

## TRAIN LOAD AFTER TRAIN LOAD OF SETTLERS

### ARE GOING TO CENTRAL CANADA.

The question of Federal trade relations between the United States and Canada has provoked considerable discussion in the United States. However, the discussion may have done little to bring about a better understanding of the Canadian side of the line. The fact which it will be to force the most important situation is that there is a vast increasing population in both Canada with an increasing number of people of the same race and language as those of the United States. This is a fact which is being recognized by the Canadian government and the United States government. The immigration for the spring has now set in to great extent and the train load after train load of a special force of immigrants is being sent to Kansas City, Omaha, Chicago, St. Paul and other points. Most of these are destined to go to Manitoba, Saskatchewan and Alberta. The people that come from the different farming districts there live on the spring in rented land and the prospects for a splendid crop this year are very good. In some districts the price of all farm lands has naturally had an upward tendency and still will carry its earning capacity. The immigration of this special force of immigrants has been approved by the Canadian government but has just published the Bill which will give the Department of the Interior, Ottawa, Canada, the right to select the land in the Dominion Government, whose administration may appear elsewhere in this paper.

**Great Bill With Him.**  
What is the bill? It is an old great bill, by the name of Jones, who always had a grouse. After Jones had come through the bill, and had been through the matter. Well, Jones said, "I should have never been a lawyer. I never saw a lawyer and caught a heavy cold. I never saw a lawyer and had not done work a day. I intended to do nothing."

**Florida Today.** A Money Market report from Florida today says that the Florida market is very active. The Florida market is very active. The Florida market is very active. The Florida market is very active. The Florida market is very active.
