## Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist

at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 18 years of service at the same location.

September, 1994

Dear Reader,

The Barrington Area Historical Society will hold its Annual Antique Show & Sale Saturday, October 8 and Sunday, October 9. A benefit preview party will be held on Friday, October 7. So save these dates and look forward to a wonderful occasion. The Cuneo Museum & Gardens in Vernon Hills, a Venetian-style circa 1914 residence, will be the beautiful location for the benefit. Mr. Bob Woodsome, long time resident of Barrington and former Village President, was named honorary chairman of Antique IV.

On September 9 the BAAC-sponsored Gallery Walk will feature ten galleries and art-related establishments in downtown Barrington. Look for the bright blue balloons! The perfect time to become better acquainted with some of Barrington's fine stores.

The Palatine-Inverness Chapter of Infant Welfare is planning its dinner dance Tuxedo Junction to held November 12 at the Wyndham Hamilton. Another date to write down on your social calendar.

Just a reminder, "Art in the Barn, 1994" will take place September 24 & 25. It truly is a family day in the country. Over 140 artists will be represented, plus crafts, music, refreshments and more. The event is held in the rustic farm buildings on the EHS Good Shepherd hospital campus.

Until next time, may all your thoughts be sunny.

With warm regards,  
*Glenn McMonigal*

## It's Time To Get Quacking For The Hospice Duck Race

Hospice volunteers Sheila Nolan and Rita Iverson during Barrington Sidewalk Days . . . busily processing duck adoptions for the up-coming race.

Mark Saturday, September 10th, on your calendars—that's the day 10,000 plastic ducks will plunge into the water at Langendorf Park in Barrington and head to the finish line in the Hospice Duck Race. Three major sponsors of the race are Pepper Construction Company, Harris Bank Barrington and Lois and Bob Giesel. In addition we have several other supporters including Kemper Corporation, Phillips Men's Wear, and Rotary Forms.

## I. K. Design Inc. Is Eight Years Old!

**I. K. Design Inc.** is celebrating its eighth year as the finest jewelry store in Barrington.

**I. K. Design** offers custom designed jewelry by two full-time, on-site jewelers who also provide all types of jewelry repair. A graduate Gemologist is also a part of **I. K. Design**, providing a full range of appraisal services and a complete gem lab. This eighth anniversary gives **I. K. Design** the distinction of being the oldest jewelry store in our community.

Isaac Kornhauser, president and master jeweler at **I. K. Design**, began his jewelry training at the age of 13 setting stones in "mother" rings at his family's jewelry store in Skokie under the watchful eye of his jeweler father. Being part of a jewelry store family, Isaac received his formal jewelry training at the Fashion Institute of Technology in New York after working with his father for eight years. His 20 years of experience in the jewelry business allow him to provide his customers with top quality work as well as a unique creative ability to take his customer's ideas and make the perfect piece of jewelry.

The other half of the **I. K. Design** team is Ellen Kornhauser who has worked in the jewelry business for twelve years since the age of 16. Having met Isaac while working in loose diamond sales, Ellen joined **I. K. Design** in 1989 after their marriage. Ellen has been a qualified appraiser for over seven years and a graduate Gemologist for seven and one-half years.

This successful husband and wife team has offered Barrington complete jewelry service since opening their first store over the old shoe store on Cook Street eight years ago. They now provide their services at their new location at 141-B Northwest High-

way in the Pitta's Greenhouse shopping center.

Another part of the **I. K. Design** family is Chris Davis who started working for Isaac after completing the jewelry training course offered at Barrington High School. His formal training was obtained while attending the Fashion Institute of Technology in New York for two years. Chris has worked for **I. K. Design** for over six years and is now an accomplished jewelry designer.

With two professionally trained jewelers and a graduate Gemologist, **I. K. Design** is definitely the finest all-around jewelry store in Barrington. Their office staff and ever watchful guard dog, Suki, are always ready to provide their customers with courteous assistance with all their jewelry needs.

To celebrate their 8th Anniversary, and say "thank you" to their loyal customers, **I. K. Design** will be having a sale during the entire month of September offering 6-month "same as cash" financing to qualified customers as well as spectacular savings of 20 to 50% on selected jewelry pieces. To complement the one of a kind custom designed jewelry pieces available, inventory has recently been increased with a wonderful selection of 18K Italian jewelry. Of course, custom orders placed in September can also be financed for 6 months.

**I. K. Design** will be open Tuesday, Wednesday and Friday from 9 to 6, Thursday from 9 to 8, and Saturday from 9 to 4 to be available to help you find just that right piece of jewelry.

With Christmas just around the corner, come in and take advantage of this spectacular sale and make those on your Christmas list happy with a special piece of jewelry.

## Old Hat' Deserves A New Look At Woodland Art Gallery

*Parasols and Wildflowers* by Don Hatfield

It's a soothing, playful summer day amongst the wildflowers that Don Hatfield brings to life in his very limited edition serigraph *Parasols and Wildflowers*. Released in November 1991, one of the just 395 signed and numbered serigraphs is now available at **Woodland Art Gallery**.

Printed on 100% rag stock with 105 hand-separated colors, *Parasols and Wildflowers* is just one of over a dozen very collectable Hatfield works in the gallery's collection. Visit the gallery now to view all these special serigraphs.

Newly released and also now on display is world-renowned artist Robert Bateman's *Winter Pine—Great Horned Owl*. Published from an oil painting, this signed and numbered limited edition print captures the splendor of a rare sighting on a wintry day.

"As a boy, I would ride my bicycle out of the city and explore the world for hawks and owls." Bateman remembered, "Winter was the best time of year to spot them when

most of the trees were bare. This painting shows a great horned owl, not in concealment, but in a more active pose, perched on a piece of broken pine branch which has blown down in a storm."

Hatfield, Bateman, Redlin, Brenders, Morrissey, Peck, Isaac... whoever your favorite artist may be, **Woodland Art Gallery** is where you'll find them. Visit the gallery at 71-B East Woodstock Street in downtown Crystal Lake. Open Monday-Friday 9-5, Saturday 9-3. Phone (815) 459-0460.

The gallery's frame shoppe specializes in museum mounting, and custom matting and framing of your fine art. You can also take advantage of their services as well as see their gallery collection at **Prairie Wings Art Gallery** at 344 Old McHenry Road in Long Grove. Phone (708)913-0581.

Full color brochures are available. VISA and MasterCard are accepted. Shipping is available anywhere.

## Art In The Barn Offers A Family Day In The Country

"Art in the Barn, 1994", the Auxiliary of EHS Good Shepherd Hospital's 20th annual juried and invitation exhibition, is an opportunity for everyone to enjoy a day in the country while viewing beautiful fine art.

The art show and sale will be held from 10:00 a.m. to 5:00 p.m. Saturday and Sunday, September 24 and 25 in the rustic farm buildings on the hospital campus. EHS Good Shepherd is located north of Barrington on Highway 22, just two miles west of Route 59. Admission to Art in the Barn is \$3 per person and free for children under 12.

Since this is a special year for the Auxiliary of EHS Good Shepherd Hospital, we are honoring those artists who have (from 1974 to 1993) made top sales for Art in the Barn.

This year, the show will feature more than 140 artists with works ranging from oil and acrylic paintings, etchings, serigraphs, photography and watercolors to jewelry, sculpture, metal work, pottery, handmade paper, batik, stained and blown glass, ceramics, woodworking, handwoven fabrics, leather, baskets, and for the first year limited edi-

tion prints.

In addition, handmade crafts and Christmas items created by the Auxiliary's Luv Ewes group will be sold in a farm house adjacent to the artists' display areas.

Children will be able to create their own watercolor masterpieces at Young Artists' Tents. During both days of Art in the Barn, music lovers will have the chance to sit back and listen to a variety of music including folk, blues, jazz, and country.

The refreshment menu will include brats, hot dogs, taffy apples, cider, soft drinks, popcorn and coffee. The Pear Tree, a full service restaurant, will offer sandwiches, soup, chili and more.

Since its inception in 1974, the goal of Art in the Barn has been to bring fine art to the community. As a by-product, the artists donate 25% of their sales to the Auxiliary of EHS Good Shepherd Hospital. This year's Art in the Barn proceeds will go toward new high-tech equipment for the various departments.

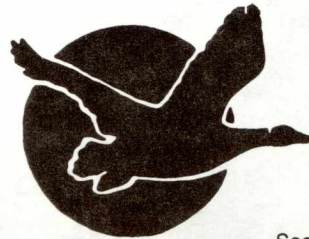

For more information about Art in the Barn, call 708-381-0123, extension 5104.

## Persin & Robbin Jewelers Celebrates 35 Years in Business

On Saturday, September 24 from 9 am to 5 pm, **Persin & Robbin Jewelers**, a prominent jeweler serving the Northwest community, will celebrate its 35th Anniversary with in-store prize drawings (no purchase necessary), trunk shows, refreshments and a special gift for everyone who visits the store. **Persin & Robbin** will also offer 30% savings on their entire selection of giftware, silver holloware and serveware, fashion jewelry and fine jewelry to their customers on that Saturday.

"Being in business for 35 years, especially the business of handling people's most treasured possessions, is no small feat," said Janet Robbin, owner and president of **Persin & Robbin**. "I would like to thank the Arlington Heights community for their support all these years. Our business continues to flourish, and I hope anyone who has ever been through our doors can help celebrate with us."

Representatives from various crystal, jewelry and watch companies will be on hand to present unusual and rare merchandise.

"Our vendors have also greatly contributed to our success," said Mrs. Robbin. "If we couldn't offer their quality merchandise to our customers, we probably wouldn't have the reputation we enjoy today."

**Persin & Robbin** has been a landmark in the Arlington Heights community for 35

years, not only for its wide selection of quality merchandise, but for its tradition of service. The store employs a large staff of knowledgeable and experienced sales associates and craftsmen. This includes one of the few authorized Rolex repairmen in the country. And, as it has always been, their famous gift-wrapping is complimentary, as is local shipping.

Service to the community is also a strong **Persin & Robbin** tradition. The store has

supported many local charitable causes and organizations, including the Clearbrook Center for the Handicapped, donation of the handicapped-access playground to the North School Park and sponsorship of the Frontier Days annual handicapped breakfast.

One visit to **Persin & Robbin** and it's clear to see why they have been successful for 35 years. Join the celebration on September 24. **Persin & Robbin** is located at 24 S. Dunton St. in downtown Arlington Heights.

## Students Can Learn To Pay Attention

The ability to focus attention may seem simple to you. But paying attention is a skill that must be learned. Many students cannot control their attention because they have never learned how to direct their thoughts and energies.

Dr. Raymond Huntington, founder and president of **The Huntington Learning Center**, says that parents can help children improve their ability to concentrate. The following are three methods Dr. Huntington recommends in helping your children improve their attention:

**1. Using positive self-talk and positive images.** At sporting events you often see one player standing alone, muttering to himself, "OK, you can do it! Keep your eye on the ball." This is "self-talk," an important tool for controlling attention. Children can be taught to use it.

People also improve their attention span by controlling the images they see in their mind's eye. When a runner is halfway through the race, she may picture herself crossing the finish line; or a dieter may imagine his new appearance when tempted by an ice cream cone. These images help keep attention focused, and increase motivation to complete the task.

**2. Asking questions about the work.** Another way to direct attention is to ask questions while studying. Some general

instructions are: "What is this paragraph about? What is the evidence that supports the central idea? Is this argument true or false? Why?" Asking themselves questions helps students bring their attention back to the task at hand.

**3. Setting specific study goals.** One way to improve attention is for children to work toward specific goals as they study. You might want them to study until they can tell you the main point of the paragraph, or until they can solve a specific math problem. Together set reasonable goals, and discuss each goal with your children. Remember that many small goals are better than a single large one.

At **The Huntington Learning Center**, study skills are integrated into specially designed tutoring and enrichment programs. With centers nationwide, Huntington is a recognized leader in the field of diagnostic testing and evaluation to pinpoint a student's weak study areas. Programs are offered in reading, writing and math, as well as college SAT/ACT prep courses.

Parents who have questions or who wish to discuss specific problems should contact **The Huntington Learning Center** in Barrington at (708) 382-3655 or **The Huntington Learning Center** in Buffalo Grove at (708) 459-5939.

## Back To School

By Eleanor Nelson & Sally Howard  
Travel House

It's September and time to return to school! We at **Travel House** are also preparing to return to school. When we go back to school it means hitting the road to educate ourselves by studying new and exciting places which we can sell with confidence.

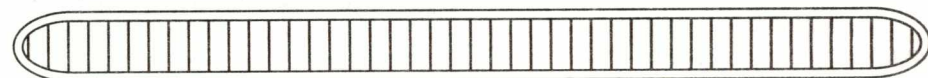

I myself am off to re-explore Hawaii and the newly redecorated island of Kauai. After a week of tropical exploration, I will drive through Italy for two weeks in October to reacquaint myself with a European destination that has again become a most popular tourist attraction. Italy is hot!

Others in our office will be traveling to destinations which need to be reviewed. Lee is off to England in September to investigate what's new in the London hotel market as well as the English and Scottish countysides. Bunny will be visiting Bermuda to see the condition of the hotels and what the tourist bureau will be offering for the new season. Barb is taking a group of avid golfers to Amelia Island to check out the courses there and have some girl fun. Jan is off to Seattle and Victoria to visit a very up and coming U.S. tourist destination. She promises to bring back many pictures of a destination which will make a great getaway for a long holiday weekend. Sally will be revisiting Costa Rica this fall, an-

other hot spot for those who are seeking new and unspoiled destinations.

Don't worry, there will always be agents in the office to help you plan your next vacation. We do work as well as travel! We at **Travel House** know how important it is to plan that special vacation and we hope you will have confidence in knowing that there are agents in our office who are well acquainted with your favorite destination.

## Why a Reading Specialist?

Some people, many of them adults, cannot read this article. For them, the world seems to operate with a secret code. They haven't learned that code well enough to gain admittance to good colleges or decent-paying jobs.

Jean Comeaux, director of **Reading Enriches All Dimensions Inc.** in Rolling Meadows, has worked in the field for many years.

"We offer a dedicated team effort to restore any person, regardless of age or orientation, to his rightful place as an effective reader and student. When you think about it, the one common denominator of successful people is probably the ability to read effectively," she said.

Consider Tim, a sixteen-year-old high school junior. Because of his very high intelligence and compensatory talents, he coped quite ably in school until the end of junior high school. At that time, however, scholastic demands began to strain his skills (which he later learned were at only sixth-grade level) to the breaking point. He could no longer compensate; his once high grades became mediocre, then poor. Although Tim had worked with a tutor, the situation did not improve. Tim's parents discovered at **R.E.A.D., Inc.**, that tutoring does not affect a permanent solution. Diagnosis and remediation, on the other hand, by an experienced reading specialist at **R.E.A.D., Inc.**, restored Tim to his rightful place as a top-

notch student.

**R.E.A.D., Inc.** now boasts a 21-year history. It offers specifically designed programs for each person, based on a diagnostic evaluation.

All written language and communication skills are taught concurrently at **R.E.A.D., Inc.**: basic skills, study skills, functional writing skills, and test-taking skills.

Clientele seeking help from the clinic and center are made up of various types of people from all age groups: from those who have never learned to read, to accelerated students with poor test-taking skills or inappropriate reading speed to corporate employees who need individual or group in-

struction.

According to Comeaux, factors contributing to reading disability include: frequent illness and absences during the primary grades; emotional family trauma, such as a death or divorce during the first three grades; and a weak auditory or visual memory.

Comeaux said staff instructors are long-tenured specialists in reading, learning disabilities, and Attention Deficit Disorder. They know how to work with students to build skills and confidence, she said.

For more information, call **R.E.A.D., Inc.** at (708) 392-4747.

### Time Machine

What's it really like to ride on the famed Venice-Simplon Orient-Express between Venice and Paris? When the original Orient Express, the dream project of the Belgian Georges Nagelmackers, made it's maiden trip in 1883, it was nothing less than the supersonic Concorde of it's day. The luxurious Pullman carriages with their tapestries, velvet curtains, hot and cold running water and other innovations were the talk of Europe and heads turned whenever the train passed. Not much has changed. Today, the Concorde analogy is still valid. Whenever the blue and gold carriages pass during the 38-hour journey, people stop what they are doing and hoist their kids for a better view. Inside, it's very much like a working museum on rails, with the character of the original carefully preserved. Example: they still heat water for your in-compartment sink with a woodburning stove. Everything is up to date in the dining and bar cars; however, each is a mas-

terwork of crystal, velvet, and fine woodwork, and the quality of the cuisine is superb. Call **Carlson Travel** to relive this golden age.

### Venice Dining

Venice never disappoints: if you have never visited and have impossibly high expectations, Venice will fulfill them. If this is your third or fourth visit, you'll find that nothing has changed. Best time to go is October, although winter can be very romantic. Restaurant suggestions include Da Ivo (S. Marco, 1809, telephone 52-85-004), where the small, but delicious menu is written on a blackboard, and the famous Ciprianai, where the \$50 luncheon buffet is expensive, but includes all-you-can-eat lobster and other seafood specialties, plus the chance to see the rich and famous at play around the enormous swimming pool.

### Scotch hits 500

This is the 500th birthday of--are you ready?--Scotch Whiskey. Half a millennium ago, it seems, Scotland's King James IV issued an order to Friar Jon Cor to distill a spirit comprised of just three ingredients: barley, yeast, and pure Highland water. Its Celtic name was visquie-bretha, or "water of life", which we have distilled, if you will, into the word "whiskey". Anyway, it's all a jolly good excuse to visit Scotland this year and explore the world's only Malt Whiskey Trail, a 70-mile signposted route in the dramatic eastern highlands of Scotland. For a free copy, send a No. 10 envelope with 52 cents postage to: British Tourist Authority, 551 Fifth Ave., Suite 701, New York, NY 10176.

### Drug Warning

Here's something not many people know: it's illegal to bring even prescription drugs into the U.S. if acquired elsewhere, according to Conde Nast Traveler magazine. Stiff fines can greet you if U.S. Customs find the drugs in your possession.

## Historical Society Plans For Autumn Season

Once again, the Barrington Area Historical Society is welcoming the autumn season with its Annual Fall Festival. The event will be held on the grounds of the Society on Saturday, September 10, from 9:00 in the morning until 4:00 that afternoon. The lawn between the two Society's houses will be filled with antique vendors that will offer a wide selection of antiques and quality craft accessories for the home such as period furniture, glassware, linens, antique toys, dried flowers, and other quality items for the

home. Throughout the day there will be music, Victorian craft demonstrations and food services. And for those with a sweet tooth, The Applebee Bake Shop with its homemade goodies will once again be part of the festival. During the day, there will be Civil War tents set up on the grounds with men in the uniform of the Illinois Artillery A and women and children in period costumes demonstrating and explaining artifacts from the mid 1800's.

## Bonjour Mes Amis

It's sunny, hot and humid on this day of August, today; it's hard to imagine that I am already writing my September "letter". (In my mind, September = Fall. Where did the summer go...?)

Our new summer menu did very well with many lighter "summer" preparations. Thanks to an aspiring young artist, Taylor Morrison, we now display a beautiful new menu cover, quite unique! We also changed the format of our wine list, where all wines (22) are available by the glass as well as by the bottle. And the list will change completely every three months. It is a success at Retro, which led me to try it here... in vino veritas!

On the subject of wines, a guest winemaker's dinner will take place at **D & J Bistro** on Monday, September 12, 6:30 pm, featuring 6 of Merryvale Winery's

*Dominique and Jacqueline*

top notch wines with a Gourmet 6 course meal prepared by my associate chef, Masato Suzuki, and myself. Call me for more information. This also allows you to purchase wines at a very interesting price for home. I hope you are able to join us on this day.

## Casual Dining in an Elegant Atmosphere

Of course, there is always an array of tempting appetizers and homemade desserts to add the finishing touches to your meal.

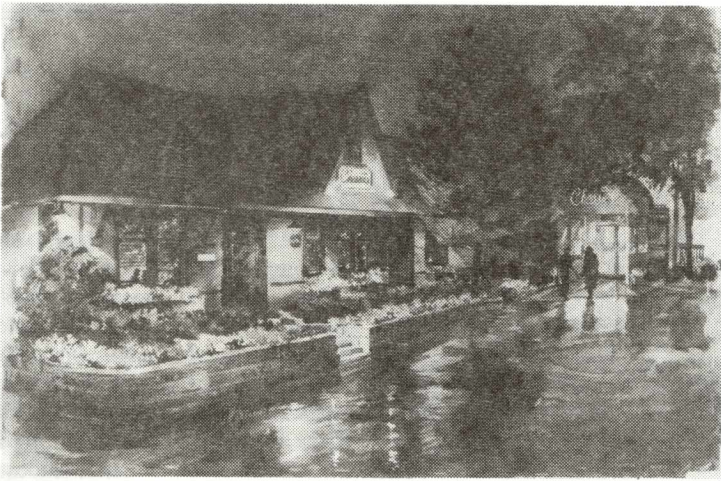

The atmosphere remains elegant—white-topped, candlelit tables overlooking downtown Barrington from the second floor din-

ing room and the spacious, wood-trimmed bar on the main level.

Jovan's also offers excellent values with their monthly specials. For September, **Jovan's Grill** highlights their rib dinner, bringing the taste of slow-cooked, fall-off-the-bone BBQ ribs home to Barrington.

**Jovan's Grill** serves lunch Monday - Friday, 11:30 am - 4:30 pm, and dinner Monday - Saturday, 4:30 pm - 10:30 pm. Reservations are recommended, especially for the weekends, by calling (708)381-4422. ## DAR To Focus On Indian Collection

Signal Hill Chapter, National Society Daughters of the American Revolution, will hold its opening Fall meeting of the 1994-95 season on September 20 at the Elgin Historical Society, 360 Park Street, Elgin at 12:30 pm.

Dessert and coffee will be served following the regular business meeting.

The program will be introduced by Chapter members Mary Glynn Carlson and Barbara Schöck. Program speaker will be Edna Mould of Elgin and her subject is the "Parlasca Indian Collection", including an Indian dance demonstration. This Indian Collection was named for a Mr. Parlasca of Elgin. He spent many years acquiring Indian attire, studying their dances, and work-

ing with boy scout groups who performed these dances in full regalia. At a later date girls were included in these dances to portray the female roles.

The Elgin Historical Society today houses many Indian costumes and some four hundred books.

This September meeting will provide the one opportunity for members to contribute to the American Indian Scholarship fund. Please make checks payable to Signal Hill Chapter, NSDAR and give or send to Treasurer Meg Kachelriess, 20757 North Juniper Lane, Deer Park, 60010

For membership information in the National Society please contact Registrar Anne Fiedler (381-5531).

## Thyme For Rosemary

As the days of summer dwindle down to a precious few, the members of the Garden Club of Inverness look forward to the start of a new year in a brand new meeting place. On Thursday, September 15, 1994, at 9:30 a.m., club members and guests will return to the rebuilt North Park Fieldhouse on Highland Road in Inverness. The featured speaker for the opening meeting will be Rosemary Divock of Elkhorn, Wisconsin, who will speak to the group on the subject of herbs. Her farm in Wisconsin is aptly named "Thyme For Rosemary." She will discuss how to grow various herbs, as well as how to cook with herbs both in butter and in vinegar. It should be a timely topic as the vegetable and herb gardens in our area approach harvest time.

Newly installed officers of the club for 1994-95 are: President, Carolyn Grosch; President-Elect, Lynne Bradshaw; Vice-President, Rosalie Schneider; Recording Secretary, Lee Stokes; Corresponding Secretary, Joan Liuzzi; Treasurer, Adele Walker; and Director, Karen Vozas.

Board members assuming their roles are:

Christmas Luncheon Chairman, Karen Vozas; Hospitality, Gwyn Piekarski; Membership, Janet Sholiton; Publicity, Eileen Mahoney; Ways and Means, Kathie Jarmolinski; and Tree City/Beautification, Harriett Goetter.

All are invited to attend this first meeting of the year, not only to learn some interesting facts on herbs, but also to have an opportunity to view the new fieldhouse as well. Come and see what the Garden Club of Inverness is all about. We welcome back our current members and extend a cordial invitation to prospective members. The club meets on the third Thursday of every month at 9:30 a.m., and the agenda includes a short business meeting, refreshments are served, and each month a featured speaker addresses the members on a wide range of subjects related to horticulture, design, and the environment. The Garden Club of Inverness is a member of the Garden Clubs of Illinois and the National Council of State Garden Clubs. Our membership Chairman, Janet Sholiton (991-4861), will be happy to answer any questions you may have.

## Tuxedo Junction Will Be "A Night Of Stars"

Palatine-Inverness Chapter member, Jetta Gross, is assisting two patients at the Infant Welfare Clinic in Chicago. They are signing stars for use at the Chapter's upcoming dinner dance, Tuxedo Junction "A Night of Stars."

Palatine-Inverness Chapter of the Infant Welfare Society of Chicago annual formal dinner dance Tuxedo Junction will be "A Night of Stars." On Saturday, November 12, 1994, the atrium of the Wyndham Hamilton Hotel in Itasca will be transformed into a galaxy of stars. Elise Detterbeck with her cochairmen, Janette Tepas and Darlene Kewin, is assembling the energy sources for the gala.

Upon arrival, guests will be dazzled by the unique items accumulated by Jetta Gross, Chris Asher, and Jennifer Ewers for the silent auction. Each item will have a gold star that has been signed by an Infant Welfare patient. These medically underserved and uninsured children are the genuine stars of the event.

While surrounded by the glow of starlight, each guest will be able to consult the constellations by visiting one of the psychics being gathered by Nancy Rogers and Holly Swan. One of the questions that may be asked of the psychics is, "Was that really Mae West?" Or, "Was that Bogie?" Janette

Tepas has a very interesting invitation list this year!

A scrumptious dinner will be served amidst twinkle lights, the glimmer of candles, and the sparkle of gold stars. After dinner, the Gold Coast Orchestra under the direction of the talented Dave Dougherty will invite guests to dance to a variety of musical tunes that capture the spirit of the evening and the approaching holiday season.

Guests will thank their lucky stars that they attended the 1994 Tuxedo Junction. All proceeds will benefit the Infant Welfare Society of Chicago mission "to provide services for the healthy physical and mental development of disadvantaged children to give them a foundation for a future productive and wholesome life." Since 1911, no one is denied care because of inability to pay.

The cost of the star studded event is \$100.00 per person and reservations can be placed by calling (708) 705-0450.

## The 'In' Crowd Benefit Dinner Dance

No, the horses didn't really wear poodle skirts and letter sweaters but the guests did. Strapless prom dresses, class rings on necklaces, hula hoops, and duck tail hairdos were a few of the 1950's fashions in evidence at The 'IN' Crowd Dinner Dance benefit for The Hospice of Northeastern Illinois and Barrington Youth Services on July 23. The event was kicked off (so to speak) with a dressage demonstration by Kate Moore, an accomplished competitor with her sights set on becoming a member of the United States Equestrian Team at the Olympics. Kate put her horse through an elaborate routine set to music while spectators munched hors d'oeuvres and sipped cool drinks.

By candlelight, a grilled dinner was served under green and white striped tents. Moonlight set the scene for dancing by the pool to the music of the Bill Porter Orchestra.

Throughout the party, guests returned to the silent auction tables to put down just "one more bid" for tickets to the Lyric Op-

era, a month of Italian dinners or horseback riding lessons among the many generously donated auction items.

A scrumptious dessert and coffee bar completed the planned festivities. For those who couldn't resist the pool and hot tub, swimming continued into the night.

Although the accounting is not yet complete, a five figure donation to the charities looks like a reality. This is the first benefit given by KIIB, a group concerned with the future of the Barrington area and its locally based charities. Keep It In Barrington.

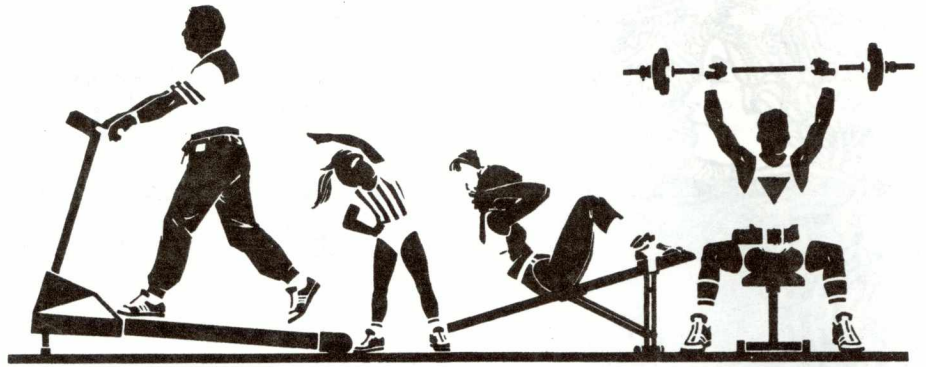

## Newcomers' BBQ

Welcome to the first Barrington Newcomer Cook Out. Bring the entire family to enjoy the music under a tent. We will be serving brats, hamburgers and hot dogs. Beverages include soda pop, beer and wine. There will be fun activities for children and

their parents such as pony rides, water games, painted faces and prizes. It will be a great way to meet new and current members. Sunday, September 25 at 12 noon. For more information, please call 304-0358 and R.S.V.P.

## Polo For The Prairie

Shown at the press party aboard the *Fantasy VI* kicking off "Polo for the Prairie 5" benefit are James Drury, Chairman; Susan Gohl, Event Coordinator; Laura Adams, Event Coordinator and Bruce Boyd, member of the Nature Conservatory Board. Last year's benefit raised \$60,000 for the Illinois Chapter of the Nature Conservatory. This year the target is \$75,000.

Over the past five years, "Polo for the Prairie" has distinguished itself as a major event dedicated to raising funds to continue the preservation of Illinois' dwindling natural grasslands.

The event was founded in 1989 by James J. Drury III, Midwest Managing Director of the executive search firm of Spencer Stuart.

An avid polo player with his own team, he developed "Polo for the Prairie" as a means of showcasing this thrilling sport while at the same time benefiting a worthwhile cause. Jim has chaired the benefit each year since its start.

"Polo for the Prairie" combines the op-

portunity to support the important work of the Conservatory while experiencing the excitement of a six-chukker polo match and the ambience and social enjoyment found at the Polo Club of Oak Brook.

This year's polo outing to benefit The Nature Conservatory will be held Saturday, September 10 at the Polo Club of Oak Brook. Cost is \$150 per couple.

The Polo Field entrance is a half mile west of York Road on 31st Street in South Portion of Butler National Complex. For more information: day—(312) 822-0080; evening—(708) 381-2446.

## Hypnoanalyst Has Program For Overweight

"Overeating is a symptom, not the main problem," says **Sandra J. Buzan, a Hypnoanalyst**, who has had success with her program.

Overeating is how some people deal with problems. It is a clear sign that something is not going right in their life and they turn to food pushing down their feelings.

Diets don't work because they address the symptoms, not the cause of excess weight. "I have found that most people know what they should be eating, but cannot consistently maintain a program," says Sandra.

It's not about willpower. It is about un-

resolved issues.

With hypnoanalysis, the underlying issues can surface and be resolved. With hypnosis you can learn to relax. With analysis you can resolve the issues which trigger your overeating. Only then will a healthy eating and exercise program work.

**Sandra J. Buzan, M.A.**, combines 15 years of healing the mind and body using hypnoanalysis and psychotherapy. She is in private practice at 421 North Hough Street, Barrington, Illinois. She works with individuals, families and groups. For details, call (708) 382-0930.

## How To Choose A Dance School For Your Child

Many parents of young children who desire to take dance lessons find themselves unsure as to how to choose a school. Frankly, a recommendation from a neighbor or friend is not enough. You should always visit the school in person. The following are some guidelines as to how to choose a school in order to insure your child's proper instruction and personal safety.

**Facility**—The dancers should have a large room with a special sprung floor. Dancing on concrete covered with tile or other hard surfaces is dangerous. There should be ample mirrors and well-constructed ballet barres for older students.

**Observation of Classes**—Before enrolling in any school, you should make an appointment to observe a class. Even if you are not knowledgeable, you will be able to judge certain critical things.

- 1) Is the teacher well organized and pleasant?
- 2) Is he/she knowledgeable? (Check the school brochure for teachers' backgrounds.)

3) Are the teacher's corrections made clearly and in a positive way?

4) Are the students well behaved and attentive for their age?

**Performing Opportunities**—As dance is a performing art, it is imperative that the students get the chance to dance for an audience. However, a good school should stress education and not detract from that for the sake of performing. A fancy costume will never cover up poor dancing!

**Tuition**—Do some comparison shopping as to class rates. Classes should be competitively priced but one should not think that the cheapest class means more for your money. As with everything, quality costs more. Schools should have discounted tuition for multiple classes if your child is a serious student. Family discounts may also be available.

Even pre-schoolers taking lessons should have a fun, interesting and beneficial class. A little extra time will result in a decision that you and your child will be happy with for years to come!

8. Reach out to help others.

9. Think young—age is only a number!

## Combating Arthritis With Exercise—Part II

*Dr. Reffell is a graduate of the National College of Chiropractic. As a chiropractor and full primary care physician, he is uniquely qualified to diagnose and treat the aches and pains that arise from daily living. He has an office in Barrington and welcomes the opportunity to meet with you concerning your health.*

You will recall from last month's article that arthritis is a group of diseases that includes rheumatoid arthritis and degenerative joint disease (DJD). We described these disorders and discussed the benefits of a regular exercise regimen that must include three basic elements: stretching, strengthening, and endurance. (Of the three, stretching is the most important component...never neglect it.)

This month, we will discuss some general rules that apply when beginning any serious exercise program and then go over a few exercises to get you started. Before starting any new routine, consult with your physician to ensure your body can withstand the rigors of such a program.

Start gradually. The temptation to avoid when beginning your routine is overkill. Start gradually and work into it... you've got the rest of your life ahead of you. (One concerned reader called in because she'd heard that it's possible to tear a muscle by overdoing a stretch. It's true! You can hurt yourself.) Take it easy and follow your doctor's instructions to the letter. As you begin, some pain will likely develop. Don't let it stop you unless it's unusual or severe, in which case you should stop performing that particular movement and move onto another. **Dr. Reffell** suggests, "You can always cut back but shouldn't stop exercising altogether. Remember, with persistence and regularity, exercise becomes easier and less painful. But pain is never normal because it indicates an underlying problem that should be looked at by a competent physi-

cian."

Always warm up. Warm muscles stretch better than cold ones so walk in place (or on a short course) for a few minutes, then begin with a few gentle stretches once your muscles warm up. If needed, massage tender and stiff joints. Best of all, wear something that keeps troubling joints warm—like sweats or leg warmers.

Vary the workouts. Different exercises affect different muscle groups, so you must perform a number of routines to give your body an overall workout. Start with three repetitions of each exercise, then work up to ten repeats over the course of several weeks (or as many as your doctor recommends).

NOTE: Unless you are healthy and have only mild DJD, talk to your doctor before trying the following, or any, exercises.

(The arthritis Foundation provides valuable and free information about all types of arthritis. You can reach them at 1314 Spring St. N.W., Atlanta, Georgia 30309; Tel: (404) 872-7100. You can also schedule an appointment with **Dr. Reffell** by calling his Barrington office at (708) 382-0011.)

Hands -- Twist a large rubber band around all five fingers. Gently spread your fingers wide apart, using the rubber band as resistance.

Low Back -- Sit erect with feet apart. Place fingertips on shoulders with elbows spread wide apart. Gently bend over and twist so that you move one elbow across and down to the opposite knee. Straighten up and gently bring both elbows back. Repeat on other side.

Upper Back & Neck -- Sit on the floor with your back straight and knees straight but not locked. Hold the ends of a long towel and loop it around the feet. Start with arms extended, in front, hands slightly lower than shoulder level. Pull the towel toward the armpits without lifting shoulders or lean-

## Look Good, Feel Great! Permanent Hair Removal By A Registered Nurse

Electrolysis is the only safe, sensible and permanent treatment for the removal of unwanted hair. It can free you from the limitations and frustrations of temporary remedies (tweezing, waxing, bleach, depilatories) which only result in the regrowth of coarser and more deeply rooted hair.

Electrolysis in this office is provided by expertly delivering a small amount of electrical current through a probe into the hair follicle and the hair root. By using heat (shortwave), chemical action (Galvanic), or a combination of the two (the blend method), the blood supply which nourishes the hair is destroyed. The blend is extremely effective for treating coarse and deeply rooted hair. The blend has been found to be very beneficial to those with sensitive skin as it provides a very gentle treatment with smooth, clean skin remaining. These are the only medically approved methods of permanent hair removal. The blend and shortwave modalities are utilized in this of-

fice with great success.

Electrolysis in this office provided by a Registered Nurse, assures the client of a safe and effective treatment. Strict sterilization standards are adhered to as the requirements for sanitation and aseptic technique are strictly followed. These standards include the use of sterile, disposable probes, sterilization of instruments, hand washing and the use of a fresh pair of examination gloves for each treatment.

Electrolysis will enhance your appearance and lift your spirits. Now is the time to look good and feel great! The results you desire are only a phone call away. Convenient day, evening and Saturday hours are available.

**Absolutely! Electrolysis Salon & Boutique** is located at 759 W. Main St. in Lake Zurich (S.W. corner of Rts. 12 & 22 in the courtyard between Just Oak and Pasta Makers). Call **Debbie Fritzhall, R.N., C.P.E.** at **(708) 550-0100**.

## End of Summer Special

We are close to the end of Summer and need to repair the sun's damage to our faces. The heat of Summer weather triggers the oil glands to produce a layer of oil protecting the skin from dehydration. All of this activity alters the normal condition in the Summer and will absorb heavy applications of makeup, suntan cream and oil, clogging,

pores with impurities and restricting the intake of vital fresh air.

Regular facials are needed to help cleanse the oil bacteria build-up. Contrary to what most people believe, deep cleansing facials will not strip tanned skin.

Be sure to take advantage of our end of Summer special during September as seen in our ad for first time clients.

## Believe It Or Not, There Is Still Hair In The Scalp Inside The Follicles

Now you may have hair you never dreamed of. No, this new product doesn't claim to grow hair, it claims the hair is already there in the follicles. Dr. Burch Stewart of Applied Consumer Research Labs says in part, "After a couple of treatments, I was amazed to find that many hairs are indeed trapped under the scalp and can emerge after the cleaning process is used."

"For three partially bald individuals - tested for three months - a considerable number of hairs appeared. The results were very pleasing for these, and three other individuals, who now have normal mature hair on formerly thinning areas. The full treat-

ment normally requires six to twelve months."

"The inventor of this hair system in Ms. Jacqueline Sabal, who developed the process and the herbal product a few years ago. Based on our testing, I know the system does clean out the follicles and allows hair from the follicles to appear fuller and thicker."

"I believe that this system is much safer than any other methods such as Rogaine (Minoxidil), or hair transplanting."

The product is called "Foli-Kleen 2000 Formulas", consisting of herbs, formulas and a shampoo.

## Dental Implants Are The Modern Method For Replacing Missing Teeth

Dental implants solve many problems associated with removable dentures. While conventional dentistry enables some people to wear dentures comfortably, research has shown 85% of the estimated 32 million people with dentures in this country experience some discomfort and difficulty due to their false teeth.

Dental implants eliminate the discomfort and embarrassment often associated with dentures. Where some teeth are missing,

dental implants may be used to eliminate the need for a removable partial denture by providing the support necessary for attachment of a fixed bridge. Patients with implants have reported their confidence has been restored and their quality of life improved. Dental implants help prevent the premature loss of remaining teeth and are a good investment in oral health.

## Prepare Your Home For Winter

Bill Schafer - President

Homeownership is viewed by many not just as shelter, but as an investment, and for most Americans it has been the largest investment they've ever made and probably the best. But unlike stocks and bonds, houses are physical structures, of wood and brick and mortar. Houses are homes, the places where people live their lives, raise a family and often eventually retire. So a house can be viewed in two ways: as a home to live in, in comfort, and as a financial instrument.

Just as there are investment guides for stocks and bonds, there should be one for your home. Schafer Builders, Inc. offers guidelines for your home. Guidelines which will help protect and add value to your home.

Now that we are entering a season of harsh weather, it's important to take advantage of these few remaining warm weather

Joe Schafer - Vice President

weeks and prepare your home for winter. Check the exterior of your home for cracking or chipping of paint. Don't think you'll save money by waiting till spring to paint the exterior of your home. Exposed wood could be seriously damaged during the winter months, costing you valuable dollars to repair in the spring.

The same holds true for masonry, driveways, roofing and windows. Don't think you'll save money by waiting to repair problem spots. Problem spots only get worse during the winter.

Schafer Builders, Inc. will help protect your home investment making your home worth more in the long run. Give yourself greater peace of mind, with less psychological, financial and physical stress just by knowing that things are in good working order. Call Schafer Builders, Inc. today at 815-459-1333.

## Good Kitchen Substantially Increases Value Of Home

"It's a proven fact that homes with good kitchens sell faster, and get their asking price," says Jim Walker, Certified Kitchen Designer at **Barrington Homeworx**.

Here are some suggestions Walker recommends that both buyers and sellers consider when analyzing a kitchen.

**Adequate Counter Space**—The basic requirement is at least 24 inches of space on either side of the sink and 12 to 18 inches on each side of the range.

One common omission is an isolated refrigerator with no adjacent counter space. The need for landing space next to the handle side of the refrigerator is especially important, because we usually remove more than one item at a time, Walker said.

**Ample Storage**—Cabinets should be positioned at point of first or last use. There should be storage for dishes near the table or dishwasher, drawers for utensils near the range, and shelves for canned food near the food preparation area.

**Adequate Ventilation**—This is especially important in open-plan houses, where the barriers between kitchen and the rest of the home are minimal.

This "great room" concept demands adequate venting of smoke, grease and odors to the outside.

**Safety Considerations**—This can be as basic as developing a traffic pattern that does not interfere with the work triangle. The fewer the number of people who enter the

work triangle, the less chance there is for an accident to occur.

Other safety considerations in the kitchen should include avoidance of sharp corners on islands, which are usually eye level with children and hip-level with adults.

**Adequate Clearance Spaces**—For safety, comfort and efficiency, it's imperative that clearance spaces be allowed for opening the oven, refrigerator, dishwasher and cabinet doors, using the appliances, passing behind seated diners and passing other family members in the kitchen.

**Appliance Placement**—In most families, the refrigerator is the most-often-used appliance. Regardless of the model chosen, good kitchen design places the refrigerator in a spot within the work triangle, but still accessible to the rest of the family without entering the work area.

**Professional Design**—The rapid growth of the kitchen industry has spawned a whole area of specialization in design of this room. The National Kitchen & Bath Association has a certification program for kitchen designers (CKD).

Jim Walker, a founding partner of **Barrington Homeworx Kitchen Center** has been a Certified Kitchen Designer since 1984.

Professional design can make the difference between a kitchen that just looks pretty and a kitchen that is both functional and beautiful.

## North Gallery Auction & Dinners

American Express Gold Card Events today announced that they have created an exclusive series of Art Auctions at Kass/Meridian Galleries, followed by a special dinner package at The Eccentric throughout September for American Express Gold Cardmembers.

To kick off the River North Gallery Walk on September 9, there will be an opening reception at Kass/Meridian featuring Pop artists Romero Britto and sculptor Brad Howe from 6-9 p.m. The following evening, Saturday, September 10, the first of three Art Auctions will commence with art viewing, wine and hors d'oeuvres at 6:30 and the auction beginning at 8 p.m. Dinner will immediately follow at 10 p.m. at The Eccentric, 159 W. Erie.

Alan Kass, owner of Kass/Meridian Gallery noted, "Our Art Auction concept is extremely popular. It appeals to beginning art collectors and helps them learn about art, ask questions and start a passion for collecting. Some of the art to be auctioned has been in the gallery for many years. Additionally, many newly-acquired original lithographs and etchings will be offered as well." More than 150 framed oils, etchings and sculptures by modern masters such as

Henry Moore, Raoul Dufy, Paul Cezanne, Auguste Renoir, Mary Cassatt, Toulouse-Lautrec, Rembrandt and contemporary artists Roy Lichtenstein, David Hockney, Jim Dine, Alexander Calder and Mark Kostabi, will be sold at auction. Prices will range from \$400 to \$4,000 for these artists' works, many of which are exhibited in museums and galleries throughout the world.

Chef Jody Denton at The Eccentric has put together a special menu which features a choice of Classic Caesar Salad or Mixed Green Salad; Grilled Pacific Salmon or Maple Pecan Crusted Chicken; Oprah's Potatoes and Chocolate Bread Pudding or Lemon Tart. A glass of wine, soda, tea, coffee, tax and gratuity are also included for these special evenings.

The Art Auctions, followed by dinner at The Eccentric, will continue on Saturday, September 17 and 24 at Kass/Meridian as well. The auction and dinner cost is \$30 per person for American Express Gold Cardmembers, and gallery and restaurant capacity is limited to 275 each evening. Kass/Meridian Gallery is located at 215 W. Superior in Chicago's prized River North district. For further information on this unique event, call 312/266-5999.

## Goya Exhibit At Art Institute

Francisco Goya (1746-1828) was one of Spain's greatest painters and an inspiration to later generations of artists. The Art Institute of Chicago is presenting the final showing of the important retrospective exhibition *Goya: Truth and Fantasy, The Small Paintings* now through October 16, 1994, following runs at the organizing institutions: the Museo Nacional del Prado, Madrid, and the Royal Academy of Arts, London. The Art Institute is the only American venue for the exhibition.

This is the first exhibition to provide an overview of Goya's entire career as seen through his paintings in small format, including some of his most intimate and brilliant productions. On view are approximately 80 works drawn from public and private collections in Europe and North and South America, many never before seen in the United States, including pictures conceived in series and reunited in the exhibition for the first time since Goya's death. Ranging in size from three feet by one foot, at the largest, to two inches square, they

encompass an enormously wide range of subjects and span more than 50 years of artistic activity.

Joe Wolnski is a member of the English Department at Barrington High School and teaches an "Interrelated Arts Class". At the Art Institute of Chicago, Mr. Wolnski studies the Philip Yenawine approach to art advocated in his book *Looking At Modern Art*. This method will be explained by Mr. Wolnski and practiced by the attendees. This method emphasizes depth rather than breadth when discussing an art-

## Delftware From Colonial Williamsburg At The Art Institute

More than 120 pieces of pottery from the collection of British delft at Colonial Williamsburg—the most comprehensive in any U.S. public museum and among the best in the world—will be on view at The Art Institute of Chicago this fall. The traveling exhibition *British Delft from Colonial Williamsburg* will open in Galleries 141 and 142 at the Art Institute now through November 6, 1994, before returning to The DeWitt Wallace Decorative Arts Gallery in Williamsburg, Virginia (January 27, 1995-January 5, 1996). The exhibition is organized by John C. Austin, Colonial Williamsburg's consulting curator of ceramics and glass. *British Delft from Colonial Williamsburg* is made possible by Sara Lee Corporation.

The predominantly blue-and-white palette of delft pottery, inspired by Chinese porcelains, was imported in growing quantities into Europe in the seventeenth century. European potters, unable to replicate the white, translucent body of Chinese porcelain, instead masked cruder clays with an opaque tin-oxide glaze to create a white foreground for decoration with blue, as well as other colors. Delft, though made throughout Europe, took its name from the Dutch town Delph, which became, an important center for its manufacture. Because it was relatively inexpensive to make, delft was available to a wide spectrum of society, both in Britain and in the American colonies during the eighteenth century. During the first half of the eighteenth century, delft was

London. Mr. Nobody, dated 1682. Tin-glazed earthenware. Height, 8½ inches

probably the most commonly used ceramic in America.

The pieces on view in *British Delft from Colonial Williamsburg* were crafted in Great Britain from the sixteenth through the early nineteenth centuries and range from utilitarian to spectacular. Included are objects used in drinking and dining both in taverns and at home, such as posset pots, mugs, goblets, jugs, punch bowls, and teawares. Other items on view will be large dishes for display, known as chargers, painted with British monarchs from Charles I to George

## Jay Lee Home & Crafts Presents Decorative Furniture Painting

Kathleen L. McCann and **Jay Lee Home and Crafts** proudly presents classes in decorative furniture painting. A first in our area, these classes will enable students to create a family heirloom in a four week session.

Kathleen has studied in France and England. She graduated from the American Academy of Art and also has done three designer show houses this summer displaying her unique hand painted furniture. In addition she has also painted the walls of Ronald McDonald House.

Now she has come to **Jay Lee Home and Crafts** with all her talent to teach furniture painting starting the end of September. Her first offering will be a jelly cabinet reminiscent of her European studies and travel. A thatched roof cottage and country gardens warp around all three sides of the cabinet, creating a superb effect from every angle.

Although Kathleen designed the scene especially for the cabinet, she has created a pattern of the design so that folk artists as well as the fine artist will be able to create this masterpiece for themselves, at **Jay Lee Home and Crafts**, located at 395 Cary Algonquin Rd. in Cary.

**Jay Lee**, with its fine staff of teachers, has been offering folk art, stenciling and

wall finish classes for over 13 years in the area.

Together we look forward to creating many designs to enhance the homes of our students.

## Newcomers Coffee

Barrington Newcomers Club will kickoff their 1994-95 year with a coffee in the main meeting room of the Barrington Public Library on Wednesday, September 14th at 9:30 a.m. All members and prospective members are invited to this coffee which will introduce this year's activities. The newcomers club is open to any newcomer who has not lived here longer than two years. A

member can remain active in the club for four years after joining. The purpose of the club is to acquaint new residents with Barrington socially and civically, helping them know the community and the community to know them. For additional information call Nancy (382-5818) or Lizzie (382-2719).

II; an architectural tile picture in which 55 individual tiles join to form one narrative scene; a decorative pair of shoes; a shaving basin; and a satirical figure, Mr. Nobody. The exhibition examines the form and function of these objects and explores the range of decorative motifs used on this popular ware. The variety of objects in *British Delft*

from Colonial Williamsburg—from the prized early seventeenth-century pieces created as pure aesthetic statements to the more commonly used delftware of the mid-eighteenth century—present not only a history of the manufacture, purchase, and use of British delft, but offer a review of the entire society itself.

tapered design for water run off, polyester (seat belt) handles and tie down straps,

Uniroyal's Naugahyde® brand topside vinyl, ventilated screen underside, sealed foam inserts to resist moisture, 5052 aluminum interior channel supports, and durable and lightweight design.

The Spa•Mate is available at Swanson's Spas & Saunas on Rand Road in Lake Zurich.

## Draperies & Blinds, Etc. Offers In-Home Shopping Convenience

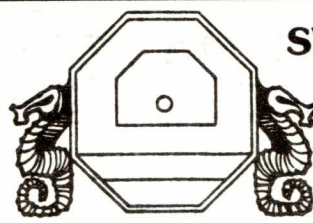

"Many of our customers have such busy schedules that it was difficult for them to arrange a time to meet at our Lake Zurich showroom," says Willis Elias, owner of Draperies & Blinds, Etc. "So, we decided to go to our customers."

If you ask either Elias the location of their 31-year-old company's new showroom, they'll tell you it is in the trunk of their car. Actually, the shop is in Zion, IL, but they pack up the samples and travel to customers all over Chicago and the suburbs. This saves the customer time, and also allows them to see how the fabric texture and color looks with the rest of their furnishings. "We make all of our draperies," Patti Elias says,

"so another major advantage is that when Willis or I see the location early in the game, we can make unique recommendations that better address the look and feel of the home or business."

Both Willis and Patti have found that their brickless and mortarless showroom concept has resulted in additional savings they've been able to pass along to their customers - a real bonus considering customers already take advantage of "factory-direct pricing" so to speak.

"Who knows," says Willis, "next year our customers may want to see our selection on CD-ROM!"

"Many dealers do not receive this recognition in twenty years."

Norini believes that **Distinctive Kitchen Designs'** success is the result of dedicated hard work and referrals from satisfied clients. "We specialize in custom kitchen design," said Norini. "We are a design firm, not just a retail business."

"We do not do installations, plumbing hookup or electrical work," Norini emphasizes. "We leave that up to the contractors since that is what they do best. Designing is what we do best. "Norini also emphasizes that each kitchen designed by her and her designers is completely custom. "We work with all ranges of budgets, tastes, styles and preferences."

**Distinctive Kitchen Designs** is located in Wauconda at 203 South Main Street. Star Norini and her staff of designing professionals are waiting to make your dreams of the perfect kitchen come true!

## BAAC's "Opposites Abstract"

The Barrington Area Arts Council's (BAAC) September exhibit, entitled "Opposites Abstract," gets underway with the opening reception from 6:00-9:00 p.m. on Friday, September 9, at the BAAC Gallery, 207 Park Ave., Barrington. The opening coincides with the BAAC-sponsored Gallery Walk.

The exhibit contrasts hot colors and cold metal in abstract designs. Three artists blend two and three in dimensional works in a variety of mediums and colors. Calman Shemi is an internationally known artist working in a wide range of mediums, including painted sculpture, lithography and

paintings on canvas and paper. This Israeli artist is represented in Illinois by Terri Miller of Northbrook.

Sculptor Rita Sargen-Simon of Evanston has used ceramics, but now uses welded steel and sheet bronze for three dimensional pieces abstractly woven to fuse positive and negative space.

Barbara Davis, jeweler, combines sterling silver, gold and semi-precious gemstones into necklaces, pins, bracelets and earrings of abstract shapes.

## Some Things You Should Know Before Buying A New Lamp Or Shade

Finding that perfect lamp or getting the right new shade can be a lot of fun -- or a tedious chore. It all depends on where you go to do your shopping. Because unless you go to a full service lamp store—like **L & W Lamps** in Barrington, you are selling yourself short. And, you are likely to pay a high price for it.

Here's why:

**Selection**—At any given time, **L & W Lamps** has hundreds of lamps and thousands of shades on the floor and in stock. And if you still can't find what you're looking for, Jeff, the owner, will personally try to locate and order the piece for you.

**Quality**—Some quality differences can be obvious. Others you won't be able to detect until it's too late and you are stuck with an ornate piece of unrepairable hardware. A full service lamp store, like **L & W** on the other hand, knows their merchandise and can guide you towards the best quality for your decorating dollars. "Besides," says

Jeff, "we refuse to carry inferior merchandise."

**Price**—The great myth. Department stores and mass merchandisers do not carry better prices on comparable lamps and shades. They might carry some low priced, low quality knock-offs of trendy designs. But if you want the best quality for the best price, go to **L & W**. They even offer you a price guarantee!

Need more reasons? **L & W Lamps** also does superb custom design work, offers expert refinishing and replating services and does repairs, too. Small wonder family owned and operated **L & W Lamps** has been the insider's choice among area decorators for the last 16 years. And in August they were again selected by Chicago Magazine for their issue on Best Bargains in the entire Chicago Metropolitan area! So don't sell yourself short. Stop by and see what **L & W Lamps** can do for you.

## CL Service League Celebrates 20th Annual Tour of Homes

The Service League of Crystal Lake proudly announces its 20th annual tour of homes to be held Friday, September 30th. Housewalk chairman, Kathy Harris, and her co-chair, Maureen Kensick, have been putting the finishing touches on this year's tour. For the third year, the Service League will also host a gift fair called "Gatherings" at Turnberry Country Club the same day.

Four lovely Crystal Lake homes are featured on this year's tour, ranging in style from Cape Cod to French Country. The homes are those of Mr. and Mrs. James Boback, Mr. and Mrs. Edward Jackson, Mr. and Mrs. Richard Naughton, and Mrs. and Mrs. Kenneth Preski. Each home will have its own theme of "Celebrations" and will be decorated to enhance the style of the individual house.

The Boback home on Crystal Lake's north shore has been recently built to replace the family's original cottage on the same lot. The country style of this house abounds in history and charm, from the worn brick entry to the rough-hewn barn wood used within, and in contrast, the magnificent cherry millwork done by an Amish cabinet-maker. The Boback's kitchen is a special place where the family gathers around the warmth of the kitchen fireplace to enjoy the culinary specialties from the "his-and-hers" cooking areas.

In Turnberry, the Preski home is a spacious example of French Country architecture and interiors. The tray ceilings used in the living, dining and master bedrooms create a formal atmosphere. The bright, two-story family room centers around a large entertainment unit and is warmed by a white marble fireplace. This five bedroom, four and one-half bath, home on the 13th green of the golf club is elegant in every detail.

In keeping with today's changing lifestyles, a townhome has been added to the tour. The Jackson home offers luxurious living in contemporary style with a 90's flair—maximizing while minimizing. Fresh white walls and trim are accented by bright florals and sunlight everywhere. Bits of country add charm in an eclectic mixture of old and new. The white baby grand piano in the living room lends formality, while the antique wicker bassinet and hand-stitched quilt in the guest bedroom create warmth and a tie to family history. This home is unique with its two fully equipped kitch-

ens, the second in the basement for entertaining ease.

On Crystal Lake's south shore, the Naughton's have renovated and added a large family room to their 60-year old lakefront Cape Cod home. Decorated in sharp contrasts of black on white, the Naughton's have kept the traditional style of the home by maintaining all original woodwork and doors, and appointed with dramatic accents for a distinctive style. The artwork in the home is notable in its variety and interest. The many floral treatments around the home lend colorful flair. The spacious, new family room is surrounded by French windows to present an awe-inspiring view of the lake.

The homes will be open for tours from 10:00 am to 3:00 pm and again from 6:00 pm until 9:00 pm. Advance tickets sales are available for \$12 at Flowerwood and The Fabric Shop in Crystal Lake as well as the Crystal Lake Chamber of Commerce. Tickets may be purchased the day of the walk at the Chamber of Commerce, or at the individual homes, for \$15. Seniors tickets are \$ 10.

The same day, the Service League will also host "Gatherings" at the Turnberry Country Club during the hours of the housewalk. "Gatherings" is a marketplace of uniquely crafted items including tapestry and woven items, jewelry, personalized children's accessories, calligraphied stationery, floral arrangements, one-of-a-kind Christmas decorations and much more. There is no admission charge for "Gatherings." Everyone is welcome to come in and browse through the interesting variety of wares on display. Come see a calligraphy demonstration, and stay for a relaxing lunch at the country club. Reservations for lunch are recommended; contact Turnberry Country Club at 815-455-0501.

Funds raised from the annual housewalk and gift fair are used within the community to offer emergency medical services, clothing, food and other assistance to area families. Last year, more than \$10,500 in scholarships alone were awarded to local high school students for their continuing education. Our welfare efforts far surpass those figures thanks to the continued support from our friends in the community who come share the fun of our activities. In addition to our annual housewalk, Service League

## Grove Avenue Carnival Of Fun

The Ferris Wheel will be turning for the eighth consecutive year at Grove Avenue School as the PTO sponsors its annual Carnival of Fun. The PTO will transform the school grounds into a wonderland of fun with 16 exciting rides, 13 fun fair booths, a large array of foods in an eating tent, plus free entertainment.

Each year many hours of planning go into making this a successful fund raiser. This summer co-chairmen Ricki Gilbert and Andrea Splett have been hard at work to insure everything will be in place and ready for the carnival to begin. Ricki feels the carnival should be safe family entertainment which benefits not only Grove School but also community organizations and District 220. The PTO contributes about 10% of the funds generated by the carnival back to the community through organizations such as Barrington Youth Services, DARE, Barrington Historical Society, ABCDE, Sunny Hill Homework Club, and Images.

Ricki hopes the carnival will be profitable and also be a positive place for community interaction and involvement. Thanks to the community spirit and generosity of neighbors like the Jeff Blomsness

family, the carnival boasts 16 professional rides guaranteed to please the entire family. This year's selection includes the Kamikaze Gravitron, High Roller, and for the small set; Apple Spin, Carousel, and motorcycles to name a few. The Blomsness family owns and operates Blomsness All Star Amusement Company. They have always taken an active roll, along with 400 parent and teacher volunteers, to make the carnival a success each year.

The times for the carnival vary each day—Friday, September 23 from 5 - 10:30 PM, Saturday, September 24 from noon - 10:30 PM, and Sunday, September 25 from noon - 6:00 PM. Lunch and dinner will be served and there will be many hours of free entertainment.

The carnival will be fun for the whole family and keep in mind that even if your child does not attend Grove School, money generated is donated to benefit all students in District 220. Grove Avenue School is located just east of Route 59 and Barrington Road. Please come join the fun, rain or shine. You and your family are sure to have a wonderful time. Free parking is available.

## Doesn't Every Child Deserve To Be An Achiever?

It's **Kumon's** quest to provide every child with the opportunity to achieve success in math while developing self-confidence in academics and in life. In too many schools children are either being left behind in their classroom studies, or not being challenged enough to develop their full potential. The fast-paced school curriculum allows no time to reinforce even the most fundamental math facts. We need to get on the ball and realize what the Japanese have already made their reality. A reality which has fallen by the wayside in the United States. The reality is that in academics, "practice makes perfect!" Is this the mysterious answer to success in education? The solution which the Asian cultures have embraced?!

There is no madness to this method! The **Kumon** method was developed in Japan over 35 years ago by Mr. Toru Kumon, a math teacher. This method is decidedly simplistic. Practice, practice, practice, and when you're finished you practice some more. This philosophy is not foreign to Americans, just taken for granted. It's the same philosophy which brings us such heroes as Michael Jordan, Emmitt Smith or five time Olympic gold medalist, Bonnie Blair — all athletes who practiced many hours to become the best at their respective sport. Michael Jordan did not start

*Kumon Instructor, Jennifer Ols, providing guidance to students*

playing basketball by jumping from the free-throw line, floating in the air and slamming the ball with grace and confidence. He first learned the fundamentals and mastered them, and with this mastery of fundamentals he is able to do what he does so very well. Think of **Kumon** as the Michael Jordan of math. (Air Kumon!)... each child soaring to new heights which they felt they might never reach, not only in math, but also in their self-confidence. A confidence which is evident in their other school subjects as well.

**Kumon** is the secret which can enable every child to achieve success in academics... to be confident in themselves and their abilities... to motivate them to excel in school, sports, music and real-life experiences.

**Who Does The Landscape Plan And What Does It Tell Me?**

A good landscape plan is the basis for a quality job. Anyone can call themselves a designer while a degreed architect has completed 4-5 years of study involving horticulture, soil, surveying, site plans and construction. The usual results? You receive a superior plan.

**How Do You Determine What My Landscape Requirements Are?**

At the initial meeting with the homeowner, we ask a series of questions involving your lifestyle and needs. Your answers become the direction of the plan and is the first step in creating an outdoor living space that fits your family requirements.

**What's It Going To Cost?**

Cost is determined by your needs and budget. Once those are determined, we draw up a plan along with a proposed budget. It's important for you to be satisfied

with the design of the plan at this point. If there is something you want to revise, we will do that until you have the results you want. We do not charge for our plans when the customer contracts us to do the installation. Until a contract is signed though, we consider the plan to be our property and it cannot be put out to bid unless you purchase the plan from us.

**What Guarantees Do You Offer?**

All plant materials (except annuals) are guaranteed for one full year from date of completion. We are not responsible for acts of God or damage by others. If the owner elects to enter into a separate contract for maintenance services, all plant materials, except annuals will be guaranteed for the length of the contract.

So, whether you're thinking about a few changes or a complete renovation, we would be happy to help you out. There's no obligation in meeting with us, so what have you got to lose? Give us a call at 708-381-1611.

ing back. Slowly return to start.

Studies reveal that more than eighty-five percent of Americans will suffer some sort of incapacitating pain at some point in their lifetimes. Many of these individuals will look toward chiropractic for relief. And they're in good company. Many well-known celebrities and sports stars use chiropractic: David Letterman, Elizabeth Taylor, Mel Gibson, and Joe Montana, to name a few. And do you know why? Because it's safe!

Most football and basketball franchises have a chiropractor on the team. Golf and tennis professionals and every U.S. Olympic Team use chiropractic care to boost peak performance. (In fact, Dr. Reffell has personally treated Olympic Champion athletes).

So if you're hurting and would like to experience relief in a warm and friendly environment, consider visiting Dr. Reffell at Northwestern Chiropractic Center.

## Tips from the Top of The Rock™

Margaret R. Semrad  
Broker/Manager

Do you ever read something that pulls you up short. That's what happens to me when I read what nationally syndicated columnists write about realtors.

Anyway, I was reading an article by Jack Anderson and I came across the line that a Realtor "is a money-grubber motivated solely by self-interest." Now, I think you'll admit that this is the kind of a line that will pull you up short. If there's anything in the world calculated to make a Realtor angry at you, it's an insinuation that the Realtor is focused solely on making a dollar.

Also, each weekend, in the Real Estate Section of major newspapers around our country, newspaper articles are devoted to instructing the public on how they should deal with Realtors and almost always these same articles are written in a negative manner.

This month I thought I would like to talk about THE REALTOR.

Initially, it should be stated that the fact working people expect to be paid for their work, does not mean they didn't care about the quality of that work. The carpenter who builds a house wants to be paid but he also wants the house to stand for many years. Although the surgeon wants to be paid, he is primarily interested in his patient's life. Realtors also are working people.

Realtors are in a service business... they serve and give to others. Like the carpenter and the doctor they expect to be paid for their work. But good Realtors view themselves as helping buyers and sellers satisfy their own wants and needs, and fulfilling their hopes and dreams. They give of themselves.

From Issues & Trends, a quarterly publication of the Real Estate Brokerage Managers Council, Superstar Ron Rush of Fairfax, Virginia was quoted saying "One of the things we (Realtors) want to feel is that we've done a great job in helping people buy and sell a home. The feeling that we have brought people together is quite a pay back." The philosophy permeates the mindset of the Realtors in our Industry.

### The Realtor at Work

Our professional Realtors must be self-sufficient, highly motivated, have lots of energy and stamina, have compassion, and outstanding listening skills in order to get the facts (from buyers especially) to draw

clarity out of obscurity in helping them find "their" home. Each day Realtors share their knowledge of the community, its makeup, resources, social activities, etc. with buyers. They strive to make the complex home buying and selling decisions simpler.

"It was easy" is the phrase that Realtors love to say when they have creatively marketed a home and sold it in a short amount of time for its fair market price. It takes skill and talent to handle the technicalities of successful marketing, negotiating an offer and selling the home. And this skill and effort continues right on through the closing.

### High Expectations

In a real estate relationship, both buyer and seller have expectations that they will receive V.I.P. treatment from the Realtor. I believe that the Realtor should have the same expectation from buyers, sellers and the public. Realtors should expect to receive the same courtesies extended to everyone else who comes into our personal and professional lives. To call in advance if an appointment must be broken; to tell the Realtor circumstances have changed and what they thought was a comfortable dollar investment is no longer possible. Buyers and sellers should follow the golden rule and treat people with whom they come in contact as they themselves would like to be treated if the positions were reversed. Realtors spend more than forty hours a week working. And there are the working evenings and weekends. Realtor's time is a valuable asset. It's given freely and willingly to save the time of buyers and sellers. It needn't be casually wasted.

### Realtors are People, too

Realtors give their all. They do not hold back. They commit themselves to whatever it takes and for however long it takes. Over many years, I've met and talked with hundreds of Realtors. Successful Realtors are miles away from being the "self-serving takers" implied by some media articles. Instead they're just very nice, warm, friendly people, with homes and kids, who decided they wanted to help others find their dream.

Let the Realtors of **The Prudential Preferred Properties** help you find your dream. Call us at the Dream House Headquarters.

# The Shocking Truth about Realtors.

There are major misconceptions about life in real estate.

#1. Realtors are money-mad and all make a fortune. Not! Sales commissions are most often split 4 ways, among the listing and selling agents and their respective companies. There are no salaries, no expense accounts for lunches or gasoline and there are assorted required professional fees that can cost hundreds of dollars a month!

#2. Real Estate is easy; you just walk through homes! Hardly! First, homes have to be found to match the occasionally unrealistic requests of unknowing buyers. Then tours planned, appointments juggled, keys collected, and information double-checked concerning area amenities, schools, history and potential. Realtors often work 12-hour days and 7-day weeks.

So be nice. Say thank you. Give your Realtor honest information to work with. And call when you say you will. You'll not only get excellent service, you'll gain a grateful friend.

We're the real estate professionals with the business expertise.

science are now perfecting the implant process. New materials continue to be developed for greater compatibility between bone, tissue, and the implant; new, stronger implant designs; new and more efficient surgical techniques; sterilization procedures, and even dental appliances have all been improved dramatically over the past two decades.

Today the practice of implantology is rapidly approaching the same level of success as root canal-treated natural teeth.

Even though implants are just now coming into the public eye, tens of thousands of people have implants. Because of the success those people are enjoying, the acceptance and awareness of implants as an effective dental treatment are increasing every year.

Some of the major changes you can expect from a successful implant are these:

- The ability to eat many types of foods you haven't been able to eat for years.

Here's why: Natural teeth can withstand biting pressure of up to 540 pounds per square inch. After years of jaw bone deterioration from wearing dentures, many people can only absorb 50 pounds per square inch. With a successful implant, you could have the ability to absorb as much as 450 pounds per square inch.

- That means you should be able to eat apples, raw vegetables, meat, peanuts, etc., with confidence, and without pain.

- No more of the pain and discomfort that results from dentures that become ill-fitting due to bone loss.

- The nuisance of taking care of traditional dental appliances, such as partials and flippers, will be gone.

- The security of knowing you need no longer fear the embarrassment that your dentures or partials will dislodge, or even come out, when you eat, laugh, or sneeze.

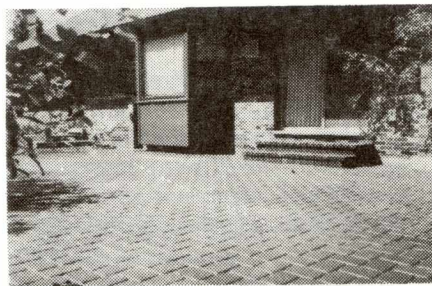

- Regaining the ability to speak distinctly and freely.

The final three productions will be presented in Uihlein Hall of the Perform-

ing Arts Center beginning with Richard Strauss' *Elektra* on November 11, 12 and 13; Giacomo Puccini's *Tosca* on March 17, 18 and 19, 1995, with a non-subscription performance scheduled for March 21(Tu); and Gilbert and Sullivan's *The Pirates of Penzance* on May 12, 13 and 14, 1995, with a non-subscription performance scheduled for May 16(Tu). And you only have to use it once a day—at night—and rinse it off in the morning. Some people can, and do use it twice a day, but it's not mandatory. *The Italian Girl in Algiers* will leave audiences laughing and singing along with the joyous music of Rossini as they experience the performance's hilarious twists and turns of comic trickery.

The classic Greek mythology behind the story of *Elektra* sets a magnificent stage for this captivating tale of treachery and retri-

## From A Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

Last week our sons, Colin and Richard, went to the annual new car showing for dealers in Boston. They were both very impressed and excited with the new products that are due in our showroom shortly. The Explorer has had major changes. The front fascia has been changed dramatically. Explorer will now come with dual air bags and a new suspension for an even smoother ride. The transmission and drive train have been re-tuned.

There is a new two door model coming out called the Expedition. We've been told there will be even greater availability which excites us since Explorer is our best selling vehicle.

A lot of excitement was generated by the all new Ford Contour, the "World" car. According to Car and Driver, "Ford appeals to have made a long term wager that Americans will accept smaller sedans if they're roomy, technologically first rate and stylish. The Contour has standard dual air bags.

By the time this article appears we will probably have the new Contour in our showroom and we can't wait. One of the features on this car particularly appeals to me personally; it's the Micron Air Filtration

System. It filters out virtually 100% of particles larger than 3 microns before they can reach the passenger cabin. Since I have hay fever and asthma, that really appeals to me. I know that doesn't particularly excite our boys, but they're more impressed with the Contour's good looks.

## Book Banning On The Rise, 1994

Winner of the 1991 Pulitzer Prize for fiction, *A Thousand Acres*, was banned at the Lynden, Washington High School because "it has no literary value." The award-winning author Jane Smiley is in good company. In 1993-94, she joins authors such as Katherine Paterson, Mark Twain, Toni Morrison and Laura Ingalls Wilder, whose works were banned or challenged in the last year. Paterson's book, *Bridge to Terabithia*, which won the Newbery award, was challenged for its alleged profane language. The *Adventures of Huckleberry Finn* has also been banned for language offensive to African-Americans, as was Morrison's *Song of Solomon*. *Little House on the Prairie* was banned in Sturgis, S. Dak., due to statements considered derogatory to Native Americans. Even the seemingly innocuous children's book, *Where's Waldo?* was banned in East Hampton, N.Y. because part of a tiny drawing shows a woman lying on the beach wearing a bikini bottom, but no top.

Books like these, challenged or banned on similar grounds during the past year, will be displayed at **Jordan Temple Book Center** in Crystal Lake during Banned Books Week - Celebrating the Freedom to Read, September 24 - October 1, 1994. Most of these books are well-known but are considered dangerous or objectionable by individuals or groups who would deny others

access to them.

**Jordan Temple Book Center** is participating in Banned Books Week - Celebrating the Freedom to Read, which is sponsored by the American Library Association, the American Booksellers Association, the American Booksellers Foundation for Free Expression, the Association of American Publishers, the American Society of Journalists and Authors, and the National Association of College Stores. It is endorsed by The Center for the Book of The Library of Congress. The sponsoring organizations believe that most would-be book banners act with what they consider to be the highest motives—protecting themselves, their families and communities from perceived injustices and evils and preserving the values and ideals they would have the entire society embrace. The result, however, is always and ever the denial of another's right to read. **The Jordan Temple Book Center** believes that Americans support our basic right to read guaranteed in the First Amendment to the Constitution of the United States.

"The whole month of September we will be featuring books that have been challenged or banned in America," says Elizabeth Jordan Temple. "Come see them, some are real shockers."
