Re: 1977 Supplemental Street
Maintenance Program

Dear Jack:

Pursuant to your request of August 29th, we have prepared an estimate of probable cost for widening the pavement over six hills on Ridge Road. The work would include widening the existing surface one foot on each side and providing a four foot clear shoulder on each side of the widened surface. All existing vegetation within the widening shoulder and backslope areas would be removed as part of the improvement. No restoration costs have been included in the estimate.

The estimate is as follows:

Hill #1	-	\$1,370
Hill #2	-	2,590
Hill #3	-	1,920
Hill #4	-	3,460
Hill #5	-	1,370
Hill #6	-	<u>2,160</u>
TOTAL	--	\$12,870

Bids received on this work may range from the estimate by as much as 10% to 20%, depending on how much work contractors have under contract.

The estimated cost of correcting the tilt in Spring Creek Road, which we omitted in our previous transmittal, amounts to \$2,200.

If you have any questions on the estimates, please call.

Yours truly,

HAMPTON, LENZINI & RENWICK, INC.

R. E. Lenzini
R. E. Lenzini, P.E.
