Barrington, Ill.

Every drop of Heath & Milligan Paint

is subject to a pressure of 2200 pounds. Every drop goes through seven slow thorough pro-cesses of manufacture which insures complete unification or mixing. That's why

Feath & Milligan Looks so much better

paint lasts so long. Looks so much better and you use so much less than any other paint.

¶ Every drop is absolutely uniform, that is why it never wears out in spots, but after years and years of exposure you find all parts have worn down gradually, smoothly and evenly and the wood in splendid shape, underneath.

¶ Ask for sample color cards and more reasons why you should use Heath & Milligan Paints.
