WEDDING MENTION.

While on the center table in the parlor and the children looked out. Any room in any home that is too good for the children to play in, should have the children in it.

No one ever sends the boys in the house, getting into the carpet from the living room, that is to say, the reason that so many of them get away from their parents, is that they do not enjoy the companionship they find in the drawing, cigar stores and dance parlors.

The capitalist who is wholly engrossed in his business had better be contented to pay the interest on his loans today, for it may take half a century to pay the interest on that investment. Freely and wisely spent money will never keep the boys at home, but companionship in joy and sorrow will. The mother who does not like to have the children hanging to her skirts ought to try to trade them off for good dogs. A boy's best friend is his mother. If she gives all her love to his mother, he will never be a delinquent.
