What More Do They Need?

CHUNG SIN TELLS POLICE HOW ELBIE SIEGEL WAS BLAIN.

By PROF. GEORGE D. FOSTER

GIVEN THE "THIRD DEGREE"

Declares Leon Ling Drugged, Then Tortured, Girl Death-Blayer Still Evaded the Detectives.

THERE was a time in the history of humanity, in the most elementary stage of human culture, when man, unlike the wild roaming beast of the forest, crouched on a precarious livelihood as best he could by plunder and the chase.

New York City was first intimidated by detectives with prosecution and confined with rapid fire in the Chung Sing, one-time room mate of Leon Ling, told the story of Elsie Siegel's murder Thursday.

This attitude of woman was not an arbitrary matter. She did not reason it out and then try to turn from the chase to agriculture. The new movement was born of a natural necessity. It grew from her function as the mother of the race, her function as a woman in bearing children.

Under the terrific pressure of the case, the witness admitted that he saw the body in Leon Ling's room, that he had been asleep at the time and that he had in his alcohol drugged and had washed down Ling's preparations for placing the body in the trunk where it was found last Friday night.

As progress went on the mother gave the name to the child, and even to the tribe. Woman also founded the sanctuaries of religion, and so was mother of the divine as well as the human.

Chung Sin, in fact, if what was learned at the original court held in the corner, described almost everything concerning the murder of Miss Siegel.

Later it was a significant fact in the great turning point in civilization, when the tribes God of the church had become motherhood in its attitude and content. At such a time it was a woman, Maria, queen of the heaven and mother of God, that wrestled with the omnipotent church lord and won the victory.

Chung Sin, 35 years old and a native of West Guaiy, N. Y., a small hantam near Amsterdam, Monday and brought to New York. Immediately after his arrest updates and all during the trip by the truck.

To-day we are at another fork of the road in civilization, and a new turning point in the history of the race has been reached. One of the significant and characteristic features of it is the woman's movement.

Chicago - Burglars found a rear window in the store of Kastner & Co., Chicago, druggery Emil Hassis, an actor, was attacked last Wednesday night in a feud caused by allegations paid to young women and he fired three shots from his revolver.

Something significant is going on in the soul of woman today. How profound it is understood neither by friend nor foe of the movement.

Fairfield - A coroner's jury held Herbert O. Finlay, of French Lick, Ind., blameless for the death of Dr. Charles H. Leisinger and Frank McCullough. The verdict was one of self-defense.

Yet you know how offensive this whole movement is to many men and women today. They cry: Is it more rights that they want? But what more do they need? Are they not secure in their position as wives and daughters?

Chicago - The Illinois State Police, in a raid on the residence of a woman named Elsie Siegel, who was the victim of a rape and murder, found the body of a young man who had been shot and killed.

It is not that you want more rights; it is that you want more freedom. You want more freedom of the individual, more freedom of the group.

Chicago - The Illinois State Police, in a raid on the residence of a woman named Elsie Siegel, who was the victim of a rape and murder, found the body of a young man who had been shot and killed.

The point is not whether woman can give quite comfortably in a state of subjection. The point is that this subjection is contrary to the moral law of nature.

Chicago - The Illinois State Police, in a raid on the residence of a woman named Elsie Siegel, who was the victim of a rape and murder, found the body of a young man who had been shot and killed.

Courtesy Keeps Home Life Happy

It scarcely is too much to say that, having inherited frankness and plainness of speech, without reason, the lack of everyday courtesy between husbands and wives has wrecked the happiness of many marriages that have otherwise seemed promising. The point is that the harm done is no necessary, almost always so wholly innocent of malice. Somebody has defined relatives as "persons who are connected by blood or marriage." As such as wife with impunity. "Not many people will be found fully to endorse this cynical definition; yet none can deny that the same lack of ceremony includes the want of politeness, behavior, and the often disregard of the comfort of the rest of the family.

Chicago - The Illinois State Police, in a raid on the residence of a woman named Elsie Siegel, who was the victim of a rape and murder, found the body of a young man who had been shot and killed.

Not long ago a woman lashed to the "home circle" of her favorite family medicine that her husband neglected his shaving in the most scandalous fashion when, as he expressed it, "there was nobody to see." He forgot that his wife was there to see. If any one else were to speak of her as a nobody he would be indignant; he reserves that privilege for himself.

Chicago - The Illinois State Police, in a raid on the residence of a woman named Elsie Siegel, who was the victim of a rape and murder, found the body of a young man who had been shot and killed.

So also the woman who abroad in the picture of dignity heathen thinks a wrapper good enough for her husband at home, nor perhaps always is the careful that the wrapper is tidy and fresh enough to please a fastidious eye.

Chicago - The Illinois State Police, in a raid on the residence of a woman named Elsie Siegel, who was the victim of a rape and murder, found the body of a young man who had been shot and killed.

Exercise Care in Giving Medicine

For people realizing the danger of allowing druggists to prescribe for them, I have never known a druggist who would immediately prescribe for a person who gives a prescription. As a rule, coastal analysis given. Such a drug will ease the head, slow down the heart and weaken the force, and soon render the patient more feeble. But the headache may be the beginning of an acute disease. Later, when a physician is called, he loses valuable time in recognizing the disease, as the drug has masked the symptoms.

HIDDEN WEALTH FOUND.

Iowa woman who Mistreated Babies Secured Fortune Under Carpet and in Old Organ.

CASTORA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Dr. J. C. Watson

Use For Over Thirty Years

CASTORA

Beating Every Other Brand

Approved Remedy for Constipation, Sour Stomach, Diarrhoea, Worms, Colic, Fevers, etc.

The Simple Signature of **CASTORA**

THE CASTOR OIL COMPANY, NEW YORK.

Warranted under the Food and Drug Act.

Best Copy of Wrapper.

What you can do on 10 acres

You have read of the big profits being made by growers in the Gulf Coast Country of Texas. Has it occurred to you to consider what you could do under similar circumstances? Isn't it reasonable to suppose that you can do as well?

If you should go to the Gulf Coast Country of Texas and buy a 10-acre tract this is what you might reasonably expect, if you do as well as the average—for these are not fanciful figures—but the actual average results, carefully figured from the yields of a large number of growers in the Gulf Coast Country of Texas:

WINTER CROPS		SUMMER CROPS—Same Land	
3 1/2 Bermuda Sodgrass	\$939.00	2 1/2 Indian Corn	\$445.00
1 1/2 Cucumbers	793.00	2 Peanuts	160.00
1 1/2 Potatoes	264.00	5 Cotton	310.00
1 1/2 Cucumbers	246.00	1 Sorghum	75.00
1 1/2 Celery	400.00	Total yield from 10 a.	\$507.50
1 1/2 Peppers	100.00		

The expense of raising these crops is not great, for you will not need much help on 10 acres. You can do what others are doing. Go see for yourself. Very low excursion fares include a month with Rock Island-Frisco Lines. The trip itself will be a pleasure. The climate is a marvel to all—winters mild and sunny—summers pleasantly cooled by Gulf Breezes. Can you afford to miss such an opportunity?
