The Hair You Hate Gone Forever

A Professional Solution to a Most Personal Problem

Medically approved, the newest shortwave electrolysis treatment will **PERMANENTLY** remove unwanted hair.

Clear Reflections

HAIR REMOVAL CENTER, INC.

118 Barrington Commons Ct., Suite 216, Barrington

847-381-9020

Convenient Hours: Monday thru Thursday 12:00 noon until 8:30 pm

In practice at this same convenient location since 1976.

Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those tell-tale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **1-847-381-9020** for your appointment.

Clear Reflections has provided 27 years of service at the same location.

January, 2003

Dear Reader,

"An Evening of Tapestry," sponsored by Barrington Friends of Home of the Sparrow, raised in excess of \$100,000 for their cause. Over 230 people attended the gala held at Sears, Roebuck and Co. corporate offices in Hoffman Estates. Home of the Sparrow is a nonprofit transitional shelter program for homeless women and children with headquarters in McHenry. Over 2,000 individuals have benefited by this program thus far.

There will be a very special gallery showing sponsored by the Barrington Area Arts Council on Friday, Jan. 17, from 7 to 9 p.m. *Souls: Beneath and Beyond Autism* is Thomas Balsamo's latest inspirational body of work—a book in collaboration with Sharon Rosenbloom (a writer, speech pathologist and mother of a 15-year-old son with autism). Through Tom's media and Sharon's writing, the goal of this book is to educate and inspire by breaking apart stereotypes associated with autism. Two lectures will also be conducted at different times on this subject.

The Beatles Live Again! American English, called by many as "the best Beatles band on the planet," will be performing at Raue Center For The Arts in Crystal Lake on Jan. 24 and 25. Young and young-at-heart love the music of the Beatles. So if you want to go back in time and experience the fun all over again, make your reservation now.

Happy New Year everyone. May the year hold for each of us peace and love.

With warm regards,
Glenn McMonigal
Editor, *Lifestyles Magazines*

Thanks for "An Evening Tapestry"

At "An Evening Tapestry" on Saturday, Nov. 2, were Jack Lageschulte and Cici Freeburg.

Also attending were (from left) JoAnn Robbins and Elizabeth Cavanaugh, both of the Barrington area.

Over 230 persons attended "An Evening Tapestry" dinner dance on Saturday, Nov. 2, raising in excess of \$100,000 to benefit Home of the Sparrow!

Cheri Pagonis, president of Barrington Friends of Home of the Sparrow, organizers of the gala evening, commented, "In addition to Barrington, party attendees were from all over the Northwest Suburbs and Chicagoland. We are so grateful for community support of our gala evening and excited to see the accomplishments of the Sparrow program, now in its 16th year, being so widely recognized."

Kudos to Trish Hilborn and her decorating committee for so artistically depicting a travelogue of locations from the polar icecap to sunnier climes—the varied tapestry of our world and its diverse riches

well represented in the silent and live auctions gathered by Sue Guernsey and auction committee members.

"We had a great time dancing and dining while supporting a great cause," said Sparrow member Nancy Bohern.

Many special thanks to Sears, Roebuck and Co. for providing a wonderful event site at their corporate offices in Hoffman Estates. Thanks also to gala event underwriters: GENCO; Merrill Lynch; Tom and Marilyn Patrick; James and Patricia Lancaster, the Lancaster Foundation; Tom and Jan Coley; Duchossois Family Foundation; Mr. and Mrs. Paul F. Hills; Littelfuse, Inc.; Gail Seidel-O'Gorman; Skadden, Arps, Slate, Meagher & Flom (Illinois); Gus and Cheri Pagonis; John Gillett, Barrington Mortgage Corporation; Dr. Richard A.

Hogan; Jim and Rebecca Ireland; Wickstrom Ford; Mayer, Brown, Rowe & Maw; and Jerry and Marilyn Hayden. In addition, appreciation is extended to the many merchants and individuals who contributed so generously to the live and silent auction portions of the evening.

Home of the Sparrow is a nonprofit transitional shelter program for homeless women and their children. With its headquarters in McHenry, it has additional locations in Crystal Lake and Palatine. Through a structured, compassionate pro-

gram of counseling and job skills training, it seeks to aid individuals in successful transition from homelessness to productive self-sufficiency. Over 2,000 individuals have been aided in reaching this goal since Sparrow was established in 1986.

Barrington Friends of the Sparrow provides financial, volunteer and advocacy support to Home of the Sparrow. A variety of participation opportunities are available, and new members are always welcome. Please contact Cheri at 1-847-487-0931 for more information.

(From left) John Jones, Patti Lancaster and Janet Jones, all of Barrington Hills, enjoyed "An Evening Tapestry."

At the benefit were (from left) Lillian and Bob Shaw of Crystal Lake, Nancy Bohern and Andy and Jackie Harden, all three of Barrington. Mr. Shaw is president of the Home of the Sparrow board.

Hanging around "Buckingham Palace gate" were (from left) George and Sallie Gill, Gail Seidel-O'Gorman, and Jack and Marilyn Lageschulte, all of the Barrington area.

Home of the Sparrow Seeks Book Buddy Volunteers

Home of the Sparrow, a transitional shelter for homeless women and children, seeks adult volunteers for the Book Buddy program.

Volunteers come weekly to read with child residents. They are given basic reading strategies to implement during the sessions. The Book Buddy program promotes good reading skills and provides positive mentoring relationships for the child residents. The program increases reading comprehension, sight words and reading vocabulary.

If you are interested in becoming a "buddy" for a child resident at Home of the Sparrow, contact volunteer coordinator Chris Barnes at 815-344-5171, ext. 26.

Home of the Sparrow's complete transitional living program provides housing and support services for homeless women and children. Services are provided through three transitional shelter homes located in Crystal Lake, McHenry and Palatine and several transitional apartments located in McHenry and Cook counties. Since the agency was founded in 1986, nearly 2,000 individuals have achieved self-sufficiency.

For more information about Home of the Sparrow, call 815-344-5171. To donate online to the homeless shelter program, visit www.homeofthesparrow.com where 100 percent of your donation will go to Home of the Sparrow.

Camera Club to Feature Archival Preservation of Photographic Prints

The Fox Valley Camera Club will present a program on Tuesday, Jan. 7, at 7:30 p.m. featuring the preparation for archival preservation of photographic prints.

The program will be presented by Ann Nevills of CLIX photographs & savables, inc., and Chris Doherty of ...A Thousand Words, both professionals in the area of archival preservation of photographic prints so that they may be passed on to future generations.

The club meets at the Home State Bank Operations Center at Woodstock and Minnie streets in Crystal Lake. Anyone with an

interest in photography may attend these meetings.

Protecting Your Legal Rights— Retaliatory Discharge

by Joette S. Doran, J.D.

Terminating an employee because of a complaint of discrimination or an employer's violation of certain state or federal laws is known as "retaliatory discharge." For instance, if an employee is terminated for making a complaint for a hostile work environment under Title VII (race, gender, religion or national origin), the Age Discrimination in Employment Act (an employee over age 40) or the Americans with Disabilities Act, the company may be subject to liability. Also, if an employee complains of discriminatory conduct and then is demoted, terminated or otherwise adversely treated by the employer because of that complaint, then the employee would have a valid claim of retaliation. Damages for retaliation can subject an employer to a federal or state court action for damages including the employee's lost wages, benefits, attorneys' fees, costs, compensatory and punitive damages.

If you believe that you were terminated or adversely treated for making a complaint, you are well advised to promptly seek legal advice. In order to pursue a case for retaliatory discharge or retaliation, most often a Charge of Discrimination must be filed with a state or federal administrative agency. Because quick action is required as the time limitations are strict, I encourage you not to delay in receiving

information regarding your legal rights. Evaluating your legal rights is especially important if an employer asks that you sign a release in exchange for monetary compensation. If properly drafted and presented, a release agreement is effective to prevent the assertion of your legal rights. For further information, please visit my Web site at www.joettedoran.com.

This article is not intended as legal advice. You should consult with an attorney for individual advice regarding your own situation.

Pilates Method is Powerful Fitness Formula

For years, it was the best kept secret of professional dancers. Today, celebrities and top models use it to maintain beautiful form, and even professional athletes use it to develop coordination and prevent injury. After decades of only being available in New York or on the West Coast, the exclusive Pilates Method is available to you through **S.T. Body Balancing**.

Focusing on improving flexibility and strength for the total body, the Pilates Method, developed in the 1930s by legendary physical trainer Joseph H. Pilates, encourages more defined, longer, leaner muscles without adding bulk. **S.T. Body Balancing** owner/instructor Sondra Teasdale is the studio's living, breathing testament to the Pilates Method. A former principle dancer with the Nevada Ballet Theatre, Teasdale is certified in the Pilates Method and holds a degree in dance

medicine therapy. She provides individualized instruction, tailoring each session to specific needs based on a series of approximately 500 exercises using specially-designed spring-resistance equipment including the Reformer, TrapezeTable (Cadillac), Wunda Chair, and the Barrel.

"It's a surprisingly relaxing and revitalizing yet challenging workout," says Teasdale. "In just 10 sessions, you'll feel the difference. In 20 sessions, you'll see the difference. And in 30 sessions, you'll have a new body."

Teasdale invites you to empower your body and your mind with the Pilates Method. **S.T. Body Balancing** has a limited number of daytime sessions available in 2003. For information, phone **815-477-0140**. **S.T. Body Balancing** is located at 95 Grant Street in downtown Crystal Lake. The studio is open six days a week.

A.G. Edwards—The 12-Month Financial Ideas Checklist

Since we keep calendars of our personal and business commitments, it can also be helpful to keep a calendar of financial commitments we can implement throughout the year. So, along with the kids' artwork, here's a monthly checklist of financial ideas to tape to the refrigerator:

January—Complete a net worth statement, which can help you evaluate your total financial picture and see if/how you need to make financial adjustments for the new year.

February—Organize your tax and investment records for your 2002 tax returns. Important documents include your W-2s, 1099s and investment account statements.

March—Invest more in your company's 401(k), 403(b) or 457 retirement plan, since you can now contribute up to \$12,000 for 2003, an overall increase of these plans' previous limits. If you're over age 50, you can make an additional \$2,000 "catchup" contribution to any of these plans.

April—April 15 is your last chance to make any contributions to either your traditional or Roth IRA for 2002. And instead of waiting until the last minute, contribute now toward your IRA for 2003, especially since the limit has been raised from \$2,000 to \$3,000. Investors over age 50 can make an additional \$500 "catchup" contribution to either a Roth or traditional IRA for 2003.

May—Many municipal bond issues typically mature in June and July, so see if you have any municipal bonds that are set to mature and determine how you can reinvest those assets.

June—Are you getting a tax refund? You may want to consider directing the money toward funding your retirement. The compounding effect on even \$500 over the course of several years can potentially create a significant addition to your retirement nest egg.

July—Review your portfolio and make sure its contents still match your investment objectives. If an investment has greatly underperformed your expectations and no longer has compelling fundamentals, you may need to reinvest those

assets to stay on track with your longterm goals.

August—Think estate planning. While the estate tax will be repealed in 2010, the current laws will expire in 2011, and an estate plan is still critical for transferring your assets efficiently and appropriately to the heirs you've designated. You may consider establishing a living trust, which also helps to make the transfer of assets as privately as possible for your loved ones.

September—With school starting, think about saving for your children's college education. The new tax laws have further enhanced 529 savings plans and Coverdell Education Savings Accounts (formerly known as Education IRAs). The contribution limits on Coverdell Accounts have quadrupled from \$500 to \$2,000 and the 529 plans allow you to save even larger sums of money—usually \$100,000 or more—which is beneficial for both college savings and your taxable estate. Plus, qualified withdrawals from both of these investment vehicles are now free from federal income taxes.

October—Review your life insurance policy to make sure your death benefits provide at least 75% of your total income to support your family's ongoing needs, should you or your spouse pass away.

November—Make sure you know the "wash sale" rule, which states you cannot take a tax loss in a security if you have acquired or plan to acquire the same or a substantially identical security within 30 calendar days before or after you sell a security. The last day you can "double up" on a security without violating the wash sale rule is Nov. 29.

December—Dec. 31 is your last chance to make a charitable contribution or sell securities for the purpose of claiming a tax loss.

Nationally-Renowned Portraiture Artist Showcases *Souls: Beneath and Beyond Autism*

Thomas Balsamo, nationally-renowned black-and-white portraiture artist and Barrington area native, will be premiering his latest and most inspirational body of work at an upcoming gallery showing, sponsored by the Barrington Area Arts Council, on Friday, Jan. 17, from 7:00 to 9:00 p.m. The work will be on display through Feb. 28 at the council, located at 207 Park Avenue in Barrington.

His latest work is reflected through *Souls: Beneath and Beyond Autism*, a recently released book that is a collaborative effort between Balsamo and Sharon Rosenbloom, a prolific writer and speech pathologist as well as the mother of an autistic child. Distributed by McGraw-Hill, the book is committed to portraying autism, and more profoundly, individuals with autism from the inside out. Through the media of black-and-white photography and writing, the goal of this book is to educate and inspire by breaking apart stereotypes associated with autism, while showing vividly that love is ever omnipotent over trials and triumphs.

"It explores autism from a unique vantage, looking beneath the surface while presenting startlingly beautiful images of children and families living and loving in the world of autism. The greater message illustrates how, from the depths of despair, we often experience our greatest triumphs," says Rosenbloom.

Two seminars will be included during the exhibit. The first seminar will take place on Jan. 29 at 6:30 p.m. for BAAC's Writers Workshop. Balsamo and Rosenbloom will discuss the creative process of producing an original nonfiction book from conception to publication.

The second lecture presented by Rosenbloom, entitled "Beneath and Beyond Autism," will take place on Saturday, Feb. 22, at 11:00 a.m. Rosenbloom is a speech and language pathologist and a parent of a 15-year-old son with autism. For over 12 years, she has presented at conferences for both professionals and parents. Her knowledge and hands-on experience has resulted in a practical approach to dealing with autism. The seminars are free and open to the public. Reservations are encouraged.

According to Balsamo, *Souls: Beneath and Beyond Autism* is the first of many

books to be created by Books that Touch, Inc., a publishing company whose sole purpose is to create books that affect people in a positive way. Projects are designed to educate, enlighten and leave a lasting impression on the reader.

"BAAC is honored to present these remarkable artists. Their sensitivity and insight into the world of autism creates profound and magnificent images which resonate into a crescendo of beauty," says Corinne M. Pierog, executive director, BAAC.

A portion of the proceeds from this book and subsequent others will benefit Ray of Hope, a startup, not-for-profit organization created by Balsamo and Rosenbloom dedicated to enhancing the lives of individuals through education, family support and training.

Balsamo is the owner of Portraits by Thomas, a studio specializing in black-and-white portraiture. His work has appeared in national publications such as *Time Magazine*, *Professional Photographers of America* and *Range Finder*, and has been displayed at the Smithsonian Museum in Washington, D.C.

Celebrating 25 years, the BAAC Gallery is part of the Barrington Area Arts Council, a not-for-profit organization which supports, promotes and sustains programs in the visual, literary and performing arts. BAAC is partially funded through individual and corporate contributions and the Illinois Arts Council, a state agency. For information, call the BAAC at 1-847-382-5626.

Barrington Friends of WINGS— Bringing a Community Together

Members of the Barrington Friends of WINGS Advisory decorate the Barrington WINGS home for the holidays. From the advisory are: (from left) Vicki Perille, Kandy Dille, Sue Jacobs, Patti Pokorski and Paul Pavlus; and from WINGS, Beata Nelson.

On Oct. 30, a new group called the Barrington Friends of WINGS Advisory met at the Barrington Area Library for its inaugural kickoff. The group was formed to meet the needs in the Barrington area where WINGS has a home for women and children who are struggling with homelessness and domestic violence.

Dedicated to ending homelessness and domestic violence for women and children in the north and northwest suburbs of Chicago's Cook County, WINGS has been in operation since 1985. Long-term transitional housing, along with supportive services, including case management, therapeutic counseling, life-skills training, financial management and vocational

counseling are designed to move women from desperate situations to self-sufficiency and financial independence. WINGS currently has 17 homes and apartments located in Des Plaines, Arlington Heights, Park Ridge, Schaumburg, Hoffman Estates, Mount Prospect and Barrington, with the ability to house up to 70 women and children each night.

The Barrington Friends of WINGS Advisory is a group of dedicated volunteers who are focused on raising awareness by speaking to local churches and philanthropy groups about the WINGS home in Barrington and the families who live there. They have also developed short-term goals for the specific needs of the

Fashion Group International Sponsors Enrichment Program for Chicago Students

Ruth L. Kern, International Etiquette Consultant and new member of the Fashion Group International, was invited to speak to the Tilden High School students who are majoring in fashion.

Ms. Kern, who has a degree in fashion from the University of Illinois, talked about the importance of wearing appropriate clothing for every occasion and also to know and practice good manners. Doing these things will make a good first impression, she said.

She presented the teacher, Mr. Tommy Dunbar, with a copy of her best-selling video, *American Dining and Entertaining Etiquette: Manners for the Table*, to show to the students during class. She also gave each student a copy of her booklet, *Tips on Modern American Dining Etiquette*. This booklet, which starts with etiquette at a fast food restaurant and ends with etiquette at a very formal dinner, will soon be in stores as a four-color, hard-back, coffee-table type of book.

After the seminar, Ms. Kern answered questions for the students. One student wanted to know when grace was said at the table. Ms. Kern told her that her family said grace after everyone was seated for dinner but before anyone started his meal or even put his napkin on his lap.

Ruth L. Kern presents Mr. Tommy Dunbar with a copy of her best-selling video on dining etiquette to show to the students of Tilden High School.

She also told them that during the week, each member of her family took turns saying grace, but on Sundays or special holidays, her father always said the blessing.

Before they left, the students gathered around Ms. Kern and thanked her for speaking to them. Some of the students even hugged her.

home as well as a long-term list of capital improvements to the house to maintain its quality and safety.

Advisory chairperson Mary Gerak says, "We hope that individually and as a community we can make our WINGS neighbors feel welcome and safe in their home. Barrington has so much to offer, we want to ensure that all residents are able to share in its abundance."

Advisory members include people from the Barrington community who are dedicated to helping WINGS achieve its mission. Drs. Yeshwants, residents of Barrington, donated the home to the program nearly two years ago to help residents in the area who are in need of housing. Other members include chairperson Mary Gerak; Patti Pokorski, a local attorney; Vicki Perille, architect; Mary Flannery of Bank One; Joan Burny of Coldwell Banker; Dr. Eugene Meyer; Denise Vollman, tax and financial planner; Marie Gebbie, retired-Action Bag and Display; Sue Jacobs, local artist; Katie Pepper; and Paul Pavlus, assistant state's attorney.

Other programs that WINGS provides include the WINGS program, a service that

provides counseling and activities for the children and adolescents that are a part of WINGS. This program is specifically designed to help kids deal with the emotional issues of domestic violence and homelessness, so the devastating, repetitive cycle does not occur. WINGS also implemented the Career Development Program, which operates out of the Resale Store in Palatine, to empower women in the program and graduates to achieve self-sufficiency and full earning potential through skill building and career development. Finally, in response to a need, WINGS has embarked on a strategic initiative to build a "Safe House" in the Northwest Suburbs for victims of domestic violence. The shelter is expected to open in the fall of 2003 and will have capacity for 35 to 45 women and children a night.

For more information on the Barrington Friends of WINGS Advisory group, please call Mary Gerak at 1-847-304-0861. For WINGS programs and services, call 1-847-963-8910 or visit www.wingsprogram.com.

Art of the Hindu Religion Topic for Art Associates

"Art of the Hindu Religion: Lively Gods in a Living Landscape," the first lecture in the February Seminar Series of the Barrington Community Associates of The Art Institute of Chicago, will be Feb. 4 at the Barrington Area Library.

Hinduism, like India itself, is an amalgam of ancient ritual and contemporary life. Religious objects are integrated into daily existence, with shrines in every nook and street altars for a moment of devotion as one goes about his or her business. This slide presentation will introduce Hinduism (via a genealogy of the primary Hindu deities) by contextualizing the sculpture that we see in The Art Institute of Chicago and other collections with popular images from India.

Lecturer Betty Seid is an exhibition coordinator and research assistant in the Department of Asian Art at the institute. Co-author of the recently published catalogue for "Holy Cow: Indian Animal Paintings in The Art Institute of Chicago," she also curated the exhibition. (It ran Feb. 9 through June 1, 2002.) She is currently coordinating the forthcoming Art Institute exhibition "Himalayas: An Aesthetic Adventure," opening on March 29, 2003.

Betty Seid has lectured on Indian art in the museum and at the School of the Art Institute as well as at symposia in the United States and India. She has traveled extensively in India.

The lecture begins at 1 p.m. Cost is \$12

Wellness Place Holiday Luncheon

The Wellness Place Auxiliary

The Wellness Place Auxiliary hosted its fourth annual Holiday Luncheon on Nov. 9 at the Stonegate Conference Center. Over 400 guests continued the tradition of kicking off the holiday season in support of Wellness Place. The event raised over \$37,000.

Artisans and vendors comprised the fabulous holiday boutique, selling everything from edible goodies to handpainted future, one-of-a-kind mosaics and more. The ever popular silent auction provided some friendly competition among the guests.

Auxiliary member and breast cancer survivor Belinda Leonard was the keynote

speaker. With a very personal and poignant story, Belinda reaffirmed the mission of Wellness Place and its critical role in our community. Finally, the day concluded with an adorable children's fashion show featuring holiday apparel from Little Munchkins and a visit from Santa Claus himself.

Wellness Place is a community-based cancer support and resource center serving people living and working in Chicago's Northwest Suburbs. It is dedicated to enriching the quality of life of those living with or affected by cancer through education and encouragement—at no cost to participants.

the series is \$40 for members or \$60 for guests. To register, call 1-847-382-8028.

How Do the Pros Do It?

Debbie Schoendorf and William Allen, financial consultants with **Smith Barney** in Barrington, have developed the following 10 tips for smart investing:

1. Develop a good source for investment advice and information. Those that do their homework consistently typically have the best longterm performance records.

2. Determine your risk tolerance. Only when you identify how comfortable you are with taking investment risks can you make smart, informed decisions about your portfolio. A good financial consultant can help you with that process.

3. Diversify your holdings. Not all investments, markets and industries perform in tandem with one another. Keep your portfolio balanced.

4. Set reasonable expectations for return on your investments. Earning 10 to 12 percent a year is not easy, but could be possible. Beware of promised returns of 20 percent or more on a longterm basis.

5. Invest in quality securities. Stay with solid companies that have stood the test of time.

6. Never let a low price per share be your only reason to buy a particular stock.

7. Before investing, designate funds for short-term and longterm use. Don't invest money you may need soon. Otherwise, you may be forced to sell during a dip in the market. Remember, investing is a longterm process. Real money is made over years, not months.

8. Allow dividends to compound over time. The income you earn from stock dividends can add up to enormous profits over the years.

9. Learn all you can about the companies in which you invest. The better an understanding you have of a company's strategic focus and business direction, the less you'll be swayed by fluctuations in its stock price.

10. Live within your means. Keep your spending habits within the limits of your income, not your savings account. And invest wisely for the future by maximizing your retirement plan at work.

Past performance is not a guarantee of future results.

How to Choose a Dance School for Your Child

Many parents of young children who desire to take dance lessons find themselves unsure as to how to choose a school. Frankly, a recommendation from a neighbor or friend is not enough. You should always visit the school in person. The following are some guidelines as to how to choose a school in order to insure your child's proper instruction and personal safety.

Facility—The dancers should have a large room with a special sprung floor. Dancing on concrete covered with tile or other hard surfaces is dangerous. There should be ample mirrors and well-constructed ballet barres for older students.

Observation of Classes—Before enrolling in any school, you should make an appointment to observe a class. Even if you are not knowledgeable, you will be able to judge certain critical things.

1) *Is the teacher well organized and pleasant?*

2) *Is he/she knowledgeable?* (Check the school brochure for teachers' backgrounds.)

3) *Are the teacher's corrections made clearly and in a positive way?*

4) *Are the students well behaved and attentive for their age?*

Performing Opportunities—As dance is a performing art, it is imperative that the students get the chance to dance for an audience. However, a good school should stress education and not detract from that for the sake of performing. A fancy costume will never cover up poor dancing!

Tuition—Do some comparison shopping as to class rates. Classes should be competitively priced but one should not think that the cheapest class means more for your money. As with everything, quality costs more. Schools should have discounted tuition for multiple classes if your child is a serious student. Family discounts may also be available.

Even pre-schoolers taking lessons should have a fun, interesting and beneficial class. A little extra time will result in a decision that you and your child will be happy with for years to come!

Escape the Winter Doldrums at Lake Barrington Woods

The holidays are over, but the weather outside can still be frightful. Residents at **Lake Barrington Woods**, however, are able to escape the winter doldrums. With fine dining, a fitness center, heated indoor swimming pool, scheduled programs and events, and many other services and amenities, it's easy to forget the weather.

This upscale rental retirement community, located just north of Kelsey Road and south of Route 22 in Lake Barrington, emphasizes the importance of fitness for older adults through such programs as "Fit Into the Future" and "PACE" (People with Arthritis Exercise). Fitness programming is offered five days a week in the state-of-the-art fitness center and indoor pool. Different types of exercise programs for all abilities, including weight training, water aerobics and armchair fitness, are available. The Barrington Area Council on Aging and **Lake Barrington Woods** have also teamed up to provide "PACE," designed by The Arthritis Foundation.

Dave Mehner teaches water aerobics three days a week at **Lake Barrington Woods**. The benefits are both physical and social. One of the physical benefits is that water aerobics exercise every muscle and joint at the same time. The most important benefit of water aerobics, however, is that anyone, no matter their age, can do them. Water causes your body to

be buoyant, thus causing less strain and stress on your joints and muscles while still getting the maximum workout.

Nadine Fachel, activity director at **Lake Barrington Woods**, offers a variety of venues to expand residents' minds, employ their creativity and just plain have fun. On Tuesday afternoons, residents gather for "Tea and Tales." Nadine and the residents share inspirational tales over a cup of tea. Norm and Jean Hathaway discuss their travel adventures once a month, and lively current events discussions are both informative and well attended. Entertainment abounds. From the Vern Perry Trio to the Ballroom City Dancers to Music Appreciation with Jim Kendros and "The Music Man—Art Laartz," a variety of entertainers perform at **Lake Barrington Woods** each month.

Pursue your own selfish pleasures. Manicures are available, organized games and crafts abound, and transportation is provided to a myriad of destinations. Or enjoy the simple pleasures of your beautiful apartment home with the reassurance of knowing assistance is a moment away, should you ever need it.

Lake Barrington Woods, a Parkside rental retirement community, offers both independent and *licensed* assisted living. To learn more or to arrange for a personal visit, call **1-847-842-8900**.

United Way Seeks Volunteers

Barrington Area United Way seeks community volunteers to help evaluate funding requests submitted by health and human service organizations who desire funding during 2003.

Volunteer training for the allocation process will be held from 6 to 8 p.m., Monday, Feb. 10, at St. Paul Church of Christ, Barrington. Volunteers will be divided into service areas that are funded by Barrington Area United Way.

Duties include a visit to the health and human service organizations, a review of agency proposals and listening to agency allocation requests for 2003. The volunteer will weigh these requests against the needs of the community and available funds to recommend how much each agency should receive. The recommendations are discussed with the Barrington United Way board of direc-

tors who make the final allocation decisions. The entire process is from Feb. 10 to March 6, for a total of approximately 10 hours, mostly in the evening.

Allocation is one of the most critical things your community United Way does each year, impacting the community as a whole. Interested volunteers may contact executive director JoAnn Endorf at 1-847-382-8778 for additional information.

LOSE THE WEIGHT...AND KEEP IT OFF!

New Weight Loss Program Shows Dramatic Results

Dr. Barry Berger, a Board Certified Internist practicing in Lake Zurich for the past 12 years, introduces a new weight loss program. This program is based on the 40/30/30 nutrition plan which consists of 40% carbohydrates, 30% protein and 30% fat. By increasing protein while decreasing fat and carbohydrates, weight loss success increases. University studies using this diet method along with the latest advances in prescription medication have shown safe and effective weight loss results.

Unlike other programs for which you need to buy food or count calories, this method offers the most freedom and achieves the best long lasting results available today. Fat comes off and stays off! Dr. Berger custom designs a program for each patient and discusses proper exercise, nutrition and overall weight status while considering your current lifestyle, exercise and diet habits.

Dr. Berger has hundreds of satisfied patients. Insurance usually pays for some or most charges, (sorry, no HMOs).

To begin a weight loss program that really works for you, call **1-847-438-2454** in Lake Zurich or **630-789-9495** in Hinsdale to make an appointment for your consultation today.

An Uplifting New Year—Browlift

The signs of forehead aging are predictable and obvious: the eyebrows descend to a lower than normal position; the upper eyelids become puffy; a skin fold begins to form above the outer upper eyelids; and wrinkles along with creases appear on the forehead and between the eyebrow region.

The browlift or forehead lift procedure is designed to arrest and reverse signs of aging in the forehead region while providing a more complete and harmonious rejuvenation of the face.

An older method of browlifting, called the open or coronal browlift, was performed by cutting the scalp from ear to ear, physically peeling the scalp down off of the skull and removing portions of the scalp in an effort to raise the eyebrows. A less invasive procedure is now available.

The endoscopic or limited-incision browlift procedure is performed by aesthetic plastic surgeon Gregory M. Bazell, MD, at **The Aesthetic Plastic Surgery Center of Barrington**. This precise technique gives the entire forehead a smooth appearance, eliminating forehead wrinkles, including the outer upper eyelid skin overhang, while uncovering the natural upper eyelid crease. The eyebrows are restored to their normal location, leaving them with a natural appearance. The surgical incisions are less than a half an inch long and are virtually undetectable. No scalp tissue is removed, so the hairline position is not changed and hair loss does not occur.

"The fear people have when presented with the prospect of a forehead lift is the misconception that it is an extensive procedure with a long recovery time and that they might be left with an unnatural look," states Dr. Bazell. "My method of endoscopic browlift carries a very short recovery time. The results are immediate, there are no dressings or wraps, people are able to wash and style their hair as they wish starting the morning after surgery, and patient satisfaction is very high. Patients love looking happier, brighter, less

Becoming Giants— A Video of the 1952 Hebron Green Giants State Championship

Local television producers Harold Rail of Afterglow Creative Services and Dean Rowe of Front Row Productions have just completed the yearlong, joint venture (Rail/Rowe Productions) production of the *Becoming Giants* video documentary.

Becoming Giants is the story of the 1952 Illinois state high school basketball champions, the Hebron Green Giants. It is the story of a tiny high school in a small town with a short basketball coach. He put together a team of boys that included a set of twins and a boy with only one ear. The next year, he added two more boys to round out his team. (One was a 6'5" farm boy who had never seen a basketball game.)

In those years, any school could play any other school in the state. So Hebron, with less than 100 students, could end up playing a school with 1,500 or more stu-

dent while still looking like the younger versions of themselves."

Subtle signs that a forehead lift may greatly improve your appearance are:

- You look tired or sad when you are not.
- People ask if you are mad about something or if something is bothering you.
- You find yourself optimizing the appearance of your face while looking the mirror by subconsciously raising your eyebrows or physically raising them with your fingers.
- You aggressively tweeze your eyebrows so that they will appear higher or more arched.
- You wear your hairstyle, especially bangs, to hide the appearance of your forehead.
- You are dissatisfied or cannot get the look you want with Botox.

The endoscopic browlift procedure is an outpatient procedure performed under local anesthesia with a small amount of intravenous sedation. It can be performed alone or in combination with other aesthetic plastic surgery procedures, most commonly upper eyelid surgery (or blepharoplasty). The procedure itself usually takes only one to one-and-a-half hours to complete. Swelling and bruising are minimal with little or no requirement for pain pills following the procedure.

The endoscopic browlift and other aesthetic plastic surgery procedures for the face and entire body are performed routinely and safely by Gregory M. Bazell, MD, at **The Aesthetic Plastic Surgery Center of Barrington**. A natural appearance, safety, comfort and your satisfaction are Dr. Bazell's foremost goals. If you have an interest in or questions about browlift or any other aesthetic plastic surgery procedure, you may schedule a complimentary and confidential consultation with Dr. Bazell by calling Jennifer at **The Aesthetic Plastic Surgery Center of Barrington at 1-847-382-5111**.

This is a true Americana "little David" sports story. The video is produced in a fun, modern style. It includes hundreds of photographs, never seen footage of many events leading up to the championship game, and interviews with cheerleaders, school friends and the four living players.

The program was produced for sale to the public and is being carried by several McHenry county stores (including Borders of Crystal Lake and McHenry). People can call 815-337-0550 to order. The documentary is slated for release to schools, libraries, PBS and sports channels next year.

Artist Gail Collier to Speak to Art Associates

Colored pencil artist Gail Collier

"The Art of Colored Pencil" by Gail Collier is the next program in the Members Present Art Series sponsored by the Barrington Community Associates of The Art Institute of Chicago.

Gail will give an overview of the work of contemporary colored pencil artists from all parts of the United States. She will also discuss how she creates her drawings, her artistic philosophy and inspiration.

Gail has been drawing for most of her life. Being blessed with a grandfather who was a professional portrait painter and a father who painted landscapes when he was not practicing law, Gail grew up expressing herself artistically.

She received a bachelor's degree from

Allegheny College, Meadville, Pa., in 1968. However, it took the maturity of adulthood for Gail to realize the importance of her artistic gift. She entered graduate school at Northern Illinois University in Dekalb and earned her master's degree in studio art in 1987. Since then, she has honed her skills at colored pencil workshops that she has attended and taught.

Early in her artistic career, Gail discovered a love of still life drawing. Choosing, touching, arranging a still-life setup allowed her to use her inherent sense of order. Following the "less is more philosophy," Gail says, "I attempt to say as much as possible as simply as I can." She accomplishes this by integrating detailed objects with expanses of white background. This

Peg and Bill Brown of Barrington enjoyed an evening of dinner and theater at The Garlands Center for the Performing Arts. Bill Brown is a partner in Barrington Venture, LLC, developer and owner of The Garlands of Barrington.

(From left) Janet Lareau of Algonquin stands next to Patricia Reeve Mead of Barrington and a signature member of the American Watercolor Society and the Midwest Watercolor Society. Behind is one of her paintings that was on display at The Garlands of Barrington. Mead's works were the first to be exhibited at The Garlands through the Barrington Area Arts Council. Area artists will continue to be featured outside The Garlands Center for the Performing Arts as yet another way of connecting the members' community with the greater community at large.

What's New in Fitness and Weight Loss

Curves for Women® 30-minute fitness and weight-loss centers is the fastest growing fitness franchise in the world.

On average, a new location opens every 18 hours. Curves® locations are now found in all 50 states, Canada, Mexico and Spain, a total of about 5,000 locations.

And if you haven't heard of it, don't be surprised. The program is getting such great results, they don't need to do any national advertising.

The facility is built around a breakthrough in exercise—a truly complete workout in just half an hour. The Curves® circuit is a system of exercise that alternates hydraulic resistance machines with aerobic recovery stations. As you move around the circuit, enjoying the music and being motivated by an instructor, you perform both a cardiovascular and strength training workout at the same time. You end with a stretching routine. This 30-minute total workout burns as much as 500 calories. Because you're moving fluids rather than weights, it's safe for any age or condition.

Local owner Janet Faulkner says, "When you diet alone, 40 percent of the weight you lose is muscle. Muscles are the engines of our bodies that require fuel. If you drastically lower your body's energy needs each time you diet, you will always gain your weight back. The key to permanent results is lean muscle. When a woman loses 20 pounds with us, it is predominantly body fat. Strength training protects and increases lean tissue while raising metabolism. The Curves® workout is strength training women will do."

Curves® on-site weight-loss guidance program is the first international program to blend exercise and diet. Simply dieting

to lose weight does not work over the long haul. People know that you must also exercise for lasting results. **Curves for Women®** is the first program to meet both these needs in the same place for the same price.

"Amazing results—that's what Curves® is all about," says Faulkner. "We coach our members to work hard on the machines. That's how we build muscle, muscle that burns calories. We now have 1,000 members at our Barrington and Lake Zurich clubs combined, and the total inches and pounds lost exceed 6,500. But it's not just about inches and pounds lost, as members have had other amazing results, such as:

- Lowered Blood Pressure
- Lowered Cholesterol Levels
- Increased Bone Density (verified via scans)
- More Energy

"The secret, of course, is that you've got to come in and do it! At Curves®, we do everything possible to make it easier for you to be here, and thus, get results. Our environment at Curves is one that women find easy to visit yet effective. The equipment is not intimidating. The atmosphere is very casual.

"Our members are winning the fat-loss war. A 30-minute total body workout in a female-friendly environment and complete weight-loss guidance makes health and fitness an achievable goal. And our \$39 monthly fee makes it a great value."

At **Curves for Women®**, you may find the ability to amaze yourself! Call and find out how you too can change your life in just 30 minutes: Barrington, **1-847-382-8787**; Lake Zurich, **1-847-307-4747**; Island Lake, **1-847-487-9800**; and Cary-Grove, opening soon.

Facial Plastic Surgery, Looking Your Best

by Gary S. Churchill, MD

Eyelid Surgery

"The eyes are the windows to the soul!" Eyes are one of the most expressive features we have and reveal a lot about us. Subtle changes in their appearance let people know if we are happy, sad, well rested, or tired. We are able to "read" people and at the same time be "read" by others through our eyes. Many have found that an energetic, youthful appearance can enhance others' perceptions of their performance at work. If their eyes look half closed due to excess upper eyelid skin or have "bags" beneath them because of excess fat bulging from beneath the lower eyelids, the overall appearance is one of tiredness and lack of energy. Even when they get plenty of sleep they can still look tired. Many people just feel younger than they look and would like to improve their overall appearance.

These are some of the reasons that a large portion of the cosmetics industry is devoted to enhancing the appearance of our eyes; through makeup, anti-aging and rejuvenating creams. Cosmetic companies realize that a first step in improving our looks is to improve the look of our eyes.

How Do the Eyes Change as We Age?

The effects of aging are usually seen first in our eyes. As we get older the skin of the upper eyelid tends to increase and

become redundant. This can hide the smooth skin just above the eyelashes where women wear eyeshadow. If enough excessive skin forms, it can actually hang over the eyelashes and obstruct vision. There can also be bulging of fat from behind the eyelid, causing a fullness or discreet bulge in the middle corner of the eyelid.

In the lower eyelids the first sign of aging normally seen is a bulging of the orbital fat creating the puffiness most people refer to as "bags". This is caused by a relaxation of the septum, a membrane beneath the eyelid muscles, which allows the fat of the eyesocket to bulge out beneath the skin. This relaxation is a normal consequence of aging but can occur in young people as a family trait. As pressure is applied to the closed eye one can see this bulge increase. Excess skin of

Hypnosis

by Martin A. Nathan, M.A., L.C.P.C.

Hypnosis is being used more than ever for treatment of a variety of issues. These include nicotine addiction, eating disorders, nail biting, anxiety and panic attacks, weight loss, depression, anger, pain, and sleep disorders. *It is particularly helpful with stopping smoking.*

I'm a licensed clinical professional counselor and have been in private practice for over 28 years. I see couples for marriage and relationship counseling, and individuals for a variety of issues. I am certified in the use of clinical hypnosis and have been using it in my practice for the past 27 years.

I use hypnosis most often with individuals in order to quickly change habit and behavior patterns that the client considers undesirable. Using hypnosis helps the changes to take place in a much shorter

period of time than traditional counseling alone. The combination of short-term counseling with hypnosis saves both time and money.

If you think that you have an issue that may be treated by hypnotherapy, call and discuss your issue or issues with me. You will learn the approximate number of sessions, the cost per session and whether or not it's for you.

I am also a certified meditation instructor and teach six-week "Introduction to Meditation" classes on a regular basis. Meditation helps you to respond better to stressful situations, lowers blood pressure and generally makes you feel better. If you are interested in learning how to meditate or wish to restart your meditation practice, please call **1-847-934-6555** for information.

Facial Plastic Surgery

(Continued from page 26)

the lower eyelid can also form but not usually to the same degree as in the upper lid.

What Can Surgery Accomplish?

In the upper eyelid excess skin is removed to allow a smooth contour when the eye is gently closed. When the eye opens this results in a normal crease approximately 7mm above the lash line. Excess fat, if present, is removed with the skin to reduce the fullness of the upper eyelid. The incision line is closed precisely at the crease to hide it during the healing process. Eyelid skin heals very rapidly. Special techniques are used in Asian eyes and selected others to create a more prominent crease.

In the lower eyelid an incision is made just beneath the lashes or in selected patients on the inside of the lower eyelid. The excess fat, which is contained in three separate compartments, is then removed. Any excess skin is removed taking care not to place too much tension on the lower eyelid.

An upper and lower blepharoplasty can be performed together or in combination with other facial rejuvenation procedures

such as a facelift or rhinoplasty. The eyelids can also be improved in certain individuals with chemical peeling and/or brow lifting. The need for these are determined at the preoperative consultation.

Where is Surgery Performed?

Eyelid surgery is most often performed in our office surgical suite, however if preferred, surgery can be performed at a number of different hospitals or ambulatory surgery centers in the area.

What is the Recovery Period?

Dissolving sutures are used in the lower eyelids and do not have to be removed. Nonabsorbing sutures are normally used in the upper eyelids and are removed on the fifth postoperative day. Makeup can be worn the day following suture removal and most people return to work at this time. There can be swelling of the eyes for one to two days following the operation which might interfere with vision so we recommend not driving until the swelling is down. After this most people can easily be out in public with sunglasses. Any bruising that occurs fades in the first 7 to 10 days. Makeup can conceal this after the second postoperative day.

Make Yourself the Priority for 2003!

We provide one-hour private sessions for evaluation and treatment of the following:

- Athletic Injuries
- Childbearing Conditions
- Lymphedema
- Orthopedic Problems
- Post Mastectomy Restrictions
- Fibromyalgia
- Incontinence
- Osteoporosis
- Pelvic Pain

Resolutions for a Healthy New Year

by Carole Childers, C.N., L.N.C., All Ways Healthy

The new year is here and with it come the obligatory, if well-intentioned, resolutions to lose weight, get in shape, start that new diet, etc. Yet, how many of us make these resolutions each year only to find that, by spring, we've gained weight? This year, learn manageable ways to improve your health and lose weight.

First and foremost, we need to change the way we think about weight loss and physical fitness. A trim and toned figure is a sign of good health and self-respect. Don't think of weight loss as vanity. The truth is, weight loss will improve every aspect of your life, from your cholesterol level to your self-esteem.

It is important that we approach weight loss as a lifestyle change, not a temporary challenge. When we make a commitment to change our lifestyle, not just our weight, healthy eating and regular exercise become an enjoyable part of our lives!

In order to achieve total body health, you must exercise. There is no such thing as a magic pill! Approach exercise with realistic expectations. If you haven't worked out in five years, it is best to start

slowly. However, you must exercise frequently if you want results. To be effective, you should exercise at least three to four times per week for 30 minutes or more. Also, be sure to alternate between cardiovascular exercise and weight training. Ask a friend to make an exercise pact with you; the "buddy system" is a great way to ensure that you will workout even when you feel unmotivated.

Good nutrition plays an invaluable role in our health and well-being. In order to get fit and lose weight, you must be aware of, and honest about, what you eat each day. When it comes to dieting, don't set unreasonable goals for yourself. One or two pounds a week is a safe and manageable rate of weight loss.

For information or a personal consultation, please contact me, **Carole Childers**, certified nutritionist and owner of **All Ways Healthy**. For information on our upcoming seminars, visit our two convenient locations at 123 S. Rand Road in Lake Zurich, **1-847-438-9200**, and 9 Jandus Road in Cary, **1-847-639-4545**.

The Shape of Things to Come

The festivities of the holiday season have come to a close and we are all thinking about the new year to come. For many of us, it is time to work on resolutions to slim down and get in shape. Unfortunately, some areas of unwanted fat are genetic and cannot be improved with weight loss or exercise. The good news is that excess fat can be permanently removed with tumescent liposuction. Dr. David Van Dam of **Dermatology Physicians & Surgeons** may be able to help you look forward next summer's skimpier wardrobe.

When considering tumescent liposuction, it's a good idea to plan ahead. Although the procedure allows for a rapid recovery and a quick return to regular daily activities, you will still experience some mild swelling for a few months after the procedure. Scheduling liposuction in January, February or March is a good way to ensure that you'll look and feel fantastic when warm weather arrives.

What is Tumescent Liposuction?

Tumescent liposuction is the safest and most effective technique for the permanent removal of excess fat in areas that are resistant to diet and exercise. Tumescent liposuction was developed by dermatologic surgeons in the 1980s and has revolutionized permanent removal of unwanted fat from nearly all body areas, including the face, neck, chin, breast, abdomen, hips, flanks (love handles), inner and outer thighs, buttocks, knees, and ankles.

Am I a Good Candidate?

A simple "pinch test" can help determine if tumescent liposuction is right for you. Pinch your skin and fat between the thumb and index finger. If you can grasp more than one inch of tissue, liposuction may be useful in creating a more beauti-

ful you. The neck is an exception to the "pinch test" rule and can be improved even if less than an inch can be pinched.

Where is the Procedure Performed?

Tumescent liposuction is performed in our new private, office-based surgical center located at The Foundry of Barrington. The procedure is performed completely under local anesthesia; no narcotics, intravenous drugs or inhalation anesthetics are needed. It is the safest and most comfortable way to achieve the shape you've always wanted.

What is the Recovery Period?

The local anesthesia keeps the treated areas numb for 18 to 24 hours following the procedure, greatly minimizing any post-operative discomfort. With the tumescent technique, there is minimal bruising and no stitches; postoperative pain medication is almost never needed. Recovery is fast with tumescent liposuction. Most people return to work in just two or three days and resume physical exercise in three to seven days after the procedure.

How do I Schedule a Consultation for Tumescent Liposuction?

Try the "pinch test." If you think you might be a good candidate for tumescent liposuction, schedule a private consultation by calling **Dermatology Physicians & Surgeons** at **1-847-382-5111**.

Dr. Van Dam has years of experience performing this procedure and received his training from Dr. Jeffrey A. Klein, the pioneer who revolutionized liposuction with the tumescent technique. Dr. Van Dam is certified by the American Board of Dermatology, and a member of the American Academy of Dermatology, the American Society for Dermatologic Surgery and the American Society for Liposuction Surgery.

To Your Health in the New Year!

So you want to start an exercise program for the new year. That's great, but do you know everything that needs to go into a well-balanced program? Although they do their best, most people start an exercise program with very little knowledge about how to do it. The word “exercise” means something different to every person. Some conjure up images of running a race; others see themselves practicing yoga postures; and others might envision a once-a-month racquetball game.

While being active is a great idea, effective programs which help you reach your goals must address the following:

- Cardiovascular Endurance
- Flexibility
- Balance and Coordination
- Muscular Strength
- Stress Reduction
- Functional Fitness
- Muscular Endurance
- Body Composition

•Healthy Nutrition

A **Home Bodies by Pro-Fit, Inc.**, trainer can help you design a program that includes all of the components listed above. For over five years, our senior trainer, Trepkina, has been helping individuals just like you accomplish their goals. In addition to working with the general population, Trepkina's experience includes working with obese clients, cardiac rehab patients, individuals with orthopedic injuries and seniors. Trepkina believes that fitness is for everyone, regardless of age or fitness level, and her experience and background allow her to create personal exercise programs for all individuals.

Barrington Youth Services Benefits from Generosity of Barrington Junior Women's Club

Pictured (from left) are Jose Nino, Hispanic youth counselor and therapist for BYS; Wendy Bowen, Barrington Junior Women's Club representative; and Lisa Schiro, director of development for BYS.

Barrington Youth Services is honored to be a grateful recipient of the generosity of Barrington Junior Women's Club who recently donated a roomful of toys for the BYS Play Therapy Program.

Toys donated to the room include Play-Dough, paints, a variety of board games, paint and paper, a sand table with sand toys, miniature animals, an airport and many other exciting toys.

Play Therapy is a special process that focuses on children's need to express themselves through the use of play and toys. Children are encouraged to play as they wish with a trained play therapist who provides a safe and understanding environment. In the process, a wider variety of toys are made available to children to encourage the expression of emotional concerns.

A Focus on the United Nations

From the early 1970s when the national League of Women Voters concluded an in-depth study of the United Nations, the league has been supportive of the global organization, its work and its principles.

At the league's National Convention in June of 2002, the local leagues from across the country reaffirmed their support by adopting a newly updated position on the United Nations. Basically, the new position supports the principles of the UN Charter, endorses active United States participation; and calls for a strong United Nations which promotes world peace; addresses the social, economic and humanitarian needs of all people; and promotes global adherence to international law.

The League of Women Voters of the Barrington Area has invited Brenda Rossini to speak at its January meeting on "The United Nations—Its Strengths, Weakness-

es and Impact on Today's World." Her discussion of the United Nations will also include an interpretation of the updated league position.

Ms. Rossini comes quite qualified to address this issue. She is an attorney and is currently serving as a member of the Northshore Unifem, which is an arm of the United Nations. Her involvement with the LWV is also impressive. She is a former president of the Winnetka league and is the state league's criminal justice issue specialist.

The LWVBA meeting will be held at the Barrington Area Library on Jan. 21 at 9:30 a.m. There is no fee or reservation for the program, and the league encourages guests interested in the topic to attend. For more information on the January meeting or to inquire about membership, call 1-847-381-5358.

Welcome Wagon Club Events

The Welcome Wagon Club of Barrington wishes to thank all who contributed their time and effort to the success of the December Holiday Luncheon. Many local charities benefited from the silent auction.

The January coffee will be held on the 14th at 10 a.m. Barbara Duckworth will demonstrate how to paint on glass. Barbara is most talented in this field, and you will see a beautiful array of items. The coffee is free and open to all ladies in the Barrington and surrounding areas. You do not need to be a member of the club to

attend. Please call Bonnie at 1-847-382-5324 for directions and reservations.

Mark your calendars for the luncheon on Feb. 11 at Crystal Lake Country Club. We will have a representative from Flowerwood Nursery discuss spring flowers, planting, etc. A delicious meal will be served. This will be a wonderful way to meet new ladies and take a midwinter break.

The Welcome Wagon Club of Barrington wishes all of you a most safe, healthy and prosperous new year!

"Sampling Samplers—1600 to 1800's"

Signal Hill Daughters of the American Revolution will start the new year with a meeting on Jan. 14 at the Barrington Area Library, 505 N. Northwest Highway, Room B. The business meeting will start at 11:30 a.m. with refreshments and program to follow at noon.

Mrs. Amy Keaton will present the program "Sampling Samplers—1600 to 1800's." Bring your samplers for "Show and Tell." Hostesses for the day will be: Margaret McSweeney of Barrington Hills, Janet Lareau of Algonquin, Julia Rock of North Barrington, and Betty Splittorff of Arlington Heights.

Have you ever thought about becoming

a member of DAR or wondered what you needed to qualify for membership? Come to the meeting and talk to our registrar or membership chairman. To be eligible for membership, a woman must be no less than 18 years of age and able to prove her lineage to an ancestor who aided in the cause of the American Independence through military, civil or patriot service. We are eager to help prospective members trace their ancestry. Lineage workshops are held, and private assistance is also arranged.

Anyone needing more information or a ride to the meeting may contact Phyllis Garner, 1-847-382-2194.

"This year has been difficult for many not-for-profits, especially social services agencies like Barrington Youth Services who rely heavily on community donations," says Rochelle Schulman, executive director of BYS. "Receiving the donation of toys to fill our play room makes a tre-

mendous difference in the lives of the children and families who will benefit from our play therapy program. We are extremely grateful for their continued support and participation in the success of our programs."

Is It Midlife Crisis or Menopause?

Are you 35-to-65 years old and experiencing changes in your life which have you confused and troubled? Transitions such as young adult children leaving home or getting married, job and career changes, marital stress, divorce, menopausal issues, spiritual crisis, retirement, or problems with grown adult children or aging parents can cause confusion, uncertainty and, perhaps, out of control feelings in your life. An unclear course of action can produce many questions about how to handle these difficult times. Because of the stress produced by such difficulties, emotional, physical and spiritual health issues often surface.

Dr. Barbara Grace has been helping people negotiate these life changes since

1979. At **The Grace Center**, she will help you see the change clearly, put it in its larger life context, and identify possible choices and their likely outcomes so you can choose the correct path for you. **Dr. Grace** will then coach you through the changes to improve your life situation.

Whatever the midlife problem, there is a solution that will improve the quality of your life, allow you to be at peace and see the higher purpose for the difficult situation. Call **Dr. Grace** today at **1-847-382-3232** for a phone consultation to see how she can help you discover clear solutions to your issues. Then you can have a more fulfilling life during these very special, transitional midlife years.

Nasal and Airway Obstructions Can Affect Facial Form and Development

Nasal and airway obstructions are a contributing factor in the development of a malocclusion or "bad bite." Large tonsil and adenoid tissues may cause excessive mouth breathing, which can lead to development of a narrow palate. If the palate has been narrowed because of mouth breathing, crowding of the adult dentition is commonly found.

Facial form and development is directly affected in young children who have large tonsils and adenoids. Due to the lack of normal breathing, the vertical dimensions of the face are increased and, as a result, a longer facial type develops.

The American Dental Examination recommends an orthodontic examination for children by age 7. At the initial exam, the orthodontist can evaluate the tonsils and facial development. If there are concerns that the tonsils and/or adenoids may be disrupting normal dental or facial development, than an evaluation by an ENT physician may be necessary. If it is deter-

Dr. Michael Hayward

mined that the tonsils and adenoids need to be removed for health reasons, it is common to see a positive effect on dental and facial development.

If you have any questions about how tonsils and adenoids affect facial and dental development in children, please contact us at either our Barrington, **1-847-382-5588**, or Palatine, **1-847-359-7980**, offices. Or visit our Web site at www.haywardorthodontics.com.

Exotic Gala Benefits Cancer Research

The romance and mystery of Shangri-La wafted through the Four Seasons on Nov. 9, when Cartier and Marsh & McLennan companies joined the University of Chicago Cancer Research Foundation Women's Board as sponsors of their 36th Annual Grand Auction.

Over 550 glamorous guests were greeted with the romantic beat of Taiko drummers surrounding an ancient Asian Buddha. The Grand Ballroom was transformed into a mythical land of bamboo forests, green silk valleys and rippling fields of exotic orchids. Models swathed in Cartier's magnificent jewels sparkled throughout this landscape.

Co-chairs Jill Pollock and Laura Werner, along with the smooth skill and style of celebrity auctioneer Jay Levine, had the crowd excitedly bidding on more than 600 coveted silent and live auction items.

(From left) H.E. Appleton, Chicago; Carol Horschke, Barrington; and Diane DaMiano were among the guests. Carol was among those honored at the event for having served over 28 years on the women's board.

Prized offerings such as guest slots as extras on *The Sopranos* and *Sex in the City* resulted in bids as high as \$10,000. Further competition ensued with the opportunity to own a Lance Armstrong-signed jersey and trips to exotic and far-flung locations such as Venice, Phuket, London and Paris.

Partygoers danced to their favorite tunes until the wee hours, and their generosity helped raise over \$550,000. The proceeds will help the UCCRF grant fellowships to outstanding researchers, provide direct aid in refining cancer treatment techniques, and, hopefully, eradicate the disease in our lifetime.

Hearthstone Manor Opens Traditions of Woodstock Alzheimer's and Dementia Care Division

Hearthstone Manor has added **Traditions of Woodstock** to their constellation of care for the aging. **Traditions of Woodstock** meets the community's need for a homelike program designed to provide quality residential care for those with Alzheimer's disease or related dementia.

How many times have you heard someone joke about "having Alzheimer's" or "having Alzheimer's?" While it is true that forgetting where you put your keys can be exasperating, there is nothing to joke about when someone you love has Alzheimer's disease or other age-related dementia. There are 211,000 people with Alzheimer's disease in Illinois. One out of 10 people aged 65 to 84 and one out of two aged 85 plus will be at risk. As our population ages, chances grow that this disease will cast its shadow over someone we love.

People with Alzheimer's disease are our grandparents, parents, spouses, teachers, doctors, ministers, best friends and next door neighbors. They are the people who have cared for us, taught us, loved us and mentored us. Alzheimer's disease and related dementia affects the entire family. An elderly spouse may try to care for their loved one at the expense of their own health. Adult children agonize over how

to make the right decision for a mother or father whose condition is deteriorating.

Traditions of Woodstock offers two homelike environments, Acacia and Bethesda House, devoted to the care of residents with Alzheimer's disease and other related dementia. The houses are intimate and inviting; each one is home to no more than 10 residents and will have specific features to help individuals move throughout their home with confidence. Personalized 'memory boxes' placed at the entrance to every bedroom trigger comfortable feelings of familiarity. Furniture and washrooms have been placed in ideal positions throughout the homes to help residents maintain their bearings and comfort level.

Daily activities and programs are tailored to nurture physical, emotional and spiritual needs while taking personal preferences into account. With at least one specialist for every five individuals during daytime hours, each person is free to pursue enjoyable activities that promote independence, preserve self-esteem and optimize cognitive functioning. Please contact Julia Giles, director of **Traditions of Woodstock**, at **815-338-1749** if you would like more information or a tour of the latest addition to Woodstock Christian Life Services.

Making the Decision

Plastic surgery is a way to control not only our appearance but also how the world sees us and how we feel about ourselves. It allows us to remove obstacles that keep us from feeling comfortable and confident. If we look good, we feel good. If we feel good, the improvement in our lives can be enormous.

Cosmetic procedures are becoming a viable option for an ever-growing number of people. Plastic surgery is no longer just for the privileged. Everyday people—real people—are making the decision to have procedures.

Because cosmetic surgery deals with how we feel, the decision to have a procedure can be an emotional one. As a patient, you are entrusting your surgeon not just with your physical safety but also with something very private and important.

Feeling Confident

Plastic surgeons are among the most highly trained in medicine, but knowledge, skill and reputation are not enough. **Dr. Gunnar Thors** and the staff at **Midwest Plastic Surgery Specialists** believe that, for the best results, it is vital to create an emotional connection with each patient

bring their work to show. And if attendees are having a problem with a stitch or pattern, someone will be on hand to help.

Come join us for an enjoyable evening. Membership is open to all levels of stitchers, and guests are welcome at no charge. For more information, call Barb at 1-847-639-1836 or Dawn at 815-459-4889 for further information.

and maintain that connection through every step in the process.

Our patients and referring physicians tell us they appreciate the fact that we listen to our patients and that we provide them with excellent surgical results. However, the driving force for us is to recognize our patient's individuality while helping them to accomplish their goals.

Dr. Thors offers a comprehensive range of cosmetic procedures including face, neck- and breast-lifts; rhinoplasty; tummy tucks; body contouring; and a complete line of ancillary procedures such as facial peels and collagen and botox injections. **Midwest Plastic Surgery Specialists** offer comprehensive treatment tailored to the individual with patient education as a top priority. We are dedicated to patient care and service, before, during and after surgery.

Susan Ledgerwood, our licensed aesthetician, provides comprehensive beauty and aesthetic skin care services. In preparation for the harsh winter weather, be sure to ask about having a skin evaluation when you call **1-847-277-1440** to schedule your **free cosmetic surgery consultation**.

Continuing Education— The Key to Quality

by James T. Gavrilos, DDS

Dr. James Gavrilos

The dental profession is constantly challenged by new concepts, new techniques and new materials. Sorting these out and selecting the best is an annual endeavor for dentists who maintain high standards.

Most of you are aware that dentists hold conventions with product booths where new materials and equipment may be examined. What you may not be aware of is the fact that the major thrust of these meetings is educational. At our Chicago Midwinter Meeting (held here in February), it is possible to attend shorter lectures and sample what the speakers have to offer. Then, we often need to travel to the lecturer's hometown to attend an in-depth course on their subject.

The real learning occurs at these out-of-town courses. We select from the choices offered to us at the conventions and literature. The choice is made with the patient in mind. We want the dental experience to be as good as the dental work. Most of

our staff attends many of these meetings with us, since we believe in a team approach for maximum quality.

To help judge your dentist or evaluate a prospective new dentist, don't be shy, ask them about continuing education. It is an essential step in providing the highest standard of oral health care for patients.

Call **Dr. James T. Gavrilos** in Barrington at **1-847-381-4040** for evaluation.

COMMITTED to the HIGHEST STANDARDS of ORAL HEALTH

"The Art of Nurturing Yourself" Seminar Wednesday, Jan. 22

by Judy Kaplan, MS

Well, another holiday season bites the dust! Are you looking forward to recovering from the hustle, bustle, stress and family activity? If so, you are with lots of company. Many of us feel a sense of relief when the season of giving, buying, partying and activity draws to a close. For lots of us, there is the more subtle and personal struggle of financial stress that is the aftermath of the holiday season. And, for others, there is that depressing or anticlimactic feeling that all of the excitement is over, and family and family seem to disappear again.

Whether you are physically, financially or emotionally worn out in January or sad about the quiet, coldness of the winter, it is a good time for yet another new beginning. It is the perfect time to begin learning the art of nurturing your self. This is a subject that I hold very near and dear to my heart. And, it's the subject and title of my soon-to-be-published book. My understanding is that taking care of your personal self is something that not every-

one knows how to do. When you do it well, it is an art. Learning this art form is a cultivated skill that requires effort, understanding and commitment. When you nurture your self, which graciously you nurture your mind, body and spirit, you recharge your personal batteries. It is the stuff that vitality, joy, energy, good health, warmth, kindness and a host of other dynamic traits are born of. It is elusive to many of us, because we were always taught to put others first at our expense.

On **Wednesday, Jan. 22, from 7 to 9 p.m.**, I will be conducting a seminar entitled "The Art of Nurturing Yourself." Learn how to lose the guilt about focusing on yourself, exercises to teach yourself the ways you can nurture your own spirit and give up the limiting task of waiting for others to nurture you. Join me to begin the first step in your journey of discovering yourself. Materials and refreshments will be included in the price of \$30. Call **1-847-842-9365** for further information.

The Beatles Live Again in American English

American English, called "The best Beatles band on the planet," will perform Jan. 24 and 25 at Raue Center For The Arts in Crystal Lake at 7:30 p.m.

American English is the closest you will ever get to seeing and hearing The Beatles. Whether it is the Ed Sullivan performance, the Sergeant Peppers Era or the final rooftop concert on top of Apple Studios, you'll swear you are there. American English is the complete Beatles experience.

They are simply the best Beatle tribute story of our time. In five short years, the band's authentic sound has left fans, promoters and musicians who knew The Beatles enthralled. Thousands of national fans first sanctioned the group by voting American English as victors of sound-a-like contests at Beatfest in Chicago for three consecutive years.

Then, Sam Leach (the original Beatle promoter from Liverpool), was in town for a book signing for his story *The Birth Of The Beatles* in 2001. After seeing American English, he called the band "the best Beatle act on the planet." Leach today hails them as "The Beatles incarnate!"

As American English toured nationally, other celebrity musicians caught "American English Mania." Denny Laine, who in his earlier years also toured with the Beatles as a member of The Moody Blues, was quoted as saying, "American English

American English is the complete Beatles experience.

sounds every bit as good as the Beatles themselves!" Spencer Davis said, "If I closed my eyes, I swore I was hearing my friends The Beatles. They are indeed the best Beatle show I have ever seen."

The real test of fire was performing on The Beatles homeland. In November 2001, American English debuted in Liverpool, England. Under the wings of Sam Leach, they were granted an honor never bestowed on any other tribute group. They traced historic footsteps and performed on the hallowed ground of several original Fab Four venues. The crowning moment occurred for American English in 2002 as they headlined International Beatle Week in England in front of a screaming crowd of 50,000! American English departed with Liverpoolians awestruck, reminiscent and tearful.

Spring Fashion Show to Benefit Lupus Research

The Barrington Lupus Support Group cordially invites you to its luncheon fashion show, "A Touch of Spring," on Saturday, Feb. 8. The event will take place at The Seville on Barrington Road in Streamwood.

Doors will open at 11:00 a.m. Fashion items will be on display to purchase at this time. Luncheon will be served at 12:30 p.m. The fashion show will begin at 1:30

p.m. Fashions featured are from Catherine's, Chico's, Talbot's and Cold Water Creek.

Cost for this event will be \$35 with a cash bar. For more information about being a fashion vendor or to purchase tickets, call JoAnn at 815-455-3009 or 708-205-3466. All profits will go to research. Paid reservations are requested by Feb. 1.

In December 2001, a historic fantasy-like "reunion" occurred. American English headlined the George Harrison tribute at the House of Blues in Chicago. Accompanied by several of the legendary Beatle/Wings related artists, the band made history and news across the world! American English performed with Denny Laine, the legendary rock guitarist from Wings, who founded the band with Paul McCartney and the complete Wings horn section (Howie Casey, Steve Howard, Thaddeus Richard). Accompanying them on stage was Joey Molland of Badfinger, Spencer Davis of the Spencer Davis Group and the original Beatle drummer himself, Pete Best! American English, along with the celebrity artists, gave fans a fantasy concert that could never be outdone.

In April 2002, American English had their most authentic "Beatle" stamp of approval yet, when sister Louise, of the late George Harrison, witnessed the show for

the first time. She was moved to tears by the band's performance and was quoted as saying "Martin Scott's performance as George made me feel like my brother was right here with me again." Since then, Louise has adopted Scott as family. In a private meeting with Paul McCartney, she introduced him as her "new adopted baby brother."

American English continues where John, Paul, George and Ringo left off. The story of American English is still being written, and you can be a part of it! Tickets are available now by calling Raue Center Box Office at 815-356-9212 or ordering online at www.rauecenter.org. The box office is located at 26 N. Williams Street in downtown Crystal Lake. The box office hours are Tuesday through Friday, 10 a.m. to 4 p.m., and Saturday, 10 a.m. to 1 p.m.

Visit www.americanenglishbeatles.com, the American English Web site, for more information.

REMODELING 2003... STORY #1

When Tim and Gale Hennelly decided to remodel, they had some specific goals in mind. Their home, built in the 1970's, was typical of its era. It had a compact kitchen with a small eating area. The family room was down the hall. Their dream was a "Country French" kitchen adjacent to the new family room so Gale could keep an eye on her small son while preparing meals. A major project like this is a big investment; so one of the first questions to be addressed was, could they get everything they wanted and still come in on budget? **Barrington Kitchen and Bath Studio's** Kaye Hathaway, a Certified Kitchen Designer, worked with Tim and Gale to design this stunning kitchen using semi-custom cabinetry in a beautiful pale maple finish called Caramel.

Gale, 5'2" tall, likes to bake, but was tired of digging through several small cabinets to get baking supplies. Kaye suggested using vanity-height cabinets for the island to make food preparation more comfortable for Gale. She also designed a special cabinet with rollouts at the end of the island to hold baking supplies and equipment. The island now serves as a convenient baking center. The microwave presented another challenge—how to build it in without making it too high for Gale, and later her son, to reach safely. A unique solution was achieved by using "spice drawers" to create a niche for it in an otherwise useless corner. Kaye also gave the couple's existing refrigerator and dishwasher a custom look by designing front panels using standard available cabinet components. The couple's big splurge in this kitchen was the professional style stainless-steel range. To set it off, Kaye designed the beautiful rangehood, which was built on-site and "stuccoed." A striking 3-piece crown molding with contrasting rope detail in cherry completes the custom look.

When asked to comment on the difficulties of designing a "custom

kitchen" using stock cabinets, Kaye said, "We are lucky to work with some of the best carpenters around, thanks to our sister company **Delta Renovations**. That close working relationship allows us to design special things for our clients and use stock cabinets in unique ways. We want our clients to challenge us, no matter what their budget. Years of experience and excellent craftsmanship make us equal to the challenge."

We invite you to challenge us too. If you are contemplating a new kitchen or a total bath redo, call **Barrington Kitchen and Bath Studio**. We promise to make you as happy with your special new room as Tim and Gale are with theirs.

This beautiful range hood was custom-built to set off the stainless-steel range.

Stock cabinets were modified to provide convenient storage. Note angled fluted detail and stone-look ceramic tile with carved border.

Barrington Kitchen & Bath Studio Now Offers Kitchen Consulting

Barrington Kitchen & Bath Studio is pleased to announce that it will add a new service to aid homeowners who are planning to improve their homes in 2003. "We have been asked for years to help clients with preliminary space planning and, until now, we have not had the staff available to devote to that area," says President Joe McCarthy. "But the demand has become so great in the present remodeling and building climate that we have decided to devote one of our staff designer's time to filling the void we see in the local remodeling market."

McCarthy has assigned Certified Kitchen Designer Kaye Hathaway, who is also an NCIDQ-certified interior designer and a professional member of ASID, to assist clients who have preliminary architectural plans but want help in laying out their kitchens, baths, mudrooms and other spaces so that they can finalize their architectural plans and facilitate the bidding process.

"Many times, architects give clients a basic footprint of the space and tell them

to work with a kitchen planner to develop a final plan and budget," McCarthy commented. "But getting bids can be frustrating and time consuming because most kitchen dealers do not release their plans until a contract has been signed. Kaye will work with these clients to develop a complete plan which then becomes theirs. A substantial proportion of the consultation fee will be applied towards their deposit if they decide to purchase cabinets through us."

Since **Barrington Kitchen & Bath Studio** carries a broad range of competitively priced cabinets, including Crystal, Cabico and Woodharbor, and has earned a superb reputation, the company feels that providing this unique service will be an excellent way to enhance a homeowner's remodeling experience and to introduce the other benefits of working with **Barrington Kitchen & Bath Studio**. They invite inquiries at 1-847-381-3084 or you may visit their newly remodeled showroom at 319 W. Northwest Highway in Barrington.

The Many Benefits of Sauna

"Old Finnish proverbs consider sauna to be the 'medicine of the poor, the hospital and of Finland,'" according to *Spa and Sauna Magazine*.

"Saunas promote the perspiration of body toxins, stimulate circulation, increase body metabolism, keep skin glowing and youthful and alleviate sinus congestion due to colds, asthma and allergies.

In fact, many feel it's one of the most effective detoxifying treatments available.

Today, in many research laboratories around the world, saunas are being tested as therapy for chemical poisoning. Because of the mental relaxation saunas are able to induce, it's said to be the perfect environment for intimate conversations with spouses, friends and children," *Spa and Sauna Magazine* continues.

For more information about the benefits of sauna, see **Swanson's Spas & Saunas** on Rand Rd. in Lake Zurich.

HOLIDAYS CLOSED

Letter to the Editor

On behalf of the Barrington Area Council on Aging, Inc., and the seniors who participated, thank you to all who supported the wonderful Thanksgiving luncheon held on Monday, Nov. 25, at Langendorf Park. Over 90 seniors enjoyed a traditional Thanksgiving dinner provided by Maravela's of Fox Lake and listened to an array of songs and music, titled *Oh, How I Love Those Old Melodies*, performed by Down Memory Lane with Young at Heart.

First, we would like to express our gratitude to the Barrington Noon Rotary Club for underwriting the cost of the traditional Thanksgiving meal that was served. Our thanks, also, to Pastor James Wilson of the Barrington United Methodist Church for giving our Thanksgiving prayer.

Thanks also to those who helped serve the meal: members of the Good Shepherd Hospital management team Connie Blaine, Syl Boeder, Christine Kass, Karen Lambert, Mark Mallinger, Tim McDonnell, Jane Ritter, Doug Ryder and George Teufel; members of the Barrington High School Adopt-a-Grandparent Club Tiffany Filippell, Samantha Kublank, Kate McGillem and Jessica Schultz; and their sponsor, Don Wesermann.

We would also like to thank Good Shepherd Hospital for underwriting the cost of the entertainment and the individual flower arrangements for each table, which were created by Candy Quinn of Prairie Baskets Florist. Thanks also to Scout Troop leaders Linda Hendrickson,

Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Residential films are now backed by a manufacturer's lifetime warranty. Solar Gard, Sun Gard and 3M films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, pictures, etc.

Solar Gard, Sun Gard and 3M also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with pressure sensitive adhesive. The adhesive

bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, or burglar, making glass shatter resistant.

Glare-Not Inc. has provided savings and security for 11 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard, Sun Gard and 3M films are backed by a manufacturer's lifetime residential warranty. Many locations are tinted by **Glare Not**, including: Brach's Candies in Chicago, Avon Corp. in Morton Grove, two Ace Hardware corporate offices, four Armcore banks, First National Bank of Chicago, plus 1,000's of homes. References are available upon request.

We look forward to saving you money!!!

Join LIFESTYLE—An Energy, Fitness and Weight Management Program

Where are we now? With more money spent on medicine, hospitals and illness in our country, we still have more heart disease, diabetes, cancer, aches and pains than ever. Over 60 percent of people are overweight. Many who have appropriate weight have high cholesterol and high blood pressure. We don't want to be there or, if we are, we don't want to stay.

So what's the answer? Choosing to live a healthier lifestyle. The **HealthWatchers Lifestyle Program** has all the components to live longer, quality driven lives. If you're ready to commit to making a change, I'd like to invite you to join me in this simple, good habit-driven program that creates more energy, clarity of mind, youthfulness and friendships.

The program focuses on five areas:

- Eating in the Zone
- Pharmacy-Grade Supplements
- Pi-Mag Water
- Cardio Walking
- Journaling and Support

First, all support for the program is **free!** There are no weekly meeting or initiation fees. It's a program designed to give free information and insight into how to choose the foods we eat, what supplements should be, how to get an aerobic/cardio workout with simple walking, and the importance of alkaline water for our cells. I also offer a series of programs for group presentations. Call **Eileen SanFilippo** at **1-847-382-4973** for more information.

From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

Happy New Year 2003

2003 marks the 100th birthday of Ford Motor Co. I decided it would be fun to share some history of the company.

Did you know that Henry Ford and 11 investors started the company with only \$28,000 capital? The first vehicle was sold just one month later to a doctor in Detroit. In 1908, the first Model-T left the plant. Nineteen years later, 15 million vehicles had been sold. Henry and Edsel Ford bought out the original investors in 1919, making Ford Motor Co. solely owned by the Ford family.

In 1920, the family purchased the Detroit-Toledo-Ironton Railroad and used it for material transportation to their largest plant in Rouge, Mich. Lincoln Motor Company was added to Ford in 1922, giving the company a luxury line. Other manufacturers owned by Ford today include Mazda, Range Rover, Aston Martin, Jaguar and Volvo.

For more history on Ford Motor Co.,

visit www.ford.com.

2003 also marks our 19th year of business. We started with just 10 employees and now have 85. Lee Liotta, Pat Morgan, Ted Gens, Orval Abney, Doug Olsen—six of our original employees—are still with us! We feel truly blessed to have the employees we do.

Stop by and visit soon. Or visit us at www.wickstromford.com.

Barrington Resident Writes Article for Illinois Bar Journal

Peter J. Bedard, a resident of Barrington and an associate in the Chicago office of Michael Best & Friedrich, recently wrote an article, *Protecting Subcontractors' Rights Under the Illinois Public Construction Bond Act*. The article appeared in the October issue of the *Illinois Bar Journal*, the monthly magazine of the ISBA.

In the article, Bedard discusses how

construction businesses can recover payment for public construction projects with the help of the Illinois Public Construction Bond Act and also recent Illinois Appellate Court decisions relating to the act.

Tips from the Top

Margaret R. Semrad
Broker/Manager
Barrington Office

At 11 a.m. on a recent winter morning, Mr. and Mrs. Smith from New Jersey arrived at **Coldwell Banker's** Barrington office. They were another of the many transferee families we are delighted to help find that perfect home in a new-to-them community. Actually, Mr. Smith is one of over thousands of employees transferred annually through Cendant Relocation, one of the nation's leading relocation companies.

Despite the much-publicized corporate layoffs, some Chicagoland corporations are hiring and transferees are purchasing our properties. Some companies are newly situated in the Northwest's Golden Corridor, while other companies already in the area are expanding. Both new and established corporations are bringing people to our area to live and work in our great Northwest Territory.

Corporate relocation has a major impact on our real estate business. It provides a dependable pool of buyers for our sellers. And when the transferee moves (in five years on average), additional homes become available for our buyers. The real estate market continues to thrive. 2002 sales activity for **Coldwell Banker Residential Brokerage**, Chicagoland, surpassed \$14 billion. That is a lot of sold real estate!

Making the Move

The home-buying process is difficult for the transferee. Even though some transferees receive promotions when they accept a transfer, there is still "uprooting trauma" which, psychologists say, has several stages similar to grieving. An understanding real estate agent is most important to relieving that trauma and stress. For this reason, **Coldwell Banker's** Relocation Division conducts transferee workshops

and training seminars to prepare **Coldwell Banker** agents to better meet the needs of the 2003 transferee buyer and seller. Each **Coldwell Banker** agent submits a detailed personal profile for use in matching the agent with the incoming transferee buyer.

Corporations depend heavily on real estate agents to introduce and educate the transferee family to living in the northwest area. Our agents are thoughtful and compassionate when educating transferees and their families to the multifaceted lifestyles in our area. This can be overwhelming to any transferee family.

Relocating Families with Children

Relocating with children is serious business. Our **Coldwell Banker** agent counsels families about the schools the children will attend and is a source of various kinds of information including scout troops, ice skating classes, Little League or soccer teams in the area, dancing lessons, and special education programs. Each family has different needs and wishes. However, they all have one thing in common—the need for a reliable source of local information to help each member of the family make the smoothest transition possible. Our **Coldwell Banker** agents are well trained to watch over and nurture transferees and their families to ensure a successful relocation.

Putting our experience to work for these clients has helped position us as a leader in the field. So, if you're planning to put your home on the market, do call us. Let us tell you in person the many advantages we are able to offer our sellers and buyers. **Coldwell Banker** is the Dream House Headquarters.

Let's all have a wonderful new year!

Barrington Kitchen & Bath Studio to Provide Kitchen Organizing

Barrington Kitchen & Bath Studio has recently announced that it will provide a kitchen organizing service beginning 2003.

"We have always been in the kitchen organizing business because a lot of what we do in planning new kitchens is helping clients organize their spaces. We specialize in determining and providing the storage elements a kitchen needs to be truly organized," said President Joe McCarthy. "We are excited to offer the same organizing expertise to clients who are not remodeling but want to maximize the storage in their existing homes. An experienced staff designer will assess the existing kitchen and make recommendations as to how to improve the kitchen for maximum function and organization. We will then order and install the recommended convenience features. We can also pro-

vide new countertops, sinks, faucets and backsplash tile, if the homeowner wants to give the kitchen a total facelift."

"Our company has an impeccable reputation in the field of kitchen design and remodeling," McCarthy continues. "We believe we can offer a unique service to those clients who are seriously looking for a way to organize their existing kitchens and either don't know how or don't have time. Every year, we do complete remodeling projects on kitchens that probably don't need such extreme measures, but they have proved so frustrating that the owners feel gutting and starting from scratch is the only way to get a functional kitchen. It is for these people that we are offering this service."

Barrington Kitchen & Bath Studio can be reached at 1-847-381-3084.
