29 Graduates of Barrington H. S. Away to Schools

Various Different Institutions Represented by Local People

The graduates of Barrington High School are attending colleges and universities in various parts of the country. The group includes students from the University of Chicago, the University of Wisconsin, and the University of Illinois.

61 Attend Ternau Family Reunion

Sixty-one descendants of the early Ternau family of Barrington and Elmhurst attended a family reunion held Sunday afternoon at the Barrington Park camp grounds.

Although the original family including father and mother and three daughters have been dead for years, the descendants have organized an annual family reunion affair.

The group met in the middle of the afternoon and visited for several hours after which they concluded the picnic with a pot luck supper.

Meeting Planned as Farewell to Bird Club President Held After He Had Left to Attend School

When the Barrington Bird club met Tuesday evening of this week in a session which was planned as a farewell for James Plagge, president of the organization since Sept. 3, 1926, the members were apprised of the fact that the intended guest had departed for Ames, Ia., to attend college.

The meeting was held at the home of Mr. and Mrs. A. J. Donovan, Hanover Hills. In place of the farewell meeting, a regular monthly session was held with Mrs. R. G. Work, vice president, presiding.

An interesting talk on the cardinal interspersed with humorous folk lore regarding the bird, was given by William A. Eakin.

Miss Olive Dobson rendered three vocal selections: "The Forest of Oaks" by MacFadden, "The House That Jack Built" by Sydney Homer and "In the Shadow of the Cottonwood" by Charles Wakefield Cadman.

The lecture of the evening, "Special Adaptations Found in Bird Plumage," was to have been given by James Plagge, the president of the club, but in his absence was read by Mrs. E. E. Gieske.

The club planned a farewell for James for this meeting and wished to present him with a gift, two books, "The Camps and Cruises of an Ornithologist" by Frank Chapman and "Birds of the United States and Canada" by Thomas Nuthall. These will be sent to James by Mrs. Work.

A scrap book of articles relating to the various events of the club, with clippings from the Barrington Review dating back to the beginning of the organization and the annual programs compiled by its president, was then reviewed by the members.

Delicious refreshments and a social hour concluded a delightful meeting.

State Will Widen N. Hough Street to Northwest Highway

40 Foot Width Planned From Main Street to Highway 19

Hough street will be improved with hard surface 40 feet wide all the way to the Northwest highway and the Hough street crossing will be made a full 40 feet in width instead of tapering from a 40 foot width at the south to a 20 foot width at the north side of the tracks.

This improvement of one of Barrington's principal streets was decided at a conference of officials from the state highway department, the Chicago & North Western railroad, and the village of Barrington, which was held in Barrington Wednesday morning.

The conference was arranged by a committee of the Barrington Chamber of Commerce consisting of D. J. Heffernan, W. A. Danielson, and Frank Plagge.

Among the officials who were in Barrington were D. V. O'Connell, North Western roadmaster, and Mr. Rausch and Mr. Miller from the district highway offices.

Smooth Crossing According to the completed plans for the improvement of Hough street, the village will pave the road (to a 40 foot width) from Main street to the railroad tracks, the North Western will elevate the north tracks sufficiently to be in line with the main tracks and permit a smooth crossing; the state highway department will pave with asphalt between the tracks and create a 40 foot improved crossing; and the state will also improve North Hough street from the tracks to the Northwest highway by paving with macadam two outer strips which will widen the hard surfaced road to 40 feet.

A contract is to be awarded by the village Monday, Sept. 28, for paving the south part of the road, so that work probably will be started the first week in October.

First Baby of the Month Club Formed by Local Merchants

Whose will be the lucky baby? Barrington merchants are preparing to give the first baby born in October in Barrington, Lake Zurich, Fox River, Groveland, or rural territory around Barrington, a royal welcome.

This will be done under the auspices of the First Baby of the Month club, newly formed organization which is planning an array of attractive gifts for the first infant to arrive in October.

These gifts will not all be for the baby, however. Several merchants believe that the mother is deserving of a gift, while some or two possibly will remember the otherwise neglected father.

Fathers or other relatives or the doctor will register the arrival of the new born infants at the village clerk's office. The exact minute and hour of arrival will be necessary. Fathers of infants born in rural homes can register at the Barrington village clerk's office or at the office of the Barrington Review.

Full details of this birthday party will be published in The Review next week.

Funeral Services Held Saturday for Mrs. Ernst

Funeral services were conducted Saturday for Mrs. Ida Ernst of Lake Zurich whose death occurred early last Thursday morning. Services were conducted in the William Gottschalk home in Barrington and in the Evangelical church at Lake Zurich with burial in the Rivergreen cemetery, Barrington.

Mrs. Ernst was taken ill Wednesday afternoon and became steadily worse until leaving when she was removed to the Barrington General hospital. Her death occurred at 12:10 a. m. with her husband and children at the bedside.

Mrs. Ida Reese Ernst was born August 19, 1870 in Elm township, daughter of Mr. and Mrs. August Reese, near Catlow's corners. She grew to young womanhood in the community and worked several years in the A. W. Meyer store in Barrington. In March, 1902 she was married to Carl Ernst who was conducting a store in Lake Zurich and with the exception of a year spent at Lake Mills, Wis., has lived at Lake Zurich.

She was confirmed in St. Paul's church, later transferring her membership to St. Peter's, Evangelical church, Lake Zurich. She was past president of the Ladies' Aid and Lake Zurich P. T. A., a member of the Lake Zurich Community Women's club, Lounsbury Chapter O. E. S., Barrington; Armithea Shrine, Des Plaines.

Mrs. Ernst leaves to mourn her departure her husband, Carl Ernst, two sons, Edward and Ira, and daughter, Mrs. Irene Butt, five sisters, three brothers, and a host of other relatives.

Barrington Will Have Community Orchestra

Due to the efforts of W. N. Sears and other people interested in ensemble music, Barrington will have a community orchestra.

The first rehearsal is to be held in the basement of the Baptist church, Saturday, Sept. 19, at 6:30 p. m., with instrumentalation as follows:

Six 1st violins, four 2nd violins, two cellos, a bass viol, a piano, drums, a 1st clarinet, two 2nd clarinets, 1st and 2nd trumpets, and a trombone.

These will be added to as interest in this movement increases. The Baptist church has donated the use of its basement for rehearsals, and has also supplied financial aid to purchase the first music.

If this organization receives enough cooperation it finally will develop into a symphony orchestra by the addition of oboe, bassoon, horn, and some more string instruments.

Village Tax Levy Cut \$8,500 Below '31 Appropriation

Costs of Running Barrington Affairs Less Than Estimated in Spring

A village tax levy of \$52,000 to cover the expenses of running the village during the fiscal year of 1931, was made by the board of trustees at the regular meeting held Monday night. This figure represents a saving of \$8,500 from the budget of \$60,500.

This budget was set in the annual appropriation made June 1. Practically all of the items are the same as in the appropriation except the maintenance for streets and alleys which has been trimmed from \$10,000 to \$7,000 and the maintenance of water works for which no levy is asked. In the appropriation a budget sum of \$5,500 was set.

The items as covered in the tax levy are: interest on bonded indebtedness, \$5,000; payment of maturing bonds, \$4,700; miscellaneous and incidental expenses, \$3,000; maintenance of streets and alleys, \$7,000; maintenance of special assessment No. 8 sewer system, \$3,000; for salaries of officers, \$3,500; for salaries of employees, \$8,000; for lights, \$2,500; for fire equipment and maintenance, \$2,500; for maintenance of library, \$1,800.

Of the above amounts, one item that of \$5,000 for payment of legal expenses of the village, is the amount due to cover costs of the sewer case tried in circuit court at Waukegan. This is the last costs on a case started several years ago and ended last spring.

Nine State Highways Closed Near Chicago

Nine state highways within a radius of thirty-five miles of Chicago will be barricaded this weekend, with resulting detours in effect, according to the weekly road report of the touring bureau of the Chicago Motor Club.

The state highways on which detours will be encountered are 4 (Lafayette road), 5 (Lake street), 6 (Hosier road), 13 (Ogden avenue), 19 (Northwest highway), 21 (Milwaukee avenue), 40 (Mannheim road), 54 (North avenue), and 58 (Evansville road).

A number of county highways and that detours likewise will be encountered on these routes. Among the more important of these are 10 (Hawthorne), 11 (Southwest highway), Lincoln avenue, River road, Ninety-fifth street and Crawford avenue. While in most instances the detours routes are fairly adequate and well marked, it is suggested that motorists map their routes with a view to avoiding them if possible.

Try to Solve Sewer Muddle as Court Appeal Is Prepared

Additional plans for Barrington sewer construction to remedy the present involved situation, have been drawn up by Edwin Hancock, village engineer, and have been taken under consideration by the board of trustees.

Members of the village board are attempting to find a satisfactory solution to the muddle without involving too much expense to the village. Notice of an appeal of the sewer case which was decided in May against the village of Barrington has been filed with the clerk of the supreme court of Illinois, and if the decision of Judge Shurtliff is to be carried to a higher court, the appeal itself must be filed by October 15. In event of an appeal, the case will be heard at the December term of court with a ruling expected by April.

Whereas there is no way to determine the cost of an appeal, it has been roughly estimated at from \$3,000 to \$4,000.

The village board in session Monday evening heard several requests from residents. George Wilhelm appealed to ask permission to use the water mains for construction of private property water systems. The trustees voted to grant the request.

Mr. Wilhelm has been refused the right to make taps, but the board, on the grounds that he is not a master plumber, the board decided that journeyman plumbers have the right to make taps under the present statute and ordinance laws. The petitioner was advised to make taps where he had contracts for the work.

Mr. Hancock, village engineer, submitted plans for a new subdivision contemplated by Jewel Tea Co., Inc. This is not a subdivision plan for the present time but is one for which tree planting will be done this fall. Although entirely on land owned by the company, the authorities of the village board, the trustees passed a resolution of opinion that the plan would be satisfactory if and when it is submitted for a subdivision.

Protection of Hen Pheasants Is Left to Property Owners

Game Code Law Expires Can Preserve Birds by Prohibiting Hunting

Due to a wide open breach left in the Illinois game code through an apparent oversight on the part of the legislature or department of conservation, hen pheasants and other female game birds ceased to be given protection Wednesday, with the net result locally that estate and farm owners will have to oppose vigorously hunting activities on their premises or else see the newly imported pheasants wiped out in an open season of infinite length.

The five-year closed season on pheasant hens expired Wednesday. The last game and fish code of Illinois, which became effective July 1, 1929, and was a continuation of a code previously in effect still protects cock pheasants, except during open season. The law is stated as follows:

It shall be unlawful to hunt, kill, take or destroy grouse, (except pin-tailed prairie chickens), quails, except bobwhites, partridges, woodcocks, wild turkeys, swans, PHEASANTS (except cock pheasants), and all shore birds, (except Wilson and Jack Snipe), plovers, black-breasted and golden, greater and lesser yellowlegs, elder ducks, and wood ducks until September 30, 1931.

Protects Cock Pheasants Then, under the exceptions are listed: Pheasants (Cock). It shall be unlawful to hunt or kill cock pheasants except between the 10th and 15th days of November, both inclusive, of each year. For any person to kill, in any one day, in excess of two cock pheasants, etc.

From the above excerpts it is evident that hen pheasants were given protection without open season until Sept. 30, 1931. That the department of conservation has failed to provide

One Fire Truck to Be Kept in Garage North of Railroad

More immediate fire protection for all parts of Barrington, trucks parked in garages on both sides of the North Western tracks, was unanimously decided by the village trustees at a regular meeting Monday evening.

Following receipt of a letter from F. C. Plesinger of the Jewel Tea Co., Inc., requesting the board to consider keeping one truck on the north side of the Chicago Northwestern tracks, the trustees decided to remove one of the trucks from the Gold Star building and park it in a convenient place north of the tracks. Ideas for housing the truck will be received from each garage north of the track. Several items will be considered in deciding the location, such as convenience and immediate accessibility 24 hours a day.

An informal discussion was held relative to dividing the fire department into two groups, a north side and a south side group, with the firemen living on one side of the tracks responsible for getting the trucks on that side of the tracks to the place of call first. No definite action was taken.

Another suggestion for improved fire department service was made by representatives of the Boyer Co. appearing before the board to request acceptance of their commercial plan. That plan is one for rural protection. A fire truck costing \$4,000 would be sold by the company representatives to rural residents near Barrington. The truck would be kept in a garage as part of the local fire apparatus and could be used for fires in the village. In return for this truck, the village fire department would have to keep it repaired and give fire fighting service with it to the rural districts.

This proposal was taken under advisement by the board.

Answer to Article Against Trustees Made by N. Maxon

Board Member Objects to Falsehoods in Front Page Editorial

Rumors that a recently elected village trustee had expressed the intention of selling his Barrington home and moving to the city, is the cause of some interesting and vivid confusions.

The trustee in question, elected practically on a platform of reform was, according to those familiar with the situation, largely instrumental in the village board's appointment of two important officers, those of village attorney and engineer.

Thus became a week-racking article against the board of trustees in general and one member, in particular, which was published in a newspaper sent to some Barrington residents last week. The trustee under discussion would necessarily be one of the three elected "reformers" but was not named in the article. Neither Earl Hume nor Ellen Gieske was especially energetic in the selection of both the village attorney and the village engineer, so the field narrows down to the remaining "reformers," elected trustee, N. T. Maxon, who answers the writer of the article as follows:

Attention Editor: "Few things are treasured more than our best thoughts. Time only makes them more welcome to the mind and more precious to the heart. To me one is this fact so manifest as to the one who throws his soul into a subject and after devoting days and nights to its development sends his labor forth to the good of the people in the form of clean, fearless public administration.

"To be as good as our fathers, we must be better. To serve our generation, as well as they did theirs, we must be better."

Horses Killed, Grain and Hay Destroyed in Barn Fire

Two horses were killed, 5,000 bushels of small grain and 150 tons of alfalfa hay were destroyed and the Spring lake farm belonging to F. L. Bateman southwest of Barrington, which broke out early Friday evening. The loss from the fire amounted to approximately \$10,000.

The fire which started from an undetermined origin, was discovered about 8 p. m. by Joe Dvorak, employee, who succeeded in rescuing several head of cattle from the blazing building. He was unsuccessful in an attempt to lead two draft horses from their stalls.

The Barrington fire department was called but was unable to get to the scene of the fire until the barn was beyond possibility of salvation. This was one of the largest barns in the Barrington district. It was nearly covered by insurance as were the contents.

Barrington Water Gets O.K. Following Tests

Barrington water is safe for drinking purposes although there was a slight turbidity and faintly earthy odor, in the Sept. 1 samples sent to the sanitary engineering laboratories, according to returns received by Samuel Peters, superintendent of the waterworks.

The odor and turbidity are probably due to new mains or other new construction work.

These results indicate that the water was safe to drink at the time the samples were collected.

On samples taken, the bacteria count was slightly higher than is desirable and a decided creosote odor was noted.

Domoneys Return Home After Interesting Tour of England

Mr. and Mrs. James Domoney, 502 Prairie avenue, returned Saturday after spending two months visiting Mr. Domoney's birthplace and many historical places of interest in England.

Mr. and Mrs. Domoney left Quebec July 11 aboard the steamship, Empress of Australia for Southampton, England. In going over they saw six icebergs and had six hours of sunshine in the eight days of crossing.

During their stay in England they visited the following interesting points: the Belle View zoological gardens of Manchester; the Salisbury Cathedral in southern England, the church that is said to have 365 windows; and Windsor Castle with its state apartment. In Windsor Castle they saw the "Queen's Doll House," which is exactly like the queen's home. Each article in the doll house works, for example the phonograph.

Mr. and Mrs. Domoney visited many ancient churches, one of which dates back to the thirteenth century and the benches of which have become petrified with age. They visited Mr. Domoney's birthplace and found the house unchanged through the 37 years he has been away.

Mr. and Mrs. Domoney returned home on the Dutchess of Bedford. One of the interesting features on the return trip was a visit to the engine room where they saw immense oil burning engines which consume 110 tons of oil each day. They enjoyed many moving pictures and concerts.

The boat was fitted with many tennis courts and a swimming pool about 1 1/2 inches by 13 inches, physical records. They climbed 200 steps to the top of the tower where they could view parts of 12 countries. In the Tower of London they saw the crown jewels of England.

Local Church to Take Part in Anniversary Celebration of Carpentersville Church

Evangelical church congregations from Barrington, Elgin, Bartlett, Crystal Lake, and Hanover township churches will help the Zion Evangelical church of Carpentersville observe the forty-fifth anniversary of its founding next Sunday, Sept. 20.

Special services will be held in the morning and afternoon commencing at 10:15 a. m. and 2:15 p. m., standard time.

Rev. H. E. Koenig of Barrington will preach at one of the services. A noon day lunch will be served to all guests of the congregation.

Cameron Wins Handicap Event at Belvidere Shoot

Gordon Cameron of Barrington won the handicap individual shoot at Belvidere, Labor Day, when the Northern Illinois Trapshooting league met for monthly competition. Mr. Cameron tied with four others with a perfect 25 in the first round of competition. He broke 23 birds in the shoot-off. Ed McCormick broke 21 birds for second.

The Geneva group won the team shoot. Those from Barrington who took part were Emil Miller, Gordon Cameron, Jack McLeister, A. L. Robertson, George Miller, and William Stumpf.

Jewel Tea Co. Sales for Four Weeks \$961,983.05

Jewel Tea Co., Inc., reports that its sales for the four weeks ending Aug. 8, 1931 were \$961,983.05 as compared with \$1,000,498.49 for the same period in 1930, a decrease of 9.29 per cent. The average number of sales routes for this period was 1,320 in 1931, and 1,248 in 1930.

Sales for the first thirty-two weeks of 1931 were \$8,551,221.91 as compared with \$9,000,003.87 for the same period in 1930, a decrease of 11.01 per cent.

County Board Eliminates Special Session to Save Heavy Cost of \$300 a Day

A special meeting of the board of supervisors costs more than \$300 each day it is in session, Chairman William J. Obee of Highland Park pointed out today, in announcing that he was opposed to holding a special meeting as proposed by a Waukegan assistant supervisor who demands that control of the county hospital be vested in Waukegan township board members.

While Chairman Obee was non-committal regarding the demands of Assistant Supervisor Charles Selenak, that control of the hospital committee be transferred to the Waukegan members of the board, he is firm in his opinion that such demands can wait until the regular December meeting.

Now that Waukegan township has to bear the greatest share of the expenses of the hospital, Selenak declares, it is no more than fair that the chairmanship be given to a Waukegan member, and he is of the opinion that several members would willingly serve.

Clark Gable in "Sporting Blood" Coming to Catlow

"Confessions of a Co-Ed," coming to The Catlow theatre Saturday night, centers around the dramatic and highly emotional experience of a college girl, a real college girl who wrote down the intimate happenings of her college career in her diary and gave it to the movies. The name of the author, necessarily, remains secret.

Heading the cast of youth are Phillips Holmes, Sylvia Sidney and Norman Foster, all young actors who have come rapidly to the heights of screen fame.

Backgrounds for the story, including exterior scenes around the college, society house interiors, classrooms and laboratories, were authentically reproduced, from minute observations made on college campuses. Into these settings, Paramount injected the gay spirit of carefree youth, recruiting dozens of college co-eds from nearby universities.

A group of short features will add interest to the Saturday night screen fare. Fifty miles an hour is top speed for a race horse.

Many opinions have been expressed to the effect that a horse can't run that fast, while some authorities say a horse can run faster.

Now speedometers on camera cars have answered the question with cold figures. In "Sporting Blood," a drama of the turf which will play The Catlow theatre Sunday and Monday nights, camera cars on recent tracks paralleling a racetrack followed "Tommy Boy," Caliente winner, and other horses in action. In the sprints the car traveled fifty miles an hour keeping up with the races.

"Of course," explained Director Charles Brabin, "this speed was kept up only for a few seconds in the final sprint. But it surprised even expert horse handlers."

Clark Gable, Ernest Torrence, Madge Evans, Lew Cody, and Marie Prevost, have featured roles in the production.

Added to the thrilling action that "Sporting Blood" will afford, Wheeler and Woolsey, will provide hilarity

Barrington Folks Attend Chicago District Meeting

Seven members of the Woman's Foreign Missionary society of the Methodist church attended the Chicago North District annual meeting Tuesday which was held at the Sheridan Road Methodist church in Chicago. The address of the morning was given by Miss Helen Wilk, a missionary from Vigan, P. I. In the afternoon Miss Mina Nalek reviewed the study book, "Christ Comes to the Village." The following members enjoyed the program of the day: Mrs. John Bell, Mrs. S. E. Riecke, Mrs. J. E. Nightingale, Mrs. M. S. Freeman, Mrs. Ida Harnden, Miss Luella Hager, and Mrs. A. K. Welty.

Thursday and Friday nights of next week brings to The Catlow theatre a new type of adventure picture, "Fifty Fathoms Deep." This production, shown only last week in a loop theatre, won high praise from Chicago fans.

Jack Holt and Richard Cromwell are cast as divers and the climax of the story comes as they are at the dangerous depth—fifty fathoms.

Above, a tender is pitching madly on a squall-tossed sea on a pitch black night. There are 20 men on board! Under sea are two men—one caught in a wreck and the other working a drill frantically to loosen him. If the tender hangs around until he finishes 20 men will probably go down to Davy Jones' locker—if the tender moves on these two will be deserted without a chance!

Rambling with WITHERSPOON

Editor's note: The Review has made arrangements to receive a series of letters from Herbert Witherspoon, artistic director of the Chicago Civic Opera Company, who is on a tour of Europe in search of new talent for the opera. The following is a letter from Mr. Witherspoon.

Berlin, August 14, 1931.

Dear Readers:

I arrived in Munich where I found Maestro Egon Pollak and our agents, Mr. Erich Simon and Mr. Andre Mertens. I found conditions in the musical management much changed in Germany. The government decided not to permit any more private agencies for the engagement of artists. Therefore, these two gentlemen are appointed by the government as the two chief officials for the department which will care for the engagement of artists.

The same change is imminent in Italy and no one knows just what the future conditions will be. I hope it may result in better singing.

Munich is the same lovely city as of old. Last night I heard a performance of "The Marriage of Figaro" conducted by our own Maestro Egon Pollak, and it was one of the best performances of this work musically that I have ever heard. Even as old a veteran as Richard Aldrich of the New York Times came up to me with the utmost enthusiasm to find out who was this conductor, who gave such a musical reading of this lovely work. We can indeed be proud that we have such a splendid conductor in our Civic Opera.

I also found Charles Hackett and his charming wife here in Munich and have just finished a delightful visit with them at lunch. They both look well. Mr. Hackett is here for two months to study in his repertoire. In the performance last night we heard our favorite baritone, Herr Nissen, as

the Count, and his performance was perfect. After the opera we had a real gemütliche Abend, with many artists and conductors and much discussion of interesting artistic matters. I heard this morning a beautiful voice which I hope to bring to America in the near future, because I think we can make a great artist of this man. I will not tell you his name, because some day I want to spring a little surprise. He would make a splendid Walter von Stolz, a fine Siegfried, a splendid Lohengrin. Tonight I shall hear a performance of "Die Meistersinger," and tomorrow morning Maestro Pollak and I will go to "Tannhauser," and "Parsifal," conducted by Arturo Toscanini, with whom I sang so many times at the Metropolitan in years gone by.

Monday we shall be in Salzburg to hear "Don Giovanni," and Tuesday we shall leave for Vienna, where I shall have auditions with many singers. We will return to Salzburg on a later date to hear "The Magic Flute." If I find, as I hope, a fine coloratura soprano in Berlin, I shall be able to give a promise of some performances of "The Magic Flute" next season. Curiously enough, this opera has not been performed by the Chicago company since its inception.

This morning I heard Robert Stiel, the American baritone, who is now engaged at Wiesbaden. He has improved very much.

Sincerely yours, HERBERT WITHERSPOON.

Protect the Pheasants

Due to a curious loop-hole in the Illinois game code, the closed season of more than five years on hen pheasants came to an end Wednesday of this week with no provision for another closed season to follow.

For that reason the pheasant hen—the mother of Illinois' choice game birds of the future—is not protected by law. If hunters are permitted to kill hen pheasants, Illinois will undoubtedly see the last of these beautiful game birds.

There is only one method now by which to prevent the extermination of pheasants and other game birds similarly unprotected. That method is for land owners and renters to prohibit absolutely all hunting on premises they own or rent.

The undersigned residents living in or near Barrington urge all land owners and renters to strictly enforce their property rights and prohibit all hunting.

They further urge sportsman hunters to consider the effect in future years of a wholesale slaughter now of female game birds and to forego hunting until the season on male birds is open—and at that time shoot only male birds. They also urge hunters to respect at all times the rights of those who do not want hunting on their premises.

The above appeal is contributed and paid for by the following public spirited citizens:

Miss Myrtle Allison Bride

of Edwin E. Schaefer

A pretty home wedding was solemnized Monday morning, Sept. 14, at 10 o'clock at the home of the bride's parents, when Miss Myrtle Allison, daughter of Mr. and Mrs. Blaine Allison of Winnebago, Penn., became the bride of Rev. Edwin E. Schaefer, son of Mr. and Mrs. Charles Schaefer of Barrington. Dr. C. A. Mock, the editor of the Evangelical Messenger of Cleveland, O., and an uncle of the bride officiated. The bride was dressed in a gown of crepe de chine. She carried a bouquet of roses and lilies of the valley. Miss Thelma Allison attended her sister as bridesmaid and was dressed in a gown of blue. She carried red roses. Golden O. Thompson of Boston, a college friend of the groom, served as best man.

After a wedding dinner served in the home, Mr. and Mrs. Schaefer left for a motor trip through the East. They will visit Washington, D. C., New York, Boston and other points of interest. After Oct. 1 they will be at home at Plainfield, Ill., where Rev. Schaefer is pastor of the Evangelical church.

Mrs. Schaefer is a graduate of the Winnebago high school, Western Union college of Le Mars, Ia., and the University of Iowa at Iowa City. She has been a member of the Winnebago high school faculty for the past four years.

Rev. Schaefer is a graduate of the Barrington high school, the Western Union college at Le Mars, Ia., and the Evangelical Theological seminary at Springfield, Mo. He was principal of the Manti, Ia., high school for four years before he began his work as pastor.

Barrington Christian Young People's Commission Holds First Meeting

The Barrington Christian Young People's Commission held its first meeting of the fall and winter at the Salem Evangelical church Sunday evening. The program was divided into three parts, the first of which was the young people's service led by the Salem young folks with visitors from other churches as guests. The subject of this service was: "What Is the Goal of Young People's Meeting?" and this was led by Donald Landwehr.

The preaching service followed in which the officers of the commission were formally installed. Rev. H. E. Koenig delivered an inspiring address on "How to Love the Christian Life" and at the close of this service the guests were entertained in the church parlors where special recognition was given the young people who are leaving this week for colleges and universities. Fifteen "honorary" guests were present with the many others who enjoyed the social hour, college songs and refreshments.

Mrs. Henry Seip Celebrates Eighty-Sixth Birthday

Mrs. Henry Seip of Chicago was honored guest Sunday at the home of her son, Fred Seip of Lake Zurich, when a group of 75 relatives joined in a picnic celebrating her birthday anniversary. WHISPERINGS

Post, Post, Post! Have you? You don't say! Well, Well!

And away goes another reputation for life long honesty, decency, right living.

There isn't a more sinister, vicious, evil, advantage-taking method of spreading derogatory propaganda than through the Whispering Grapevine Route.

At times it rolls along apparently harmless as idle gossip. The again as a thistle it turns over and over, gathering more rubbish through malignant contacts with venomous subjects which cling to it, until finally it becomes a giant prairie roller, a composite of all that is filthy and putrid in the community.

Fanned by the gale, the fastest runner cannot keep up with it.

White-livered, black and white striped animals, who in order to further their own interests, or who delight in besmirching decent characters to the arena of their own, start their whisperings by planting their deliberately at vulnerable peddling points, breathe the breath of life into their monsters, and then all the limps of hell lash them on.

The old-time alleged powers of witchcraft were inconsequential, compared to the possibilities for character-slaying, embodied in the witchery of Dame Rumor, and yet today there are no stocks to fasten these vicious Rumor purveyors in, as objects of public contempt; no lashing posts at which to scourge them; no stakes at which to burn them.

Suicides, murders, bank failures, bankruptcies, home, church, and school wrecks are spectres which rattle at the gate of Dame Rumor. Politicians work her overtime, and even in Washington's day she was so active, he declared he'd rather fight a whole army than one vicious rumor.

The worst enemy of prosperity, the outstanding enemy of progress, the foe of harmony, the greatest enemy of happiness, and the biggest liar in the universe, Dame Rumor is a wanton who refuses to come out and fight in the open.

She is sneaking, cowardly, snake-like; an object for fear and abhorrence, that should be crushed, squelched, choked, and hurled back into the depths of the bottomless pit from which she dared to emerge, because of the satanic efforts of her masters.—Leader, Pipestone, Minnesota.

CHINA'S AWFUL FLOOD

After being ravaged for years by brigandage and revolution, unhappy China is now suffering from the most devastating flood in all history. We in America can not begin to grasp the horror of the situation, where literally millions are dead already from drowning, starvation and exposure, while other millions are doomed beyond the possibility of aid.

Even when the floods subside those who survive the initial disaster will be faced by the horrors of famine. The President of China estimates that fifty million will perish from starvation and disease in spite of anything that may possibly be done to save them.

The full crops, never sufficient for the people's needs, have been destroyed, as well as nearly all the livestock. With winter coming on there is no chance for raising new crops this year. Even where late sowing might be possible, the people have no seed, nor farm animals with which to till the soil.

It has been suggested that some small measure of relief might be afforded these stricken people by selling surplus American wheat to China on liberal credit terms. It seems that this should be done by all means. It would not only aid China but would relieve our own situation without disturbing our regular markets. The Farm Board should get on this suggestion and act quickly.

The Family Doctor

By JOHN JOSEPH GAINES, M. D.

HEAT AS A REMEDY

The "infra-red ray" is one of my stand-bys in giving local, office treatments where heat gives beneficial results. In long experience in the application of heat to the body, I am able to state the following facts:

There is a vast difference between LIGHT and DARK heat when applied to the body. There is also great contrast in the effects of CONTACT heat, and heat coming from a distance. Heat in contact with the body cannot be tolerated by the skin, if it is really hot enough to produce lasting effect; therefore I prefer heat coming from a luminant eighteen or twenty inches distant.

The infra-red ray is of positive value in treating diseases of deep-seated glands. The heat should not come through a glass bulb in its passage to the patient, but should come from an electrically-heated body direct. There is all the difference imaginable in DRY heat and MOIST heat. I prefer dry heat in reducing chronic inflammations of stubborn kinds—such as arthritis, and chronic congestions.

Heat-waves stimulate circulation locally, in organs over which they are applied. Fat patients with synovitis in the knee-joints are greatly benefited by DRY heat, from a distance of twenty inches, 20-minute sittings, daily. Wet heat in contact does little or no good. It is possible to heat tissues two and a half inches deep from the surface, with the infra-red ray apparatus. One cannot bear contact heat with volume enough to reach deeper tissues.

LIBRARY NEWS

The Story Hour that is being held every Wednesday at the Public Library has proven to be quite a success. Twenty-six children attended last week. Stories are told and games are played.

New little friends will be most welcome and a jolly time is promised to all who attend.

The Way of Life

LITTLE THINGS

Nothing is more interesting than to hear successful men reminisce about their careers. Recently, after a golf game, I had such an opportunity.

My companions were well-known lawyers.

One of them said: "I wasn't much of a student at college. I played on both the football and basketball teams, and I managed to graduate and go on through law school."

"My first job was in the office of a country lawyer in a small city in Pennsylvania. There I really did work, preparing cases and trying them, and doing my best to master the profession."

"I could look forward to earning enough to marry on, but could see no chance of ever escaping from that small town."

"One Christmas I visited my folks in Boston, and while I was there a friend told me that a certain lawyer would like to meet me. I called at his office the next morning. We chatted for about an hour and then, out of a clear sky, he offered me a partnership. I was flabbergasted, but I managed to stammer an acceptance."

I started in with him a month later. In that firm I spent ten very happy and profitable years.

"One day I summoned up courage to ask him how he ever happened to make me such an offer on so short an acquaintanceship."

"His answer was surprising. He said that for years he had been able to secure more business than he could properly handle. As a business getter he was a star; as an organizer of an efficient force, he was a failure. He had hired brilliant young chaps out of law school, but somehow they never developed as he hoped. Being brilliant, they expected to get results easily, and if they were whipped a couple of times in court it broke their spirit."

One night he went home and sat down before the fire to analyze his situation. He decided to look for a naturally different type of man; he listed the qualifications:

1. The man must not be too smart. He must have the habit of working hard for his results.

2. He must have been in college athletics, trained to fight for victory, and to keep up his chin in defeat.

"Having made this list, the lawyer asked his friends to recommend men who met the qualifications. One of them named me, and the lawyer remembered that he had once seen a football game in which I was badly smashed up but was still able to carry the ball across the line for a touchdown."

"So you see," my friend concluded, "it was that one little thing, to which I never attached the slightest importance, that made my whole career."

When you hear stories like this, and I have heard many of them, it makes you think that there are no little things. No operation is so insignificant that a man can refuse to give it less than his best.

FINANCING OF the Federal

Government is one of the major problems

facing the next session of Congress. The government must decide

whether it will increase federal taxes in an effort to balance the budget or

whether it will run along on borrowed money in the hope that business

will start uphill and bring more revenue into the coffers of the treasury.

There will be a number of members of Congress in the senate and house who

will oppose an increase in taxes, as neither side will want to take the

blame for a tax increase on the eve of an election.

Many of the republican leaders, including Representative Will Wood of Indiana, chairman of the house appropriations committee, have declared

themselves against tax increases and in favor of short-term credits to cover the situation. On the other hand, a

number of progressives among the republicans and democrats are urging tax increases. There is one thing certain, that the party in power in the

end will have to bear the burden if taxes are increased and resentment of the taxpayer is aroused.

The Country Club Love Feast?

Do you know that your article regarding the board's meeting or 'Love Feast' as you call it with the country club gentlemen to our west, has more

power for evil than anything you could possibly have printed. Let's get down

and think. If it is a part of your make up. Do you know that the country club gentlemen realize that

through their efforts, the people of Barrington may suffer, and may actually go hungry because of a man

made law they have so far been able to inflict. I say they do realize and that's why they invited our board out

to their club to try and solve this problem. You can call it a 'Love Feast' if you want, but it is far greater than that. According to law they

have us down on our backs and their heels above our heads and could grind

every resemblance of a nose off our faces, but will they? It is true there

are two sides to every question and believe me there are to this sewerage question, but today's rich and poor must gather around the conference

tables and solve our problems man to man. This does not only apply to

Barrington, but to every village, city, home and business life in America. If we and they don't do it the greatest

revolution in history will be with us.

It is self-evident that God designated the United States as the model

republic of the world, the greatest evangelizer of the world. The discovery of America was the greatest triumph of civilization and as Emerson says, "Seems like a last effort of the Divine

Illinois leads all her sister states in the constructive character of work done in her charitable and penal institutions. The first step taken by the present administration to achieve this result was the extensive building program that has been completed, which relieves the crowded conditions of the state prisons, hospitals for the insane and colonies maintained for the feeble-minded. The Illinois Surgical Institute for Crippled Children is now open and performing its remarkable mission of making the lame walk. The care and treatment given has enabled many patients to return to their homes and thus lessen the population of state institutions. There is a possibility that the world may some day be rid of mental diseases and the hope is that Illinois state hospitals may make valuable contributions toward that end.

In making a decision in regard to the difference of opinion existing between officials of Champaign and McLean counties as to the support of poor in the county farms, representatives of the attorney general's office state that under the new paper relief law, the support of paupers in county poor farms is to be prorated among the various townships in each county according to the number of paupers each has in the county institutions.

The Illinois department of Agriculture reports that peach canning and preserving is being carried on in a big scale in Illinois, particularly in cities of from 10,000 to 15,000 population. An unusually large quantity of the fruit was shipped into these communities early in the harvest, equal to the total shipments of normal years. Since then orders from these centers have been received for carload lots.

At the annual Illinois Conference on Public Welfare to be held at Rockford, Oct. 19 to 20, a vote will be taken upon a proposal to incorporate the conference and adopt a new set of by-laws. If this is carried the name may be changed to the Illinois Conference on Social Welfare. Its purpose will be to facilitate discussion of the problems and methods of human improvement, to interpret social welfare achievements, to stimulate more effective social welfare work, and to disseminate information.

Director Rodney H. Brandon of the department of welfare who visited penal institutions in New York and Massachusetts, has obtained information on manufacture and disposal of prison products in the east and steps to draft a program under which the prison labor law can become operative will be taken soon. The temporary standardization board will submit its recommendations on goods to be manufactured at the Illinois prisons.

At a recent meeting held in Peoria of more than 300 sportsmen of Illinois, representing 336 boat and gun clubs, the Sportsmen's Conservation and Protective association was organized. The newly formed organization adopted a resolution asking the authorities at Washington to allow the conservation department of each state to select a period of thirty days between Oct. 1 and Dec. 15 as the open season on migratory birds.

Pheasants Getting Break as Farms Closed to Hunters

Landowners Action Halted Wanton Slaughtering of Game Birds

Sentiment against the pheasant in Illinois has steadily increased during the last eight years, which have brought to communities all over the state tales of woe and slaughter by unprincipled game hunters. Near Barrington, Thursday of last week, two hunters who had killed ten pheasants each were met by a man who, chairman of the county board of supervisors, acting on a statement published in the Waukegan News-Sun, thereupon Mr. O'Neil could do nothing as officials were powerless to act in the case. However, the game law, which property owners near Barrington have their farms dotted with pheasants and "No Trespassing" signs, is a matter of public property. A number of watchmen are put on the property ready to catch any and all hunters trespassing on private property. One property reported to the Review that he had found one hunter on his land. It is believed that the game law, shared by the large majority of landowners and residents in the township of Barrington, will be enforced.

Make Game Preserves
With birds protected by property, that property becomes a game preserve for birds and hunting birds. The fact that some game laws included, has induced the hunters to leave the vicinity of the preserve and hunt elsewhere. The hunting and game law, which has been in effect for many years, has been a failure. The game law, which has been in effect for many years, has been a failure.
