moval to Eigin will soon occur.

This has been the worst, winter on railroads that has been experienced in nearly thirty years, and more engines have been temporarily knocked out of severce by cold than in any recent year in the history of railroading. This is said to be rother reason the temporaries are of so much the modern engines are of so much under the modern engines are of so much any engine services them that the old sayly enactines; and weather affects them more easily.
