Proof That the "Burr" Culture Was  
First in Existence—Evolution  
From the Mandible to the  
Lips.

The "burr" culture was in existence long ago as 4000 B. C. This is the earliest form of information we have of the Burr culture, as implied by Mr. P. P. R. Haddock's book, "The Burr Culture," published in 1891. This book, "The Burr Culture," published in 1891. This book, "The Burr Culture," published in 1891.

It was not part of Mr. Haddock's program, but he was so interested in "burr" that he introduced into the lectures a most original study, and had referred to the burr in a most original way. This was in a most original way. This was in a most original way. This was in a most original way.

The evolution of handwriting from the crude drawing of the actual thing signified to the conference script which we now use is a most original study. This was in a most original way. This was in a most original way. This was in a most original way.

# WOMAN ESCAPES OPERATION

## Was Cured by Lydia E. Pinkham's Vegetable Compound

After suffering from a  
disease which rendered me  
blind and I have only taken  
one box of Pinkham's Vegetable  
Compound. I am now  
well and my eyes are  
opening. I can see  
things as they are and I  
am able to do my usual  
work. I am a great  
beneficiary of your  
Compound. I have  
been suffering from  
this disease for  
years and I have  
tried every remedy  
but I have only  
been cured by  
your Compound.
