Trustee Gohl motioned to open the public hearing on the special service area for taxpayer comment. The date and time of the public hearing concerning the Flint Creek Reserves Special Service Area #1 for the 2007 fiscal year was previously announced. PUBLIC COMMENTS

President Abboud opened a thirty-five minute session for public comments at 7:54 pm.

Barrington Hills residents Judy Freeman and Tom Lidbury are candidates for the Unit School District 220 school board. Four of seven school board seats are subject to the April election. They spoke about District 220 matters as they pertain to Barrington Hills residents within USD220; indicating their concern for how the school district interacts with the Village, and also stating that they didn't think the school districts initiatives were in accord with community values. President Abboud inquired about the possibility of broadcasting the school board meetings, or posting a video of the meeting on the Internet. Opening communication between the Village and the school board rather than between the Village and the superintendent was also discussed. Concern was also expressed that USD220 advocacy groups do not currently include Barrington Hills residents. Trustee Knoop thanked Judy Freeman and Tom Lidbury for their initiative to represent Barrington Hills residents with respect to USD220.

Resident Pam Cools thanked Judy Freeman and the Village President for considering the Barrington Hills residents currently within USD300 who would like to be unified with other Barrington Hills residents who are in USD220. They were of the opinion that the division created by the boundary between the two school districts causes an artificial division within the Village.

Resident Mike Zachar addressed the Village Board next, on the subject of cell towers. He indicated that he is an expert in the development of surveys, and stated that he was concerned with the Village's survey on quality of cell service. President Abboud asked if Mr. Zachar could lend his expertise to assist with the creation of future surveys for the Village.

Resident Benjamin LeCompte inquired about engineering studies on DAS systems (distributed antenna systems). This option is under consideration by the Technology Committee.

As there were no further remarks, the public comments session ended at 8:37 pm.
