FEMALE WEAKNESS

Dr. J. C. Williams, M.D., 111 N. 1st St., Philadelphia, Pa. writes: "I have treated many cases of female weakness, and I can assure you that the treatment is simple and effective. The most common cause of female weakness is a deficiency of iron in the blood. This can be corrected by taking a course of my 'Pink Pills for Pale People.' These pills contain iron and other essential nutrients, and they are easy to take and pleasant to the taste. I have seen many women who were unable to work or who were suffering from general debility, who were cured by this treatment. It is a simple and effective remedy for all cases of female weakness, and it is available at all drug stores."
