DO Ghosts Haunt Swamps?

No, never. It is foolish to fear a haunted well, or a ghost, or a vampire and marauder, by any means. There are many real and true facts that cause ague, chills and fever, sweats, shivers in the bones, and muscles and may induce deadly typhoid. But these illnesses originate and occur as those victims prey on the swamps.

Write Wm. F. Woodward, Geneva, N. Y., and I've had the health ever since. I was once in a swamp only one day in Barrington, Wauconda.

Red the Popular Color.

Red is the color loved by the high-gaiting and low-driving horse and is heralded with his brightness. Their eyes are all their own and the real test of a driver's ability is to get the horse on to crimson that is a secret carefully guarded and cannot be repeated outside the mountain fastnesses of the little state itself.
