Plan Program for PMA Neatest Farm Winners Sept. 17

Fifty-one medal winners in the fourth annual Chicagoan neatest dairy farm project, sponsored by the Pure Milk association, will be awarded gold, silver, and bronze medals on Pure Milk farms field, Friday, Sept. 17, at Soldiers Field, Chicago.

The presentation of awards will be part of an all-day program of events winding up farm festival week of Chicago's Charter Jubilee. Nearby parking space for 10,000 members and ample picnic facilities on Chicago's beautiful lake front have been turned over to the association by Mayor Kelly.

A feature will be the first national farm olympiad, with cash prizes totalling \$540.

Pure Milk association directors are now seeking the champion milk maid in their territory to compete with 15 other milk maids, including one Chicago girl, for prizes of \$50, \$25, and \$15.

Spiders' Poison Glance
All spiders have poison glands and use them in capturing prey, but with most spiders the mandibles are so small and weak that they are incapable of piercing the human skin, and if they did the small amount of poison injected would have no deleterious effect. With the large tarantulas it is different, although cases of reported deaths from bites are few and doubtful. The only spiders which are really poisonous to human beings are in the group which includes the Black Widow.
