Fall to Reach Agreement With Operators and Leave When Contract Expires.

FIFTY THOUSAND ARE IDLE

of the United Mine We

Chicago, III., special: Eight hundred engineers who run the hoisting mechinery of the mines of the Illimois Coal Operators' association went on a strike at midnight Monday, closing 255 mines and throwing 50,000 miners

look on. The strike was consed by an at-tempt of the operators to reduce the wages of the hoisting engineers £35 per cent. This the engineers refused, and then the operators' association and the the operators' association which, in turn, was refused by the operators' are the opera-tors and the control of the operators' are time limit expired with the month of October, so the engineers ordered the strike.

strike.

All hoisting machinery in the mines is stopped, and work is impossible in most of the shafts until the hoists are again in operation.

again in operation.

Strikers Make a Statement.
The following statement, issued by
Secretary Jenkins, gives the engineers'
version of the situation:

secretary Jenkina, gives the engineers where the services of the state of the coal operators in the engineery controversy in the engineery controversy in that the engineers should submit to the reduction of wages that all the coal operators are the mines have done.

This argument is answered by the engineers with the claim that they have set been advanced with the other was been advanced with the other was the engineer with the claim that they have such been advanced with the other was always to be engineers agare to the engineers agare and strates to the engineers agare to all the engineers and the engineers are all the engineers and the engineers and the engineers and the engineers and the engineers are all the engineers are all the engineers and the engineers and the engineers and the engineers are all the engineers and the engineers and the engineers are all the engineers and the engineers are all the engineers and the engineers and the engineers are all the engineers and the engineers are all the engineers and the engineers are all the engineers and the eng
