Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

Clear Reflections has provided 20 years of service at the same location.

September, 1996

Dear Reader,

A Day at the Races proved to be a great success, thanks to the event chair Ruth Getz-Koval and co-chair Fran Davis. Clearbrook Center's recent fund-raiser raised over \$42,000 for the not-for-profit agency which serves over 650 adults and children with developmental disabilities. Four hundred guests filled the beautiful International Room at the Arlington International Racecourse where gourmet dining and a fun afternoon was enjoyed by all.

Mark your social calendars... it's October 4 for the annual "Nutcracker" Gala to be held at Wynstone Golf Club this year. A "magical land" with glitter snow, stars and decorated pines will set the mood. The nutcracker doll will come alive and cavorting mice will lead you to extraordinary prizes. Dancers will perform as desserts from the "Kingdom of Sweets" tempt you. This delightful gala will benefit the Barrington Youth Dance Ensemble (BYDE) which annually presents the beautiful ballet "The Nutcracker" every winter. This year performances will be held Friday, December 6 at 7:30 pm, Saturday, December 7 at 2:00 pm and on Sunday, December 8 at 2:00 pm at Barrington High School's Richard C. Johnson Auditorium.

Until next time, may all your thoughts be sunny.

With warm regards,
Glenn McMonigal

About Our Cover

Models DeDe Zwilling, Barrington, and Ruth Ann Casey, Inverness, prepare to take the runway for the PHD Holiday Fashion Show.

PHD, a Palatine-based crisis pregnancy center, celebrating its 25th Anniversary Year is planning a holiday fashion show and dinner for Wednesday, October 30. This event is the final event of their celebration year with the theme "Tis the Season" at the Arlington Park Hilton on Euclid and Route 53. The annual fashion show has grown in attendance over the last ten years and the move to the Arlington Park Hilton should solve some overcrowding experienced in the recent past.

This year the Center will "go all out" to cap off the 25th. Classic Model Productions of Barrington has graciously agreed to lend their talents to the success of this show. SCS Productions of Roselle will provide professional lighting, music and staging. Participating stores are all from the Barrington area: A'L'Amour, Peter Daniel, Sundance and Tommy-Terri.

Co-Chairwomen for the event, Lorraine Dittrich and Georgine Reynolds, Prospect Heights, are pleased to acknowledge their committees: Carole Malone, Inverness, and

Judy Hannon, Hoffman Estates, basket prizes; Ann Butler and Joan Andersen, Barrington, invitations and program; Ann Mueller and Sally Auer, Palatine, ambiance; Cathy Vincus, Barrington Hills, publicity and fashion show.

The dinner, fashion show and gift prizes will anticipate the coming holidays allowing guests to begin their holiday purchases in a party atmosphere celebrating the Center's work with women and families who experience crisis or unplanned pregnancies. All proceeds will be geared toward supporting the Center's efforts to begin to develop multiple interventions for the coming year some of which are pregnancy prevention programs for the high school and junior high school student, research and development of grandparent programs and support groups and initiatives for the fathers of the infants.

Tickets for this event are \$40 per person and will go on sale September 15. Those interested in tickets can call the Center at 359-4919 and ask for Cathy Vincus.

Chicago Designers Feature Fall Fashions In Support Of Cancer Research

Cancer Treatment Research Foundation (CTRF) has announced the final selection of Chicago-area designers to spotlight fall fashions for men and women at the organization's annual premiere fund-raising event. Returning on the heels of last year's successful show, SULKA will again feature casual, business casual and evening wear for men. Women's lines will be shown, from classic to contemporary looks, by three leading area houses: Patricia Rhodes, Luca Luca, and Nicole Miller.

Designs for Hope II will be held on September 15, 1996 from 11:30 a.m. to 2:00 p.m. at Tudor Oaks estate in Barrington Hills, the home of Richard J. and Alicia Stephenson. The event is intended to raise funds to support CTRF's patient-sensitive

research and educational programs aimed at speeding promising innovative treatments to cancer patients' bedsides.

Guests at *Designs for Hope II* will be treated to poolside entertainment, followed by luncheon and an afternoon showing of couture collectibles and fashion. Guests will also have the opportunity to bid on a number of silent auction and other prizes, including popular vacation destinations, sports memorabilia and designer originals.

Tickets for the event are now available through CTRF for \$125 per person. Complete tables can also be reserved. Contact Susan Mayber or Beth Foley at Cancer Treatment Research Foundation, (847) 342-7450, for tickets or additional program information.

Ms. Elizabeth A. Bertucci (left) and Miss Illinois, Tania Gibson (right), enjoy Clearbrook Center's July 25th "Day at the Races," which proved to be a great success.

Clearbrook Center's recent fund-raiser, *A Day at the Races*, held at the Arlington International Racecourse proved to be a great success. Thanks to the efforts of event chair, Ruthie Getz-Koval, and co-chair, Fran Davis, more than \$42,000 was raised for Clearbrook Center's important programs. The beautiful International Room was filled with about 400 people who came out to enjoy the day. The event featured an open bar, a full card of races and an elaborate buffet lunch, including prime rib, roasted chicken with wild mushroom sauce, fresh pasta salads, and a full dessert buffet.

People from all around the Chicagoland area turned out for the event. Among the attendees were honoree, Elizabeth A. Bertucci, of Chicago and Miss Illinois, Tania Gibson, of Barrington. Ms. Bertucci, a lifelong Chicagoan and President and CEO of the Bertucci Agency, was honored at the event for her dedication to area charitable organizations, including her present community involvement as President of the Miss Illinois Pageant, Inc.

Six races were sponsored by Clearbrook Day at the Races attendees. Among the sponsors were Phyllis and Robert Jaffee, Leonard Koval, Barbara and Jack Keisman, Myrna and Don Lord, Jacquie and Allen Coleman, Audree and Charles Dann, and Allstate Life Insurance Company.

"People really seemed to have a wonderful time," said Ms. Getz-Koval, event

chair. "I enjoyed seeing people lingering after all the races were finished, meeting new people and catching up with old friends."

Proceeds will benefit Clearbrook Center, a not-for-profit agency serving more than 650 adults and children with developmental disabilities. Clearbrook serves individuals from 78 Chicagoland communities, including the City of Chicago.

Ms. Ruthie Getz-Koval, event chair, oversees prizes at Clearbrook's "Day at the Races." Among the more than 40 prizes were gift certificates to many Chicagoland restaurants, spas, hotels and sporting events.

Harvest The New Releases At Woodland Art Gallery

It's harvest time! Your golden opportunity to own a masterpiece, a classic limited edition print from a modern master.

The scene is set—the last glow of winter sunlight is fading, transforming the lake shore into a ribbon of gold. Silhouetted against the silent snow, a band of hunters emerges. It has been a variable winter, but the last dusting of snow on top of the packed, icy blanket has made travelling simpler so the wolves can hunt easier. The cedar grove where the deer tend to “yard up” is empty. The deer are moving. The wolf pack must get underway if they are to eat tonight. As dusk falls, you can see where the current has opened up the water. Perhaps the deer are on the other shore. The life of the wolf is at best certain.

Just released is Robert Bateman's long-awaited *Edge of Night—Timber Wolves*, only the third wolf work in eight years by this renowned artist. Destined to be a sell out, reserve your copy now at **Woodland Art Gallery and Frame Shoppe** where they feature the largest collection of Bateman prints in the Midwest.

Also available at the gallery is the latest work from artist David Armstrong, *Autumn Porch*. This limited edition print represents a true love and respect for what's simple and pure, elevated to a reverential state. Who else but Armstrong can make a bas-

New Board Officers To Head Barrington Youth Services

Barrington Youth Services recently announced newly elected Board Officers at their annual meeting held on May 22 at the Barrington Area Library. Barrington Hills resident, David Thompson, owner and president of Specialty Programs Limited, a consulting firm specializing in expertise in insurance programs and marketing, was elected to a two-year term as Board President. Thompson, eager to guide BYS through the next two years, stated that he is pleased to contribute his management skills to a vital local organization.

"The youth and families of Barrington deserve the highest quality mental health

services available. BYS makes those services available to them," said Thompson. "Our philosophy is to tailor our programs to meet the individual needs of each segment of our seventy two square-mile service area. Achieving this goal is an ongoing challenge, but we're fortunate to draw on the opinions and experiences of local organizations, churches and school personnel. These people keep BYS alert and help us to meet the mental health needs of our community."

First Vice President Chris Pepper, a longtime Barrington Hills resident, is actively involved in many community organiza-

tions. Pepper, also a member of the BYS Auxiliary, chaired this year's event raising more than \$90,000 to fund programs and services for Barrington area youth. Her commitment to fund-raising and program implementation have made her a valuable asset for the local agency.

Serving his fourth year on the BYS board, Barrington Hills resident George Gill, was elected second Vice President for a term of two years. Gill, CEO of Milk Specialties Company, and his wife Sally are active members of the Barrington United Methodist Church.

Local Realtor Joanne Mitchell will again act as Board Secretary with Lake Barrington Shores resident Edward Puls, CFO for Weekender Casual Wear in Buffalo Grove, serving as the Treasurer for the agency.

In addition to the election of Board Officers, the BYS Board of Directors also pre-

sented certificates of recognition to local middle school students who were nominated by their teachers to participate in the BYS Peer Leadership Program and students who assisted the BYS in implementing peer transition groups, a program that orients fifth grade students with the concept and activities of middle school life. Students from Barrington Middle School's Prairie and Station campuses receiving certificates included: Margaret Allendorph, Nancy Jean Bachman, Stacy Barton, Leslie Boehm, Louise Chang, Carolyn Ciotti, Craig Dannegger, Kristin Davis, Jassamyn Dockery, James Downey, Tiffany Freeman, J.D. Sapphire September Birthstone

Photo by Joyce Mitchell,
Mitchell Studios

Mitchell's Jewelers, as always, wants you to know as much as possible about gems and jewelry. So here is some information about sapphire, the birthstone for September.

Sapphire is of the corundum family and consists of any color except red (ruby). Red, light red and red with a violet overtone is always ruby. All other colors of corundum are sapphire. The word Sapphire is derived from the Latin word Sapphirus, Greek (Sappheriros), and Hebrew (Sappir). Historically, sapphires have been called many names. Sapphires was the word Romans

used which meant Lapislazuli, green sapphire was called "emeralds," and purple sapphire was called "amethyst."

Sources include Burma, Thailand, Sri Lanka, Africa, Australia and U.S. (Montana). Kashmir, India produced some of the most beautiful sapphires in its day, but little since World War II.

Colors include blue in various hues, colorless, pink, orange, yellow, green, purple and black. The hardness is 9 (same as ruby), toughness; good. Sapphires are commonly heat treated to produce color in colorless sapphires or to intensify color, make color uniform or to lighten stones.

Star Sapphires are sapphires that are never completely transparent, because they must have enough silky, needlelike inclusions to produce a star. They occur in almost every color ruby and sapphire that exist, although orange and yellow are almost unknown and green is very rare. The most common is black. Today most of the Star Sapphires bought in jewelry stores are synthetic (most colors other than black which is usually genuine).

At **Mitchell's Jewelers** we will take the time to show you what you need to know to buy quality gems and jewelry. So don't miss out on **Mitchell's Jewelers Birthstone of the Month Sale**. Save on all sapphire jewelry and loose stones during the month of September, at **Mitchell's Jewelers**, 10 North Dunton in downtown Arlington Heights.

Garden Club Activities

The September meeting of The Green Thumbs Garden Club of Barrington will be held on Monday, September 16, 1996 at the Barrington Public Library at 12:30 p.m. New members are welcome. Please call 526-1118.

Our speaker, Jerry Sullivan, member of Cook County Forest Preserve District, Outreach Coordinator, will present a program on Ecological Restoration.

Two hundred fifty members of The Gar-

den Clubs of Illinois attended the summer meeting and luncheon on August 12 at Bull Valley Golf Club near Woodstock. A special event was "Grace Notes," a flower show featuring wonderful miniatures and small designs. Dwarf and regular size horticulture exhibits from members' gardens were also judged by panels of judges that afternoon. Twelve Green Thumbs members enjoyed the day and were awarded eight ribbons for their horticulture exhibits.

Designer Labels At Half The Price

Treasured Twice Boutique is an upscale ladies consignment shop offering consignment, resale, name brands and designer labels.

Owner Dawn Phillips, a Barrington resident, opened her boutique in Barrington 11 years ago. Dawn chose resale over retail because second hand clothing is a less expensive business to launch. She, herself, had patronized resale shops and feels other shoppers as well are dollar conscious. Even if the economy is bad, Dawn feels resale shops do well. Her feelings proved correct, having a thriving business these past 11 years.

Quality clothing at **Treasured Twice** is priced at about half of what it cost new. Being on consignment, once an item is

sold, the revenue from the sale is split evenly between the shop and the clothing owners.

Ms. Phillips is very choosy about what she sells—it must be high quality merchandise. No polyester leisure suits are sold here!!

Those who sell their clothing on consignment do so for a number of reasons. Perhaps they have gone up in size or gone down in size. Or, perhaps they bought an outfit for one special occasion and don't wish to wear it again.

If you are a careful spender and want nice labels and quality clothing, visit **Treasured Twice**, located at 612 S. Northwest Highway in Barrington or **now at their other new location in downtown Crystal Lake.**

Keep It Simple And Classic With Frames From CLIX

By Gal Friday

Face it, not all of us can be gifted in the area of design. Now there are those, like me, who have impeccable taste. I've always

fancied myself as kind of a female Cary Grant. Cary looked so together, even when he was being shot at by a crop duster in the middle of an Indiana corn field.

But, hey, not everyone can be like Cary and me. That's why you've got to get over here to **CLIX photographs & savables**. We have beautiful frames, photo albums, and accessories that will make your home look chic and fa-a-abulous.

Let's start with the new shipment of frames (see drawings) that combine simple with elegant to show your photographs at their very best. They are a charming blend of country warmth and clean design.

Maybe you like old fashioned designs, We have "silver" pewter that looks just like sterling but you don't have to polish it. Each piece is an authentic reproduction or adaptation of an original antique. They are tiny, timeless and VERY collectible.

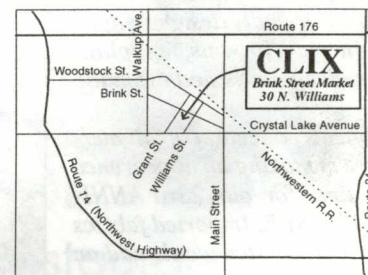

How about velvet or faux lizard albums

edged with details in rich pewter? Or a brocade wedding album covered with scalloped corners? Each hand-crafted piece just oozes with good taste.

In the "what-the-hecks-that-got-to-do-with-photography" category, there are candles... all naturally scented and slow burning. Each little votive can fill a room with its gentle fragrance at least seven times. With names like "Rejuvenating Rain" and "Summer Savory," they just SOUND like they smell good.

But let's never forget the real deal, folks... VACATION PHOTOS. Dress them up in one of our many albums and maybe the neighbors won't hate to look at them so much.

At **CLIX photographs & savables** you'll have choices, lots of choices. So come on over and **Get CLIXed**.

We are here. Come see us!

A Bus Tour To St. Procopius Abbey Scheduled For Art Associates

St. Procopius Abbey in Lisle and the McDonald Corporate Center in Oakbrook are the destinations of the fall bus excursion of the Barrington Community Associates of the Art Institute of Chicago on Tuesday, September 24.

In designing St. Procopius Abbey, Edward Dart followed the monks' request that the church not be designed as a status symbol with ostentation, cathedral monumentality, and romantic historicism which are often associated with church structures. Extensive use of brick, quarry tile, and wood help create an atmosphere of peace,

restraint, and moderation necessary for the quiet lives the monks lead.

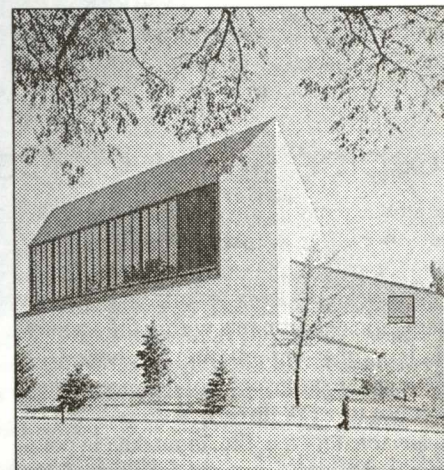

The Chicago Chapter of the American Institute of Architects presented the abbey with awards in 1971 and in 1993. In 1973 the national AIA selected the abbey as one of the 12 outstanding buildings in the United States. Edward Dart died in 1975 at the age of 53 as his 74-story Water Tower Place on North Michigan Avenue was nearing completion.

The Reverend Michael Komechak, who worked closely with Edward Dart on the programming and design of the abbey and

is now curator of the art collections at the abbey, will serve as guide for the tour.

In the afternoon participants will receive a tour of the diversified contemporary art collection of the McDonald Corporate Center in Oakbrook. Lunch in the Lodge there, catered by the Hyatt, is included in the tour. Busses leave Langendorf Park Parking Lot at 9 a.m. Cost of the trip is \$55 for members and \$65 for nonmembers. For reservations, please phone Sue Johnson at (847) 381-4551.

Membership in the Associates is open to all residents of the northwest suburbs.

St. Procopius Abbey, designed by Edward Dart, will be visited by the Art Associates.

Adding Whimsy To Reality

Silk 'n Things of 308 Main Street in Barrington presents, Alice Jay Tate, Custom Decorative Handpainting on Friday, September 13 and on Saturday, September 14. Come and see this decorative innovation.

A graduate of the University of Delaware, with a degree in art, Alice taught, painted and sold watercolors, held one man shows and owned a shop. Her area of concentration was botanical and wild life. In describing her specialization Alice commented "although usually realistic you'll find the gentler side of nature—pastoral English gardens with a touch of Whimsy."

The Farmers Market is every Saturday in an outbuilding in the parking lot behind their store. It's a friendly atmosphere where people gather to exchange recipes and get the freshest vegetables and fruits.

Pick up some wild flowers and stop in **Silk 'n Things**. There is always something new.

Time to Plan for Next Year's Alaska Cruise

Most people plan an Alaskan cruise a year in advance, although last-minute cabins are sometimes available. In keeping with that tradition, Princess Cruises has unveiled details of its 1997 Alaska season, the highlights of which are the opening of a new wilderness lodge next to Mt. McKinley and the deployment of their two newest Princess ships—Sun Princess and Dawn Princess—across the Gulf of Alaska. Next summer Princess says that it will offer more sailings across the Gulf of Alaska than any other line and will carry one out of every two passengers choosing this popular itinerary. With the debut of Dawn Princess in this market for its inaugural season, Princess will again offer more cruise itineraries and weekend departures than the competition. Six ships will offer a total of 100 sailings on nine different cruise itineraries and weekend departures than the competition. Six ships will offer a total of 100 sailings on nine different cruise itineraries ranging from seven to 17 nights. For a free copy of Prin-

cess' 1997 Alaska brochure, see **Carlson Wagonlit Travel**.

Department 56 Swap 'N' Sell And "Dickens Of A Dinner"

"Twas months before Christmas at Seasons of Long Grove. Mrs. Crachit was busy with pots on the stove. Bob Crachit was busy hanging garland with wire, while the children practiced carols to sing by the fire. Tiny Tim smiled, for he knows he won't get thinner, he knows it is time for our 'Dickens of a dinner.'"

That is right! It is time for **Pine Cone Christmas Shop's** annual **Department 56 "Dickens of a Dinner"** at **Seasons of Long Grove Restaurant**. The popular event will take place on the evening of **Friday, September 27**. This wonderful gala will start at 6:30 p.m. with complimentary hors d'oeuvres, hot apple cider and cash bar. At 7:30 p.m., the feast continues with an endless buffet including the following: roasted turkey with sage and onion stuffing, baked trout with lemon caper butter, roasted thyme potatoes, Scottish salmon and endive salad, and many other delectable treats. Complimentary wine will be served with the dinner. For the piece de résistance, our master chef will create "Bouche Noel" Yule logs with raspberry sauce.

To top the evening off, at 7:30 p.m. we will have a very special guest speaker: **Joan Serena—The Vice-President of Consumer and Retail Marketing for Department 56**. She will be giving a presentation on display with slides, answering questions and maybe tease us with future plans of the villages. Throughout the evening, there will be

door prizes given away. The cost of the absolutely delightful "Dickens of a Dinner" is only \$30 per person with tax and gratuity inclusive. The price of dinner also includes a chance to have the opportunity to purchase the numbered limited edition "**Ramsford Palace**" of Dickens' Village. "Usual And Customary" Fees And Dental Insurance

by Dr. Raymond Kotz

Insurance companies use the term "usual and customary fees" to compare your dentist's fees with their coverage allowance. These fee coverages are derived from their own data base including significant numbers of dental offices which practice some form of discounted dentistry, i.e. managed care.

There are only a few ways to offer lower fees while making the same profit. One is to use less expensive, less experienced employees (and usually less durable or aesthetic materials). Another is to see large numbers of patients. If fees are lowered about 30% the average dental office would have to see 42% more patients—increasing their office hours by nearly the same percentage.

The third way to decrease overhead is to reduce the time spent with each patient. Adequate treatment and preventive education time are probably the most important aspects of quality dental care. When your insurance company writes you that your dentist's fees are higher than "usual and custom-

ary," don't be misled.

If your dentist is conscientious about providing quality dentistry, his fees must be higher than "usual and customary." Your dentistry will look better and last longer—it will be well worth the extra investment.

Shawna Lewis Wins National Certification

Shawna Lewis, CMM of **Gary S. Churchill, MD**, Barrington, IL is one of 51 candidates to successfully pass the PAHCOM national certification examination administered at the Stouffer Austin Hotel in Austin, Texas on May 8, 1996. Shawna now joins 656 Certified Medical Managers throughout the country, and becomes one of only 23 in the state of Illinois.

The Professional Association of Health Care Office Managers (PAHCOM) administers the examination to test the skills of office managers of small group

and solo practice physician offices throughout the nation. The comprehensive three-hour examination evaluates the candidate's knowledge of sixteen subject areas that include practice accounting, third party reimbursement, health care law, risk management, and a host of other topics that are necessary to run an effective and efficient office. The mixture of multiple choice and essay questions challenges candidates to be creative in resolving conflicting demands in today's increasingly complex office practice environment.

Keep That Winning Smile

by Dr. Anna Pelak

Why do teeth discolor? Some teeth are naturally too pigmented or stained as they develop, which can cause discoloration. Exposure to tea, coffee, juices, colas or tobacco account for much of the darkening as we age. Sometimes tooth discoloration happens from minerals, antibiotics (tetracycline) or an excess of fluoride taken internally during tooth development. Other causes can be old fillings, tooth nerve damage and also trauma to teeth. Upon examining your teeth, your dentist can tell you what was the cause of your problem.

How does cosmetic bleaching remove stains?

Our Tooth Whitening System will remove most stains with a gentle sustained release action that will oxidize (bleach) stains within your teeth. Your tooth structure remains unchanged. Experience and research show that 90-95% of patients treated experience some level of tooth whitening. Porcelain restorations and white fillings do not whiten with cosmetic bleaching.

What is the treatment procedure?

Most patients use the bleaching trays while they sleep. Your dentist will decide how many nights your treatment will take for maximum results. Most patients will need to bleach for only three to eight nights. In some cases, your dentist may recommend bleaching during waking hours and possibly for shorter time periods.

Your dentist will examine your teeth and gums to assure good oral health. Old fillings may need to be replaced and/or decayed areas treated and filled. An impression of your teeth will be taken to guarantee proper fit of the custom bleaching tray fabricated by your dentist. The thin, soft plastic tray provides sufficient comfort to

allow bleaching while you sleep. Once the tray is made, your dentist will explain how to use the bleaching gel.

Other Information

Research and experience show that the whitening effect from the bleaching treatment usually lasts for years. Teeth may darken faster if exposed again to staining products such as tobacco, coffee or juices. However, the teeth will probably remain significantly lighter than if no treatment had been done. Your dentist may recommend a toothpaste to help minimize the formation of external stains on your teeth. Touch-up bleaching is available if you and your dentist feel it is appropriate. Two to four nights of bleaching performed at six month to four year intervals may be all that is necessary.

Some difficult, darker stains may naturally require longer treatment than some milder stains. Depending on your teeth and type of staining, results will vary. Your dentist can explain the type of results you can expect from treatment. Some patients experience increased tooth sensitivity to cold while using bleaching products. This will disappear in one to three days after interruption or completion of the treatment. Sometimes your dentist may prescribe a fluoride gel.

For more information, please call the office of **Dr. Anna Pelak**: 647 First Bank Drive, Palatine, IL 60067. (847) 358-2477.

Endermologie™—The New Technique To Reduce The Appearance Of Cellulite

Local physicians at **Valley Plastic Surgery Center** are among the first in the nation to offer a proven technique which reduces the appearance of cellulite. This treatment was developed in France about 15 years ago and has become one of the only successful ways to reduce the appearance of cellulite without surgery.

The non-invasive, non-surgical procedure is called **ENDERMOLOGIE™**. This deep massage technique increases circulation to the superficial layer of fat and skin, which mobilizes the fat just under the skin, minimizing the appearance of cellulite and improving skin tone. Significant improvements in body contouring can occur taking years off your figure. Weight losses of 6-9 lbs. can occur during the 15 treatment procedure in conjunction with moderate exercising and a sensible diet.

Give our office a call today at **847-608-7506** for a free consultation and demonstration, we are open Monday-Friday 10AM-8PM and soon to be open Saturdays.

So You Think Taking A Pill Is The Answer?

When most people think of fitness, they think of working out to achieve a better body. Have you ever thought of exercise and fitness as health preservation or disease prevention?

Research has continually shown that exercise and healthy eating can prevent or alleviate symptoms of many medical conditions such as heart disease, high blood pressure, high cholesterol, obesity and depression. However, millions of Americans are being treated for these diseases by the use of pills which may have serious and/or annoying side effects. Many people who have existing medical conditions and begin a safe exercise program, find that they are able to take a milder dosage of medication or discontinue it altogether. Everyone is different and should work with their doctor through this process. It may be easier to take a pill, but have you ever wondered what the side effects of some of these pills are?

Some of the side effects of high blood pressure medication range from nausea, irregular heartbeat, tiredness, diarrhea, weight changes, drowsiness, fatigue and constipation to depression, impotence, hallucinations and decreased sex drive.

Some of the side effects of cholesterol controlling medication range from belching, bloating, diarrhea, nausea, to rapid

weight gain, heartburn and severe stomach pain.

Some of the side effects of antidepressants range from constipation, nausea, indigestion, fatigue, weakness, nervousness, anxiety, excessive sweating, insomnia to hallucinations, irregular heartbeat, jaundice, hair loss, heart palpitations, visual changes, rapid weight gain and decreased sex drive, just to name a few.

Amphetamines are being used in some cases to treat obesity. Some of the side effects of this medication are irritability, nervousness, euphoria, dizziness, reduced alertness, headaches, and it is habit forming.

Of course, in many cases the benefits of the pills outweigh the side effects. This article is not suggesting that a person discontinue the use of their medication. You always need to check with your doctor before changing your prescription or discontinuing it.

Especially For Men

by Carol Childers, C.N.

Research shows that men are at a 45% greater risk than women of dying from cancer. Nutritional research shows that some common foods can help to prevent some kinds of cancer.

Garlic is a potent cancer fighter reported scientists from the Sloan Kettering cancer center in New York. Research shows that the compounds in garlic block carcinogens linked to colon, stomach lung and liver cancer.

Hot peppers contain capsaicin, a hot oil which prevents carcinogens from binding to DNA. Careful, not too much hot pepper, it may set an unprepared digestive system into a frenzy.

Red tomatoes contain a pigment called lycopene, which scavenges free radicals, thus inhibiting cellular destruction.

Soy beans contain genistein. Consuming soy foods, especially tofu and tempeh are ideal ways to benefit from the protective powers of genistein.

Cruciferous vegetables, include brussels sprouts, cabbage, kale, collard greens, broccoli and mustard greens contain compounds which induce protective enzymes. They should be an important part of your regular diet.

Green tea contains polyphenols which inhibit the P450 enzyme system in the liver, which is responsible for the production of carcinogens.

The following herbs have been used by men for centuries:

For men who keep a demanding work schedule, Siberian ginseng may be the most

valuable of all herbs. Studies have shown that consumption of Siberian ginseng enhances immunity, increases muscular strength, improves the quality of sleep, helps the body during times of oxygen deprivation, enhances cardiovascular function, improves athletic performance and sharpens mental alertness.

Ginkgo enhances short term memory, improves concentration, and helps in some cases of depression, tinnitus and arterial disease.

Saw palmetto improves symptoms of BPM including dysuria, nocturia and poor urinary flow.

With a little help from natural aromatic essential oils, you can relieve tension from stress, and make your day easier and more enjoyable. When you find your mind cluttered from pressure close your door and sniff the vapors of mint and ginger. After a long hard day, mix one drop each of lavender, rosewood, chamomile and ylang-ylang, add a few drops of water and smooth the mixture onto your face, lie down with your shoes off and relax for fifteen minutes.

Here's a quick way to help reduce or eliminate a beer belly. Not all calories are equal. Beer not only contains calories, but it contains a type of calories that contribute to the rapid production of fat. The next time you watch a football game, have a big bowl of unsalted popcorn.

In closing don't forget your face. After shaving, instead of reaching for a petrochemical skin bracer, apply toning liquid. Use a facial scrub and a good moisturizer.

Barrington Lyric's Opera Outreach

As part of Barrington Lyric's Outreach Community Education Program, the Chapter will sponsor four evening lectures in the Meeting Room of the Barrington Area Library. Each lecture will feature a different opera from the upcoming season at Lyric Opera of Chicago. The lectures are free and open to the public. New as well as seasoned opera-lovers are welcome. All lectures are from 7:00 - 8:45 p.m. on the Wednesdays listed below. Refreshments will be served by Bonnie Westphal, Hoffman Estates, Barbara Keegan, Schaumburg, and their committee. For more information, call Mary Wajda, Palatine, 847-991-1207.

Il Trittico, on September 18. Lecturer is Michael Altman from Evanston. Giacomo

Puccini's three one-act opera presents three facets of love and death. First, sensual love and jealousy lead to death; then, to be reunited with her long lost child, a mother commits suicide; finally, in his only comedy, Puccini shows what can happen when love of money rears its head after a rich relative dies.

The Consul, on October 16. Lecturer is Joyce Altman from Evanston. Gian-Carlo Menotti's 20th century drama could be out of today's newspapers: A family of political refugees is doomed at the border when consulate red tape prevents them from emigrating. Hopelessness leads to tragedy.

Un re in ascolto, on October 23. Lec-

turer is Kurt Youngmann from Highland Park. Luciano Berio's adaptation of Shakespeare's *The Tempest*: as he approaches death, the theatrical "king" loses control over his realm, auditions singers in effort to recoup, but, in the end, finds it doesn't really matter.

Die Zauberflote (The Magic Flute), on November 13. Lecturer is Barrington

Lyric's own Greg Vogel from Elgin. Wolfgang A. Mozart's masterpiece of magic and mummery, dragons and dinosaurs, and genies who whiz through the air... dazzling as a gem of pure genius—and an opera fan's ultimate joy!

For inquiries on the Barrington Chapter, please phone Maribeth Totten at 847-202-1753.

Program Chair, Adele Walker, has been hard at work over the summer assembling an exciting array of programs to entertain and educate members and their guests who attend the monthly meetings. For those who may not know, the Garden Club of Inverness meets on the third Thursday of each month at Holy Family Parish, 2515 West Palatine Road, Inverness, at 9:30 a.m. The first meeting of the club year will take place on Thursday, September 19, 1996. The program is entitled "Daffodils to Know and Grow" by club favorite Laurie Skrzenta, who returns this year to discuss these hardy bulbs which are true harbingers of spring. Planted in the fall, daffodils emerge from the soil in early spring to the delight of winter-weary gardeners. A plus to planting these bulbs is that they are immune to most pests, particularly, rabbits, squirrels and chipmunks.

Laurie Skrzenta serves as a Landscape Design, critic, garden consultant, member of the American Daffodil Society and Presi-

dent of the Midwest Daffodil Society. She operates a mail order business which specializes in peonies, hostas and daffodils. At the meeting, Laurie will have some of the more unusual varieties of daffodils available for purchase.

A surprise announcement came to the Garden Club of Inverness over the summer. They received word that their Publicity Press Book for 1995 was presented with a Second Place Certificate of Commendation from The National Council of State Garden Clubs, Inc. This follows a First Place Award in Central Region from the Garden Clubs of Illinois, Inc. at the State level. Congratulations on continued achievement.

For those who like to plan ahead—mark your calendars! The Garden Club of Inverness Christmas Luncheon will be held on Wednesday, December 4, 1996, at the beautiful Biltmore Country Club in North Barrington. Do hold the date. More information will follow in the next few months.

Hope to see many familiar faces at the first meeting on September 19. Prospective members are always welcome to attend. Come and see what we're all about. We enjoy growing friendships as well as gardens.

Julio's Celebrates Their 5th Anniversary With Grand Opening

When Cindy and Julio Ramirez opened the doors of their tiny cafe at Lakeview Plaza in Lake Zurich, they wondered if they would be able to fill the seats.

It didn't take long for them to get their answer. Over the past five years, **Julio's Latin Cafe** has become so well known for their outstanding cuisine and friendly atmosphere, that they have outgrown their current location. However, they won't be moving anywhere, they'll simply be expanding.

During the month of September, **Julio's** will be remodeling to expand the dining room. They plan to be closed for approximately one week in late September and will reopen with a **Grand Opening Celebration** in early October. "We will offer a number of different promotions during our Grand Opening, including South American wine tasting and tequila sampling. We want to celebrate with our clientele," said Cindy Ramirez. "The expansion of the dining room opens up lots of new opportunities for business lunches, family gatherings and holiday parties. In the past, there just wasn't room to accommodate a large group."

The menu at **Julio's** includes excellently prepared dishes from countries throughout South America and the Caribbean including Mexico, Cuba, Brazil, Argentina and Chili. (A children's menu is not offered.) If you are in the mood for

Or, try **Julio's** specialty, a Caipirinha (Kai-par-eeen-ya), the national drink of Brazil. The drink is a blend of Cachaca rum with lime juice and sugar.

Enjoy live entertainment on the weekends with the Dan McIntyre Jazz Group performing on Friday evenings and Paulo Garcia, Brazilian recording artist, on Saturday evenings.

Now is the perfect time to reserve **Julio's Latin Cafe** for your private parties and corporate holiday gatherings. Call Cindy Ramirez for further information and reservations at (847) 438-3484. Benefit Golf Outing Nearly Doubles Proceeds

OMNI Youth Services Board of Director, Linda Babl poses with NFL Hall of Famer Ted Hendricks who golfed to support OMNI.

Mark Giangreco, WLS-TV Sports Anchor, Murray Bannerman, Tim Breslin, Wendell Davis, Ted Hendricks, Eric Soderholm and Steve Trout and American Airlines helped make OMNI Youth Services Six Annual Wynstone Classic Golf Outing the biggest success in the outing's history, raising approximately \$75,000—\$35,000 more than last year—to benefit kids who otherwise could fall between the cracks.

The outing, sponsored by American Airlines, had over 100 supporters and 148 golfers, with more who remained on a waiting list.

The event committee attributes the boost in income to the outings first live auction that featured a Radisson Seven Seas Cruise worth \$10,000 and sold for \$9,000, and a NBA Championship Bulls jacket that sold for \$1,800, and to the fact that they were

Asset Transfer

by Sharon L. Keller, J.D.

Since the unfortunate accident of TWA Flight #800 I have received many calls requesting information on the necessity of Wills and Trusts and the consequences of not having either. The Olympic bombing incident further evidenced the possibility of terrorism at any time and in any place. As a result, it is imperative to have your affairs in order. Because of the numerous calls concerning this topic, I thought I would talk again this month on the basics of Wills and Trusts.

If you do nothing to plan for the disposition of your assets, the state in which you reside will do it for you. Under the Illinois Probate Act, the surviving spouse is entitled to one half of the decedent and the decedent's descendants *per stirpes* will be entitled to the other half of the entire estate. If the decedent leaves no descendants and no Will, the surviving spouse is entitled to the entire estate.

A Will is a legal document that distributes your property in accordance with your wishes. It does not control jointly-held property or assets that pass directly to a named beneficiary. A Will, when combined with a Trust, can provide your family financial security through asset management, satisfactory property distribution and estate-tax planning.

A Will contains instructions for distribution of all the assets you currently own and also those you may eventually acquire. It is important to prepare a Will whether you are single or married, with or without children, and without regard to the size of your estate.

Trusts are written legal agreements between two parties for the benefit of a third, such as your spouse or children. In a Trust, assets are transferred to the Trustee for pro-

tection, management and distribution to the beneficiaries. A Trust accumulates and distributes income and principal from your assets and can pay out income to the beneficiaries according to your directions. Securing your assets in a Trust is convenient and can provide continuity for your family upon your death or incapacitation, shielding them from additional paperwork and the hassles of Probate.

The main objective of estate planning is to maximize your ability to pass along your assets to whom you choose by minimizing estate taxes and administrative costs. It takes time and a desire to organize a structured transition. There are many vehicles to choose from and your estate plan should be tailored for your specific needs.

Have a wonderful September. Drive safely—it's back to school time.

booked over capacity in golfers as well as hole and tee sponsors.

The Classic Golf Outing Committee, Chaired by Vice President of LaSalle Bank NI, John Mangan, hoped to raise \$65,000 to support services that develop responsible youth and provides alternatives to the involvement of youth in the child welfare, juvenile justice and mental health systems, while strengthening families and the community. He was thrilled by the end of the night with the figure of around \$80,000.

"Every year we are trying to get bigger and better to help kids and the community. The first year of this golf outing we raised less than \$12,000. Strong corporate support and the inventive efforts of our golf committee have combined to ensure OMNI a fund-raising record for this Sixth Annual Wynstone Golf event," Mangan said. "Its important to support OMNI because they have services that every member of the community at some point in their life could benefit from."

Proceeds of the outing will benefit innovative programs such as OMNI's volunteer REALITY acting troupe and Youth Advocate Programs in addition to youth and family counseling services.

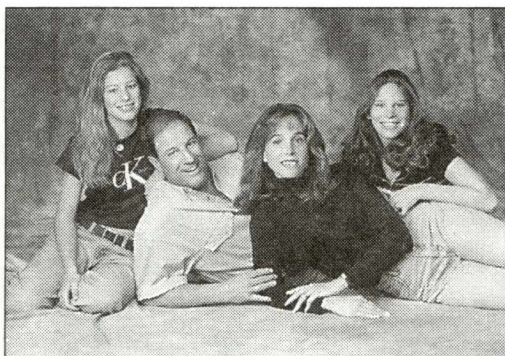

Additional supporters of the event included Allstate, Dean Witter and Discover Co., Novus Services and Novus Financial, Vine Street Partners, Mike Leonetti and Associates, American National Bank, Chicago Legal Copies, Chicago Metallic, Hamilton Partners, Household Finance, Carlson Wagonlit Travel, Jonquil Realty, Zurich Kemper Life Insurance, Vico and Associates, Robert W. Baird, United Group, Anderson Worldwide, ATF, Church Landscape, David Weidenfeld, Lanier Worldwide, LaSalle Bank NI, Medline Industries, Spike Trading, SPS Payment Systems, Unisource and VeriFone.

OMNI Youth Services is the largest youth counseling organization in Northern Cook and Southern Lake counties and served over 13,000 youth and their families last year, 7,000 more than the year before.

world in which humans frolic and fly and dance to the tune of the wind.

In her quieter work, her still lifes and observations of groups of figures lead us into a more intimate world. Thinly drawn figures embrace themselves with shrouds, twisting and turning, caressed into a sensual fusion of forms. We enter a new land, an intimate female heaven, set apart from the harsh reprisals of the outside world, where secrets are shared."

BAAC Gallery Announces September Exhibit

The Barrington Area Arts Council (BAAC) announces the opening of the BAAC Gallery's 1996-97 year with its September exhibit "New Perspectives" featuring the kinetic art work of Steve Waldeck and the jewelry of Steff Korsage Browne. The exhibit will be on view from September 6 through September 28. An opening reception for the artists will be held on Saturday evening, September 6, from 7-9 p.m. at the BAAC Gallery, 207 Park Avenue, Barrington.

Spring Grove artist Steve Waldeck is nationally recognized for his reexamination of traditional painting through the experimentation with electric light and surface pigments. His work can be either conventional in format, as in painting, or unconventional,

through the use of illusionary architectural spaces. The subject matter, however, involves the reality of light. Steve teaches at the School of the Art Institute of Chicago.

Steff Korsage Browne is known for her unique jewelry creations of sterling silver and stone. Her distinctively original, award-winning designs are free-spirited and boisterous. Steff considers her jewelry to be a metaphysical vehicle to connect with other people and the world around her on a more profound level.

The Barrington Area Arts Council is a not-for-profit organization dedicated to promoting and presenting programs in the visual, literary and performing arts. It is partially funded by a grant from the Illinois Arts Council, a state agency.

Grove Avenue School Carnival Of Fun September 13 - 15

Ricky Gilbert, Penny Kazmier, and Robin D'Louhy Nagle are chairing the tenth annual Grove Ave. School Carnival of Fun. Ricki's next door neighbor is the man who makes the fund-raiser possible, Jeff Blomsness. Jeff donates the marvelous rides of Blomsness All Star Amusements to bring the magic of Carnival to the Grove playgrounds. This year the fair runs September 13-15 (Friday, 5-10:30 pm, Saturday, noon-10:00 pm, and Sunday, noon-6:00 pm, rain or shine.)

Proceeds from the Carnival benefit both Grove School (in past years the PTO has created an activity room, purchased com-

puters for the classrooms, and built playground equipment) and the broader community. Grants have gone to other district elementary schools, to the DARE program in the schools, to the Barrington Historical Society, and to Barrington Youth Services. The Carnival can't help but bring something else to the community, and that is a weekend of family fun.

Along with Carnival rides, you will find games, food, and entertainment for the whole family. New this year is the Dunk Tank. Come try your luck at dunking one of your favorite local personalities! All of Grove is hoping you'll turn out for the Car-

Attention all Municipal Bond owners

During the 1980's, municipal issuers came to market with various bonds which had high coupons and provided a steady stream of income. One of the largest maturity run-offs and redemptions in municipal bond history is now starting to take place. As a consequence, many investors could face a sharp reduction in yield in their portfolio.

Many investors are unaware that these bonds could be called over the next five years. We expect heavy demand from investors who wish to replace this lost revenue stream.

Dean Witter is prepared to provide you with a service to check call features and credit quality, provide price quotes on existing portfolios and make appropriate replacement suggestions.

Now is the time to check your bond portfolios.

Third Annual Duck Race To Benefit Local Hospice

Duck Race Chairman Mike Gibson, right, gets a little help from his friends.

Teal green T-shirts with a yellow duck in the center, and plush yellow duckling stuffed toys are much in evidence in the Barrington and McHenry County area these days. third annual Hospice Duck Race set for Saturday, September 7, from 11 a.m. to 3:30 p.m. in the lagoon at Langendorf Park in Barrington.

ties, and portions of Cook and Lake counties. Race adoption forms are also available at the hospice offices in Barrington, Wheaton and Woodstock.

Adoption fees (your donation to Hospice) are \$5 per duck, six ducks for \$25, or a flock of them (25) for \$100. The plastic ducks are numbered, and as they cross the finish line, so too might they make their adopting agent (individual, group, business, etc.) the winner of a larger prize, which is two round trip tickets on American Airlines in the continental United States. In addition to this prize, there will be an Advent Home Theater Speaker System from International Jensen, Inc., Romantic Rendezvous package from Hotel Sofitel, and other generously donated prizes from area restaurants, theaters, businesses, and sporting event promoters.

There is also a VID (Very important Duck) special race, where the first VID duck across the finish line is worth a prize of \$500. Adoption fees for these ducks are \$250.

Adding to the festivities in the park will be the gourmet taste opportunity provided by Spasso in Wauconda, Gary D's Catering, Pasta Impromptu, Ambrosia and Grandpa's Deli, all of Barrington. There will also be children's games and face painting... adding up to the perfect family outing in support of a cause that reaches out to our communities' families when they are most in need of it.

The Foundation is most grateful for the sponsorship of Allstate Insurance Companies, Harris and Suburban Bank Barrington, Pepper Construction Co., American Airlines, Barrington Courier-Review and UARCO, as well as the donations of all individual and business "Friends of Hospice."

HNI, a not-for-profit community-based organization, specializes in meeting the needs of terminally ill patients and their families in over 136 communities. The Foundation is the fund-raising arm of HNI and last year raised over \$44,000 with the Duck Race. This enables HNI to offer such programs as indigent care, surrogate (substitute) caregiving, bereavement services including the very successful Camp Courage for youth who have suffered a loss, and community education.

Making It Happen

Hospice of Northeastern Illinois has always prided itself on its volunteers, as well as its

professional staff as it has developed during the last 11 years since HNI was chartered. Not only do volunteers work with families or in office support, but they help raise funds critically needed to continue the unique programs offered by HNI to all terminally ill patients, regardless of their ability to pay.

Chairing the 1996 Duck Race is Michael Gibson, Executive Vice President of Harris Bank Barrington. He and his wife, Barbara, also on the committee, are among the many residents and business people of the Barrington area who have been working diligently for many months to make this event happen:

Robert Peithman, Tom Tayler, Marty Schneider, Ann Brewster, Marion Dixon, Sharon Advani, Cindy Waters, Mary Wilson, Patti Hinding, Connie Schofield, Judy Evans, Ernie and Diane DeSalvo, Teddi Martin, Nancy Dodd McCann, Cora Esche, Jeanne Greenwald, Cheri Mazurek, Judy Kelley, Laura Baron, Sandy Grace, Chuck Kelley, John Austin, John Rader, Deb Riveria, Gary DiTomassi, Kathy Pondelicek, Kathleen Ross, Robin Davies, Earl and Retie Bailey, Carole Blazek, Foundation director, and her staff have enthusiastically supported, often directed, the work of the committee.

On Race Day, the volunteers will include many Hospice staff members and their families, as well as the Duck Race Committee and a cadre of high school volunteers, including Jenny Brew, Courtney Emery, Brian Givot, Katie Kearney, Cathy Larson, Donald Moore, Kristin Piegza, Sarah Reczek, Mychelle Smith, Kathy Sokalski, Amanda Storzbach, Paul Carin, Emily Fioroni, Becky Glantz, Danielle Kosinski, Laura Mitchell, Lisa Oswald, Julia Prey, Abby Siegwrah, Meghan Smithe and Devin Spirelli.

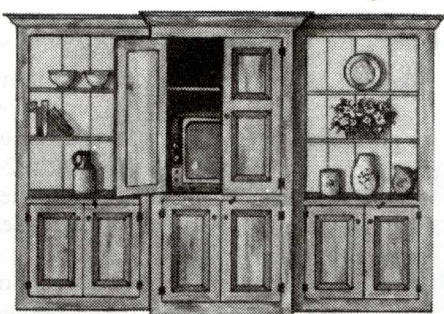

Committee members from McHenry County communities include Marlene Lantz, Butch Borchardt, Kay Watson, Jeanne Greenwald, and Tracy Rentschler, among others. From Palatine/Inverness comes Sylvia Rockefeller, Terri Channer is from Hoffman Estates, Pam Schilling from Bartlett, Judy Ames and Nancy Schmit from Lake Zurich, Lila Ostrand from Park Ridge, and Jane Warady from Chicago.

For additional information or to volunteer at the event, call the Foundation office, (847) 842-2580. For Hospice services, call (847) 381-5599.

Furniture Made As It Was 200 Years Ago

Early 18th Century Americans had a thirst for fine furniture, but no time to make fine pieces or money to purchase them. With little experience and even less money, industrious, hard-working family men would spend the long winters creating furniture. They performed difficult cabinetmakers' tasks with the crudest of tools. The results were often remarkable. Some of the most practical and well-built furniture designs known today were created during this period. These simple styles also embodied the spirit of America then—hard-working and unpretentious.

Although few people in the world are making furniture the way it was then, cabinetmakers for the **Bucks County Collection** are still hand-planing and carving to create the warmth and character of family heirlooms. Many of the most interesting designs of the 18th Century become authentic handmade replicas in their workshop. At **Varied Treasure Artisan Shoppe** we can appreciate the

New Toddler Program Offered

Barrington Community Child Care Center is a private center serving children 15 months to six years. This neat-as-a-pin facility is 5,300 square feet featuring oversized classrooms with lots of natural light and an environment designed to meet the needs of young children. The facility is also equipped with a large outdoor playground.

Maximum security and safety are very important. The Center has an entry system that allows authorized people to enter the facility through a locked door from the building's vestibule. Sprinklers are installed throughout and smoke detectors are in each classroom, restroom and closet.

The curriculum for the Center is theme oriented and age appropriate to each group of children. Individual needs and the child's unique ways of learning are key in the type

of planning and structure that is presented in the environment. The amenities that are offered are many: "Computer Tots" classes are available as well as "Kids in Action" gymnastics class. Haircuts, by a Barrington salon owner, are offered every six weeks. There is daily communication between teachers and parents, catered lunches, nutritious snacks and flexible scheduling is available. Our staff is highly qualified and continue their education and training on an ongoing basis. No appointment is necessary to tour the **Barrington Community Child Care Center**. Registration is now being accepted for summer and fall enrollment and for the new toddler program being offered. They are conveniently located at 560 Carl Avenue in Barrington (one block west of Burger King off Northwest Highway).

Beat The "Back To School Anxiety"

The first day of the new school year can be an exciting time of new clothes, new teachers and new friends to look forward to. So why is it that some children dread starting school in the fall?

According to Dr. Raymond J. Huntington, founder and president of **The Huntington Learning Center**, it is natural for children to experience some anxiety when entering a new classroom environment. However, when the anxiety turns to fear and reluctance, it is important to identify why and help them move past it. The following are the four most common reasons why children are fearful and reluctant to return to the classroom.

1. **Lack of self-confidence**—If a child does not have confidence, he or she may not feel capable of success in school. To build the child's confidence, set reasonable expectations and attainable goals, and praise his or her achievements. When children find that they can complete small tasks, they will feel better about moving on to bigger and better challenges.

2. **Fear of failure or fear of criticism from others**—Children having trouble keeping up in school may feel anxious or embarrassed to ask questions in class, for fear that they will be teased by classmates. When they do not ask for help, they fall further and fur-

ther behind in school.

3. **Lack of motivation**—When a child is unmotivated, he or she may be expressing boredom or frustration with the materials being studied. When textbook knowledge is not being applied in everyday life, the information may seem meaningless. The key to motivating children to learn is to make learning interesting. Reading food boxes and cans, counting cars on the highway and writing letters to friends are just a few things to give real-world meaning to schoolwork. Lack of motivation may also come from a child feeling incapable of doing the work. Again, show the child all of the little things he or she can accomplish and the larger tasks will follow.

4. **Lack of basic skills**—Children become frustrated when they can not keep up with classmates or school assignments due to a lack of basic skills. If a child was having problems at the end of the school year, the introduction of new material will be even more overwhelming. By working on a child's weak areas through tutoring, knowledge will fall into place, then self-confidence and motivation are sure to follow.

An academic checkup can show a child's strengths and weaknesses, and determine if he or she has the basic skills to succeed. **The Huntington Learning Center** offers

Nearly 300 Lyric Opera of Chicago Chapter members gathered for their Annual Meeting and Luncheon at the Ritz-Carlton Hotel in Chicago on Saturday, May 11.

After the cocktail hour and silent auction, members were invited into the Grand Ballroom to enjoy a gourmet luncheon of Boston lettuce and jicama with balsamic vinaigrette, grilled salmon in honey mustard sauce, sautéed green beans, new potatoes, concluding with a fresh fruit tart with raspberry coulis. Colorful spring tulip centerpieces and *So Pretty de Cartier* deluxe fragrances, generously provided by Saks Fifth Avenue, adorned each table.

Chapters' Executive Board (CEB) President Nicoline Shields, Riverside, introduced incoming President Beatriz

Iorgulescu, Hinsdale. Farrell Frentress, Director of Development, congratulated the Chapter members on their fine fund-raising performances throughout the year, especially during OPERATHON, which helped the total to reach \$866,927.

Master Gardener Offers Design Program "Flower Power—Pathways To Beauty"

The fall program being sponsored by the council of Barrington Garden Clubs will offer flower lovers techniques to enhance their gardening, landscaping and flower arranging design skills.

Scheduled for Thursday morning, September 19, from 9:30 to 11:30 a.m. at the Barrington Area Library, the program brings Mary Walker to Barrington. Walker is one of the most popular garden speakers in the state. A horticulturist and master flower show judge, she will demonstrate design principles to cultivate the visual skills necessary to create a beautiful arrangement, landscape or garden.

Walker has long endeared herself to stu-

dents and audiences alike with her down-to-earth manner and positive approach to whatever she tackles. In addition, she happily plays host to thousands of visitors to her own extensive gardens situated on 20 acres in Woodstock, IL.

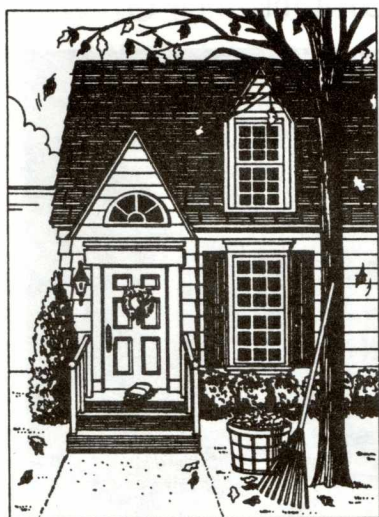

Increase your flower power! The fee for the program is \$5. Checks should be made out to the Council of Garden Clubs and sent to the Educational Focus Committee, 62 Windrush Lane, Barrington, IL 60010. For more information, contact Kathy Coffman (847-382-1873). The Educational Focus Committee supports programs for Barrington area gardeners and flower lovers.

An Exciting Home Addition

In addition to providing custom room additions with bathrooms, kitchens and fireplaces, **Armcor Design and Build** is your local store for **Four Seasons**, the nation's largest manufacturer of greenhouse/solarium-type room additions for residential and commercial applications.

Each **Four Seasons** product is meticulously designed and crafted to be a practical, beautiful, and exciting home addition that will bring a new dimension of space, light and warmth to what might otherwise be an ordinary room, whatever the season or location of your home.

Armcor Design & Build craftsmanship and quality products are also an excellent investment and can add real value to your home. Often, much of your investment in a **Four Seasons** sunroom can be recovered when you sell your home.

Glass room additions create views of the sun and sky and add extra living space with possibly little or no alterations. New

Many patented features are available exclusively from **Four Seasons**, and all products are designed to meet or exceed building-code structural requirements and have successfully withstood more than 100,000 installations.

Armcor Design & Build will provide you with a complete "turn key" room addition project or you can build it yourself. Every **Four Seasons** greenhouse/solarium product is maintenance-free, weather-tight and comes with a five year warranty on parts and a one year warranty on labor. There are numerous shades options, both wood and aluminum systems, and a wide variety of models and sizes. How To Improve Your Life

In the neighborhood of \$800,000 (depending on your wish list), you can build a gorgeous home just off that course. If building doesn't suit your time frame (or nervous system), don't give up. There are homes available this minute for \$500,000 and up. Besides the sheer joy of golfing more often (a few holes before dinner? before breakfast?), you'll have the comfort of living in a gated and guarded community—and in a dreamlike setting of woods and streams.

There are other golf course communities in Barrington and beyond. They are also beautiful, also superbly-designed, and their homes are also luxurious—but less costly.

If you're ready for the freedom-from-

care that townhome living offers, you have additional opportunities. On an excellent Barrington course (or just a chip shot away) you can select from a variety of floor plans and units in the \$200,000 to \$450,000 range. Some are waterfront, too. And all are complete with resort amenities you can enjoy every day without flying anywhere.

For an exploration and private showing of golf course properties in or out of Barrington, call **Arlene Cullen** of **The Prudential Preferred Properties**. Her private lines are **847/991-3345** and **847/465-2261**. Arlene is a national award-winning Realtor and a Certified Home-finding Specialist.

How to improve your golf game. (And view!)

Come live on a golf course—in one of our area's beautifully scenic golf course communities. There are more choices than you know.

You might choose to build the home you've yearned for on a high, commanding site in Barrington's most prestigious golf community—for in the neighborhood of \$1,500,000. But there are other "neighborhoods," too. (Please read at left.)

Guess who markets the most homes over \$500,000.

Our world is full of claims. Some are so involved they can hardly be understood—especially by the lay person with other things on his mind besides real estate.

So we would like to state a simple fact: the company that lists the most Chicagoland homes over \$500,000 is The Prudential Preferred Properties. Given that the owners of these homes (ranging in price to over \$4,000,000) are intelligent, thoughtful, and in a position to choose whomever they consider most able, we do indeed feel honored.

And, modesty aside, deserving. Because nobody works harder or smarter at marketing than we do, whatever the price point. That is a simple fact we'd be delighted to prove to you.

We're the real estate professionals with the business expertise.

Tips from the Top of The Rock™

Margaret R. Semrad
Broker/Manager
Barrington Office

ThePrudential
Preferred Properties

"Thank you, I appreciate all you've done." These words are gold to the ears and eyes of a Realtor. Just this week, notes containing these feelings came into our **Prudential Office** addressed to our Realtors, which means "we" are delivering the service you desire.

I would also like to hear "thanks for keeping us guided on the path to our dream." That's the nudge or message of this column. We are now into September and all signs point to a very busy real estate market this autumn. This is a welcome departure from years past when real estate activity began a seasonal decline that continued through the holidays. In all probability the volatile activity of spring and summer will continue well into November.

As of this writing, interest rates are level and many homebuyers are eager to buy to take advantage of this affordable financing. Both conventional fixed rate (15 year @ 8% w/ 0 points) and adjustable mortgages (5 year @ 6% w/ 0 points) as well as government and jumbo loans are available at attractive interest rates.

If now is the time to move to a larger home or you plan to make a transition to a different lifestyle, be sure to price your home realistically, based on the opinion of its value prepared by your **Prudential Realtor** who is knowable of the market-

place. This will help you sell your present home more quickly and free you to act decisively when you find the home that meets your specific needs.

To maximize the opportunities offered by this fast-paced market, **The Prudential Preferred Properties** is aggressively promoting the homes in our inventory. We are the #1 company in Chicagoland marketing homes over \$500,000 which means that marketing pieces are being produced by our in-house marketing agency to secure buyers for the narrower \$500,000+ market.

Additionally, **The Prudential** is attracting current buyers in all price ranges due to the depth and scope in the variety of homes we showcase throughout the prime communities we serve.

As always, **The Prudential Preferred Properties** is working vigorously and expertly to honor our commitment to you—to do our best to bring you excellence in service and fast results.

Remember, **GOLD** to a **Prudential Realtor** is "Thank you, I appreciate all you've done. Thanks for helping me find my dream and encouraging me to stay on course. You've made a real difference in my life."

Have a great September by calling **The Prudential Preferred Properties...** the DREAMHOUSE HEADQUARTERS.

Gourmet Dinner Raises Funds For Homeless

Pictured is the Nuzzo family, clockwise from left, Michael Bird (Jim Nuzzo's father), Palatine; Janelle, Bishop Conway, Jim and Stephanie, Mathea Nuzzo Bird, Frank and Mathea.

Live auction high bidding on the gourmet dinner with The Most Reverend Edwin M. Conway, Administrator of Catholic Charities, at The Catholic Charities' seventh annual *Hearts for the Homeless* benefit last February, tallied well over \$2,000 to help families in transition. On Sunday, June 9, thirty-four persons were graciously hosted by Dr. and Mrs. James Nuzzo in their beautiful South Barrington lakeside home for a lovely champagne afternoon and gourmet five course meal with Bishop Conway. The

evening concluded with a spectacular, sophisticated and very entertaining magic show by Dr. Nuzzo, one of the world's top ten slight-of-hand magicians. Joining the Nuzzos in the spirit of giving, Cafe Clemenza, Hoffman Estates, donated the staffing, delicious appetizers and beautifully presented desserts.

A Salute To Infant Welfare Leaders

The Infant Welfare Society honored its volunteers at a reception for past presidents of its Near North Chapter. Twenty former presidents were on hand for the party hosted by Chicago's Plaza Club. Special tribute was given to Linda Meierdierks, the outgoing president of the Infant Welfare Board of Directors, who led Near North as president in 1983.

A \$75,000 donation to the Infant Welfare Society of Chicago from the Children's Care Foundation capped a June 24 celebration honoring past presidents of the Society's Near North Auxiliary Chapter.

Bruce Bagge, president of the Foundation, presented the contribution to Linda Meierdierks, the outgoing president of the Infant Welfare Board of Directors, who served as Near North president in 1983.

Meierdierks and 19 of her sister past presidents were fêted at the gala reception, which was donated by the Plaza Club. Spe-

cial guests included Glennette Charlton of Glenview, who founded the Near North Chapter in 1965, and Claire Meehan, president in 1976, who flew in from Concord, Mass., for the festivities. Nearly 100 Infant Welfare members and supporters were on hand for the special party.

Improving On Nature

Nothing is more relaxing and peaceful than watching the dancing flames of a real wood fire. Majestic has simulated that beauty and comfort with their gas logs by paying special attention to the amount of flame, burning pattern, and log size, shape, color, and detailing, while offering the convenience, cleanliness and economy of gas.

With Majestic GL series gas logs, there's no more wood to cut and carry or ashes to clean. A simple turn of the knob or press of a button produces an instant flame that burns as long as you want—safely and efficiently.

Since natural and L.P. gases are clean burning fuels, unlike wood, they help reduce air pollution.

Stop in at **House of Fireplaces** in Elgin, 824 East Chicago Street (Rt. 19), and see the

elegant detailing on the gas logs sets. The GL series includes eight open-front models from 16" to 48". Aesthetically pleasing and affordably priced, the GL series offers versatility.

Andes Musicians Perform At The Barrington Area Library September 6

Sisai, a group of five musicians who perform the traditional indigenous music of the Andes will perform at the Barrington Area Library at 7:00 p.m. by the Terrace Garden. This entertainment coincides with the Barrington Area Arts Council Gallery Walk which has a stop at the Library.

The rhythms that are the base of their music come from Peru, Bolivia, and their native Ecuador. Sisai creates a unique experience for their audiences, demonstrating their culture through music.

The group utilizes a wide range of instruments. Traditional wind instruments such as the quena, zamponas (pan flute), rondador, and antara area hand crafted by the members, and are accompanied by percussion. String instruments include the guitar, vio-

lin, and mandolin as well as an instrument native to Bolivian, the charrango. Combined, these instruments create the distinct sound of the Andes.

Otavallo, a thriving indigenous community high in the mountains of Ecuador is the home to the members of Sisai. The Otavalan community is a place where customs continue and traditions are valued, where indigenous people remain proud of their culture and strive to nurture its growth. The music that Sisai presents was handed down to them through the generations of a vital living culture. Sisai works to demonstrate that cultural richness here in the United States.

The Barrington Area Library address is 505 N. Northwest Highway, Barrington.

Security And Beauty With Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees, artwork,

building features and so forth, using a wide variety of techniques including uplighting, crosslighting, moonlighting and path-lighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Solar Gard residential films are now backed by a lifetime warranty. Solar Gard films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, displays, etc.

Solar Gard also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with pressure sensitive adhesive. The adhesive bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, burglar, etc.

Glare-Not Inc. has provided savings and security for 9 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard films are backed by a lifetime residential warranty. References are available upon request.

fire," and "Colleen Moore's Fairy Castle." With a \$30 donation to the program, visitors will actively participate in exhibit preservation by providing the funds necessary to upgrade and maintain these popular artifacts. Program participants will also receive a special package featuring an official certificate of conservation, a one-year subscription to *Aha!*, the Museum of Science and Industry's quarterly newsletter, and fun facts and photographs of the exhibit. All donations to the T.L.C. program are tax deductible.

The U-505 Submarine, a resident of the Museum since 1954, provides a vivid snapshot of life aboard a World War II submarine. As part of the T.L.C. program, donations will support the plan to relocate the submarine in 1998 to a sunken dry dock area on Museum grounds, climate control improvements, and extensive restorations to its steel shell and interior.

The Model Railroad has been a favorite of children and adults alike since its installation in 1941. Designed by railroad enthusiast Minton Cronkhite, the model railroad has kept pace with the times, mirroring the ever-changing transportation industry. The T.L.C. program will support future improvements to this exhibit, including regular "tune-ups" to engine motors, maintenance of electrical switches, and additional restorations to the railroad's spectacular scenery.

As a representative of the pioneering past of aviation science, the Supermarine Spit-

fire has a distinguished record of military service. Utilized by the Royal Air Force, the Spitfire downed five enemy aircraft during the Battle of Britain, and upon completion of its tour in World War II, the British government donated the Supermarine Spitfire to the Museum in 1944. The T.L.C. program will support maintaining the exhibit in its current condition, including regular cleaning and dust removal as well as repairs to the cockpit area.

Colleen Moore's Fairy Castle has inspired and amazed millions of visitors since it was brought to the Museum in 1949. A magnificent feat of artistry and design, the Fairy Castle combines the efforts of over 700 Hollywood artists and technicians. It became a permanent exhibit in 1979, a gift for children of all ages to enjoy. Donations from the T.L.C. program will support the installation of a new fiber-optic electrical system, restoration of the running water system and the polishing of all metal finishes to protect against corrosion.

"The Museum is always looking for new ways to get the visitor involved in what happens here," said Cathy Domanico, Museum Director of Membership and Corporate Sponsorship and the creator of the TLC program. "The TLC program allows the visitor to be involved in the preservation of their favorite exhibit, providing future generations a chance to experience history." For more information on joining the T.L.C. program, call the Museum's Membership Department at (312) 684-1414, ext. 2256.

Work With Experts When Planning A New Space For Your Home

Why do so many homeowners find the process of remodeling or adding on to their homes so intimidating? "Too much information from conflicting sources," says Mark Zurek, president of **Delta Renovations**. "The whole process is by nature an emotional one because it involves entrusting others with not only money, but with the comfort and security of home and family."

Delta Renovations has built its business by analyzing the needs of its clients and finding the best way to meet those needs. Every project presents a unique situation and requires services tailored specifically to that situation.

For clients considering major renovations or an addition, they often recommend the "Design-Build" process. Projects of this type call for the involvement of an architect. This is not only because local building departments will require that submitted drawings include an architect seal, but also because the architect has been trained to combine technology and aesthetics. We have all seen homes that have had their character totally destroyed by a less than sensitive addition. "A good architect is able to add the extra space so that the addition itself is undetectable, and the home is even more attractive," says Zurek. "The down

side of using an architect in the remodeling process is usually budget." Many times, the homeowner will hire an architect and fall in love with his plan only to find the bids coming in astronomically higher than their target budget. Because the architect isn't intimately involved in the bidding process, he is often unable to accurately predict the cost of building what he has drawn. **Delta Renovations** is proud to announce the inclusion of Margaret Nowak, A.I.A. to its staff of industry professionals. We are now able to offer complete in house design services, and the benefits of a design/build association to our clientele. "We have spent years developing our relationship with suppliers and subcontractors who we know provide, at a fair price, the best products and the top-notch service I demand," continues Zurek.

If you would like to see how **Delta's** "Design-Build" process will fit into your plans, please call Mark Zurek at 776-0121. There is no obligation for a consultation. **Delta Renovations** can also help homeowners with less extensive remodeling plans, like redoing existing kitchens and baths, using the in-staff designers with **Delta's** sister company, **Barrington Kitchen & Bath Studio**.

KYC Volunteers To Be Recognized At "Oscars" Party

Over 300 volunteers will be honored at Kenneth Young Centers' "Academy Awards of Volunteer Service." Using the Oscars theme for this year's recognition dinner, the agency will celebrate its "all-star cast" for their "best performance in a supporting role." The volunteers support elderly clients by visiting, shopping or providing respite services. Other volunteers befriend clients with serious mental illness. Still others support the work of KYC at the Resale Shop or through special events and other behind-the-scenes help. KYC volunteers gave a total of over 33,000 hours service last year in Elk Grove and Schaumburg Townships.

Guests have been advised that the Sep-

tember 4 dinner at the Seville will be a black-and-white affair, and are encouraged to wear black and white, whether it's a tuxedo, or black jeans and a white T-shirt. "We hope playing up the whole Oscar thing will be fun for our volunteers and dramatize their importance and status with us," says Betty Jones, coordinator of Volunteer services. A special recognition will be awarded to KYC Volunteer of the Year Lynn Wallenberger, honored for instituting a creative writing workshop in KYC's Day Treatment Program for clients with serious mental illness.

Sunday Afternoon At The Library

Barrington Area Library begins its Sunday Afternoon at the Library series with Betty Bryant presenting *Here Comes the Showboat* at 2:00 p.m. September 29, in the Meeting Room.

Betty Bryant grew up and performed on her family's showboat for 20 years. She entertains with stories and dances from the days when Bryant's New Showboat was pushed up and down the Ohio, Mississippi, and Kanawha rivers by their steamboat, the Valle Belle.

Betty, a resident of Park Ridge for over 20 years, has an entertainer's touch with a story, which she tells in person and in her 1994 book *Here Comes the Showboat!* She made her debut at six weeks as the baby carried across the ice in *Uncle Tom's Cabin*. She grew up in that combination of vaudeville and melodrama that was staple fare for inland waterway audiences. When they left the river because of World War II, an era in original America show business came to an end.

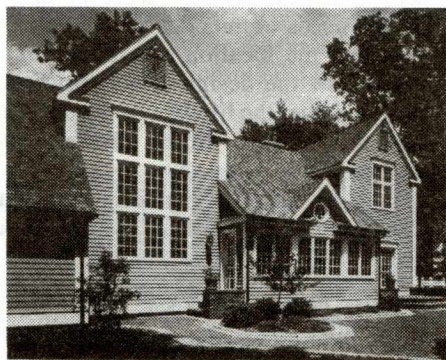

Bryant Showboat memorabilia are on permanent display at the Smithsonian Institute in Washington, and at the Riverboat Museum in Dubuque, Iowa.

This series continues on Sunday, October 13 with *Degas: Beyond Impressionism*. Lee Gibbs presents the work of French Impressionist Edgar Degas using slides and reproductions. Degas (1834-1917) is renowned for his masterful studies of the human body—powerfully rendered paintings of dancers, jockeys, washerwomen, and bathers. It is less well known that he also produced challenging and varied landscapes which he chose as the subject for his only one-person show in 1892. The work of Edgar Degas will be on exhibit at the Art Institute in Chicago September 30 through January 5, 1997.

The Barrington Area Library address is 505 N. Northwest Highway, Barrington. Please call the Adult Services Reference Desk to register for these programs.

Can't Find The Room? Let Us Help!

"As architects, it's our job to solve your space problems," says John C. Cazzetta, President of **Kemper Cazzetta Architects** in Barrington. "A large majority of our work is in remodeling, and because our clients need everything from small additions to complete estate makeovers, we tend to 'see it all.' Our philosophy is to listen to our clients, study their existing conditions, calculate their budget and endeavor to aesthetically solve their space needs."

Many homeowners struggle with the thought of "taking apart their house," especially while they still live there. "This dilemma is the biggest hurdle in some projects," adds Cazzetta. "The design solution has to take this issue into account or the project could be a disaster. We have actually designed some projects to allow the owner to move into the new addition before we renovated the existing space. The quality of life during the process is as important as the design excellence realized upon its completion." The end result is al-

ways the same... "the homeowner is amazed at how their 'old' home has come back to life," concludes Cazzetta.

If your home needs updating, additional space or reconfiguration, call John C. Cazzetta, at **Kemper Cazzetta Architects**, for a no-obligation consultation today. "We feel you will be pleasantly surprised at the potential of your existing home." Phone **382-8322** to schedule an appointment with **Kemper Cazzetta Architects**.

Time To Clean Out Your Closet We Mean Really Clean It Out!

Use your imagination for a moment. Imagine the closets in your home. What do you see in your mind's eye? Neatly stored clothes, shoes, hats, purses and other valuable items? Or, do you see clutter and disarray?

If you're like most people, you probably have the traditional shelf-and-rod closet with shoes and boxes on the floor and lots of wasted space. Or, a wire system that looks a bit like the inside of a refrigerator and leaves grid marks on folded clothes.

Closet Masters invites you to look at closets in a new way. To begin with, think of your closets as an investment. When you consider how much each square foot of your house costs, you'll realize your closet space is as valuable as your living space.

Closet Masters believes that you should enhance the investment in your home by making each closet work harder for you.

By tailoring **Closet Masters** custom designed closet and storage components to your home, **Closet Masters** can increase the investment value of your existing closets and storage spaces) while virtually doubling their usable space.

We've spoken about enhancing your home investment. Studies have shown that when you sell your house you can expect to get back 90 to 100 percent of the money you spent on the closet systems and built-in storage. Houses with professionally installed closet and storage systems sell faster than those without them.

Let your imagination be your guide as to where you can best use **Closet Masters'** custom-designed closet and storage systems.

So C'mon... clean out your closets... really clean 'em out!!!

Now Is The Time To Plan For That Deck

"It's not just a deck," says Larry Kirchner, chief designer and president of **Deck-A-Roo Decks**. "A deck is a pleasant addition to any home and a necessity."

Decks are great investments. If properly built, a deck will give the owner years and years of wonderful use as well as add more to the value of the home than the initial cost. However, an improperly built deck will soon become an eyesore as well as a financial burden on the owner.

At **Deck-A-Roo Decks** every aspect of the deck design is considered: what style will best fit the house; what are the size and design needs of the client; what materials best suit the location and design of the deck; how the design affects price both now and over the lifetime of the deck; and how maintenance will be affected by the design.

In addition to a proper design, the actual construction of the deck and the follow

through of the builder are very important. Questions you should ask: Who actually will perform the work? What quality of material will be used? What construction practices will be used? And, who will service the deck if needed? Larry's favorite phrase. "You get what you pay for, if you're lucky!"

Deck-A-Roo Decks is a full service builder, working with the home owner from the beginning of the design to the final completion of the deck. No subcontractors are used. All employees have been trained to a high level of quality and given the amount of time needed to complete the job properly. Only high quality materials are used by **Deck-A-Roo** as well as new environmentally friendly products. Every deck is serviced promptly as well as courteously.

A special note from Larry: As fall approaches many people will put off their deck project till the following year. This can be a mistake since they'll sometimes find us just as busy the following spring. The best time to build a deck is actually late summer and fall. This will allow you not only to have your deck first thing next spring but gives you the chance to landscape around the deck in the fall or early spring (the best time to plant). You may even find yourself getting much more use out of it this year than you thought.

For more information or an in-home consultation, please call us at (847) 381-3325. Thank you.

tion Administration officials say some of the steps will go into effect immediately and others will take some time. Officials say more passengers who fit the profile of a "potential terrorist" will find their suitcases being hand-searched. In addition, all aircraft flying into or out of the United States will be subject to preflight inspections. Vice President Al Gore also will head up a commission to review airline security. The FAA says international flights would be hit hardest, but domestic passengers would also feel the affects.

Tax Return?

Airlines will soon be collecting the 10 percent excise tax on domestic tickets, if Congress has its way. The tax lapsed on January 1, and many airlines passed the savings

on to their customers. But now fares are creeping up again. Also, the \$6 international passenger fee is temporarily suspended.

Organic Meals in the Sky

Some passengers returning from Germany on any of Lufthansa's North Atlantic flights will notice an interesting new selection as part of the in-flight meal service: cuisine prepared with organically-grown farm produce. The German airline claims to be the first to offer this type of meal choice, which is currently available only to first and business class passengers and avoids the use of chemical fertilizers and insecticides. If the program proves popular, economy class passengers will be able to "eat organic" as well.

From A Woman's Point Of View

by Gail Wickstrom, Wickstrom Ford

Isn't it always true that just about the time you feel like you're riding high, something or someone comes along and knocks you off your high horse? I suppose in the long run that's best, because it keeps you working harder at being better.

I really am very grateful that customers will take the time and effort to relate to me both the good and the not so good experiences they have here. We can't correct the things that aren't done correctly if we don't know about them. On the other hand, our people enjoy a pat on the back occasionally for a job well done.

When someone takes the time and effort to write to me about their experiences I doubly appreciate it because I know the extra effort writing a letter takes.

In our Monday noon service meetings lately, our topic of conversation has been how to improve our rush times for our customers dropping off their vehicles.

A few years ago we started making appointments for dropping off vehicles. It seemed to greatly help the flow, but somewhere along the line we stopped. We're going back to it and it seems to be working well. It's hard for our technicians to properly fix a vehicle when there is inadequate

information about the problem. When there is a line at the service desk, there is a tendency to rush through so that people aren't waiting too long. Sometimes it's necessary for one of the service managers to take a ride with the customer to properly identify the problem, and that can't be done at 7:30 in the morning.

We know we are far from perfect, but we hope our customers are always aware that we are trying our hardest to get there.

Racine Antiques Fair September 15

The remaining show of the **Racine Antiques Fair's** 1996 season will be 8 a.m. to 4 p.m. September 15 in Union Grove, Wisconsin, just a short drive from the Barrington/Crystal Lake area. Between 60 and 65 of the Midwest's finest dealers of quality antiques and fine collectibles will be represented at the event.

"Sales for the August show were excellent, particularly in the category of furniture," said Show Manager Dennis Carroll.

The **Racine Antiques Fair** is set in the unhurried, rural atmosphere of beautiful southeastern Wisconsin, at the Racine County Fairgrounds, just five and a half miles west of I-94, about a 20 minute drive from Great America.

There, dealers set up outside on the clean and spacious fairway and in two large exhibition buildings. Their collections may include anything from Victorian bedroom suites to individual colonial pieces. In between, one might find furniture from the Art Deco and Arts and Crafts periods as well as American country pine primitives and turn-of-the-century English, German or French.

In addition to furniture, dealers in the past have featured china, glassware, American art pottery, stoneware and majolica; colonial era kitchen items; early 19th century baskets; needlepoint; framed prints; books; records; toys; clocks; even a collection of Early American candle snuffers.

The dealers are knowledgeable and will take the time to answer questions and to

The **Racine Antiques Fair** is about an hour from Chicago and a half hour south of Milwaukee. Take I-94 north to Wis. 11, west five and a half miles to the fairgrounds. Admission is \$3, parking free. Refreshments available. The show goes on rain or shine.
