HAIR REMOVAL CENTER, INC.

118 Barrington Commons Ct., Suite 216, Barrington

381-9020

Convenient Hours: Monday thru Thursday 12:00 noon until 8:30 pm

In practice at this same convenient location since 1976.

Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

Clear Reflections has provided 25 years of service at the same location.

September, 2001

Dear Reader,

The fall season promises to be busier than ever, so mark your calendar with your favorite events.

On Saturday, Sept. 29, a benefit concert for District 220 Educational Foundation will take place at the Barrington High School. Featured artists are internationally known vocalists and musicians, and from the Barrington area: pianist Marta Aznavoorian, cellist Ani Aznavoorian, opera sensation Kallen Esperian and member of the Manhattan Transfer Laurel Masse. Wow! That's some entertainment!

On Sunday, Oct. 7, Home of the Sparrow will have a fund-raiser, "What's It Worth?" Have you wondered if some handed-down heirloom or attic treasure you've had for ages might have intrinsic value and not be just a dust collector? Now is the time to have that item appraised by experts. The event will be held at the McHenry County Fairgrounds from 10 a.m. to 5 p.m. There will be refreshments and entertainment, so make a day of it!

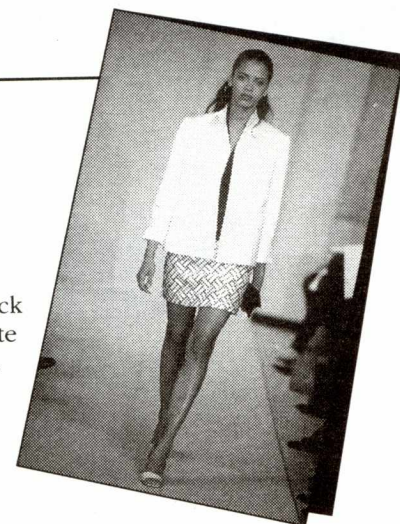

Enjoy the season. It's a beautiful one. Until next time, may all your thoughts be sunny.

With warm regards,
Glenn McMonigal

Barrington Youth Dance Ensemble Hosts "Blue Ribbon Country Fair"

Pictured at the Barrington Hills country estate where the Barrington Youth Dance Ensemble's "Blue Ribbon Country Fair" will take place on Sept. 30 are Barrington residents: (clockwise from left) BYDE dancer Meredith Sislow; BYDE resident set designer Jim Estes; Barrington Dance Academy student Kristen Clarke; and BYDE member Katlyn McMorris with her pony, Steeler.

The sights, scents and tastes of an old-fashioned country fair will take center stage this coming September when Barrington Youth Dance Ensemble hosts its "Blue Ribbon Country Fair." The event is set for Sunday, Sept. 30, from 2 to 7 p.m. (with a rain date of Oct. 7)! It will take place on the grounds of a lovely Barrington Hills Estate.

Step back a generation or two into a familiar rural scene—the country fair—where families can spend an afternoon experiencing the old-fashioned pleasures of yesteryear, complete with pony rides, tractor rides, horse-drawn carriage rides, prize-winning animals and freshly baked pies.

Denise Clarke, chairperson of the event, says it promises to be a distinctive, unique event for everyone to enjoy. Reminiscent of days gone by, the fun goes on to in-

clude a pie eating contest, a kissing booth, a dunk tank, a flower arranging contest, a potato sack race, horseshoe toss and all kinds of games and activities for the kids. This will all take place against a backdrop of rolling hills, towering oak trees and costumed characters.

There will be musical entertainment as well as a Barrington Youth Dance Ensemble performance by award-winning choreographer Winifred Haun.

The enticing aroma of grilled food from the American Smokehouse Restaurant, with buttered corn-on-the-cob and freshly baked apple pie, will draw guests to the concession area containing brightly decorated plaid tablecloths and sunflower centerpieces.

One of the main highlights of the afternoon will be two theme auctions, one of which will involve vintage antiques and

Autumn Concert Welcomes Back to Barrington Four Internationally Known Vocalists and Musicians

Marta Aznavoorian

Kallen Esperian

Ani Aznavoorian

An early autumn concert, welcoming back to Barrington four internationally known vocalists and musicians, will benefit The District 220 Educational Foundation. The event will take place in the Richard C. Johnson Auditorium, Barrington High School, on Saturday, Sept. 29, from 7 to 9 p.m. The concert will feature Laurel Masse, Kallen Esperian, and sisters Marta and Ani Aznavoorian.

Critically acclaimed vocalist and founding member of the Manhattan Transfer, Laurel Masse recently released the recording *Feather & Bone*, a compilation ranging from spirituals and Celtic tunes to Bach suites. A *New York Times* review has described her work in this latest album as "dazzling." *Chicago Tribune* considers her "one of the best young vocalists in jazz." And the *Chicago Sun Times* puts her up there with "Sarah and Ella." Laurel's father, Laurence Masse, and wife, Pam, reside in Barrington.

Soprano Kallen Esperian, a graduate of Barrington High School and winner of the 1985 Luciano Pavarotti International Voice Competition, has since performed on stages throughout the U.S. and Europe, including opening nights alongside Pavarotti, Placido Domingo and Jose Carreras. To her credit, she has released a CD and video of her *Pavarotti Plus*, recorded live at Royal Albert Hall, and an album of American folk songs, *American Treasure*. Kallen's performances have been televised nationally on the Public Broadcasting Service. She is truly a distinguished alum from Barrington, and her local fans are eager to see her grace the Barrington High School stage once again.

Boston Globe critic Richard Dyer has described pianist Marta Aznavoorian as "exceptionally finished" and with a "purity of musical impulse." Currently a faculty member of the Community Music School at DePaul University and the Music Institute of Chicago, Marta has been a soloist with the Chicago Symphony, appearing nationally as well as at the Sydney Opera House. Prior to her successful professional career, Marta earned her bachelor's of music degree from Indiana University and her master's from New England Conservatory.

Another family member graces the stage as well. Ani Aznavoorian has performed with numerous orchestras and has traveled all over the world as a cellist. She began her interest in the cello at the tender age of three, and earned recognition early for her exceptional talent. Receiving a Level I award in the National Foundation for the Arts Recognition and Talent Search, she became a Presidential Scholar in the Arts and performed as soloist at the Kennedy Center in Washington, D.C. Ani received both her bachelor's and master's of music degrees from the Julliard School.

Both Marta and Ani Aznavoorian are graduates of Barrington High School.

The concert is sure to be an outstanding event. Three levels of tickets are being offered. A \$100 ticket includes a champagne and dessert reception at Barrington Hills Country Club after the performances. Also available are preferred seating for \$50 and general seating for \$25. For more information, contact Donna Hannay at 847-381-8464.

There are several unique pieces of art that **Duntong Gallery** is ready to sell at drastically reduced prices.

Diane Balaban is a remarkable artist who now resides in Arizona. She does amazing landscapes in oils and watercolors and wonderful still lifes in watercolors. Rather than having her few remaining pieces sent back, Diane has agreed to dramatic price reductions on her work.

A private collection of the work of **Peter Beadle**, a renowned and internationally collected New Zealand artist, is also available for sale at great prices.

Chesterfield Galleries Hosts Orient and Flume

The reception will be on Friday, Sept. 7, from 6:00 to 9:00 p.m. Join us for refreshments. The exhibit will continue at the gallery on Saturday, Sept. 8, 9:30 a.m. to 5:30 p.m., and Sunday, Sept. 9, 11:00 a.m. to 3:00 p.m. This is an exclusive showing of the entire Orient and Flume collection. Also, register to win an Orient and Flume vase (valued at \$500). No purchase is necessary. The vase will be on display at **Chesterfield's** on Sept. 1. The drawing will be held on Sunday, Sept. 9, and the winner will be notified.

Orient and Flume produces fine art glass for the collector. These signed pieces capture nature's inspiration in both iridescent and crystal-clear glass. Nationally acclaimed for its excellence in design since 1972, the glass of Orient and Flume utilizes both traditional and contemporary motifs and can be found in the permanent collections of the most prestigious museums in the world.

Founded by Douglas Boyd in Chico, Calif., Orient and Flume originated on the corner of Orient Street and Flume Street. Boyd realized the combination of street names expressed the feeling he wanted for his studio, and the business name was originated. The word *orient* means "pearl of great beauty, value and luster." *Flume* is derived from the French word meaning "to flow."

Stop by **Chesterfield Glass Galleries** to see this exclusive collection, and join us for hors d'oeuvres and refreshments on Friday evening. Call 847-382-6677 for more information.

Navajo Weaving Traditions Alive at River Trading Post

For over 2,000 years, American Indians have woven textiles. The Navajo have maintained traditional textile arts for more than two centuries, creating works that are displayed in museums worldwide and works that command premium prices because of their high demand among collectors. (A Navajo "Chief's Blanket" recently sold at auction for over \$400,000.)

Navajos say that Spider Woman, a spiritual being, taught their ancient ancestors how to weave. She and Spider Boy, who created the first loom, helped weave the world into existence.

Today, **River Trading Post** exhibits what is among the finest collection of Navajo weavings east of the Mississippi River. Weavings from the **River Trading Post** collection are featured in the book *American Indian Textiles* written by Dr. Gregory Schaaf and published by the Center for Indigenous Arts & Cultures in Santa Fe.

A rare Navajo *Yebichai* weaving displayed at **River Trading Post** has drawn the attention of the Peabody Museum at Harvard University.

River Trading Post includes textiles that date back to 1910 as well as contemporary weavings. The weavings were created from areas throughout Navajoland including Ganado, Two Grey Hills, Teec Nos Pos and Burntwater. **River Trading Post** owner Joe Zeller personally selects each piece because of its museum quality.

A Navajo weaver continues the teachings of Spider Woman.

M.J. Miller & Co. and Barrington Saddlery

Present the Artistic Works of Elizabeth Beunaiche, Horse Sculpture

Elizabeth Beunaiche's identity begins with horses—magnificent equine gem sculptures. It is our great pleasure at M.J. Miller & Company to present Elizabeth and her one-of-a-kind hand-carved sculptures from gemstones and equine jewelry on Saturday, Sept. 8, from 9 a.m. to 5 p.m.

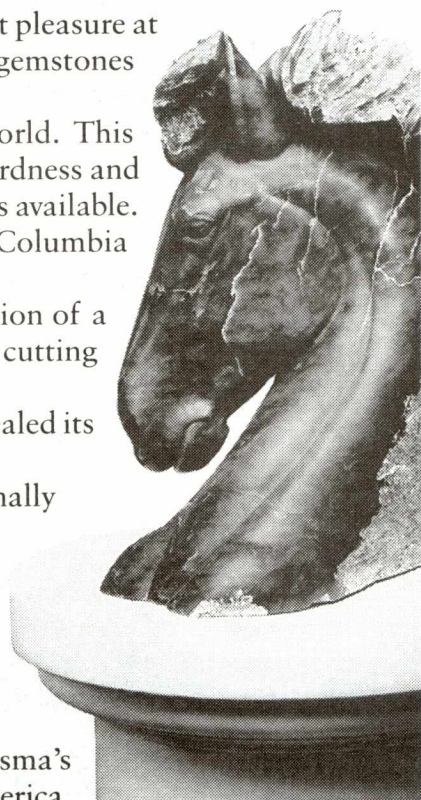

Recently, Elizabeth completed her largest equine gem sculpture, possibly the largest in the world. This magnificent sculpture, *Teddy*, is hand-carved from the finest jade in the Western Hemisphere. Its hardness and color are unique. Because of the jade's breathtaking natural formation, a very limited bronze series is available.

To begin the majestic sculpture, Elizabeth's research led her to a corner of the jade world in British Columbia where a boulder was chosen based on her sketches and instructions.

Then the fun began. The sheer terror of cutting into her largest gem finally ended with the creation of a maquette. Progress was then very slow because of the gem's incredible hardness, size and exact cutting calculations.

"The dance then began as I felt the rhythm and spirit of the subject. Losing oneself in the work revealed its complex character," says Elizabeth.

The finished piece involved endless hours of sanding and polishing. With the perfect image finally revealed, the jade horse is a pinnacle of rarity and beauty, unparalleled and priceless.

About the Artist

Elizabeth was born in 1960 and is a first generation American. Frequent childhood trips to the upper Midwest allowed the opportunity for rock collecting, sketching and immersing herself in nature. This would become her foundation for her curiosity, artistry and respect of gems.

A 1980 relocation to the Southwest to work with the famous horse "Bask" at Lasma's Arabians serendipitously landed her in the center of the gem-rich area of North America.

It was not long before Elizabeth, gems, horses and art came together. Born was an artist in the rare glyptic arts, the ancient art of stone carving.

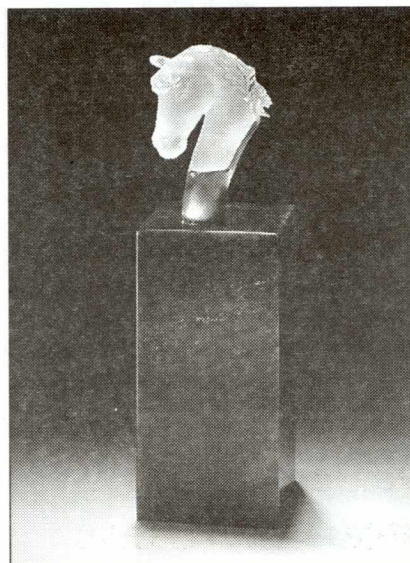

Then, with the influence of three carvers—Paul Hawkins, Susan Zalkind and Steve Stegall—plus a trip to the Chicago Art Museum to see 19th century Russian gemstones and Fabergé, Elizabeth was convinced that there had to be a way to transform the beautiful gems of the earth into art, art of equine.

And so, the journey down a road of discovery and adventure into the modern renaissance of American gem artistry and the glyptic arts began.

As a self-taught artist, support came from international jewelry designers. Creative development and technical knowledge was handed down from within the world of gems. Today, Elizabeth produces award-winning sculptures and jewelry again and again. Come in and see her incredible collection of equine art.

In addition to the exciting works of Elizabeth's, we will also be presenting a very sophisticated compilation of jewelry designer Roberto Coin's newest collection, *Appassionata*. Roberto Coin's *Appassionata* collection is comprised of bracelets, rings, earrings and necklaces in 18-karat white, yellow and red gold, with diamonds and a hidden ruby! After years of experiments and thanks to a new patented manufacturing technique using woven gold, the flexibility of *Appassionata* pieces now equals that of fabric.

Now Accepting Appointments for Holiday Portraits

A Father's Pride

It's really not too early to start thinking about holiday gift portraits. For many of us, having a family portrait or portraits of the children is a routine activity. For others, it's an event. Whatever the case, things always seem to be extra busy between now and the upcoming major holidays. That's why it's important to book your session(s) now.

Don't Settle for the Same Old...

Think differently this year. If you've mostly done color work in the past, why not try a black-and-white session? Did you know that more than half of our work is black & white? We have been specializing in it for 25 years, doing our own darkroom work the old-fashioned way, very much like Ansel Adams did for his beautiful scenics. For those that are black & white aficionados, color can be a nice change of pace. We'd be happy to help you with that decision.

The Digital Difference

Because many of our images are done digitally, we have opened up a whole new venue for creativity, like creating collages as the one seen above.

Need a Portrait Pronto, ASAP, On the Double or Yesterday?

We can help. Because of digital photography, it's possible to get things to you fast... sometimes while you wait. Business people and general procrastinators are best helped with this service.

Money Back Guarantee

If, for some reason, you don't like your portraits, there's never any obligation to buy. We'll either try it again or refund your money. It's that simple.

Got a gift certificate for a complimentary sitting from a competitor? Bring it in. We'll honor it. Some restrictions might apply. For your reservation, please call 847-382-8484.

Claude Thomas' Exclusive Services—

Along with hair, nail and spa services, **Claude Thomas** is introducing exclusive and exciting new services. One is **Microdermabrasion**. Compared to a chemical peel, this exfoliation treatment offers higher precision. Other benefits of this treatment are many:

- Works on all skin types
- Elimination of fine lines and wrinkles
- Lightens and can even eliminate age spots and hyperpigmentation from sun damage
- Reduction of open pores
- Reduction and/or elimination of broken capillaries, scars, stretch marks, whiteheads and blackheads
- Restores sun damaged skin

Claude Thomas also has the **Stimulating Lift Treatment**. This program will help take years off the appearance of aging skin without surgery. The most important function of the **Stimulating Lift** is to tone up and contract the underlying muscles of the face and neck.

Another exclusive service is **Hair Extensions**. Not all hair extensions are alike. We only carry the most innovative methods in our industry—the ones that celebrities and models use. Our system does not damage your own hair like so many systems in other salons. The **Polymer Attachment System** attachments are polymers equal to the human hair structure, not glue, wax or twisting and braiding that damages your own hair. We use the

best 100% human hair—not synthetic—with the cuticles all going the same direction. This hair is easy to perm or color. After a consultation, we would determine what would be right for you.

Permanent Make-up is now at **Claude Thomas**. This service will be done by Claudia and Jennifer. Who benefits from Intradermal cosmetics?—Busy people with little time to apply make-up; people with allergies to make-up; people who seek corrections of asymmetrical facial features; people who wish to look their best all the time; athletic people; entertainers; actresses and models; and those who are physically incapable of applying make-up. Call and find out more about this service.

We have added to our services expert **Eyelash Tinting, Eyelash Perming and Eyelash Extensions**.

Claude Thomas specializes in wedding and special occasions! Gift certificates available.

Not sure what style you want for fall? Come in for the **computerized virtual make-over** for \$30.

"Barrington Challenge Cup" Scores Big in the Fight to Save Lives!

Antonio Galvan, on the Bank One Team, and Vale Aguilar, on the Underwood's Furniture Galleries Team.

Billy Mudra, on the Bank One Team, takes aim.

The Bank One Team, consisting of Billy Raab, Antonio Galvan, Billy Mudra and Hamish Bray, hold up the trophy presented by Cathy LeCompte, honorary chairperson of the event.

The Underwood's Furniture Galleries Team included David Wigdahl, Horacio Onetto, Vale Aguilar and John Ryan.

The Barrington Challenge Cup, held in Barrington Hills, Ill., at the Barrington Polo Club on July 27 and 28, was a resounding success, according to organizers of the event. The proceeds from the various events grossed an impressive \$94,775. The events included: the "Martinis & Mallets" Cocktail Party; the Calcutta Auction of the Players; an event held on the evening of Friday, July 27, at the estate of Dr. and Mrs. Benjamin LeCompte; and the two polo games, featuring the 18-goal "Battle of the Titans," an all-pro match, held at the Barrington Polo Club's main field on the afternoon of Saturday, July 28. And additional checks are still coming in on a daily basis!

Friday evening's events included terrific edibles and beverages, music and great prizes. Prizes included two vacation packages, one to Montana and one to Vail, Colo., and a package with "Everything for Polo but the Horse" provided by Texas Polo, Nano's Mallets, Gray's of Westbury, The Tackeria and The Barrington Polo Club. The highlight of the evening was a

Calcutta-style auction of the players where party-goers had the opportunity to bid on the pair of players who they thought would score the most goals in the "Battle of the Titans." The crowd was thoroughly entertained by the antics of Billy Raab, Billy Mudra, Horacio Onetto and Hamish Bray as they vied for the attention of the ladies in an effort to elicit the largest bids!

Saturday's events, before a crowd of 1,200 spectators, commenced with "The Battle of the Patrons," featuring Barrington Polo versus Pinecroft. Residents of Barrington Hills sponsor both teams, making the match to determine who would be "The King of the Hills" of Barrington Polo an interesting one! Barrington Polo proved to be the best that day in its 10-1 victory lead by scoring machine Tony Sekera at the number-one position with five goals! Matt Sekera and Angelo Kleronemos' "Daniela" won the "Glenlivet" Best Playing Pony Award. Glenlivet's Best Shot awards went to Barrington's Dean Kleronemos for his incredible goal on a backshot in the third chukker, and

Pinecroft's Clifton Yandell for his incredible defensive backshot that saved an almost sure goal in the fourth chukker.

While waiting for play to commence for the second match of the day, fans were treated to Jack Russell Terrier Races presented by Kelcey Roberts and the Jack Russell Club of Barrington Hills.

Corinne Wood, Illinois lieutenant governor and breast cancer survivor, was ably chauffeured onto the field by Barrington Polo Club member Bill White in his elegant Mercedes convertible. Wood then threw in the ball to begin the 18-goal match game, "The Battle of the Titans." Polo Gear's custom jerseys for the Bank One and Underwood's Furniture Galleries then began to flash up and down the field at incredible speed. Bank One's Antonio Galvan became a virtual scoring machine with his first goal coming within seconds of the first throw in. Goals were traded back and forth with lightning speed throughout all six regulation chukkers, with the game at a tie score of 10 all at the end of regulation play. Bank One

ultimately prevailed 11-10 in the overtime on Glenlivet MVP Antonio Galvan's winning goal on a crusher of a shot from the boards at the 60.

Antonio's incredible shot also earned him the Glenlivet Best Shot Award for the day. David Wigdahl's lovely chestnut mare "Josephine" won the beautiful Best Playing Pony Blanket supplied and sponsored by Triple Crown Customs.

However, the biggest winner of the day was the National Breast Cancer Foundation, which will be presented with a check for 80 percent of the profits by organizers early this fall. The foundation's special events director, Dee Lynch, was on hand for the entire weekend's festivities and was thrilled with the success of the event. The remaining 20 percent of the profits will benefit other, smaller local charities and will help to lay the groundwork for next year's event, as sponsors plan to host the "Barrington Challenge Cup" annual

Customers depend on **Salon Extend's** hair extensions to enhance their looks. Barrington resident Yvette Contorno, aka Mrs. Illinois, is a great example. A fashion designer and partner at Mira Couture in Chicago, Contorno depends on **Salon Extend's** hair extensions as she competes for the Mrs. America title.

"Having my extensions done at **Salon Extend** has given me the hair of my dreams," says Contorno. "Now I have thick, beautiful hair that doesn't frizz, and the custom-color blend of hair they use leaves my extensions completely undetectable."

Fittingly, the 3½-year-old salon is re-opening as the new **Salon Extend**. Michelle Szczesny and her staff note that the name change reflects their ability to better define the salon's services and the

new focus of the company which is "extending your individuality."

"The extensions are quite incredible, really," explains Sharon Stober, a client and editorial director/publisher of a business-to-business trade publication. "One minute, I was feeling like my best look had left for the hills. The next week, I looked younger; my friends noticed a change. I even got carded at a bar. Better yet, my morning routine decreased from 30 to 15 minutes. Talk about a noticeable difference!"

Salon Extend is a full-service specialty salon in the Barrington area. Please stop by to see the changes Szczesny and her staff have made during the grand re-opening event. Or call for an appointment at **847-381-3688**.

Fine Art on Display at Sixth Annual Ela Festival of Arts

Preserving the elegance of renowned pieces of art, injecting a little playfulness and making the whole thing wearable is the idea of jewelry created by Lake Forest artist Bonnie Kondor. Her work will be on display at the Sixth Annual Ela Festival of Arts on Saturday, Sept. 8, at Paulus Park in Lake Zurich.

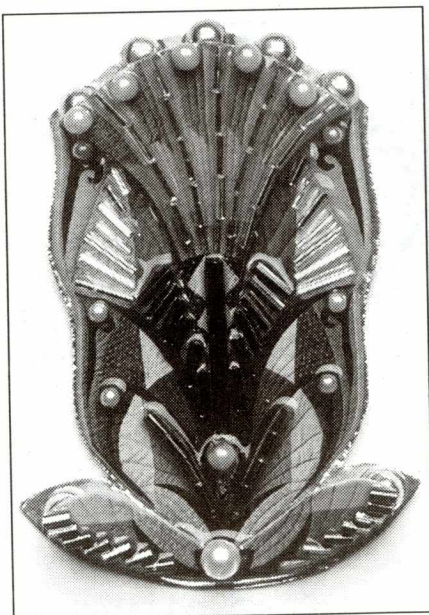

She takes an easily recognizable piece by such artists as Grant Wood, Vincent van Gogh or Claude Monet; carves out a portion; shrinks it to the size of a pin or pendant; and bedecks it with colorful beads and baubles. She then coats the paper with acrylic polymer, giving it the appearance of glossy enamel. She also keeps an eye out for interesting patterns on wrapping paper or other decorative designs to turn into wearable art.

She is one of 35 fine artists whose juried works will be under the tents at the lake-side Paulus Park for the Ela Festival of Arts. Mediums range from watercolor to ceramics to metal sculpture.

The annual Ela Festival celebrates all the arts, and the park will be alive from 10:00 a.m. to 5:30 p.m. with music, dance and theatrical performances on several stages. Acts will be both professional and amateur. Talent of all levels will be displayed and appreciated. New this year will be some fun interactive activities for children,

Retirement Living Provides an Opportunity for Artists to Continue Their Work

The people at **Lake Barrington Woods**, a rental retirement community, are enjoying the wonderful artwork on display in their lobby. Their fellow residents created all this artwork, which varies from month to month. Displays have ranged from sculptures to paintings to apple carvings.

Their current display, by resident Viola Humbert, is of numerous apple carvings. Faces have been carved from apples, dried and coated. Some have full bodies made out of wire, nylon stockings and clothing Viola made. She has created Nixon, Einstein, Carol Channing, a geisha and many more.

"I had to have a face in mind before I started carving. People thought I was silly, but I was always looking for people on the street who had a lot of character that I could carve into an apple," explains Viola. "The shrinking and drying of the apple creates a lot of character. The faces start out looking like young people and in three weeks, looks old."

Viola has stopped carving, but would like to begin again soon. "I still have a lot of ideas. Many of the residents at Lake Barrington Woods are interested in learning how to carve. The problem is finding the right place to dry the apples," explains Viola. She plans to begin teaching classes this winter.

Carolyn Butterfield has been painting as

a hobby for 30 years, but claims that it was not until she came to **Lake Barrington Woods** that she had time and a place to really focus on her work. She has turned her den into an art studio. Her method of choice is oils, but she has dabbed a little in acrylic, watercolors and other types of painting. She has painted everything from flowers to winter scenes to Chicago's skyline. Due to vision problems, Carolyn is trying new methods of painting. She can no longer draw a straight line, so her work is taking a more abstract approach.

Mary Andrus is a painter, sculptor, writer and poet. Her favorite artistic expression is sculpting. She has beautiful statues made of marble, ceramic and even hand-cast paper sculptures. She has also painted in watercolors, acrylics and other media types. Her art is very unique, and some is further explored with mixed media.

Mary has focused on poetry since living at **Lake Barrington Woods**. "I am very lucky to have the energy in life. I seek to express that which cannot touch, feel or see. I want to connect with people on a spiritual level," Mary expressed.

The public is invited to view the works of these and other **Lake Barrington Woods** artists at an art show on Sept. 29 from 1 to 4 p.m. at **Lake Barrington Woods**, 22320 Classic Court, Lake Barrington.

What Age is Best for Certain Procedures?

by Gary S. Churchill, MD

Patients often ask at what age it is best to get certain procedures done. This will vary from patient to patient, but there are some general guidelines that apply in most cases. Ultimately, only the patient along with their surgeon can determine if a certain procedure is right for them or if the timing is appropriate.

Eyelid Rejuvenation

Most people will notice the aging process first around their eyes. Some puffiness beneath the eyelids, especially in the morning, will get more and more noticeable. This can create a tired look even when the person is well rested. Although some people will notice this in their twenties, this usually becomes more apparent in the thirties and forties. Although both upper and lower eyelids may age simultaneously, some people will notice only one or the other aging sooner.

Fine lines will begin to appear around the eyes in the late twenties or early thirties. These can be treated with light chemical peeling or the newer glycolic acid creams at home.

Facial Rejuvenation—Facelifting

Facial rejuvenation involves a number of different procedures. The most common is facelifting. Facelifting improves jowling and looseness of the neck through incisions around the ears. This procedure is rarely done on patients in their thirties. Most patients are in their forties and older. It is common to perform facelifting at the same time as eyelid rejuvenation.

Gary Churchill, MD

Facial Rejuvenation—Forehead Lifting

A forehead lift allows the brows to be elevated as well as the frown lines smoothed. This is done through an incision behind the hairline. Although some patients may have low lying brows in their thirties, most do not seek forehead lifting until their forties. It is common to perform forehead lifting along with a facelift.

Facial Rejuvenation—Chemical Peeling

Chemical peeling is designed to smooth the skin. A number of new light and medium depth chemical peels have become available for younger patients with early, fine lines. Patients in their twenties may undergo light chemical peeling. The more sun damage there has been to the skin, the deeper the lines will be and the deeper the chemical peel needed to affect them.

Rhinoplasty

Rhinoplasty or nasal recontouring is commonly performed on teenagers and young

Release Agreements and Final Payments Under Illinois Law

by Joette S. Doran, J.D.

The Illinois Wage Payment and Collection Act provides that an employer is required to pay "final compensation" at the time of separation, if possible, but in no case later than the next regularly scheduled payday. Final payment includes all "wages," which are defined as any compensation owed an employee pursuant to an employment contract or employment policy. Generally, final compensation under the act includes earned wages, salaries, commissions, bonuses and vacation pay. For instance, where the company has a policy that provides for vacation pay, all earned but unused vacation time is required to be paid to the employee, even if the employee resigns or is terminated. Moreover, the act provides that no employment policy shall provide for the forfeiture of earned vacation time upon separation.

Knowing what you are legally entitled to as a final payment is especially important if you are presented with an agreement requiring you to release your legal rights in order to receive that money. An employee that resigns or is terminated should be aware that earned wages, as defined by the act, are required under Illinois law without regard to whether you release your legal rights against the com-

pany. As such, if you are requested to sign a release, you should carefully review the agreement with counsel to determine your legal rights under both Illinois and federal laws. For additional employment information, please visit our Web site at www.joettedoran.com.

This article is not intended as legal advice. You should consult with an attorney for individual advice regarding your own situation.

Chers Amis...

September already! It's been a good summer, weather, health, business... thank you to all our supporters. I hope we made you happy as well, with our creative food and humane service.

Many of you believe that summer is slow in our business, when actually, it is the busiest time of the year. Mostly weeknights, since weekends are super busy year round. We have been very successful with wine dinners, held at our sister location, **Retro Bistro**. The next one will be on Sunday, Sept. 30, featuring the wines of Beaulieu Vineyards. Call Chris at 847-439-2424 for more information.

Let me take the opportunity offered through this column to remind you of all the possibilities presented by our private room, referred to as the **Provence Room**. It fits 55 people for a sit-down dinner. It

has its own bar, built-in screen, audio system with cordless mike and just "feels good" with bright hand-painted murals and ambient lighting. It has hosted every type of function, from rehearsals to anniversaries, post-funeral gatherings to small wedding ceremonies and receptions, etc., etc. There are few places like it, especially offering the level of food we serve. So think of it next time you are in need of a private room.

Actually, on Sunday, Oct. 28, we will be hosting our ninth edition of *Travel to Provence*, a slide show of that region, followed by a regional dinner and a question and answer session led by Melanie Karsen, a travel consultant specialized on France.

First Floor Treasures at the Art Institute of Chicago

The Art Institute of Chicago is both a familiar local museum and a constant source of discovery. The first, and often only, stop for most visitors is the museum's second floor to view the superb collection of European paintings and the justly famous collections of impressionist and postimpressionist masterpieces. But the first floor displays treasures from a variety of times and places: Africa, Asia, the ancient Americas and the ancient Mediterranean world.

On Thursday, Sept. 6, Jeff Nigro will present an illustrated lecture, "First Floor Treasures at the Art Institute of Chicago," at the 40th Anniversary Membership Tea of the Barrington Community Associates of the Art Institute of Chicago. The tea will begin at 1 p.m. at the Presbyterian Church of Barrington, 6 South Brinker Rd.

Jeffrey Nigro is the senior lecturer in the Department of Museum Education at the Art Institute of Chicago. He received his bachelor's at Oberlin College in 1983 and his master's in art history at the University of Virginia in 1986. Jeff has been lecturing on the institute's collections since 1988, and he became a full-time staff lecturer in 1993. He has also been designated as the Jane Austen Society's traveling lecturer for the Midwest region for the year 2001. Jeff has acted as study leader on Art Institute of Chicago's sponsored trips to Italy, Greece and Germany. He is also the Museum Education Department liaison with The Community Associates of the Art

This free meeting is open to all interested men and women in the Northwest Suburbs. Come and learn some of the highlights in preparation for a treasure hunt at the institute on Oct. 17.

The cost of membership is \$70 per year and includes benefits similar to family level membership at the Art Institute of Chicago. To join, contact membership chair Marianna Barr at 847-382-3952.

Lake Zurich Playhouse Presents the Musical *Children of Eden*

Cast members rehearse a dance from the musical *Children of Eden*: (l to r) Lindsay Bukiet, Renee Kimpel, J. Marie Williams, Catherine Davis, and choreographer Carol Bair-Calzaretta.

Lake Zurich Playhouse's production of *Children of Eden* presents a contemporary interpretation of the first nine chapters of the book of Genesis, through the Creation and into the story of Noah, his family, the ark and the great flood. The musical pursues the theme of freewill, which is perhaps best summed up by the Father when, near the play's end, he states, "Now I know I can't hold you till at last I let you be free."

The show, which almost enjoys a cult following because of its remarkable music, is not only appropriate for all audiences, but will be thoroughly enjoyed by youngsters due to the creative animal

scenes and a cast of over 40 children and adults.

As Mama Noah belts out at the show's end, "Ain't it good?" and as the entire cast celebrates in gospel-style, you'll realize you have discovered a powerful and moving, new, favorite musical.

This not-to-be-missed family musical opens on Sept. 7 and runs weekends to Sept. 22 at Cutting Hall, 150 Wood Street, Palatine. Friday and Saturday performances begin at 8 p.m. Sunday matinees are at 3 p.m. Tickets are \$12 for adults or \$10 for seniors and students. Group rates are available. Please call 847-540-5932 for tickets.

As you walk into this tasteful yet elegant Long Grove store, you are taken by the beauty and elegance of the fine custom designed pieces. Stunning design along with dazzling and daring combinations of natural but brilliantly coloured sapphires, emeralds and rubies, accented with diamonds, make the **Celine Fine Jewelry** collection one-of-a-kind. At **Celine Fine Jewelry**, our designs reflect the individuality of the person and their desires. We strive for customer satisfaction and want our customers to feel completely at home and unpressured.

Show Someone You Care

We Care 4U officially began delivering fun care packages about a year ago. Michele and Brooke were creating and sending bimonthly boxes to college students for a few years. The boxes were so creative that family and friends requested boxes for their kids. That is when Michele and Brooke realized how major this service could be.

Michele Walsh and Brooke Bauer, owners of **We Care 4U Inc.**, began by putting together a research team for an extensive search for the best quality and most amusing merchandise possible. After completing the first phase of research, they pulled everything together to create a variety of care packages for every occasion.

Who are these fabulous boxes for? College students, of course. But these packages are perfect any time you want to brighten someone's day. Who is it that always pops into your thoughts, and you make a mental note to contact them somehow? Who cannot get out themselves to get some goodies? Who doesn't love to get some mail from someone who cares about them? All these "whos" and more are exactly the recipients for these great care packages.

Brooke and Michele are committed to offering unique and personal ways to give you the opportunity to show someone you care. Their research team has the on-

going task of searching for new products and vendors to create the most professional and imaginative packages possible. Most of their vendors are small family-owned companies with quality products, which enable them to include only the best in their packages.

If your friend, child or business associate is not already smiling when they receive their care package, they will when they open the box. All of the care packages begin with a pop-out helium balloon, adding to the excitement and intrigue before reaching the actual goodies. Along with the balloon, a special note personalized from you is included. Some of the care packages are: Top O' the Morning, Tailgate, On the Road, Viva la Pasta, Simple Pleasures, Get Well, New Baby, CookieNut, Practically Everyday and That's Amor, Hey!

From your heart to their home, **We Care 4U** offers unique and personal ways to express your love. You can send one of the already designed care packages, design your own surprise from the list of exciting products or contact Michele and Brooke for a complete custom care package. Check out our Web site for photos, descriptions and all your options—www.sendcarepacks.com. Or just give us a call at 877-471-1404.

New!—Poetry Art at Maura's Frame Shop & Art Gallery

Have you ever seen poetry art? When searching for something unusual, come to **Maura's Frame Shop & Art Gallery** of Lake Zurich and see the art created by Launa. She paints with words. Every nuance, line, shadow, eyelash and hair strand are lines from an original poem that she composed for the artwork. From afar, the viewer only sees a highly realistic painting; but when they step closer, viola! There are thousands and thousands of words which can be read. Each print or original is accompanied with a copy of the poetry.

Launa has been painting for over a decade. She travels worldwide to seek out subject matter. Her focus always returns to children, mothers with children and babies. These prints make ideal gifts for

new baby arrivals, adoptions, Mother's Day and many more occasions.

Visit and see what else is new at **Maura's**. There are the newest items in wall décor taken straight from the garden. Plaques, grates and reliefs for the French country look are available. Hand-painted furniture and small boxes can be seen also. **Maura's** is open six days a week and can be reached at **847-438-6878**.

LOSE THE WEIGHT...AND KEEP IT OFF!

New Weight Loss Program Shows Dramatic Results

Dr. Barry Berger, a Board Certified Internist practicing in Lake Zurich for the past 12 years, introduces a new weight loss program. Gallery Season Opens with Mauricio Lasansky, Creator of Images

The Barrington Area Arts Council announces the opening of the council gallery's 2001-2002 exhibit year on Sept. 7 with *Mauricio Lasansky, Creator of Images*. The exhibit features the Kaddish Collection and other prints.

A native of Buenos Aires, Argentina, Mauricio Lasansky has been making prints for over 40 years. From Argentina to the Metropolitan Museum in New York to the University of Iowa in Iowa City, he has been exploring and expanding the possibilities of graphic arts. In doing so, he has left a legacy of some of the most powerful and impressive works by a contemporary artist in any medium. Through this accomplishment, he has established printmaking as an important art form.

Lasansky's whole life has been the search for freedom. His work expresses two aspects of freedom: the masterly influence of a printmaker and the insistence that dignity and humanity triumph over meanness and bestiality.

In his *Nazi Drawings* of the 1960s, he displayed a seething revulsion to the Holocaust. The Kaddish Collection is a further recognition of those incarcerated in prison camps during the war.

In addition to Lasansky's immense contribution as a teacher, he has become one of this country's most powerful creators of image. He has never turned away from the human figure, retaining a humanist's orientation, making man the measure of his surroundings.

The Kaddish Collection is on loan courtesy of Richard and Alice Bowers. The additional prints are on loan from the collection of McHenry County College.

The public is invited to attend a gala opening reception for the artists on Friday evening, Sept. 7, from 6 to 9 p.m. at the Barrington Area Arts Council Gallery, 207 Park Avenue, Barrington, Ill.

For more information, call 847-382-5626.

Third Annual Wholistic Health Fair, Sunday, Oct. 14

Health is not as simple as a lack of disease. Health includes the mind, the emotions and the spirit as well as the body. It is feeling alive, aware, energetic and joyful. Health is a sense of "wholeness," of balance both internal and external. The rapid pace of life in the 21st century

may make it difficult to gain or maintain our balance. We can no longer afford to be passive participants in our personal healthcare. The new path is a cooperative relationship between the patient and healthcare professional. Join us and explore your potential for limitless health.

tified as a 'Best Of' shopping experience in the Chicago area! The loyalty and support we feel from our customers, paired with my enthusiastic and talented staff, makes doing business in Barrington something I am always grateful for!"

"I also feel that our store is in very good retail company. There are many hidden treasures of retail shopping in our town, and it is important to celebrate these established, unique gift, apparel, jewelry and art stores rather than always focusing on the empty retail spaces in the press."

Autumn is the Time to Shape Up for the Holidays

Holiday parties and festivities are right around the corner. For many of us, this can mean endless hours in the dressing room trying to find the tight, slimming dress or trim suit to disguise the bulge that just won't go away. If you can relate to this, perhaps it's time to consider Tumescant Liposuction. Areas of unwanted fat, which are often genetic and cannot always be eliminated with weight loss or exercise, can be removed permanently with Tumescant Liposuction.

Not only will shopping be more enjoyable, you'll look and feel great with your new shape. Autumn is a good time for Tumescant Liposuction because swelling will be completely reduced by the time holiday parties come around. You'll be at your peak of perfection for all the seasonal cheer.

What is Tumescant Liposuction?

Tumescant Liposuction is the safest and most effective technique to permanently remove excess fat in areas that are resistant to diet and exercise. Tumescant Liposuction was developed by dermatologic surgeons in the 1980s and has completely revolutionized permanent removal of unwanted fat from nearly all body areas, including the face, neck, chin, breast, abdomen, hips, flanks (love handles), inner and outer thighs, buttocks, knees and ankles.

Am I a Good Candidate?

An ideal candidate for liposuction is in good health, maintains good eating habits, exercises regularly and is within 25 pounds of his or her optimal weight. A simple "pinch test" can help determine if Tumescant Liposuction is right for you. Pinch your skin and fat between the thumb and index finger. If you can grasp

more than one inch of tissue, liposuction may be useful in creating a more beautiful you. The neck is an exception to the "pinch test" rule; it can be improved even if less than an inch can be pinched.

Where is the Procedure Performed?

Tumescant Liposuction is performed in our office completely under local anesthesia; no narcotics, intravenous drugs or inhalation anesthetics are needed. It is the safest and most comfortable way to achieve the shape you've always wanted.

What is the Recovery Period?

The local anesthesia keeps the treated areas numb for 18 to 24 hours following the procedure, greatly minimizing any post-operative discomfort. With the Tumescant technique, there is minimal bruising and no stitches; postoperative pain medication is almost never needed. Recovery is fast with Tumescant Liposuction. Most people return to work in just two or three days and resume physical exercise in three to seven days after the procedure.

How do I Make a Consultation for Tumescant Liposuction?

If you try the "pinch test" and think you might be a good candidate for Tumescant Liposuction, call **Dr. David P. Van Dam** at **Dermatology Physicians & Surgeons** for a free, private consultation. Dr. Van Dam has years of experience performing this procedure. He is certified by the American Board of Dermatology and is a member of the American Academy of Dermatology, the American Society for Dermatologic Surgery and the American Society for Liposuction Surgery.

Contact **Dr. Van Dam** at **815-455-4434** or **847-382-5111** for your private consultation. *Leading edge skin care from the hands of experience.*

Optimum Oral Health— A Joint Responsibility by James T. Gavrilos, DDS

When a patient desires to keep their teeth and their mouth in optimum oral health, advances in dentistry have generally made it possible for a qualified dental team to help them achieve their goal. Teeth can usually be restored to a strong, maintainable and aesthetic condition. Care in our office allows considerable time for our hygienists and assistants to educate patients in proper home care. We recommend the use of preventive prescription home fluoride in adults as well as children. The frequency of recare appointments varies from one month to one year depending on the needs of the patient. Time is always allowed for thorough home care education.

The responsibility then shifts more to the patient and less to the dental team. Regular home care really makes the difference. Adults usually have more problems with their gums and with root area decay.

Dr. James Gavrilos

Keeping the edges of crowns and the surfaces of roots clean means dental restorations last longer and the effects of gum disease are minimized.

If you follow these suggestions, you will generally save money as well as saving your teeth.

For a better understanding, call **Dr. James Gavrilos** at 847-381-4040 in Barrington.

Osteoporosis—Attention All Women!

Did you know: women can lose up to 20 percent of their bone mass in the five to seven years following menopause, making them more susceptible to osteoporosis?

Did you know: one out of every two women will have an osteoporosis-related fracture in their lifetime?

Did you know: you are at a higher risk of developing osteoporosis if you are small-framed, have a family history of osteoporosis, are a smoker, have a low calcium diet or use corticosteroids?

Osteoporosis, or porous bone, is a condition in which decreased bone mass and structural deterioration of bone tissue occurs. This results in bone fragility and an increased risk to fracture the wrist, hip or spine. This disease affects more than 28 million Americans, 80 percent of whom are women.

The good news is that osteoporosis can be prevented and treated! Women of all

ages should understand what osteoporosis is and what can be done at their stage of life to prevent or treat this condition. Exercise, medication and nutrition are all important. Learn more about osteoporosis, prevention and treatment at the **Women's Physical Therapy Institute's Osteoporosis Wellness Program**. Blanke Park Subject for Four Seasons Garden Club

Four Seasons Garden Club chooses Blanke Park of Barrington as the subject of its first monthly meeting this fall. For a number of years, Four Seasons Garden Club members have maintained and added to the plantings in Blanke Park, formerly located adjacent to the old Barrington Village Hall. George Robert (Bob) Blanke, grandson of John Blanke, village trustee and president for whom the park was named, will give a retrospective of his grandfather's life and community contributions. Joyce Allen, the club's historian, will share the scrapbook filled with photos from work on the park. (The old park was lost to construction for the new Village Hall. Property on Station Street ad-

jacent to the Village Hall contains space allotted for a renewed Blanke Park.) Mr. Blanke will also present plans for the new rendition of the park honoring his grandfather, and the meeting will conclude with a visit to the Blanke Park site.

This meeting of the Four Seasons Garden Club will be held at the home of Elaine Bontempo at 9:30 a.m. on Sept. 4. The Garden Club will sell plants, vegetables, preserves, dried flowers, decorative pots and other member donations of interest to fellow gardeners. This annual fall sale is the primary fund-raiser to cover ongoing club expenses.

Each month from September through June, the club holds its meetings on the

Architect of Vietnam War Veterans' Memorial Featured Speaker

Maya Lin, architect of the Vietnam War Veterans' Memorial in Washington, D.C., is the featured speaker at the Combined Associates Program 2001 at the Art Institute of Chicago on Wednesday, Oct. 17.

Maya Ying Lin was born in Athens, Ohio, on Nov. 5, 1960. Her Chinese-born parents had emigrated to the United States in 1948. Her father became the dean of fine arts at Ohio University where her mother served as a poet and professor of Asian and English literature. Provided with an environment rich in art and literature at a young age, Lin was inspired to study architecture and sculpture when she entered Yale as an undergraduate.

While Maya Lin was a 21-year-old student taking a class in funereal architecture, her professor suggested that participation in a contest to design the Vietnam Veterans' Memorial would be good experience. Of the estimated 1,500 to 2,500 entries, Lin's design was unanimously chosen by the contest judges.

Maya Lin is now married to a photography dealer and has two young children. She continues her work as artist and architect, dividing her time, when not on site with a project, between her home and studio in New York and her home in Vermont. Her education includes her bachelor's and master's degrees from Yale as well as recognition in the form of honorary doctorates from Yale, Harvard and Williams.

Although Maya Lin's other projects have

not surpassed the impact of her first commission, they are enormously inspirational and important. The Civil Rights Monument she created for Montgomery, Ala., was inspired by Martin Luther King Jr.'s insistence that seekers of equality not be satisfied until "justice rolls down like waters and righteousness like a mighty stream." It is described as employing a flat oval fountain with water bubbling like tears over a carved timeline of events in the struggle for racial equality.

Lin designed renovations for the building that was to become the New York Museum of African Art. Her alma mater, Yale University, asked Lin to create a sculpture in commemoration of women at Yale which now stands in front of the

Now You Can Look Your Very Best World Class Skin Care Specialist Will Show You How

Estetica's skin care specialist, Catherine Zedan Grandi, recently traveled to Brussels and Paris to study at the Exoles Internationales Marnix and the Yves Rocher Institute of Beauty.

Catherine's passion is making people's skin look and feel its very best. And when she isn't teaching skin care, she's learning more about it.

"There are numerous benefits to being both instructor and student," says Grandi. "As an instructor, the students' questions and fresh perspective keep my clinical skills sharp. As a student, reviewing the foundations of esthetics education keeps my vision clear."

In addition to her continuous education, domestic and abroad, Catherine consistently follows the top health and beauty trade journals to assure she's bringing the latest products and techniques to her clients.

Intimate Personal Experience

Having suffered with serious skin problems from her preteen into adult years, Grandi empathizes deeply with all who search hopelessly for solutions to their skin problems.

She explains, "As a child, visits to the family doctor created only expense and frustration, not clear skin. In my adult years, I experimented with many of the

heavily marketed lines of cosmetics. It was both financially and emotionally draining. Cosmetics can provide a certain degree of cover and enhancement, but they just don't solve the problem."

The Right Combination

The practice of esthetics dates back many centuries. The **Estetica Advanced Skin Care Clinic** takes a modern-day, holistic approach to achieving healthy, radiant, beautiful skin for its patients.

Good nutrition (proper fuel for the body) plays a tremendous role in giving you "energy, function and glow... What you put inside absolutely shows on the outside," explains Grandi.

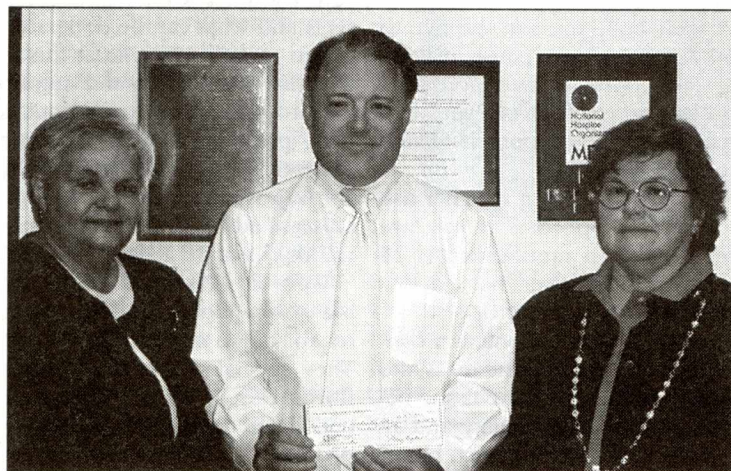

Proper cleansing, moisturizing and protecting makes a substantial difference in the beauty of your skin and how you feel about yourself.

With a little education to adjust your daily routine along with the specialized techniques provided at **Estetica**, you'll be amazed at how wonderful and healthy your skin can look and feel.

Says Grandi, "These techniques work... period. The results can be quite dramatic. In fact, they've changed people's lives, mine included!"

New Skin Technology Debuts at Northwest Dermatology

Northwest Dermatology is pleased to announce the addition of the Diamond Peel™ microdermabrasion system to their practice. Microdermabrasion, the most progressive new therapy in skin care, is being widely recognized by professionals throughout the U.S. for its effective, gentle skin peeling capabilities. It's been featured in all the major magazines including *Vogue*, *New Woman*, *Allure*, *Elle* and others and continues to be the most talked about new treatment for people in search of a more youthful appearance and healthy looking skin.

The Diamond Peel™ uses micro diamond-shaped crystals to remove dead skin cells and rejuvenate the health of the skin. Treatments are fast and pain-free, leaving little or no redness. They last less than an hour and do not interrupt your busy schedule.

The Diamond Peel™ can treat aging and sun-damaged skin, some types of acne and acne scarring, altered pigmentation, fine lines, melasma and enlarged and clogged pores.

According to the American Society for Dermatologic Surgery, microdermabrasion is "skin care for the new millennium. It greatly enhances poor, dull skin texture by gently resurfacing the superficial skin layers; softens and modifies fine 'expression' lines typically seen on the forehead and around the mouth; and it polishes and reduces fine lines on the cheeks generally caused by aging and sun damage."

The Diamond Peel™ treatment erases epidermal layers at varying depths in a safe, controlled manner, minimizing skin trauma. This approach respects the integrity of the skin and promotes even healing. Maintaining level cellular growth on the surface aids in the freshness of the skin's appearance. Regular treatments support a healthy, balanced skin surface.

The Diamond Peel™ complements other treatments offered at **Northwest Dermatology**, such as EpiLight hair removal, Botox, Collagen, Beta-Lift peels as well as general and surgical dermatology. Please call our office in Hoffman Estates at **847-884-8096** for more information.

Orthodontic Diagnostic Records Essential for Accurate Treatment Plan

You wouldn't dream of building a home without an architect's detailed blueprints. There is much thought and planning involved in such an undertaking, and the same is true for orthodontic treatment.

After an initial evaluation by an orthodontist, diagnostic records are taken to provide key information not visible to the eye. Diagnostic records include: plaster study models, panoramic and cephalometric X-rays, and intraoral and facial photographs. The orthodontist can analyze the study models to determine if the patient has a malocclusion or "bad bite." X-rays will reveal if the patient has any missing or extra teeth. It is also important for the orthodontist to consider a patient's profile and facial esthetics when reviewing the intraoral and facial photographs. All of these areas are critical to the development of an appropriate treatment plan for each individual patient based on their needs. Knowing these specific details prior to the onset of treatment is the foundation for successful results.

A consultation appointment is often when treatment plan information is discussed with the patient and/or family. It is important that everyone understands any special concerns that the orthodontist may have in regards to treatment.

If you have any questions regarding orthodontic, diagnostic records or treatment, please contact us at either our Barrington, **847-382-5588**, or Palatine, **847-359-7980**, offices or visit our Web site at www.haywardorthodontics.com.

Thoughts On Your Child's Well-Being

by Carole Childers, C.N., L.N.C., All Ways Healthy

Does your child suffer from recurring colds or is sick "all the time?" Is your child finding schoolwork difficult? Does your child struggle with fatigue and low energy levels? Has anyone ever described your child as "hyperactive?" Is your child on a constant course of antibiotics?

Do any of these questions sound like your child or someone you know? There's a very good chance that allergies and poor nutrition are the underlying causes.

Studies show that diets lacking in protein, vitamins and minerals can result in a host of health problems. In an age of fast food restaurants on every corner and supermarkets with aisles and aisles of prepared food, many of us, including our children, are poorly nourished. Keeping a record of what your child eats for sev-

eral days may reveal some surprises that can hold the key to physical and behavioral problems. How much of any of the following are included in your child's diet?—convenience or "junk" food, sugar, preservatives, additives, food dyes and other colorings.

Any child who has had a number of courses of antibiotics, or who has allergies, as well as any other behavioral problems, might have a yeast sensitization. When a child becomes sensitive to yeast overgrowth in the body, it can intensify any allergic problem, from asthma to hyperactivity.

With ADD (Attention Deficit Disorder) getting so much media attention, our means of treatment often turn to a quick "fix," usually involving drugs. Before re-

sorting to this approach, why not explore the benefits of nutritional therapy? It is well established that allergies to food and food additives play a role in hyperactivity. I have seen children that have been diagnosed with ADD, hyperactivity and other behavioral difficulties improve tremendously, simply with a nutritional plan specifically designed for that individual.

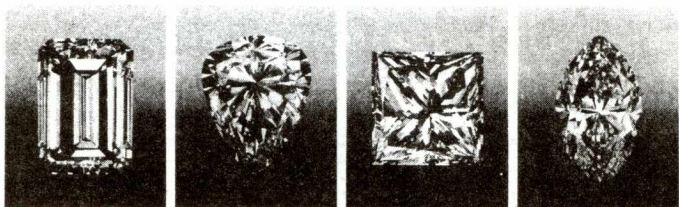

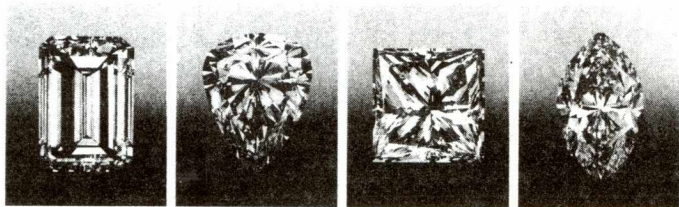

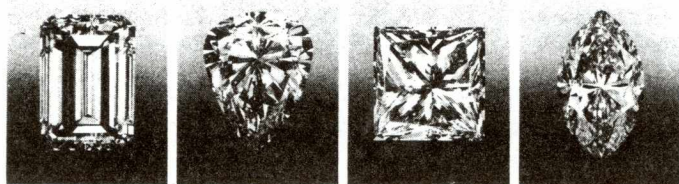

If we feed our children right and provide them with proper amounts of nutrients, they'll not only experience a healthier body but a healthier immune system

as well. And it is their immune system that is crucial in helping them cope with stress, viruses and all the other challenges of an active child's life.

Feel Good and Look Great

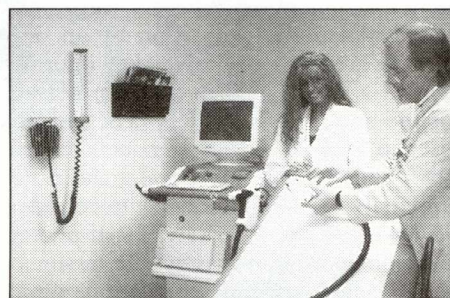

The doctors at **Total Health Concepts, Ltd. Aesthetic & Laser Surgery Center** are proud to introduce Foto Facial, Wrinkle Light & Laser Laxity Vector Treatment and Skin Rejuvenation—the outstanding new procedure for an aging skin treatment.

W. Mark Iwanicki, MD, the founder of the corporation, is one of the only few physicians in Illinois who are fully trained and licensed to perform this procedure.

Photorejuvenation is a new and very unique procedure that visibly improves the appearance of the skin and reduces signs of aging, rosacea, enlarged pores, irregular pigmentation, spider veins, fine wrinkles and flashing of the face. We are very excited about this procedure which has gained tremendous acceptance because it appears to be a non-invasive alternative to laser facial skin resurfacing and has an excellent safety record and no down time. A patient can return to work right after treatment. There is practically no pain. More sensitive patients can use local anesthetic cream. Treatment of the face is most common but other parts of the body, such as the neck, chest and arms, can also be successfully treated. This procedure is suitable for both women and men.

The treatment usually consists of few sessions lasting about 30 minutes.

Advanced Vein Treatment Center at **Total Health Concepts, Ltd.**, provides the patient with the most advanced and contemporary varicose vein diagnosis and treatment: laser treatment of spider veins, sclerotherapy, advanced ultrasound guided sclerotherapy, non-invasive evaluation of venous flow and insufficiency, etc.

At Total Health Concepts, Ltd. their doctors combine years of medical experience with the latest techniques in 21st century technology. For more information, call 847-228-3151.

The clinic also provides several procedures to improve your appearance.

Botox Injections—This relatively simple medical procedure helps eliminate wrinkles, especially those frown lines and crow's feet around the eyes, and takes not more than 15 to 20 minutes of your time.

Hair Removal—Permanent hair reduction from all parts of the body with a "flash of gentle light".

We also offer treatments for age spots, stretch marks, warts, scars, portwine stains and many others.

Dr. Iwanicki and associates have been practicing medicine in the Schaumburg area for over 20 years. "We get older together with our patients and we understand their needs." Their friendly staff is waiting to help you.

by Judy Kaplan, MS

Since opening my practice over five years ago, I have had the pleasure of working with more than 1,000 people, either individually or as couples, families and groups. As an outcome of my work with these clients, I have recently expanded my individual/marital therapy practice to include **seminars, executive coaching, motivational speaking and corporate consultation.** It became apparent to me that the majority of problems facing individuals were the same or similar to those problems that face entrepreneurs owning businesses, small or large, and executives that run large corporations or departments. The problems include communication skill development, conflict resolution, problem solving, brainstorming, collaborating on action plans, goal setting and relationship improvements.

I have learned the most important lesson of my life, both through painful, personal life challenges and through working with many clients. The answer for most people lies in their ability to feel empowered to change or revitalize their positions in life. Whether you are dealing with the loss of any kind or struggle, a life dilemma or a relationship problem, feeling empowered can make the difference between staying stuck and moving forward. When a person feels there is no way out or that his life is in the hands of another, it invalidates the natural instinct to take care of oneself. This is very unhealthy, resulting in low self-esteem and negative feelings. The essence of my philosophy is now embodied in my recently

launched Web site, **Empower-Vision.com.**

It has been my pleasure over these years to provide alternative perspectives to often bleak or frustrating views. I call these alternatives empower-visions. How can one see alternatives that are empowering rather than debilitating, frustrating, overwhelming, etc.? By processing a situation with me, I am able to sift through the details and strategize, collaborate, suggest and see alternate ways of viewing the same situation in a different light, with different and often more creative ways of handling the matter.

Having had a long career as a business owner and involvement with corporations in an executive capacity, I can offer the benefit of many years of hands-on successful business experience. I have realized that the skill of listening, understanding and relating to specific problems allows me to provide a broad view of alternate perspectives, which allows an empower-vision kind of thinking. My approach is largely educational, creative and collaborative.

Recent work in this new arena includes **team building events for companies, lunchtime mini-seminars and weekly coaching sessions.** As always, I welcome individuals and couples to call when they need help. And now, entrepreneurs, business people and executives are invited to call upon my services too. Visit my Web site, **Empower-Vision.com**, and let me know what you think. Or call me at **842-9365.**

REMODELING 2001...STORY #9

"My kitchen is showing its age," said Debby Shanfeld of her '60s-era Barrington home during her first meeting with designer Kaye Hathaway of **Barrington Kitchen & Bath Studio**. Kaye, who is nationally certified as both a kitchen designer and an interior designer, had helped Art and Debby Shanfeld with a bath remodeling project several years earlier. The couple now wanted assistance with their kitchen. The kitchen, which was the original installed by the builder, had all of the features which were big selling points when the house was built: a peninsula dividing the kitchen and eating area; a narrow, built-in oven and separate cook top; a large desk; and a small, built-in pantry. Deep soffits filled the space between the top of the wall cabinets and the ceiling. "The kitchen's small, so I don't think there's a lot we can do, but I'd like to make it pretty and maximize the space I have."

"Debby's kitchen was typical of many kitchens I see," Kaye says. "The builders put in the wish-list items for the '60s buyer, and many were very cost effective. The original kitchen had only one standard wall cabinet. The corners of the lower cabinets were inaccessible. The wide desk drawer filled space at minimal cost. Soffits and a built-in pantry could be done inexpensively when tradesmen were already working on building the house. Tract house builders today still use some of these tricks. It's only when the family moves in that reality hits. A good, experienced kitchen designer will make every inch of space work hard."

A look at the before and after photos will show a big difference in function, even though the footprint of the kitchen didn't radically change. The cumbersome soffits are gone. There are now several, taller wall cabinets, including a bifold-door corner cabinet, so dishes, glassware, serving dishes and food staples can be stored close to where they are used. Plus, there is a glass-fronted display cabinet to add the pretty look that Debby requested. Replacing the old cook top and oven with a sleek new range provided more counter space. The lower corners now work hard with a "Super Susan" and a working cabinet facing the table, perfect for place mats and large serving pieces. There was also room for a special tray storage cabinet, a pull-out trash can, and 3-foot-wide pot and pan drawers. The back of the peninsula now boasts decorative doors rather than plain paneling. The old desk has been replaced with a bead-board backed hutch that serves as a message center, complete with a file drawer. Two pantry cabinets, with roll-out interior drawers and upper tray dividers, replace the inefficient, old built-in pantry. The extra deep cabinet over the refrigerator is perfect for big stock pots.

Debby chose a soft antique-white finish for her new crystal cabinets and complemented them with rich dark granite. Beautiful wood floors replaced the old vinyl. The Shanfelds

contracted with **Barrington Kitchen & Bath Studio's** sister company, **Delta Renovations**, to do the preparation and installation of the new kitchen. To visually expand the eating area, **Delta** replaced the existing window with a new bay window.

A recent note from the Shanfelds said this: "We had heard from family and friends that kitchen remodeling was a stressful and disruptive experience! We are pleased to say that Kaye Hathaway and the crew from **Delta Renovations**, headed up by Joe McCarthy, made this process an enjoyable one for us. They really made us feel like our satisfaction with our new kitchen was their number one concern. We would highly recommend their services to anyone."

If you want to put every inch of your new kitchen to work, you owe it to yourself to contact the experienced professionals at **Barrington Kitchen & Bath Studio**. Put our team on your team by calling us at **847-381-3084** or stopping by our showroom.

The Shanfeld's beautiful new kitchen (left) maximizes storage where the old kitchen (below) wasted space.

When is an Addition Not an Addition?

The answer is simple—when you cannot tell that an addition was created. “This is done by carefully and respectfully designing revisions to the existing architecture as to achieve a harmonious and contextual blend,” says John C. Cazzetta, President of **Kemper Cazzetta, Ltd.**, architects in Barrington, IL. “So often you can drive by a home and see how obvious their addition was placed upon the home and in some cases with no regard to the existing architecture.”

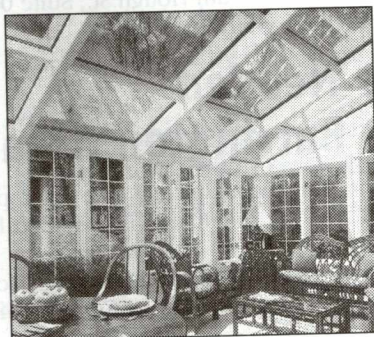

If you are considering expanding or revising your home and you are concerned about how it will affect its look and value, then please call our office to discuss your project or view our portfolio, which displays solutions that can be architectural assets to your home.

Some clients are quick to resolve their space problems with little consideration of the visual impact created by the remodeled space. “We stress that while solving our clients spatial needs, we ensure that the end result has, at least, continued the style and detail of their present architecture, if not enhanced it,” says Cazzetta.

For a free consultation, contact John C. Cazzetta at **Kemper Cazzetta, Ltd.**, 847-382-8322.

An Exciting Home Addition

In addition to providing custom room additions with bathrooms, kitchens and fireplaces, **Armcor Design and Build** is your local store for **Four Seasons Sunrooms**, the nation's largest manufacturer of greenhouse/solarium-type room additions for residential and commercial use.

Each **Four Seasons Sunrooms** product is meticulously designed and crafted to be a practical, beautiful, and exciting addition that will bring a new dimension of space, light and warmth to what might otherwise be an ordinary room, whatever the season or location of your home.

Armcor Design & Build craftsmanship and quality products are also an excellent investment and can add real value to your home. Often, much of your investment in a **Four Seasons** sunroom can be recovered when you sell your home.

Glass room additions create views of the sun and sky and add extra living space with possibly little or no alterations. New MC² glass, with a Lifetime Warranty and

specially designed to keep summer heat out and winter heat in, is one key to **Four Seasons Sunrooms**' success—especially in our Chicagoland climate.

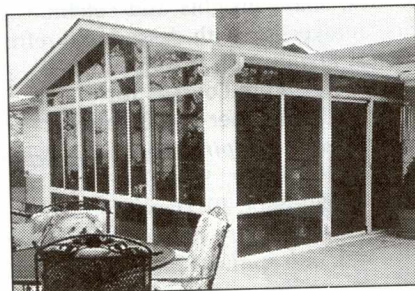

Many patented features are available exclusively from **Four Seasons Sunrooms**, and all products are designed to meet or exceed building-code structural requirements and have successfully withstood more than 200,000 installations.

Armcor Design & Build will provide you with a complete “turn key” room addition project or you can build it yourself. Every **Four Seasons Sunrooms** greenhouse/solarium product is maintenance-free, weather-tight and comes with a lifetime limited warranty on MC² glass, five year warranty on parts and labor. Cost-effective Alternative to Custom Bathroom Remodeling

You didn't have much of a choice. But the **Re-Bath** Bathtub Liner and Wall Surround system gives you the alternative you've been looking for.

Bathtub liners, shower base liners and wall surrounds are installed over your existing tub, shower, and walls, which means you don't have to pay demolition and retrofitting costs. The liners do not disturb existing floors, plumbing or walls and they are installed, in most cases, in one day. You can use the bathtub or shower the same night!

Not all tub liners are created equal. **Re-Bath** liners are custom manufactured from high-impact stain resistant acrylic that is thermoformed to fit perfectly over your old tub. Your tub is precisely measured and matched to one of over 600 bathtub liner molds at our manufacturing facility. The custom fit and **Re-Bath's** exclusive patented installation technology guarantees a perfect watertight fit on every bathtub liner. This type of installation ensures complete stability.

With minimal care, the durable acrylic finish will keep its high-gloss beauty indefinitely and it won't crack, chip, peel, or dent. The liners come in many colors that give you a range of decorating options for your new bathroom.

We can also replace other fixtures, vani-

ties, flooring, tiling, etc. and spruce up your walls with paint and faux finishes. Our extensive photo library of past projects will give you plenty of ideas for your own bathroom. Should you need financing, we have a range of options to fit your budget.

Our showroom has a **Re-Bath** installation, complete with all the product information you need to make an informed decision. Visit us at 43 E. Crystal Lake Avenue in downtown Crystal Lake or call us now at **815-459-0082**. We'll help you get the bathroom you want at a price you can afford.

Season Opener Set for Garden Club of Inverness

The Garden Club of Inverness welcomes back members and invites all interested gardeners to attend the kickoff meeting of its club year on Sept. 20, at 9:30 a.m.

Donna Schuld, first vice president and program chairman, has chosen Deneen Komarek of Bloomin' Colors in St. Charles for a "hands on" demonstration in design and installation of outdoor planters. She will discuss the elements of texture, height, sun and shade plant requirements. Ms. Komarek is a lifelong gardener and has been involved in local business for

many years. (If you shopped historic Geneva this spring, her amazing creations may have already crossed your path and most certainly caught your eye!) Here's a second chance to be inspired!

Our club continues to meet at Holy Family Church, 2515 W. Palatine Rd., Inverness. The morning begins with a short business meeting followed by a break for hospitality, socializing and our presentation.

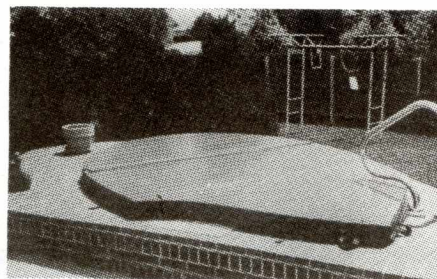

For details or questions regarding membership, call Phyllis Ewert at 842-1695.

Landscaping...Dumb Money/Smart Money

Dumb money goes for free design advice from lawn maintenance services and relatives. **Smart money** knows that life-style-compatible design concepts of the non-cookie cutter variety are had from a design professional.

Dumb money buys what looks good today, on sale, and often guided by the label or sales clerk. **Smart money** knows labels are often incomplete and misleading; and aims for long term and low maintenance color for all the seasons.

Dumb money downsizes materials to excess, sacrifices quality, and puts off fundamental problems when the budget is squeezed. **Smart money** takes on one area at a time, does it well, then moves on as budget allows.

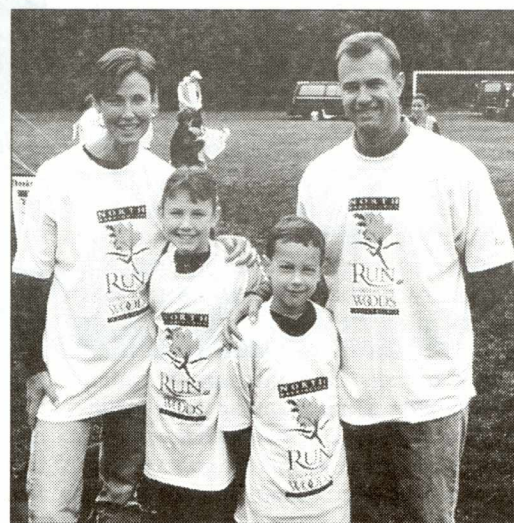

Dumb money is cutting back, digging out, and replacing what died or overgrew their bounds in just a few years. **Smart money** is lining up the next putt.

Spend wisely... *the naturalizing landscapes*. 847-438-8890.

Prepare Your Home for Winter

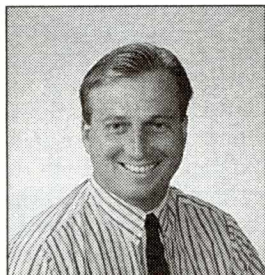

Bill Schafer—President

Fall is a traditional time to look at home improvement. After a relaxing summer of beaches, barbecues and baseball games, you need to give your home some attention if it's going to make it through the winter.

Summer storms and strong sunlight may have taken its toll on the roof. Those broken and missing shingles can cause big problems once the snow and ice arrive. Don't wait until you find water trickling down the walls or puddles on your floor! Damaged or missing roof vents may also need to be replaced. Fall is a good time to get those repairs done and if a new roof is needed, now's the time to schedule it.

And as hard as it is to think about it, you know the winter cold is on its way. Time to replace those old leaky windows and doors. With all the choices on the market, it's easy to find the best new energy-saving products to suit your budget. Turn that drafty front door into an elegant

Joe Schafer—Vice President

and stunning entry to your home to welcome all those holiday visitors.

This is also a good time of the year to get that exterior paint-work done. Someone needs to scrape, prime and prepare the siding and trim before using professional-grade paint. And if you call us, it doesn't have to be you!

Even vinyl and low-maintenance siding needs some attention. Better to replace missing or damaged siding now before the wind and rain get inside to your interior walls.

From the smallest home repair to the whole house remodel, **Schafer Builders, Inc.** does it all. Visit our award-winning office in downtown Crystal Lake, or check out our Web site at www.schaferbuilders.com. If you want your winter to be as relaxing as your summer, call us at **815-459-1333** or **1-800-564-1339**. Your free, no-obligation consultation is just a phone call away.

"Ali Baba's Ball" will benefit Home of

the Sparrow, a successful transitional housing/counseling program for homeless women and their children. With its headquarters in McHenry, it has additional locations in Palatine and Crystal Lake.

"Tales of Life—Yesterday and Today"

Barrington Area Council on Aging and the Barrington Area Arts Council announce a collaborative project created to provide the opportunity for older adults to reflect and share their personal stories. Similar but different from a family history, this is more of a personal narrative of the individual's life, sharing humorous, interesting, unique family tales.

The program will consist of three sessions with the first two facilitated by master storyteller Jim May of Spring Grove, Ill. May will share some of his personal stories and invite the audience to share some of theirs. Each workshop will

be focused on a selected theme. The third session will have a predetermined theme and include exercises to assist participants developing their own tales of life.

"Tales of Life" will be held Sept. 26, Oct. 24 and Nov. 14 from 9:30 a.m. until noon at the Barrington Area Arts Council Gallery at 207 Park Ave., Barrington. The program is free, and attendance at all three workshops is not required. Space is limited, so reservations are advised. For registration or more information, please call The Barrington Area Council on Aging at 381-5030 or The Barrington Area Arts Council at 382-5626.

Barrington High School Lacrosse State Champions to be Honored During "A Day at the Races"

Following the final game in June against Loyola, Barrington High School Varsity Lacrosse team members are pictured around the coveted 2001 State Championship Trophy as they celebrate their 18-0 undefeated season.

In an 18-0 undefeated season, Barrington High School Boys Varsity Lacrosse brought home the 2001 State Championship Trophy. The win will be celebrated during "A Day at the Races" on Sunday, Sept. 9, in the Governor's Room at Arlington Park. The benefit will begin at noon and include unlimited beverages, sit-down gourmet buffet, prizes and a specially named race to honor the champions. The championship trophy will be displayed in the

elegant private setting of the Governor's Room, which has access to a canopied or sunny outdoor balcony with seating to observe the thoroughbreds as they run the homestretch.

Barrington High School Lacrosse is a "club" sport. This means that the participants and their families must provide the funds to field the teams. Lacrosse, growing in the Chicago area, is clearly thriving in our Barrington community.

Before You Landscape... Master Plan

As Landscape Architects, we stress the value of creating a Master Plan for your property prior to commencing any landscape project. Regardless of the size of your project, a Master Plan permits your landscape budget to be appropriately invested. Once completed, your investment will result in a professionally designed and installed plan.

Master planning is simply defined as the areas of a property that require the most attention and which display solutions to specific problems. Future plans such as pools, ponds, additions to a home, and other amenities are addressed and carefully "planned." Once we incorporate hardscapes, garden beds, garden features, etc., then a budget plan can be created.

The homeowner will then be able to

utilize their plan for years in the future, installing each segment of the plan as it relates to their budget and use of space.

To learn more about Master Planning and our firm, **BonnerCodd Associates**, please contact John C. Cazzetta, Landscape Architect, at **847-382-4838**. We look forward to hearing from you.

Security and Beauty with Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees,

artwork, building features and so forth, using a wide variety of techniques including uplighting, crosslighting, moonlighting and pathlighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

Perk Up Your Garden with Vibrant Mums

With fall approaching, now is the time to perk up your garden with the vibrant colors of garden mums. Be sure to stop in soon to get the best selection. **Hager's** has grown over 40 varieties in both one- and two-gallon pots, ideal for garden and container planting.

In addition to the container mums, **Hager's** is again offering mum hanging baskets, sure to make your friends and neighbors turn their heads. Whether you prefer the traditional fall colors of golden-yellow and bronze or the contemporary lavenders and whites, there is sure to be a mum for everyone at **Hager's**.

Fall is also the time to plant a spring miracle, a colorful bulb garden to enhance the beauty of your yard! Worried about deer and squirrels? At **Hager's**, you will find not only the ever-popular tulips, daffodils, hyacinths and crocuses, but a special collection of deer and squirrel resistant bulbs. The staff at **Hager's** will happily assist you in planning a stunning bulb garden.

McCauley Design Featured in *Great American Kitchens*

For the second time this year, an award-winning McCauley Design kitchen is being featured in a national publication. If you have any thoughts of remodeling your kitchen, please proceed to any major bookstore and pick up a copy of *Great American Kitchens*. In it you'll find a multitude of ideas fresh from the minds of America's best kitchen designers, including Barrington's own Lisa McCauley.

McCauley Design provided this Great American Kitchen for a Barrington Hills couple who wanted an island of easy domesticity in the center of their busy professional lives. They wanted to smell the cookies baking when they walked into the room, even if they were just coming off the red eye and hadn't been home for a week.

To provide the sense of home, Lisa designed a series of freestanding cabinets that look as if they have been in place forever. For example, the commercial range is flanked by standing cupboards that cleverly hide refrigerator and freezer units. A writing desk, pie safe and tall storage cabinet were all specially built and placed not only to enhance the owners lifestyle but also to create a sense that the kitchen had evolved over a period of time.

To make the room comforting and familiar, Lisa incorporated elements of the couple's collection of antique furniture. The venting hood above the range includes built-in art-glass that the couple found in a Michigan antique store. The standing cupboards incorporate a saw tooth detail from a favorite hutch. The hutch was also worked into the kitchen design.

This is not the first time that McCauley Design has received national attention for its kitchen designs. The reason is simple: At McCauley Design, great creative work takes precedence over everything else. While we do sell the finest in kitchen cabinets, appliances, stone, and tile, nothing

is more important to us than making sure that our clients wind up living in something beautiful.

When you come to McCauley Design, you get the best designers, you get the finest cabinets (in virtually every price range), and you get the attention to detail that will make your new kitchen a "cover story." Don't settle for less than the best. Come to McCauley Design.

Why the Best Doesn't Cost Extra

Our initial consultation is free of charge and can take place in your home. During that consultation you'll have a chance to see whether our ideas are the best before you commit to design fees. We'll also show you the difference between our design work and the type of design work you can expect from the typical cabinet salesperson. If you are not convinced that our design fees make sense, you need go no further. There is no high pressure at McCauley Design.

Most people opt to proceed with us because they like our ideas and because our design fees are fully credited against the ultimate cabinet purchase. Because our cabinets are competitively priced, there is no need to go bargain hunting. At McCauley Design you get the best design and the best value.

Marble and Granite

For years McCauley design has specified stone counters for virtually all of its projects. Granite is a special favorite because of its special adaptability to kitchens. Virtually impervious to stains and scratches, granite will keep its looks for the life of the kitchen. Granite's natural beauty is unsurpassed, as each slab features a unique grain pattern that adds life and drama to kitchen counters.

Now Barrington has a new source for stone countertops, floors, and ceramic tile, because McCauley Design is providing marble, granite and tile in its Barrington showroom.

Come in and see samples of marble, limestone, kirkstone, and other man-made aggregates, as well as exotic quartz and semi precious stone tiles. McCauley Design has large stone samples on hand so that homeowners can get a true feeling for the appearance of the stone they select.

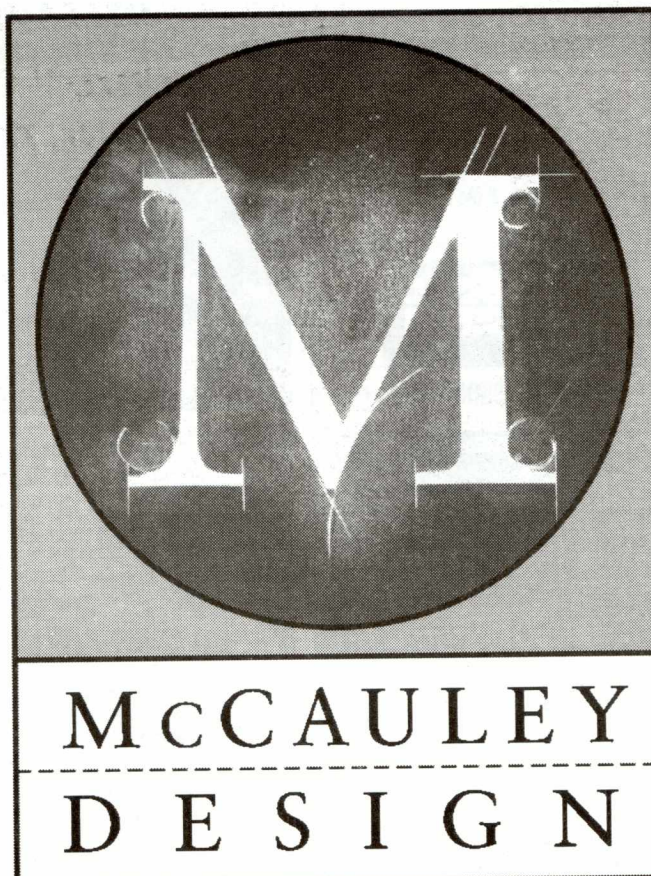

There IS a Free Lunch

Every Friday McCauley Design serves lunch for anyone in Barrington who cares to drop in. Everyone is welcome, including architects, contractors, customers, friends, and anyone else who cares to drop by. If you are thinking about a project, this can be a great informal way to get some ideas.

McCauley Design is located at 211 Park Avenue in Barrington, near the train station. Call **381-2742**.

Guess Who Markets The Most Homes Over \$500,000

Our world is full of claims. Some are so involved they can hardly be understood—especially by the lay person with other things on his mind besides real estate.

So we would like to state a simple fact: the company that lists the most Chicagoland homes over \$500,000 is Coldwell Banker Residential Brokerage. Given that the owners of these homes (ranging in price to over \$5,000,000) are intelligent, thoughtful, and in a position to choose whomever they consider most able, we do indeed feel honored.

And, modesty aside, deserving. Because nobody works harder or smarter at marketing than we do, whatever the price point. This is a simple fact we'd be delighted to prove to you.

We're the real estate professionals with the business expertise.

This morning, I received an article on attitude. This article describes a colorful man named Michael. Michael is a positive, always-in-a-good-mood motivator. Whenever asked how he was doing, he would reply, "If I were any better, I would be twins!" His philosophy was not to worry about tomorrow, for tomorrow will worry about itself. Michael felt that each day brings either opportunity or challenge. However, we have the choice in how we perceive our days, positively or negatively. Attitude, after all, is everything.

On a scale of 1 to 10, how is your attitude? How do you perceive your future? Are you on the path to your dream or is it status quo? This column is a nudge... the nudge to get your dream. We are now into September, and all signs point to a very busy real estate market this autumn. It's a welcome departure from years past when real estate activity began a seasonal decline that continued through the holidays. The frenzied activity of spring and summer will, in all probability, continue. As of this writing, interest rates are level

and many home-buyers are eager to take advantage of the affordable financing. **Coldwell Banker Mortgage** offers over 50 programs to meet buyers' needs. Conventional fixed rate (30 years at 7.170 percent without points), adjustable mortgages (5/1 year Arm at 6.375 without points) as well as government and jumbo loans are available at very attractive interest rates. Call **888-942-6082** anytime. From the convenience of your home, determine what you currently can afford.

If now is the time to move to a larger home or move to a different lifestyle, be sure to start with a call to a Realtor, and, preferably, a **Coldwell Banker Realtor**. Be sure to price your home realistically, based on the opinion of value by the Realtor who is knowledgeable about our current housing market. Eighty percent of the sale is in the correct pricing of your home. So do it right, and then go on to find the new home that meets your specific needs.

Your Hardscape Brick & Stone Specialists

From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

The weather this July was the epitome of the dog days of summer.

Summer is the busiest time of the year for our service department. I want to commend our service technicians for their unbelievable tenacity and dedication. For a few days, the temperatures in the service department reached 110 degrees with high humidity. Even with large fans blowing, it was stifling.

Despite these conditions our technicians produced a record amount of hours during the month of July. Even with personal bias aside, we have one of the best groups of service technicians in the entire Chicagoland area. To be an exceptionally good service technician takes constant reading and ongoing training.

Modern vehicles are much more complicated than their predecessors. They all have processors in them that are mini-computers. Service technicians have to be very technologically oriented and updated to keep our vehicles running properly. They also have to be extremely agile, because most areas that they have to work

on are not behind a desk. There is a lot of reaching, bending and stooping. Being a service technician can be very hard on your back.

I don't think the average person realizes how much skill and study it takes to become a master technician. We at **Wickstrom Ford** are very proud of our entire crew.

adults though older patients are candidates as well. The younger patients typically seek a smaller, more attractive nose than the one they were born with. Older patients, however, may notice signs of aging in the appearance of their noses. The tip of the nose tends to droop with age. Simply elevating the tip will give the aging patient a younger look.

Our Philosophy

The decision to undergo any surgical pro-

cedure is not taken lightly. Only a fully informed patient can make such a decision. The best time to undergo a particular procedure is when that procedure will result in a noticeable improvement in whatever features are undesirable to the patient. If no change will be apparent, it may be best to wait. These issues are addressed fully during the consultation. This is the best way for a patient to become fully informed.
