A. B. Reeler had a complaint against the board. He said that he had built 152 feet of cement walk on the lot of Mrs. Roberts. The walk was only four feet wide and he stated he was compelled to place the walk on the lot of Mrs. Roberts. There is a walk, he stated, between his place and the Drews house upon which the walk was placed. This request was referred to the committee on streets and sidewalks and they were granted power to act as they thought best. It is probable that they will have to order a bill for the same.

On the 14th of this month the board had a meeting and adjourned at 10 o'clock. The license commission received this morning a report at the meeting of the committee on streets and sidewalks. Their recommendations will be favorable to the board.
