THURSDAY, JANUARY 20

PNEUMONIA SEASON HERE It is the pneumonia season. From early fall until late spring, during al the cold, raw, wet weather, death in the guise of the pneumonia germ

And nobody can eave you from pacmonia but yourself. It is a case where an ounce of prevention is worth two tons of cure, for of all the diseases, this is one of the easiest to avoid and

one of the hardest to cure. Cosumption is ranked as the most dreadful of scourges. But, while con sumption carries off 109,000 victim ually in this country, pneumonia while consumntion is being mastered and is on the decline, pneumonia still baffles medical science and is on the

Science has identified the "pneu moctoccus" germ, it is true. It is everywhere—in the dust, in the damp and even in our mouths, by the mil As a mere potential parasite i doesn't amount to much. If only we keep ourselves in fair "condi any weakening of the system gives e germ his chance for deadly work

If you are stricken with the disease there is no drug that will certainly arrest its development, no system of nursing or treatment upon which you may safely rely to carry you through And yet of all diseases this is t

e in which the physicians earl ossible attentionis most important He may not be able to cope with the directly, but he can conserv your vital forces and give you tha fighting chance which alone can sav monia can't touch you. An eminer specialist gives the following simple Guard against chill and damp
