If you can write a better book, preach a better sermon or build a better mountrap than your origibor. Although you may live in the woods, the world will make a beaten path to your door.

We do not aim to excell in any of these vocations, but we expect that Emerson referred to any old line of business and so we are endeavoring to open a reasonably passable road to the REVIEW office door by doing good printing Our commercial printing is always done in a manner to make it attract particular notice—it partakes of individuality We use better papers, better inks, and better type faces than most of our neighbor printers, and we give more attention to your work; that's why our printing is of a higher class. An examination of our specimens is our best testimonial Call.

### Barrington Review Job Printing Department

Our printing is sold on the assump-tion that there's economy in quality.
