Chas. Meyers, Johnnie Stahl and a ty of Long Grove people started on rip to Texas last Tuesday to be the two or three weeks.

Mrs. George Bogart, whose husband was accidently killed by a gun a few months ago committed suicide at her home in Elgin last Tuesday.

The Court of Honor will install the new officers in Odd Fellows hall Sat-urday evening, Jan. 26th. Refresh-ments will be served after the work. Miss Bertin Batterman has been visiting friends in Chicago for #few weeks. She attended parties in honor of Pro, Bieffeld and Miss Collins last week.

Salted cucumbers for sale at 75c pc bushel or 20c per peck.

Sunday evening in the Methodist church Rev. D. J. Holmes preaches on "The Four Great Fountains of Happi-ness", as happiness is what we are all after we had better go and hear him.

William Sterling Battle was greeted william Sterling Battis was greeted by a fair sized audience in the M. E. charh last night in spite of the bad weather. Mr. Battis gave as fine an entertainment as one could wish to hear. He impersonated over twelve different chareters in Dicken's story sat with the closest attention and appreciation for two hours. Should appreciation for two hours. Should Mr. Battis come again he would re-ceive a flattering audience. The nexin the course of entertainments will be the celebrated lecture on "The Devil and The Turk."

School Notes

Mae Sefton, Edward Danielsen and Arthur Mundhenk have recently re-turned to school. In the first fire drill, Monday, th

schoolhouse was emptied in less than one minute after the first signal.

Among the recent visitors may be mentioned Herbert Filbert, Clars Taylor and Mrs. H. C. Paddock.

Growth of Klectric Lighting.
There is much of interest in a late
bulletin issued by the census bureau
of the department of commerce and isbor, which shows the growth of the

electrical industry during the last fleat, proceeding long were flet used commercially, to a limited extent, in 1876, but the first extent electric light station supplying current to such lamps are not installed until 1870. Insystem of the last extent and the first central station commenced operations in 1882, but during the insertially during the station of the last digitality during the insertial process of legislate being used commenced operations in 1882, but during the insertial process of legislate buildings and vessels. Electricity has been used commercially less than two-ty-dree years, yet during this comparatively short prefet the industry had were much older. The strain popular than two in the last process of the last process were much older. The urban p ties absolutely dependent upon it for transportation facilities, artificial light transportation facilities, artineal light and power for manufacturing. Of the 1,802 places reported at the twelfth census as baving a population of 2,500 and over, 1,511 had one or more central electric stations operated either independently or in connection with an elec-tric ruilway, and there were 1,000 places with a smaller population hav-ing similar stations. The present mag-nitude of the industry is indicated by the following table:

Number of electric stations

The report gives some significant in-formation as to municipal ownership as compared with the contract system of electric lighting. The numberial plants number 815 and supply N; per cent of the electricity for inconducent lights and 132 per cent of that used for which The average cost of public electric, lights in place by the report of the period o
