NATION'S PLOWING BILL LARGE

A new official of the U. S. Department of Agriculture estimates the annual cost of plowing in the United States at about \$450,000,000. On an average \$100,000,000 are plowed each year. Taking the country as a whole, \$1.50 per acre is probably no enough estimate of the cost of plowing. In some sections, such as in the extreme case, while with mechanical power fifty cents will cover all items, including interest, repairs and maintenance, in other sections the cost of plowing is due to power boomer.

Abraham Lincoln was no doubt the greatest man of his day and should be highly honored, but it is suggested that at the present time, less attention were paid to Mr. Lincoln and the civil war, and more to the vital questions of the present day there would not be occasion for so much talk-fading on the way affairs of the nation are conducted. What would have happened if Lincoln had spent his time in the study of science? What would have happened if Lincoln had spent his time in the study of agriculture preceding him instead of devoting it to the important hours of the day in which Lincoln cannot be better honored than by following his example than by releasing his anecdotes?

Well, the "rascals" are pretty well outed. Now we will have a better tariff, lower prices, no grafting in politics and a real program of reform.

A Missouri farmer has just let an estate amounting to over eight million dollars. Now you will turn your attention to farming.

No Telephoned Prescription. Time was valuable to the druggist who had to take a long drive to get a wanted old prescription filled. Now a hurry, no more waiting back for a prescription that had set him up early in the summer.

Very Sincerely the New York drug giant regretted that he could not get more of the medicine.

"Why not?" said the druggist. "I have given you the number, the date, the name of the doctor, and the druggist in this town is right at my elbow. You can take your order any day, so there can possibly be no mistake."

"That may be very true" was the reply of the customer. "But you do not give me the prescription. I will mail you a copy of the prescription. You will fill it for me or put up with the doctor. But you will do anything in fact to help you out to telegraph the prescription. That is not of the use to me."

The druggist said he would be pleased and turned to the village drug store for a prescription. But he got a stamp. "Why wouldn't he send it," said the druggist. "No druggist on earth will telegraph a prescription to another village myself."
