"Slow Fire" often rots roof beams and studs before staked walls and ceilings give warning. "Slow Fire" results from the combination of moisture, dirt and warmth. A fire-safe Barrett Asphalt Shingle Roof is protection against "Slow Fire" as well as Four Fire. Put it on right over your old roof and be sure your home is weather-tight, water-tight... and fire-safe!

"IT LOOKS THE SAME BUT THERE'S A DIFFERENCE!"

"You know, during the depression we felt we ought to cut expenses everywhere. We didn't want to give up our telephone entirely, so we changed to a party line. And it was very satisfactory, considering everything. I haven't any complaint to make about it at all. "But how nice it is to have an individual line again! It's our own telephone now. No one uses it except ourselves... there aren't any delays waiting for other people to finish talking. And it costs only a few cents a day more than the party line did. John says he wonders why we waited this long before changing back."
