A New Year's party was the occasion for a happy time at the home of Henry Thies at Long Grove Sunday night. Miss Sarah and Martha Thies and Miss Martha Brandes of Harmony were the entertainers. Over thirty young people attended and a splendid time enjoyed.
Through a misunderstanding a story gained circulation that Mr. Filbert held papers illegally against other parties. It seems he made a trust deed for two parties and he was made trustee of same. When the money was due it was offered at the bank and because Mr. Patten could not turn over the deed one of the parties misunderstood the transaction and supposed he had been unfairly dealt with. He returned to the bank a few days later and was given the trust deed on payment of same and the matter explained to his entire satisfaction.
Palatine would have been quarantined by other authorities if our own authorities had not done so. Editor Paddock attempted to stir up strife by a foolish article in last week's Enterprise-Register, but the people have become used to his "literary articles" and take them for what they are worth. Vaccination is the only accepted preventative of smallpox and is recognized as such by all intelligent physicians. The article was undoubtedly written to antagonize Dr. E. W. Wood, proprietor of the Chicago Vaccine stable, who gets his printing done at this office.
