shape out of paper which has been col-ored a greenish grey, and paste this oato an egg shell. (Figs. 2 and 3.) The slightest breath of air will mak-him wriggle in a most lifelike manner

WHY HORSE DISLIKES CAMEL

proves From Bottom of His Na e of Hopelessly Vulgar and Awkward Animal of Desert.

Animals have their likes and dislikes as well as men, and they are quite as and to explain.

A cat naturally dislikes and fear a A cat naturally dislikes and fear a Gog. Horses loath camels, and will not stay in the same block with them of the categories of the camels. It is a hard to give a cause for these xeroices. Way should the horse disversions. Way should the horse dis-

he dog?

must be that the horse has a
mant sense of beauty and of humor.
Ideal of the horse is grace, comdwith strength. He disapproves
the bottom of his nature of the from the bottom of his nature of the propelessly vilgar, sweward and un-stabellad camel. The bar, he sees the once, though claumy, is unpreten-tions, trushful and not devoid of a sease of humor. The dog be recognized as a good fellow, companionable and merilin. A strong bond between the log and the horse is that they are both log and the horse is that they are both or and the companionable and the sease of the companionable and log and the companionable and log and the companionable and the properties of the properties of the companionable and the companionable and the companionable the compan

Size of the Stone.

Little Fegd was telling his father about a peculiar stone he had found while at play in the back yard.

"How big was it?" asked his father.
"Oh, about as big as a good sized small apple," replied Fred.
