WAR ON CONSUMPTION

State Board of Health Issues a Valuable Circular on Disease.

Its Cause and Prevention—Over 7,000 Deaths from Consumption in this State in the Year 1903.

The secretary of the state board of health, Dr. J. A. Egan, is now busily engaged in the preparation of the second edition of a circular on "The Cause and Prevention of Consumption," the first edition of which, amounting to 10,000 copies, was issued little over two weeks ago. This second edition, thoroughly edited and revised will be out in a few days, but in the meantime the most remarkable accumulation of applications for these publications is piling up in the office of the board. The circular was written for the layman, not for the medical man and was designed as a plain and practical talk to the consumptive on how he may regain his health and prevent conveying the disease to others; to the healthy man on how he may avoid the disease himself and how he may appreciate the physical conditions which indicate the threatened invasion of the disease; to the members of families of consumptives, advising them as how they may properly care for consumptives with little danger to themselves and how they may safely live in houses in which consumptives have lived or died.

No better excuse for this circular need be given than the statement that in 1903 over 7,000 people died from this disease in Illinois, more than from typhoid fever, diphtheria, scarlet fever, all forms of bronchitis, influenza, whooping cough, measles and smallpox combined, and that of all these deaths consumption is the one great enemy of man in his prime of life, killing, without respect to manner of life or social conditions, at the age when man is of the most value to his family and to the state. Of the 7,000 dead from consumption in 1903 in Illinois 4,500 died between the ages of 20 and 30.

A state hospital for consumptives is strongly urged by the state board of health and the circular states that powerful influence and support for a bill leading to the establishment of such an institution is already assured. The new edition of the circular will be ready in a few days and copies free to all who apply for them.

Didn't Stay Long.

A traveling photographer advertising as "The Oaks Art Co." distributed circulars about the village last Thursday. The circulars were "good for \$1 toward the payment on a dozen of cabinet photos worth \$1.50" if presented Saturday and Sunday.

A number of our people who were of an economical turn of mind visited the studio of the philanthropist Saturday and Sunday. They paid 50c and deposited the coupon circular.

They were to call for their finished likenesses Monday and Tuesday. The "studio" was empty.

FORGOT THE CHILD.

Barrington Man Leaves His 11-Year Old Daughter in Nunda Depot.

It is nothing unusual for travelers to forget their baggage and leave it at some station, afterward telegraphing for it to be forwarded. But the limit is reached when a man becomes so heedless as to forget his own daughter. This happened at the depot in Nunda the other day.

Fred Wiseman of this village visited there accompanied by his youngest daughter. He boarded the train for home, never remembering for an instant that his daughter, aged eleven years, was left behind. The station agent found the forsaken miss and after much questioning and some telegraphic communication received instructions to forward the little lady to Barrington by next train.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A new device, dependency invariably preceded suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It brings a great tonic and nerve and builds up the system. It's also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by G. C. Roberts & Co. Druggists.

Union picnic Aug. 17th.

Dangerous Sidewalks.

Although notice after notice has been served by the village clerk, authorized by the board of trustees, on property owners whose sidewalks are in a dangerous condition, but little attention has been paid to said notices. It seems that the property owners ought to realize that he is laying himself liable for damages by leaving walks in such a condition; and it also seems that the property owner should care to add to the appearance of his holdings by keeping the walks in a condition for travel.

It is not unlikely that the village board may do here as has been done in other villages, pass an iron clad sidewalk ordinance, cement or asphalt, requiring the property owner to pay two-thirds the cost, the village paying the other third. Such an ordinance will serve to give this village good walks.

Political Paragraphs.

The republicans and democrats have decided to establish branch headquarters in Chicago. The managers promise "a sane campaign."

The Waukegan Gazette is of the opinion that but small opposition will develop against the officers asking for re-nomination by the republicans of Lake County.

Non Frank O. Lowden will tour the state in interest of Charles S. Deenen, republican nominee for governor. It seems to be the consensus of opinion that Mr. Deenen don't need any help in his campaign.

Wm. P. Scott, nominee for president of the United States on the National Liberty party ticket was jailed at St. Louis last week. Mr. Scott can not be expected to run very fast if they keep him locked up.

The campaign can be said to be underway. Reports are coming in from the metropolitan papers are printing dispatches relating how Josephine the great democratic leader of Quenten's Corners will not support Parker and how Wayback Combs of Langensheim, the veteran republican wheel horse has boiled the nomination of Roosevelt.

Editor Hall of the Elgin Courier, talks like a man who had interviewed Judge Parker and found out just what that gentleman proposes to do in case he is elected. The Courier outlines the policy of the democratic nominee. No other person or journal seems to know anything about it. The Courier scores a scoop if it is correct.

LAWN FETE A SUCCESS

Ladies of St. Ann's Church Entertain Large Crowd at Social.

Affair Pronounced Most Enjoyable of the Season—Many Novel Attractions—Girls Band.

The weather was just the kind the committee of arrangements had ordered; the lawn was a scene of beauty decorated as it was with many odd shaped Japanese lanterns, tri-colored bunting and flags in profusion; tables with snowy coverings and huge bouquets of midsummer's floral offerings made an attractive picture. The occasion was the annual social given by the ladies of St. Ann's Catholic church.

At 7:30 there was an exodus of people wending their way to the Lamey house to learn where a hostess of their young ladies awaited ready to entertain in a royal manner. Not only was there refreshments usually found at socials but novel attractions which did not fail to interest both old and young.

The girls' band rendered choice selections and a Barker told how the seventh daughter of a seventh widow would tell your fortune for one dime. A postoffice where lovers could procure a love story to their liking for 10 cents was crowded by anxious ones during the evening.

Ice cream, cake, coffee and doughnuts were secured in quantities to suit.

The Gypsy fortune teller, Madame Sara from Romania, received in a tent and her patronage was large. Young men and women entered the tent to learn where a hostess of their love affairs. Some of them emerged their faces wreathed in smiles. Others were pronounced in their opinion of fortune tellers. The married folks were told of many startling things.

There was fun at the postoffice. Old bachelors called for and received missives which caused their ears to beat like a trip hammer. Old maids were as usual, left out of the distribution of mail.

The affair deserved the large patronage accorded and was enjoyable in every particular and successful in a financial way.

THE BACHELOR SET.

Barrington Eligible Have Well-Defined Opinions of Matrimony.

I am convinced that time and tide wait for no man; woman, however, is hopeful to the last.—Alderman Donlea.

It may be true, as has been said, "all marriages are made in heaven," but if so a lot of them got badly twisted before reaching earth. Matrimony requires careful consideration.—Glenn R. Hawley.

The man who invented the hammock adapted to "two souls with but a single thought; two hearts that beat as one" proved himself a bachelor's benefactor.—Morris Regan.

A good idea of a married woman is a female at the head of the stairs with a club in her hand at 2 o'clock in the morning.—John Donlea.

We often hear of mother tongue, but not a thing is heard about the father tongue because he can't get in a word.—Thomas Cret.

Leap year is half gone, and still there are lots of nice intelligent girls well-qualified to manage a cottage who seem mighty backward in saying anything about matrimony loud enough to be heard.—Chas. Jalnke.

Some of the married women in this village who claim to have found their affinity don't look as though they were very proud of the discovery.—Larry Donlea.

There is so much similarity about the fair sex that it's hard to choose. The worship of "em requires a great many human sacrifices.—Carl Ernst.

From observation I believe it would evidently be a greater pleasure to die for some woman than to live with them.—Ed Wichman.

To marry or not to marry; that's the question. Whether 'tis better to remain in single blessedness and suffer the uncertainty, or to take up domestic life is a question not easily determined, but 'tis a consummation devoutly to be wished.—Will Cannon.

It's a good plan when you are undecided about an important question like jumping into matrimony to stop and consider. "Twisting that convinced me that there might be lots of happiness in married life.—Geo. Otis.

Royal Neighbors' lawn social Aug. 16th.

Stop Kicking and Help Push.

There is a disposition on the part of a certain element in this community to oppose every move directed for the welfare of the village. The contingent delights in belittling the actions of each and every public official and circles the manner in which improvements are outlined or completed. If the street committee does not order certain streets graveled there is a wall from the dissatisfied ones; if the committee improves the street there is a howl about extravagance. Anything to do an excuse for kicking.

We once read a splendid thought evolved by some broad-gauge philosopher which might work advantageously to the kickers and village as well:

"When you are sorely tempted to throw a stone in the direction of a new project tending to the development and upbuilding of the village, look around and see if it would be possible to secure a bouquet as a substitute. The change might not be so gratifying for the time being but it would in the end, be more beneficial to you."

McHenry County Fair.

The first annual exhibition of the McHenry Agricultural society will be held at Woodstock, August 22-23. An excellent program of amusements and attractions has been arranged which cannot fail to prove of interest to all who patronize the fair.

Among the new features will be competitive lowballing of agricultural products. The premium list is a large one and liberal in all departments, which will no doubt attract a fine and varied display.

WAUCONDA MENTION.

Succinctly Told by Our Regular Correspondent.

II. T. Graham Sundayed at Barrington.

The latest reports have Mr. Oaks slightly improved.

Mr. Todd of Dundee, spent Sunday with Miss Lillah Goding.

The circus at Elgin last week attracted a number of Wauconda people.

Mr. Hanson of Chicago spent Sunday at the home of Mrs. Elma Graham.

Our people are going around quite merrily this week at the public square.

The St. George Choir, of Chicago will come for ten days outing at Camp Thonny this week.

Is there any significance attached to a visit to our village from A. C. Frost? If so, Hoory for us.

The Junior aggregation of Wauconda last tuesday proceeded to do things to that department of the Y. M. C. A. Camp Monday and were victorious by a score of 23 to 13.

Word comes from Barrington that L. A. Jones, who took Mr. Robert's place in our Drug store while the latter was on his trips, has purchased Geo. C. Roberts & Co. store at Elgin.

Mr. Jones is a thorough business man and his many friends wish him success which they feel sure he will achieve.

Mr. and Mrs. Calahan and children, Mr. and Mrs. Thelan and children, Mrs. Walsh and little daughter, and Miss Moore are being entertained at Camp Thomas.

The two gentlemen are in the employ of the Chicago Post-office. It is also interesting to note that the gentlemen were formerly Wauconda residents.

Fire was discovered in the beautiful residence of Miss Mary Glynn Monday afternoon. The alarm was rung and in a very few minutes our fire company had two lines of hose throwing water into the room. So quickly was it accomplished that the fire was put out before it was fairly started. Considerable damage was done, mostly by water, but was fully covered by insurance.

Our community was shocked Monday evening to learn of the sudden death of Mrs. Wm. Brooks at the age of about 74 years, heart trouble being the cause of her death. The funeral was held Wednesday from the M. E. church, Rev. Pierce officiating, and interment was made in the Wauconda cemetery beside the remains of her husband who preceded her to the better land some years ago. Mrs. Brooks was generally a good health and her death comes as a surprise to her relatives and friends, by whom she will be greatly missed.

Not All Poor Children.

Complaint has been made that some of the children sent out from Chicago by the Fresh Air organization are not from homes where poverty and want is found. One little fellow told the lady who had "opened her heart and home to the poor, mistreated, unfed little ones" that his papa and mamma had gone to visit his aunt and didn't want to be bothered with him.

Elgin papers state that many of the children sent into that vicinity are from the homes of well-to-do people. Many of the children refuse to eat some of the foods put before them, stating that it was too common. One boy asked why the family he was stopping with did not keep maids as his parents did at home.

Will Abate a Nuisance.

A section of drain leading from Chestnut street to Washington has been left in an exposed condition for years. Residents in that vicinity complained vigorously to the board of trustees and the matter now being taken care of. There is about 200 feet of 21 inch glazed tile to be put in to complete the connection from the north side of Chestnut street to the catch basin on Franklin street from which a main sewer runs to the big outlet on Washington street.

The tile is now being placed on the ground and will be put in on once.

Salem Church Notes.

The general repairs made in decorating the walls and carpeting the floor of the Salem church do not reach the sum of \$4,500 as reported last week. About \$600 has been expended.

The evening services on Sunday evening will be held in the English language. Special singing accompanied by a number of musical instruments will be part of the program.

Switzerland's Cheap Travel.
On the average, railway rates are much lower in Europe than in America. This is due to at least two causes: first, that prices generally are less in the older countries; second, that most of the roads over the water are owned or controlled by the government.

In none of the countries are rates cheaper than in the model republic of Switzerland. Horace Lee Washington, the American consul at Geneva, refers to one peculiar feature of the Swiss system. In a recent report to this government he says that the steamers and railways of Switzerland sell time tickets, ranging from fifteen to thirty days, permitting the holder to travel at will during the designated period.

These tickets are obtainable at all large railway and boat stations in Switzerland. They may be ordered through any station, however. A delay of from one to two days is usual, and a photograph, size known as "carte de visite," is required.

The tickets permit continuous and unlimited travel at will during the period of their validity upon most of the railways and lakes in Switzerland, and upon some fifteen of the small roads not embraced in the ticket privilege, usually funicular roads, a reduction of from 20 to 50 per cent upon usual fares is extended.

The rates of fare are:
First Second Third
For fifteen days..... \$1.10 \$0.85 \$0.75
For thirty days..... \$2.10 \$1.45 \$1.25
Upon these rates 50 cents is returned at the end of the period. Longer periods of travel, three, six and twelve months, also are provided for. No baggage is transported free on the Swiss railroads.

It is a useful point of information for travelers that trunks may be sent by post throughout the country and thus be delivered at hotels to wait the arrival of owners. This is a practical plan for medium sized and small trunks and valises. The trunks must be sent to the postoffice, but are delivered on their arrival.

It is apparent that Americans can advantageously study the transportation systems of other countries.

More Good Swimmers Wanted.
Almost every steamship disaster brings out the astonishing fact that a large percentage of the male passengers and, alas, many of the sailors and other employees cannot swim. Nothing so adds to the panicky feeling at such times as the consciousness that one is at the mercy of the waves. On the other hand, a good swimmer has nothing to fear and can keep cool and give confidence to others. And it is a matter of wonder where those men are reared who cannot swim. At this season of the year the docks of all port cities and towns are lined with urchins and young men who can swim, beach resorts and swimming baths are crowded with them, as are the lake and river banks inland. No village is without its "swimming hole," and surely this is a nation of swimmers. It must be that the men who cannot swim were bred in some foreign country where public bathing is so strictly regulated that it is practically wiped out of existence.

As a rule swimming in this country is indulged in as a mere pastime. Perhaps it would be well to raise it to the dignity of a manly accomplishment and encourage high proficiency in the art. A young man who cannot save his sweetheart from drowning when the bottom drops out of a pleasure craft lacks one quality essential for the life protector of womanhood.

The Public Toothpick.
The little English girl who thought that American lumbermen must make money because everybody over here chewed toothpicks came dangerously near to treating us as a national corn. Here is another story almost as good. A young man was hanging to a street car strap and was absently, even peacefully, picking his teeth. Presently the woman who was seated in front of him touched him on the arm. "Sir," she said pleasantly, "would you mind going out on the platform to pick your teeth? I'm not at all curious to know what you had for dinner."

The fellow left the car immediately, while the conductor rang up two fares by mistake.

A Massachusetts judge has decided that a girl is not a disturber of the peace who makes a habit of drumming on her piano till midnight. This may be technically correct, but the neighbors usually winds up in the neighbors rather violently disturbing the peace.

Chicago now figures that she has 2241,000 population. If it were not for the unsympathetic census takers Chicago would soon have the greatest population of any city on earth.

It is reported that highwaymen wearing silk hats are holding up people in New York. There is some question as

to whether the report refers to stock-brokers or cab drivers.

Pauline Astor is to marry a man whose first name is Spender. Perhaps that is the reason he is going to marry her.

A New Jersey man has started in on a forty day fast. Is he sure that the beefsteak will be over so soon?

Brigadier General Finston having been ordered to the command of the department of the east, with headquarters on Governor's Island, New York harbor, some sensational swimming exhibitions in New York bay are looked for at an early date.

A New York man wants to be buried alive for eight days. Even if such a thing could be successfully accomplished, why should a man aspire to do what a toad can do better?

General Kuropatkin says he was only trying to find out things at Moten pass. From the way he got licked it is evident that he found out.

It is now said that the Four Hundred is composed of only 200 members. Perhaps the rest got ashamed and withdrew voluntarily.

The Death Penalty.

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny blows have paid the death penalty. It is wise to have Huckleberry's Amulet Save ever handy. It's the best talisman on earth and will prevent fatality, when Burns, Sores, Ulcers and Piles threaten only 25c. at G. C. Roberts & Co., Drug Store.

Self Sacrifice.
To live or to die for his fellows is the noblest lot that can fall to man. There are many who so live, but they go about it so quietly that we hear little of them. There are many who so die, but such a death cannot be concealed any more than can a light upon a mountain, so that the world looks on at these beautiful deaths and grows sadder and nobler for the looking.

The Rotary Hook dispenses the old, out-of-date, unmechanical and troublesome shuttle.
The frictionless ball bearings and perfect mechanical construction enable it to be operated with one-third less exertion than is required by ordinary machines. It sews three yards of goods while a shuttle machine sews two.
It makes the most elastic and most perfect stitch, whether sewing light or heavy goods.
With our superior attachments the greatest variety of work is possible. Do not make the mistake of buying a sewing machine until you have given the Wheeler & Wilson No. 9 a trial.

Republican County Convention.

Pursuant to the order and direction of the Republican County Central Committee of the County of Lake and State of Illinois, a Republican County convention will be held at the Town Hall, in the village of Libertyville, Cook county, Illinois, on the 10th day of September, 1904, at 2 o'clock p. m., for the purpose of nominating a candidate for Circuit Clerk, a candidate for Coroner, a candidate for State's Attorney, and a candidate for County Surveyor.

It having been heretofore resolved that each voting precinct in the county be declared a primary district, and that a primary election or caucus be called for each of said primary districts, and the Republican legal voters and each County Central Committee, pursuant to such resolution, having adopted rules to carry the same into effect, which rules are as follows:

Rule I. All Republican primaries, or caucuses, for the selection of delegates to Republican county conventions hereafter called shall be called by the Republican county central committee in each and every voting precinct in said Lake county, to be held on the same day, and the hour thereof to be between two o'clock p. m. and eight o'clock p. m., and the polls thereof shall be open for at least three hours.

And each County Central Committee shall see to it that such primary is fully advertised.

Rule II. All voting at such primaries or caucuses shall be by uniform ballot, which ballot shall be printed by the County central committee and distributed by such committee to the Republican township committees of the several townships, to be by such last named committee delivered to the judges of the primaries of the several precincts of such townships, who shall be chosen by such township committees, wherein same shall be delivered to voters and prepared for voting and voted the same as the Australian ballot under the regular Election Laws of Illinois, and ballots to be used voting.

Rule III. Said ballots shall have printed thereon, in addition to the names of the delegates, the names of all candidates for the several offices for which

nominations are to be made at the convention for which delegates are to be selected; and the voter shall receive his ballot from one of the judges of the primary, and shall indicate his choice of candidates by making a cross opposite the name of the candidate of his choice for each office and cast his ballot so marked the same as at an election by Australian ballot under the regular Election Laws of the State, and for any office who shall receive the highest number of votes for that office in any precinct shall have the delegation of that precinct as instructed for him and to vote for him at the County convention; for which such delegates are chosen; and the ballot shall so state such instruction.

Rule IV. Such ballot shall be in the nature of an official ballot, and shall bear the name of the Secretary of the County central committee printed on the back thereof and when delivered to the voters by the primary judges they shall have the initials of the primary judge who delivered them written thereon, and in counting ballots cast none shall be counted other than such official ballot so marked.

Rule V. Such ballot shall contain the names of but one set of delegates in each precinct to be selected by the County central committee of each precinct for his precinct and spaces shall be left vacant so that names of other delegates may be written in and voted for by the voter by erasing printed names and substituting written names therefor.

Rule VI. Each candidate shall register his name as such candidate with the Secretary of the county committee immediately upon declaring his candidacy, and pay to said secretary a fee of \$100 (\$50.00 to help defray the expenses of printing and distributing such ballots.

Rule VII. The call for the County convention shall be by thirty days notice published at least once in each week for two successive weeks, the first publication to be thirty days before the Convention day, except where special elections and district convention calls demand a shorter notice necessary.

Rule VIII. The Judges of the several primaries shall make up credentials according to the result of the ballots cast, and shall also forthwith certify such result to the Secretary of the County committee for the County convention.

Rule IX. The County committee shall meet to execute these rules on call of the chairman of secretary thereof.

Rule X. These rules shall be of course, be subject to such changes and modifications as may result from the primary election law hereafter passed by the Illinois General Assembly, and said County committee having voted and directed the polls of such primaries to be held pursuant to said rules on September 10, 1904.

The several primary districts will therefore call their primary elections to be held in each primary district in said county on the 9th day of September, 1904, the polls of such primaries to be open for at least three hours between two o'clock p. m. and eight o'clock p. m. on said mentioned date, the judges and clerks thereof to be appointed by the several township committees.

The voting at each of such primaries shall be by ballot, of the kind and in the manner provided for in and required by said rules above mentioned and set forth.

The registration for each primary district in said County convention hereby called will be one delegate for each twenty-seven voters, or major fraction thereof, cast for the Republican candidate for president in 1900.
