millions to complete it; a well-meaning spinster would like several thousand dollars, that she may protect the Chicago youth from the evil influences of cigarettes, and so on without end, while the man who wants to be taken to Alaska is so numerous that he requires the services of two extra mail carriers. Unlike most millionaires and busy men of affairs, "Joe" Ladue, with the hearty good fellowship which characterizes the Western pioneer, insists that each letter so received shall have a reply, and in most instances the worthy "begging" ones get fat enclosures, too.

"I'm a very busy man these days," he said to the newspaper man. "Since coming back from the Klondike I have

been compelled to cross the continent four times on business in connection with my company, and now I have to go again. I shall, however, be most of the winter in Chicago, as I propose to take with me on my return to Dawson City everything needed in the way of modern mining machinery, so that commencing next spring, notwithstanding the inexhaustible resources of our mines, not an iota of gold will be lost through lack of proper facilities for mining it. I shall return to Dawson about March 15."

"No," he continued, "the wealth of the Klondike has in no way been exaggerated."

In personal appearance the Klondike king is a rugged, well-proportioned man of medium height, with hair and mustache of almost raven black. He has a mild, conservative method of speech, but when interested, his honest, gray eyes snap of the fire and determination which marks the successful pioneer. He is temperate in his statements and every word he utters concerning the new Eldorado he has given to the world carries with it a conviction of truth.

**A Wonderful Talking Doll.**

Of all the splendid gifts which President Faure conveyed to Peterhof on his recent visit to Russia, none can have been more thankfully received than "the three gorgeous dolls, which he bestowed upon little Grand Duchess Olga. The morocco portmanteau containing the trio was decorated with the arms and initials of her imperial highness, and, on opening the cover, a fair-haired dolly became disclosed to the eager eyes of its baby mother, dressed in blue surrah and valenciennes. The grand duchess was now advised to press a spring in the region of her daughter's chest, and imagine her surprise when the waxen lips opened and a tiny voice was heard saying in very good French: "Bonjour, ma chere, petite maman! As-tu bien dormi cette nuit? Moi j'ai fait un beau reve, j'ai reve que l'on m'avait apporte un tres joli bebe qui parle, rit et chante aussi bien que moi," which, translated into English, means: "Good morning, dear little mother! Did you sleep well last night? I had a beautiful dream. I dreamed that I had given to me a pretty baby that speaks, laughs and sings as well as I do."

After a moment's pause this wonderful doll commenced to sing several songs, of which "Ah! mon beau chateau!" and "Malbrough s'en va-t-en guerre" was the first. And before the grand duchess could get over her surprise, Dollkin put her hands behind her, and recited a long monologue. More splendors were, however, to follow. Another doll, superbly attired with a trowseau, which included an ermine mantle fastened with emerald clasps; and yet a third, owing to four costumes of the provinces of France, Norman, Breton, Bernaise and Arlesienne, each doll accompanied by the authentic jewels belonging to her costume. The talking doll is the wonder of the hour at Peterhof.

**HOW TO EXAMINE A WATCH.**

The Way to Appreciate Its Fine Mechanism.

To one who has never studied the mechanism of a watch, its mainspring or the balance wheel is a mere piece of metal. He may have looked at the face of the watch and while he admires the motions of its hands and the time it keeps he may have wondered in idle amazement as to the character of the machinery which is concealed within. says Harper's Round Table. Take it to pieces, and show him each part separately—he will recognize neither design nor adaptation nor relation between them; but put them together, set them to work, point out the offices of each spring, wheel and cog, explain their movements, and then show him the result. Now he perceives that it is all one design—that notwithstanding the number of parts, their diverse forms and various offices and the agents concerned, the whole piece is of one thought, the expression of one idea. He now rightly concludes that when the mainspring was fastened and tempered its relation to all the other parts must have been considered; that the cogs on this wheel are cut and regulated—adapted—to the ratchets on that; and his final conclusion will be that such a piece of mechanism could not have been produced by chance; for the adaptation of the parts is such as to show it to be according to design and obedient to the will of one intelligence.

**BARONESS DE HIRSCH.**

She is Carrying Out Her Husband's Plans of Philanthropy.

Baroness de Hirsch's magnificent gift to the Russian Hebrews of America has taken concrete shape in the way of the plans of the committee that has the funds in charge. The baroness has already given \$2,000,000, and also a promise to give more. Indeed, she has placed no limit to her prospective gifts. The money will be expended in the building and maintenance of a home for working girls and a great building for the operation of trade schools in which Hebrew boys may be taught useful and scientific trades and professions. Work on the working girls' home will be begun at once, and it is believed that it will be ready for opening next August. It is to be nonsectarian, but Jewish girls, of course, will be given the preference. It is to be educational in no sense of the word. It will be purely a home. Girls going there out of work will be expected to help in the labors of the house, and girls who work will find there a comfortable home for less money than they can secure elsewhere. The trade schools building will cost \$150,000. The new building will have every advantage and all equipments necessary for the purpose for which it was created. The third branch of Baroness de Hirsch's work is the amelioration of the condition of the Jews in the tenement districts, and is really the most far reaching of the directions in which the Hirsch fund is to be expended. It is proposed to handle matters so that the people of the Ghetto will naturally move away into fresh air suburban residences. It is also proposed to build model tenement houses, with necessary sanitary construction. The work is to be extended to other cities in the United States, and the poor Jews over all the country are promised aid by the men who have the rich woman's millions at their disposal.

**Pullman and Lincoln.**

The death of George M. Pullman recalls a story told about his adventure with Abraham Lincoln. In the early days of sleeping-cars two men slept in one berth. One day a tall, lanky man engaged a berth from Pullman. Pullman handed him the check and said: "I shall sell the other check of that berth to another man, of course." The lanky man wound himself up to his full height; then unwound himself again. "Young man," he said, "the person who can get into one of your berths when I am wound up in it is welcome to the accommodation." This man was Abraham Lincoln.—New York Tribune.

**The Blood of Cromwell.**  
It is stated that the blood of Cromwell still runs, through female lines, in the veins of the following well-known persons: The Marquis of Rippon, the Earls of Chichester, Morley, Clarendon, Cowper, Lord Amthill, Lord Walsingham and the Countess of Rothes. **WOMEN DO NOT TELL THE WHOLE TRUTH.**

Modest Women Evade Certain Questions When Asked by a Male Physician, but Write Freely to Mrs. Pinkham.

An eminent physician says that "Women are not truthful, they will lie to their physicians." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To this good woman they can and do give every symptom, so that she really knows more about the true condition of her patients through her correspondence than the physician who personally questions them. Perfect confidence and candor are at once established between Mrs. Pinkham and her patients.

Years ago women had no such recourse. Nowadays a modest woman asks help of a woman who understands women. If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

And the fact that this great boon which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters which are received by her prove. Many such grateful letters as the following are constantly pouring in: "I was a sufferer from female weakness for about a year and a half. I have tried doctors and patent medicines, but nothing helped me. I underwent the horrors of local treatment, but received no benefit. My ailment was pronounced ulceration of the womb. I suffered from intense pains in the womb and ovaries, and the backache was dreadful. I had leucorrhoea in its worst form. Finally I grew so weak I had to keep my bed. The pains were so hard to almost cause spasms. When I could endure the pain no longer I was given morphine. My

memory grew short, and I gave up all hope of ever getting well. Thus I dragged along. At last I wrote to Mrs. Pinkham for advice. Her answer came promptly. I read carefully her letter, and concluded to try Lydia E. Pinkham's Vegetable Compound. After taking two bottles I felt much better; but after using six bottles I was cured. My friends think my cure almost miraculous. Her noble work is surely a blessing to broken-down women."—GRACE B. STANBURY, Pratt, Kansas.

## Taku Inlet Railroad.

If preparations progress as expected, ground will be broken for the first Alaskan railroad by Jan. 1. The road will connect Juneau with Lake Teslin, which is the source of the great Yukon. A surveying party at the head of which was Professor William A. Pratt examined the route during the summer. The professor has reported in favor of a road which, beginning at the Taku inlet, shall follow the course of the Taku river up toward its source 51 miles. A railroad can be constructed along the banks of the Taku without trouble. A number of creeks and rivers will have to be crossed, and over the Cloclobeen a bridge 1,000 feet long will be needed, but the sand and gravel of the bed of that stream will make the construction easy. The route in a general way will follow the line of various small rivers, among them the Silver Salmon, Sinoakaheen and Nakana. This will make the grading comparatively easy, even through the pass in the Pitcher mountains. None of the mountain passes are more difficult to cross than those of the Alleghenies.

The leading idea is by a short railway line to connect the Pacific ocean at Juneau with the navigable waters of the Yukon river. Freight and passengers can then be transferred from steamer to railway cars at Juneau and be whirled up to the Yukon river, where they will be re-embarked and sent down the river. Thus the heavy laden boats will steam down stream instead of up to points along the great river.

One peculiarity of the region surveyed for the railway line is that there is no great amount of snow inland. On the coast there are tremendous snows, which remain on the ground all winter to a depth of six feet. As soon, however, as the first range of mountains is crossed the country becomes drier. The moisture is precipitated on the west side of the mountains, as in the Rockies, leaving the eastern slopes dry. Professor Pratt believes it will be possible to operate this road nearly or quite all the year.

## Expurgating "Les Miserables."

For downright intellectual illumination commend us to the Philadelphia school board. What it does not know about the proper kind of books for a girls high school nobody need want to know. The principal of the girls high school presented a list of textbooks for the approval of the intelligent board. Among them was an edition of Victor Hugo's "Les Miserables." The great Frenchman's masterpiece had been abridged and specially prepared for school use, but the Philadelphia board did not even know that. They had heard somebody say "Les Miserables" was a naughty, naughty book. The board members mostly had not read the book themselves, whether because they were too virtuous or too stupid does not appear. One of them said in open meeting that the story was too "shocking" for anything. Judging from their subsequent action, a majority of the board members had not even heard of "Les Miserables," but when they heard this man say it was shocking they voted against it on general principles.

The story got into the newspapers, those terrible foes to the peace of mind of respectable citizens who make a bad break and don't know it. First a stare, then a broad grin, then a peal of laughter rippled even through Philadelphia, until finally it percolated the dense skulls of the enlightened school board that something was wrong. Then they met and agreed to permit the expurgated "Miserables" to appear on their list. Somebody ought to prepare an expurgated edition of the family almanac for those nice old gentlemen, the Philadelphia school board.

Only the president of the United States will be a bigger man than the mayor of Greater New York. No governor or any state will wield such power. The consolidated city will have 245 different public departments and there will be 33,000 names on the municipal pay rolls. To let this vast machinery of government be handled in the private interests of any person or persons or of any mere petty political clique is a crime against civilization and republican government.

The universal prayer should be, O Lord, keep our minds out of ruts.

## HERE AND THERE.

A number of Fontana boys were arrested and fined \$19.08 each for disturbing a religious service.

Libertyville citizens are complaining on account of their electric light plant shutting down too often.

Miss Jennie Balch has closed her school at Huntley on account of the prevalence of diphtheria at that place.

Telegraph operators on the Chicago & North-Western road are soon to undergo a thorough examination on the workings of the block system.

East Dundee and Carpentersville have contracted for another five years of electric lighting. West Dundee has been delayed for lack of funds.

Silver Leaf Camp, M. W. A., of Elgin, is giving a series of entertainments to raise money for the purchase of uniforms for the drill team.

A flow of water, estimated at 50,000 gallons per twenty-four hours, has been struck at McHenry by the water-works contractors. The supply is deemed inexhaustible, and the citizens are highly elated.

The Brownell-Shedd Electric Company is now in charge of Harvard's electric light plant. They have put in two new dynamos, and are otherwise improving the property.

A butter famine threatens Libertyville. There were two days this week when not a pound of butter could be purchased from our merchants. They didn't have it and could not get it.—*Lake County Independent.*

A trust deed given by the Chicago & North-Western railway has just been filed in Cook county, and must be filed in every county seat along the line of the road. It is to secure the indebtedness of the road, and is for the sum of \$165,000,000.

It is said that the section hands on the C. & N.-W. railroad will hereafter be compelled to don white trousers and other togery—something after the fashion of the Chicago street cleaners—while on duty.

Charles Lipofsky of Barrington is clerking for his cousin, Morris Cohn. Mr. Cohn's business has grown so that four people are now required to wait on the customers, where one formerly sufficed.—*Nunda Herald.*

It is said that another special assessment may be necessary in West Dundee for the payment of debts. During many past administrations indebtedness has been accumulating, and the Board is now anxious to rid the corporation of this load and start out with the next year clear of all debt.

A stalk of corn is on exhibition in Mendota grown from 2,000-year-old seed found in an Arkansas mound. It is a tree-like growth and bears six ears. It is believed the corn will yield 250 bushels to the acre.—*Nunda Herald.*

The New Lebanon creamery has contracted for its milk for six months at the following prices: November \$1.10, December \$1.10, January \$1.00, February \$1.00, March 80 cents and April 70 cents. Many shippers have commenced taking their product to the creamery.

A crusade against milk dealers who persist in offering for sale milk and cream which is below the legal standard in quality has been begun in Chicago. Out of 100 samples tested over one-half were found to be below the standard. As a result fifty-five suits were commenced against as many dealers.

Miss Libbie Jayne of Algonquin was united in marriage to Albert M. Hubbard on Thursday, Nov. 4th, at Lake Geneva. The bride is an estimable young lady, and the groom is an industrious and worthy young man. The happy couple will reside in Chicago.

Conductor Sime Crowley, who runs between Chicago and Harvard on the Dakota passenger train, is taking a prominent place in the big voting contest inaugurated by the *Chicago Dispatch*, and at present stands near the head of the list. Nearly every passenger conductor running into Chicago is on the list.—*Harvard Independent.*

The way to solve the tramp question is to do as they do in Germany. When one of these tourists enters a town, the authorities put him into a dry cistern, containing a pump; then a stream

The assessed valuation of Illinois, as just determined by the state board of equalization, is \$799,736,603, a decrease of \$19,954,101, as compared with last year. When it is understood that the assessed valuation of Ohio is about \$3,200,000,000, or nearly five times that of Illinois, the peculiarities of the revenue law of this state become manifest. That a big change is necessary few will deny.

The *Waukegan Daily Sun* is the name of a live-up-to-date 8-column daily paper established in Waukegan by F. T. Radecke. The make-up of the paper is breezy, and from the amount of the local matter it contains we are of the opinion that Waukegan territory must be pretty well covered by *The Sun's* news gatherers, while its advertising columns go to show that the merchants appreciate a good thing when they see it.

### John Sartain.

To no one individual is art in America so indebted as to the late John Sartain, the Philadelphia engraver. His life and memory extended over nearly all the nineteenth century. He was 12 years old when King George III died, and he lived past the celebration of the sixtieth anniversary of the reign of Queen Victoria. He was the friend of Dickens when both were boys in London and Dickens was pasting labels on bottles in a cellar at 25 cents a day.

Sartain was the father of book and magazine engraving in America. He was drawn to art in his earliest boyhood. When he was 12 years old, he began to earn his living. At 14 he was apprenticed to an engraver and then began the work which was to extend without interruption over a life which was spun out to 89 years.

What a grand life it was, too, never a break in the man's splendid enthusiasm, energy or industry! He was trained as a line engraver, but when he came to America at the age of 22 he took up mezzotint work, being the first to introduce it into America. Those who have seen the exquisitely soft, richly tinted engravings in Sartain's and Graham's magazines and *The Eclectic* of 50 years ago would find it hard to admit that even the beautiful "half tone" pictures of today are superior. Those were the palmy days of steel engraving in the United States.

Those, too, who knew the old magazines made famous by Sartain's pictures half a century ago will be surprised that he who made them was until a few days ago yet living and working amid the scenes of his early and later successes in Philadelphia. He was full of life and activity till the very last. He was not only an engraver, but a painter in oils and water color as well, an architect of distinguished talent and an author and editor likewise. It is melancholy to think that this magnificent old artist would have no doubt been still living only that he was jerked over upon his face and injured by the sudden lurch of a trolley car last August. Three of Mr. Sartain's children are artists—the best known being Emily Sartain, the engraver and principal of the School of Design For Women in Philadelphia.

## WAUCONDA.

Charles Lamphere of McHenry was here Tuesday.

A. W. Reynolds of McHenry was in town Tuesday.

E. L. Harrison was a Diamond Lake visitor Saturday.

George Glynn transacted business at Waukegan Monday.

Attend the meeting of the Literary society next Friday evening.

H. Maiman transacted business in Chicago Thursday of last week.

Miss Mable Ford of Volo spent Saturday with Wauconda friends.

A. Cook and Joseph Haas transacted business in Waukegan Monday.

C. L. Pratt came out from Chicago last week to spend a few days at home.

Messrs. Grosvenor and Sowles spent Sunday afternoon with friends at Volo.

Will Baseley went to Harvard last week, where he expects to find employment in a restaurant.

J. F. Grosvenor of Prairie View spent Saturday and Sunday with his mother, Mrs. J. Grosvenor.

Mort Hill, jr., of Chicago is spending a few days with his parents, Mr. and Mrs. M. Hill, sr.

Miss Lillian Aynsley of Diamond Lake visited with relatives in our village Friday of last week.

Miss Beulah Dixon of Chicago spent a few days with her parents, Mr. and Mrs. H. J. Dixon, last week.

L. G. Bangs, who has been spending the past two years at Howard, S. D., returned to our village Sunday. It appears that the west has used him well.

W. G. Boller made a trip to Palatine on business Tuesday. He will be with us but a short time longer. If your piano needs tuning or your organ is out of repair you should avail yourself of this opportunity to secure Mr. Boller's services, as he is a first-class workman.

Henry Nordmeyer, one of our popular young men, was united in marriage to Miss Rosa Loftus of Fremont Centre Wednesday of last week at Waukegan, returning the same evening to this place, where they will make their home.

The Klondike social given by the King's Daughters at the home of Miss Mary Glynn Saturday evening was a very pretty social affair. "Claims" were sold in the "Klondike gold fields" and the "prospectors" made some great strikes.

E. L. Harrison entertained about twenty-five of his young friends last Friday evening, and a general good time was enjoyed by all. Various games were called into play to furnish amusement. Supper was served at 11 o'clock. Altogether the evening spent with Earl was one of the most enjoyable social events that our young people have had the pleasure of attending.

## LAKE ZURICH.

Did you eat turkey?

Look out for burglars.

**An Ideal Holiday Gift.**

The holidays are near at hand. You are thinking about what you will give. Could anything be as appropriate or as welcome as a piano? Encouraged by the overwhelming success of our October Clearing Sale, in preparation for the holiday trade we have placed on our floors a very large number of the Bradbury Pianos in the latest styles of cases and in all woods. Remember the Bradbury since 1854—over forty years—has stood in the first rank; that thousands are in use in every large eastern city and in Chicago; the world's greatest artists endorse them; our enormous capital—over one million dollars—and our large output reduces the cost to the lowest point consistent with standard workmanship; and that you buy direct from the maker and save all dealers' profits. We guarantee these pianos superior to any piano on the market. We also show several makes at lower prices. For those whose needs can be met with a second hand piano we offer very excellent instruments in good repair from \$25 up. Selections now may be delivered later if desired. Cash or time payments to suit your convenience. F. G. SMITH, Mfr Bradbury Pianos. J. M. HAWKHURST, Western Manager, 255-257 Wabash Ave., Chicago. Telephone Harrison 771. Factories—Brooklyn, N. Y., and Leominster, Mass.

The 3-year-old boy of J. A. Johnson, of Lynn Center, Ill., is subject to attacks of croup. Mr. Johnson says he is satisfied that the timely use of Chamberlain's Cough Remedy, during a severe attack, saved his little boy's life. He is in the drug business, a member of the firm of Johnson Bros. of that place; and they handle a great many patent medicines for throat and lung diseases. He had all these to choose from, and skilled physicians ready to respond to his call, but selected this remedy for use in his own family at a time when his child's life was in danger, because he knew it to be superior to any other, and famous the country over for its cures of croup. Mr. Johnson says this is the best sell-

ing cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by A. L. Waller, Barrington, and A. S. Olms, Palatine.

## FIERCE FIRE IN LONDON.

Fully Ten Million Dollars' Worth of Property Destroyed.

## 150 WAREHOUSES BURNED.

For Nearly Five Hours the Flames Have Their Own Way—Immense District Ravaged—Nearly Three Hundred Telephone Wires Cut.

One of the most disastrous fires in London's history, since the great fire of 1666, broke out in a large block of buildings lying eastward of Aldersgate street and between that thoroughfare and Red Cross street, on the afternoon of Nov. 19. For four hours and a half the flames had their own way, and it was only after more than a hundred

## BIG FIRE AT STREATOR.

Largest Retail Store in Central Illinois Destroyed by the Flames.

By the explosion of a lamp in the millinery department in the store of D. Heenan & Co., at Streator, the largest retail firm in central Illinois, the mammoth store, comprising a building 75 by 200 feet in size, three stories high and a basement, all filled with merchandise, was destroyed Nov. 22.

A strong wind blew the flames across the street and damaged other buildings. The total loss to the firm of D. Heenan & Co. is placed at \$625,000, as follows: Building, \$75,000; fixtures and stock, \$150,000. The insurance is estimated at \$125,000.

A number of other establishments suffered losses varying from \$500 to \$3,000. The post office building was completely destroyed, but the carriers and employes secured all the mail and valuables, only the letter boxes and big safe being left in the building.

MRS. CHARLES M. BOWEN.

Mrs. Charles M. Bowen, widow of the famous Methodist preacher "Amen" Bowen, recently celebrated her ninety-second birthday at the residence of her daughter, Mrs. Jane Sulzer of Ravenswood, Ill. "It does not seem as if I had lived nearly a century," said Mrs. Bowen meditatively. "I do not lay much stress on the length of my life, but I do hope that it has been spent profitably." Mrs. Bowen has been a member of the Methodist church for seventy-seven years. She was converted at family prayers when 15 and joined on probation the next Sunday. She was born at Richfield, N. Y., on a farm that has been in her family for nearly two centuries. Her dearest wish is to visit the old homestead, where her only brother now lives. She has known all the hardships of the life of an itinerant Meth-

odist minister's wife. Notwithstanding her years of hard work and advanced age, she is wonderfully well preserved. Her memory is marvelous and her faculties are perfect. Her chief recreation is reading, and she still takes great pride in little household duties, for she was a capital cook and housewife in her time. After her husband's death last November she was taken very ill and confined to her bed from Thanksgiving until July, but is now in excellent health. As she sits and dreams with her Bible on her knee she is a picture of serene and beautiful old age. Mrs. Bowen has five grandsons who are ministers—Rev. Ray Cookingham of Chicago; James E. Ensign, Syracuse; George Hutchings, Troy; DeForest Chamberlin, New York, and Dr. Frank Van Allen of Madura, South India.

engines had worked an hour that the chief of the fire brigad sent out the signal that the fire was under control.

The scene must occupy the fire brigade, for several days, especially in view of the grave danger of the collapse of the shells of the buildings, which fell now and then with a loud report.

The district ravaged by the fire was bounded by Aldersgate street, Red Cross, Maidenhead court and Bradford avenue, and included the intermediate streets of Jewin, Hansell, Well, Edmund and Jewin crescent, part of Australia avenue, Paul's alley, Cripple Gate churchyard, Wood streets square, Monkwell street, Nicholl square and Fore street.

It is officially reported that 150 warehouses have been gutted. A later estimate of the damage done places the amount at nearly £2,000,000 (\$10,000,000).

Almost all the British fire insurance companies are involved, and fire insurance shares were practically unsalable on the stock exchange after the fire was well under way.

Nearly three hundred telephone wires were cut, thus interrupting communication with many of the big provincial towns.

## To Handle Mission Funds.

The board of missions of the Methodist Episcopal church, South, elected Geo. W. Cain, treasurer, to fill the vacancy caused by the recent death of Dr. Thomas B. Holt.

Arthur Elected Chief Consul L. A. W. Mr. Arthur was elected chief consul of the League of American Wheelmen by a majority of nearly 1,000 in a total vote of 2,268, the largest vote ever cast by the division and nearly double that of last year. George Locke was re-elected secretary-treasurer.

**The "Lion Sermon" Discontinued.**  
Among the many quaint customs which are gradually disappearing in England is the so-called "Lion sermon," which, after having been annually preached in the Church of St. Catherine, in the city of London, for nearly three centuries, was abolished three or four years ago. It owes its origin to an adventure which befell a mediaeval lord mayor of London, Sir Richard Guyer. According to the legend, being attacked by a lion while he was traveling with a caravan in Arabia, he fell upon his knees and vowed to devote his life to charity if spared from the lion's jaws. The animal is stated to have thereupon turned tail; and in pursuance of the vow thus made the "Lion sermon" has been regularly preached ever since. The fund bequeathed by Sir Richard for the purpose will in future be devoted to other charitable uses.—Ex.

**Try Grain-O.**  
Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress.  $\frac{1}{4}$  the price of coffee. 15 cents and 25 cents per package. Sold by all grocers. Tastes like coffee. Looks like coffee.

**An Unpopular Servant.**  
An unpopular divinity professor at Mareschal college of Aberdeen university began his course of lectures recently by a prayer. He was interrupted by the students, who at the end applauded and cried "Encore!" On beginning his lecture he was hooted at until another professor, after finding that the students would not withdraw, took his manuscript from him and walked out of the room.

## FOR 30 DAYS YOU CAN TRY IT FOR 25 CENTS. Their Marvelous CURE BY **5 DROPS** RHEUMATISM, NEURALGIA, CATARRH, ASTHMA, LA GRIPPE

"5 DROPS" is the most concentrated and powerful specific known. Free from opiates and perfectly harmless. Relief is usually felt the very first night. We have letters of grateful praise from thousands who have been cured by "5 DROPS," and who recommend sufferers from Rheumatism and kindred diseases to use it.  
Gentlemen: I write to let you know that your medicine has in my case proven all you claim for it, and more, for it did for me what no other medicine had done before. I could not move without help, and the doctors made fun of me for sending to you for medicine. They said I was past medicine help, but I have been for three months enjoying as good health as ever I did in my life. Enclosed herewith find one dollar for which please send me another bottle of "5 DROPS," for I know of lots of people that suffer with Rheumatism, and I wish to try this on the worst of them, and perhaps they will believe me. FRANK COPELAND, Necedah, Wis., Oct. 12, 1897.  
Gentlemen: I feel it my duty to let you know what "5 DROPS" has done for me. I have had Asthma for forty-two years and Hay Fever for fifteen years. I do not know how long I suffered with Catarrh, but I think about twenty years. Towards the last of July I began taking "5 DROPS." When I had used it about a week the Asthma began to leave me and in two weeks it was gone. I am sure "5 DROPS" through the help of God did cure me, for I took no other medicine in that time. I have not had the Hay Fever since I commenced taking the "5 DROPS," and I am in good hopes that with the help of the Inhaler and Special Preparation, it will also cure my Catarrh. SUSAN E. PERDNER, Stanberry, Mo., Oct. 26, 1897.  
As a positive cure for Rheumatism, Sciatica, Neuralgia, Dyspepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness, Nervous and Neuralgic Headaches, Heart Weakness, Toothache, Earache, Croup, Swelling, La Grippe, Mal'aria, Creeping, Numbness, etc., etc., "5 DROPS" has never been equalled.

"5 DROPS" taken but once a day is a dose of this great remedy and to enable all sufferers to make a trial of its wonderful curative properties, we will send out during the next thirty days, 100,000 sample bottles, 2c each, prepaid by mail. Even a sample bottle will convince you of its merit. Best and cheapest medicine on earth. Large bottles (300 doses) \$1.00, for 30 days 3 bottles for \$2.50. Not sold by druggists, only by us and our agents. Agents wanted in new territory. Write us to-day.

### Women Horticulturists.

Women are working successfully in almost every field. Vick's Magazine states that according to the census of 1890 there were 312 commercial greenhouses, or about one in fifteen, owned and managed by women. We have a personal acquaintance with several women who are successful retail florists. Other women, to our knowledge, are making a success of raising carnations and other flowers for the wholesale trade. These people soon learn that the business of raising and selling flowers is beset by much care and labor that do not come under the head of poetry. And yet nearly all women florists that we have met were led into the business because they first of all loved flowers. It adds to the delight and success of any occupation if one has a love therefor. There is no question that, as a rule, women have a greater fondness than men for flowers. Why, therefore, should they not engage in growing and handling them for profit? The rougher work about flower raising, such as the care of greenhouse furnaces, the handling of soil and manure and the like, can easily be done by men who work for moderate wages. If women are successful as florists they are equally so as raisers of vegetables and smaller fruits, especially strawberries; they direct the rougher work, help to prepare the produce for customers, and perhaps take in hand the selling, thus keeping closely in touch with the state of the market. Generally speaking, we think that the raising of strawberries near our best markets is further from being overdone than that of almost any other kind of produce. The consumption is enormous and fresh fruit brought quickly from the fields, without a large distance intervening, always will sell considerably higher than fruit long from the vines that has been shipped. Much of the work of picking and handling small fruits is suited to be done by women.

### The Health of the Hog.

In an address to swine breeders L. A. Davis said: "Always guard carefully the health of your hogs. Provide fresh beds once a week, using disinfectants each time around the sleeping quarters, troughs and adjacent grounds. Airslacked lime and carbolic acid are good disinfectants. Close study and observation has led me to believe that we can produce pork of the best quality at a great deal less cost than the average farmer has been doing, and at the same time greatly reducing the risk of loss from disease. One way to reduce the cost of pork is by reducing the time to produce. A thrifty pig that will weigh two hundred pounds gross, with meat well marked with lean, is the most desirable for the market of the world to-day; and with a good breed of hogs, mature mothers, proper care during pregnancy and careful treatment of pigs, this weight can be produced at six months. Keep the pigs growing from start to finish. To make the most of the sow, let her produce two litters a year—I prefer March and September for farrowing times. Since some argue that fall pigs do not pay, let me give one illustration: About the 10th of last October I had a sow to farrow a litter of ten pigs; no special care was given them, as the weather was pleasant, and when the pigs were about seven weeks old they were turned into the artichoke field with the sows, where they were allowed to run with other hogs all winter, except when very muddy they were shut off, and when the ground was hard frozen they were fed some corn."

### Selling Fresh Eggs.

It is a fact that nine-tenths of the residents of cities do not know where to buy strictly fresh eggs, says American Poultry Keeper. This is no doubt a strange assertion to make in the face of the fact that thousands of dozens of fresh eggs are sold in this country every day, and especially when the purchaser gets them from "an old farmer." But even the old farmer is not always any wiser than the customer, allowing for producing them himself with the aid of his hens, but some old farmers buy eggs or bring them to market for their neighbors. There is a great deal of "faith" in buying eggs, and much depends on "confidence" and from whom they are purchased. A party who had a large flock supplied his brother in the city. Soon the brother's next door neighbor requested that he be supplied, and soon after several other neighbors desired a like favor. All of them were willing to pay extra for the eggs, as they had confidence in the one who sold them. He was compelled to refuse some of the would-be customers, from lack of supply, which only made his eggs the more desirable. Now, the market was amply supplied with "fresh" eggs, but that fact did not alter the circumstances so far as he was concerned. Cannot the readers learn a valuable lesson from this experience?

## ILLINOIS BRIEFLETS.

### ALSO SOME MINOR EVENTS OF THE PAST WEEK.

**Mattoon to Have the New Odd-Fellows Home—The Railroad Blacklist Will Not Be Tolerated in This State—A School Teacher Accused.**

#### Mattoon to Have the Home.

Springfield.—The Rebekah assembly adjourned after a successful session. Mrs. Blackman of Chicago was the successful candidate for grand warden. The retiring president, Mrs. Mary D. Stone of Vandalia, was made a member of the advisory board of the Orphans' home, and Etta Springer of Chicago was placed on the advisory board of the Old Folks' home, and \$250 was appropriated to each the Orphans' and Old Folks' home. The treasurer was voted a salary of \$50 a year and the mileage of members was raised from 4 to 5 cents. The grand lodge of Illinois Odd Fellows adjourned, after a hard day's work. It took all the time up to 4 o'clock this afternoon to settle the Old Folks' home question. Many speeches and much feeling marked the morning session, but during the noon adjournment all factions got together and coolly compared notes and reached an agreement, which was enacted into legislation during the afternoon session. The Mattoon site was indorsed and the trustees were directed to proceed at once to erect a main building to cost \$20,000, of which \$15,000 is already on hand, and the remaining \$5,000 is to be raised by subscriptions. An annual per capita of 10 cents was levied for the maintenance of the home. Also \$8,500 was appropriated to build a chapel and school at the Orphans' home and \$17,000 was appropriated for the maintenance of the home. There are now 157 children in the home. At the night session the officers were installed. The annual budget-appropriation bill was passed and some appeal matters were disposed of.

#### Ketcham Is Awarded \$21,666.33.

"I will buy a little railroad and hire John C. Stuart for section boss," declared Fred R. Ketcham, when asked what he would do with the \$21,666.33 which was awarded in his case against the Chicago & Northwestern railroad for alleged conspiracy and blacklisting. Ketcham was almost too excited over his victory to say anything. He paced up and down Lawyer Strong's office, proclaiming his desire to break up the office furniture to ease his feelings. Judge Clifford's courtroom was crowded with railroad men and lawyers waiting to hear the verdict of the \$25,000 damage case. A buzz of astonishment ran through the court as the amount of the damages was read. As the jury filed out of the box he rushed up and shook hands with each member, thanking him for the decision. Ketcham said: "My rights as an American citizen were at stake and I got the privileges guaranteed me by the constitution because I had a jury composed of American citizens. This case will teach corporations a lesson. I would not have fought it if it had not been for the sake of my family." He is firm in the belief that the decision of the trial court will be sustained on appeal. It took just three hours for the jury to arrive at the verdict. The first ballot stood nine for conviction and three for acquittal, the next 11 to 1 and the third brought the one into camp.

#### Accused of Flogging Her Pupil.

Carlyle.—Miss Minnie Reckerman, a school mistress, will face the charge of assault and battery in a justice court. She has charge of a school near Keyesport, this county. Among her pupils is the 10-year-old son of A. J. Alexander. The father alleges that she flogged his boy so severely that he was compelled to remain at home in bed. He claims the legs of the youth were black and blue. On the strength of these allegations a warrant was issued today charging assault and battery. Miss Reckerman appeared in court and asked for a continuance until Saturday. It was granted after she furnished a \$300 bond. The whole community is stirred up over the case, some upholding the teacher, while others are anxious to see her heavily fined. Thus a bitter feeling has been aroused, and the result of the trial will be eagerly watched for.

Decatur Telegram.—The annual convention of the Woman's Missionary Societies of the Methodist church of the Decatur district began at the First church in this city with a large attendance of delegates from many towns and cities. Addresses were made by Rev. Frost Craft, Mrs. C. P. Hard, Mrs. D. C. Corley, Rev. E. B. Randle, Mrs. W. A. Smith, Mrs. N. E. Adams, Mrs. A. H. Reat and others. Miss Vickery, a returned missionary from Rome, Italy, gave a lecture in the presence of a large audience. She told of the progress of the work at the home of the Pope.

One of the attractive booths at the Baptist church bazaar will be the candy booth, where a gentleman from Chicago will make candy and taffy where you can see him.

The topic at the Baptist church tomorrow morning at 10:30 o'clock will be "A Little Salt;" evening, 7 o'clock, "Society in Heaven." All are welcome.

R. E. Sheehan solicits the patronage of all Barrington citizens who intend wiring their buildings for electric lighting. Leave orders at John C. Plagge's store. He guarantees first-class work at reasonable rates.

WANTED.—Correspondents all over western Lake and Cook counties where THE REVIEW is not already represented.

Charles Beinhoff and M. T. Lamey made a trip to St. Charles Saturday to help cheer the Palatine football team on to victory. They succeeded.

FOR SALE.—About 45 pair of roller skates—all sizes—at a bargain. Now would be a good time to open a roller skating rink. Call at THE REVIEW office.

THE REVIEW will be sent to new subscribers from now until January 1, 1899, for \$1.25. Take advantage of this offer by subscribing at once.

Mrs. Flora Lines is entertaining her brother, who has recently returned from South America, where he has been prospecting in the gold region.

The Baptist Sunday School is preparing an excellent program for Christmas named "Santa Expected", which promises to excel anything in that line ever presented in Barrington.

The Busy Brownies were indeed very busy on Thanksgiving eve as several families in Barrington will testify, and if any one doubts the truth just enquire of the Brownies.

George Wagner shipped 130 dressed young pigs to Chicago the last two weeks, besides 650 pounds of poultry. Mr. Wagner expects to make a big shipment of pigs and poultry Christmas.

The M. E. Sunday school appointed its committees last Sunday to make arrangements for the Christmas exercises. The exercises this year will be the best ever given by the school.

The Epworth League will hold its monthly business meeting next Tuesday, November 30th, at the home of Mr. and Mrs. J. W. Kingsley. All members of the League are requested to be present.

Bishop Horn of Cleveland, Ohio, will be here Wednesday, December 1st, and preach at the Zion's Evangelical church both afternoon and evening. The reverend gentleman will preach in German in the afternoon and in the evening he will discourse in English.

Sidney Heath, one of the pioneers of this section, died at his home in Elgin Sunday. He was aged 85 years. One of his sons, Warren H., lives at Barrington. Mr. Heath was the last surviving charter member of the Elgin M. E. church.—*Nunda Herald.*

Bishop Wm. Horn of Cleveland, Ohio, of the Evangelical Association, will preach at the Zion's church, Wednesday Dec. 1st. In the afternoon, at 7:30, in English. Everybody is cordially invited to come and hear the bishop.

Mr. and Mrs. Samuel Landwer honored their first wedding anniversary Thursday evening. Besides intimate relatives the Barrington Military Band was present. After a few selections played by the band an oyster supper was served followed by a social good time.

The Dorcas society and friends, who have been working so faithfully during the past weeks, are glad to announce to the public that the bazaar will be held in the parlors of the Baptist church on December 9th and 10th. Almost anything in the line of Christmas presents will be for sale at the bazaar. All are welcome to attend.

The Rev. C. H. Rogers of Cleborne, Tex., has notified the First Universalist church of Elgin of his acceptance of the call to the pastorate. Mr. Rogers was born and reared at Barrington, Cook county. His two sermons given here, within a few months, pleased the church.

The entertainment given by the W. R. C. at the M. E. church Thursday evening was a great financial success. The ladies representing the "Peak Sisters" were dressed in appropriate costumes. Some splay and original puns were indulged in.

"What Mr. Moody is Doing" will be the theme of two workers of Moody's Institute at the M. E. church tomorrow evening. These young men are excellent singers, and the music of the evening will be most attractive. There will be solos and duets full of inspiration. All are invited to attend.

Nightwatch A. S. Henderson was assaulted Saturday night by two railroad men, who made their escape for the time being. Only a slender clew was sufficient for our able police official, Marshal Sandman to locate the

miscreants and put them behind the bars Sunday morning where they were viewed a few minutes later by Officer Henderson, who positively identified them. They gave bonds for their appearance Monday evening, when they discovered that Saturday nights little escapade cost them over \$20, which they paid.

Messrs. and Mesdames John Westphal and Charles Grom, and Messrs. George M. Wagner, Wm. Elsner, Fred Jahnholz, Herman Haase and Henry Ahlgrim attended an entertainment and dance given at DesPlaines by the Plattdeutsche Gilde of that place Sunday. All report a most excellent time.

The Chicago Telephone company is soliciting subscriptions for coupons to a certain amount, in consideration of which they will connect Barrington with Chicago and other cities by telephone. If a sufficient amount of the coupons are sold the line will be put in at once. They are not asking for a bonus, they simply want the citizens of Barrington to give them a guarantee as to the amount of business they may expect during the first two years. If you can use the telephone for \$5 worth, or a greater amount, in the next two years, place your name on the subscription list for whatever amount of coupons you think you can use in the next two years. They are accepted as cash for service over the line, and they are transferable. Subscription list can be obtained at this office.

### ADVERTISED LETTERS.

List of unclaimed letters remaining in the Barrington postoffice Friday, Nov. 26, 1897:

Franklin Bros., Mary J. Thomas, Dr. J. W. S. Howell, Edmond O'Connell, attorney.

H. K. BROCKWAY, P. M.

### The Civic Reorganization of Japan.

The reorganization of the whole fabric of public administration was one of the first cares of the imperial government after the restoration. It may be said in general that the aim was to establish an administrative system based as far as practicable upon western models. As a necessary result, the feudal lords surrendered their fiefdoms to the central government and all their administrative powers and functions, which had hitherto been widely distributed among subordinate dignitaries and officials.

One of the most significant changes was the abolition of hereditary office and the elevation of men of comparatively low rank to offices of the highest dignity and influence. Such other changes as experience showed to be necessary were adopted from time to time, until in 1885 the present executive system was established. It consists of a cabinet, composed of the ministers of the several executive departments, presided over by the prime minister, and of a privy council, which acts in an advisory capacity. The empire is divided into prefectures under governors appointed by the central government.—*Toru Hoshi in Harper's Magazine.*

### Horrible Benin.

When the expedition took Benin City, they found the altars covered with streams of dried human blood, the stench of which was too awful, the whole grass portion or the compounds simply reeking with it. In the corners of these compounds huge pits, 40 to 50 feet deep, were found filled with human bodies, dead and dying, and a few wretched captives were rescued alive.—*"The Benin Massacre."*

### A Sign.

"I know," said the somewhat irresponsible friend, "that you don't believe in signs in the ordinary sense. But don't you sometimes find yourself in circumstances which cause presentiments of evil?" "Yes. Every time some people ask me for a loan I feel as if I were going to lose money."—*Washington Star.*

One of the quickest known ways of dispelling a headache is to give some of the muscles—those of the legs, for instance—a little, hard, sharp work to do. The reason is obvious. Muscular exercise flushes the parts engaged in it and so depletes the brain.

The first great international exposition was held in London in 1851. It lasted 144 days, there were 6,000,000 visitors, the receipts were \$2,500,000 and the expenses \$1,500,000.

### FUR COATS.

If you are interested see Reese, Lemke Co. of Dundee. They are headquarters for this line of goods. Their coats are all first-class, ranging in price \$10.00, \$12.88, \$14.88, and up to \$30.00.

### Alleged Gotham Dialect.

This contributor, however, is not deaf to the dialect of the born New Yorker. "The New York boy, city born and bred, can be detected in a moment by the peculiar way in which he pronounces the 'ur' sound in such words as 'birth,' 'bird,' 'earth' and 'heard.' \* \* \* The queer little twists that enter so largely into the language in marrying one of the cardinal sounds that compose it are thus expressed in Gotham tongues: 'Ur-yith' is how a New Yorker says 'earth'; 'hur-yid' for 'heard,' and 'mur-yid-der' for 'murder.' Those of us who were born in New York have heard the public schoolteacher insisting upon this peculiar twist. Most of us, too, have heard nice, careful little girls on the way home from school correcting careless companions by insisting that 'you mustn't say burd; you must say it nicely, bur-yid.'"—*Boston Journal.*

### Dean Vaughan.

In speaking of the late Dean Vaughan of Llandaff The World of London says: "Mrs. Vaughan is probably the only person now living who could disclose the number of bishoprics which her husband refused between 1855 and 1863. Lord Palmerston is said to have at one time offered Dr. Vaughan every see which became vacant, and the queen and the prince consort were most anxious that he should accept a bishopric, and so also were divines of such very different church views as Archbishops Sumner, Longley and Tait, Bishops Wilberforce, Lonsdale and Hamilton, and Deans Milman, Wellesley and Stanley."

### DRESS GOODS.

Our Dress Goods department will interest all who are looking for new things, and low prices.

REESE, LEEKE CO., Dundee.

It now looks as if there would be a gold boom in the Minook river district. Rampart City, 250 miles below Dawson City, on the Yukon, is the center of the new goldfield. This district is in Alaska, on our own side of the line. It is also accessible at all times to St. Michael's, and therefore there will be no danger of starvation within its limits. Rampart City was the point at which the last boats up the Yukon were obliged to stop because of low water this fall. The fact that boats can ascend that far in the lowest stages of water will make Rampart City an important depot of supplies. The additional fact that it is the center of a promising American goldfield will add to its importance. Town lots in Rampart City ought to be valuable.

### OVERCOATS.

Cold weather will soon be with us and you may want an overcoat. If so, remember Reese, Lemke Co., the big firm at Dundee, have laid in a complete stock. They carry nothing but first-class stock. It will pay you to post yourself on the prices and goods before you make your winter purchases.

The best Christmas gift of all can be found at Lyon & Healy's great Holiday Musical Sale. Everything known in musical instruments is displayed in their six great floors, corner Wabash avenue and Adams street and an acceptable present may be found to suit every purse. No one should neglect making this display a visit. Visitors are freely welcome. Musical Boxes sell from 35 cents to \$250, and from \$1.00 to \$10 the choice of musical gifts is fairly bewildering. Acopy of the Lyon & Healy Annual for 1897 containing a fine new two step and a charming ballad, free to every caller. Lyon & Healy, Wabash Ave. and Adams St., Chicago.

"The worst cold I ever had in my life was cured by Chamberlain's Cough Remedy," writes W. H. Norton of Sutter Creek, Cal. "This cold left me with a cough and I was expectorating all the time. The Remedy cured me, and I want all of my friends when troubled with a cough or cold to use it, for it will do them good." Sold by A. L. Waller, Barrington, and A. S. Olms, Palatine.
