A POWER IN ILLINOIS

Women's club organization in Illinois has become a power to be reckoned with; latest statistics show that there are 2,000 distinct clubs with a combined membership of more than 30,000.

Most men are familiar with what one woman can accomplish when she tries, when 20,000 of them get busy along any particular line, something is going to drop.

Illinois club women are not given to radical and sensational crusades. Their efforts mainly are directed along lines of benefit to the community. This makes their growth in numbers and influence a matter for congratulation rather than apprehension.

Christmas trade all over the country promises to smash all previous records. This is another fall in the office of those executives big and little who have been raising the cry of "all over the country. When they cry "Well! it's safe for the people to answer with "Yes!"

They think with the impetus they can easily beat the record of 107 feet made in Europe. The present American record is 144 feet. The trents will be 30 feet high, 150 feet long and have an incline of 50 degrees. The hill and trents will measure 30 feet from top to bottom.

The Extraordinary Range of Electricity as a Servant in the Home

has enabled the invention of a host of APPLIANCES to REDUCE WORK, add BEAUTY to the surroundings and increase the COMFORT of the family. The subject becomes of special interest at this time of the year—THE SEASON OF GIVING AND RECEIVING GIFTS. For whether it is a machine for heavy household work or a dainty table lamp, ELECTRICAL APPLIANCES ALWAYS PLEASE THE EYE. Decorative lamps are many of them real jewels in bronze, copper, Etruscan and Opalescent glass.

We show an interesting line of appliances at our sales-rooms at Park Ridge, Antioch, Crystal Lake, Waukegan, Highland Park, Evanston, Harvey, Chicago Heights and LaGrange and sell everything electrical at the lowest prices.
