ALL STEEL and TWO YARDS WIDE. This is a lot more in this picture than meets the eye, though the eye has plenty to sparkle about in the stunning style of this spirited Buick car. What you don't see here is the lift that's yours when you touch off the flashing power of Buick's valve-in-head straight-eight engine and go streaming off across the map. What you don't see is the solid, steady feet of Buick—the firm stability that holds you on the line without wavers or sway or wander on straightaways or on the curve. What you don't see is the assurance you'll know once you step on Buick's three brakes and see how surely and safely they make you master of its power. We can't picture here the security that's yours in a body of steel-fused-to-steel—with floor, roof, side panels, cowl all welded into one stout unit of protective metal. And only time can tell you how big is your money's worth in Buick—all steel and two yards wide, a big package that's your one best bet of the field when you add the superb action that gives its metals life. All we can do is show you how a Buick looks—and handsome as this gallant traveler is, remind you that its good looks are literally the least of what it has to offer. Go try a Buick now!
