portment and the foundation of an equalization board for the more even spread of assessment. He compared this present set-up in Cook county with methods formerly used.

The Countryside Property Owners' association, he stated, was in a position to render service in assisting in finding true property values for assessment.

Both men stressed the fact that the present tax method is spent locally, and suggested that those present become better acquainted with officers of local taxing districts to learn how funds are used.

A resolution was unanimously adopted suggesting that route 55 be recommended for permanent location through the village at its western end, between Dundas avenue and the limits, but not in the country. A committee of five is to be appointed to meet with the Barrington park commissioners and other interested persons to learn public opinion.

The committee will also investigate the proposed re-routing of highway 60 (Rand road) around Lake Zurich. The committee expects to contact the newly organized Lake Zurich Community Boosters' club in regard to that situation.

Committees will also be appointed by V. D. Hawley, supervisor of the town of Barrington, and Harry Washo, supervisor of the town of Elia, to meet with a committee already appointed by the town of Cuba, for the purpose of examining and placing signs on the three township roads.

H. D. Kelsey, supervisor of the town of Cuba, Mr. Hawley and Mr. Washo were present at the meeting, and as well as discussing roads, spoke on the operation of their respective townships.

Park commissioners, village officers and township officials were present at the meeting.

In addition to the committee for the two routes, one will also be appointed to zone property where signed contracts of agreement are effective. This will operate in conjunction with the present zoning committee headed by F. L. Bateman.

Chairmen from last year for the following standing committees were re-appointed by Mr. Hecht. They are as follows: administrators; George F. Harding, roads; Malcolm Shroyer, education; Fred A. Poole, roadside beautification; Dr. Paul B. Magnuson, conservation and wild life; F. L. Bateman, zoning; George O. Fairweather, civic affairs; Frank A. Hecht, tax; O. S. Casper, transportation; Paul W. Trrier, police and fire protection; W. P. Sidley, legal and legislative.
