For the Sake of My Custom- ers' Safety and Health

Remembering the old adage, "Cleanliness is next to godliness," and desirous of giving my customers with open and sanitary con-
ditions and countenances, I have sold
several boxes of my "Safety and Health"
two articles needed to make this possible. The
articles—disinfecting oil for straw
and oil for ice cream—are in the
same box. The oil for straw is
strong from the start and grows, and
those who use this will notice my han-
tions against the dampers meeting with
the usual results of keeping them.
