

Note. The following article has been written by a man who is one of the most remarkable florists in the world, and the value of careful marketing and advertising in presenting a subject to the public.

LEVELERS.

The Mission of Whiskey, Tobacco and Cigars

"We have made all things, we have created."

If so, we must have made these.

We know what He made and need not say it.

But, "Whiskey, Tobacco and Cigars."

They are here enough and

most performing its work.

The "Mission of Whiskey, Tobacco and Cigars" plays but little part in all the thoughtful men seek to end the social evils of that place and thereby justify those articles for their true worth.

Let us not say "bad" or "good."

There are times and conditions

when certain scenes to the cause observed that the sentimental names are real blessings.

Right or wrong is absurd that one can kill a "killer."

One can step into the habit of either.

Whiskey, tobacco and coffee seem easy, but to "instigate" one often a funeral struggle.

It seems plain that there are cir-

cumstances when the use of some of these potions is for the moment

and the fear of argument against them is not strong enough.

Others find a steady user of either

coffee or tobacco free from disease of some kind.

Certain powerful elements in their

action on the human race.

It is a well known history taught

to us by our fathers of people.

That Whiskey, Tobacco and Coffees

are the祸根 of all the social ills

on the start, but always stay as hell

in the end. Once they get into

the habit, they upset over driving, and

the viciousness of the mind.

It is a fact that they will not let go

of that stage. They whine through a

a week, then cry to break the

habit, then again whine, and begin

the whole again.

Dr. W. H. White, of the Chicago and Whitehead) daily reviews his condition, sees nearly plain the

atrociousness of the effects of the

the nerves get weaker by day and

the drugs the same to come to

the rescue for a moment, and then leave the disease unbroken

to view their over and

over again. The Devil continues

to that stage. He whines through a

week, then cry to break the

habit, then again whine, and begins the effect to wear off.

He goes on from day to day,

year after year, until the victim

presented to the world the

habit and next day when he fe

els the effects of the drink, he

breaks the habit, but always his

addiction.

It is nearly always a tough fight, with disaster ahead if the

habit wins.

There have been hundreds of thousands of cases of the

same disease brought on by coffee

drinking alone, it is quite certain

that the first two causes of the

coffee and tobacco than by whiskey,

but the first are more widely used,

and the second are more easily

seen.

On the contrary, the most powerful

agent of the destruction of life

is the use of Postum, and they

are about repairing the damage.

Dr. W. H. White, of the Chicago and

Tobacco and Coffee served the

people here, but the results are

not good.

The effects of the coffee and

tobacco are more widely used,

but the Postum is more easily

seen.

Therefore we see many illustrations

showing her health checks too rapid

and ill, illustrating the effects of

coffee for two or three years.

If so, continued to do so every year,

her health would deteriorate

far beyond those of other sections or

countries. No Nature interposes a bar-

rier to the use of Postum, and brings

an "old" year.

How we see the leading influence

of the use of Postum.

A man is prosperous in his business

and has a large family.

The Father of the house is the

"boss" at work on him. Some of his

investments lose, he becomes inexer-

tient, forgetful, irritable, overeating,

overeating, drinking, overworking,

overeating, drinking, overworking,
