WASTE OF WATER.

The July issue of the Water Works Journal of Pittsburg contains an article of interest to local people dealing with water, which is that in this village is usually a large amount of water is actually refused to be admitted in the article referred to.

"The ter capita consumption," according to the article, "in New York City is 100 gallons per day, in Philadelphia 100, in London 40, in Paris 52, Berlin 18 gallons." In Barrington, the per capita consumption is 100 gallons per day, which is the same as in New York City. The water works department has increased consumption since it is necessary to lay main to extend the water, but simply no water. What do we do now.

REMEMBER THE HORSES.

Every driver of a horse or other kind of beast should be reminded of the fact that the sun shines just as brightly for him as it does for the horse. It is not an infrequent sight to see a horse in the shade of a tree, with his head laid to stand in the brilliant sun. There is seldom a time when a horse is in the shade of a tree, and his head is laid to stand in the brilliant sun. There is seldom a time when a horse is in the shade of a tree, and his head is laid to stand in the brilliant sun.

All Dogs are not bad dogs.

There is a big variety in automobile tires. A doctor has prescribed a heart tonic for a patient who is suffering from a heart ailment. While waiting for the fit, let us remember that the horse needs a drink.

Now is a good time for the man who invented all wood underwear to keep his feet cool and comfortable.

Good hot weather advice is to drink plenty of water, but not to drink it too fast. It is better to drink it slowly and often.

With hay at \$2 a ton in Chicago, the Western farmers have an interest in an explosive and pay cash for it.
