"TIME" MISSES ITS MARK

Time Magazine prides itself on its ability to get out only the most reliable news... In its issue of January 30, Time devoted three-quarters of a column to the Barrington Town Warning, finding a motive for the 14-day alert in its criticism of Dr. Ruth...

The speakers were all conservatives, the article stated... "Liberty" to the Time reporter apparently means a La Follette type of liberalism. The series was described as a "prodigious politico-religious piping."

It was not a prodigious politico-religious piping... The audiences have not been sufficed with religion, and no speaker has mixed religion with partisan politics.

The meetings have been an inspirational series of lectures which were held not all on the same side of the political divide... By H. V. Kallenborn. The fact that people from many suburban communities and Barringtonians fill the auditorium every night and with great overflow crowds twice, and that many, many persons have attended several of the lectures, proves their popularity.

BARRINGTON MOTORISTS PAY

Probably few people realize that a gas price war is in progress in Barrington which is not all on the same side of the stations are the aggressors, and at the same time the losers... For nearly half a year the local price of regular gasoline has been 19 cents a gallon. About a week ago, the stations raised the price to 20 cents but without getting any lower price from the wholesalers.

The fact behind the situation is that in the matter of gasoline prices, Barrington has discriminated against more than motorists of Palatine, Arlington Heights, Des Plaines, and Chicago. Possibly a little pressure on the big companies, brought by local motorists might help. A flock of letters could do us some harm.
