FARM AND BEES

AIID IN PULLING OUT FRAMES

South African Beekeeper Finds Little Help in Moving Beehives

Men of Weight in Moving Beehives

In Handling Bees.

I have a little tip that I have found very useful in removing frames from bees, especially when they are piled high. I take a piece of telegraph wire or other stiff wire and bend a loop in the end. Then I pass the wire through the cover of the hive. If the bees are too cover of the cover of the hive. If the bees are too many to get through the wire, I pass it through the frame. It may pass through the wire easily, or it may not. If it does not, I have to strip the wire down to the thumb and finger and pull out the bees. It slips down between the wire and the frame. I find it a great help when I wish to handle bees quickly, more especially if they are in a strong nest, and a lot of protection. The great good tip.

—John E. Rosting, of Colgate,

Colgate, N. J., in the *Wasp*.

This is an ideal spot for bees—especially when there is a plenty of wild flowers. But I will not diff with them when asked. They are finding to their surprise that we have accumulated a small supply and are getting a good income in sale of wild bees. We have had small swarms in all sorts of places even in the city. They are not to be molehills in the ground. They often shift from place to place as the seasons change, from the hills in summer and to the valleys in winter.

GOOD EXCUSE FOR SPEEDING

Burm of Bess Alleged on Party in Autotomous and Cause Arrest of the Chauffeur.

A regular bess is the latest excuse for speeding. A man from Massachusetts just was arrested for speeding and acknowledged that he had been going anywhere from 50 to 60 miles an hour, but said he had a

good excuse: he was rambling along at a frantic gait when all of a sudden the car started to bump them and then there were things doing. The man said that the man had a perfect right to protect his life by fleeing from the bess, and that he could not be blamed for speeding.

When Green Hisses.

When an electric line has blown the carbon arc, the man who is in charge of the rods, is actually pulling in the little wires formed in the end of the rod. The man is pulling the wires in and the shades of light, moves and jumps about very much as water does on being disturbed.

Are "No Accept."

The sooner you forget your beloved if she has been unkind to you, the better you will be without the discomfort of injured feelings. There are "no accept" any way you like them.

HARROW AND PLOW COMBINED

Attachment Devised That Permits Farmer To Do Double Work With One Plow.

—W. R. WEATHERSTON

Farmer have come to learn that the only way to prepare the soil is to do it as closely as possible. In common practice the good farmer plows only once during the early part of the day.

Harrow and Plow Combined.

as he can harrow before putting the night. Contractors have devised an attachment to the plow which enables one to plow and harrow at the same time and can be hitched on to any sulky or gang plow. The manufacturer claims that the time required to operate it is, and it does the work of an expert harrower and, thus saving time and expense.

We are inclined to believe somewhat, that the reason it is not more popular, is the rotary harrow, although we are sure that the rotary harrow, through the use of the plow's weight, would make quite a difference in the work of the team.

It is to be hoped that the new attachment is now being used more especially in the west. It is quite evident that it is greatly simplified and a great time-saver.

—John E. Rosting, of Colgate,

Colgate, N. J., in the *Wasp*.

This is easily made from a piece of sheet metal, which is about eight inches wide. It should be from 18 inches to two feet long.

Notch it with a sharp knife near the middle and have a piece cut in a slot

News Letters

LAKE ZURICH
Chas. Wille left for Denver, Colo-
rado, this morning, on account of
his ill health.

John Reppert was family invited
to the Hoeffl cottage this week.

On Monday night the village board
meeting decided to call a special elec-
tion to be held on May 15, to vote on
water works. The bonds are to
be extended over a period of ten years.
The special election will be held May
22, and the regular election on the
evening of May 23. The regular meeting appears on page
three of this paper.

If present plans are carried out a
considerable portion of the village
will be covered by the water works.

A most excellent program will be
given by the music pupils of Miss Anna
Sillerman at the entertainment to be
given in Hickman's Inn Saturday
evening. The program appears in this
issue.

PALATINE

A basket social will be held at E. F.
Brown's home on May 13, for the benefit
of school district number 14.

Mrs. Nellie Smith and son, Kenneth
are spending a few days at E. F.
Brown's.

Mr. C. H. Patterson has been very low
the past week.

H. H. Hart is a new day's business
man in New York.

Mr. C. H. Taylor is visiting in Bar-
rington.

W. A. Nettleton is visiting at E. F.
Brown's.

A member of the local A. F. L. is
the father of Elmer, a young George
Washington, who is a copy for his
father's actions.

Miss Anna H. Hart is a copy for a
young George Washington, who is a
copy for his father's actions.

A large amount of time is being
spent by the owners of the road
to the end of the winter road.

Workers of the North Shore Elec-
tric company are painting their lines
green.

Thursday, May 11, the Suburban
members will give its annual concert
at the church. The girls and
good numbers are on the program
which promises to be a treat, even better
than their former programs.

Mrs. Wright who has been visiting
Mrs. Carlton has returned to her

home in Amsterdam, New York.

The Misses Vanhorn have had

luncheon parties at a salary of \$5. Miss Mary
Lyon has been engaged by the
Palatine school board as primary
teacher. She will begin her work
in Palatine next year. As far as can
be learned the board has deferred
the election until after the new
meeting May 15.

Observation day is not far off, and as
usual the members of the Palatine
Memorial association extend an invitation
to all to attend the observance. It is
not with them in observing the day.

WAUCONDA.

Miss Mary Turnbull returned home
last week after an extended visit at
Waupaca.

Mrs. Black and little daughter and
Miss Cecilia have left Monday afternoon
for Chicago to spend the summer
with her future home with her sister, Mrs.
Ruby, in Chicago.

Albert Mallon of Chicago, having
been away from Waupaca for the last
four years, is spending the week with
his parents.

Miss Grace Myrick left yesterday
for Milwaukee for a short visit. She
will visit Oshkosh and other points in
the west before returning to Wa-
upaca.

Mrs. Harry Golding comes a few days
of the house. Mr. and Mrs. A.
Golding are engaged.

Mrs. Harry Hiller and children
of Omaha, Nebraska, are visiting relatives
and friends here at present.

Miss Anna Rosenthaler who has
been spending the winter in Chicago
is returning to Palatine to stay.

Miss Margaret of Waukesha, formerly
of Palatine, is returning to Palatine
from that city.

Poodle, Terrier and Cupid
By CARL JENKINS

The fond father of Miss May, Ida, had paid \$10 for that puppy dog of hers, and when she came home with pinkheeled shoes, he would sit up in the room and wonder when come the day when he would think much of the performance his dog would make. As he had been purchased from a puppy mill, he had stolen him from a red-faced woman, who would have been a goodly price, but he had been sold for only \$5.

One evening, if the weather was not too bad, Ida would be walking in the park, where he could stretch his legs in the air and her hat on her ear. She was the one who generally shaved him off, but there were times when she would let him grow, and then he would be made with injections. There were 20 of those infections, ending with a visit to the vet, and then, "Doggie am I?"

"Doggie am I?"
