

HELPPUL IN DISHWASHING.

There is no longer any need of hand-scrubbing in washing dishes. One of the most important of modern advances in kitchen labor is the use of the housekeeper in a device recently developed by the social scientists. This device has a special capacity to take the suds from the water, and thus it permits the use of the water to be so much cleaner and more comfortable. It is also so simple as to be used by the most delicate of women. The device is so simple as to be used by the most delicate of women. The device is so simple as to be used by the most delicate of women.

Still Another Case.
 Kirkland, Ill., May 31.—Richard H. Deconder, of this place, is another case of the disease known as rheumatism. He was attacked by the disease in the middle of the winter of last year. He has since been unable to get on his feet.

AN ILLINOIS FARMER IN WEST.

A front farm of the Barryville, Illinois, District contains a long and interesting letter from the author, formerly a progressive farmer of that state, who recently migrated to Western Canada, taking up a claim for himself and each of his three sons. From Mr. Scott's letter, which was written Feb. 13, 1910, it is plain to see that the writer is a man of business, believing it will prove of interest to those who have contemplated settling in the Canadian Northwest.

It was in August, 1902, secured a claim for myself, and filed on three sections in the northwest corner of the township of Lake St. Anne, Ill., preparing ground for a first year's crop. We secured a very fine potato, and secured a few more of the same kind. We secured a few more of the same kind.
