

RESOLVED

THAT OUR BUSINESS IS BOOMING, BECAUSE WE BOOM IT

WE BOOM OUR BUSINESS BY GIVING OUR PATRONS GOOD STUFF FOR THEIR MONEY

BUSTER BROWN

JUST NOW WHEN BUSINESS IS SO RUSHING IT IS BARELY POSSIBLE THAT YOU MAY NOT GET THE GOOD QUALITY OF GOODS YOU DESIRE. UNLESS YOU COME TO THE STORE THAT CARRIES NOTHING BUT GOOD GOODS. WE KNOW YOU ARE GOING TO CELEBRATE BUT YOU ARE NOT GOING TO WASTE ALL YOUR MONEY ON FIREWORKS. ARE YOU? WHY NOT BUY GOOD THINGS TO WEAR. FIREWORKS DON'T LAST LONG BUT CLOTHES DO IF YOU GET THEM AT THE RIGHT PLACE. IF YOU WILL COME TO US WE WILL TELL YOU THAT SUIT, THE NECKTIES, SHIRTS, UNDERWEAR AND HOSE SO REASONABLE THAT YOU CAN AFFORD TO BUY FIREWORKS TOO.

SPECIAL FOR JULY -
25c Six Air Toggles - 1 Hamper - No Fire, No Smoke

A. W. MEYER

800

old houses have been wired for electric service since January on our plan of 100% cash in 4 months, 50% cash in 4 months, 20% interest

Cough Cure

If you are bothered by the cough or cold, a single dose of Kaffee-Ko, taken at an interval of five days, will cure you. It is made of the same effect as is obtained by swallowing gumdrops.

Japanese Banks in China

Japanese banking facilities in China are now being expanded. They are being made larger and still better. In anticipation of the other banking interests are doubling their capital and establishing in new banking lines.

North Shore Electric Co.

Ask for particulars.

ETERNAL VIGILANCE

by the North Shore Electric Company is the price of satisfactory service to its patrons.

Whenever anything goes wrong this company wants to know of it, so in order that the trouble may be adjusted.

To that end the company welcomes complaints. And we get them—sometimes a good many, though *it is not in the total number of complaints*. A careful analysis of all complaints received shows that about 99 per cent of them are due to the wearing out of some appliance or fixture long in use, or to the lack of knowledge or carelessness of the complainant.

Yet, whether trivial or serious, every complaint receives the same prompt, courteous and careful attention. This is a very important part of our service.

This company has built up an electric service in a territory covering many hundreds of square miles.

We are proud of this fact. But we are prouder of the fact that our service makes friends.

This company's aim, instead of offering excuses, is to provide adequate and efficient service—to meet the ever growing needs of this growing territory.

NORTH SHORE ELECTRIC COMPANY

SHIP OF THE FUTURE

Capacity of the Hydroplane to Be Shown.

FASTEST CRAFT ON WATER

American Superiority to Be Shown at Mississippi Power Boat Association Regatta, to Be Held at Chicago, Ill., on July 3, 4, 5, and 6.

When W. H. Faber of bicyclic hydroplane, inventor of the hydroplane, first conceived the perfected which many people believe is the ship of the future, a craft the design of which would revolutionize water transportation and with every ocean voyage at the rate of a hundred miles an hour.

A hydroplane is exactly what the name implies: Hydro—water, plane—water, as if it were skimming over the water as a cork does.

It is a flat plate over the surface of the water, and it is shown on the right it will go a long way, because it is so light and its surface is so smooth. Behind it is sufficient. There is a tank, with valve or three times the force, through, instead of over the water, and it stops almost instantly. This is the way the hydroplane is made. Instead of encountering and displacing the water, creates a suction and a vacuum.

W. H. FAUBER.

Inventor of the Hydroplane.

from the top the hydroplane boat is a kite-like cutting edge of a peculiar flat disk, under speed, which has the same shape as a kite. The hydroplane boat has as much greater speed as a cork does on water. The hydroplane boat, which has been pushed through the water, will go a long way, because it is so light and its surface is so smooth. Behind it is sufficient. There is a tank, with valve or three times the force, through, instead of over the water, and it stops almost instantly. This is the way the hydroplane is made. Instead of encountering and displacing the water, creates a suction and a vacuum.

SIR JOHN THORNGROFT.

Local Items

Independence day Tuesday.

Miss Ruth Horner of Planklin is visiting with her cousin, Miss Flora, of Williams street.

Mrs. Charles Field of Chicago is visiting with her mother, Mrs. Arietta Brier, of Williams street.

Alverson & Grief have arranged to handle fresh milk and cream for the benefit of their customers, and will have a supply on hand all day.

Harrington will also have "Fourth" this year, as usual. The most exciting event scheduled for Independence day is the Y. M. C. A. ball game. Many residents are planning to celebrate at neighboring cities.

Elden Gliese, son of William Gliese of this village, went with an accident yesterday which will lay him up for a week or more. While reaching for a ring of soap in the bathroom at 10' S. Some customary error, where he is employed, he used a case of linen soap, and in so doing he fell, breaking when it fell, out a gash in his leg which necessitated a visit to the doctor.

Electrical Culinary Utensils. Electrical culinary utensils are generally inferior, being made on the steam principle, by which the vapors are retained inside the receptacle.

Daily Reminder. The most common error forward the course of engine takes a way; was not as a matter of fact, a fisherman, here in town who tried for a time in Rhode Island.

Solution on the Bench. An old inmate was brought to a new county jail as John Timmy, alias John, alias Smith. The judge, in his own right, said the justice "bring in Allow Jones."
