## Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrolo-

gist at **Clear Reflections** in the Barrington Commons who can remove those tell-tale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **1-847-381-9020** for your appointment.

**Clear Reflections** has provided 27 years of service at the same location.

November, 2003

Dear Reader,

As we approach the most festive time of the year, we hope *Lifestyles* can offer you some help in gift suggestions and also some events to attend to enhance the season. There are beautiful concerts, ballets, plays, art exhibits and more. Enjoy!

In this issue of *Lifestyles*, we are focusing a bit on "Einstein," the activist, the scientist and the man. This current exhibition at Chicago's Field Museum is now on view and will open your eyes to some surprising revelations about the individual.

We all think of Einstein as a genius and a scientist. He was also passionate about fighting for civil rights and enormously enjoyed playing the violin.

We think of him, too, as a kindly looking man with unruly white hair and rumpled clothes. But love was very important in his life, and it was important for him to be intensely engaged both with women and with science. He was as passionate about one as about the other, state the exhibition experts.

Enjoy the season. Shop early while selections are best and the crowds are small.

Until next time, peace and happiness.

With warm regards,  
Glenn McMonigal  
Editor, *Lifestyles Magazines*

# "Einstein"—Exhibition Brings to Life the Scientist, the Activist, the Man

If there is one word that embodies the spirit of Albert Einstein (besides "genius" of course), it has to be "engaged." Whatever he was doing—playing the violin, fighting for civil rights, raising money to build a Hebrew University in Jerusalem or changing our understanding of how the universe works—he was never less than fully committed to the project at hand.

Einstein's deep and multifaceted engagement with the world stands out in a remarkable new exhibition—called, simply, "Einstein"—that takes a comprehensive look at the 20th century's most famous scientist: his life, his passions, his science. The exhibition brings to light Einstein's contradictions and accomplishments and clarifies his abstruse theories in innovative and compelling displays. Above all, "Einstein" shows us that even the most complex science is a fundamentally human enterprise, and that even the most revered scientists are complex human beings.

The exhibition opens at Chicago's Field Museum Friday, Oct. 17, and will be on view through Sunday, Jan. 4, 2004.

## Einstein Comes of Age

Many people feel they know Einstein, the kindly genius with expressive eyes, a halo of unruly white hair and perennially rumpled clothes. There is truth in that image and a larger-than-life bronze statue embodies it for a new generation of children, who will have a chance at this exhibition to curl up in Einstein's lap. But it's just one of many truths revealed through an array of personal possessions, photographs, film footage, handwritten letters and more.

For example, visitors will get a glimpse of Einstein as a child and of his family life in late 19th century Germany. They'll learn how young Albert chafed at any form of regimentation, though there's also a report card showing that he did do well in school. They'll see a puzzle game he played with, discover how a small magnetic compass sparked his early fascination with the laws of nature, and learn about an early "thought experiment" in which he imagined himself riding a beam of light.

The exhibition also shows Einstein as an avid, articulate and self-revealing correspondent. He wrote to children and to heads of state, to friends and colleagues, and to lovers. All are represented here, including a selection of love letters and the

aftermath of love. Here we find a young man full of hope and eager for romance, but also prone to disappointment and capable of meanness.

"I think visitors will be surprised to discover how passionate Einstein was," says Robin Groesbeck, manager of Exhibition Coordination at The Field Museum. "Love was obviously very important in his life, and it was important for him to be intensely engaged both with women and with science. He was as passionate about one as about the other."

## The Scientist Makes His Mark

Einstein was only 26 and working full-time in the Swiss patent office when, in his spare time, he wrote and published four papers that revolutionized our understanding of the universe. His papers established the existence and sizes of molecules; described light as both particles and waves; showed that the speed of light is constant while time and space are relative; and set forth the famous equation  $E = MC^2$ . In that one miraculous year, 1905, Einstein changed the face of science and with it, all our lives. Among other consequences, these papers paved the way to the computer revolution, helped unlock the secrets of DNA and laid the groundwork for unleashing atomic energy.

Pages from a 1912 manuscript on special relativity and from Einstein's 1916 masterwork, the general theory of relativity, are on display in the exhibition—and it's truly awe-inspiring to see this work in the scientist's own hand. But equally impressive, visitors will discover that Einstein's core ideas are really not too complex for the rest of us to understand.

Using irresistible interactive displays, computer simulations and animations, compelling light sculptures and even science fiction films, the exhibition succeeds in making abstract and counter-intuitive ideas concrete. Visitors will see and hear how time slows down for moving objects. They'll touch the components of the famous equation and understand how a penny could power a city. They'll bend the fabric of space-time in a demonstration of Einstein's radical concept of gravity, and they'll create that most mysterious of objects, a black hole.

"The exhibition does a great job of clarifying and distinguishing the special and general theories of relativity," Groesbeck notes. "It brings scientific theory into

three-dimensional space, really engages people in the process, and lets them walk away with an understanding they didn't have before."

## The Humanitarian Takes an Active Role

While many people know that Einstein was a Zionist—he actively campaigned to establish a Jewish homeland in the Middle East and a Hebrew University in Jerusalem—fewer are aware of the broad reach of his political and social activism. He was a lifelong pacifist and socialist who believed that only a unified world government could put an end to war. He was an activist for civil rights and nuclear disarmament, who stood up to McCarthyism and became a target of the FBI. He did not hesitate to use his fame to work for the causes he believed in.

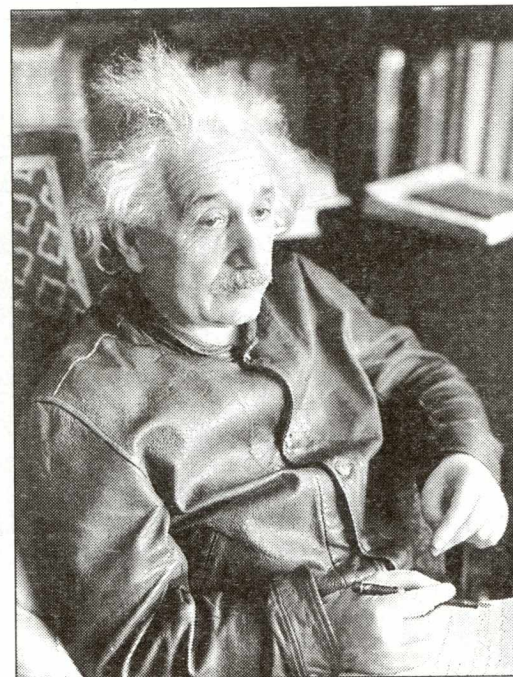

"That's one of the reasons we respect Einstein so much," Groesbeck points out. "He wasn't only a scientist making ground-breaking discoveries, he was also actively engaged in the political and social problems of his time. His feet were firmly planted on the ground."

Einstein's political and humanitarian activities are movingly highlighted in the exhibition. Visitors will also see how he struggled with some of his ideas—for example, when his pacifism ran up against the horrors of the Holocaust. On display is a copy of Einstein's 1939 letter to President Roosevelt alerting him to the possibility of a new type of weapon. Einstein was concerned that the Nazis might be developing an atomic bomb; in his letter to Roosevelt, he urged the president to accelerate the U.S. atomic research program. After the bombing of Hiroshima, he came to regret his action.

Visitors will also see a less well-known letter from Abba Eban to Einstein, offering the scientist the presidency of Israel. It is testimony to the deep connection Einstein had with his Jewish identity and the Jewish people. Although he declined the offer, visitors may contemplate what might have come of such a presidency.

**Protecting Your Legal Rights—  
The Employment Contract**

by Joette S. Doran, J.D.

An employment agreement can either provide you with protection and/or attempt to limit your ability to move freely to another employer. On the positive side, an employment agreement can provide protection from the loss of your position at the whim of your employer. As you may be aware, employment is regarded as "at will" in Illinois. This means an employer may legally terminate an employee for a good reason, bad reason or no reason at all. An exception to the "at will" doctrine is an enforceable contractual relationship with the employer. The best

means of protection from "at will" termi-

nation is entering in a written agreement which specifies the conditions under which the employment relationship may be terminated. For instance, the agreement may specify that the employer may only terminate the employment relationship upon mutual agreement, advance notice or for specified reasons of "cause." Importantly, an employment agreement can provide that the employer pay severance either in a lump sum or over time to further provide protection to the employee upon separation.

Alternatively, the employment agreement can also be used by an employer to restrict your future employment. In highly competitive industries, employers will usually require a written employment agreement which contains a restrictive covenant or noncompete provision when the employer wants to protect their clientele or confidential information during and after the employment relationship ends. In that situation, the employee should be

careful to review the agreement to determine whether those restrictions are reasonable and whether in light of them, you will be able to find employment in your industry. Of course, the best time to determine the legal effect of an employment agreement is before the contract is signed. An employment agreement is enforceable when properly drafted. As such, it is highly advisable to consult with an attorney to review the proposed employment agreement. ## Brazilian Jewelry Trunk Show at Peter Daniel

Jewelry handmade by Brazilian designer Kelly Galvão Glazov will be presented at a trunk show event at Peter Daniel in Barrington on Nov. 28 and 29 from noon until 3 p.m.

Turquoise, aquamarine, tiger's eye, agate, tourmaline, crystal, quartz, citrine, coral and mother of pearl are arranged in unique combinations with precious and semiprecious stones and assembled with the finest leather, bamboo, petrified wood and Amazon beads such as sheep's eyes. All pieces are hand-created in Brazil and packaged in recycled banana and coconut fiber boxes.

Kelly Galvão Glazov began her career in fashion as a consultant, buyer and model for a woman's clothing boutique in the Higienopolis Mall, the finest shopping mall in Sao Paulo. She began making her own jewelry to complement her high fashion wardrobe, and people frequently asked her where she bought her creations.

Siwsi (Sillsi) is the name of the company, which translated from the Indian Tupi Guarani language means "Constellation of Stars."

"My desire is that each woman will feel like a star in the constellation," says Galvão Glazov. "Her brilliance will shine

## A.G. Edwards—Ideas to Help Keep Your Income Growing

Low interest rates, volatile markets and the rising cost of living have made it difficult for investors. During these times, you may be looking for opportunities to help preserve your investments and possibly generate some income from your portfolio. The good news is there are several strategies investors can use to help increase the income generated from their investments and help preserve your portfolio during turbulent markets. Let's take a look at some of these strategies:

• **Dividend Paying Stocks**—Not all stocks are created alike, and investors often overlook this strategy of generating income. Investing in a diversified group of stocks that pay dividends may be a good strategy for those looking for potential price appreciation and income stream. You will be able to use the dividend payments as income or reinvest them into your portfolio as you see fit. With this strategy, it is important to evaluate the companies you may be investing in before making your selection and verify that the fundamentals are strong and that they are likely to continue paying dividends to investors.

• **Mutual Funds**—Another strategy for generating income while maintaining proper portfolio diversification is mutual funds. You may be able to take systematic withdrawals from your mutual funds. These can serve as an "income stream" while enabling you to enjoy the benefits of diversification. While mutual funds are a popular investment for many different types of portfolios, you may not have thought of them as a potential income source.

• **Laddered Bonds**—Staggering bonds with different interest payment and maturity dates has been popular for many income investors. By laddering the interest payment dates, you'll be receiving the interest income throughout the year at different times instead of all at once. And by staggering the maturity dates, the bonds will mature at different times, allowing you to either reinvest the principal re-

ceived in a new bond or continue the laddering process if desired.

• **Fixed Annuities**—In simple terms, an annuity is an agreement between you and an insurance company. With a fixed annuity, your assets earn a fixed interest rate and can accumulate tax-deferred. Also, the issuing insurance company guarantees\* the interest and your principal against loss, so you won't be as affected by market fluctuations. Fixed annuities also allow you to exchange the money you accumulate in the contract for a fixed income stream for a specified time or as long as you live.

• **Life Insurance**—Purchasing a life insurance policy has many benefits including an income tax free payment to your beneficiaries upon your death. In addition, many life insurance contracts offer cash value buildup. This cash value accumulates tax-deferred. Contract owners seeking income can access the cash value, in many cases, without taxation.

Keep in mind, not all of the above strategies are appropriate for every investor. So it is vital that you work closely with your financial consultant in order to develop the best plan for your financial situation. Be aware that the value of some investments will fluctuate and may be worth more or less than the original investment when redeemed. Also, as your situation changes or new developments occur, you'll want to revisit your portfolio to ensure the changes are reflected in your allocation of investments.

when she wears my jewelry. I love making art and making something for someone else. I dream and imagine my jewelry; the next day I wake up and make it. It takes me a lot of time to do and redo each piece until I really like it. I'm very picky-picky."

Mixing semiprecious and precious stones, wood, beads, leather, feathers and metal from Brazil to make sophisticated designs of color and texture results in a unique collection even for Brazil. Each piece is a new style, assembled from treasures found at the Artists' Market on 25 De Marco Avenue, Market Center in Sao Paulo, where the old city was established.

"Making my jewelry relaxes me after a long day of private study and work with the most well-known lapidist in Sao Paulo. A lapidist is one who cuts, polishes and engraves precious stones. My teacher is the largest dealer of emeralds in the city. I am learning how to cut and polish stones from his mine."

## Love Fund Auction Raises Charity Dollars Like Never Before

The Hawthorn Woods Women's Club holds the Love Fund Auction every year to raise charity dollars for women and children's shelters in Lake County, specifically A Safe Place, Staben House and Lake County Haven.

This year was no exception. In fact, the auction beat its stated goal by \$2,000 and almost doubled dollars raised from last year.

"The success of this year's auction is just astounding," says Judy Gustin, Love Fund co-chair. "We brought in \$7,000 by auctioning off 130 items donated by holiday boutique crafters and area residents."

The Village Barn in Hawthorn Woods was filled with anxious women, hoping to win the bid on their targeted items. The stakes were high for a few coveted items. A watercolor of Wrigley Field on opening day was sold for \$400. Dinners for eight, prepared and served by the Hawthorn Woods Board of Trustees and Village President Keith Hunt, were sold for \$300 and \$450.

The Hawthorn Woods Women's Club is a philanthropic and social organization that is open to all women in Hawthorn Woods and the surrounding communities.

**Diane Taylor, executive director of Staben House, hopes to win the bid for a hot item at the Love Fund Auction, sponsored by the Hawthorn Woods Women's Club on Oct. 7. The event raised \$7,000 for women and children's shelters in Lake County, one of them being Staben House.**

Meetings are usually held on the first Tuesday of every month at 7:30 p.m. in the Village Barn. For more information on the club and its upcoming events, call 1-847-438-0723.

## Facelift Surgery

Most people who are familiar with modern facelifts and other facial cosmetic procedures are aware of their important benefits, in terms of improved appearance as well as self-esteem. However, many people who are good candidates for these procedures may be reluctant to actually have them out of fear of the process itself.

They fear that they might experience pain during the surgery, or that recovery might bring pain or discomfort, or that it might take too long to heal, or that they might find some other aspect of the surgery unacceptable. The truth is that virtually every one of our patients reports that their recovery was faster and more comfortable than they expected.

In this context, I would like to share with you the comments of one of our recent facelift patients, a 53-year-old female. She was asked to respond to some very direct questions we posed about her experience with the facelift surgery. While some patients may report more difficult recoveries, this patient's experience is fairly typical.

*The following is our interview with W.S. three months following her facelift surgery.*

• *Did you experience any fear before your surgery?*

No, I would say that I had very little fear, if any. I recall having slept totally comfortably the night before. In fact, I had a photograph taken of me when we were leaving for the doctors' office, and I was smiling and looked very relaxed.

• *How long did you think about having surgery before going through with it?*

I had it on my agenda for about two years. I was looking for a time frame which was much longer than what I ac-

tually needed, and I had to juggle some other things in my life.

• *Was the procedure itself painful?*

No, I didn't feel anything. I really don't recall a thing about it.

• *What was your recovery like?*

I think that my recovery was phenomenal. I had the surgery on a Tuesday and we had a family party the following Sunday. I will admit that it was in a kind of controlled light, evening situation. But my daughter, who is a young woman, didn't notice anything, so I think that's a pretty good indication. By seven days, I was totally, totally functional. I had a little bit of concern about sleeping in a balanced way. I would sleep on my back. And then, after I slept on my left side, I would try to sleep the same amount on my right side. Other than that, I would say that I had barely any discomfort. I had very little bruising—very, very little bruising. It was a very positive experience, both spiritually and in a more concrete, tangible way.

• *Would you go through it again?*

In a minute. There is probably not a whole lot that I would do differently, except that I wouldn't tell anybody up front. Because in four or five days, no one would ever know.

Families come in all sizes, combinations, ages. Some with two legs, some with four. Some live near and others across a bridge, a river or an ocean. Some are growing up and some are grown.

No matter what your family's story is, it represents the heart and soul of your world. And when all is said and done, the memories and stages of their life changes will be with you always. That's where we come in. At **CLIX photographs & savables** we specialize in recording, organizing, protecting, displaying and storing your memories.

Our goal is to make sure you take care

of your memories now so that you will have them later. Which brings us to photography. (But then again, sooner or later, everything brings us to photography.) The memorable times of a life are often the in-between moments when baby teeth give way to braces, before your son is at full height and your daughter takes the soccer scholarship for college. A once-in-a-lifetime portrait will preserve this remarkable time. You can't put it off. They do grow up so fast. Call **CLIX** today for an appointment. Creating and caring for your memories is what we are all about, and we'd love to share our expertise with you.

Cody and his band Crossroads will perform for the general public at **The Raue Center For The Arts** on Saturday, Nov. 15, at 7:30 p.m. Crossroads melds the music of the native people of the Great Plains and Mexico and brings together a colorful blend of indigenous flutes, percussion and dance movement from the Aztec and Mayan nations.

Born in Los Angeles, Calif., Robert Tree Cody—whose traditional name is "Oou Kas Mah Qwet" or Thunder Bear—is very active on the powwow circuit today as a northern traditional dancer and master of ceremonies. His father, the great Iron Eyes Cody, famous for the Keep America Beautiful commercial campaign, has passed down from father to son the remarkable ability to communicate with people of all cultures, particularly the young. Cody shares his vast knowledge of music, folklore and Native American culture, bringing his love of the flute and traditional music as diverse as the people themselves, for all to experience and enjoy.

**Robert Tree Cody,  
Native American Flutist**

Versatile flute player and gifted singer, 6-foot, 10-inch Tree, as he is referred to by his friends and relatives, has 12 albums to his accomplishment on the Canyon Records label. In 1999, Tree collaborated with renowned jazz artist Russ Freeman and the Rippingtons, producing the album *Topaz* featuring musical works influenced by the town of Taos, N.M. Cody has just released a new album, *Reflections*, with Native American flutist Hovia S. Edwards that features solos and duets that exemplify the grace and healing power of this timeless instrument.

**The Raue Center For The Arts** is located at 26 N. Williams St. in Crystal Lake and is proud to serve all of McHenry County, as well as northern Illinois and southern Wisconsin. ## Retailers Donate Portion of Sales to Wellness Place

## That Truly Personal Gift

With the holidays quickly approaching, now is the time to focus on giving a one-of-a-kind gift to your loved ones. Think about a truly personal item that speaks to the recipient, such as a framed piece showcasing his or her memorabilia or photos. Frame a wedding photo or invitation, vacation photos, or childhood memory for a unique gift. We have framed medals and photos from World War II, a childhood favorite sweater and photo of child, and a grandmother's handmade needlework as a few examples. Let your imagination soar for ideas.

Fine art porcelain keepsake boxes by Bev Doolittle are now available! These finely detailed pieces are personally hand-crafted to bring her best known titles to life in a three-dimensional way. Perfectly proportioned and equally at home on the coffee table, dresser or any place in between, these truly unique boxes are from the best known camouflage wildlife artist of our time.

The Canterbury Shoppe, also located in the Ice House Mall, offers a dedicated donation program throughout the year. Ten percent of purchases made by Wellness Place supporters are returned to Wellness Place twice a year. The shop features artisan pottery, glassware and furniture, fine gifts, home accents, and holiday collectibles.

Owner Caroline Springob of Grapevine on Main at 301 S. Main St. in Algonquin is turning over all profits throughout the year from the sale of delicate, cancer-related sterling silver bracelets that feature pearls, sculpted silver and Swarovski crystals. A local artist designs these bracelets with one style designated for breast cancer

support and the second style representing ovarian cancer. Each bracelet carries a tag expressing wishes for hope, health and happiness.

Fine Things at 291 Rand Rd. in Lake Zurich will offer a 15 percent donation from Monday, Nov. 24, through Saturday, Nov. 29. The shop features a gallery of gifts, home decorations and furnishings, jewelry, personal care items, special occasion gifts, stationery and cards, baby layette items, and many unique holiday decorations, gifts and ornaments.

## "Baskets" Subject for Art Associates

Seeking a portable craft she could take along while her husband was fishing, Susan Kavicky took her first basketry class in 1987. She became hooked after learning to harvest, pound, split, size and weave with brown ash. Susan's work has received numerous awards, including the 2002 James R. Thompson Award for Craft Excellence, First Prize, Illinois Artisans Program.

On Thursday, Nov. 13, at 1 p.m., at the Barrington Area Library, Susan Kavicky will present a lecture and demonstration, "Baskets", at the next Members Present Art Program for the Barrington Community Associates of the Art Institute of Chicago.

The program will include an overview

of the process to prepare the ash, including a demonstration of splitting ash to satin. Materials will be circulated for hands-on investigation. A slide presentation will show the scope of her work. Weaving techniques will be explained and demonstrated. An in-process basket will be available also.

The focus of Susan's work is process oriented. Several years ago, she was significantly changed by the process of finding a brown ash tree, harvesting it from the swamp, removing its bark, pounding its growth rings, removing and splitting the splints, sizing the splints, and weaving a basket with those splints. Although she no longer processes the material, she

## Gifts from 50 Indian Nations at River Trading Post

The award-winning building dates to 1855. Except for a computer tucked away, out of sight, business in this place is reminiscent of the 19th-century Indian trading business.

Wander through **River Trading Post**, and you will see a collection of remarkable gifts brought into the place from over 50 Native American tribes. You will find contemporary and historic items from the Navajo, Hopi, Makah, Sioux, Iroquois, Mohawk and over 40 other American Indian tribes.

The Navajo weaving collection is among the most extensive this side of the Mississippi. Most of it was acquired directly from the Navajo weavers. The Pueblo pottery collection is exceptional, and the Sioux ceremonial shields bring the place alive with color.

Visitors to East Dundee's **River Trading Post** are surprised to find many unusual gifts of a more contemporary nature also. Navajo Blanket design (by Pendleton) mouse pads are among the most popular items. Visitors also enjoy the collection of Native American music, books, notecards and Arbuckle's Cowboy Coffee. Even Native American herbal teas have become a

A recent visitor from Santa Fe exclaimed, "If this place were in Santa Fe, it would be among the best in town. Everything about this place is Santa Fe... except your prices."

Joe Zeller, the flattered owner of **River Trading Post**, responded, "Well, my formula is simple. I'm not paying Santa Fe rent."

**River Trading Post** recently opened its second location in the heart of the arts district in Scottsdale, Ariz.

Barrington, from 12:30 to 2:30 p.m. Transportation is available to residents of the Barrington area.

still delights in exploring the qualities of brown ash.

It's necessary to remain centered because, with a satiny surface, the ash can easily twist.

Susan says, "In this way, brown ash becomes teacher, and my lesson is to listen to what the energy of the creative process is saying: 'Surrender beyond the mundane. Accept the development of the piece in the moment.' Pushing my capacity for tolerating the discomfort of not knowing the outcome and staying put while surrender-

ing to the void is necessary for authentic work to come forth."

Susan Kavicky's craft is self-taught. She has taken additional studies at the University of Wisconsin, in New Hampshire, and classes in St. Charles and Naperville. She has also taught at conventions and guilds throughout the country.

Guests are welcome to attend this interesting program. Reservations are not necessary. There is no fee.

## "The Quilts of Gee's Bend"

The Milwaukee Art Museum will host the nationally popular exhibition "The Quilts of Gee's Bend" now through Jan. 4, 2004. A recent *New York Times* review praised the quilts, saying they are "some of the most miraculous works of modern art America has produced" and are "so eye-poppingly gorgeous that it's hard to know how to begin to account for them." The exhibition was dubbed "the most ebullient exhibition of the New York art season" while on view at the Whitney Museum of American Art. The Milwaukee Art Museum is the first museum in the Midwest to host the exhibition.

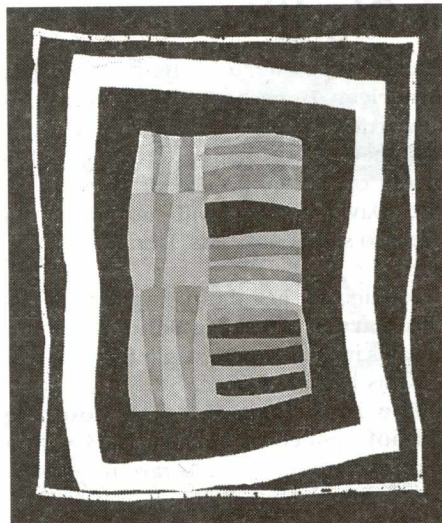

Women in the isolated community of Gee's Bend, Ala., engaged in the traditional art of quilting for generations, motivated by the need to keep their families warm. "The Quilts of Gee's Bend" celebrates these unsung artists for their innovative use of materials and bold command of design. The 70 quilts in the exhibition provide a rare look at a group of 45 20th century artists whose use of motifs, techniques and textiles both change and endure over the course of the century. Through special conservation efforts, the nationally touring exhibition makes these quilts accessible to American audiences for the first time.

"This collection is an outstanding representation of a great American art form, and we are ecstatic to bring it to Milwaukee," said David Gordon, director and CEO of the Milwaukee Art Museum. "In these extraordinary works, women from Gee's Bend transform a well-known custom into visionary works of art."

Gee's Bend is an all-black community located in southwest Alabama on a U-shaped sliver of land five miles long and eight miles wide, bounded by a big curve in the Alabama River. Camden, the county seat, is located 10 minutes south, directly across the river, but ferry service was discontinued in 1965 as a backlash to residents taking part in civil rights marches. Ferry service has not yet been restored despite a campaign begun in the last few years to bring it back. "Benders," as residents are called, are an hour's drive from Camden and Selma to the northeast, an hour's drive from supplies, schools and medical services.

The quilts in the exhibition represent four generations of artists who took fabrics from their everyday lives—corduroy, denim, cotton sheets and well-worn clothing—and fashioned them into compositions that more closely resemble modernist abstract paintings than familiar quilt patterns. The women learned the craft from their mothers or grandmothers, but the emphasis was always on individuality, on innovation. Quilters made the tops by themselves and occasionally got together for the quilting. Most of the quilts in the exhibition are of the type known as piece, strip or patchwork.

The quilts in the exhibition are drawn from the collection of Tinwood Alliance, a nonprofit foundation founded by art scholar William Arnett for the support of African-American vernacular art. Arnett, publisher of Tinwood Books, discovered the quilts, some of which had remained

stored under mattresses and in closets and cupboards for close to a century. He first traveled to the area in search of Annie Mae Young, whose picture he had seen in a magazine, along with her quilt. She pointed him to Gee's Bend, a community of about 750 named after Joseph Gee, the first white man to stake a claim there in the early 1800s. The Gee family sold the plantation to Mark Pettway in 1845. Most of the people who live in Gee's Bend today are descendants of slaves on the former Pettway plantation. Their forebears continued to work the land as tenant farmers after emancipation, and many eventually bought the farms from the government in the 1940s. Isolated geographically, the women in the community created quilts from whatever materials were available, in patterns of their own imaginative design.

Gee's Bend became known for its quilts, briefly, during the civil rights movement in the mid-1960s when the Freedom Quilting Bee was organized. Many quilters in the community represent second-generation quilting within a family. Today, quilting is a dying art in Gee's Bend. No quilters are working on a regular basis, and Arnett only knows of one woman under 60 who makes more than one or two quilts a year.

In addition to the quilts, the exhibition will present an in-depth history of Gee's Bend, contemporary and historical photographs of the community—it was photographed by Arthur Rothstein and Marion Post Wolcott in the 1930s for the Resettlement Administration Program—and excerpts from interviews with 30 quilters. A 20-minute video on the area of Gee's Bend and its quilters accompanies the exhibition.

## Rotary Presents Allegro 2003 Musical Extravaganza

The SanFilippo Victorian Palace

Dinner, dancing, auctions, tours and a performance by one of the world's best-known theatre organists will make for a most memorable evening on Saturday, Nov. 15, as Barrington Breakfast Rotary Club hosts *Allegro 2003*.

Club president Ron Hamelberg says, "We're thrilled to have a venue as exciting as the SanFilippo Victorian Palace. This magnificent estate is a tremendous draw in helping to sell tickets to our event, which will raise funds for numerous important projects in our community."

The \$150-per-ticket evening begins at 5 p.m. with tours of all house galleries and exhibits. The SanFilippo Palace in Barrington Hills houses beautifully restored antique musical machines, phonographs, arcade and gambling machines, huge chandeliers, Tiffany glass, the most spectacular European salon carousel in existence, and the world's largest restored theatre pipe organ. The 80-rank, 8,000-pipe organ will be heard in two concert seatings featuring David Wickerham, one of the world's most accomplished pipe organists in both theatre and classical styles.

The evening will continue with a buffet served in a building designed especially to house the completely restored and operative 'Eden Palais' carousel, originally built in 1890. The carousel is 46 feet in diameter, with 36 racing, hand-carved Hubner horses, four ornate rocking gondolas and a spinning lovers' tub. Its façade is one of the most beautiful in the world, with gold-leafed faces, three angels, a peacock with lighted tail feathers and beveled glass windows. A center angel plays a

harp while an 89-key Gavioli band organ provides music for the antique amusement.

Patrons will enjoy drinks and dancing to the live sounds of the local band, Love Handles, as silent auction bidding takes place for fabulous merchandise and certificates donated by local businesses. Later, a number of high-ticket items will be auctioned live, including a week-long stay in a Hawaiian condo; a trip to the exclusive Cal-a-vie spa in Vista, Calif.; a seven-day cruise with Carnival Cruise Lines; and a sterling silver and 14K earring and bracelet set by artisan Alwand Vahan.

Hamelberg invites area residents to, "Take advantage of this opportunity to experience an exciting evening amidst a private collection not accessible to the public at large. At the same time, patrons will be supporting projects such as the Children-at-Risk project at area schools; English-Second-Language instruction for parents of local students; lightning warning systems at schools and parks; scholarships, fellowships and exchange programs for high school, college and mid-career individuals; and polio eradication worldwide."

Barrington Breakfast Rotary Club meets weekly on Thursday mornings at 7 a.m. at Health World Museum. Last year, the club provided more than \$30,000 in support of its charitable programs.

Tickets to *Allegro 2003* are available from any member. Further information can be obtained from Susan Rosenberg at 1-847-382-0115. For additional details, visit [www.barringtonbreakfastrotary.org](http://www.barringtonbreakfastrotary.org).

## Language Stars Makes Learning a Game

"Language Stars is simply a great program; I have never found anything that works as well for my children. Language Stars makes learning a game," says Karen Pritzker, mother of five.

Language Stars' unique **FunImmersion™** method turns learning into a game, focusing on a young child's ability to learn a language naturally through fun and engaging activities. Children learn through interactive games, arts and crafts, singing, cooking and more, all presented entirely in the foreign language.

"Children have a window of opportunity during which the brain is uniquely suited to absorbing language naturally," explains Karen Gould, Language Stars' director of education. "Children have the innate ability to absorb the structures and rules of a language as easily as they learned their first language. They can also pick up a native accent flawlessly."

Children who learn a second language

young also go on to show enhanced problem solving skills, stronger communication skills, and higher standardized SAT test scores.

Language Stars offers **FunImmersion™** programs for children ages 1 to 10 in several Chicago and suburban locations, including Barrington and Arlington Hts. In addition to year-round programs for Parents & Tots (12 to 36 months) and Kids Only groups (3 to 5, 5 to 8 and 8 to 10 years), Language Stars also offers exciting summer camp options.

"After just one week of Language Stars camp, there was an explosion of Spanish in our house!" says Dena, mother of 5-year-old Marlee. "The teachers are all native speakers, and most importantly, my daughter had a ton of fun."

## Comments by Thomas

Celebrating 26 incredible years of creating portraiture with such an outstanding response constantly amazes me and fills my heart with gratitude. The opportunity to watch my client's children grow is often a gentle reminder of how short life is and why it is so important to capture those memories before they fade away. Through the years I have had the privilege of building many close relationships with my clients. Very often I hear their personal stories and why my portraits have become their most valued possession. I can't imagine a more rewarding benefit to my life's work. For this I am truly blessed.

## Café Dos is Simply The World's Best Beans at the Best Price

### One cup is not enough!

Coffee is like wine: cheap and bad, or expensive and great. If you want to elevate the coffee drinking experience to new heights, choose **Café Dos**. Get great without the expense; **Café Dos** will deliver select plantation-grown hard beans along with enlightening advice.

**Café Dos** does not mix beans from country A and country B. Would you drink wine made from grapes grown in New York and California? When you drink the house "blend," that's what you get, cheap beans (a filler) mixed with better beans.

Our current feature is Guatemalan Strictly Hard Bean from San Marcos. These

beans are grown in the lush, volcanic San Marcos region in northern Guatemala. Estate-grown in a perfect microclimate, this coffee is very rich, very well made, and lovely in the cup.

The four categories for judging this or any coffee are:

Cup: Rich, balanced, hearty  
Acidity: Bright and clean  
Flavor: Lush, rich and balanced with notes of chocolate and citrus  
Body: Rich

We're so certain that you will say WOW!, we offer a money-back guarantee. Call us at **1-800-569-6052** or visit our website [www.cafedos.com](http://www.cafedos.com).

## Long Grove Café's motto is "Wine and Dine"

Owner Bill Hristakos makes guests feel right at home with his new restaurant, **Long Grove Café**. It is the only restaurant in Long Grove to offer a full wine cellar and the opportunity to buy wine right at the restaurant.

"Many times people go out and have a nice dinner and enjoy a great wine but they don't know how to find the wine after they experience it. We solve that problem right here, by having the wines for sale," says Hristakos, who also spent many years in the wine business before opening **Long Grove Café**. "I want to educate people about wine and we plan on having wine tastings and wine dinners on a regular basis."

**Long Grove Café** is a beautiful restaurant that overlooks a large pond and water

fountain. The wall of glass windows offer an alfresco dining experience even in the months when the weather is cold. In the summer months, the newly-built deck and outdoor seating area provides a great ambiance for dining and people watching in bustling Long Grove.

Chef Leo Perales has created a wonderful menu which WBBM's Dining Critic Sherman Kaplan recently rated 17/20. Enjoy pasta, seafood, steak and chops, as well as shrimp dishes, salads, soups and sandwiches.

**Long Grove Café** is open seven days a week and is located at 235 Robert Parker Coffin Road in Long Grove. Hours are Sunday through Thursday 11 a.m. to 11 p.m., Friday 11 a.m. to 10 p.m. and Sunday 11 a.m. to 2 p.m. for brunch.

## Let The Garlands of Barrington Fill Your Fall Calendar

The Garlands of Barrington, 1000 Garlands Lane, Barrington, has planned several outstanding events to help you ease into winter and the holiday season. The magnificent surroundings at **The Garlands** combined with the interesting programs that are planned are guaranteed to please the senses and enrich the mind.

The **International Dinner and Music Series** continues with a "Tour de France," featuring French foods and music by strolling violinist Jennifer Silk. The gastronomic Parisian experience will take place on **Friday, Nov. 14**, and can be booked by calling **1-847-756-3000**. At the same time, plan to reserve a table at the **Holiday Around-the-World** evening, **Dec. 12**, featuring food and holiday music from all over the globe. Pianist Dan Merrigan, a member of the Peter Tye Orchestra, will play holiday tunes in addition to classical, jazz, popular and Broadway music.

The Garlands will once again be featured on this year's **Barrington PTO Holiday Housewalk and Luncheon** on **Friday, Dec. 5**, from 10:00 a.m. until 6:00 p.m. All proceeds from the housewalk will benefit the After Prom Party sponsored by the Barrington High School PTO. Guests at the housewalk, priced at \$20 per person in advance or \$25 per person for tickets purchased on the day of the event, will enjoy the award-winning architecture and stunning interior design at **The Garlands** and get some ideas from the décor for their own holiday decorations by visiting the fully furnished and decorated Maple and Hickory models.

Due to the overwhelming response at the housewalk last year, lunch will once again be offered at **The Garlands**. Executive chef Rick Rizner will prepare homemade soup, grilled chicken Caesar salad and assorted cookies and brownies, using only the freshest ingredients available at the market. **The Garlands'** own special blend of coffee will be served along with tea and soft drinks. Advance reservations for the luncheon, priced at \$20 per person, are required. Tickets for both the luncheon and the housewalk can be purchased by phoning **1-847-756-3000**.

On **Saturday, Dec. 6**, the **Lecture on Handel's Messiah**, presented by noted speaker Jim Kendros, will undoubtedly enthrall attendees. This marvelous lecture is free and open to the public, but because of limited seating, reservations at **1-847-756-3000** are a must. Mr. Kendros, a professor at Oakton and Harper colleges, will delight the audience with highlights of *The Hallelujah Chorus*, some of Handel's other special recordings, historical background and a special introduction to the Nickelharpa, a little known baroque instrument. This event will be held in the surround sound-theater at **The Garlands** at 3:30 p.m. and will be followed by a cocktail hour with a cash bar in the Robie Lounge, allowing guests to meet the speaker and share more information about Handel. Everyone is invited to continue their enjoyment of the day by booking a reservation for dinner in the Winslow Dining Room, serving fine cuisine expertly prepared by executive chef Rick Rizner. Reservations for dinner can be booked by

calling **1-847-756-3000**.

On **Sunday, Dec. 7**, plan to enjoy your day at **The Garlands of Barrington**. It's the first Sunday of the month, so it must be the date for a sumptuous **Sunday Brunch** with the family. You are then invited to view the wonderful new art at **The Gallery at the Garlands Art Opening**, part of a rotating exhibit in partnership with the Barrington Area Arts Council. A special reception is planned to celebrate the artists Donn Ziebell and Michael Palermo and their work, where guests will be treated to informal conversations with the artists over a glass of punch. Both artists are residents of the Chicago suburbs and both paint in oil. The opportunity to view art in the presence of the artist is truly a unique experience.

Later in the day, **The Garlands** will again join forces with the Barrington Area Arts Council to present "**Holiday Wishes**," a madrigal dinner featuring the Marian Singers Madrigal Ensemble. The musical variety show with Old English flavor is an original production of the BAAC under the artistic direction of Greg Leifel and Susan Schaefer. The medieval feast is a special menu, also with an Old English flavor, prepared by **Garlands'** executive chef Rick Rizner. Tickets for the event are \$35 for BAAC members, seniors and students or \$38 for nonmembers and must be purchased in advance by calling **1-847-382-5626**. The dinner and show will take place in **The Garlands Center for the Performing Arts**, a perfect intimate venue for the performing arts, making shows like this one possible for the Barrington community.

**The Garlands** has added a Saturday tea to their schedule, and chef Rizner hopes that you'll add it to yours. A "**Proper English Tea**" can now be enjoyed at **The Garlands** on the third Friday and the third Saturday of each month at 1:30 p.m. Reservations for the teas on **Nov. 21 and 22** and the special holiday teas planned for **Dec. 19 and 20**, all priced at \$15.95 per person, can be made by phoning **1-847-756-3000**.

**Sunday Brunch at The Garlands** is becoming a tradition for many families in the area. A bountiful brunch buffet is served on the first Sunday of each month from 11:00 a.m. until 2:00 p.m. in the Winslow Dining Room and is priced at \$21.95 for adults and \$9.95 for children under the age of 10. The next two brunches are on the calendar for **Nov. 2 and Dec. 7**.

The "**Choose Well. Live Well.**" seminar is offered monthly on the second Friday of each month at 1:30 p.m. in the surround sound theater at **The Garlands**. The presentation offers a window to the future exploring how retirement is being reinvented at **The Garlands** with new housing and lifestyle choices for adults age 55 and older. The seminar, presented by Liana Allison, a leading expert in the field of retirement communities, will focus on the new retirement options followed by a tour of **The Garlands'** campus and a relaxing afternoon tea. ## Menopause or Adrenal Exhaustion?

Menopause is a natural process for a woman's body as she enters her late 40s or early 50s. Is your body experiencing the symptoms of menopause early because of adrenal exhaustion? Symptoms include:

- Hot Flashes
- Night Sweats
- Fatigue
- Decreased Sex Drive
- Vaginal Dryness
- Mood Swings
- Headaches
- Weight Gain
- Depression

Three types of stress can create these symptoms at a much earlier age than menopause: blood sugar imbalance, mental and emotional stress, and chronic inflammation/infection.

A simple saliva test can assess hormonal levels and determine if you are experiencing adrenal exhaustion or menopause. Natural hormonal support, nutrition and exercise can be incorporated in your lifestyle to restore your body to op-

timal health!

Studies show that 50 to 80% of women suffering from blood sugar imbalances dramatically improved by eating the proper type of food in the proper amount at the proper time. Eliminate headaches, mood swings, fatigue and other discomforts by making a food chart and managing your nutritional health.

Prolonged mental and emotional stress will contribute to adrenal exhaustion and lead to a shift in hormones that can result in similar symptoms as those listed above.

Digestive disorders, constipation, bloating, gas and other internal discomforts can be the result of chronic inflammation/infection. This will lead to hormone imbalances and uncomfortable symptoms. Remove the infection and realize improved health and hormonal harmony.

If you or someone you love is living with the discomfort of menopause, determine the cause and explore the natural approach to restore optimal health with a visit to **Cornerstone Health Services**. Call **1-847-304-1300**.

## Chicago Master Singers and Ars Viva Symphony Orchestra Present *Elijah*

*Elijah*, the dramatic 19th century oratorio by Felix Mendelssohn, will be performed in two suburban locations on Nov. 7, 9 and 16 by the combined musical forces of the Chicago Master Singers and Ars Viva Symphony Orchestra under the baton of Maestro Alan Heatherington.

Soloists will include Diane Ragains, Julia Bentley and Kurt Hansen. Renowned bass Philip Kraus will sing the part of Elijah.

Kraus has been a familiar figure in Chicago musical productions for years. This fall, in addition to *Elijah*, he is also appearing in Lyric's *Marriage of Figaro*.

"We are pleased and honored to have Philip with us for *Elijah*," commented CMS and Ars Viva director Alan Heatherington. "He brings a commanding, authoritative voice to the role."

The Chicago Master Singers, a 125-member vocal ensemble, is celebrating its 25th anniversary this season and is proud to offer this demanding piece. The group features top vocal talent from Chicago and suburban communities. Formerly known as The New Oratorio Singers, they have delighted Midwest audiences with regular performances of the great choral masterworks in collaboration with professional soloists and orchestras since 1979.

Ars Viva Symphony Orchestra, named Orchestra of the Year for 2003 by the Illinois Council of Orchestras, will also contribute to the *Elijah* performances. Ars Viva musicians represent extraordinary talent, drawn from world-class music organizations including the Chicago Symphony Orchestra and the Lyric Opera as well as the academic and free-lance world.

Alan Heatherington, the 57-year-old maestro who also heads up the Lake Forest Symphony, directs both Chicago Master Singers and Ars Viva Symphony Orchestra.

On Friday, Nov. 7, the performance of *Elijah* will begin at 7:30 p.m. On Sunday,

Nov. 9, the performance will begin at 7:00 p.m. Both will be at the Divine Word Chapel, 2001 Waukegan Rd., just north of Willow Road, in Techny.

On Sunday, Nov. 16, the performance will begin at 7:30 p.m. and will take place at the North Shore Center for the Performing Arts in Skokie, 9501 Skokie Blvd.

Individual tickets for the Nov. 7th and 9th performances of *Elijah* are \$40 for preferred seating or \$35 for general seating, with discounts offered for seniors and students. Tickets for these two performances are available on the Internet at [www.chicagomastersingers.org](http://www.chicagomastersingers.org) or by calling 877-TAL-KCMS (877-825-5267).

Individual tickets for the November 16th performance at the North Shore Center for the Performing Arts in Skokie are priced at \$50 for a box seat or \$35 for general seating. Senior and student discounts also apply. Tickets for this performance are available through the North Shore Center for Performing Arts' box office at 1-847-673-6300 and on the Internet at [www.northshorecenter.org](http://www.northshorecenter.org).

Advance ticket purchases are recommended for all three performances.

John Melcher, music director of the Northwest Choral Society, will present an informative lecture on *Elijah* beginning one hour before each of the performances at Divine Word Chapel. *Elijah* is an oratorio based on Old Testament narratives found in 1 Kings. It was first performed in 1846 to instant acclaim. Many still consider the work Mendelssohn's greatest achievement.

This concert is partially funded by the Elizabeth F. Cheney Foundation. For more information, contact The Chicago Master Singers toll free at 877-825-5267 or by e-mail at [info@chicagomastersingers.org](mailto:info@chicagomastersingers.org). ## Hypnosis

by Martin A. Nathan, M.A., L.C.P.C.

Hypnosis is being used more than ever for treatment of a variety of issues. These include nicotine addiction, eating disorders, nail biting, anxiety and panic attacks, weight loss, depression, anger, pain, and sleep disorders. *It is particularly helpful with stopping smoking.*

I'm a licensed clinical professional counselor and have been in private practice for over 28 years. I see couples for marriage and relationship counseling, and individuals for a variety of issues. I am certified in the use of clinical hypnosis and have been using it in my practice for the past 27 years.

I use hypnosis most often with individuals in order to quickly change habit and behavior patterns that the client considers undesirable. Using hypnosis helps the changes to take place in a much shorter

period of time than traditional counseling alone. The combination of short-term counseling with hypnosis saves both time and money.

If you think that you have an issue that may be treated by hypnotherapy, call and discuss your issue or issues with me. You will learn the approximate number of sessions, the cost per session and whether or not it's for you.

I am also a certified meditation instructor and teach six-week "Introduction to Meditation" classes on a regular basis. Meditation helps you to respond better to stressful situations, lowers blood pressure and generally makes you feel better. If you are interested in learning how to meditate or wish to restart your meditation practice, please call **1-847-934-6555** for information.

## The Only Form of Permanent Hair Removal

**Absolutely! Electrolysis Salon** provides safe, gentle and effective permanent hair removal by a board-certified registered nurse.

For the past 10 years, owner Debbie Fritzshall RN, CPE, has helped men and women achieve permanent hair removal on the upper lip, chin, eyebrows, underarms, back, arms, legs and bikini line.

Electrolysis is the only safe, sensible and permanent treatment for the removal of unwanted hair. It will free you from the limitations and frustrations of temporary hair removal methods such as lasers, waxing, shaving, bleaching, tweezing and depilatories. These temporary methods will only result in the regrowth of coarser and more deeply rooted hair.

Electrolysis is the only form of permanent hair removal approved by the FDA and the American Medical Association. It is a gradual destructive process that involves a series of treatments. Consistent treatment is the most important factor contributing to the success of reaching your goal of permanent hair removal. Fritzshall offers a consultation to assist clients in choosing the appropriate treatment schedule and method.

Any prospective client seeking electrolysis treatment should inquire about the

methods of sterilization of equipment, use of sterile disposable probes, gloves and a mask. Questions to ask of the electrologist include: What professional organizations do you belong to? What is your educational background? Are you board certified? What types of continuing education classes have you attended in the past year? Are you preparing yourself for licensing which will begin in January 2004? By next January, those electrologists who are not complying with the law will be forbidden to practice electrolysis. It is your right to be an informed consumer. Please ask these questions of your current electrologist.

Electrolysis will lift your spirits and your self-confidence as the look you desire is achieved, as the troublesome hair is gone forever! Electrolysis has been known to improve your physical appearance and self-image and help you feel more attractive and socially acceptable. You are making a permanent choice for a lasting impression!

**Absolutely! Electrolysis Salon** is located at 368 W. Liberty St. (Route 176), conveniently located two blocks east of Rand Road in Wauconda. Call **Debbie** at **1-847-487-9020** to discover the difference. You will love the results!

## How Does My Marriage Affect My Children?

by Theresa McCay, L.C.S.W., C.A.D.C.

When one individual in the family system has a problem, then everyone in that system has a problem. This is due to the need for the family system to maintain a homeostatic state of functioning or dysfunctioning. If one member changes their conscious or unconscious contract within the system, then problem arises in the family system.

Marriage problems can be toxic to the functioning of all members involved and need to be addressed immediately. This is to assure limited deterioration of the marriage and secondary damage to the development of children in the home. Although children are resilient, there is no greater predictor of trouble in a child caught in the middle of a toxic marriage. That "trouble" may manifest itself as depression, aggression, withdrawal and/or excessive anxiety. If these children are not given the proper support to explore their feeling state throughout a divorce or volatile marriage, it can be predicted that this child will turn to a symptomatic behavior to numb the pain, which could range from school failure, promiscuous behavior, eating disorders and/or substance abuse.

As a certified marriage and family therapist,

it is my belief that marriages turn negative due to a few simple reasons: neglect of marriage and the family system; disrespect for ones' self or spouse; lack of appreciation for spouse; and addiction (work, substance, gambling, eating, sex). After years of treating numerous couples, I have often found the battle of "blame" to be the hardest to "let go of". Simple advice for readers—do you want to be right or do you want to be happy?

I am a graduate of Northwestern University where I received a bachelor's degree in psychology and a master's degree from The University of Chicago in clinical social work. I received extensive training in child and adolescent treatment at The University of Chicago Hospital's Department of Child and Adolescent Psychiatry. I have received postgraduate training at The Chicago Center for Family Health where I received a two-year certification as a marriage and family therapist. This with a certification as an alcohol and drug counselor provides a knowledge base to serve the entire family system.

You know the challenges your family faces every day; just know that there is someone who can help.

## Dr. Phillip Lee Patrone Now Practicing in Barrington

Periodontics, anesthesia and dental implants are now available in the Barrington community at the office of **Dr. Phillip Lee Patrone**, 204 W. Main Street, 1-847-277-0181.

Besides being a periodontist and certified anesthesiologist, **Dr. Patrone** has advanced training in surgical dental implant procedures and reconstructions. He is able to restore lost bone for future implants. If you have been told you are not an implant candidate, **Dr. Patrone** may be able to help.

**Dr. Patrone's** training in anesthesiology has afforded patients the opportunity to have their periodontal or implant care completed under the gentle, relaxing and anxiety reducing method of intravenous sedation/general anesthesia. Coming to the specialist's office no longer needs to be a fearful experience. If you or someone you know has avoided seeing a periodontist because of fear, anxiety or nervousness, **Dr. Patrone** and his staff will take care of you in a comfortable, safe and caring environment.

**Dr. Patrone** is partners with Drs. Stan Treitler and Terry Sandroff. Their four office locations in Arlington Heights, Vernon Hills, Bloomingdale and Barrington provide periodontal, dental implant and anesthesia services six days a week to meet your needs. Part of their success is working closely with your general dentist, especially since a large part of periodontal and implant dentistry demands strict attention to cosmetics.

**Dr. Patrone** was born in 1964. He was raised in Ohio where he attended prep school at Linsley Institute. After majoring in mechanical engineering for his undergraduate work, he earned a degree from

Dr. Phillip Lee Patrone

The Ohio State University College of Dentistry. He then completed a general practice residency/surgical internship at St. Elizabeth Hospital Medical Center.

**Dr. Patrone** is a certified dental anesthesiologist and is trained to administer general anesthesia and intravenous sedation. ## Woodstock Christian Life Services Celebrates 100 Years

When the Rev. John D. Kelsey founded the original Old People's Rest Home in 1903, could he have imagined that 100 years later his organization would have expanded to what it is today?

2003 marks the 100th anniversary of **Woodstock Christian Life Services'** mission of caring for seniors in northern Illinois.

The Old People's Rest Home is now called **Hearthstone Manor** and remains on the original campus with **Hearthstone Village**, **Woodstock Early Learning Center** and the corporate office. This year also marks the opening of **WCLS'** first off-campus endeavor, **Belvidere Early Learning Center**.

Currently home to over 200 seniors, **WCLS** offers a myriad of services that include independent living for seniors with licensed on-site supportive services, assisted living, Alzheimer's disease and related dementia care, and skilled nursing with Medicare certification.

The Woodstock and Belvidere early learning centers, divisions of **WCLS**, provide an atmosphere that is challenging and fun to nearly 300 children. **WCLS** is the employer of choice to over 250 people from Woodstock and the surrounding community.

**WCLS** may have grown in size and expanded their services, but they continue to deliver the same Christian-based high quality, loving care as always.

### We Need Your Help!

**WCLS** is collecting items of historical interest for permanent display on our campus. Items can include antiques, photos, clothing and household items relating to the history of **WCLS** and those we serve. In the past, **WCLS** has been known by the following names: **Woodstock Industrial Home for Children**; **Woodstock Children's Home**; **Sunset Manor**; **Old People's Rest Home**; and **Carefree Village**. ## LOSE THE WEIGHT...AND KEEP IT OFF!

## New Weight Loss Program Shows Dramatic Results

Dr. Barry Berger, a Board Certified Internist practicing in Lake Zurich for the past 12 years, introduces a new weight loss program. This program is based on the 40/30/30 nutrition plan which consists of 40% carbohydrates, 30% protein and 30% fat. By increasing protein while decreasing fat and carbohydrates, weight loss success increases. University studies using this diet method along with the latest advances in prescription medication have shown safe and effective weight loss results.

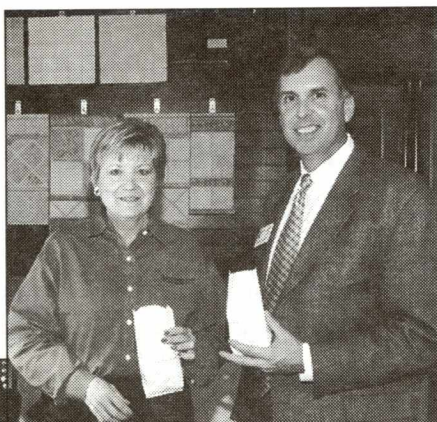

Unlike other programs for which you need to buy food or count calories, this method offers the most freedom and achieves the best long lasting results available today. Fat comes off and stays off! Dr. Berger custom designs a program for each patient and discusses proper exercise, nutrition and overall weight status while considering your current lifestyle, exercise and diet habits.

Dr. Berger has hundreds of satisfied patients. Insurance usually pays for some or most charges, (sorry, no HMOs).

To begin a weight loss program that really works for you, call **1-847-438-2454** in Lake Zurich or **630-789-9495** in Hinsdale to make an appointment for your consultation today.

## Sorting Through Dental Technology: Part III

by James T. Gavrilos, DDS

Over the last two months, I discussed how new technology, new techniques and new materials constantly challenge the dental profession. Sorting these out and selecting the best is a consistent endeavor for any quality dentist. I discussed the advantages and disadvantages that lasers and digital X-rays have brought to the dental profession. This month, I would like to review color-scanning technology.

Have you ever seen someone with a cap or crown on their front tooth and could tell from a mile away that it doesn't match their other teeth? Until just recently, dentists had to use little colored shade tabs and try to figure out what color porcelain the dental laboratory should use when making the new crown. Unfortunately, this left a lot up to the interpretation of the dentist or assistant and very often was wrong. Teeth appear to be all one color but actually have multiple bands

and layers of different colors. Communicating these subtle nuances to the lab was virtually impossible. Often times, the patient had to visit the lab so the technician could attempt to match the porcelain of a new crown to the rest of the patient's teeth.

Now there is a new technology called ShadeVision. The system works with the same technology that matches paint color. The ShadeVision scanner is placed over the tooth and records color data. That data is e-mailed to the dental laboratory, and they use it to make a perfectly matched crown. They can even scan the crown they made and check it against the measurements provided by the dentist. This technology eliminates the guesswork and provides the patient with a well-matched, natural looking crown.

To see the new ShadeVision system at work, please contact **Dr. James T. Gavrilos** at 1-847-381-4040.

It's that magical time of the year when everything sparkles and glows. Why shouldn't your skin? Achieving radiant, glowing skin is possible for anyone with the right treatment plan. The secret is to have a treatment plan that is designed specifically for you to address your unique skin care issues.

At **Estetica Advanced Clinical Skin Care**, we specialize in skin care and designing innovative treatment programs to address a wide range of skin care issues. Our goal is to restore and rejuvenate the natural vitality and vibrancy of our clients' skin.

We accomplish this goal by staying true to our philosophy—"Skin is like a fingerprint; no two are alike. Hence, no two individuals should have the same treatment plan." Our clients begin their journey to healthy, glowing skin with a private consultation that assesses their skin type and determines the best treatment plan for their unique skin. This is followed by a customized skin care treat-

ment plan designed to achieve silkier, radiant skin.

**Estetica** offers a wide range of products and services that are all specifically dedicated to treat skin care problems. All of our products are clinically researched and proven to work. Outlined below are a few of the treatments we have available:

- **Rejuvenation Facial**—This is designed to rehydrate the skin and allow the skin to breathe again. It will assist with eliminating that dull, gray look.

- **Chemical Peel**—Chemical peels are used to exfoliate the outer skin cells and are often used to address extensive damage to the skin. We offer a wide range of peels, each designed to address certain situations.

- **Microdermabrasion**—This treatment is also used to exfoliate the outer skin cells and is accomplished by the use of tiny microcrystals combined with gentle suction to remove the outer layer of cells, resulting in smooth, radiant skin.

Begin your journey of revitalizing your skin by calling **Estetica** at 1-847-438-2100 to make an appointment for your private consultation.

## Full Circle Pilates Studio, Ltd., Has a New Idea of "Hanging Around"

The ad photo shows an exercise, the Swan, performed hanging from the top bars of the Trapeze Table. This is an advanced version of the Swan which can be learned only through Pilates sessions on the equipment. A variation of the Swan is also learned in Pilates mat classes which do not involve equipment. This movement, at all levels, lengthens, aligns and balances the body. The back, hips and abdominal muscles are strengthened. The shoulders, chest and thighs are lengthened and stretched. All these improvements help one to breathe more deeply, walk energetically and move with greater stability, balance and ease.

What is so different about the Pilates method of exercise? You may have seen a variation of the Swan before in other exercise programs. Sure, it is a back extension; however, the approach is different. There is nothing left to chance. The training of the mind controls the body. You concentrate on the core postural muscles, learning how to use those that are necessary to achieve stability in the trunk, strengthening weak muscles, lengthening those that are short and increasing joint mobility. No force is used. There are no unnatural positions or boring repetitions. Each exercise is executed with your cor-

rect postural alignment taken into consideration. Before you begin a movement, you must consider the angle of your pelvis and the curves of your spine. Only when you have stability in the torso and length in the spine can you think about stretching or strengthening. Balance is restored to the body. In this way, with concentration, control, breathing, centering, precision and stamina, the Pilates method is different.

### Pilates Mat Series

A new session, beginner through advanced, starts in November. There is a maximum eight people per class.

### Pilates One-on-One/Duet Sessions on Equipment

These sessions are by appointment only. Each can involve either a personal session with an instructor (one-on-one) or a session with a friend and the instructor (duet), both using Pilates equipment.

### Yoga

All levels are welcome. Classes are held in eight-week sessions, and each class is 1½ hours long.

### Parkinson Movement

Parkinson Rebels sponsors this exercise program for people diagnosed with Parkinson's disease. The classes are based on John Argue's book, *The Art of Moving*.

## Latest Technology Now Available at Northwest Dermatology

**Northwest Dermatology** in Hoffman Estates is pleased to announce the addition of two new lasers to our services.

The **V-Beam** pulsed-dye laser is a safe and effective treatment for facial spider veins, rosacea, small leg veins, scars, port wine stains, warts, hemangiomas, poikiloderma, psoriasis and wrinkles. The laser is designed to deliver an intense but gentle burst of laser light to the skin.

The **GentleLASE** laser is a fast, effective treatment of unwanted hair, requiring no creams or needles. Patients do not need to let their hair grow. The GentleLASE system, a revolutionary long-pulse high energy Alexandrite laser with a dynamic cooling device, emits a gentle beam of light that passes through the skin to the hair follicle where it is absorbed. The laser energy is transformed into heat, which destroys the hair follicle leaving the surrounding skin unaffected.

In addition to general and surgical dermatology, we provide a variety of services

to enhance your skin. For skin rejuvenation, we have products and treatments available including Collagen and Botox for fine lines and wrinkles; beta-lift peels to unclog pores, clear up acne and soften fine lines; and microdermabrasion for increased firmness, minimized pores, more even skin tones, and reduced pigment marks and scars. For the treatment of psoriasis and vitiligo, we have available the Narrow Band UVB as well as PUVA light treatment. Botox injections are also available for treating hyperhidrosis.

The doctors in our practice, **Dr. Susan Liebovitz**, **Dr. Patricia Ledwig**, **Dr. Leslie Beaird** and **Dr. Alka Madan**, are all board-certified dermatologists who continually strive to provide the utmost in quality dermatologic care in a caring, friendly atmosphere.

## Soft Teeth

"I have soft teeth. My mother has soft teeth. And so does my child."

Usually, when someone refers to "soft teeth," they are talking about high cavity rates. There are certain conditions where your child's teeth have not developed correctly and can be considered soft, but these instances are infrequent and often genetic in nature.

It is true that some children will be more susceptible to decay than others, but this is due to factors other than the makeup of their teeth. Evaluating inherited risk should include the parents' cavity history, the anatomy of the child's teeth and the presence of plaque on the surface. An individual's risk factors also include: when

by Irwin Seidman, D.D.S.

and how often you help your child brush (and floss if necessary), the makeup of their diet, and whether they are allowed drinks or snacks before they go to bed or while they are in bed during the night.

Finding the high-risk child early and establishing an appropriate preventive program for them is essential. Initial dental examinations at 1 year of age, followed by regular checkups, can reduce or eliminate the concern for dental decay.

I am a pediatric dentist and an assistant professor of pediatric dentistry at the University of Illinois College of Dentistry. If you have any questions regarding your child's dental health, please contact me at 1-847-991-4663.

## Evaluating an Asset Management Firm

Most busy investors lack the time needed to identify money managers that best match their specific financial needs. Selecting an investment management firm or mutual fund requires you to examine numerous factors, not just past performance. Debra Schoendorf, CFP® and financial consultant with **Smith Barney** in Barrington, discusses the following key points:

- The education, credentials and experience of a firm's professionals should be carefully evaluated. An inexperienced team or one with a high degree of turnover may be unable to meet the challenges of a volatile investment climate.

- Investment firms need a defined process for the selection of securities. Portfolio construction rules may include specific diversification requirements, sector constraints or review procedures.

- Investment managers should have a plan that assigns qualified personnel to specific tasks, delegates duties appropriately and ensures adequate supervision.

- Is the firm able to produce original investment ideas? Or does it simply collect information from other sources?

- A firm's commercial viability and its success over time should also be mea-

sured. Relevant factors include incentives for key personnel, the firm's ownership and capital base, and its client servicing capabilities.

- Most investment firms use composites—a collection of representative accounts—when reporting performance results. Investors should try to determine if the composite accurately reflects the performance of the current staff and research process.

- Investors should measure the variation in account returns relative to the composite. Examining dispersion can help reveal weaknesses in the implementation of the firm's investment process or the unfair treatment of particular investors.

To make appropriate decisions, investors should look beyond short-term performance and address the many qualitative and quantitative factors that are more reliable indicators of investment manager quality.

At **Old Mill Kitchen Design** of McHenry, Ill., "quality" and "time" are two words we rely on. We invest time in each kitchen or bath remodel we undertake, translating your needs into a custom design you will love for years to come. Owners Dan Grabow and Larry Holland each bring 30 years of design and installation experience to the drafting table, and to your kitchen table. Joined by a team of skilled craftsmen, we offer complete remodeling, caring for your project from start to finish, from our showroom to your home.

Quality plays just as large a role. We use premium products, including cabinetry by Wood•Mode, to create a space that will improve your quality of life. We're meeting for lunch at the Long Grove Café, then going to the Reed-Turner Woodlands where we'll have an art class with Cassandra's of Long Grove. We've been assured that everyone will be an art-

ist when she goes home with her own painting.

### Beautiful Exterior Architecture Attracts Buyers to Brookstone

Even though the inside of a house is very important, it's the outside that gives visitors their first impression. Creating curb appeal plays a primary role in the home design process. Partners Rick Bouchez and Steve Day are building **Brookstone**, a community of 15 one-of-a-kind custom homes on one-to-1¼-acre wooded homesites next to the forest preserve in southeast Long Grove. The builders pride themselves in creating beautiful exterior environments where the back of the home is just as spectacular as the front.

"We call it pool appeal," said Bouchez. "Most of our homeowners spend their leisure time enjoying nature from their backyards; they desire exterior elevations to be not only functional but also dramatic. We provide exceptional rear design so that our owners will love what they see from their pool or backyard."

With the opening of Phase II, there are seven homesites that back up directly to the 400-acre forest preserve.

Setting the backdrop for these unique Old World residences, the Buffalo Creek Forest Preserve provides a haven for outdoor enthusiasts with its bike paths, walking trails and two lakes stocked with fish. Homeowners can enjoy fishing, kite fly-

ing, bird watching, wild life photography and just plain deer watching.

"Most of our buyers love the outdoors so we provide them with amenities that allow maximum outdoor exposure in a highly comfortable setting," said Day.

Elegant oversized balconies extend off the master bedroom, brick paver heated patios, year-round firepits, outdoor fireplaces, compact exterior kitchens, heated and screened sun rooms, all serve to make the outdoors an extension of the home.

Brookstone boasts impressive homes with European country architecture reminiscent of a French chateau adorned with brick, stone and stucco and highlighted with limestone accents. Sumptuous bedroom balconies enhanced with limestone balusters are large enough to accommodate a couch, rattan chairs and a table. An octagonal turret houses a breakfast room on the first level with an 8-foot whirlpool hot tub perched atop, creating a master bedroom balcony that's relaxing and functional at the same time.

The unusual rolling terrain of the land affords most homes walkout or English basements allowing greater access to the forest preserve setting. For more information, call **1-847-537-8459**.

## Premium, Pre-Lit Trees Highlight Geimer's Christmas Open House, Nov. 8, 9

**Geimer Greenhouses, Inc.**, of Long Grove will host its second annual **Christmas Open House** on Saturday and Sunday, **Nov. 8 and 9.**

Shoppers will be treated to holiday refreshments, fun and tons of holiday gift ideas for the garden enthusiasts on their lists.

In addition, **Geimer's** upscale line of Roman pre-lit Christmas trees will make their debut at the event. **Geimer's** chose Roman trees to be their exclusive brand because they found it to be the best quality and value on the market.

"We resisted offering pre-lit trees for years because every brand I saw had sloppy wires visible," says Mike Geimer, third-generation owner of the family-run gar-

den center. "But then we found the Roman trees, which are tightly wrapped with a ton of commercial grade lights, and the wiring is almost invisible. What's more, the needles are so thick and resilient, you'd swear the tree is real."

The Roman trees range in height from three to 14 feet and come in several varieties of firs and spruces. Wreaths and roping will also be available in the same varieties.

**Geimer's** will also carry a large selection of fresh-cut Christmas trees, wreaths and roping, available after Thanksgiving.

**Geimer Greenhouses** is located in Long Grove, a half-mile north of Lake Cook Road on Route 53 (Hicks Road). For information, call **1-847-358-6363**.

# Taking Things Personally

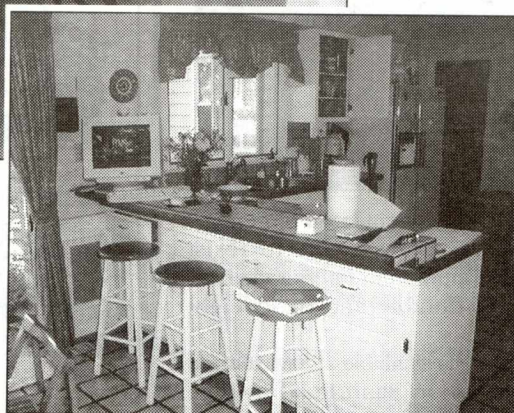

The addition of a center island streamlined the Uribe's kitchen, opening up traffic flow and creating a more spacious feel.

When Ana and Diego Uribe of Barrington decided it was time to update the kitchen of their Fox Point home, they knew they needed more than an "off-the-shelf" solution. They needed a designer who could creatively work within their current space, adding what they wanted and keeping what they needed...while making their kitchen open and inviting. And to get a personalized approach to their design, they turned to Kaye Hathaway, of **Barrington Kitchen & Bath Studio**.

Hathaway, a Certified Kitchen Designer, Space Planner and Interior Designer, used all of her expertise to create a bright, cheerful kitchen that meets all of the Uribes' needs and desires.

"Sometimes it takes some extra time and thought to develop the perfect solution for a unique situation," said Hathaway. "At **Barrington Kitchen & Bath**, we give our clients that personal attention needed to create a room that really works for them."

The distinctive shape of floor-to-ceiling pantries allow for an overhang on the island, to accommodate seating.

The original peninsula closed off the kitchen.

The key to Kaye's solution was the addition of a center island. The parallel counters give the kitchen a feeling of openness, eliminating the tight, closed-off feeling of the original peninsula. This also allowed Kaye to position the cooktop directly across from the sink, making food preparation more convenient. The island's beautiful granite countertop was ex-

## HOMEOWNER WISH LIST

- Make the kitchen more functional and open
- Bring food preparation areas closer together (especially the stove/sink)
- Create a space where the family can gather
- Make better use of storage space
- Retain current walls and door openings

## NEW KITCHEN DESIGN ELEMENTS

- Replacing the peninsula with an island gives kitchen a sense of more space
- Placing cooktop in center island makes cooking convenient, while adding extra counter space
- Center island brings Ana closer together with her family and friends—up to three people can sit at the counter while she prepares food
- Design of unique, angled pantries provide needed storage, as well as beautiful display areas
- Addition of one small wall separates space, creating a "mock" butler's pantry

tended on one side, so Ana's family and friends can sit nearby as Ana prepares her delicious meals and snacks.

Another important element to the Uribe's new kitchen is the floor-to-ceiling pantries. Created to mirror the "u-shape" of the island, the pantries provide ample storage and offer a great space for Ana to show off her brightly-colored ceramic roosters. As a finishing touch, Kaye designed a small "mock" butler's pantry housing the Uribe's wine chiller and glassware.

All of this was expertly installed by **Barrington Kitchen & Bath's** sister company, **Delta Renovations**, making the process seamless from start to finish.

So what do Ana and Diego Uribe think about the results?

"We absolutely love our new kitchen!" said Ana Diego. "Kaye, at **Barrington Kitchen & Bath**, kept us steered in the right direction...without offending our own creativity. And the people at **Delta Renovations** made the installation process almost painless! We're really pleased."

## Lifestyle Changes for Seniors

"Is life getting in the way of how you want to live?"

It's a provocative question, and it's the kickoff point of a new video aimed at senior citizens that may be reluctant or fearful of change in their lives.

"The process of downsizing or making a lifestyle change can be difficult," said John Rijos, president of Brookdale Living Communities, Inc.

The video *Does Your Life Still Fit Your Lifestyle?* is being distributed free of charge

at **The Devonshire of Hoffman Estates**. For over a decade, **The Devonshire**, an independent and assisted-living community, has provided exceptional senior living to the Chicagoland area. **The Devonshire** has helped smooth the transition process for thousands of seniors and their families over the years. **The Devonshire** hopes that this video will help seniors better understand the value of relocating to a senior retirement community.

## Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Residential films are now backed by a manufacturer's lifetime warranty. Solar Gard, Sun Gard and 3M films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, pictures, etc.

Solar Gard, Sun Gard and 3M also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with pressure sensitive adhesive. The adhesive

bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, or burglar, making glass shatter resistant.

**Glare-Not Inc.** has provided savings and security for 11 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard, Sun Gard and 3M films are backed by a manufacturer's lifetime residential warranty. Many locations are tinted by **Glare Not**, including: Brach's Candies in Chicago, Avon Corp. in Morton Grove, two Ace Hardware corporate offices, four Armcore banks, First National Bank of Chicago, plus 1,000's of homes. References are available upon request.

We look forward to saving you money!!!

of all ages that submitted recipes for this cookbook."

A recipe collection contest for *Hometown Favorites: A Collection of Recipes* was held last spring and concluded with a "taste off" where finalists were invited to bring their prepared dishes for judging. Winners were selected in each of the following eight categories included in the cookbook: appetizers and beverages; soups and salads; vegetables and side dishes; main dishes; breads and rolls; desserts; cookies and candy; and "this and that" (various sauces, pickles, jams and other items).

The three-ring binder cookbook, featuring a color cover with an old-fashioned small-town drawing, includes cooking tips, helpful hints on baking, a description of

various herbs and spices, cooking methods for vegetables and fruits, napkin folding tips, measurements, substitutions and equivalency charts, a food quantities listing for serving large groups, microwave hints, a calorie counter, and a definition list of cooking terms, in addition to color dividers for the categories that include hundreds of recipes.

"We hope residents will use these recipes often and treasure the cookbook as a keepsake," Meyer said. "These cookbooks make wonderful holiday gifts as well as hostess gifts, teacher gifts. Add it to a basket full of cooking utensils and spices, and it makes the perfect gift for any special cook in your life."

## Simple Tips for Creating an Inviting Environment in Your Home for the Holidays

Never neglect the entrance to your home. From the driveway, through the front door and into the family room, small and simple touches such as holiday pillows, throw blankets and floral arrangements can change the mood of a home from everyday to that of holiday cheer. It's the accessories that finish a room. Adding artwork, greens and accent pieces are the details needed to give a room a polished look and help move your eye around the room. Adding luxurious silk and velvet throws and burning aromatic candles can create a soothing sense of calm and warmth. Wonderful scents and soft lighting can drastically enhance the ambiance of your home. Come into **Decorating Connections** and let us help you turn your home into the holiday wonderland you've always dreamed of.

## Art Associates to Tour "Manhattan and More"

Once again, the Barrington Community Associates of the Art Institute of Chicago is sponsoring a trip with About Tours. From April 28 to May 2, 2004, the Art Associates will visit New York City, the cultural and financial hub of the United States. Several important and interesting art museums are included in "Manhattan and More."

The Metropolitan Museum of Art houses the most comprehensive collection of art in the Western World. In 1866, John Jay, diplomat, lawyer and grandson of America's first chief justice, said it was time for a national art gallery. William Cullen Bryant chaired the founding committee and sought assistance from leading New Yorkers. The museum opened in temporary quarters in 1870. Calvert Vaux and Jacob Wrey Mould were hired to design the first building with an entrance facing Central Park. The Fifth Avenue facade and great hall were added in 1902.

In 1938, The Cloisters in Fort Tryon Park opened as a branch of the Metropolitan Museum of Art. It is devoted to art of the Middle Ages and includes fragments from various cloisters and other medieval buildings.

The Frick Collection is located in the former residence of industrialist Henry Clay Frick (1849-1919). The artworks and

furnishings are arranged as though the Fricks were still in residence. Mr. Frick was a self-made man who started in the coal mines and was a millionaire by 30. By age 40, he was president of Carnegie Steel.

The Guggenheim Museum is the only building in New York designed by Frank Lloyd Wright. It is a round building amid square ones. The museum opened in Oc-

## Caregiver Support Group

Bonnie Scherkenbach, MS, LPC and social service coordinator at The Barrington Area Council on Aging, Inc., invites you to attend our Caregiver Support Group meetings, which are held on the first Wednesday of each month at the Barrington Vil-

All family caregivers are welcome to join us. For more information, call 1-847-381-5030. Registration is not required.

tober 1959, six months after Wright's death. The museum grew out of the private collection of Solomon R. Guggenheim. Today, it covers the history of modern art.

The Whitney Museum of American Art, founded by Gertrude Vanderbilt Whitney, is one of the few museums founded by an artist. It is dedicated to American art of the 20th century. The current building was designed by Marcel Breuer in 1966. Collection highlights include *Circus* by Alexander Calder, *Flower Abstraction* by Georgia O'Keeffe, *Number 27* by Jackson Pollock, *Early Sunday Morning* by Edward Hopper and *Green Coca-Cola Bottles* by Andy Warhol.

John Jay Phipps, son of Andrew Carnegie's partner, promised his English bride an estate similar to her childhood home. In 1907, he built Old Westbury House and Gardens, a 105-acre manor house and garden on Long Island's Gold Coast. Anti-

que furniture and paintings by Reynolds, Gainsborough and Sargent are found in the house. In spring, over 2,000 tulips enhance the landscaped gardens.

The tour also includes a performance in Avery Fisher Hall at Lincoln Center by the New York Philharmonic, featuring Martha Agrerich on the piano, and a Broadway play.

There will be an exclusive city tour led by a local expert, the grounds for sculpture in New Jersey, free time to explore and shop, delicious meals including The Tavern on the Green and much more.

The fee of \$1,490 per person, double occupancy, includes airfare, hotel, coach transportation, tours, admission fees, professional escort, most meals, taxes, gratuities and more. A nonrefundable deposit of \$100 is due with reservation.

For additional information, call About Tours at 630-545-0904. Reservations will be accepted until Nov. 30.

## From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford Lincoln Mercury

It's been a month of new arrivals for the Wickstrom Family! We welcomed to the family our newest grandchild—and first grandson—Joshua James Wickstrom on Sept. 15. Joshua joins sisters Grace and Ella and proud parents Amy and Richard. I can't tell you how happy I am to have been blessed with such beautiful grandchildren! Do all grandmothers say that, or am I the only one?

We celebrated the arrival of **Wickstrom Lincoln Mercury** to Barrington last month. Our **Grand Opening Sale Event** lasted through Nov. 1. But we welcome your visit anytime! Not only has the entire building been given a fresh coat of paint, it's been given a whole new look. Lincoln Mercury has high design standards for its facilities, and we've worked hard to be the best-looking Lincoln Mercury dealership you will ever see! We welcome former customers and new ones

too. I think you'll be more than a little surprised at what you see!

With fall in the air, it's a perfect time to check out our **Fall Maintenance Special** at our Ford Service Department. We'll make sure you're prepared for the weather changes that are inevitable.

### Fourth Annual Senior Fair

The Fourth Annual McHenry County Senior Fair hosted by **WCLS** and the Woodstock Chamber of Commerce and Industry was a huge success! This year, the fair was held "under the big tops" in Blain's Farm and Fleet parking lot on Route 14 at Lake Avenue.

"The change in venue from the fairgrounds to Farm and Fleet was a really good move and created a festive atmosphere," said LeeAnn Atwood, vice president of marketing and planning at **WCLS**.

Over 1,500 seniors enjoyed songs from the '40s and '50s performed by the Vito Buffalo Orchestra as well as performances by Borderline, a strolling barbershop quartet. **WCLS'** own Jim "The Painter" Bethke, a member of the Lake Geneva Country Gentlemen Chorus, performed with the group.

Sixty-two local businesses exhibited their products and services in two large expo tents. Mercy Health System, a Golden Sponsor of the event, conducted an

eight-station health fair with a variety of screenings that were free to attendees.

Games were enjoyed throughout the day with more than 100 prizes, donated by local merchants.

The first 750 guests received a complimentary Plum Garden lunch buffet provided by McHenry County Board members Tina Hill and Perry Moy. Lemonade and ice cream were sold as a fund-raiser by the Woodstock Early Learning Center. A.G. Edwards provided coupons for free lemonade to attendees and later reimbursed the learning center as a donation.

Blain's Farm and Fleet was the location sponsor. They held a sidewalk sale during the fair.

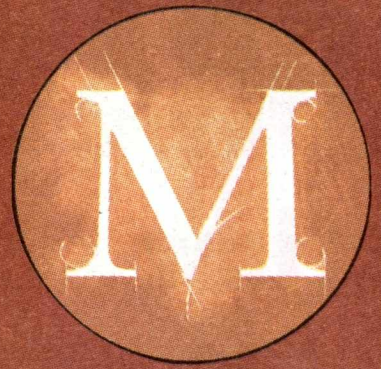

"This is the first time we have seen our parking lot this full," said Russ Berg, store manager.

Golf carts supplied by the Woodstock Country Club were used to transport patrons between the store and the fair.

Other sponsors were the *Northwest Herald* and *Senior News* who provided free advertising prior to and following the event.
